Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

CGG Provides its Vessel Utilization

Update for the Second Quarter 2013

PARIS, France July 10, 2013

CGG provides its vessel utilization and its fleet allocation for the second quarter of 2013.

Vessel utilization for the second quarter 2013:

The **vessel availability rate¹** was **93%**. This compares to a 91% availability rate in the second quarter of 2012 and a 88% rate in the first quarter of 2013.

The **vessel production rate²** was **92%**. This compares to a 91% production rate in the second quarter of 2012 and a 93% rate in the first quarter of 2013.

Fleet allocation update for the second quarter 2013:

Our 3D vessels were allocated during the quarter 79% to contract and 21% to multi-client programs compared to 17% and 36% of our 3D vessels allocated to multi-client in the second quarter 2012 and first quarter 2013.

Multi-Client Sales:

Multi-client sales and the prefunding rate for the second quarter 2013 should be in line with our expectations.

¹ The **vessel availability rate**, a metric measuring the structural availability of our vessels to meet demand; this metric is related to the entire fleet, and corresponds to the total vessel time reduced by the sum of the standby time, of the shipyard time and the steaming time (the available time), all divided by total vessel time;

² The **vessel production rate**, a metric measuring the effective utilization of the vessels once available; this metric is related to the entire fleet, and corresponds to the available time reduced by the operational downtime, all then divided by available time.

About CGG

CGG (www.cgg.com) is a fully integrated Geoscience company providing leading geological, geophysical and reservoir capabilities to its broad base of customers primarily from the global oil and gas industry. Through its three complementary business divisions of Equipment, Acquisition and Geology, Geophysics & Reservoir (GGR), CGG brings value across all aspects of natural resource exploration and exploitation.
