PROXY STATEMENT FOR THE ANNUAL

MEETING OF STOCKHOLDERS

To Be Held May 2, 2014

Stewart Information Services Corporation is furnishing this proxy statement to our stockholders in connection with the solicitation by our board of directors of proxies for the annual meeting of stockholders we are holding Friday, May 2, 2014, at 8:30 a.m., CDT, in the First Floor Conference Room of Three Post Oak Central, 1990 Post Oak Boulevard, Houston, Texas, 77056, or for any adjournment of that meeting. For directions to the annual meeting, please contact Ted C. Jones in Investor Relations at (713) 625-8014.

Proxies in the form enclosed, properly executed by stockholders and received in time for the meeting, will be voted as specified therein. Unless you specify otherwise, the shares represented by your proxy will be voted (i) for the board of directors' nominees listed therein, (ii) for the approval of the advisory resolution regarding the compensation of Stewart Information Services Corporation's named executive officers, (iii) for the ratification of KPMG LLP as Stewart Information Services Corporation's independent auditors for 2014, (iv) for the approval of the Stewart Information Services Corporation 2014 Long Term Incentive Plan, (v) for the approval of the Stewart Information Services Corporation Amended and Restated Certificate of Incorporation to eliminate cumulative voting. If after sending in your proxy you wish to vote in person or change your proxy instructions, you may before your proxy is voted deliver (i) a written notice revoking your proxy or (ii) a timely, later-dated proxy. Such notice or later-dated proxy shall be delivered either (i) in care of our Corporate Secretary, Stewart Information Services Corporation, 1980 Post Oak Boulevard, Suite 800, Houston, Texas 77056, or (ii) in person at the meeting. Please note that stockholders who hold their shares in our 401(k) plan must provide their voting instructions no later than 11:59 p.m., EDT, two days prior to the meeting. We are mailing this proxy statement on or about March [], 2014, to stockholders of record at the close of business on March 24, 2014.

At the close of business on March 24, 2014, [] shares of our common stock (Common Stock) and 1,050,012 shares of our Class B common stock (Class B Stock) were outstanding and entitled to vote, and only the holders of record on such date may vote at the meeting. We will count the shares held by each stockholder who is present in person or represented by proxy at the meeting to determine the presence of a quorum at the meeting. As long as 600,000 or more shares of Class B Stock are outstanding, the Common Stock and Class B Stock will be voted as separate classes at each election of directors. Holders of our Class B Stock, whom we refer to as our Class B Stockholders, may convert their shares of Class B Stock into shares of our Common Stock on a one-for-one basis at any time.

The holders of our Common Stock, whom we refer to as our Common Stockholders, voting as a class, are entitled to elect five of our nine directors. Each Common Stockholder is entitled either to cast one vote per share for each of those five directors, or to vote cumulatively by casting five votes per share, which may be distributed in any manner among any number of the nominees for director. The enclosed form of proxy allows you to vote for all of the nominees listed therein, to withhold authority to vote for one or more of such nominees, or to withhold authority to vote for all of such nominees. If you withhold authority to vote for four or fewer of the nominees, and if there are nominees other than those nominated by the board of directors for the director positions to be elected by the Common Stockholders as listed in this proxy statement, then the persons named in the enclosed proxy may vote cumulatively by dividing the number of votes represented by the proxy equally among the nominees for whom you did not withhold authority to vote. If there are no nominees other than those nominated by the board of directors for the five positions to be elected by the Common Stockholders, the persons named in the enclosed proxy intend to allocate the votes represented by the proxy evenly among the nominees chosen by the board of directors as listed in this proxy statement. If there are any additional nominees for such

Table of Contents

positions, the persons named in the enclosed proxy will vote cumulatively to elect as many as possible of the nominees chosen by the board of directors. If it is not possible to elect each of the five nominees chosen by the board of directors, the persons named in the enclosed proxy will have discretion as to how they allocate the votes among the Company nominees chosen by the board of directors.

Unless there are director nominees other than those nominated by the board of directors, withholding of authority to vote in the enclosed proxy will not affect the election of those directors for whom you withhold authority to vote because our Amended and Restated By-Laws provide that directors are elected by a plurality of the shares voted in person or by proxy. For the purpose of electing directors, broker non-votes are not treated as a vote cast affirmatively or negatively, and therefore will not affect the outcome of the election of directors. Both abstentions and broker non-votes are counted for purposes of determining the presence of a quorum.

Our Class B Stockholders, voting as a class, are entitled to elect the remaining four of our nine directors. Each Class B Stockholder has the right to vote, in person or by proxy, the number of shares it owns for those four directors for whose election it has a right to vote.

Our Common Stockholders and Class B Stockholders will vote together as a single class with respect to the approval of the advisory resolution regarding the compensation of our named executive officers. Approval of this proposal requires the affirmative vote of the majority of the shares voted at the meeting. Brokers do not have discretionary authority to vote shares on the proposal without direction from the beneficial owner. Broker non-votes will not be counted. Abstentions, which will be counted as shares present for purposes of determining a quorum, will not be considered in determining the results of the voting for this proposal. Your shares will be voted as you specify on your proxy. If your properly executed proxy does not specify how you want your shares voted, the shares represented by your proxy will be voted **FOR** the approval of this proposal.

Our Common Stockholders and Class B Stockholders will vote together as a single class with respect to the ratification of the appointment of KPMG LLP as our independent auditors for 2014. The ratification of this proposal requires the affirmative vote of the majority of the shares voted at the meeting. Under New York Stock Exchange (NYSE) rules, the approval of our independent auditors is considered a routine matter, which means that brokerage firms may vote in their discretion on this proposal if the beneficial owners do not provide the brokerage firms with voting instructions. Abstentions, which will be counted as shares present for purposes of determining a quorum, will not be considered in determining the results of the voting for this proposal. Your shares will be voted as you specify on your proxy. If your properly executed proxy does not specify how you want your shares voted, we will vote them **FOR** the approval of this proposal.

Our Common Stockholders and Class B Stockholders will vote together as a single class with respect to the approval of the Stewart Information Services Corporation 2014 Long Term Incentive Plan. Approval of this proposal requires the affirmative vote of the majority of the votes cast on the proposal, provided that the total votes cast on the proposal represent a majority of the shares entitled to vote on the proposal. An abstention will have the same effect as a vote **against** such proposal. Brokers do not have discretionary authority to vote shares on the proposal without direction from the beneficial owner. Broker non-votes will not be counted and could impair our ability to satisfy the requirement that the total votes cast on the proposal represent a majority of the shares entitled to vote on the proposal. Your shares will be voted as you specify on your proxy. If your properly executed proxy does not specify how you want your shares voted, we will vote them **FOR** the approval of this proposal.

Our Common Stockholders and Class B Stockholders will vote together as a single class with respect to the approval of the Stewart Information Services Corporation Annual Bonus Plan. Approval of this proposal requires the affirmative vote of the majority of the shares voted at the meeting. Brokers do not have discretionary authority to vote shares on the proposal without direction from the beneficial owner. Broker non-votes will not be counted. Abstentions, which will be counted as shares present for purposes of determining a quorum, will not be considered in determining the results of the voting for this proposal. Your shares will be voted as you specify on your proxy. If your properly executed proxy does not specify how you want your shares voted, the shares represented by your proxy will be voted **FOR** the approval of this proposal.

Table of Contents

Our Common Stockholders and Class B Stockholders will vote as separate classes with respect to the approval of an amendment to the Amended and Restated Certificate of Incorporation to eliminate cumulative voting in order to adopt a majority voting standard. Approval of this proposal requires the affirmative vote of at least a majority of the outstanding shares of each class. Abstentions and broker non-votes will have the same effect as a vote against this proposal. If your properly executed proxy does not specify how you want your shares voted, the shares represented by your proxy will be voted FOR the approval of this proposal.

Except as otherwise specifically noted, the Company, SISCO, we, our, us, and similar words in this proxy statement refer to Stewart Information Services Corporation.

CORPORATE GOVERNANCE

Board of Directors

Dr. E. Douglas Hodo and Catherine A. Allen will not stand for reelection to the board of directors. The board of directors is grateful for their innumerable contributions to the Company over their 26 years and 5 years of service, respectively. Paul W. Hobby will not stand for reelection to the board of directors. It is expected that he will be elected to serve as an advisory director at the 2014 annual meeting.

We have nominated two new independent directors to serve on the board of directors: Glenn C. Christenson and Arnaud Ajdler. Additional information regarding Mr. Christenson and Mr. Ajdler is set forth above in Proposal No. 1. Subject to his election at the upcoming annual meeting, the board of directors intends to select Thomas G. Apel to assume Dr. Hodo's duties as Chairman of the board of directors.

General

We are managed by a board of directors comprised of nine members, five of whom are elected by our Common Stockholders and four of whom are elected by our Class B Stockholders. A majority of the members of the board of directors are independent within the meaning of the listing standards of the NYSE. Assuming the election of the 2014 director slate set described above, these directors are: Thomas G. Apel, Frank Keating, Glenn C. Christenson, Arnaud Ajdler, Robert L. Clarke, Laurie C. Moore and W. Arthur Porter. The board of directors has determined that none of these directors has any material relationship with us or our management that would impair the independence of their judgment in carrying out their responsibilities to us. In making this determination, the board of directors considers any transaction, or series of similar transactions, or any currently proposed transaction, or series of similar transactions, between us or any of our subsidiaries and a director to be material if the amount involved exceeds \$120,000, exclusive of directors' fees, in any of our last three fiscal years.

The roles of Chairman of the board of directors and Chief Executive Officer are separate and each role is held by a different individual. The Chairman of the board of directors is elected by the board following the annual meeting of stockholders. Our Class B Stockholders are entitled to nominate the person to serve as Chairman of the board of directors. As discussed below, the Chairman also presides over the regular and any special meetings of our non-management directors. Our non-management directors meet prior to each regularly scheduled board meeting.

All of our directors shall be elected at the annual meeting of stockholders and hold office until the next annual election or until his or her successor shall be elected and shall be qualified, or until his or her death or the effective date of his or her resignation or removal for cause. The act of six of the directors shall be the act of the board of directors except as may be otherwise specifically provided by statute, by the Certificate of Incorporation, or by the Company's Amended and Restated By-Laws.

The board of directors has unanimously approved, on a conditional basis, an amendment to the Company's Amended and Restated By-laws to change the voting standard for uncontested director elections from a plurality standard to a majority standard. The majority voting standard raises the standard for election to the board of directors by requiring affirmative votes from a majority of the votes cast in an uncontested election. In connection with the majority voting standard, the board of directors further approved a policy requiring the resignation of a director who fails to receive a majority vote in an uncontested election. Under the new By-law, in a contested election, the plurality voting standard would still apply. The effectiveness of the amended By-law implementing the majority voting standard and related director resignation policy is conditioned on stockholder approval of Proposal No. 6 to eliminate cumulative voting.

During 2013, the board of directors held four regular meetings, two special meetings, one retreat, and executed six consents in lieu of meetings. All directors attended all of such meetings. For 2014, the board of

directors will have an Executive Committee, an Audit Committee, a Nominating and Corporate Governance Committee, a Compensation Committee and an Advisory Committee. See Committees of the Board of Directors below.

The board of directors has adopted the *Stewart Code of Business Conduct and Ethics*, *Guidelines on Corporate Governance* and *Code of Ethics for Chief Executive Officers, Principal Financial Officer and Principal Accounting Officer*, each of which is available on our website at www.stewart.com/investor-relations/corporate-governance and in print to any stockholder who requests it. We intend to disclose any amendment to or waiver under our *Code of Ethics for Chief Executive Officers, Principal Financial Officer and Principal Accounting Officer* by posting such information on our website. Our *Guidelines on Corporate Governance* and the charters of the Audit Committee, the Nominating and Corporate Governance Committee, the Compensation Committee, and the Executive Committee require an annual self-evaluation of the performance of the board of directors and of such committees, including the adequacy of such guidelines and charters. The charters of the Nominating and Corporate Governance Committee, the Audit Committee and the Compensation Committee are available on our website at www.stewart.com/investor-relations/corporate-governance and in print to any stockholder who requests them. Our *Guidelines on Corporate Governance* strongly encourages attendance in person by our directors at our annual meetings of stockholders. All of our directors attended our 2013 annual meeting of stockholders.

Director Qualifications

Each of our directors is an individual of high character and integrity, with an inquiring mind, and works well with others. Each director nominee brings a unique background and set of skills to the board, giving the board of directors, as a whole, competence and experience in a wide variety of areas, including insurance, real estate, technology, strategic planning, corporate governance, executive management, accounting, finance, government and international business. For information regarding the qualifications, background and experience of our director nominees, please see each nominee's biographical information under Proposal No. 1.

Risk Oversight

The board of directors has ultimate responsibility for protecting stockholder value. Among other things, the board of directors is responsible for understanding the risks to which we are exposed, approving management's strategy to manage these risks, and monitoring and measuring management's performance in implementing the strategy. The board of directors works with its committees and management to effectively implement its risk oversight role.

The Audit Committee, with the assistance of management, oversees the risks associated with the integrity of our financial statements, our compliance with legal and regulatory requirements, and our liquidity requirements and other exposures to financial risk. The Audit Committee reviews with management, independent auditors and internal auditors (the internal audit function has been outsourced to Deloitte & Touche LLP) the accounting policies, the system of internal controls and the quality and appropriateness of disclosure and content in the financial statements or other external financial communications. The Audit Committee, with the assistance of our legal department and human resources department, also performs oversight of our various conduct and ethics programs and policies, including the *Stewart Code of Business Conduct and Ethics*, reviews these programs and policies to assure compliance with applicable laws and regulations, and monitors the results of our compliance efforts. To the extent the Audit Committee identifies any material risks or related issues, the risks or issues are addressed with the full board of directors.

The Nominating and Corporate Governance Committee, with the assistance of management, oversees risks associated with administering our *Guidelines on Corporate Governance* and is responsible for reviewing and making recommendations for selection of nominees for election as directors by Common Stockholders. To the

extent the Nominating and Corporate Governance Committee identifies any material risks or related issues, the risks or issues are addressed with the full board of directors.

The Compensation Committee, with the assistance of management, oversees risks associated with our compensation programs and policies. To the extent the Compensation Committee identifies any material risks or related issues, the risks or issues are addressed with the full board of directors.

Advisory Directors

In addition to the directors elected by our Common Stockholders and Class B Stockholders, from time to time our board of directors appoints advisory directors. These individuals are selected based on their potential as future candidates for our board of directors. This gives potential director candidates the opportunity to learn firsthand about the Company and provides a bench of candidates who have gone through the learning curve regarding the Company, its products, policies and business practices. If elected, they are ready to fully engage as directors. Our advisory directors receive notice of and regularly attend meetings of our board of directors and committees on which they serve as non-voting members. They provide valuable insights and information, but are not included in quorum and voting determinations. Non-employee advisory directors receive the same compensation for their services as our elected directors receive. Employee advisory directors do not receive any pay as an advisory director (see Footnote 1, Page 38). All advisory directors attend meetings at the pleasure of the board. Matthew W. Morris, the Company's Chief Executive Officer (CEO), currently serves as an advisory director.

Committees of the Board of Directors

For 2014, the board of directors of the Company will have the following committees: Executive, Audit, Nominating and Corporate Governance, Compensation and a new committee, Advisory, which shall be established immediately following the annual meeting.

Executive Committee. The Executive Committee may exercise all of the powers of the board of directors, except those specifically reserved to the board of directors by law, by resolution of the board of directors, or by the Executive Committee Charter. The Executive Committee currently consists of Thomas G. Apel (Chair), Robert L. Clarke, Paul W. Hobby, Malcolm S. Morris and Stewart Morris, Jr. During 2013, the Executive Committee held four meetings, at which all members were present, except that one director missed one meeting, and executed eleven consents in lieu of meetings. Assuming election of our director nominees, after the annual meeting the Executive Committee will consist of Tom Apel, (Chair), Robert L. Clarke, Glenn Christenson, Malcolm Morris, and Stewart Morris, Jr.

Audit Committee. It is the Audit Committee's duty to assist the board of directors in fulfilling its oversight responsibility of (i) the integrity of the financial statements of the Company, (ii) the independent auditors' qualifications, independence, and performance, (iii) the Company's system of controls over financial reporting, performance of its internal audit function, independent auditors, and compliance with ethical standards adopted by the Company, and (iv) the compliance by the Company with legal and regulatory requirements. The Audit Committee has sole authority to appoint or replace our independent auditors. The Audit Committee has the authority to engage independent counsel and other advisers as it determines necessary to carry out its duties. The Audit Committee operates under a written charter adopted by our board of directors, a copy of which is available on our website at www.stewart.com/investor-relations/corporate-governance. The Audit Committee currently consists of Robert L. Clarke (Chair), Thomas G. Apel, and Laurie C. Moore. During 2013, the Audit Committee held 8 regular meetings, at which all members were present. Each of the members of the Audit Committee is independent as defined under the listing standards of the NYSE and the Securities Exchange Act of 1934, and the board of directors has determined that Mr. Clarke is an audit committee financial expert as defined in the rules of the Securities and Exchange Commission. No member of our Audit Committee serves on the audit committees of more than three public companies. Assuming election of our director nominees, after the annual meeting the Audit Committee will consist of Robert L. Clarke (Chair), Glenn Christenson and Laurie Moore.

Table of Contents

The Audit Committee has established procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls and auditing matters, and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters. Persons wishing to communicate with the Audit Committee may do so by writing in care of Chairman, Audit Committee, Stewart Information Services Corporation, 1980 Post Oak Boulevard, Suite 800, Houston, Texas 77056.

Nominating and Corporate Governance Committee. It is the Nominating and Corporate Governance Committee's duty to: (i) identify individuals who may become board members or advisory directors, (ii) select or recommend director nominees for the next annual shareholder meeting, (iii) develop and recommend to the board of directors a set of corporate governance principles applicable to the Company, (iv) provide oversight of the Company's corporate governance, and (v) oversee the evaluation of the board of directors and management. The Nominating and Corporate Governance Committee currently consists of Dr. W. Arthur Porter (Chair) and Laurie C. Moore, each of whom is independent as that term is defined in the listing standards of the NYSE. The Nominating and Corporate Governance Committee held four regular and one special meeting during 2013, at which all members were present. Our Nominating and Corporate Governance Committee's charter is available on our website at www.stewart.com/investor-relations/corporate-governance. Assuming election of our director nominees, after the annual meeting the Nominating and Corporate Governance Committee will consist of Dr. W. Arthur Porter (Chair), Laurie Moore, Governor Frank Keating and Arnaud Ajdler.

Our *Guidelines on Corporate Governance* require that a majority of the nine members of our board of directors be independent as that term is defined in the rules of the NYSE. As described above, a majority of our current board of directors is independent under the filing standards of the NYSE. Our *Guidelines on Corporate Governance* also provide that the Nominating and Corporate Governance Committee shall be guided by the following principles:

Each director should be an individual of the highest character and integrity and have an inquiring mind, experience at a strategic or policy-setting level, or otherwise possess a high level of specialized expertise, and the ability to work well with others. Specialized expertise or experience that will augment the board of directors' expertise is particularly desirable.

Each director should have sufficient time available to devote to our affairs to carry out the responsibilities of a director and, absent special circumstances, no director should simultaneously serve on the boards of directors of more than three public companies. Directors are qualified for service on the board of directors only if they are able to make a commitment to prepare for and attend on a regular basis meetings of the board of directors and its committees.

Each independent director should be free of any significant conflict of interest that would interfere with the independence and proper performance of the responsibilities of a director. Directors to be nominated for election by our Common Stockholders should not be chosen as representatives of a constituent group or organization; rather each should utilize his or her unique experience and background to represent and act in the best interests of all stockholders as a group.

Directors should have equity ownership in the Company.

The board of directors does not have a formal policy with respect to board nominee diversity. In recommending proposed nominees to the full board, the Nominating and Corporate Governance Committee is charged with building and maintaining a board that has an ideal mix of talent and experience to achieve our business objectives in the current environment. In particular, the Nominating and Corporate Governance Committee is focused on relevant subject matter expertise, depth of knowledge in key areas that are important to us, and diversity of thought, background, perspective and experience so as to facilitate robust debate and broad thinking on strategies and tactics pursued by us. There are no minimum requirements for nomination.

In recent years, vacancies occurring in our board of directors have been filled by advisory directors whose experience and expertise have contributed significantly to the deliberations of the board of directors and who meet the criteria set forth above.

Table of Contents

Each director is required to own an amount of Company Common Stock equal to a multiple of three times the director's annual retainer. Each director has five years, from the later of their initial election and March 2011, to acquire the required amount of Common Stock. Stock ownership requirements have been designed in such a way that the ability of the board of directors to recruit diverse board candidates will not be impaired, yet board members will have a strong alignment with stockholders.

Pursuant to our Amended and Restated By-Laws, the Nominating and Corporate Governance Committee will accept and consider nominations by stockholders of persons for election by our Common Stockholders to our board of directors. To be considered for nomination at our 2015 annual meeting of stockholders, stockholder nominations must be received by us no later than February 14, 2015. Persons wishing to submit the names of candidates for consideration by the Nominating and Corporate Governance Committee may submit such nominations in writing addressed to the Nominating and Corporate Governance Committee in care of Corporate Secretary, Stewart Information Services Corporation, 1980 Post Oak Boulevard, Suite 800, Houston, Texas 77056. Any such submission should include the candidate's name, credentials, contact information and consent to be considered as a candidate.

Compensation Committee. It is the duty of the Compensation Committee to assist the board of directors in discharging its responsibilities relating to the Company's compensation policies, the compensation of the Company's officers and senior managers, and to produce the required report on executive compensation for inclusion in the Company's annual proxy statement. The Compensation Committee currently consists of Laurie C. Moore (Chair), Catherine A. Allen and Dr. W. Arthur Porter. During 2013, the Compensation Committee held four regular meetings and three special meetings, at which all members were present, and executed one consent in lieu of meeting. Our board of directors has determined that each member of our Compensation Committee is independent as that term is defined in the rules of the NYSE. Assuming election of our director nominees, after the annual meeting the Compensation Committee will consist of Laurie C. Moore (Chair), Governor Frank Keating, Arnaud Ajdler and Dr. W. Arthur Porter.

The Compensation Committee functions pursuant to its charter, which is available on our web site at www.stewart.com/investor-relations/corporate-governance. The Compensation Committee's specific duties and responsibilities include, but are not limited to, the following:

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

The following Compensation Discussion and Analysis (CD&A), describes the Company s executive compensation program in 2013. The objective of our executive compensation program is to maintain a strong pay-for-performance culture in order to attract, retain, and motivate the key leaders who serve our Company and our stockholders. The following pages explain the process, objectives, and structure of the executive compensation decisions undertaken by our Compensation Committee and our board of directors for 2013. This CD&A is intended to be read in conjunction with the tables beginning on page 38 below, which provide detailed historical compensation information for our Named Executive Officers (NEOs). For 2013, our NEOs are:

Name	Title
Matthew W. Morris	Chief Executive Officer
J. Allen Berryman	Chief Financial Officer
Glenn H. Clements	Group President, Direct Operations
Jason R. Nadeau	Group President, Mortgage and Title Services
Steven M. Lessack	Group President, International Operations

Executive Summary

Stewart Pays for Performance and Responds to Shareholders

We are committed to providing value to our shareholders. Along with the strong support of the compensation programs by shareholders in 2013, we continued to dedicate significant efforts to ensuring our executive compensation programs remained appropriate and properly rewarded executives in a manner consistent with feedback received by shareholders. We directly engaged our shareholders, similar to efforts in 2012, to solicit their thoughts and suggestions regarding our compensation programs, and we took action. We are confident that through the discussions below, our shareholders will see that we understand our responsibility to maintain an executive compensation program that fairly and appropriately compensates our executive officers.

Stewart Performance

2013 marked the 120th anniversary of the founding of the Company. From its inception in 1893, Stewart has grown to one of the largest title insurance companies in the nation, and one whose name is synonymous with trust, integrity, and service. This year also marked the achievement of many key strategic initiatives which will continue to position us well for the coming years, including:

We reported pretax earnings of \$101.1 million in 2013, the fourth consecutive year in which pretax earnings increased over the year before.

Our operating earnings grew to \$89.6 million, an improvement of 22.4% over 2012 s \$73.2 million. This increase was achieved with operating revenue growth of 1.3%.

Title losses as a percentage of title revenues declined to 5.9% from 8.1% in 2012, representing the lowest title loss rate since 2006. Cash title claims paid declined 6.7%.

Our commercial revenues in 2013 were \$137.5 million, the greatest since 2007. During the fourth quarter of 2013, we appointed a new head of commercial operations and reorganized the commercial services team to more closely align with customer needs.

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

In August, we received an upgrade from Fitch of our Insurer Financial Strength rating to A- from BBB+.

We continued to transition our mortgage services operation from its historical focus on defaulted and distressed loans to a more sustainable suite of service offerings designed to provide ongoing loan origination and servicing support services. Among the actions taken to that end was the third quarter 2013 acquisition of certain assets of Allon Hill, LLC, an industry-leading provider of loan due diligence and risk management services, and through which we entered the capital markets.

During 2013, we continued our disciplined approach to partnering with high-quality independent agencies; by the end of 2013, our average annual premium received per independent agency had increased 19.5% over 2012.

We introduced the Stewart Trusted Provider Program for our network of independent agencies. An independent agent may display our Trusted Provider seal after undergoing a rigorous review process to validate the high-quality standards they must maintain to be a Stewart agency.

During the first quarter 2013, we exchanged an aggregate of \$37.1 million of our Convertible Senior Notes due 2014 for common stock in privately negotiated transactions. By entering into these exchange agreements, we avoid future interest expense and cash outlay, converted more than 50 percent of the outstanding convertible senior note balance at year-end 2012 into equity, strengthened our balance sheet and eliminated an equivalent amount of future repayment risk.

We continued to successfully manage our litigation risk, with several favorable outcomes from jury trial or other pre-and post-trial activities.

Several of our executives were recognized nationally for their contributions to the industry and for exceptional leadership, including being awarded Best of Biz's CEO of the Year for 2013, recognized in the 2013 Swanepoel Power 200 List ranking real estate industry leaders according to their influence and power, and being named one of HousingWire's 2013 Women of Influence.

These achievement represent a short list of factors which contributed to our Company being one of the highest performing companies in its sector over the past three years. We have experienced consistent positive stock price growth over the past three year period, resulting in a three-year total return to shareholders of 183%. This results in a 3-year relative TSR rank, as compared to our peers, at the 97th percentile. Our Company is performing, and doing so at a rate markedly better than the majority of our peers.

Pay for Performance

Actual total compensation for our CEO was below the market 25th percentile, while our named executive officers as a whole in 2013 were below the 50th percentile. Despite strong financial performance the past two years and a substantial increase in stock price over the same period, the compensation that we have paid our CEO

Table of Contents

has remained below the 25th percentile of our peer group. The Company is aware that it is paying the CEO modestly considering the shareholder value created over his tenure; however this has been a result of Mr. Morris being new to the CEO role as of the end of 2011. The Committee continually assesses the performance of the CEO and his ability to generate value to shareholders. As a result, the Committee discussed Mr. Morris' compensation in 2013 and determined the following:

Mr. Morris has established his ability to lead the Company and create value for shareholders. While it was our practice to compensate him relatively lower than the market over the past three years due to his being new to the role, his performance and tenure justify increases to his compensation. The Committee will consider adjustments which bring Mr. Morris into better competitive alignment with the market.

The use of long-term incentives to create alignment between executives and shareholders is an important market practice. To achieve this necessitates competitive long-term incentive grants which are tied to the performance of the Company. While these grants are currently provided to Mr. Morris, they are at levels which are below the market 25th percentile. The Committee believes increasing the long-term incentive grants provided to Mr. Morris annually is an important step in creating better alignment of the CEO with shareholders and enhancing the motivation to increase shareholder value through growth in stock price.

As the following graph depicts, the performance of the Company under Mr. Morris' leadership has generated an increase in shareholder value. While this has resulted in modest increases to compensation, the relative alignment to market still remains below the 25th percentile. As such, given Mr. Morris' ability to lead the executive team and the obvious shareholder value he and his team have created, the Committee believes it is important to retain and motivate Mr. Morris to continue performing for shareholders.

1) Mr. Morris became CEO in November 2011.

Response to 2013 Say on Pay Vote

An overwhelming majority of the votes cast on our 2013 Say on Pay proposal (the 2013 Say on Pay Vote) were cast in favor of the proposal. Specifically, 85.6% of shares were voted in favor of our Say on Pay proposal. Based on the results of the 2013 Say on Pay Vote, as well as our ongoing dialogue with our stockholders, the Compensation Committee and our Board have concluded that the executive compensation design changes that were first disclosed in 2012, and have been utilized since, are consistent with stockholder expectations and are more properly aligned with the Company's new compensation philosophy and objectives.

For 2013, our Compensation Committee Chairman, along with members of senior management, reached out to 14 of our largest institutional investors, as well as Institutional Shareholder Services, Inc. and Glass Lewis & Co., to engage in valuable discussions regarding our executive compensation program, corporate governance and strategic accomplishments. Thirteen of the investors, along with ISS and Glass Lewis, chose not to engage in discussions at this time. The fourteenth investor indicated approval of our compensation policies and programs. As we evaluated our executive compensation and governance programs in 2013, we considered and incorporated new and previous feedback we received from these sources, which resulted in maintaining previously instituted changes to our executive compensation programs. While all of our programs are discussed in detail below, some noteworthy changes which have occurred since 2011 are as follows:

Our Response to Shareholder Feedback:

Our annual short term incentive plan (STI) was redesigned to create a strong connection between corporate and operational performance and the potential cash awards to be made to our executives. Clear quantitative metrics were established for measuring performance. The Compensation Committee believes that the link between specific, measured performance and compensation is a primary driver of our stock price over time.

Our long term incentive plan (LTI) was redesigned for 2012 to connect vesting events for each type of long term incentive award to predetermined relative Total Shareholder Return (TSR) performance against the peer group and the Russell 2000 Financial Services Index. Clearly defined, quantifiable measures of performance are the keystone of our long-term incentive plan.

Executive base salaries were also adjusted for 2012 to reflect expanded job responsibilities, general market trends, and the newly designed pay-for-performance compensation program. Salaries for NEO's remained the same for 2013.

The implementation of the new pay-for-performance compensation program was accomplished in Houston's competitive job market where there are more than 5000 energy-related businesses enjoying a strong energy market, hiring, and paying top dollar for executive talent. While these firms are not our peers, they do have an impact upon the business environment in which we must hire, compensate, retain and motivate employees.

The tasks still underway include extending the compensation philosophy and practices to lower levels of management and aligning all compensation practices going forward. To better match job responsibilities with compensation levels, Human Resources has worked to ensure that job titles, job descriptions, and executive level employment agreements are consistent across the Company, which will lead to consistent pay structures and compensation practices.

Our Executive Compensation Programs: We Pay For Performance

The core principle of our executive compensation philosophy is to pay for performance. Accordingly, our executive compensation program is heavily weighted toward at-risk performance-based compensation. We

Table of Contents

have three elements of total direct compensation: base salary, annual incentive bonus and long-term equity compensation. These elements provide our Compensation Committee with a platform to reinforce our pay-for-performance philosophy to address our business needs and goals with appropriate flexibility. As illustrated in the chart below, in 2013, 72% of total direct compensation to our CEO was performance-based and not guaranteed, while 66% of NEO compensation was at-risk.

Our Executive Compensation Practices

Below we highlight certain executive compensation practices, both the practices we have implemented to drive performance, and the practices we have not implemented because we do not believe they would serve our shareholders' interests.

Given the dramatic changes to our compensation philosophy and practices, we believe this chart is important, as it clearly identifies the substantive changes to our compensation practices in the past two years.

Table of Contents

Compensation Best Practices that We Follow

- Pay for Performance** We tie pay to performance. The majority of our executive pay is variable based upon performance and not guaranteed. We have established clear financial goals for corporate performance and differentiate based on individual achievement. In establishing goals, we select performance metrics that drive both our short-term and long-term corporate strategy in accordance with our strategic plan.
- Mitigate Undue Risk** We mitigate undue risk associated with compensation, including utilizing caps on potential payments, clawback provisions, retention provisions, multiple performance targets and robust board and management processes to identify risk.
- Double Trigger** All employment agreements and incentive award agreements for executives require a termination of employment in addition to a change in control before cash severance benefits are triggered.
- Minimal Perquisites** We provide only minimal perquisites (under \$33,000 for any one executive) to our executive officers and do not offer gross-up on any perquisite.
- Regular Review of Share Utilization** We evaluate share utilization by reviewing overhang levels (dilutive impact of equity compensation on our shareholders) and annual run rates (the aggregate shares awarded as a percentage of total outstanding shares).
- Equity Ownership Guidelines** We require our directors and executive officers to acquire and maintain prescribed levels of ownership of our stock in order to align their interest with those of our stockholders. These guidelines require that within a five year period from the date a person becomes an executive officer, they must hold Company common stock in value equal to approximately 6 times for the CEO and .30 to 1 times their base salary for other executives.
- No SERP Program** We do not offer SERP s to our current executives.
- Clawback Policy** Our long-term incentive plans have clawback provisions that include recapture rights for any incentive amount paid or vested in the event that the Compensation Committee determines that an executive has violated any of the restrictive covenants included in employment agreements.
- Minimum Vesting Requirements** We have instituted minimum vesting requirements for all equity-based compensation awards.
- Independent Compensation Consulting Firm** The Compensation Committee benefits from its utilization of an independent compensation consulting firm, Longnecker & Associates (L&A), which provides no other services to the Company.

Disfavored Compensation Practices that We do not Follow

- No Share Recycling under the Long-Term Incentive Plan**
- No Excise Tax Gross-Ups Upon Change in Control**
- No Repricing of Underwater Stock Options**
- No Hedging Transactions or Short Sales by executive officers or directors Permitted**
- No Guaranteed Bonus or Retention Bonus for executive officers**
- Severance multipliers not greater than 3.0X for any executive officer**

Oversight of our Executive Compensation Practices

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

Our executive compensation program is administered by the Compensation Committee of the Board. The Compensation Committee currently consists of three directors: Laurie C. Moore (Chair), Catherine A. Allen, and

Table of Contents

Dr. W. Arthur Porter. At all times in 2013, all of the persons serving on the Compensation Committee were independent, as defined by the standards of the NYSE, and satisfied the qualification standards of section 162(m) of the Code and Section 16 of the Exchange Act.

The Compensation Committee is responsible for, among other functions, reviewing and approving the total compensation for our executives consistent with the objectives and philosophy described below.

Executive Compensation Risk Management

The Compensation Committee does not believe that the Company's compensation policies and practices encourage excessive or unnecessary risk-taking by our executives and other employees. In fact, the Compensation Committee believes that our compensation program is designed with an appropriate mix of compensation to mitigate these risks. Practices include:

Setting base compensation for executives within reasonable ranges of our competitive market and rewarding executives through the cash incentive compensation plan for exceptional performance when the Company outperforms, which we believe aligns management's interests with shareholders' interests;

Utilizing financial, operational and individual performance measurements under the cash incentive compensation plan that require both objective and subjective performance determinations, with discretion retained by the Compensation Committee to consider imprudent risk assumption that led to short-term gains and adjust the awards produced under such plan accordingly;

Incorporating performance-based long-term incentives which encourage consistent behavior and reward long-term, sustained performance of the Company;

Prohibiting trading of derivatives or hedging by executive officers as required in the Company's Security Trading and Investment Policy;

Regularly benchmarking our current compensation practices, policies and pay levels with our peer group;

Requiring a mandatory forfeiture of grants of unvested equity upon a termination by the Company for cause; and

Ensuring that our executive compensation programs are overseen by a committee of independent directors, who are advised as needed by both internal and external risk experts.

Compensation Philosophy and Objectives

The Compensation Committee follows a "pay for performance" philosophy in our executive compensation structure which is designed to encourage and reward the achievement of our long-term goals and the creation of shareholder value. For each executive, the pay-for-performance compensation package is also intended to represent a fair and competitive compensation arrangement that promotes a meaningful work experience including personal fulfillment, competitive pay and job security.

The Compensation Committee believes that our executive compensation program should reward enhanced financial performance of the Company and maximize shareholder value by aligning the short-term and long-term interests of our executive officers with those of our shareholders. Our Company's programs are intended to:

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

Attract, retain and motivate individuals of outstanding ability in key executive positions;

Drive and reward strong business performance which is aligned with company strategies, to create superior value for our shareholders;

Pay for performance;

Table of Contents

Ensure that performance-based compensation does not encourage excessive risk taking; and

Encourage our executives to focus on both the short-term and long-term performance goals of the Company. Our executive compensation also is intended to be market competitive. For 2013, the Committee approved base salary, annual performance compensation and long-term incentive compensation (together, the total direct compensation) for each executive that was intended to be competitive with our peer group. In addition, in establishing the compensation of our executives, the Compensation Committee also took into consideration historical and individual circumstances, including tenure and experience, individual performance, retention factors, and the availability of comparable data for each position.

The Compensation Committee believes that a majority of executive compensation should be at risk that is, the ultimate, realized value of the compensation will be tied to the Company's financial and equity performance. During periods when our financial performance meets or exceeds established objectives, we believe that executives should be rewarded appropriately under our incentive compensation programs for their efforts in achieving our goals. Likewise, when our performance does not meet the established goals, incentive compensation may be reduced or may not be earned.

Incentive compensation is designed to balance short-term annual results and long-term multi-year success of the Company. Short-term awards primarily are payable in cash, while long-term awards are equity-based awards. It is important to note that in comparing historical pay with pay for 2013 in the executive compensation tables that follow this CD&A, 2013 compensation continues to build on performance-based pay relative to previous years.

Implementing the Philosophy

In support of our compensation philosophy:

When setting base salary levels for our executives, we take into account external market rates, as well as executive performance, internal equity and pay trends over time compared to the trend in Company performance as measured by TSR.

STI design is focused on pay-for-performance and will motivate our executives to achieve key annual objective measures of financial performance and operating performance. Consistent with our philosophy, short term incentive awards are tied to specific metrics designed to drive annual improvement and operational excellence.

Long term incentive plan (LTI) grants motivate our executives to enhance shareholder value, as well as to work as a team to ensure Company performance. The Company's choice of long term incentive vehicles align executives' interests with those of shareholders, and equity grants consist of performance-based vesting conditions. Consistent with our overall compensation philosophy, long term incentive grant values are targeted to the median of our peers, reward accomplishment of long term quantifiable business goals, and aid executives in the achievement of applicable stock ownership guidelines.

Our executive compensation programs also reflect sound corporate governance, marketplace best practices, and are based on solid business rationale.

Roles in Determining 2013 Named Executive Officer Compensation*The Role of the Compensation Committee*

As stated in the Compensation Committee Charter, the Compensation Committee is responsible for determining the components and amount of compensation for our executive officers and provides overall guidance for our employee compensation policies and programs. The Compensation Committee consults with the CEO for compensation recommendations for other executive officers and for the purpose of assuring that executive compensation programs do not distort our overall compensation structure. The CEO's recommendations are based upon his assessment of each executive officer's performance, the performance of the individual's respective business or function, and employee retention considerations. The Compensation Committee reviews our CEO's recommendations and approves, in its sole discretion, any compensation changes affecting our executive officers.

The Role of Management

Members of management, including Human Resources, assist the Compensation Committee by providing recommendations that management believes will establish appropriate and market-competitive compensation plans for executive officers consistent with the Company's compensation philosophy. As part of this process, management collaborates with the Compensation Committee regarding information on market trends, potential

Table of Contents

compensation plan designs, and industry trends, before making recommendations to the Compensation Committee. In preparation for the 2013 compensation plans, management:

Recommended base salaries and cash and incentive targets for executives other than the CEO; and

Proposed incentive metrics and targeted performance levels for the short- and long-term incentive plans, including target value (or number of shares) of performance-based restricted stock and cash-based performance units.

At the end of the 2013 performance year, management reviewed metric based performance relative to expectations in 2013 of each executive other than the CEO, for the purpose of validating the 2013 short-term incentive awards and the long-term incentive awards.

The Compensation Committee reviews and discusses management's recommendations in conjunction with its independent compensation consultant when making compensation decisions or recommendations to the full Board.

The Role of the Compensation Consultant

During 2013, the Compensation Committee engaged Longnecker & Associates (L&A) to assist in providing a comprehensive assessment of our executive compensation programs and to assist in the drafting of this CD&A. The Compensation Committee retained the sole authority to select, retain, terminate, and approve fees and other retention terms of the relationship with L&A. In addition, L&A also assisted the Nominating and Corporate Governance Committee in the assessment of independent director compensation.

The Compensation Consultant provides various executive compensation services to the Compensation Committee. Generally, these services include advising the Compensation Committee on the principles of our executive compensation program and providing market information and analysis regarding the competitiveness of our program design and award values in relationship to performance.

During 2013, the Compensation Consultant performed the following services for the Committee:

Conducted an evaluation of the total compensation for each of the named executive officers;

Conducted an evaluation of the total compensation of other executives of the Company;

Provided independent recommendations for CEO compensation;

Provided the CEO with recommendations for the compensation of other executive officers;

Discussed with the CEO, his recommendations for his direct reports;

Presented information related to current trends and regulatory developments affecting executive compensation programs in our market;

Provided recommendations and information related to stock ownership guidelines;

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

Reviewed the annual and long-term incentive plans;

Assisted in the development and review of the Compensation Committee's compensation governance schedule; and

Assisted in the drafting and review of the CD&A and compensation tables for the annual proxy statement.
In addition, L&A attended meetings of the Compensation Committee, as requested by the Compensation Committee Chair.

Table of Contents

The NYSE has adopted guidelines for Compensation Committees to consider when identifying Compensation Committee advisor independence. The Compensation Committee reviewed these guidelines and determined that L&A is an independent consultant under these guidelines. This independence was confirmed in writing by L&A. L&A performs no services for the Company other than those specific to Board Committee assignments regarding executive and non-employee director compensation.

Our management communicates with L&A and provides data to L&A regarding our executive officers, but does not direct L&A's activities.

Benchmarking and Peer Group Comparison

As discussed above, during 2013, L&A analyzed the Company's 2012 peer group and additional potential peer candidates in an effort to capture changes in the market that impacted the applicability of certain peers within the Company's 2012 peer group, as well as additional companies which we compete with for talent. As a result, L&A provided a recommended peer group for the Compensation Committee's review. The Compensation Committee approved the final peer group utilized in the 2013 compensation analysis.

The compensation analysis was based upon an evaluation of approximately 70 potential peers consisting of financial services, insurance, title services and real estate companies. L&A reviewed multiple financial criteria focusing on companies which are within a range of 0.5x to 2.0x our size. In addition to financial metrics, L&A and the Compensation Committee also took into account other factors in the determination of appropriate peer comparators, including title companies, financial service companies tied to the real estate market, and complexity of operations.

L&A compiled compensation data for the peer group from a variety of sources, including proxy statements and other publicly filed documents. The consultant also provided published survey compensation data from multiple sources, including the following surveys: Economic Research Institute, Mercer, Inc., Kenexa and Towers Watson. For each survey, L&A adjusted the data to appropriately reflect companies of a similar size to the Company.

For each element of compensation for which data was available, L&A averaged the 25th percentile from the peer group and the published survey data to approximate the 25th percentile for the market. A similar process was used to establish the 50th and 75th percentiles. The combination of published survey data and peer compensation data was then used to compare the compensation of our executives to comparably titled persons at companies within our peer group and in the survey data.

Table of Contents

When considering our compensation practices and levels, the Compensation Committee reviews the compensation practices and levels of the peer group companies to determine market levels. The Compensation Committee periodically reviews the composition of our peer group to ensure that the companies in the group are relevant for comparative purposes, have executive positions with responsibilities similar to ours, and that compete with us for executive talent. The Compensation Committee and L&A review data for potential peers relating to revenue, assets, enterprise value, and market capitalization. Based on these factors and directly comparable business lines, the Compensation Committee determined that the following companies would comprise our peer group for 2013.

Elements of 2013 Named Executive Officer Compensation**Base Salaries**

We pay an annual base salary to each of our executives in order to provide them with a fixed rate of cash compensation that is non-variable during the fiscal year. In establishing base salaries, the Compensation Committee considers a variety of factors, including internal pay equity, operational performance as it relates to an executive's level of duties and responsibilities applicable to the position held, and historical compensation information. We believe that this is critical to motivate and retain our executives who each have leadership talents and business expertise that make them attractive to other companies.

Table of Contents

In connection with its annual review of executive compensation, the Compensation Committee, with recommendations from the CEO, determined that 2012 base compensation for NEOs remained appropriate for 2013 given the competitive market. Base salaries for each of the NEOs are shown in the table below:

	2013 Base Salary (\$)	% Change from 2012 - 2013
Matthew W. Morris	\$ 400,000	0%
J. Allen Berryman	\$ 310,000	0%
Glenn H. Clements	\$ 400,000	0%

Steven M. Lessack	\$ 400,000	0%

Short-Term Incentives for 2013*Short Term Incentive Plan*

The Compensation Committee believes STI compensation is an important part of the compensation package provided by companies with which we compete for executive talent, and therefore a well-reasoned STI approach can help us to be competitive. At the same time, we believe our STI approach motivates our executives to meet our financial and strategic objectives.

In setting the target cash award amounts for 2013, the Compensation Committee considered information from the peer group data mentioned above and, with respect to the executives other than the CEO, the recommendations of CEO. In addition, the Compensation Committee and management performed a detailed analysis in setting objective financial measures and goals to ensure the program appropriately balanced the Company's objectives, as aligned with long-term shareholder interest, and individual operational performance objectives, as well as appropriate and effective risk-mitigating components. The Compensation Committee established a target award amount for each NEO as a percentage of base salary. This target was used at the end of the year as the base point for determining any actual earned award. In addition, a maximum award opportunity of 200% of target was established.

Based on the recommendations from the CEO, the Compensation Committee established corporate performance goals and operational performance goals for each NEO for 2013, as well as the applicable weight for each of the goals. The Compensation Committee chose the following metrics to:

Establish a clear and direct relationship between executive compensation and our performance on a short-term basis;

Clearly define the specific and measurable objectives which would be used to evaluate each executive's performance success and be the basis for calculating his or her short term incentive payment for the year;

Use compensation to focus executives clearly on driving value for the firm and its shareholders. Focus on shareholder value through executive compensation measures; and

Foster our corporate goals and strategies.

Long-Term Incentives for 2013*Long Term Incentive Plan*

We believe that long-term incentives help align the interests of our executives and our stockholders because the potential compensation an executive can receive is tied directly to our stock price and our earnings performance. We believe this element of compensation is particularly effective for those individuals who have the most impact on the management and success of our business. In addition, by using metrics related to TSR and Company performance, this also serves to focus our executives on operating as a team. Prior to 2012, the Company granted time-based restricted stock and unrestricted stock to its executives. As part of the executive compensation program overhaul undertaken in 2012, the Company moved away from granting solely time-based and unrestricted equity compensation awards to its executives and instead, used performance-based equity and cash-based awards. This created an enhancement of the motivation of executives to increase shareholder value over the long-term, as a significant amount of potential value is tied to Company performance. For 2013, our executives were granted long-term incentives in the form of performance-based restricted stock and cash-based performance units. The Compensation Committee determined to grant these awards with sixty percent (60%) in performance-based restricted stock (RSA) and forty-percent (40%) in cash-based restricted performance units (RPU). LTI is granted annually under this plan. It is 100% granted, but vests depending on company performance measures and time. Both RPU and RSA grants will be restricted by a three year cliff vest, with the exception of a specific grant of RPU issued in 2012, which vested at the end of 2013 to assist with the transition to new employment agreements.

Table of Contents

In determining the size of each executive's 2013 LTI target and maximum award sizes, as a percentage of base salary, the Compensation Committee considered information from peer group data, as well as the historical compensation amounts and individual roles and responsibilities of each applicable executive. The LTI financial target metrics were based on TSR and/or positive EBITDA. The Compensation Committee chose those metrics to create a correlation between executive compensation and the long-term performance of the Company.

In 2013, the Compensation Committee established the following targeted and maximum LTI award opportunities as a percentage of base salary:

Named Executive Officer	Target LTI Opportunity (RSA & RPU) (% of Base)	Target LTI Opportunity (RSA) (# of Shares)(1)	Target LTI Opportunity (RPU)	Maximum LTI Opportunity (RPU)
Matthew W. Morris	125%	11,574	\$ 200,000	\$ 400,000
J. Allen Berryman	75%	5,382	\$ 93,000	\$ 186,000
Glenn H. Clements	75%	6,944	\$ 120,000	\$ 240,000
Jason R. Nadeau	100%	8,102	\$ 140,000	\$ 280,000
Steve M. Lessack	50%	4,630	\$ 80,000	\$ 160,000

(1) Number of shares reflect price per share based on close of day December 31, 2012
Performance-Based Restricted Stock

The purpose of using performance-based RSAs is to provide a reward whose value is directly attributable to their ability to increase the value of the business and our stock price. Our executives are granted annual awards of RSAs with vesting contingent upon the achievement of an annualized TSR ranking, relative to the Russell 2000 Financial Services Index, which is at or above the 50th percentile of the peer group or if Annualized Total shareholder Return (TSR) is positive over the performance period. In the event this level of performance is not achieved, recipients will forfeit these RSAs. In addition to the performance component, award agreements require recipients to be employed with the Company through the entire three year performance period in order to maintain eligibility for the payout.

Cash-Based Performance Units

Performance units are used to reward our executives for effective management of the business over a multi-year period. In addition, these are used to tie the award to building value for shareholders without diluting stock. Executives will receive RPUs based on annualized TSR Ranking relative to the Russell 2000 Financial Services Index with a Circuit Breaker (positive EBITA over the performance period). RPUs have a three year time vesting component that requires the executive to be employed with the Company through the performance period with the exception of the initial 2012 grant which vested at the end of 2013 to assist with the transition to new executive employment agreements. Relative TSR performance and EBITDA goals have been established for the RPUs and are tied to specific ranges of performance: Threshold, Target and Maximum. The chart below outlines the payout levels of awards for each level of performance achieved:

Relative TSR Ranking over the Performance Period	Payout as % of Target(1)
> 75 th Percentile	200%
50 th Percentile	100%
30 th Percentile	50%
< 30 th Percentile	0%

Health and Welfare Plans

Our executives, along with all other associates, are eligible to participate in our medical, dental, vision, life, accidental death and disability, long-term disability, short-term disability, and other applicable employee benefits.

Defined Contribution Plan

The primary tax qualified long-term compensation plan we have for our employees in the United States is the Stewart 401(k) Savings Plan. Our executives also participate in this plan on the same terms as our other associates.

Deferred Compensation Plan

The Deferred Compensation Plan is a nonqualified, elective, deferred compensation plan designed to supplement any existing qualified plans and provide an extra financial benefit to key personnel and highly compensated employees. The Company supports this plan as an additional method for key personnel and highly compensated employees to plan for retirement. The Company established the Stewart Information Services Corporation 1999 Salary Deferred Compensation Plan (the Deferred Compensation Plan), effective January 1, 1999, and amended and restated it on January 1, 2005, in order to comply with Section 409A of the Internal Revenue Code of 1986, as amended, and the final regulations (T.D. 9321) thereunder. Assets are held in a separate rabbi trust to pay Plan benefits. Rabbi trust assets are subject to the claims of creditors of the Company in the event of bankruptcy. Of 351 eligible employees, 37 eligible employees are active participants in the Deferred Compensation Plan. Only one NEO (Matthew W. Morris) was active in this plan for 2013.

Additional Policies and Procedures Governing Compensation**Share Ownership Guidelines**

The Compensation Committee bases a large part of its compensation philosophy on aligning the interests of our executives with those of our stockholders. As a result, the Compensation Committee has adopted share ownership guidelines for our senior executive officers. These guidelines require that, within a five year period from the date a person becomes an executive officer, the CEO must hold 6 times base salary and other executives must hold .30 to 1x base salary. The Compensation Committee annually monitors whether the executives have appropriate share ownership requirements based on their incentive plan targets and stock price, and adjusts the requirements accordingly. In addition, they monitor whether the executives have satisfied or are

Table of Contents

making progress toward satisfying the share ownership guidelines. In making this determination, the Compensation Committee considers common shares deemed to be held in the Stewart 401(k) Savings Plan, common shares beneficially owned by the executive (but excluding options whether or not exercisable), and restricted common shares granted to the executive.

As of December 31, 2013, each executive was either in compliance with the share ownership guidelines or had not completed a fifth year under their new employment agreement.

Equity Award Policies

The Compensation Committee has a policy against making equity grants to our executives until any material non-public information has been disclosed to the public.

Deductibility of Executive Compensation

Limitations on the deductibility of executive compensation imposed by Section 162(m) of the Internal Revenue Code have had no effect on our compensation programs for executive officers because we have never exceeded those limits.

Executive Employment Agreements

The Board has approved, based on the recommendation of the Compensation Committee, the providence of certain post-termination benefits to our executive officers to obtain the benefits of their services and attention to our affairs. In exchange for the benefits we provide under each agreement, our executive officers are required to agree to certain confidentiality, non-competition and cooperation covenants, which our Compensation Committee believes are valuable to us when an executive's employment terminates. In addition, the Compensation Committee believes that we should provide an inducement for our executive officers to remain in the service of our Company in the event of any proposed or anticipated change in control of our Company in order to facilitate an orderly transition, without placing the executive in a position where he or she is concerned about being terminated without compensation in connection with such a transaction.

The employment agreements articulate the terms and conditions of the executive's employment with the Company including termination provisions and applicable restrictive covenants. Generally, each agreement contains the following provisions:

An initial three-year employment term, starting on January 1, 2012 and expiring on December 31, 2014.

Following the completion of the initial term, each agreement will automatically be extended annually for one year terms, unless at least ninety days prior to the applicable renewal date either party gives written notice that the term should not be further extended after the next termination date.

Initial minimum base salary, subject to annual review by the Board.

Opportunity to participate in the Company's STI and LTI Plans subject to annual review by the Compensation Committee.

Opportunity to participate in other Benefits offered to employees such as group life, medical plan, and other so called fringe benefits.

Perquisites limited to car allowance, normal paid association & membership dues as needed for the position, executive development up to \$5,000, additional Executive Life Insurance for some NEOs (Glenn H. Clements and Steven M. Lessack), and country club dues for two NEOs (Matthew W. Morris and Glenn H. Clements).

Defined Contribution Plans

The Company sponsors a defined contribution plan, the Stewart 401(k) Savings Plan (the "401(k) Plan"), in which all eligible employees may participate upon their date of hire with the Company. In general, a participant in the 401(k) Plan may elect to defer, on a pretax or Roth after-tax basis, a specified percentage of their compensation, subject to certain limitations under the Internal Revenue Code ("IRC"). Contributions by

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

participants whose compensation is in the highly compensated group of employees are subject to certain additional limitations under the IRC. Deferred compensation is contributed to a trust managed for the benefit of the participants. Net investment income (loss) is allocated to participants' accounts daily based upon the proportion that each participant's account balance bears to the participant account balances in each investment fund. Matching contributions were reinstated in 2013 to all employees active in the 401(k) plan.

Nonqualified Deferred Compensation Plans

The Company established the Stewart Information Services Corporation 1999 Salary Deferred Compensation Plan (the "Deferred Compensation Plan"), effective January 1, 1999, and amended and restated it on January 1, 2005. The Deferred Compensation Plan is a nonqualified deferred compensation plan maintained primarily to provide deferred compensation benefits for a select group of management or highly compensated employees. Assets are held in a separate rabbi trust to pay Plan benefits. Rabbi trust assets are subject to the claims of creditors of the Company in the event of bankruptcy. One of the NEOs (Matthew W. Morris) participated in the Deferred Compensation Plan in 2013.

Potential Payments upon Termination or Change in Control

Each of the executives (or their beneficiaries) would be entitled to certain payments upon termination of employment. In the case of death, these would include the following "Accrued Amounts":

Any portion of the executives' accrued but unpaid base salary and accrued but unused vacation time that shall have been earned prior to the termination but not yet paid;

Any short term incentive and long term incentive payments for the prior fiscal year that shall have been earned prior to the termination and not yet paid;

Any employee benefits (401(k) Plan) that have vested as of the date of termination as a result of participation in any of the Company's benefit plans; and

Any expenses with respect to which they are entitled to reimbursement.

In the case of retirement, or involuntary termination without "Cause" or "Good Reason (1)", in exchange for a general release of claims, the executive is generally entitled to:

Accrued Amounts;

Twelve to twenty four months of base salary (2x Base for CEO; 1x Base for all other executives);

An extension of medical benefits at the employee rate for up to 12 months;

All unvested long-term incentive compensation that becomes fully vested and unrestricted as a result of this type of Termination; and

Outplacement services not to exceed \$10,000.

Table of Contents

If terminated upon disability, the executive would be limited solely to the payment of the Accrued Amounts, and all unvested long-term incentive compensation would become fully vested and unrestricted.

Compensation of Vice Chairmen

As reported in the 2011 proxy, in November of 2011, the Board selected a new CEO, and Dr. E. Douglas Hodo, an independent director, was selected as Chairman of the Board. The former Co-CEOs, Malcolm S. Morris and Stewart Morris, Jr. (who also served as Chairman and Vice Chairman of the Board, respectively and who, at that time controlled the majority of our Class B stock) moved into non-operational roles, as Vice Chairmen of the board, with the Company, each with an annual salary of \$275,000 and a one-time 2011 phantom stock grant in lieu of cash bonuses which would have been earned for 2011 under our former compensation plan.

In their new roles, they serve as Company ambassadors and advisors performing tasks assigned by the CEO and board. For example, Stewart Morris, Jr. was asked to serve as a member of the Board of the American Land Title Association, a position ensuring that the Company has a voice at the major title industry association.

To retain the Vice Chairmen's considerable experience and knowledge over the transition period, ensure that their new non-operational advisor relationships were clear and that their employment was limited in time, the Compensation Committee endeavored to negotiate signed employment agreements. After thoughtful and substantive conversations and negotiation, employment contracts were signed.

The terms of the employment agreement include a Deferred Transition Incentive payment of \$750,000 to be paid to each of the Vice Chairmen at a rate not to exceed \$150,000 each year during the first four years of the employment term. To be certain that the annual transition payment is affordable to the Company, the full annual transition amount will be paid only if the Company's net annual Company earnings are at least \$30 million for each of the relevant fiscal years. Should the Company earn less than \$30 million during any fiscal year, the annual payment for that year will be reduced proportionally. At the end of the five year employment period, each Vice Chairman will receive an amount equal to \$750,000 less the total of the Transition Incentive previously paid. The signed employment agreements are consistent with those of Company officers and provide for resignations as Vice Chairman at the end of the term.

Consistent with Company policy, as employees of the Company, the Vice Chairmen receive no cash, stock, or other fees for serving on the Board.

PROPOSAL NO. 4

APPROVAL OF THE STEWART INFORMATION SERVICES CORPORATION

2014 LONG TERM INCENTIVE PLAN

At its March 6, 2014 meeting, the board of directors unanimously adopted the Stewart Information Services Corporation 2014 Long Term Incentive Plan (the Equity Incentive Plan), subject to the approval of the Company's stockholders at the annual meeting. If approved, the Equity Incentive Plan will become effective as of March 6, 2014. The Equity Incentive Plan is provided as Appendix I to this proxy statement.

Existing awards under the Company's current equity incentive plan, the Stewart Information Services Corporation Amended and Restated 2005 Long-Term Incentive Plan, will remain in full force and effect in accordance with the plan's terms. No new awards will be made under the 2002 Long-Term Incentive Plan or the 2005 Long-Term Incentive Plan after approval of the Equity Incentive Plan by stockholders.

Stockholder approval of the Equity Incentive Plan is required under the rules of the NYSE. The Company is also asking the stockholders to approve the Equity Incentive Plan for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code).

Description of the Equity Incentive Plan

The following summary describes briefly the principal features of the Equity Incentive Plan, and is qualified in its entirety by reference to the full text of the Equity Incentive Plan, which is provided as Appendix I to this Proxy Statement.

Purpose

The purpose of the Equity Incentive Plan is to provide a means through which the Company may attract qualified persons to serve as directors or consultants or to enter the employ of the Company and to provide a means whereby those individuals upon whom the responsibilities of the successful administration and management of the Company rest, and whose present and potential contributions to the Company are of importance, can acquire and maintain stock ownership, thereby strengthening their concern for the welfare of the Company. A further purpose of the Equity Incentive Plan is to provide such individuals with additional incentive and reward opportunities designed to enhance the profitable growth of the Company.

Administration

Generally, the Equity Incentive Plan will be administered by the Compensation Committee, which is and will be composed of independent directors of the Company. The Compensation Committee will have full authority, subject to the terms of the Equity Incentive Plan, to establish rules and regulations for the proper administration of the Equity Incentive Plan, to select the employees, consultants and directors to whom awards are granted, and to set the date of grant, the type of award that shall be made and the other terms of the awards.

Eligibility

All employees, consultants and directors of the Company and its affiliates are eligible to participate in the Equity Incentive Plan. The selection of those employees, consultants and directors, from among those eligible, who will receive awards is within the discretion of the Compensation Committee.

Term of the Plan

The Equity Incentive Plan will terminate on March 6, 2024, after which time no additional awards may be made under the Equity Incentive Plan.

Table of Contents

Number of Shares Subject to Equity Incentive Plan and Award Limits

A total of 1,000,000 shares would be available for grants under the Equity Incentive Plan, representing 4.4% of the Company's outstanding shares as of March 24, 2014. The closing price of a share of the Company's common stock on the NYSE on March 24, 2014 was \$[].

To the extent that an award terminates or lapses for any reason, any shares subject to the award shall not be used again for new grants under the Equity Incentive Plan. In addition, shares tendered or withheld to satisfy the grant or exercise price or tax withholding obligation shall not be used for grants under the Equity Incentive Plan.

No participant may receive awards with respect to more than 150,000 shares in any calendar year. The limitation described in the preceding sentence may be adjusted upon a reorganization, stock split, recapitalization or other change in the Company's capital structure. The maximum amount of awards denominated in cash that may be granted to any participant during any calendar year may not exceed \$5,000,000.

It is not possible at this time to determine the benefits or amounts that will be received by or allocated to participants under the Equity Incentive Plan.

Types of Awards

The Equity Incentive Plan permits the granting of any or all of the following types of awards (Awards): (1) stock options, (2) restricted stock awards, (3) restricted performance units, (4) stock appreciation rights, (5) stock units and (6) performance awards.

Stock Options

The term of each option shall be as specified by the Compensation Committee at the date of grant, but in no event shall an option be exercisable after the expiration of 10 years from the date of grant. An option shall be exercisable in whole or in such installments and at such times as determined by the Compensation Committee.

Each option shall be evidenced by a Stock Option Award Agreement in such form and containing such provisions not inconsistent with the provisions of the Equity Incentive Plan as the Compensation Committee from time to time shall approve, including, without limitation, provisions to qualify an Incentive Stock Option under Code Section 422. Each Stock Option Award Agreement shall specify the effect of termination of (i) employment, (ii) the consulting or advisory relationship, or (iii) membership on the Board, as applicable, on the exercisability of the Option. The terms and conditions of the respective Award Agreements need not be identical. Subject to the consent of the participant, the Compensation Committee may, in its sole discretion, amend an outstanding Stock Option Award Agreement from time to time in any manner that is not inconsistent with the provisions of the Plan (including, without limitation, an amendment that accelerates the time at which the option, or a portion thereof; may be exercisable).

The option price will be determined by the Compensation Committee and will be no less than the fair market value of the shares on the date that the option is granted, except for adjustments for certain changes in the Company's common stock. The Compensation Committee may determine the method by which the option price may be paid upon exercise. Moreover, a Stock Option Award Agreement may provide for a cashless exercise of the option by establishing procedures satisfactory to the Compensation Committee with respect thereto. Further, a Stock Option Award Agreement may provide for the surrender of the right to purchase shares under the option in return for a payment under a Stock Appreciation Right.

Except in connection with certain recapitalizations or reorganizations as contemplated by the Equity Incentive Plan, the Compensation Committee may not, without approval of the stockholders of the Company, amend any outstanding Stock Option Award Agreement to lower the option price.

Table of Contents

Restricted Stock Awards

Awards may be granted in the form of restricted stock (Restricted Stock Award). Shares of Common Stock that are the subject of a Restricted Stock Award shall be subject to restrictions on disposition by the participant and an obligation of the participant to forfeit and surrender the shares to the Company under certain circumstances (the Forfeiture Restrictions). The Forfeiture Restrictions shall be determined by the Compensation Committee in its sole discretion, and the Compensation Committee may provide that the Forfeiture Restrictions shall lapse upon (i) the attainment of one or more performance goals, (ii) the participant s continued employment with the Company or continued service as a consultant or director for a specified period of time, (iii) the occurrence of any event or the satisfaction of any other condition specified by the Compensation Committee in its sole discretion, or (iv) a combination of any of the foregoing. Each Restricted Stock Award may have different Forfeiture Restrictions, in the discretion of the Compensation Committee.

Common Stock awarded pursuant to a Restricted Stock Award shall be represented by a stock certificate registered in the name of the participant. Unless provided otherwise in an Award Agreement, the participant shall have the right to receive dividends with respect to Common Stock subject to a Restricted Stock Award, to vote Common Stock subject thereto and to enjoy all other stockholder rights, except that (i) the participant shall not be entitled to delivery of the stock certificate until the Forfeiture Restrictions have expired, (ii) the Company shall retain custody of the stock until the Forfeiture Restrictions have expired, (iii) the Participant may not sell, transfer, pledge, exchange, hypothecate or otherwise dispose of the stock until the Forfeiture Restrictions have expired, and (iv) a breach of the terms and conditions established by the Compensation Committee pursuant to the Award Agreement shall cause a forfeiture of the Restricted Stock Award. At the time of such Award, the Compensation Committee may, in its sole discretion, prescribe additional terms, conditions or restrictions relating to Restricted Stock Awards, including, but not limited to, rules pertaining to the termination of employment or service as a consultant or director (by retirement, disability, death or otherwise) of a participant prior to expiration of the Forfeitures Restrictions. Such additional terms, conditions or restrictions shall be set forth in an Award Agreement made in conjunction with the Award. The terms and provisions of Restricted Stock Award Agreements need not be identical.

The Compensation Committee may, in its discretion and as of a date determined by the Compensation Committee, fully vest any or all Common Stock awarded to a participant pursuant to a Restricted Stock Award and, upon such vesting, all restrictions applicable to such Restricted Stock Award shall terminate as of such date. Any such action by the Compensation Committee may vary among individual Participants and may vary among the Restricted Stock Awards held by any individual Participant. However, the Compensation Committee may not take any such action with respect to a Restricted Stock Award that has been designated as a qualified performance-based award.

Restricted Performance Units

Restricted Performance Units are rights to receive shares of Common Stock (or the fair market value thereof), or rights to receive an amount equal to any appreciation or increase in the fair market value of Common Stock over a specified period of time, which vest over a period of time as established by the Compensation Committee and with the satisfaction of certain performance criteria or objectives. The Compensation Committee may, in its discretion, require payment or other conditions of the participant respecting any Restricted Performance Unit. The Compensation Committee shall establish, with respect to and at the time of each Restricted Performance Unit, a period over which the award shall vest with respect to the participant. In determining the value of Restricted Performance Units, the Compensation Committee shall take into account a participant s responsibility level, performance, potential, other awards, and such other considerations as it deems appropriate.

Following the end of the vesting period for a Restricted Performance Unit (or at such other time as the applicable Restricted Performance Unit Agreement may provide), the holder of a Restricted Performance Unit shall be entitled to receive payment of an amount, not exceeding the maximum value of the Restricted

Table of Contents

Performance Unit, based on the then vested value of the award. Payment of a Restricted Performance Unit may be made in cash, Common Stock, or a combination thereof as determined by the Compensation Committee. Payment shall be made in a lump sum or in installments as prescribed by the Compensation Committee. Any payment to be made in cash shall be based on the fair market value of the Common Stock on the payment date. Cash dividend equivalents may be paid during or after the vesting period with respect to a Restricted Performance Unit, as determined by the Compensation Committee.

A Restricted Performance Unit shall terminate if the participant does not remain continuously in the employ of the Company and its subsidiaries or does not continue to perform services as a consultant or a director for the Company and its subsidiaries at all times during the applicable vesting period, except as may be otherwise determined by the Compensation Committee. The terms and provisions of Restricted Performance Unit Agreements need not be identical.

Stock Appreciation Rights

A Stock Appreciation Right is an award that may or may not be granted in tandem with an option, and entitles the holder to receive an amount equal to the difference between the fair market value of the shares of Common Stock at the time of exercise of the Stock Appreciation Right and the base amount, subject to the applicable terms and conditions of the tandem options and the Equity Incentive Plan.

A Stock Appreciation Right shall entitle the holder of an option to receive, upon the exercise of the Stock Appreciation Right, shares of Common Stock (valued at their fair market value at the time of exercise), cash, or a combination thereof, in the discretion of the Compensation Committee, in an amount equal in value to the excess of the fair market value of the shares of Common Stock subject to the Stock Appreciation Right as of the date of such exercise over the purchase price of the Stock Appreciation Right. If granted in tandem with an option, the exercise of a Stock Appreciation Right will result in the surrender of the related option and, unless otherwise provided by the Compensation Committee in its sole discretion, the exercise of an option will result in the surrender of a related Stock Appreciation Right, if any. The terms and provisions of Stock Appreciation Right Award Agreements need not be identical.

The expiration date with respect to a Stock Appreciation Right shall be determined by the Compensation Committee, and if granted in tandem with an option, shall be not later than the expiration date for the related option. If neither the right nor the related option is exercised before the end of the day on which the right ceases to be exercisable, such right shall be deemed exercised as of such date and payment shall be made to the holder in cash.

Stock Units

The Compensation Committee may grant Stock Units to eligible individuals upon such terms and conditions as it may determine. A Stock Unit Award is the grant of a right to receive shares of Common Stock or cash in the future. The minimum vesting or performance period for Awards of Stock Units shall be determined by the Compensation Committee.

For each participant, the Compensation Committee will determine the timing of awards; the number of Stock Units awarded; the value of Stock Units, which may be stated either in cash or in shares of Common Stock; any performance measures used for determining whether the Stock Units are earned; the number of earned Stock Units that will be paid in cash and/or shares of Common Stock; and whether dividend equivalents will be paid on Stock Units, either currently or on a deferred basis.

A participant's Award Agreement shall designate the extent to which an award shall become vested if the participant's employment is terminated (i) without cause, (ii) by the Participant resigns for good reason or voluntary retirement, or (iii) as a result of the participant's death or disability. If no such designation is made,

Table of Contents

then any unvested Stock Units shall be forfeited. In the event the participant's employment or service with the Company terminates for cause, the Participant terminates employment due to a corporate change, or the Participant violates the confidentiality, non-competition, conflicts of interest, or non-solicitation provisions applicable to his relationship with the Company during a performance period or prior to the delivery date for deferred Stock Units, any unvested Stock Units will be forfeited on the date his employment or service with the Company terminates. Notwithstanding the foregoing, the Compensation Committee may determine that the participant will be entitled to receive all or any portion of the Stock Units that he would otherwise receive, and may accelerate the determination and payment of the shares or units or make such other adjustments as the Compensation Committee, in its sole discretion, deems desirable. An award may provide that in the event of a corporate change, all unvested Stock Units held by a participant shall become immediately vested upon the corporate change and the level of vesting that shall occur. The terms and provisions of Stock Unit Award Agreements need not be identical.

Performance Awards

The Equity Incentive Plan provides the Compensation Committee the ability to (i) grant Restricted Stock Awards, Stock Unit Awards, and Restricted Performance Units as qualified performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code, and (ii) grant Performance Awards that are settled in cash or shares of Common Stock based on the satisfaction of performance criteria and, where applicable, to cause such awards to be qualified performance-based compensation as discussed below under *Deductibility of Executive Compensation*.

A Performance Award shall be awarded to a participant contingent upon future performance of the Company or any Subsidiary, division, or department thereof during the performance period. The Compensation Committee shall designate (i) the performance criteria for each performance award, (ii) the performance period for each performance award, and (iii) the number of shares of Common Stock subject to, or the maximum value of, the performance award. In determining the value of Performance Awards, the Compensation Committee shall take into account a participant's responsibility level, performance, potential, other awards, and such other considerations as it deems appropriate. The Compensation Committee, in its sole discretion, may provide for a reduction in the value of a participant's Performance Award during a performance period.

Following the end of the performance period, the holder of a Performance Award shall be entitled to receive payment of an amount not exceeding the number of shares of Common Stock subject to, or the maximum value of, the Performance Award, based on the achievement of the performance measures for such performance period, as determined and certified in writing by the Compensation Committee. Payment of a Performance Award may be made in a lump sum in cash, Common Stock, or a combination thereof, as determined by the Compensation Committee, and shall be made no later than 2-1/2 months after the end of the performance period. If a Performance Award covering shares of Common Stock is to be paid in cash, such payment shall be based on the fair market value of the Common Stock on the payment date.

A Performance Award shall terminate if the participant does not remain continuously in the employ of the Company or does not continue to perform services as a consultant or a director for the Company at all times during the applicable performance period, except as may be determined by the Compensation Committee.

Federal Income Tax Consequences

The following is a brief summary of the U.S. federal income tax consequences of the grant, vesting and exercise of awards under the Equity Incentive Plan. This summary is not intended to be exhaustive, and, among other things, does not describe state, local or non-United States tax consequences, or the effect of gift, estate or inheritance taxes. Individuals receiving option awards under the Equity Incentive Plan should rely upon their own tax advisors for advice concerning the specific tax consequences applicable to them, including the applicability and effect of state, local and foreign tax laws.

Table of Contents

Options granted under the Equity Incentive Plan may be either incentive stock options, which satisfy the requirements of Section 422 of the Code, or non-statutory stock options, which are not intended to meet such requirements. The federal income tax treatment for the two types of options differs, as described below.

Incentive Stock Options

An optionee will not recognize any taxable income at the time of the award of an incentive stock option. In addition, an optionee will not recognize any taxable income at the time of the exercise of an incentive stock option (although taxable income may arise at the time of exercise for alternative minimum tax purposes) if the optionee has been an employee of the Company at all times beginning with the option award date and ending three months before the date of exercise (or twelve months in the case of termination of employment due to disability). If the optionee has not been so employed during that time, the optionee will be taxed as described below for non-statutory stock options. If the optionee disposes of the shares purchased through the exercise of an incentive stock option more than two years after the option was granted and more than one year after the option was exercised, then the optionee will recognize any gain or loss upon disposition of those shares as capital gain or loss. However, if the optionee disposes of the shares prior to satisfying these holding periods (known as a disqualifying disposition), the optionee will be obligated to report as taxable ordinary income for the year in which that disposition occurs the excess, with certain adjustments, of (i) the fair market value of the shares disposed of on the date of exercise over (ii) the exercise price paid for those shares. Any additional gain realized by the optionee on the disqualifying disposition would be capital gain. If the total amount realized in a disqualifying disposition is less than the exercise price of the incentive stock option, the difference would be a capital loss for the optionee. The Company will generally be entitled at the time of the disqualifying disposition to a tax deduction equal to that amount of ordinary income reported by the optionee.

Non-Statutory Options

An optionee will not recognize any taxable income at the time of the award of a non-statutory option. The optionee will recognize ordinary income in the year in which the optionee exercises the option equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required at that time to satisfy the tax withholding requirements applicable to such income. Any appreciation or depreciation in the fair market value of those shares after the exercise date will generally result in a capital gain or loss to the optionee at the time he or she disposes of those shares. The Company will generally be entitled to an income tax deduction at the time of exercise equal to the amount of ordinary income recognized by the optionee at that time.

Restricted Stock Awards

The recipient of shares of restricted stock will not recognize any taxable income at the time of the award so long as the shares of Common Stock are not transferable and are subject to a substantial risk of forfeiture. Accordingly, the Company is not entitled to a compensation deduction at that time. The recipient will have to report as ordinary income as and when those shares of Common Stock subsequently vest, that is, when they either become transferable or are no longer subject to a substantial risk of forfeiture, an amount equal to the excess of (i) the fair market value of the shares upon vesting over (ii) the cash consideration (if any) paid for the shares. The Company will, subject to Section 162(m) of the Code, then be entitled to a corresponding compensation deduction. All dividends and distributions (or the cash equivalent thereof) with respect to a restricted stock award paid to the employee before the risk of forfeiture lapses will also be compensation income to the participant when paid. Notwithstanding the foregoing, the recipient of a restricted stock award may elect under Section 83(b) of the Code to be taxed at the time of grant of the restricted stock award based on the fair market value of the shares of common stock on the date of the award, in which case (1) subject to Section 162(m) of the Code, the Company will be entitled to a deduction at the same time and in the same amount, (2) dividends paid to the recipient during the period the forfeiture restrictions apply will be taxable as dividends and will not be

Table of Contents

deductible by the Company and (3) there will be no further federal income tax consequences when the risk of forfeiture lapses. In such case, any appreciation or depreciation in the fair market value of those shares of Common Stock after grant will generally result in a capital gain or loss to the recipient at the time he or she disposes of those shares. This election must be made not later than thirty days after the grant of the restricted stock award and is irrevocable.

Restricted Performance Units

Restricted performance units are not subject to taxation at the time of grant, and the Company will not be entitled to a deduction at that time, assuming that the restrictions constitute a substantial risk of forfeiture for federal income tax purposes. When the risk of forfeiture with respect to the shares of Common Stock subject to the award lapses, the participant will realize ordinary income in an amount equal to the fair market value of the shares of Common Stock received in settlement for the units at such time over the amount, if any, paid for the shares, and subject to Section 162(m) of the Internal Revenue Code, the Company will be entitled to a corresponding deduction.

Stock Appreciation Rights

The recipient of a stock appreciation right will not recognize taxable income at the time of the award. The recipient will recognize ordinary income when the stock appreciation right is exercised in an amount equal to the excess of (i) the fair market value of the underlying shares of Common Stock on the exercise date over (ii) the base price in effect for the stock appreciation right, and the recipient will be required to satisfy the tax withholding requirements applicable to such income. The Company will generally be entitled at the time of exercise to an income tax deduction equal to the amount of ordinary income recognized by the recipient in connection with the exercise of the stock appreciation right.

Performance Awards and Stock Units

Performance Awards and Stock Units paid in cash generally result in taxable income to the participant and a compensation deduction by the Company at the time the cash payment is made. Performance Awards and Stock Units paid in shares of Common Stock result in taxable income to the participant equal to the fair market value of the Common Stock on the date of transfer and result in a corresponding compensation deduction for the Company. Performance Awards and Stock Units are subject to federal income and employment tax withholding.

Effect of a Change of Control

Under certain circumstances, accelerated vesting, exercise or payment of awards under the Equity Incentive Plan in connection with a change of control of the Company might be deemed an excess parachute payment for purposes of the golden parachute payment provisions of Section 280G of the Internal Revenue Code. To the extent it is so considered, the participant holding the award would be subject to an excise tax equal to 20% of the amount of the excess parachute payment, and the Company would be denied a tax deduction for the excess parachute payment.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any taxable year with respect to each covered employee within the meaning of Section 162(m) of the Internal Revenue Code. Compensation paid under certain qualified performance-based compensation arrangements, which (among other things) provide for compensation based on pre-established performance goals established by the Compensation Committee, is not considered in determining whether a covered employee's compensation exceeds \$1,000,000.

Table of Contents

The Equity Incentive Plan's terms allow the Compensation Committee to designate that an award shall be subject to performance criteria that will permit the award to satisfy the requirements of Section 162(m) of the Internal Revenue Code. For this purpose, the performance criteria shall include one or more of the following with respect to the Company's performance (as defined in the Equity Incentive Plan, which is provided as Appendix I to this proxy statement): (1) cash flow, determined as operating cash flow or free cash flow, or any other cash flow metric, (2) return on investment of the Company or any segment or portion of the Company designated by the Compensation Committee, (3) earnings before or after interest, taxes, depreciation, and/or amortization, (4) earnings per share, (5) economic value added, (6) net income (before or after taxes) of the Company or any segment or portion of the Company designated by the Compensation Committee, (7) price of a share of Common Stock, (8) return on assets, (9) return on capital, (10) return on equity, (11) sales, (12) premium revenues, (13) policy losses, (14) total shareholder return, or (15) a combination of any of the foregoing. The Compensation Committee will determine whether the foregoing criteria will be computed without recognition of (i) unusual or nonrecurring events affecting the Company or its financial statements or (ii) changes in applicable laws, regulations or accounting principles.

Miscellaneous

The Compensation Committee may amend or modify the Equity Incentive Plan at any time; provided, however, that stockholder approval will be obtained for any amendment (1) to the extent necessary and desirable to comply with any applicable law, regulation or stock exchange rule, (2) to increase the number of shares available, or (3) to permit the exercise price of any outstanding option to be reduced.

PROPOSAL NO. 5

APPROVAL OF THE STEWART INFORMATION SERVICES CORPORATION

ANNUAL BONUS PLAN

At its March 6, 2014 meeting, the board of directors unanimously adopted the Stewart Information Services Corporation Annual Bonus Plan (the Bonus Plan), subject to the approval of the Company s stockholders at the annual meeting. If approved, the Bonus Plan will become effective as of January 1, 2014. The Bonus Plan has a five year term, and any extension beyond that term will require further stockholder approval.

We are seeking stockholder approval of the Bonus Plan in order to receive favorable tax treatment for the Bonus Plan under Section 162(m) of the Internal Revenue Code.

Description of the Bonus Plan

The following summary describes briefly the principal features of the Bonus Plan, and is qualified in its entirety by reference to the full text of the Bonus Plan, which is provided as Appendix II to this proxy statement.

General

The Bonus Plan is designed to benefit the Company and its stockholders by providing certain officers of the Company with incentive compensation that is tied to the achievement of specified performance goals. The Compensation Committee of the board of directors will select on an annual basis officers of the Company who will participate in the Bonus Plan.

The Bonus Plan will be administered by the Compensation Committee in accordance with the terms of the Bonus Plan. The Compensation Committee has the authority to: (1) manage the operation and administration of the Bonus Plan, (2) interpret the Bonus Plan, (3) select the executives who are eligible to participate in the Bonus Plan, (4) establish the performance objectives and corresponding award opportunities for each participant, (5) approve all awards, and (6) make all other decisions and to take all other actions necessary or appropriate for the proper administration of the Bonus Plan.

Performance Objectives and Incentive Awards

For each calendar year, the Compensation Committee will determine the performance objectives and the corresponding incentive award opportunities for each participant expressed as a percentage of such participant s base salary. Performance objectives may be expressed in terms of one or more of the following performance criteria (as defined in the Bonus Plan, which is provided as Appendix II to this proxy statement):

- (a) Budget Attainment,
- (b) Cash flow, determined as operating cash flow, free cash flow, or any other cash flow metric,
- (c) Customer service scores or metrics, including Customer Service Index,
- (d) Earnings per share,
- (e) EBITDA,

Edgar Filing: STEWART INFORMATION SERVICES CORP - Form PRE 14A

- (f) Economic value added,

- (g) Absolute or relative metrics related to certain Company expenses or costs, including Employee Costs Ratio, Expense Reduction, and National Production Services (NPS) Expenses Ratio,

- (h) Net income (before or after taxes),

- (i) Policy losses, including Policy Loss Ratio,

Table of Contents

(j) Premium revenues, including Premium Remittance Per Agency Ratio,

(k) Total shareholder return,

(l) Price of a share of Common Stock,

(m) Return on assets,

(n) Return on capital,

(o) Return on equity,

(p) Sales volume, or

(q) any combination of any of the foregoing.

Performance objectives may be stated in absolute terms or based on comparisons to peer group companies or indices to be achieved during a calendar year.

The Compensation Committee shall determine after the end of each calendar year the extent to which the performance objectives set for each participant were achieved, and shall certify in writing the extent to which the objectives have been achieved. Each award, if any, shall be paid in a cash lump sum as soon as practicable following the Compensation Committee's certification. The maximum award any participant may receive for any calendar year is \$5 million. The relative benefits or amounts that will be received by or allocated to the various categories of eligible participants under the Bonus Plan during the life of the Bonus Plan are currently not determinable.

Tax Matters

Section 162(m) of the Internal Revenue Code places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any taxable year with respect to each covered employee within the meaning of Section 162(m) of the Internal Revenue Code. However, certain performance-based compensation is not subject to the deduction limit if the compensation is paid based solely on the attainment of pre-established objective performance measures established by a committee of outside directors and the Bonus Plan providing for such compensation is approved by the stockholders. The Bonus Plan is designed to meet these requirements. To qualify, we are seeking stockholder approval of the Bonus Plan.

The Bonus Plan is intended to be exempt from the provisions of Section 409A of the Internal Revenue Code regarding deferred compensation.

PROPOSAL NO. 6

APPROVAL OF AN AMENDMENT TO THE AMENDED AND RESTATED CERTIFICATE OF INCORPORATION OF STEWART INFORMATION SERVICES CORPORATION TO ELIMINATE CUMULATIVE VOTING IN ORDER TO ADOPT A MAJORITY VOTING STANDARD

The board of directors determined that it would be in the best interests of stockholders to adopt a majority voting standard in uncontested elections of directors. Because the board of directors believes majority voting is incompatible with cumulative voting, the board of directors is asking stockholders to approve a charter amendment which would eliminate the right of Common Stockholders to cumulate their votes in the election of directors.

On March 6, 2014, the board of directors unanimously approved, on a conditional basis, an amendment to the Company's Amended and Restated By-laws to change the voting standard for uncontested director elections from a plurality standard to a majority standard. The majority voting standard raises the standard for election to the board of directors by requiring affirmative votes from a majority of the votes cast in an uncontested election. In connection with the majority voting standard, the board of directors further approved a policy requiring the resignation of a director who fails to receive a majority vote in an uncontested election. Under the new By-law, in a contested election, the plurality voting standard would still apply. The effectiveness of the amended By-law implementing the majority voting standard and related director resignation policy is conditioned on stockholder approval of this Proposal No. 6 to eliminate cumulative voting.

Under Delaware law, stockholders do not have the right to cumulatively vote their shares in any election of directors unless a company's certificate of incorporation grants such a right. Article FOURTH of our Amended and Restated Certificate of Incorporation (the "Certificate of Incorporation") currently authorizes cumulative voting for the holders of Common Stock. For the five directors to be elected by such holders of Common Stock, the Certificate of Incorporation permits each holder to cumulate his votes by giving one candidate as many votes as five times the number of his shares shall equal, or by distributing such votes on the same principle among any number of such five candidates. By permitting the holders of Common Stock to cumulate their votes, the Certificate of Incorporation allows minority stockholders a disproportionate influence in the elections of the Company's directors.

The board of directors believes that cumulative voting is incompatible with the objectives of a majority voting standard. Cumulative voting allows stockholders with less than a majority of the shares to determine the outcome of director elections, while majority voting seeks to hold directors accountable to the holders of a majority of the shares voting. The board of directors believes that each director is responsible to all of the Company's stockholders, and not just a minority of stockholders that have cumulatively voted their shares and may harbor special interests contrary to the best interests of the majority of the Company's stockholders. The board of directors thus believes it is in the interests of stockholders to eliminate cumulative voting and adopt a majority voting standard in the election of directors for uncontested elections. The recommendation to eliminate cumulative voting in director elections is not part of a plan by the Company's management to adopt a series of anti-takeover amendments to the Company's Certificate of Incorporation or By-laws, and management has no present intention to propose other anti-takeover measures in future proxy solicitations.

Under Delaware law, because the Company permits cumulative voting, if less than the entire board of directors is to be removed, no director may be removed without cause if the votes cast against such director's removal would be sufficient to elect such director if then cumulatively voted at an election of the entire board of directors. If this Proposal No. 6 is adopted, any director elected by Common Stockholders may be removed by the holders of a majority of the shares of Common Stock entitled to vote at an election of directors.

The board of directors believes that the elimination of cumulative voting supports the Company's commitment to strong corporate governance, as well as a focused approach to manage the Company for the long-term benefit of all of its constituents.

Table of Contents

Accordingly, the board of directors recommends that stockholders approve and adopt an amendment to Article FOURTH of the Certificate of Incorporation that would eliminate the right of the holders of Common Stock to cumulate their votes in the election of directors. The text of Article FOURTH, as proposed to be amended, is included in the attachment marked as Appendix III to this proxy statement. Should the Company's stockholders elect to retain cumulative voting, the By-law amendment that has been approved by the board of directors to implement a majority voting standard in uncontested elections would not take effect.

Approval of this Proposal No. 6 requires the affirmative vote of at least a majority of the outstanding shares of the Company's Common Stock and Class B Common Stock, each voting as a class. Abstentions and broker non-votes will have the same effect as a vote against this Proposal No. 6. Should stockholder approval not be obtained, then the Certificate of Incorporation will not be amended and Common Stockholders will retain the right to cumulate their votes in director elections.

YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE APPROVAL OF AN AMENDMENT TO THE AMENDED AND RESTATED CERTIFICATE OF INCORPORATION OF STEWART INFORMATION SERVICES CORPORATION TO ELIMINATE CUMULATIVE VOTING IN ORDER TO ADOPT A MAJORITY VOTING STANDARD.

Notwithstanding any provision in the Plan, no Option shall be exercisable and no Performance Award, Restricted Performance Unit, Restricted Stock Award, Stock Appreciation Right Award, or Stock Unit Award shall vest or become satisfiable prior to such stockholder approval. No further Awards may be granted under the Plan after 10 years from the date the Plan is adopted by the Board. IV. ADMINISTRATION

(a) **Powers.** Subject to the express provisions of the Plan, the Committee shall have authority, in its discretion, to determine which Employees, Consultants, or Directors shall receive an Award, the time or times

Table of Contents

when such Award shall be made, the type of Award that shall be made, the number of shares to be subject to each Option, Restricted Stock Award, Stock Appreciation Right Award, or Stock Units Award, the number of shares subject to or the value of each Performance Award, and the value of each Restricted Performance Unit. In making such determinations, the Committee shall take into account the nature of the services rendered by the respective Employees, Consultants, or Directors, their present and potential contribution to the Company's success and such other factors as the Committee in its sole discretion shall deem relevant.

(b) **Additional Powers.** The Committee shall have such additional powers as are delegated to it by the other provisions of the Plan. Subject to the express provisions of the Plan, this shall include the power to construe the Plan and the respective Award Agreements granted hereunder, to prescribe rules and regulations relating to the Plan, and to determine the terms, restrictions and provisions of the Award Agreements, including such terms, restrictions and provisions as shall be requisite in the judgment of the Committee to cause designated Options to qualify as Incentive Stock Options, and to make all other determinations necessary or advisable for administering the Plan. The Committee may correct any defect or supply any omission or reconcile any inconsistency in the Plan or in any Award Agreement in the manner and to the extent it shall deem expedient to carry it into effect. The determinations of the Committee on the matters referred to in this Article IV shall be conclusive.

V. SHARES SUBJECT TO THE PLAN; AWARD LIMITS;

GRANT OF AWARDS

(a) **Shares Subject to the Plan.** Subject to adjustment in the same manner as provided in Article XIII with respect to shares of Common Stock subject to Options then outstanding, the aggregate number of shares of Common Stock that may be issued under the Plan shall not exceed 1,000,000 shares. Shares shall be deemed to have been issued under the Plan only (i) to the extent actually issued and delivered pursuant to an Award or (ii) to the extent an Award denominated in shares of Common Stock is settled in cash. To the extent that an Award lapses or the rights of its holder terminate, any shares of Common Stock subject to such Award shall not again be available for the grant of an Award under the Plan.

(b) **Award Limits.** Notwithstanding any provision in the Plan to the contrary:

(1) The maximum number of shares of Common Stock that may be subject to Options, Restricted Stock Awards, Stock Unit Awards, and Performance Awards denominated in shares of Common Stock granted to any one individual during any calendar year may not exceed 150,000 shares of Common Stock (subject to adjustment in the same manner as provided in Article XIII with respect to shares of Common Stock subject to Options then outstanding), and

(2) The maximum amount of compensation that may be paid under all Performance Awards denominated in cash (including the Fair Market Value of any shares of Common Stock paid in satisfaction of such Performance Awards) granted to any one individual during any calendar year may not exceed \$5,000,000, and any payment due with respect to a Performance Award shall be paid no later than 10 years after the date of grant of such Performance Award.

The limitations set forth in clauses (1) and (2) above shall be applied in a manner that will permit compensation generated under the Plan to constitute performance-based compensation for purposes of Code Section 162(m), including, without limitation, counting against such maximum number of shares, to the extent required under Code Section 162(m) and applicable interpretive authority thereunder, any shares subject to Options that are canceled or adjusted as provided in Section XIII(b) below.

(c) **Grant of Awards.** The Committee may from time to time grant Awards to one or more Employees, Consultants, or Directors determined by it to be eligible for participation in the Plan in accordance with the terms of the Plan.

Table of Contents

(d) **Stock Offered.** Subject to the limitations set forth in Section V(a), the stock to be offered pursuant to the grant of an Award may be authorized but unissued Common Stock or Common Stock previously issued and outstanding and reacquired by the Company. Any of such shares which remain unissued and which are not subject to outstanding Awards at the termination of the Plan shall cease to be subject to the Plan but, until termination of the Plan, the Company shall at all times make available a sufficient number of shares to meet the requirements of the Plan.

VI. ELIGIBILITY

Awards may be granted only to persons who, at the time of grant, are Employees, Consultants, or Directors. An Award may be granted on more than one occasion to the same person, and, subject to the limitations set forth in the Plan, such Award may include an Incentive Stock Option, an Option that is not an Incentive Stock Option, a Restricted Stock Award, a Performance Award, a Restricted Performance Unit, a Stock Appreciation Right Award, a Stock Unit Award, or any combination thereof.

VII. STOCK OPTIONS

(a) **Option Period.** The term of each Option shall be as specified by the Committee at the date of grant, but in no event shall an Option be exercisable after the expiration of 10 years from the date of grant.

(b) **Limitations on Exercise of Option.** An Option shall be exercisable in whole or in such installments and at such times as determined by the Committee.

(c) **Special Limitations on Incentive Stock Options.** An Incentive Stock Option may be granted only to an individual who is employed by the Company or any parent or Subsidiary corporation (as defined in Code Section 424) at the time the Option is granted. To the extent that the aggregate Fair Market Value (determined at the time the respective Incentive Stock Option is granted) of Common Stock with respect to which Incentive Stock Options are exercisable for the first time by an individual during any calendar year under all incentive stock option plans of the Company and its parent and Subsidiary corporations exceeds \$100,000, such Incentive Stock Options shall be treated as Options which do not constitute Incentive Stock Options. The Committee shall determine, in accordance with applicable provisions of the Code, Treasury Regulations and other administrative pronouncements, which of a Participant's Incentive Stock Options will not constitute Incentive Stock Options because of such limitation and shall notify the Participant of such determination as soon as practicable after such determination. No Incentive Stock Option shall be granted to an individual if, at the time the Option is granted, such individual owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or of its parent or Subsidiary corporation, within the meaning of Code Section 422(b)(6), unless (i) at the time such Option is granted the option price is at least 110% of the Fair Market Value of the Common Stock subject to the Option and (ii) such Option by its terms is not exercisable after the expiration of 5 years from the date of grant. An Incentive Stock Option shall not be transferable otherwise than by will or the laws of descent and distribution, and shall be exercisable during the Participant's lifetime only by such Participant or the Participant's guardian or legal representative.

(d) **Stock Option Award Agreement.** Each Option shall be evidenced by a Stock Option Award Agreement in such form and containing such provisions not inconsistent with the provisions of the Plan as the Committee from time to time shall approve, including, without limitation, provisions to qualify as an Incentive Stock Option under Code Section 422. Each Stock Option Award Agreement shall specify the effect of termination of (i) employment, (ii) the consulting or advisory relationship, or (iii) membership on the Board, as applicable, on the exercisability of the Option. A Stock Option Award Agreement may provide for the payment of the option price, in whole or in part, by the delivery of a number of shares of Common Stock (plus cash if necessary) having a Fair Market Value equal to such option price. Moreover, a Stock Option Award Agreement may provide for a

Table of Contents

cashless exercise of the Option by establishing procedures satisfactory to the Committee with respect thereto. Further, a Stock Option Award Agreement may provide for the surrender of the right to purchase shares under the Option in return for a payment under a Stock Appreciation Right, in accordance with Article X of the Plan. The terms and conditions of the respective Award Agreements need not be identical. Subject to the consent of the Participant, the Committee may, in its sole discretion, amend an outstanding Stock Option Award Agreement from time to time in any manner that is not inconsistent with the provisions of the Plan (including, without limitation, an amendment that accelerates the time at which the Option, or a portion thereof, may be exercisable).

(e) **Option Price and Payment.** The price at which a share of Common Stock may be purchased upon exercise of an Option shall be determined by the Committee but, subject to adjustment as provided in Article XIII, such purchase price shall not be less than the Fair Market Value of a share of Common Stock on the date such Option is granted. The Option, or a portion thereof, may be exercised by delivery of an irrevocable notice of exercise to the Company, as specified by the Committee. The purchase price of the Option, or a portion thereof, shall be paid in full in the manner prescribed by the Committee. Separate stock certificates shall be issued by the Company for those shares acquired pursuant to the exercise of an Incentive Stock Option and for those shares acquired pursuant to the exercise of any Option that does not constitute an Incentive Stock Option.

(f) **Restrictions on Repricing of Options.** Except as provided in Article XIII, the Committee may not, without approval of the stockholders of the Company, amend any outstanding Award Agreement to lower the option price.

(g) **Stockholder Rights and Privileges.** The Participant shall be entitled to all the privileges and rights of a stockholder only with respect to such shares of Common Stock as have been purchased under the Option and for which certificates of stock have been registered in the Participant's name.

(h) **Options in Substitution for Options Granted by Other Employers.** Options may be granted under the Plan from time to time in substitution for options held by individuals providing services to corporations or other entities who become Employees, Consultants, or Directors as a result of a merger or consolidation or other business transaction with the Company or any Subsidiary.

VIII. RESTRICTED STOCK AWARDS

(a) **Forfeiture Restrictions To Be Established by the Committee.** Shares of Common Stock that are the subject of a Restricted Stock Award shall be subject to restrictions on disposition by the Participant and an obligation of the Participant to forfeit and surrender the shares to the Company under certain circumstances (the Forfeiture Restrictions). The Forfeiture Restrictions shall be determined by the Committee in its sole discretion, and the Committee may provide that the Forfeiture Restrictions shall lapse upon (i) the attainment of one or more Performance Goals, (ii) the Participant's continued employment with the Company or continued service as a Consultant or Director for a specified period of time, (iii) the occurrence of any event or the satisfaction of any other condition specified by the Committee in its sole discretion, or (iv) a combination of any of the foregoing. Each Restricted Stock Award may have different Forfeiture Restrictions, in the discretion of the Committee.

(b) **Other Terms and Conditions.** Common Stock awarded pursuant to a Restricted Stock Award shall be represented by a stock certificate registered in the name of the Participant. Unless provided otherwise in an Award Agreement, the Participant shall have the right to receive dividends with respect to Common Stock subject to a Restricted Stock Award, to vote Common Stock subject thereto and to enjoy all other stockholder rights, except that (i) the Participant shall not be entitled to delivery of the stock certificate until the Forfeiture Restrictions have expired, (ii) the Company shall retain custody of the stock until the Forfeiture Restrictions have expired, (iii) the Participant may not sell, transfer, pledge, exchange, hypothecate or otherwise dispose of the stock until the Forfeiture Restrictions have expired, and (iv) a breach of the terms and conditions established by

Table of Contents

the Committee pursuant to the Award Agreement shall cause a forfeiture of the Restricted Stock Award. At the time of such Award, the Committee may, in its sole discretion, prescribe additional terms, conditions or restrictions relating to Restricted Stock Awards, including, but not limited to, rules pertaining to a Participant's termination of employment or termination of services provided by the Participant as a Consultant or Director (by retirement, disability, death or otherwise) prior to the expiration of the Forfeiture Restrictions. Such additional terms, conditions or restrictions shall be set forth in an Award Agreement made in conjunction with the Award.

(c) **Payment for Restricted Stock.** The Committee shall determine the amount and form of any payment for Common Stock received pursuant to a Restricted Stock Award, provided that in the absence of such a determination, a Participant shall not be required to make any payment for Common Stock received pursuant to a Restricted Stock Award, except to the extent otherwise required by law.

(d) **Committee's Discretion to Accelerate Vesting of Restricted Stock Awards.** The Committee may, in its discretion and as of a date determined by the Committee, fully vest any or all Common Stock awarded to a Participant pursuant to a Restricted Stock Award and, upon such vesting, all restrictions applicable to such Restricted Stock Award shall terminate as of such date. Any action by the Committee pursuant to this Subsection may vary among individual Participants and may vary among the Restricted Stock Awards held by any individual Participant. Notwithstanding the preceding provisions of this Subsection, the Committee may not take any action described in this Subsection with respect to a Restricted Stock Award that has been designated as a Qualified Performance-Based Award.

(e) **Restricted Stock Award Agreements.** At the time any Award is made under this Article VIII, the Company and the Participant shall enter into a Restricted Stock Award Agreement setting forth each of the matters contemplated hereby and such other matters as the Committee may determine to be appropriate. The terms and provisions of the respective Restricted Stock Award Agreements need not be identical. Subject to the consent of the Participant and the restriction set forth in the last sentence of Subsection (d) above, the Committee may, in its sole discretion, amend an outstanding Restricted Stock Award Agreement from time to time in any manner that is not inconsistent with the provisions of the Plan.

IX. RESTRICTED PERFORMANCE UNITS

(a) **Restricted Performance Units.** Restricted Performance Units are rights to receive shares of Common Stock (or the Fair Market Value thereof), or rights to receive an amount equal to any appreciation or increase in the Fair Market Value of Common Stock over a specified period of time, which vest over a period of time as established by the Committee and with the satisfaction of certain Performance Criteria or objectives. The Committee may, in its discretion, require payment or other conditions of the Participant respecting any Restricted Performance Unit.

(b) **Award Period.** The Committee shall establish, with respect to and at the time of grant of each Restricted Performance Unit, a period over which the Award shall vest with respect to the Participant.

(c) **Awards Criteria.** In determining the value of Restricted Performance Units, the Committee shall take into account a Participant's responsibility level, performance, potential, other Awards, and such other considerations as it deems appropriate.

(d) **Payment.** Following the end of the vesting period for a Restricted Performance Unit (or at such other time as the applicable Restricted Performance Unit Award Agreement may provide), the holder of a Restricted Performance Unit shall be entitled to receive payment of an amount, not exceeding the maximum value of the Restricted Performance Unit, based on the then vested value of the Award. Payment of a Restricted Performance Unit may be made in cash, Common Stock, or a combination thereof as determined by the Committee. Payment shall be made in a lump sum or in installments as prescribed by the Committee. Any payment to be made in cash

shall be based on the Fair Market Value of the Common Stock on the payment date. Cash dividend equivalents may be paid during or after the vesting period with respect to a Restricted Performance Unit, as determined by the Committee. In the event that payment is not made at the time vesting occurs, the Restricted Performance Unit Award Agreement for the Restricted Performance Unit shall contain provisions that comply with the requirements of Code Section 409A.

(e) **Termination of Award.** A Restricted Performance Unit shall terminate if the Participant does not remain continuously in the employ of the Company and its Subsidiaries or does not continue to perform services as a Consultant or a Director for the Company and its Subsidiaries at all times during the applicable vesting period, except as may be otherwise determined by the Committee. At the time of the Award is issued, the Committee may, in its sole discretion, prescribe additional terms, conditions or restrictions relating to the Restricted Performance Unit, including, but not limited to, rules pertaining to a Participant's termination of employment or termination of services provided by the Participant as a Consultant or Director (by retirement, disability, death or otherwise) prior to the expiration of the Forfeiture Restrictions. Such additional terms, conditions or restrictions shall be set forth in a Restricted Performance Unit Award Agreement made in conjunction with the Award.

(f) **Restricted Performance Unit Award Agreements.** At the time any Award is made under this Article IX, the Company and the Participant shall enter into a Restricted Performance Unit Award Agreement setting forth each of the matters contemplated hereby, and such additional matters as the Committee may determine to be appropriate. The terms and provisions of the respective Restricted Performance Unit Award Agreements need not be identical.

X. STOCK APPRECIATION RIGHTS

(a) **Stock Appreciation Rights.** A Stock Appreciation Right is an award that may or may not be granted in tandem with an Option, and entitles the holder to receive an amount equal to the difference between the Fair Market Value of the shares of Common Stock at the time of exercise of the Stock Appreciation Right and the base amount, subject to the applicable terms and conditions of the tandem options and the following provisions of this Article X.

(b) **Exercise.** A Stock Appreciation Right shall entitle the holder of an Option to receive, upon the exercise of the Stock Appreciation Right, shares of Common Stock (valued at their Fair Market Value at the time of exercise), cash, or a combination thereof, in the discretion of the Committee, in an amount equal in value to the excess of the Fair Market Value of the shares of Common Stock subject to the Stock Appreciation Right as of the date of such exercise over the purchase price of the Stock Appreciation Right. If granted in tandem with an Option, the exercise of a Stock Appreciation Right will result in the surrender of the related Option and, unless otherwise provided by the Committee in its sole discretion, the exercise of an Option will result in the surrender of a related Stock Appreciation Right, if any.

(c) **Expiration Date.** The expiration date with respect to a Stock Appreciation Right shall be determined by the Committee, and if granted in tandem with an Option, shall be not later than the expiration date for the related Option. If neither the right nor the related Option is exercised before the end of the day on which the right ceases to be exercisable, such right shall be deemed exercised as of such date and payment shall be made to the holder in cash.

(d) **Stock Appreciation Right Award Agreements.** At the time any Award is made under this Article X, the Company and the Participant shall enter into a Stock Appreciation Right Award Agreement setting forth each of the matters contemplated hereby, and such additional matters as the Committee may determine to be appropriate. The terms and provisions of the respective Stock Appreciation Right Award Agreements need not be identical.

XI. STOCK UNITS

- (a) **Stock Units.** The Committee may, subject to the limitations of the Plan and the availability of shares reserved but not previously awarded under this Plan, grant Stock Units to eligible individuals upon such terms and conditions as it may determine to the extent such terms and conditions are consistent with the following provisions. A Stock Unit Award is the grant of a right to receive shares of Common Stock or cash in the future. The minimum vesting or Performance Period for Awards of Stock Units shall be determined by the Committee.
- (b) **Terms and Conditions of Awards.** For each Participant, the Committee will determine the timing of awards; the number of Stock Units awarded; the value of Stock Units, which may be stated either in cash or in shares of Common Stock; any performance measures used for determining whether the Stock Units are earned; the number of earned Stock Units that will be paid in cash and/or shares of Common Stock; and whether dividend equivalents will be paid on Stock Units, either currently or on a deferred basis.
- (c) **Payment.** Payment for Stock Units earned shall be wholly in cash, wholly in Common Stock or in a combination of the two, in a lump sum or installments, and subject to vesting requirements and such other conditions as the Committee shall provide. The Committee will determine the number of earned Stock Units to be paid in cash and the number to be paid in Common Stock. For Stock Units payable in shares of Common Stock, one share of Common Stock will be paid for each share earned, or cash will be paid for each share earned equal to either (i) the Fair Market Value of a share of Common Stock at the delivery date, as applicable, or (ii) the Fair Market Value of the Common Stock averaged for a number of days determined by the Committee. For Stock Units awarded in cash, the value of each share earned will be paid in its initial cash value, or shares of Common Stock will be distributed based on the cash value of the shares earned divided by (x) the Fair Market Value of a share of Common Stock at the delivery date or end of the Performance Period, as applicable, or (y) the Fair Market Value of a share of Common Stock averaged for a number of days determined by the Committee. In the event that payment is not made at the time vesting occurs, the Stock Unit Award Agreement shall contain provisions that comply with the requirements of Code Section 409A.
- (d) **Death, Disability or Termination of Employment or Service.** A Participant's Stock Unit Award Agreement shall designate the extent to which an Award shall become vested if the Participant's employment is terminated (i) by the Company without Cause, (ii) by the Participant for Good Reason or Voluntary Retirement, or (iii) as a result of the Participant's death or Disability. If no such designation is made, then any unvested Stock Units shall be forfeited. In the event the Participant's employment or service with the Company and Subsidiaries terminates for Cause, the Participant terminates employment due to a Corporate Change, or the Participant violates the confidentiality, non-competition, conflicts of interest, or non-solicitation provisions applicable to his relationship with the Company during a Performance Period or prior to the delivery date for deferred Stock Units, any unvested Stock Units will be forfeited on the date his employment or service with the Company and Subsidiaries terminates. Notwithstanding the foregoing provisions, the Committee may determine that the Participant will be entitled to receive all or any portion of the Stock Units that he would otherwise receive, and may accelerate the determination and payment of the shares or units or make such other adjustments as the Committee, in its sole discretion, deems desirable.
- (e) **Acceleration Upon a Corporate Change.** An award may provide that in the event of a Corporate Change, all unvested Stock Units held by a Participant shall become immediately vested upon the Corporate Change and the level of vesting that shall occur.
- (f) **Stock Unit Award Agreements.** At the time any Award is made under this Article XI, the Company and the Participant shall enter into a Stock Unit Award Agreement setting forth each of the matters contemplated hereby, and such additional matters as the Committee may determine to be appropriate. The terms and provisions of the respective Stock Unit Award Agreements need not be identical.

XII. PERFORMANCE AWARDS

(a) **Purpose.** The purpose of this Article XII is to provide the Committee the ability to (i) grant Restricted Stock Awards, Stock Unit Awards, and Restricted Performance Units as Qualified Performance-Based Awards, and (ii) grant Performance Awards that are settled in cash or shares of Stock based on the satisfaction of Performance Criteria and, where applicable, to cause such awards to be Qualified Performance-Based Awards. If the Committee, in its discretion, decides to grant to a Covered Employee an Award that is intended to constitute a Qualified Performance-Based Award, the provisions of this Article XII shall control over any contrary provision contained herein; *provided, however*, that the Committee may grant Awards to Covered Employees that are based on Performance Criteria or Performance Goals that do not satisfy the requirements of this Article XII.

(b) **Performance Measures.** A Performance Award shall be awarded to a Participant contingent upon future performance of the Company or any Subsidiary, division, or department thereof during the Performance Period. The Committee shall designate (i) the Performance Criteria for each Performance Award, (ii) the Performance Period for each Performance Award, and (iii) the number of shares of Common Stock subject to, or the maximum value of, the Performance Award. The Committee, in its sole discretion, may provide for an adjustable Performance Award value based upon the level of achievement of the Performance Goals.

(c) **Awards Criteria.** In determining the value of Performance Awards, the Committee shall take into account a Participant's responsibility level, performance, potential, other Awards, and such other considerations as it deems appropriate. The Committee, in its sole discretion, may provide for a reduction in the value of a Participant's Performance Award (including any Qualified Performance-Based Award) during a Performance Period.

(d) **Payment.** Following the end of the Performance Period, the holder of a Performance Award shall be entitled to receive payment of an amount not exceeding the number of shares of Common Stock subject to, or the maximum value of, the Performance Award, based on the achievement of the performance measures for such Performance Period, as determined and certified in writing by the Committee. Payment of a Performance Award may be made in a lump sum in cash, Common Stock, or a combination thereof, as determined by the Committee, and shall be made no later than 2-1/2 months after the end of the Performance Period. If a Performance Award covering shares of Common Stock is to be paid in cash, such payment shall be based on the Fair Market Value of the Common Stock on the payment date.

(e) **Termination of Award.** A Performance Award shall terminate if the Participant does not remain continuously in the employ of the Company and its Subsidiaries or does not continue to perform services as a Consultant or a Director for the Company and its Subsidiaries at all times during the applicable Performance Period, except as may be determined by the Committee.

(f) **Performance Award Agreements.** At the time any Award is made under this Article XII, the Company and the Participant shall enter into a Performance Award Agreement setting forth each of the matters contemplated hereby, and such additional matters as the Committee may determine to be appropriate. The terms and provisions of the respective Performance Award Agreements need not be identical.

(g) **Special Rules for Qualified Performance-Based Awards.**

(1) **Applicability.** This Subsection (g) shall apply only to Awards made to those Covered Employees selected by the Committee to receive Qualified Performance-Based Awards. The designation of a Covered Employee as a Participant for a Performance Period shall not in any manner entitle the Participant to receive an Award for the relevant Performance Period. Moreover, designation of a Covered Employee as a Participant for a particular Performance Period shall not require designation of such Covered Employee as a Participant in any subsequent Performance Period and designation of one Covered Employee as a Participant shall not require designation of any other Covered Employees as a Participant in such period or in any other period.

Table of Contents

(2) **Procedures with Respect to Qualified Performance-Based Awards.** To the extent necessary to comply with the Qualified Performance-Based Award requirements of Code Section 162(m)(4)(C), with respect to any Award that may be granted to one or more Covered Employees, no later than 90 days following the commencement of any fiscal year in question or any other designated fiscal period or period of service (or such other time as may be required or permitted by Code Section 162(m)), the Committee shall, in writing:

(i) designate one or more Covered Employees,

(ii) select the Performance Criteria applicable to the Performance Period,

(iii) establish the Performance Goals, and amounts of such Awards, as applicable, which may be earned for such Performance Period,

(iv) specify the relationship between Performance Criteria and the Performance Goals and the amounts of such Awards, as applicable, to be earned by each Covered Employee for such Performance Period; and

(v) specify the minimum and maximum amount payable with respect to an Award.

Following the completion of each Performance Period, the Committee shall certify in writing whether the applicable Performance Goals have been achieved for such Performance Period and the amount that shall be payable with respect to that Award. No Award, or portion thereof, that is subject to the satisfaction of any condition shall be considered to be earned or vested until the Committee certifies in writing that the conditions to which the distribution, earning or vesting of such Award is subject have been achieved. The Committee may not increase during a year the amount of a Qualified Performance-Based Award that would otherwise be payable upon satisfaction of the conditions but may reduce or eliminate the payments as provided for in the Award Agreement.

(3) **Payment of Qualified Performance-Based Awards.** Unless otherwise provided in the applicable Award Agreement, a Participant must be employed by the Company or a Subsidiary on the day a Qualified Performance-Based Award for such Performance Period is paid to the Participant. Furthermore, a Participant shall be eligible to receive payment pursuant to a Qualified Performance-Based Award for a Performance Period only if the Performance Goals for such period are achieved. Unless otherwise provided in the applicable Award Agreement, in the event of termination of the Participant's service due to death, or in the event the Participant incurs a Disability, all unvested Qualified Performance-Based Awards held by such Participant shall immediately vest.

(4) **Acceleration Upon a Corporate Change.** An Award Agreement may provide that in the event of a Corporate Change, the unvested portion of the Qualified Performance-Based Award held by a Participant shall become immediately vested upon the Corporate Change.

(5) **Additional Limitations.** Notwithstanding any other provision of the Plan, any Award granted to a Covered Employee that is intended to constitute a Qualified Performance-Based Award shall be subject to any additional limitations set forth in Code Section 162(m) or any regulations or rulings issued thereunder that are requirements for qualification as qualified performance-based compensation as described in Code Section 162(m)(4)(C), and the Plan shall be deemed amended to the extent necessary to conform to such requirements.

(6) **Effect on Other Plans and Arrangements.** Nothing contained in this Subsection will be deemed in any way to limit or restrict the Committee from making any award or payment to any person under any other plan, arrangement or understanding, whether now existing or hereafter in effect.

XIII. RECAPITALIZATION OR REORGANIZATION

(a) **No Effect on Right or Power.** The existence of the Plan and the Awards granted hereunder shall not affect in any way the right or power of the Board or the stockholders of the Company to make or authorize any adjustment, recapitalization, reorganization or other change in the Company's or any Subsidiary's capital structure or its business, any merger or consolidation of the Company or any Subsidiary, any issue of debt or equity securities ahead of or affecting Common Stock or the rights thereof, the dissolution or liquidation of the Company or any Subsidiary or any sale, lease, exchange or other disposition of all or any part of its assets or business or any other corporate act or proceeding.

(b) **Adjustment upon a Change in Capitalization**

(1) **Subdivision or Consolidation of Shares; Stock Dividends.** The shares with respect to which Awards may be granted are shares of Common Stock as presently constituted, but if, and whenever, prior to the expiration of an Award theretofore granted, the Company shall effect a subdivision or consolidation of shares of Common Stock or the payment of a stock dividend on Common Stock without receipt of consideration by the Company, the number of shares of Common Stock with respect to which such Award may thereafter be exercised or satisfied, as applicable (i) in the event of an increase in the number of outstanding shares shall be proportionately increased, and the purchase price per share shall be proportionately reduced, and (ii) in the event of a reduction in the number of outstanding shares shall be proportionately reduced, and the purchase price per share shall be proportionately increased. Any fractional share resulting from such adjustment shall be rounded down to the next whole share.

(2) **Recapitalizations.** If the Company recapitalizes, reclassifies its capital stock, or otherwise changes its capital structure (a recapitalization), the number and class of shares of Common Stock covered by an Award theretofore granted shall be adjusted so that such Award shall thereafter cover the number and class of shares of stock and securities to which the Participant would have been entitled pursuant to the terms of the recapitalization if, immediately prior to the recapitalization, the Participant had been the holder of record of the number of shares of Common Stock then covered by such Award.

(c) **Adjustment upon a Corporate Change.** If a Corporate Change occurs, no later than (i) 10 days after the approval by the stockholders of the Company of the merger, consolidation, reorganization, sale, lease or exchange of assets or dissolution or such election of Directors or (ii) 30 days after a Corporate Change of the type described in Section 2(j)(iii), the Committee, acting in its sole discretion without the consent or approval of any Participant, shall effect one or more of the following alternatives, which alternatives may vary among individual Participants and which may vary among Options held by any individual Participant:

(1) accelerate the time at which Options then outstanding may be exercised so that such Options may be exercised in full for a limited period of time on or before a specified date (before or after such Corporate Change) fixed by the Committee, after which specified date all unexercised Options and all rights of Participants thereunder shall terminate;

(2) require the mandatory surrender to the Company by selected Participants of some or all of the outstanding Options held by such Participants (irrespective of whether such Options are then exercisable under the provisions of the Plan) as of a date, before or after such Corporate Change, specified by the Committee, in which event the Committee shall thereupon cancel such Options and the Company shall pay (or cause to be paid) to each Participant an amount of cash per share equal to the excess, if any, of the amount calculated in Subsection (d) below (the Change of Control Value) of the shares subject to such Option over the exercise price(s) under such Options for such shares, or

(3) make such adjustments to Options then outstanding as the Committee deems appropriate to reflect such Corporate Change (provided, however, that the Committee may determine in its sole discretion that no adjustment is necessary to Options then outstanding), including, without limitation, adjusting an Option to provide that the number and class of shares of Common Stock covered by such Option shall be adjusted so

Table of Contents

that such Option shall thereafter cover securities of the surviving or acquiring corporation or other property (including, without limitation, cash) as determined by the Committee in its sole discretion.

(d) **Change of Control Value.** For the purposes of clause (2) in Subsection (c) above, the Change of Control Value shall equal the amount determined in clause (i), (ii) or (iii), whichever is applicable, as follows; (i) the per share price offered to stockholders of the Company in any such merger, consolidation, sale of assets or dissolution transaction, (ii) the price per share offered to stockholders of the Company in any tender offer or exchange offer whereby a Corporate Change takes place, or (iii) if such Corporate Change occurs other than pursuant to a tender or exchange offer, the Fair Market Value per share of the shares into which such Options being surrendered are exercisable, as determined by the Committee as of the date determined by the Committee to be the date of cancellation and surrender of such Options. In the event that the consideration offered to stockholders of the Company in any transaction described in this Subsection (d) or Subsection (c) above consists of anything other than cash, the Committee shall determine the fair cash equivalent of the portion of the consideration offered which is other than cash.

(e) **Other Changes in the Common Stock.** In the event of changes in the outstanding Common Stock by reason of recapitalizations, reorganizations, mergers, consolidations, combinations, split-ups, split-offs, spin-offs, exchanges or other relevant changes in capitalization or distributions to the holders of Common Stock occurring after the date of the grant of any Award and not otherwise provided for by this Article XIII, such Award and any Award Agreement shall be subject to adjustment by the Committee at its sole discretion as to the number and price of shares of Common Stock or other consideration subject to such Award. In the event of any such change in the outstanding Common Stock or distribution to the holders of Common Stock, or upon the occurrence of any other event described in this Article XIII, the aggregate number of shares available under the Plan, the maximum number of shares that may be subject to Restricted Stock Awards, Stock Unit Awards, and the maximum number of shares that may be subject to Awards granted to any one individual may be appropriately adjusted to the extent, if any, determined by the Committee, whose determination shall be conclusive. Notwithstanding the foregoing, except as otherwise provided by the Committee, upon the occurrence of a Corporate Change, the Committee, acting in its sole discretion without the consent or approval of any Participant, may require the mandatory surrender to the Company by selected Participants of some or all of the outstanding Performance Awards and Restricted Performance Units as of a date, before or after such Corporate Change, specified by the Committee, in which event the Committee shall thereupon cancel such Performance Awards and Restricted Performance Units and the Company shall pay (or cause to be paid) to each Participant an amount of cash equal to the maximum value of such Performance Award or Restricted Performance Unit which, in the event the applicable performance or vesting period set forth in such Performance Award or Restricted Performance Unit has not been completed, shall be multiplied by a fraction, the numerator of which is the number of days during the period beginning on the first day of the applicable performance or vesting period and ending on the date of the surrender, and the denominator of which is the aggregate number of days in the applicable performance or vesting period.

(f) **Stockholder Action.** Any adjustment provided for in the above Subsections shall be subject to any required stockholder action.

(g) **No Adjustments unless Otherwise Provided.** Except as hereinbefore expressly provided, the issuance by the Company of shares of stock of any class or securities convertible into shares of stock of any class, for cash, property, labor or services, upon direct sale, upon the exercise of rights or warrants to subscribe therefor, or upon conversion of shares or obligations of the Company convertible into such shares or other securities, and in any case whether or not for fair value, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number of shares of Common Stock subject to Awards theretofore granted or the purchase price per share, if applicable.

(h) **Code Section 409A Provisions with Respect to Adjustments.** Notwithstanding the foregoing: (i) any adjustments made pursuant to this Article to Awards that are considered deferred compensation within the

Table of Contents

meaning of Code Section 409A shall be made in compliance with the requirements of Code Section 409A unless the Participant consents otherwise; (ii) any adjustments made to Awards that are not considered deferred compensation subject to Code Section 409A shall be made in such a manner as to ensure that after such adjustment, the Awards either continue not to be subject to Code Section 409A or comply with the requirements of Code Section 409A unless the Participant consents otherwise; and (iii) the Committee shall not have the authority to make any adjustments under this Section to the extent that the existence of such authority would cause an Award that is not intended to be subject to Code Section 409A to be subject thereto.

XIV. AMENDMENT AND TERMINATION OF THE PLAN

The Board in its discretion may terminate the Plan at any time with respect to any shares of Common Stock for which Awards have not theretofore been granted. The Board shall have the right to alter or amend the Plan or any part thereof from time to time; provided that no change in the Plan may be made that would impair the rights of a Participant with respect to an Award theretofore granted without the consent of the Participant, and provided, further, that the Board may not, without approval of the stockholders of the Company, (i) amend the Plan to increase the maximum aggregate number of shares that may be issued under the Plan or change the class of individuals eligible to receive Awards under the Plan, or (ii) amend or delete Article VII(f).

XV. MISCELLANEOUS

(a) **No Right To An Award.** Neither the adoption of the Plan nor any action of the Board or of the Committee shall be deemed to give any individual any right to be granted an Option, a right to a Restricted Stock Award, a right to a Performance Award, a right to a Stock Appreciation Right Award, a right to a Stock Unit Award, or a right to a Restricted Performance Unit, or any other rights hereunder except as may be evidenced by an Award Agreement duly executed on behalf of the Company, and then only to the extent and on the terms and conditions expressly set forth therein. The Plan shall be unfunded. The Company shall not be required to establish any special or separate fund or to make any other segregation of funds or assets to assure the performance of its obligations under any Award.

(b) **No Employment/Membership Rights Conferred.** Nothing contained in the Plan shall (i) confer upon any Employee or Consultant any right with respect to continuation of employment or of a consulting or advisory relationship with the Company or any Subsidiary or (ii) interfere in any way with the right of the Company or any Subsidiary to terminate his or her employment or consulting or advisory relationship at any time. Nothing contained in the Plan shall confer upon any Director any right with respect to continuation of membership on the Board.

(c) **Other Laws; Withholding.** The Company shall not be obligated to issue any Common Stock pursuant to any Award granted under the Plan at any time when the shares covered by such Award have not been registered under the Securities Act of 1933, as amended, and such other state and federal laws, rules and regulations as the Company or the Committee deems applicable and, in the opinion of legal counsel for the Company, there is no exemption from the registration requirements of such laws, rules and regulations available for the issuance and sale of such shares. No fractional shares of Common Stock shall be delivered, nor shall any cash in lieu of fractional shares be paid. The Company shall have the right to deduct in connection with all Awards any taxes required by law to be withheld and to require any payments required to enable it to satisfy its withholding obligations.

(d) **No Restriction on Corporate Action.** Nothing contained in the Plan shall be construed to prevent the Company or any Subsidiary from taking any action which is deemed by the Company or such Subsidiary to be appropriate or in its best interest, whether or not such action would have an adverse effect on the Plan or any Award made under the Plan. No Participant, beneficiary or other person shall have any claim against the Company or any Subsidiary as a result of any such action.

Table of Contents

(e) **Restrictions on Transfer**. An Award (other than an Incentive Stock Option, which shall be subject to the transfer restrictions set forth in Article VII(c)) shall not be transferable otherwise than (i) by will or the laws of descent and distribution, (ii) pursuant to a qualified domestic relations order as defined by the Code or Title I of the Employee Retirement Income Security Act of 1974, as amended, or the rules thereunder, or (iii) with the consent of the Committee.

(f) **Right of Offset**. The Company will have the right to offset against its obligation to deliver shares of Common Stock under the Plan or any Award Agreement any outstanding amounts (including, without limitation, travel and entertainment or advance account balances, loans, repayment obligations under any Awards, or amounts repayable to the Company pursuant to tax equalization, housing, automobile or other employee programs) that the Participant then owes to the Company and any amounts the Committee otherwise deems appropriate pursuant to any tax equalization policy or agreement; provided, however, that no such offset shall be permitted if it would constitute an acceleration of a payment hereunder within the meaning of Code Section 409A. This right of offset shall not be an exclusive remedy and the Company's election not to exercise the right of offset with respect to any amount payable to a Participant shall not constitute a waiver of this right of offset with respect to any other amount payable to the Participant or any other remedy.

(g) **Code Section 409A**. It is the intention of the Company that no Award shall be deferred compensation subject to Code Section 409A unless and to the extent that the Committee specifically determines otherwise, and the Plan and the terms and conditions of all Awards shall be interpreted accordingly. The terms and conditions governing any Awards that the Committee determines will be subject to Code Section 409A, including any rules for elective or mandatory deferral of the delivery of cash or shares of Common stock pursuant thereto, shall be set forth in the applicable Award Agreement, and shall comply in all respects with Code Section 409A. Notwithstanding any provision herein to the contrary, any Award issued under the Plan that constitutes a deferral of compensation under a nonqualified deferred compensation plan as defined under Code Section 409A(d)(1) and is not specifically designated as such by the Committee shall be modified or cancelled to comply with the requirements of Code Section 409A, including any rules for elective or mandatory deferral of the delivery of cash or shares of Common Stock pursuant thereto. Unless expressly permitted by the Committee in an Award Agreement, a Participant does not have any right to make any election regarding the time or form of any payment pursuant to an Award.

(h) **Governing Law**. The Plan shall be governed by, and construed in accordance with, the laws of the State of Delaware, without regard to conflicts of laws principles thereof.

ARTICLE II

ADMINISTRATION

Subject to the terms and conditions of this Article II, the Plan shall be administered by the Committee. All Committee actions under the Plan shall be taken in accordance with the applicable provisions of the Company's bylaws and the Committee's Charter. The Committee shall have the power, in its discretion, to take such actions as may be necessary to carry out the provisions of the Plan and the authority to control and manage the operation and administration of the Plan. In order to effectuate the purposes of the Plan, the Committee shall have the discretionary power and authority to construe and interpret the Plan, to supply any omissions therein, to reconcile and correct any errors or inconsistencies, to decide any questions in the administration and application of the Plan, and to make equitable adjustments for any mistakes or errors made in the administration of the Plan. All such actions or determinations made by the Committee, and the application of rules and regulations to a particular case or issue by the Committee, in good faith, shall not be subject to review by anyone, but shall be final, binding and conclusive on all persons ever interested hereunder.

In construing the Plan and in exercising its power under provisions requiring the Committee's approval, the Committee shall attempt to ascertain the purpose of the provisions in question, and when the purpose is known or reasonably ascertainable, the purpose shall be given effect to the extent feasible as determined by the Committee. Likewise, the Committee is authorized to determine all questions with respect to the individual rights of all Participants under the Plan, including, but not limited to, all issues with respect to eligibility. The Committee shall have all powers necessary or appropriate to accomplish its duties under the Plan including, but not limited to, the power and duty to:

- (a) designate the Executives who are eligible to participate in the Plan as Participants;
- (b) maintain records of all Plan transactions and other data in the manner necessary for proper administration of the Plan;

The Committee may delegate to one or more members of the Committee (the subcommittee) any of its administrative duties under the Plan pursuant to such conditions or limitations as the Committee may establish from time to time by directive or practice; provided, however, the Committee cannot delegate to the subcommittee the power, authority or duty to (i) award Incentive Compensation under the Plan or (ii) to take any action which would contravene the requirements of Code Section 162(m) or the Sarbanes-Oxley Act of 2002.

ARTICLE III

ELIGIBILITY

ARTICLE IV

ESTABLISHMENT OF INCENTIVE COMPENSATION TARGETS

4.1 **Incentive Compensation Award Target**. For each award of Incentive Compensation for a Performance Period, the Committee will establish the Performance Level of targeted Incentive Compensation for each Participant within the first 90 days of the Performance Period (or within such shorter deadline as may apply under Code Section 162(m) if the Performance Period is fewer than 12 months). The Incentive Compensation Performance Levels for each Participant that are established by the Committee will be expressed as a percentage of such Participant's Base Pay, provided, however, in no event will a Participant's Incentive Compensation exceed five million dollars (\$5,000,000) for any single Performance Period.

Once the Committee has determined the amount of a Participant's Incentive Compensation for a Performance Period, and upon certification required under Section 6.1, the Committee shall approve the Participant's Incentive Compensation award pursuant to such procedures as the Committee may adopt under Article II.

4.2 **Increase in Incentive Compensation**. Under no circumstances may the amount of any Incentive Compensation awarded to any Participant for a specified Performance Period be increased by the Committee without the requisite shareholder approval to the extent required by Code Section 162(m) and Regulation Section 1.162-27(e)(4)(vi).

ARTICLE V

DETERMINATION OF GOALS FOR INCENTIVE COMPENSATION

5.1 **Establishment of Performance Goals**. For each Performance Period for which the Committee determines to establish potential Incentive Compensation awards for one or more Participants, the Committee, within the first 90 days of such Performance Period (or within such shorter deadline as may apply under Code Section 162(m) if the Performance Period is fewer than 12 months), will set forth in writing all of the terms and conditions of such Incentive Compensation awards, including: (i) the Performance Goals for the Performance Period, including the Performance Criteria and the objective goals established relative to such Performance Criteria, which will include a Threshold, Target, and Maximum Performance Level, and the relative weighting of each Performance Goal in determining the Participant's actual Incentive Compensation; provided, however, the outcome of such Performance Goals must be substantially uncertain at the time they are established by the Committee, and (ii) with respect to each Participant, the Maximum Target Payout.

5.2 **Determination**. Within a reasonable period of time after the end of each Performance Period, the Committee shall determine the extent to which the Performance Goals assigned to each Participant were achieved for the Performance Period, and based solely on such achievement, shall approve the calculation of the Participant's actual Incentive Compensation award. No Incentive Compensation is payable hereunder unless the Threshold Performance Level for a Performance Goal has been achieved, as determined by the Committee.

5.3 **Committee Discretion**. The Committee shall have no discretion to approve an amount of Incentive Compensation to be paid under the Plan that is in excess of the pre-established Incentive Compensation Maximum Target Payout for the applicable Performance Period. The Committee may elect to reduce the amount of any Incentive Compensation payable to a Participant in its sole discretion.

ARTICLE VI

PAYMENT OF INCENTIVE COMPENSATION

6.1 **Form and Time of Payment**. Subject to Section 6.2, a Participant's Incentive Compensation for each Performance Period, if any, shall be paid in a cash lump sum (net of applicable tax and other required

Table of Contents

withholdings) as soon as practicable after (i) the results for such Performance Period have been finalized and (ii) the Committee has certified, in writing, that the applicable Performance Goals have been satisfied for the Performance Period. The Incentive Compensation shall be paid under the Plan no earlier than January 1st, and no later than March 31st, of the year following the year in which such Incentive Compensation is earned by the Participant, provided the Participant is employed on the date of payment.

6.2 Payment in the Event of Termination.

(a) If a Participant's employment terminates for any reason prior to the end of a Performance Period, then such Participant shall immediately forfeit and relinquish any and all rights and claims to receive any Incentive Compensation hereunder for such Performance Period.

(b) If a Participant's employment terminates for any reason after the end of a Performance Period but prior to the date of actual payment pursuant to Section 6.1, then such Participant shall immediately forfeit and relinquish any and all rights and claims to receive any Incentive Compensation hereunder for such Performance Period.

ARTICLE VII

PERFORMANCE CRITERIA

The Incentive Compensation will be determined by the attainment towards metrics that are specific to a Participant's position and reflective of the Company's performance. The metrics applicable to a specific Participant shall be described in detail in such Participant's Executive Compensation Plan Summary as determined by the Committee.

7.1 Participant's Performance. In general, the Participant's performance is measured against one or more Performance Criteria established by the Committee (as listed in Section 7.2 below). A Performance Criteria may be measured based on the performance of the Company or, as determined by the Committee, any of its divisions, business segments or operating units, and may be absolute, relative to one or more other companies, or relative to one or more other metrics or indexes. In establishing the Performance Criteria for each award of Incentive Compensation, the Committee may provide that the effect of specified extraordinary or unusual events will be included or excluded (including, but not limited to, all items of gain, loss or expense determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of business or related to a change in accounting principle, all as determined in accordance with standards set by Opinion No. 30 of the Accounting Principles Board (APB Opinion 30) or other authoritative financial accounting standards). The terms of the stated Performance Criteria for each applicable award of Incentive Compensation must preclude the Committee's discretion to increase the amount payable to any Participant that would otherwise be due upon attainment of the Performance Criteria. The Performance Criteria specified need not be applicable to all awards of Incentive Compensation, and may be particular or unique to an individual Participant's function, duties or business unit.

7.2 Company's Performance. In general, the Company's performance is measured in relation to corporate performance and operational performance. The metrics used by the Committee with respect to the Company's performance may include, but are not limited to, the following:

- (a) Budget Attainment,
- (b) Cash flow, determined as operating cash flow, free cash flow, or any other cash flow metric,
- (c) Customer services scores or metrics, including Customer Service Index,
- (d) Earnings per share,
- (e) EBITDA,
- (f) Economic value added,

MISCELLANEOUS PROVISIONS

8.1 **Non-Assignability**. A Participant cannot alienate, assign, pledge, encumber, transfer, sell or otherwise dispose of any rights or benefits under the Plan prior to the actual receipt thereof; and any attempt to alienate, assign, pledge, sell, transfer or assign prior to such receipt, or any levy, attachment, execution or similar process upon any such rights or benefits, shall be null and void.

8.2 **No Right to Continue in Employment**. Nothing in the Plan confers upon any Participant the right to continue in the employ of the Company or any Subsidiary, or interferes with or restricts in any way the right of the Employer to discharge any Participant at any time (subject to any contract rights of such Participant).

8.3 **Withholding**. The Company shall have the right to withhold, or require an Eligible Executive to remit to the Company, an amount sufficient to satisfy any applicable federal, state, local or foreign withholding tax requirements imposed with respect to the payment of any Incentive Compensation.

8.4 **Indemnification of Committee Members**. Each person who is or was a member of the Committee shall be indemnified by the Company against and from any damage, loss, liability, cost and expense that may be imposed upon or reasonably incurred by him in connection with or resulting from any claim, action, suit, or proceeding to which he is or may be a party, or in which he may be involved, by reason of any action taken or failure to act under the Plan, except for any such act or omission constituting willful misconduct or gross negligence. Each such person shall be indemnified by the Company for all amounts paid by him in settlement thereof, with the Company's approval, or paid by him in satisfaction of any judgment in any such action, suit, or proceeding against him, provided he shall give the Company an opportunity, at its own expense, to handle and defend the same before he undertakes to handle and defend it on his own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled from the Company, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

8.5 **No Plan Funding**. The Plan shall at all times be entirely unfunded and no provision shall be made with respect to segregating any assets of any Employer for payment of any amounts due hereunder. No Participant, Beneficiary, or other person or entity shall have any interest in any particular assets of an Employer by reason of the right to receive any Incentive Compensation under the Plan until such payment is actually received by such person. Participants and Beneficiaries shall have only the rights of general unsecured creditors of the Company.

Table of Contents

8.6 **Governing Law**. The Plan shall be construed in accordance with the laws of the State of Delaware without regard to its conflicts of law provisions.

8.7 **Binding Effect**. The Plan shall be binding upon and inure to the benefit of the Employer and its successors and assigns, and the Participants and their Beneficiaries, heirs, and personal representatives.

8.8 **Construction of Plan**. The captions used in the Plan are for convenience of reference only and shall not be construed in interpreting the Plan. Whenever the context so requires, the masculine shall include the feminine and neuter, and the singular shall also include the plural, and conversely.

8.9 **Compliance with Code Section 409A**. The Plan is intended to be excluded from coverage under Code Section 409A pursuant to the short-term deferral exception under Regulation Section 1.409A-1(b)(4). However, to the extent that any payment under the Plan is determined by the Committee to be nonqualified deferred compensation subject to Section 409A, the Company may amend the Plan to the extent necessary to comply with Code Section 409A.

ARTICLE IX

AMENDMENT OR DISCONTINUANCE

The Committee may at any time, and from time to time, without the consent of any Participant, amend, revise, suspend, or discontinue the Plan, in whole or in part, subject to any shareholder approval required by law; provided, however, the Committee may not amend the Plan to change the method for determining Incentive Compensation or the Performance Goals under Articles IV, V, VI and VII without the approval of the majority of votes cast by the shareholders of the Company in a separate vote to the extent required by Code Section 162(m).

ARTICLE X

EFFECT OF THE PLAN

Neither the adoption of the Plan, nor any action of the Board or the Committee hereunder, shall be deemed to give any Participant any right to be granted Incentive Compensation hereunder. In addition, nothing contained in the Plan, and no action taken pursuant to its provisions, shall be construed to (i) give any Participant any right to any compensation, except as expressly provided herein; (ii) be evidence of any agreement, contract or understanding, express or implied, that any Employer will employ a Participant in any particular position or for any particular duration; (iii) give any Participant any right, title, or interest whatsoever in, or to, any assets or investments which the Participant may make to aid it in meeting its obligations hereunder; (iv) create a trust or fund of any kind; or (v) create any type of fiduciary relationship between an Employer and a Participant or any other person.

ARTICLE XI

TERM

The Plan shall be effective as of January 1, 2014, contingent upon its approval by the Company's shareholders in a manner consistent with the shareholder approval requirements of Code Section 162(m).

Table of Contents**APPENDIX III**

The total number of shares of all classes of stock which the corporation shall have the authority to issue is 52,500,000 shares, consisting of 50,000,000 shares of Common Stock, par value \$1.00 per share; 1,500,000 shares of Class B Common Stock, par value \$1.00 per share; and 1,000,000 shares of Preferred Stock, par value \$0.001 per share. The Board of Directors is authorized to establish, from the authorized shares of Preferred Stock, one or more classes or series of shares, to designate each such class and series, and to fix the rights and preferences of each such class and series. Without limiting the authority of the Board of Directors granted hereby, each such class or series of Preferred Stock shall have such voting powers (full or limited or no voting powers), such preferences and relative, participating, optional or other special rights, and such qualifications, limitations, or restrictions as shall be stated and expressed in the resolution or resolutions providing for the issue of such class or series of Preferred Stock as may be adopted from time to time by the Board of Directors prior to the issuance of any shares thereof. Except as provided in the resolution or resolutions of the Board of Directors creating any series of Preferred Stock, the shares of Common Stock and Class B Common Stock shall have the exclusive right to vote for the election and removal of directors and for all other purposes as set forth herein.

The designations and the powers, preferences and rights, and the qualifications, limitations or restrictions of the Common Stock and Class B Common Stock are as follows:

(1) Voting. The Common Stock and the Class B Common Stock shall have the exclusive right to vote for the election of directors and for all other purposes, each holder of the Common Stock and each holder of the Class B Common Stock being entitled to one vote for each share held. For so long as there are issued and outstanding 1,050,000 or more shares of Class B Common Stock (adjusted proportionately for stock dividends and stock splits or combinations occurring after March 19, 2001), at each election for directors the Common Stock and the Class B Common Stock shall be voted as separate classes, and the holders of the Common Stock shall be entitled to elect five of the nine directors (each holder of Common Stock having the right to vote, in person or by proxy, the number of shares owned by him for the five directors to be elected by the holders of the Common Stock and for whose election he has a right to vote, ~~or to cumulate his votes by giving one candidate as many votes as five times the number of his shares shall equal, or by distributing such votes on the same principle among any number of such five candidates~~). The holders of the Class B Common Stock shall be entitled to elect the remaining four of the nine directors, ~~and no~~. No holder of Common Stock or Class B Common Stock shall have the right of cumulative voting at any election of directors. In the event that issued and outstanding shares of Class B Common Stock are less than 1,050,000 shares but more than 600,000 shares (adjusted proportionately for stock dividends and stock splits or combinations occurring after March 19, 2001), the number of directors to be so elected by the holders of the Common Stock shall be six and the number of directors to be so elected by the holders of the Class B Common Stock shall be three. Any amendment to, or rescission of, Section 3.7 of the Company's by-laws must be approved by a majority of the Company's outstanding Common Stock and a majority of the Company's outstanding Class B Common Stock, voting as separate classes. Except as otherwise provided hereinafter in this paragraph and as otherwise required by law, all shares of Common Stock and Class B Common Stock shall, upon all matters other than the election of directors, be voted as a single class (and, in the event that the number of issued and outstanding shares of Class B Common Stock is ever less than 600,000 (adjusted proportionately for stock dividends and stock splits or combinations occurring after March 19, 2001), the Common Stock and the Class B Common Stock shall be voted as a single class upon all matters, ~~with~~without the right to cumulate votes for the election of directors); provided, however, that no change in the Certificate of Incorporation which would affect the Common Stock and the Class B Common Stock unequally shall be made without the affirmative vote of at least a majority of the outstanding shares of each class, voting as a class.

(2) Dividends. The holders of the Common Stock and the Class B Common Stock shall be entitled to receive, when, as and if declared by the Board of Directors, out of funds legally available therefore, dividends payable in cash, stock or otherwise, subject to the following preferences and restrictions:

(a) No cash dividends shall be declared or paid upon the Class B Common Stock;

(b) Dividends payable in property (other than cash or stock) of the corporation shall be payable upon the shares of Common Stock and Class B Common Stock without distinction between the two classes;

Table of Contents

(c) If a dividend payable in stock of the corporation shall be declared at any time upon either the Common Stock or the Class B Common Stock, a like dividend shall be declared upon the other class of common stock. All dividends payable in stock of the corporation shall be paid in shares of Common Stock with respect to the dividends upon shares of the Common Stock and in shares of Class B Common Stock with respect to dividends upon shares of the Class B Common Stock.

(3) Preemptive Rights. No stockholder shall have any preemptive right to subscribe to an additional issue of capital stock of the corporation or to any security convertible into such stock. Any preferential rights to purchase stock or securities of the corporation which are granted to the stockholders shall be granted to the holders of the Common Stock and Class B Common Stock without distinction between the two classes.

(4) Conversion. Each share of Class B Common Stock of the corporation shall, at any time at the option of the holder thereof, be convertible into one share of Common Stock of the corporation. In the event of any transfer, upon death or otherwise, of any share of Class B Common Stock to any person or entity other than a qualified holder (as hereinafter defined), such share shall thereupon become a share of Common Stock. As used in the preceding sentence, the term qualified holder means (i) a lineal descendant of William H. Stewart (who died in 1903 in Galveston County, Texas), (ii) a spouse of any such descendant and (iii) a personal representative, trustee or custodian for the benefit of any such spouse or descendant. A partnership shall be deemed to be a qualified holder if each of its partners is a qualified holder; a corporation shall be deemed to be a qualified holder if each holder of its capital stock is a qualified holder; and a trust shall be deemed to be a qualified holder if each beneficiary is a qualified holder.

(5) Liquidation. Upon any liquidation, dissolution or winding up of the corporation, whether voluntary or involuntary, the remaining net assets of the corporation shall be distributed pro rata to the holders of the Common Stock and the Class B Common Stock in accordance with their respective rights and interest.

Whenever the vote of stockholders at a meeting thereof is required or permitted to be taken for or in connection with any corporate action, the meeting and vote of stockholders may be dispensed with and such action may be taken with the written consent of stockholders having not less than the minimum percentage of the vote required by statute for the proposed corporate action, provided that prompt notice shall be given to all stockholders of the taking of corporate action without a meeting and by less than unanimous consent.
