Strategic agreement with Sovcomflot to create a marine JV  
**CGG CEO, Jean-Georges Malcor, commented:**

*« Given the current weak market conditions characterized notably by the unpredictable capex spending of our clients, delays in awarding projects and pressure on prices, we anticipate 2014 to remain difficult. In this context, CGG has decided to accelerate and intensify its restructuring measures into 2014, downsizing the fleet from 18 to 13 vessels by the end of the year and disposing of its North America land acquisition business to Geokinetics. Thanks to the full commitment of our employees we managed to deliver resilient profitability this quarter.*

*We anticipate, with this new perimeter, a sequential improvement in our results during the second half of the year sustained by a typically strong fourth quarter. The set of measures put in place during 2014 allow us to confirm our objective of 400 bps Ebit margin improvement in 2016.»*

**Post-closing event:**

On the 21<sup>st</sup> of July, CGG negotiated a one-year extension of the French Revolving Credit Facility to maintain the 3 year maturity

On the 1<sup>st</sup> of August, CGG announced the disposal of the North American land contract business to Geokinetics

**Equipment division Total Revenue** was \$196 million, down 23% compared to the second quarter of 2013 and down 5% sequentially. The weakness of the seismic acquisition market is translating into lower seismic equipment spending. Nevertheless in this context, Sercel is increasing its market share.

External sales were \$148 million, down 21% and internal sales represented 24% of total revenue, down 27% as a consequence of the CGG's fleet downsizing.

In June, Sercel was awarded by Argas, our partner in the Middle East, the 60 000 channel count crew in Saudi Arabia.

Interest for the 508<sup>XT</sup> acquisition system among our clients is increasing. In addition to the first two 508<sup>XT</sup> systems being delivered to the industry in June, Sercel announced at the European seismic convention (EAGE) that a system had been sold to PanAmerican Geophysical for delivery in July and will be deployed in North America. During this convention, Sercel also launched the new land vibrator Go Anywhere Nomad 15, its unique design gives the best mass/baseplate ratio available on the market and with a reduced environmental footprint. In Marine, Sercel launched QuietSea, its new passive acoustic monitoring (PAM) system designed to detect the presence of marine mammals during seismic operations which is set to revolutionize PAM within the seismic industry.

**Equipment division EBITDAs** was \$50 million, a margin of 26%.

**Equipment division EBIT** was \$39 million, a margin of 20%. The margin was impacted by lower revenue, by an unfavorable /\$ exchange rate as in Q1 2014 and by pressure on prices.

**Equipment division Capital Employed** was \$0.8 billion at the end of June 2014.

**Acquisition division Total Revenue** was \$481 million, down 21% year-on-year and down 14% sequentially. In these difficult market conditions, operational performance remained strong in marine with production rate at 92%. External revenue was \$241 million.

**Marine Acquisition** revenue was \$407 million, down 20% year-on-year and down 10% sequentially. 52% of the fleet was dedicated to multi-client programs. Utilization rate was at a high level this quarter for the whole fleet with availability rate at 94% and a production rate at 92%. After the Symphony was decommissioned in February, we operated 17 3D vessels including source vessels this quarter.

On the 19<sup>th</sup> of June, CGG and Sovcomflot signed an agreement to form a joint venture company dedicated to conducting high-end 3D marine seismic acquisition services. The joint venture, to be called Arctic Geophysical Exploration (AGE), will be 51% owned by Sovcomflot and 49% owned by CGG.

**Land and Airborne Acquisition** revenue was \$74 million, down 21% year-on-year and down 30% sequentially. This decrease is mainly due to weak market conditions across the regions. Revenue was low in Airborne due to reduced mining activity and flat oil & gas market.

**Acquisition division EBITDAs** was \$95 million, a margin of 20%.

**Acquisition Division Operating Income** was at \$19 million with an improvement in marine acquisition profitability sequentially.

**Acquisition division EBIT** was \$6 million a margin of 1% due to the \$(13) million negative contribution of the equity from investees (including 40% of the Seabed Geosolutions JV).

**Acquisition division Capital Employed** was \$2.4 billion at the end of June 2014.

**GGR Division Total Revenue** was \$300 million, down 18% year-on-year and up 3% sequentially.

**Multi-client revenue** was \$128 million, down 36% year-on-year and stable sequentially in the context of overall lower exploration spending and delays in operations and permitting issues in Brazil.

*Prefunding revenue* was \$92 million up 6% year-on-year and up 15% sequentially. Multi-client cash capex was \$175 million, 53% prefunded and mainly focused on our footprint extension in mature basins such as the Norwegian North Sea (Horda) but also in the Gulf of Mexico with the continuation of our IBALT program. On the 15<sup>th</sup> of May, CGG started acquiring a large BroadSeis™ 3D multi-client survey program in the deep and ultra-deep waters of the Espirito Santo Basin. The project has received high prefunding from major industry players. At the EAGE, CGG announced the release of the Fast Trax™ processed data from its Deux multi-client IBALT survey covering 357 blocks in the Gulf of Mexico. The Fast Trax seismic images have been delivered on schedule less than seven months after completion of the survey.

*After-sales revenue* was \$35 million, down 68% year-on-year and down 26% sequentially. This fall is mainly due to our clients' reduction in spending on exploration and seismic activities.

**Subsurface Imaging & Reservoir** revenue was \$172 million, up 2% year-on-year and 6% sequentially in line with our expectations. Demand for imaging, reservoir services and software remains strong.

**GGR Division EBITDAs** was \$159 million, a margin of 53%.

**GGR Division EBIT** was \$62 million, a margin of 21%. The multi-client depreciation rate amounted to 62%, leading to a \$1,012 million Net Book Value at the end of June 2014.

**GGR Division Capital Employed** was \$2.9 billion at the end of June 2014.

## Second Quarter 2014 Financial Results

**Group Total Revenue** was \$689 million, down 33% year-on-year and down 15% sequentially. This breaks down to 22% from the Equipment division, 35% from the Acquisition division, and 43% from the GGR division.
