NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share and per share data)

(Unaudited)

October 25, 2014

NOTE 1 GENERAL

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly the financial position of our Company as of October 25, 2014, and our results of operations and cash flows for the periods ended October 25, 2014 and October 26, 2013. Such adjustments are of a normal recurring nature. The results of operations for the periods ended October 25, 2014 and October 26, 2013, are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the financial statements included in the 2014 Annual Report on Form 10-K filed on June 25, 2014.

The condensed consolidated financial statements of Patterson Companies, Inc. (*Patterson* or *Company*) include the assets and liabilities of PDC Funding Company, LLC (*PDC Funding*) and PDC Funding Company II, LLC (*PDC Funding II*), wholly owned subsidiaries and separate legal entities under Minnesota law. PDC Funding and PDC Funding II are fully consolidated special purpose entities of our Company established to sell customer installment sale contracts to outside financial institutions in the normal course of business. The assets of PDC Funding and PDC Funding II would be available first and foremost to satisfy the claims of its creditors. There are no known creditors of PDC Funding or PDC Funding II.

Fiscal Year End

The fiscal year end of our Company is the last Saturday in April. The second quarter of fiscal years 2015 and 2014 represents the 13 weeks ended October 25, 2014 and October 26, 2013, respectively. Fiscal years 2015 and 2014 each include 52 weeks of operations.

Comprehensive Income

Comprehensive income is computed as net income plus certain other items that are recorded directly to stockholders equity. Significant items included in comprehensive income are foreign currency translation adjustments and the effective portion of cash flow hedges. Foreign currency translation adjustments do not include a provision for income tax because earnings from foreign operations are considered to be indefinitely reinvested outside the U.S. The income tax benefit related to cash flow hedge losses was \$2,321 for the second quarter and \$7,134 for the six months ended October 25, 2014.

Earnings Per Share

The following table sets forth the computation of the weighted average shares outstanding used to calculate basic and diluted earnings per share (shares in thousands):

	Three Months Ended		Six Months Ended	
	October 25,	October 26,	October 25,	October 26,

Denominator for diluted earnings per share adjusted weighted average shares	99,376	101,968	99,779	101,944

Table of Contents

Options to purchase 124,000 shares of common stock during the three and six months ended October 25, 2014, and 75,000 shares during the three and six months ended October 26, 2013, respectively, were excluded from the calculation of diluted earnings per share because the effect would have been anti-dilutive. There were no unvested restricted stock awards excluded from the calculation of diluted earnings per share during the three and six months ended October 25, 2014, or the three and six months ended October 26, 2013, respectively, because the effect would have been anti-dilutive.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. ASU No. 2014-09 supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period and is to be applied retrospectively, with early application not permitted. We are evaluating the new standard, but do not, at this time, anticipate a material impact to the financial statements once implemented.

NOTE 2 ACQUISITIONS

On August 16, 2013, Patterson Companies, Inc. completed the acquisition of all the outstanding stock of National Veterinary Services Limited (NVS) from Dechra Pharmaceuticals, PLC. NVS is the largest veterinary products distributor in the United Kingdom.

Operating results for this acquisition have been included in our Condensed Consolidated Statements of Income and Comprehensive Income from the date of acquisition and are reflected in the Veterinary reporting segment. The acquisition contributed \$173,946 of net sales to the segment for the second quarter and \$347,522 for the six months ended October 25, 2014. For the three and six months ended October 26, 2013, the acquisition contributed \$117,748 of net sales. Pro forma results are not presented, as the acquisition is not considered material to our Company.

NOTE 3 GOODWILL AND OTHER INTANGIBLE ASSETS

The goodwill balances and related activity by business segment as of April 26, 2014 and October 25, 2014 are as follows:

	Balance at April 26, 2014	Acquisition Activity & Divestitures	Translation And Other Activity	Balance at October 25, 2014

Total identifiable intangible assets, net	\$ 209,527	\$ 223,150

NOTE 4 DERIVATIVE FINANCIAL INSTRUMENTS

Patterson is a party to certain offsetting and identical interest rate cap agreements. These cap agreements are not designated for hedge accounting treatment and were entered into to fulfill certain covenants of a sale agreement between a commercial paper conduit managed by The Bank of Tokyo-Mitsubishi UFJ, Ltd. and PDC Funding. On November 25, 2014, this agreement was amended on terms consistent with the expiring agreement. The cap agreements provide a credit enhancement feature for the financing contracts sold by PDC Funding to the commercial paper conduit.

The cap agreements are cancelled and new agreements entered into periodically to maintain consistency with the dollar maximum of the sale agreements and the maturity of the underlying financing contracts. As of October 25, 2014, PDC Funding had purchased an interest rate cap from a bank with a notional amount of \$500,000 and a maturity date of February 2022. Patterson Companies, Inc. sold an identical interest rate cap to the same bank.

Similar to the above agreements, PDC Funding II, and Patterson Companies, Inc. entered into offsetting and identical interest rate cap agreements with a notional amount of \$100,000 in fiscal 2014. In August 2014, these agreements were terminated and replaced with offsetting and identical interest rate cap agreements. The notional amount remained at \$100,000 and the new maturity date is October 2022.

In addition to the purchased and sold identical interest rate cap agreements described above, in May 2012 we entered into an interest rate swap agreement with a bank to economically hedge the interest rate risk associated with a portion of the finance contracts we had sold through the special purpose entities.

These interest rate contracts do not qualify for hedge accounting treatment and, accordingly, we record the fair value of the agreements as an asset or liability and the change as income or expense during the period in which the change occurs.

In January 2014 we entered into a forward interest rate swap agreement with a notional amount of \$250,000 and accounted for as cash flow hedge, to hedge interest rate fluctuations in anticipation of refinancing the 5.17% senior notes due March 25, 2015 with a long-term loan for \$250,000 and a term of ten years.

The following presents the fair value of interest rate contracts included in the consolidated balance sheets:

Derivative type	Classification	October 25, 2014	April 26, 2014	October 26, 2013
Assets:				
Interest rate contracts	Other noncurrent assets	\$ 963	\$ 1,716	\$ 810

Interest rate swaps	Other current liabilities	\$ 18,874	\$ 5,660	\$ 0

Table of Contents

The following table presents the effect of interest rate contracts on the consolidated statements of income and comprehensive income (net of tax):

Derivative type	Location of gain (loss) recognized on derivative	Three Months Ended		Six Months Ended	
		October 25, 2014	October 26, 2013	October 25, 2014	October 26, 2013

Interest rate swaps	Other comprehensive income	(\$ 3,867)	(\$ 48)	(\$ 6,176)	(\$ 97)

NOTE 5 FAIR VALUE MEASUREMENTS

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. The fair value hierarchy of measurements is categorized into one of three levels based on the lowest level of significant input used:

Level 1 - Quoted prices in active markets for identical assets and liabilities at the measurement date.

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Unobservable inputs for which there is little or no market data available. These inputs reflect management's assumptions of what market participants would use in pricing the asset or liability.

Our hierarchy for assets and liabilities measured at fair value on a recurring basis as of October 25, 2014 is as follows:

	Total	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents	\$ 44,648	\$ 44,648	\$	\$
Derivative instruments	963		963	
Total assets	\$ 45,611	\$ 44,648	\$ 963	\$
Liabilities:				
Derivative instruments	\$ 19,838	\$	\$ 19,838	\$

Table of Contents

Our hierarchy for assets and liabilities measured at fair value on a recurring basis as of April 26, 2014 is as follows:

	Total	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents	\$ 51,511	\$ 51,511	\$	\$
Derivative instruments	1,716		1,716	
Total assets	\$ 53,227	\$ 51,511	\$ 1,716	\$
Liabilities:				
Derivative instruments	\$ 7,380	\$	\$ 7,380	\$

Cash equivalents We value cash equivalents at their current market rates. The carrying value of cash equivalents approximates fair value and maturities are less than three months.

Derivative instruments Patterson's derivative instruments consist of interest rate contracts. These instruments are valued using observable inputs such as interest rates and credit spreads.

Certain assets are measured at fair value on a non-recurring basis. These assets are not measured at fair value on an ongoing basis, but are subject to fair value adjustments under certain circumstances, such as when there is evidence of impairment. There were no fair value adjustments to such assets during the periods ended October 25, 2014 or October 26, 2013.

Patterson's debt is not measured at fair value in the consolidated balance sheets. The estimated fair value of our debt as of October 25, 2014 and April 26, 2014 was \$744,144 and \$742,619, respectively. The fair value of debt was measured using a discounted cash flow analysis based on expected market based yields. These are considered to be Level 2 inputs under the fair value measurements and disclosure guidance.

The carrying amounts of receivables, net of allowances, accounts payable, and certain accrued and other current liabilities approximated fair value at October 25, 2014 and April 26, 2014.

NOTE 6 SECURITIES

On October 25, 2013 we invested in three time deposits with total principal of \$110,000 Canadian dollars. Our time deposit securities are classified as held-to-maturity securities as we have both the intent and ability to hold until maturity. They are carried at cost, adjusted for accrued interest and amortization. The current value is not materially different than fair value. The fair value was determined based on a discounted cash flow analysis using unobservable inputs (i.e. level 3 inputs), which include a forward yield curve, the estimated timing of payments and the credit quality of the underlying creditor. Significant changes in any of the significant unobservable inputs in isolation would not result in a materially lower fair value estimate. The interrelationship between these inputs is insignificant.

On October 24, 2014 time deposits with a principal value of \$45,000 Canadian matured with a value of \$45,436 Canadian. The proceeds were included in cash and cash equivalents at October 25, 2014. The remaining time deposits with a principal value of \$65,000 Canadian were classified as current assets at October 25, 2014 with a U.S. dollar

equivalent value of \$57,850.

NOTE 7 CUSTOMER FINANCING

As a convenience to our customers, we offer several different financing alternatives including both our Company-sponsored program and a third party program. For the third party program, we act as a facilitator between the customer and the third party financing entity with no on-going involvement in the financing transaction. Under our sponsored program, equipment purchased by customers with strong credit may be financed up to a maximum of \$500 for any one customer. We generally sell the customers' financing contracts to outside financial institutions in the normal course of our business. Patterson currently has two arrangements under which we sell these contracts.

Table of Contents

Patterson operates under an agreement to sell a portion of our equipment finance contracts to commercial paper conduits with The Bank of Tokyo-Mitsubishi UFJ, Ltd. serving as the agent. We utilize a special purpose entity (SPE), PDC Funding, a consolidated, wholly owned subsidiary to fulfill a requirement of participating in the commercial paper conduit. We receive the proceeds of the contracts upon sale. At least 9% of the proceeds are held by the conduit as security against eventual performance of the portfolio. The amount held by the conduit can be greater than 9% and is based upon certain ratios defined in the agreement. The capacity under the agreement at October 25, 2014 was \$500,000.

Patterson also maintains an agreement with Fifth Third Bank whereby the bank purchases customers financing contracts. Patterson has established another SPE, PDC Funding II, as a consolidated, wholly owned subsidiary, which sells financing contracts to the bank. We receive the proceeds of the contracts upon sale. At least 10% of the proceeds are held by the conduit as security against eventual performance of the portfolio. The amount held by the conduit can be greater than 10% and is based upon certain ratios defined in the agreement. The capacity under the agreement at October 25, 2014 was \$100,000.

The portion of the purchase price for the receivables held by the conduits is a deferred purchase price receivable, which is paid to the SPE as payments on the receivables are collected from customers. The deferred purchase price receivable represents a beneficial interest in the transferred financial assets and is recognized at fair value as part of the sale transaction. The Company values the deferred purchase price receivable based on a discounted cash flow analysis using unobservable inputs (i.e. level 3 inputs), which include a forward yield curve, the estimated timing of payments and the credit quality of the underlying creditor. Significant increases in any of the significant unobservable inputs in isolation would not result in a materially lower fair value estimate. The interrelationship between these inputs is insignificant.

These financing arrangements are accounted for as a sale of assets under the provisions of ASC Topic No. 860, *Transfers and Servicing*. During the three and six months ended October 25, 2014, we sold \$47,059 and \$132,148, respectively, and during the three and six months ended October 26, 2013, we sold \$46,058 and \$115,554, respectively, of contracts under these arrangements. Patterson retains servicing responsibilities under both agreements, for which we are paid a servicing fee. The servicing fees received by Patterson are considered adequate compensation for services rendered. Accordingly, no servicing asset or liability has been recorded. The agreements require us to maintain a minimum current ratio and maximum leverage ratio. Patterson was in compliance with those covenants at October 25, 2014.

Included in cash and cash equivalents in the consolidated balance sheets are \$27,860 and \$28,152 as of October 25, 2014 and April 26, 2014, respectively, which represents cash collected from previously sold customer financing arrangements that have not yet been settled with the third party. Included in current receivables in the consolidated balance sheets are \$62,676, net of unearned income of \$1,730, and \$63,236, net of unearned income of \$5,894, as of October 25, 2014 and April 26, 2014, respectively, of finance contracts not yet sold by Patterson. A total of \$492,740 of finance contracts receivable sold under the agreements was outstanding at October 25, 2014. The deferred purchase price under the arrangements was \$68,113 and \$84,750 as of October 25, 2014 and April 26, 2014, respectively. Since the internal financing program began in 1994, bad debt write-offs have amounted to less than one-percent of the loans originated.

NOTE 8 SEGMENT REPORTING

Patterson Companies, Inc. is comprised of three reportable segments: dental supply, veterinary supply, and rehabilitation supply. Our reportable business segments are strategic business units that offer similar products and services to different customer bases. The dental supply segment provides a virtually complete range of consumable

dental products, clinical and laboratory equipment and value-added services to dentists, dental laboratories, institutions and other dental healthcare providers throughout North America. The veterinary supply segment is a leading distributor of veterinary supplies, primarily to companion-pet (dogs, cats and other common household pets) and equine veterinary clinics. They also provide products and services used for the diagnosis, treatment and/or prevention of diseases in companion animals and equine throughout the United States and United Kingdom. The worldwide rehabilitation supply segment provides a comprehensive range of distributed and self-manufactured rehabilitation medical supplies and assistive products to acute care hospitals, long-term care facilities, rehabilitation clinics, dealers and schools.

Table of Contents

We evaluate segment performance based on operating income. The corporate office general and administrative expenses are included in the dental supply segment and consist of home office support costs in areas such as information technology, finance, human resources and facilities. If these corporate expenses were allocated to the segments, the results would not be materially different as the dental segment would absorb a significant portion of these expenses. The costs to operate the distribution centers are allocated to the operating units based on the through-put of each unit.

The following table presents information about Patterson's reportable segments:

NOTE 9 EMPLOYEE STOCK OWNERSHIP PLAN (ESOP)

During 1990, our Board of Directors adopted a leveraged ESOP. In fiscal 2002 and 2006, under the provisions of the plan and related financing arrangements, Patterson loaned the ESOP \$12,612 (the 2002 note) and \$105,000 (the 2006 note), respectively. The contribution to the ESOP, and the resulting allocation to employees, is determined annually by the Board of Directors following the close of the fiscal year. Shares of stock acquired by the plan are allocated to each participant who has completed 1,000 hours of service during the plan year. These shares are accounted for under ASC 718-40, Share-based Payments *Employee Stock Ownership Plans*, and are not considered outstanding for computation of earnings per share until the shares are committed for release to the participants. We recognize expense based on the current fair value of the shares

released to participants. As of October 25, 2014, a total of 2,736,969 of unallocated shares were held by the ESOP. The estimated ESOP expense recognized during the three months ended October 25, 2014 was \$3,000 and during the three months ended October 26, 2013 was \$5,700, respectively. The estimated ESOP expense recognized during the six months ended October 25, 2014 was \$6,000 and during the six months ended October 26, 2013 was \$11,400, respectively.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

OVERVIEW

Our second quarter, fiscal 2015 financial information is summarized in this Management's Discussion and Analysis, and the Condensed Consolidated Financial Statements and related Notes. The following background is essential to fully understanding our Company's financial information.

Patterson operates a distribution business in three complementary markets: dental supply, veterinary supply and rehabilitation supply. Historically, our strategy for growth focused on internal growth and the acquisition of smaller distributors and businesses offering related products and services to the dental market. In fiscal 2002, we expanded our strategy to take advantage of a parallel growth opportunity in the veterinary supply market by acquiring the assets of J. A. Webster, Inc. on July 9, 2001. Effective January 1, 2013, Webster Veterinary Supply, Inc. changed its name to Patterson Veterinary Supply, Inc. Patterson added a third component to our business platform in fiscal 2004 when it entered the rehabilitation supply market with the acquisition of AbilityOne Products Corp. (AbilityOne) on September 12, 2003. AbilityOne is now known as Patterson Medical Holdings, Inc.

Operating margins of the veterinary business are considerably lower than the dental and rehabilitation supply businesses. While operating expenses run at a lower rate in the veterinary business, their gross margin is substantially lower due generally to pharmaceutical products sales, which have margins well below the average sundry product.

There are several important aspects of Patterson's business that are useful in analyzing it, including: (1) market growth in the various markets in which we operate; (2) internal growth; (3) growth through acquisition; and (4) continued focus on controlling costs and enhancing efficiency. Management defines internal growth as the increase in net sales from period to period, excluding the impact of changes in currency exchange rates, and excluding the net sales, for a period of twelve months following the transaction date, of businesses we have acquired.

NVS Acquisition. On August 16, 2013 Patterson Companies, Inc. completed the acquisition of all the outstanding stock of National Veterinary Services Limited (NVS) from Dechra Pharmaceuticals, PLC (NVS Acquisition). NVS is the largest veterinary products distributor in the United Kingdom. Total cash consideration paid for NVS was £88.7 million (approximately \$138.7 million). The acquisition is expected to be accretive to earnings by \$0.02 to \$0.03 per diluted share for the fiscal year ended April 25, 2015. The NVS business has lower gross margins and operating expenses than our historical businesses.

Medical Restructuring. On August 22, 2013 Patterson Companies, Inc. announced a plan to divest certain non-core product lines in its medical segment (Medical Restructuring). As a result of the plan to dispose of these product lines, the Company incurred a pre-tax restructuring charge of \$15 million or approximately \$0.13 per diluted share in fiscal year 2014. Approximately \$14 million of the restructuring charge related to non-cash losses on disposal of assets. The results for the second quarter of fiscal 2014 include charges of \$7 million, including non-cash losses on the sale of assets of \$5 million.

QUARTER ENDED OCTOBER 25, 2014 COMPARED TO QUARTER ENDED OCTOBER 26, 2013.

Net Sales. Consolidated net sales for the three months ended October 25, 2014 (Current Quarter) were \$1,103.3 million, a 10.5% increase from \$998.8 million for the three months ended October 26, 2013 (Prior Quarter). Acquisitions contributed 3.6% to Current Quarter sales growth, and foreign exchange rate changes had a favorable impact to Current Quarter sales growth of 0.2%.

Sales of the Dental segment were \$601.7 million, a 6.9% increase from \$563.0 million from the Prior Quarter. Current Quarter sales of consumables and printed office products increased 2.5%. Sales of dental equipment and software increased 15.6% to \$195.9 million, mainly due to increased sales from both basic equipment and technology products, led by new users of CEREC CAD/CAM systems. Sales of other services and products increased 6.9% in the Current Quarter.

Veterinary segment sales rose 22.2% to \$376.5 million. Acquisitions contributed 11.7% and foreign exchange rate changes contributed 1.5% to the current quarter sales growth. Excluding the NVS acquisition, consumables increased 7.4% due to the sales of new products, equipment and software sales were \$8.2 million, a decrease of 12.7%, and other services and products increased 4.3%.

Rehabilitation segment sales decreased 2.0% to \$125.1 million, due to reduced sales from the non-core product lines that were divested in the second and fourth quarters of fiscal year 2014 which accounted for a decrease of 4.2%, offset by a favorable impact of 0.4% from changes in foreign exchange rates.

Gross Margins. Consolidated gross margin decreased 130 basis points from the Prior Quarter to 27.7%. The NVS Acquisition accounts for 100 basis points of the decrease and the Medical Restructuring accounts for a 10 basis points increase, resulting in a comparable decrease of 40 basis points from Prior Quarter. The 40 basis point decrease is

predominantly the result of the mix between product lines.

Operating Expenses. The consolidated operating expense ratio of 19.5% decreased 190 basis points from Prior Quarter at 21.4%. The NVS Acquisition accounts for 60 basis points of the decrease and the Medical Restructuring also accounts for 60 basis points of the decrease. This results in a comparable operating expense ratio of 22.5% versus 23.2% in the Prior Quarter, a decrease of 70 basis points.

Operating Income. Current Quarter operating income was \$91.2 million, or 8.3% of net sales. In the Prior Quarter, operating income was \$75.2 million, or 7.6% of net sales. The Medical Restructuring and the NVS Acquisition affected operating margins in both quarters. The comparable operating margin rate is 9.3% in the Current Quarter and 9.0% in the Prior Quarter.

Table of Contents

Other (Expense) Income, Net. Net other expense was \$7.8 million in the Current Quarter compared to \$7.5 million in the Prior Quarter. Net other expense is comprised primarily of interest expense, partly offset by interest income.

Income Tax Expense. The effective income tax rate for the Current Quarter was 35.5% compared to 37.9% in the Prior Quarter. The decrease in the Current Quarter rate is due primarily to the Prior Quarter Medical Restructuring and the geographical shift in profits between domestic and international for the Current Quarter. For the fiscal year, the income tax rate from recurring operations is expected to be in a range from 34.7% to 35.2%.

Net Income and Earnings Per Share. Net income was \$53.8 million, compared to \$42.0 million in the Prior Quarter. Earnings per diluted share was \$0.54 in the Current Quarter compared to \$0.41 in the Prior Quarter. The Prior Quarter earnings per share after adding back the \$0.07 per share impact from the Medical Restructuring was \$0.48. Diluted shares outstanding in the Current Quarter were 99,376,000 compared to 101,968,000 in the Prior Quarter. The decrease in the share count is due to share repurchase activity over the past year. The Current Quarter's cash dividend was \$0.20 per common share compared to \$0.16 in the Prior Quarter.

SIX MONTHS ENDED OCTOBER 25, 2014 COMPARED TO SIX MONTHS ENDED OCTOBER 26, 2013.

Net Sales. Consolidated net sales increased 15.1% for the six months ended October 25, 2014 (Current Period) and totaled \$2,162.9 million compared to \$1,879.0 million for the six months ended October 26, 2013 (Prior Period). Sales included a contribution from acquisitions of 11.2% and a positive impact from foreign currency translation rates of 0.2%.

Dental segment sales of \$1,154.4 million were 3.3% higher than the \$1,117.3 million in the Prior Period. Consumable sales increased 2.2% from the Prior Period. Equipment and software sales increased 4.0%. Sales of other services and products increased 7.1% in the Current Period.

Sales of the Veterinary segment rose 50.2% to \$762.8 million in the Current Period, mainly due to a 41.3% growth from acquisitions. Excluding the NVS acquisitions, consumables increased 7.3%, equipment and software sales decreased 10.8% and other increased 8.1%.

Rehabilitation segment sales decreased 3.2% to \$245.7 million, due to reduced sales from the non-core product lines that were divested in the second and fourth quarters of fiscal 2014 which accounted for a decrease of 5.0%, offset by a favorable impact of 0.9% from changes in foreign exchange rates.

Gross Margins. Consolidated gross margin decreased 260 basis points from the Prior Period to 27.8%. The NVS Acquisition accounts for 260 basis points of the decrease and the Medical Restructuring accounts for a 10 basis points increase, resulting in a comparable decrease of 10 basis points from the Prior Period.

Operating Expenses. The consolidated operating expense ratio decreased 240 basis points from the Prior Period to 19.7%. The NVS Acquisition accounts for 190 basis points of the decrease and the Medical Restructuring accounts for 30 basis points of the decrease. This brings our adjusted operating expense ratio to 22.8% for the Current Period versus 23.0% in the Prior Period.

Operating Income. Current Period operating income was \$176.0 million, or 8.1% of net sales. In the Prior Period, operating income was \$156.5 million, or 8.3% of net sales. The decrease in the operating margin is due to the impacts from the NVS Acquisition and the Medical Restructuring. The comparable operating margin ratio for the Current Period is 9.2% versus 9.1% in the Prior Period.

Other (Expense) Income, Net. Net other expense was \$15.0 million in the Current Period compared to \$16.7 million in the Prior Period. Net other expense is comprised primarily of interest expense, partly offset by interest income. Interest income of \$2.6 million was up from \$2.3 million in the Prior Period.

Income Tax Expense. The effective income tax rate for the Current Period was 35.3% compared to 37.1% in the Prior Period. The decrease in the current year rate is due primarily to the Medical Restructuring and the geographical shift in profits between domestic and international for the period.

Table of Contents

Net Income and Earnings Per Share. Net income was \$104.1 million, compared to \$87.9 million in the Prior Period. Earnings per diluted share was \$1.04 in the Current Period compared to \$0.86 in the Prior Period. The Prior Period earnings per share after adding back the \$0.07 per share impact from the Medical Restructuring was \$0.93. Diluted shares outstanding in the Current Period were 99,779,000 compared to 101,944,000 in the Prior Period. The decrease in the share count is due to share repurchase activity over the past year. The Current Period's cash dividend was \$0.40 per common share compared to \$0.32 in the Prior Period.

LIQUIDITY AND CAPITAL RESOURCES

Our cash flows from operations in the six-months ended October 25, 2014 were \$98.4 million compared to \$93.2 million in the Prior Period. The increase is primarily a result of increased net income, partially offset by the timing and magnitude of income tax and accounts payables disbursements.

Net cash provided by investing activities was \$15.6 million in the Current Period compared to a use of \$156.3 million in the Prior Period. The Current Period included the maturing of a time deposit investment with a value of approximately \$40.4 million. The Prior Period included the acquisition of NVS for approximately \$138.7 million. We expect to use a total of approximately \$50 million for capital expenditures in fiscal 2015, with our main investment in information systems.

Cash used in financing activities during the Current Period was \$86.9 million, which included \$40.2 million for dividend payments and \$47.5 million for stock repurchases. In the Prior Period, cash provided by financing activities was \$72.9 million including \$135 million for a draw on our revolver for the purchase of NVS, offset by dividend payments of \$48.4 million and stock repurchases of \$22.2 million.

In fiscal 2014, we invested in three time deposits with total principal of \$110 million Canadian dollars. On October 24, 2014, time deposits with a principal value of \$45 million Canadian matured with a value of \$45.4 million Canadian (U.S. equivalent value of \$40.4 million). The proceeds were included in cash and cash equivalents at October 25, 2014. The remaining time deposits with a principal value of \$65 million Canadian were classified as current assets at October 25, 2014 with a U.S. dollar equivalent value of \$57.9 million.

We have a \$250 million note due in the fourth quarter of fiscal year 2015. We have both the intent and ability to refinance at that time; therefore we have classified this balance as long term debt on the balance sheet as of October 25, 2014.

We expect funds generated from operations, existing cash balances and credit availability under existing debt facilities will be sufficient to meet our working capital needs and to finance anticipated expansion plans and strategic initiatives over the remainder of fiscal 2015.

As of October 25, 2014, \$300 million was available under our \$300 million revolving credit facility. Our current credit agreement expires in fiscal 2017.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. ASU No. 2014-09 supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual reporting

periods beginning after December 15, 2016, including interim periods within that reporting period and is to be applied retrospectively, with early application not permitted. We are evaluating the new standard, but do not, at this time, anticipate a material impact to the financial statements once implemented.

Table of Contents**FACTORS THAT MAY AFFECT FUTURE OPERATING RESULTS**

In our Form 10-K for the year ended April 26, 2014, we described material risk factors facing our business. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. As of the date of this report, there have been no material changes to the risk factors described in our Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes since April 26, 2014 in our market risk. For further information on market risk, refer to Item 7A in our 2014 Annual Report on Form 10-K filed June 25, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our Company's management, including our Company's President and Chief Executive Officer (CEO) and its Chief Financial Officer (CFO), management evaluated the effectiveness of the design and operation of our Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of October 25, 2014. Based upon their evaluation of these disclosure controls and procedures, the CEO and CFO concluded that the disclosure controls and procedures were effective as of October 25, 2014.

There were no changes in our Company's internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act) that occurred during the quarter ended October 25, 2014 that have materially affected, or are reasonably likely to materially affect, our Company's internal control over financial reporting.

PART II OTHER INFORMATION**ITEM 5. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

On March 19, 2013, Patterson's Board of Directors approved a new share repurchase plan that replaced the existing share repurchase plan.
