Our Goal

Successful

Integration by the End of 2017

We executed the integration process quickly and effectively

We independently maintained strong momentum in our core businesses prior to deal closing

We  
pursued  
the  
right  
vision  
and  
strategy

to

build

an

outstanding

technology and

service delivery platform for our customers

We exceeded our commitment to deliver nearly \$2 billion of annual pre-tax cost synergies

We captured economies of scale/scope to position the combined organization to generate best-in-class returns for our shareholders

We designed and mobilized a focused, high-performing organization with shared values, strong social connection and a unified desire to work together to win

3  
Integration Process Guiding Principles  
Speed  
trumps  
perfection

Integrate,

stabilize,  
then optimize

Plan, Don't Implement: We can plan for the integration of operations, but may not implement those plans until the closing

Continue to Compete: Until the closing, parties must operate independently and compete

Integration

team

members

should

represent

our

best

athletes

across

the

two businesses

Help the organization focus on how much we have in common so that our work can address the small areas of difference

The Day 1 Operating Framework should drive the critical path. We will focus and prioritize the essentials for operating immediately following the close

The HAL process/system will serve as the rebuttable presumption

However, we will listen carefully and keep open minds to adopting those BHI processes/system that represent enhancements to what HAL currently does

This is an integration project, not a re-engineering/business transformation project. We will work within the existing processes/systems

We will communicate regularly and transparently

4

Three Key Elements to Our Integration Strategy

Maintain the business, key people, reputation

Preserve Present Business Value

Execute our integration plan

Capture Value

Capitalize on the strengths of the

new enterprise

Create Value

Time

Diligently meet conditions to close

: Develop our integration plan
