Note: (L): Long position; (S): Short position

Save as disclosed above, no interests of substantial shareholders or other persons (excluding the Directors, Supervisors and Senior Management) who are required to disclose their interests and short positions pursuant to Part XV of the SFO in the shares and underlying shares of equity derivatives or debentures of the Company were recorded in the register required to be kept under Section 336 of the SFO.

**Table of Contents**

2. Interests and short positions of the Directors, Supervisors and Senior Management in the shares, underlying shares or debentures of the Company

During the Reporting Period, the Company granted the Company share options to five Directors and one Senior Management as part of the Stock Incentive Scheme. On 6 January 2015, the Proposal regarding the Adjustments of the List of Participants and the Number of Share Options under the Initial Grant of the Share Option Incentive Scheme and the Proposal regarding the Initial Grant under the Share Option Incentive Scheme were reviewed and approved at the fifth meeting of the eighth session of the Board of Directors of the Company, which confirmed the granting of an aggregate of 38,760,000 A share options to 214 participants, including 500,000 shares granted to Chairman and General Manager Mr. Wang Zhiqing, 500,000 shares granted to Vice Chairman and Deputy General Manager Mr. Gao Jinping, 430,000 shares granted to Director and Chief Financial Officer Mr. Ye Guohua, 430,000 shares granted to Director and Deputy General Manager Mr. Jin Qiang, 430,000 shares granted to Director and Deputy General Manager Mr. Guo Xiaojun and 250,000 shares granted to Secretary to the Board Mr. Tang Weizhong. Save as disclosed above, as at 30 June 2015, none of the Directors, Supervisors or Senior Management of the Company had any interests or short positions in any shares, underlying shares of equity derivatives or debentures of the Company or its associated corporations (within the meaning ascribed to it in Part XV of the SFO) as recorded in the register required to be kept under Section 352 of the SFO or as otherwise notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers.

As at 30 June 2015, save as disclosed above, none of the Directors or Supervisors of the Company or their respective spouses and children under 18 years of age had been granted by the Company or had exercised any rights to subscribe for shares or debentures of the Company or any of its associated corporations.

**Table of Contents**

**3. REPORTS OF THE DIRECTORS**

**3.1 Discussion and analysis of the overall operation during the Reporting Period**

*The following discussion and analysis should be read in conjunction with the unaudited financial report of the Group (the Company and its subsidiaries) and the notes in the interim report. Unless otherwise specified, the financial data involved hereinafter is extracted from the unaudited interim financial report prepared in accordance with IFRS.*

**Review and discussion on operating results**

In the first half of 2015, the global economy experienced a tortuous and slow recovery. Amidst such a complicated domestic and foreign economic environment and facing growing downward pressure, the PRC economy managed to show a slow-yet-steady development trend with growth within a reasonable range as a result of macroeconomic regulation and control and innovative reforms. Gross domestic product (GDP) grew by 7.0% in the first half of the year, signaling a further slowdown in economic growth. In the first half of the year, the PRC petrochemical sector generally remained stable in spite of downward pressure on China's economy. The performance of the refining sector continued to improve, and the petrochemicals sector even witnessed relatively rapid profit growth. Nonetheless, the market demand was still rather weak with an overall slowdown in petroleum and petrochemical consumption growth. Overcapacity in the industry was overwhelming and market competition intensified further.

Amidst complicated and severe market conditions in the first half of 2015, the Group strived to maintain steady operation in terms of safety, environmental protection and production, while ramping up efforts in structure optimization, cost-saving and profit-increasing. Against the backdrop of a bottoming out and the gradual stabilization of international crude oil prices, the Group's costs of processing crude oil plunged significantly, thereby leading to a surge in gross profit and a turnaround year-on-year. For the six months ended 30 June 2015, the Group registered a turnover of RMB42,125.5 million, representing a decrease of RMB9,219.5 million, or 17.96% year-on-year. Profit before income tax amounted to RMB2,279.9 million (loss before income tax amounted to RMB127.5 million for the same period last year), representing an increase of RMB2,407.4 million year-on-year. Profit after income tax and non-controlling shareholder interests amounted to RMB1,770.9 million (loss after income tax and non-controlling shareholder interests amounted to RMB123.6 million for the same period last year), representing an increase of RMB1,894.5 million year-on-year.

---

**Table of Contents**

In the first half of 2015, the total volume of goods produced by the Group amounted to 7,117,700 tons, representing an increase of 6.85% year-on-year. From January to June, the Group processed 7,348,700 tons of crude oil (including 687,400 tons of crude oil processed on a sub-contract basis), representing an increase of 123,000 tons, or 1.70% year-on-year. Total production of refined oil products reached 4,412,300 tons, representing an increase of 3.79% year-on-year. Of this, the output of gasoline was 1,491,200 tons, representing a decrease of 1.55% year-on-year; the output of diesel was 2,141,400 tons, representing an increase of 5.32% year-on-year; and the output of jet fuel was 779,700 tons, representing an increase of 10.88% year-on-year. The Group produced 423,500 tons of ethylene and 340,900 tons of paraxylene, representing an increase of 4.65% and a decrease of 6.50% year-on-year, respectively. The Group also produced 531,900 tons of synthetic resins and plastic (excluding polyesters and polyvinyl alcohol), representing an increase of 9.02% year-on-year; 424,700 tons of synthetic fibre monomers, representing an increase of 17.42% year-on-year; 217,700 tons of synthetic fibre polymers, representing an increase of 6.35% year-on-year; and 115,800 tons of synthetic fibres, representing a decrease of 0.94% year-on-year. During the Reporting Period, the Group's output-to-sales ratio and receivable recovery ratio were 99.03% and 100.01%, respectively.

The Group maintained stable performance in terms of safety and environmental protection as well as facilities operation. In the first half of the year, the Group thoroughly implemented and revised its HSE accountability system, optimizing its hazard investigation practices and rectification of oil and gas transmission pipelines and tank farms, in addition to ramping up inspection efforts for the sake of safety and environmental protection. With the full commencement of leakage detection and repair (LDAR) work and the continuous development of comprehensive treatment of volatile organic compounds (VOC) and clean production, the Group successfully passed the Clean production check and acceptance conducted by the Shanghai Clean Production Center. The Group continued to work towards achieving its "seven zeroes" target (no staff dead or serious injured in industrial accidents, no big fire and explosion, no major environmental pollution accident, no major occupational hazard accident, no major traffic accident in working area, no major accident of negligence.) with regard to safety and environmental protection. The comprehensive compliance rate of discharged waste water reached 100%, and total COD, sulfur dioxide and nitrogen oxides emissions were brought down by 15.69%, 33.45% and 16.28% year-on-year, respectively. Production, operations and management were strengthened while evaluation of production and operations were also reinforced. Both the number and durations of unscheduled shutdowns were significantly reduced, while various technical and economic indicators were effectively improved. During the Reporting Period, among 113 major technical and economic indicators listed for assessment, there were improvements over the previous year in 72 of them, representing an improvement rate of 63.72%. Of those, 23 indicators reached advanced levels in the industry, representing a ratio of 20.35%. On top of enhancing its facilities management, the Group further advanced quantitative patrols and checks on equipment, thereby eliminating facilities hazards and realizing the stable and long-term operation of production devices.

**Table of Contents**

The Group continued to make advanced progress both in optimizing production and operations and implementing cost-saving and expenses-reduction. In the first half of the year, the Group integrated the optimization model for the full process flow of oil refining, placed emphasis on estimating the cost-performance of different kinds of crude oil and optimized its crude oil structure. It also reinforced the tracking of marginal contribution from petrochemical facilities and adherence to dynamic optimization mechanisms. On the other hand, the Group also continued to optimize its fuel structure, hydrogen production and feedstock structure for ethylene cracker and residual oil processing flow with the aim of boosting efforts in further optimization to its integrated refining and petrochemical system. By closely monitoring changes in the market, in the first half of the year, the Group shut down some facilities short of marginal effectiveness such as No. 1 Coker and reduced the workload of facilities such as polyethylene and acrylonitrile when the market prices of their products were on the decline. Such flexible adjustments involving stop-start up and workload reduction of such facilities had significantly diminished losses. The Group also made advancements in the structural optimization of refined products so as to enhance production of high octane number gasoline and the effectiveness of the refining segment. In respect of the implementation of key scientific research projects such as carbon fibre and needle coke, the Group continued to make progress and facilitated industrial development and market exploration for its new products. During the Reporting Period, the Group developed and produced 150,900 tons of new products. A total of 375,200 tons of new synthetic resins products and specialized polyolefin materials were produced, with the differentiation rate for synthetic fibres reaching 68.82%. The Group also submitted 22 patent applications, with nine patent authorizations granted. With the in-depth development of an e-commerce sales model for its products, the Group gradually increased the types and quantities of petrochemical products traded online on its e-commerce platform. In respect of cost controls, the Group reinforced its efforts on respective key items and engaged in energy conservation and consumption reduction efforts for its facilities, hence continuing to reduce costs and expenses related to material and energy consumption. The Group adjusted its loan structure and replaced its US dollar-denominated loans with Euro-denominated ones in a bid to lower financing costs. The Group also strengthened cooperation with suppliers to reduce occupation of capital for inventories.

**Table of Contents**

The Group further strengthened its corporate governance. During the Reporting Period, the Group worked hard to promote its integrated management system and to optimize business flow, in addition to achieve Standards Implementation certification in energy, measurement and the integration of informatization and industrialization. In April, the Group was duly recognized by the Ministry of Industry and Information Technology as one of the very first batch of enterprises to meet the national standards for management systems in regard to the integration of informatization and industrialization. The Group continued to optimize and refine its management system and organizational structure by amending its performance appraisal methods, appraisal indicators and appraisal scoring rules. Such amendments not only highlighted the advancement and controllability of indicators, the co-ordination between key indicators and entity performance as well as different weightings for each indicator, but also further fostered a scientific performance appraisal mechanism. Meanwhile, the Group also strived to improve advanced process control (APC) of facilities such as No. 3 Crude Distillation Unit and process simulation training system. With stringent control over its total number of employees, the Group cut a total of 324 positions in the first half of the year via implementation of a number of assignment diversion measures. To enhance the efficiency and results of training, the Group optimized its staff training processes and made innovations in its approaches to training, while also increasing the utilization of internet and mobile terminals.

The Company was proactive in fulfilling its corporate social responsibilities. It supplied 3.80 million tons of refined oil to the public in the first half of the year. Of this, the Company supplied 1.50 million tons of gasoline (including the supply of 220,000 tons of National Phase IV standard gasoline and 1.28 million tons of National Phase V standard gasoline), 1.98 million tons of diesel (including the supply of 1.17 million tons of National Phase IV standard diesel and 290,000 tons of National Phase V standard diesel) and 320,000 tons of jet fuel, as it continued to supply a variety of quality petrochemical products to the public. The Company continued to engage in environmental protection by organizing the Public Open Day inviting civil servants, members of the National People's Congress and residents to visit the Company's production plants and environmental protection treatment sites. The Company safeguarded the vital interests of its employees and focused on completing a collaborative development project with the local government, thus maintaining a harmonious and stable environment for the Company's development.

**Table of Contents**

The following table sets forth the Group's sales volume and net sales, net of business tax and surcharges, for the Reporting Period:

|                                   | For the six months ended 30 June |                               |               |                                 |                               |               |

| Petroleum products                | 4,751.6                          | 16,449.8                      | 46.9          | 4,504.7                         | 25,436.0                      | 54.5          |
| Trading of petrochemical products |                                  | 6,820.9                       | 19.4          |                                 | 6,674.0                       | 14.3          |
| Others                            |                                  | 403.4                         | 1.2           |                                 | 461.1                         | 1.0           |
| <b>Total</b>                      | <b>6,609.4</b>                   | <b>35,064.6</b>               | <b>100.0</b>  | <b>6,275.3</b>                  | <b>46,690.8</b>               | <b>100.0</b>  |

In the first half of 2015, net sales of the Group amounted to RMB35,064.6 million, representing a decrease of 24.90% over the same period last year. Of this, net sales of synthetic fibres, resins and plastics, intermediate petrochemical products and petroleum products declined by 13.46%, 11.35%, 27.54% and 35.33%, respectively. Net sales from the trading of petrochemical products increased by 2.20%. The decrease in overall net sales was mainly due to the decrease in the unit prices of products during the period as compared to the same period last year. The increase in the Group's net sales from the trading of petrochemical products was mainly attributable to the increase in the business volume of Shanghai Jinmao International Trading Co., Ltd, a share-controlled trading company of the Group, during the Reporting Period. In the first half of the year, the Group's net sales of Others dropped by 12.51% over the same period last year, which was mainly attributable to the decrease in the Group's revenue from oil processed on a sub-contract basis as compared to the same period last year.

Most of the Group's products are sold in eastern China.

---

**Table of Contents**

In the first half of 2015, the Group's cost of sales declined by 29.28% year-on-year to RMB32,687.7 million, representing 93.22% of total net sales.

The Group's main raw material is crude oil. While the global supply of crude oil remained high in the first half of 2015, due to a potential rebound in demand and a pending slowdown in oil production, global crude oil prices experienced a decline before showing a fluctuating rising trend, then leveling off. In the first half of the year, the peak and bottom closing prices of Brent crude oil futures were US\$66.65/barrel and \$45.22/barrel, respectively, and the average price during the Reporting Period was approximately US\$57.86/ barrel, representing a decrease of 46.88% year-on-year. The peak and the bottom closing prices of West Texas Intermediate crude oil were US\$61.09/ barrel and \$42.56/barrel, respectively, and the average price during the Reporting Period was approximately US\$53.15/barrel, representing a decrease of 47.30% year-on-year. The peak and the bottom closing prices of Dubai crude oil futures were US\$66.51/barrel and \$42.05/barrel, respectively, and the average price during the Reporting Period was approximately US\$56.55/barrel, representing a decrease of 46.29% year-on-year.

In the first half of 2015, the average unit cost of crude oil processed (for the Group's own account) was RMB2,652.96 per ton, representing a decrease of RMB2,213.98 per ton, or 45.49% year-on-year. The Group processed a total of 6,661,300 tons of crude oil (excluding crude oil processed on a sub-contract basis), representing an increase of 166,500 tons over the same period last year. Taken together, the total costs of crude oil processed decreased by RMB13,938 million. While processing costs increased by RMB810 million due to an increase in crude oil processed volume, the lower average unit cost of crude oil processed brought costs down by RMB14,748 million. From January to June this year, crude oil processed on a sub-contract basis reached 687,400 tons. In the first half of the year, the Group's cost of crude oil accounted for 54.06% of the total cost of sales.

In the first half of 2015, the Group's expenses for other auxiliary materials amounted to RMB4,095.8 million, a decline of 11.02% over the same period last year, which was mainly due to the decline in the unit cost of other auxiliary materials during the period. During the Reporting Period, the Group's depreciation and amortization expenses declined by 5.94% year-on-year to RMB1,069.7 million, mainly due to the decline in depreciation expenses during the Reporting Period as certain fixed assets were fully depreciated. Maintenance expenses grew by 37.54% year-on-year over the same period last year to RMB577.4 million, mainly due to an increase in actual maintenance during the Reporting Period, which led to the growth in maintenance costs. Fuel and power expenses declined by 14.85% year-on-year to RMB997 million during the Reporting Period, mainly due to the decline in the unit purchase price of coal.

## **Table of Contents**

In the first half of 2015, the selling and administrative expenses of the Group amounted to RMB277.9 million, representing a decrease of 1.46% as compared with RMB273.9 million over the same period last year. This was mainly due to the decline in commission fees payable to product agencies during the Reporting Period.

In the first half of 2015, other operating income of the Group amounted to RMB41.5 million, representing a decrease of RMB8.2 million year-on-year. This was mainly due to a decrease in government grants received during the Reporting Period.

In the first half of 2015, the Group's net financial expenses amounted to RMB137.2 million, compared to RMB253.5 million in net financial expenses over the same period last year. This was mainly due to a decline in interest expenses and exchange losses during the period.

In the first half of 2015, the Group realized profit after tax and profit attributable to non-controlling interests of RMB1,770.9 million, representing an increase of RMB1,894.5 million as compared to a loss after tax and profit attributable to non-controlling interests of RMB123.6 million over the same period last year.

## **Liquidity and capital resources**

The Group's net cash inflow from operating activities amounted to RMB1,776.7 million in the first half of 2015 as compared to net cash inflow of RMB636.7 million over the same period of the previous year, which was due to the following main reasons: (1) profit before tax during the reporting period amounted to RMB2,279.9 million (loss before tax over the same period last year was RMB127.5 million); (2) the lower inventory balance at the end of the period led to an increase of RMB145.4 million in operating cash flow in the Reporting Period (as compared to an increase in operating cash flow of RMB1,308.1 million due to a lower inventory balance at the end of the same period of the previous year).

In the first half of 2015, the Group's net cash outflow from investment activities amounted to RMB258.9 million as compared to a net cash outflow of RMB373.7 million over the same period of the previous year. This was primarily attributable to a year-on-year decrease in the Group's capital expenditures during the Reporting Period, resulting in a decline of RMB105 million in net cash outflow from investment activities.

In the first half of 2015, the Group's net cash outflow from financing activities amounted to RMB1,496 million, compared to net cash outflow of RMB74.2 million over the same period of the previous year, primarily attributable to a year-on-year increase in the Group's profit and a decline in demand for capital during the Reporting Period.

## **Table of Contents**

### **Borrowings and debts**

The Group's long-term borrowings are mainly applied to capital expansion projects. In general, the Group arranges long-term borrowings according to its capital expenditure plans. On the whole, there are no seasonal borrowings. Short-term borrowings are used to replenish the Group's working capital requirements during the normal course of production. During the first half of 2015, the Group's total borrowings decreased by RMB1,475.9 million to RMB4,235 million as at the end of the Reporting Period as compared to the beginning of the Reporting Period, of which the short-term borrowings increased by RMB139.5 million and the long-term borrowings lowered by RMB1,615.4 million.

### **Risk from Exchange Rate Fluctuations**

Since the majority of the Group's debt is denominated in foreign currency, changes in exchange rates would affect the Group's financial expenses and hence have an impact on the Group's profitability. As at 30 June 2015, the Group's borrowings in US dollars amounted to the equivalent of RMB305.70 million and the Group's borrowings in Euro amounted to the equivalent of RMB1,258.00 million.

### **Capital expenditures**

In the first half of 2015, the Group's capital expenditures amounted to RMB313 million, mainly for the desulfurization project for furnaces No. 1-No. 5 and No. 7 of the Thermal Power Division, the project of upgrading the discharged waste water standard and expansion project of berths No. 4 and No. 5 of the chemical wharf, as well as the 100,000 ton/year EVA plant project.

In the second half of the year, the Group plans to complete projects such as upgrading discharged waste water, desulfurization revamp for furnaces No. 1-No. 5 and No. 7 of the Thermal Power Division, and implementation of the 100,000 ton/year EVA plant project. The Group's planned capital expenditures can be appropriated from the operating cash inflow and bank financing.

### **Liability-to-asset ratio**

As at 30 June 2015, the Group's liability-to-asset ratio was 38.38% (As at 31 December 2014: 45.73%). The ratio is calculated using the following formula: total liabilities/total assets.

## **Table of Contents**

### **The Group's employees**

As at 30 June 2015, the total number of employees of the Company amounted to 12,800, among which the number of production personnel was 7,428; the number of sales, financial and other staff was 3,741; and the number of administrative staff was 1,631. A total of 46.77% of the Group's employees were college graduates or above.

### **Income tax**

The PRC Enterprise Income Tax Law took effect from 1 January 2008, after which the income tax rate for enterprises was uniformly adjusted to 25%. The income tax rate for the Group in 2015 is 25%.

### **Disclosure required by the Hong Kong Listing Rules**

The transactions between the Company and Sinopec Corp., Sinopec Group and its associates, as disclosed in Note 27 of the consolidated financial statement prepared under International Financial Reporting Standards in 2014 Annual Report of the Company, constituted connected transactions under Chapter 14A of the Hong Kong Listing Rules. The above-mentioned connected transaction and continuing connected transaction have also been disclosed in accordance to Chapter 14A of the Hong Kong Listing Rules.

Save as disclosed herein, pursuant to paragraph 40 of Appendix 16 in the Hong Kong Listing Rules, the Company confirms that there were no material differences between the existing information of the Company relating to the matters as set out in paragraph 32 of Appendix 16 and the relevant information disclosed in the Company's 2014 annual report.

### **Market outlook and work plans for the second half of the year**

In the second half of 2015, the global economy will continue to be in a stage of deep adjustments. The environment is less optimistic with the sluggish economy struggling to recover and the major economies demonstrating diverse development trends. The US economy will continue to move in a promising direction. If the Federal Reserve decides to raise the interest rate in the second half of the year, there will be a significant influence over the global economy. The European economy will remain subdued and continue to grow at a slow pace. The rebound of the Japanese economy will remain unstable. Performance will vary significantly among emerging economies, but will show a general trend of slowdown. The Chinese economy realized a slow-yet-stable performance within a reasonable range in the first half of the year. However, as the economy is still under great pressure to maintain steady growth, to adjust structure, to continue its reform and to be innovative, it will continue to face downward pressure in the second half of the year. The prospects for the petrochemical industry will remain complicated. Overcapacity persists, along with weakening innovation abilities and relatively low product grades, resulting in internal pressure on the operation of the industry. Meanwhile, with the government continuing to strengthen its policies to support steady growth, market demand has increased steadily and the prices of petroleum and petrochemical products have continued to stabilize. The petrochemical industry in China is expected to continue to undergo steady development in the second half of the year.

**Table of Contents**

In the second half of 2015, given the weak recovery of the global economy, the slowdown in demand in China and with the situation in Middle East under control, the problem of a global surplus in crude oil supply will not be solved within a short period of time, and thus there will not be a significant increase in oil prices. At the same time, the opportunity for US dollar appreciation is limited, as is the opportunity of crude oil exports from Iran in a short period of time. As such, there will not be material negative effects or pressure on oil prices. Future fluctuations in international crude oil prices will generally depend on changes in the output of crude oil in US and the outcome of the Iranian issue. International crude oil prices are expected to continue to fluctuate at a low level in the second half of the year.

In the second half of the year, the Group will focus on enhancing the quality and efficiency of its development and will continue to step up efforts in safety and environmental protection, production and operations, system optimization, cost-saving and expenses reduction as well as intensification of its management. The Group will also enhance its efficiency.

1. Further strengthening efforts in safety and environmental protection. The Group will foster the hazard management of long-distance pipelines and tank farms and strengthen its safety management of contractors; implement the Three Simultaneity policy for project development; accelerate the development of pollution emission reduction; fully carry out its leak detection and repair (LDAR) work; continue to exercise control over volatile organic compounds (VOC) and push forward its comprehensive environmental improvement measures.
2. Continuing to optimize its production and operation system. The Group will intensify management of turnaround of its facilities to shorten the duration and reduce the number of off-schedule production suspensions; optimize and maintain balance of its production and operations plan to ensure proper checking and maintenance of certain facilities in the second half of the year; promote the optimization of ethylene and aromatic feedstock, residual oil and vacuum gas oil processing schemes as well as utilization of natural gas; further strengthen the collaboration with universities and research institutes and make even greater efforts in marketing.

**Table of Contents**

3. Boosting efforts to reduce costs and expenses. The Group will continue to manage and control major expenses such as maintenance costs, selling expenses, financial expenses and management expenses; fully unleash the processing potential of refinery facilities; focus on increasing the level of central procurement for crude oil and cost competitiveness of crude oil resources; reduce inventories of crude oil, intermediate goods and finished products; make timely adjustments on its debt structure and carry out its fund raising and financing tasks at optimal financing costs; continue to optimize its material inventory structure and reduce the utilization of capital reserves.

### 3.2 Analysis of the Company's Principal Business and Performance (Part of the following financial data was extracted from the unaudited interim report prepared under CAS)

#### 3.2.1 Analysis of Changes in the Company's Major Financial Data

## 3.2.3 Analysis of core competitiveness

As one of the largest integrated petrochemical enterprises in China with highly integrated refining and petrochemical business operation, the Company possesses competitive business scale and strength, which make it a major manufacturer of refined oil, intermediate petrochemical products, synthetic resins and synthetic fibers in PRC. It also has self-owned utilities system and environmental protection systems, as well as handling and transportation facilities for marine and inland waterway, railway and highway.

The Company's major competitive advantages include quality, brand name, geographical location and vertically-integrated production. The Company has over 40 years of experience in petrochemical production and management, and has accumulated extensive resources in the petrochemicals industry, winning multiple quality product awards from the central and local governments. Located in the core region of the Yangtze River Delta, the most economically active region in China with strong demand for petrochemical products, the Company has built a comprehensive logistics system and supporting facilities to tap its close geographic proximity with most of its clients and the convenience of its location for coastal and inland shipping. This gives it a competitive edge in terms of transportation costs and timely delivery. The Company has leveraged its advantages in integrated refining and petrochemical business operation to actively strengthen its product structure, while also continuously improved products quality and variety. It has also improved its production technology and boosted the capacity of its key upstream facilities to maximize the in-depth use of and comprehensive efficiency of its corporate resources, and is therefore able to achieve strong and sustainable development.

|   | 30,000                   | 2015/4/24-2016/4/22   | 2.75                    | No                    | No                                  | No                          | No                                | No                             | Nil                    | 674             |         |

Note: The aforementioned entrusted loans are loans provided to shareholders according to the proportion of shareholding by Shanghai Golden Phillips Petrochemical Company Limited, a subsidiary of the Company.

**3.3.2 Application of Capital Raised**

During the Reporting Period, the Company did not raise capital, nor does it use the capital raised in the previous reporting periods.

**Table of Contents**

3.3.3 Analysis of the Companies in which the Company has Controlling Interests or Investment Interests  
Due to a decrease in the cost of raw materials and an increase in gross profit of products, an associate of the Group, Shanghai Secco Petrochemical Company Limited recorded net profit of RMB 1,357 million during the reporting period, with RMB 271 million attributable to the Group, representing 15.68% of net profit attributable to equity shareholders of the Company.

## 3.3.4 Major Projects from Non-raised Capital

| <b>Major project</b>   | <b>Total project investment<br/>RMB million</b> | <b>Project progress<br/>as at 30 June 2015</b> |
|--|---|--|
| EVA Project with capacity 100,000 tons/year  | 1,132   | Preliminary work                               |
| Desulfurization revamps for furnaces No. 1<br>No. 5 and No. 7 of the Thermal Power<br>Division | 164   | Under construction                             |
| Project of upgrading the discharged waste<br>water standard                                    | 134   | Under construction                             |

**3.4 Plan for Profit Appropriation or Capital Reserves Capitalization**

3.4.1 Implementation or Amendment of Profit Distribution Proposal for the Reporting Period  
As the Company recorded a loss in 2014, the Board proposed not to distribute a dividend for 2014, which was approved at the 2014 Annual General Meeting. So there is no profit distribution plan to be carried out in the reporting period.

## 3.4.2 Plan for Half-Yearly Profit Distribution and Plan for conversion of Capital Reserves to Increase Share Capital

The Company will not distribute its profit in the first half of 2015 and will not implement a plan for conversion of capital reserves to increase share capital.

**3.5 Other Items for Disclosure**

Early warning and notes about potential negative value of cumulative net profit from the beginning of this year to the end of the next reporting period, or significant change thereof as compared with last year.

## **Table of Contents**

As the Group recorded net profit attributable to shareholders of the Company of RMB1,731 million under CAS and RMB1,771 million under IFRS for the first half of 2015, the cumulative net profit from January to September is expected to reverse losses to profits as compared to the same period of last year.

Prices of crude oil in the international market have seen a continuous and significant decline since the end of June, which will affect the profitability of the Company's major products for a certain period due to the long procurement cycle for the Company's crude oil.

## **4. OTHER ITEMS**

### **4.1 Corporate Governance**

The Company acted in strict compliance with regulatory documents such as the Company Law, the Securities Law, Corporate Governance Principles for Listed Companies and Guidelines for Establishing the Independent Directors System for Listed Companies issued by the CSRC, as well as the relevant requirements of the Shanghai Stock Exchange, the Hong Kong Stock Exchange and the New York Stock Exchange to push forward the advancement of the Company's system and management, to improve the corporate legal person governance structure, and to strengthen the establishment of the Company's system in order to enhance the overall image of the Company.

### **4.2 Audit Committee**

On 26 August 2015, the Audit Committee of the Eighth Session of the Board held its third meeting, primarily to review the interim financial report of the Group for the Reporting Period.

### **4.3 Purchase, Sale and Redemption of the Company's Securities**

During the Reporting Period, the Group did not purchase, sell or redeem any of the Company's securities (for the definition of "securities", please refer to paragraph 1 of Appendix 16 to the Hong Kong Listing Rules).

### **4.4 Compliance with Corporate Governance Code**

During the Reporting Period, the Company applied the principles and complied with all code provisions of the Corporate Governance Code, except for certain deviations from code provisions A.2.1 and A.5.1 of the Corporate Governance Code as set out below.

**Table of Contents**

Corporate Governance Code provisions A.2.1: The roles of chairman and chief executive officer should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer should be clearly established and set out in writing.

Deviation: Mr. Wang Zhiqing appointed as Chairman and President of the Company.

Reason: Mr. Wang Zhiqing has extensive experience in the management of petrochemicals production. Mr. Wang is the most suitable candidate to serve in the positions of Chairman and President of the Company. For the time being, the Company has been unable to identify another person who possesses better or similar abilities and talent as Mr. Wang to serve in any of the positions listed above.

**4.5 Implementation of Model Code for Securities Transactions**

The Directors of the Company confirm that the Company has adopted the Model Code for Securities Transactions. After making specific enquiries with all of the Directors and Supervisors of the Company, the Company is not aware of any information that would reasonably indicate that the Directors and Supervisors of the Company did not act in compliance with the requirements of the Model Code for Securities Transactions during the Reporting Period.

**Table of Contents****NOTES TO FINANCIAL STATEMENTS****1. Changes in accounting policy and disclosures**

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2014, as described in those annual financial statements.

New standards, amendments and interpretations to existing standards which are effective for accounting periods beginning on or after 1 January 2015 and adopted by the Company.

- (a) The following new and amended standards and interpretations are effective for the financial year beginning on 1 January 2015 and have no material impact on the Group:

|                      |                               |            |                   |
|----------------------|-------------------------------|------------|-------------------|
| Amendment to IFRS 2  | Share-based payment           |            |                   |
| Amendment to IFRS 8  | Operating segments            |            |                   |
| Amendment to IAS 16  | Property, plant and equipment | and IAS 38 | Intangible assets |
| Amendment to IAS 24  | Related Party Disclosures     |            |                   |
| Amendment to IFRS 13 | Fair value measurement        |            |                   |
| Amendment to IFRS 40 | Investment property           |            |                   |

There are no other amended standards or interpretations that are effective for the first time for this interim period that could be expected to have a material impact on this Group.

**2. Segment information**

The basis of segmentation and the basis of measurement of segment profit or loss, and assets and liabilities are consistent with those of the annual financial statements for the year ended 31 December 2014.

|                                    | <b>RMB 000</b>          | <b>RMB 000</b> |
| Forward foreign exchange contracts | 6,931                   |                |

During the six-month period ended 30 June 2015, the Group entered into forward foreign exchange contracts to mitigate foreign exchange risk from borrowings denominated in EUR. For the six-month period ended 30 June 2015, gain from realised forward foreign exchange contracts amounted to RMB 6,931 thousands (six-month period ended 30 June 2014: nil), which was recognised in other gain of the condensed consolidated interim income statement. As at 30 June 2015, the Group had no unsettled forward foreign exchange contract (31 December 2014: nil).

|   | <b>Six-month period ended 30 June</b> |                |
|---|---------------------------------------|----------------|
|   | <b>2015</b>                           | <b>2014</b>    |
|   | <b>RMB 000</b>                        | <b>RMB 000</b> |
| Amortisation of lease prepayments                     | 8,804                                 | 8,804          |
| Depreciation  | 895,110                               | 984,751        |
| Research and development costs                        | 14,265                                | 20,126         |
| Write-down of inventories                             | 10,700                                | 22,864         |
| Impairment of property, plant and equipment           | 50,001                                |                |
| Net loss on disposal of property, plant and equipment | 7,927                                 | 8,205          |

The inventory write-downs of RMB 10,700 thousands was mainly due to that the carrying amount of the trading products Ethyl acetate and Propane were lower than the net realisable value (six-month period ended 30 June 2014: RMB 22,864 thousands).

During the six-month period ended 30 June 2015, as a result of increasing market competition and low profit margin of the relevant products, the management of the Company shut down the manufacturing of acrylonitrile plant and decided to dispose it. Therefore, the Company fully provided impairment for the equipment at their carrying amounts of RMB 50,001 thousands (six-month period ended 30 June 2014: nil).

**4. Income tax expense**

|   | <b>Six-month period ended 30 June</b> |                |
|---|---------------------------------------|----------------|
|   | <b>2015</b>                           | <b>2014</b>    |
|   | <b>RMB 000</b>                        | <b>RMB 000</b> |
| Provision for PRC income tax for the period | 14,773                                | 7,193          |
| Deferred taxation                           | 476,913                               | (14,049)       |
|   | 491,686                               | (6,856)        |

The provision for PRC income tax is calculated at the rate of 25% (six-month period ended 30 June 2014: 25%) on the estimated taxable income of the six-month period ended 30 June 2015 determined in accordance with relevant income tax rules and regulations. The Group did not carry out overseas business and therefore does not incur overseas income taxes.

**Table of Contents****5. Earnings/(Loss) per share****(a) Basic**

The calculation of basic profit/(loss) per share is based on the profit attributable to equity shareholders of the Company for the six-month period ended 30 June 2015 of RMB1,770,880 thousands (six-month period ended 30 June 2014: loss of RMB123,601 thousands) and 10,800,000,000 shares (six-month period ended 30 June 2014: 10,800,000,000 shares) in issue during the interim period.

**(b) Diluted**

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

The Company has dilutive potential ordinary shares from share options. A calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of ordinary shares in issue is compared with the number of shares that would have been issued assuming the exercise of the share options. The calculation of the diluted earnings per share for the six-month period ended 30 June 2015 and the six-month period ended 30 June 2014 was shown as:

|   | <b>Six-month period ended 30 June</b> |                |
|---|---------------------------------------|----------------|
|   | <b>2015</b>                           | <b>2014</b>    |
|   | <b>RMB 000</b>                        | <b>RMB 000</b> |
| <b>Earnings</b>   |                                       |                |
| Profit/(loss) attributable to owners of the Company   | 1,770,880                             | (123,601)      |
| Weighted average number of ordinary shares in issue (thousands of shares)                       | 10,800,000                            | 10,800,000     |
| Adjustments for share options granted (thousands of shares)                                     | 6,954                                 |                |
| Weighted average number of ordinary shares for diluted earnings per share (thousands of shares) | 10,806,954                            | 10,800,000     |
| Diluted earnings/(loss) per share (RMB per share)   | 0.164                                 | (0.011)        |

**Table of Contents****6. Dividends**

Pursuant to a resolution passed at the Annual General Meeting held on 18 June 2014, a final dividend of RMB540,000 thousands was approved and declared for the year ended 31 December 2013. The Board of Directors did not propose the payment of an interim dividend for the six-month period ended 30 June 2014.

Pursuant to a resolution passed at the Annual General Meeting held on 18 June 2015, no dividend was declared for the year ended 31 December 2014. As at 30 June 2015, the Board of Directors did not propose the payment of an interim dividend for the six-month period ended 30 June 2015.

**Table of Contents****9. Trade and other payables (continued)**

As at 30 June 2015 and 31 December 2014, all trade and other payables of the Group were non-interest bearing.

As at 30 June 2015, the ageing analysis of the trade payables (including amounts due to related parties of trading in nature) based on invoice date were as follows:

|                           | <b>As at<br/>30 June 2015<br/>RMB 000</b> | <b>As at<br/>31 December 2014<br/>RMB 000</b> |
|---------------------------|---|---|
| Within one year           | 4,862,739                                 | 6,514,151                                     |
| Between one and two years | 10,626                                    | 10,978  |
| Over two years            | 33,837                                    | 40,300  |
|                           | 4,907,202                                 | 6,565,429                                     |

**10. Reserves****(a) Share option reserve**

Pursuant to the resolution of the fifth meeting of the eighth session of the Board of Directors of the Company on 6 January 2015, the proposal regarding the list of participants and the number of share options under the share option incentive scheme was approved.

According to the Company's share option incentive scheme, the grant date of share options was 6 January 2015, and there were a total of 38,760 thousand share options granted to 214 participants. Each share option has a right to purchase an ordinary A share listed in PRC on vesting date at an exercise price of RMB 4.20 under vesting conditions.

The fair value of the employee services received in exchange for the grant of this equity-settled, share-based compensation plan is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted including the impact of any service and non-market performance vesting conditions. When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital and share premium. As at 30 June 2015, no share option was exercised yet. (Expiry date: 6 January 2020)

**Table of Contents****10. Reserves (continued)****(a) Share option reserve (continued)**

The share options outstanding as at 30 June 2015 have the following vesting dates and exercise prices:

| <b>Vesting date</b> | <b>Exercise price<br/>(per share in RMB)</b> | <b>Outstanding<br/>shares</b> |
|---------------------|--|-------------------------------|
| 6 January 2017      | 4.20   | 15,504,000                    |
| 6 January 2018      | 4.20   | 11,628,000                    |
| 6 January 2019      | 4.20   | 11,628,000                    |

The total fair value of share options at the grant date was RMB 65,412 thousands, which has been valued by an external valuation expert using Black-Scholes valuation model.

The significant inputs into the model were as follows:

|                         | <b>Granting date</b> |             |
|-------------------------|----------------------|-------------|
| Spot share price        | RMB                  | 4.51        |
| Exercise price          | RMB                  | 4.20        |
| Expected volatility     |                      | 41.20%      |
| Maturity (years)        |                      | 5.00        |
| Risk-free interest rate |                      | 3.39%~3.67% |
| Dividend yield          |                      | 1.00%       |

Share option expenses of RMB 11,901 thousands have been recognised in the condensed interim income statement for the six-month period ended 30 June 2015.

- (b) For the six-month period ended 30 June 2015, the Group transferred RMB 25,328 thousands (six-month period ended 30 June 2014: RMB 26,923 thousands) from retained earnings to reserves for the safety production fund determined according to relevant PRC regulations.
- (c) For the six-month period ended 30 June 2015 and 2014, no transfers were made to the statutory surplus reserve or the discretionary surplus reserve.

**Table of Contents****5.3 Reconciliation between financial statements prepared under CAS and IFRS**

The Company is listed on the Stock Exchange of Hong Kong. The Group prepared financial statements under International Financial Reporting Standards ( IFRS ) which is audited by PricewaterhouseCoopers. There are reconciliation items in the consolidated financial report prepared under CAS and IFRS, the main items and the amount are listed as follows:

|                             | Net profit/(loss)<br>attributable to<br>shareholders of parent<br>company (Consolidated)<br>For the six months |                     | Equity attributable to<br>shareholders<br>of parent company<br>(Consolidated) |                  |
|-----------------------------|--|---------------------|---|------------------|
|                             | ended 30 June  |                     | 30 June<br>31 December 2014   |                  |

| Under CAS                   | 1,731,166  | (164,911)           | 18,339,018  | 16,570,623       |
| Adjustments under IFRS      |  |                     |   |                  |
| Government grants (a)       | 14,386   | 14,387              | (55,965)  | (70,351)         |
| Safety production costs (b) | 25,328   | 26,923              |   |                  |
| Under IFRS                  | 1,770,880  | (123,601)           | 18,283,053  | 16,500,272       |

Notes:

**(a) Government grants**

Under CAS, government subsidies defined as capital contributions according to the relevant government requirements are not considered a government grant, but instead should be recorded as an increase in capital reserves.

Under IFRS, such grants are offset against the cost of asset to which the grants are related. Upon transfer to property, plant and equipment, the grant is recognised as income over the useful life of the property, plant and equipment by way of a reduced depreciation charge.

**Table of Contents**

**(b) Safety production costs**

Under CAS, safety production costs should be recognised in profit or loss with a corresponding increase in reserve according to PRC regulations. Such reserve is reduced for expenses incurred for safety production purposes or, when safety production related fixed assets are purchased, is reduced by the purchased cost with a corresponding increase in the accumulated depreciation. Such fixed assets are not depreciated thereafter. Under IFRS, expenses are recognised in profit or loss when incurred, and property, plant and equipment are depreciated with applicable methods.

By order of the Board

**Wang Zhiqing**

*Chairman*

Shanghai, the PRC, 27 August 2015

*As at the date of this announcement, the executive directors of the Company are Wang Zhiqing, Wu Haijun, Gao Jinping, Ye Guohua, Jin Qiang and Guo Xiaojun; the non-executive directors of the Company are Lei Dianwu and Mo Zhenglin, and the independent non-executive directors of the Company are Cai Tingji, Zhang Yimin, Liu Yunhong and Du Weifeng.*
