P. H. GLATFELTER COMPANY AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. ORGANIZATION

P. H. Glatfelter Company and subsidiaries (Glatfelter) is a manufacturer of specialty papers and fiber-based engineered materials. Headquartered in York, PA, U.S. operations include facilities in Spring Grove, PA and Chillicothe and Fremont, OH. International operations include facilities in Canada, Germany, France, the United Kingdom and the Philippines, and sales and distribution offices in Russia and China. Our products are marketed worldwide, either through wholesale paper merchants, brokers and agents, or directly to customers.

2. ACCOUNTING POLICIES

Basis of Presentation The unaudited condensed consolidated financial statements (financial statements) include the accounts of Glatfelter and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated.

We prepared these financial statements in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles or GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements. In our opinion, the financial statements reflect all normal, recurring adjustments needed to present fairly our results for the interim periods. When preparing these financial statements, we have assumed that you have read the audited consolidated financial statements included in our 2014 Annual Report on Form 10-K.

Accounting Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Management believes the estimates and assumptions used in the preparation of these financial statements are reasonable, based upon currently available facts and known circumstances, but recognizes that actual results may differ from those estimates and assumptions.

Recently Issued Accounting Pronouncements In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-09 - *Revenue from Contracts with Customers* which clarifies the principles for recognizing revenue and develops a

common revenue standard for GAAP and International Financial Reporting Standards. The FASB deferred the effective date to provide adequate time to effectively implement the new revenue standard. The new standard is now required to be adopted for fiscal years beginning after December 15, 2017. We are in the process of evaluating the impact this standard may have, if any, on our reported results of operations or financial position.

3. ACQUISITION

On October 1, 2014, we completed the acquisition of all of the outstanding equity of Spezialpapierfabrik Oberschmitt GmbH (SPO) from FINSPO Beteiligungs-GmbH for \$8.2 million. SPO has annual sales of approximately \$33 million. SPO, located near Frankfurt, Germany, primarily produces highly technical papers for a wide range of capacitors used in consumer and industrial products; insulation papers for cables and transformers; and materials for industrial power inverters, electromagnetic current filters and electric rail traction. SPO also produces glassine products, which are used in cosmetics packaging, food packaging, and pharmaceutical dosage bags. SPO is operated as part of the Composite Fibers business unit, and complements other technical specialties.

4. GAINS ON DISPOSITIONS OF PLANT, EQUIPMENT AND TIMBERLANDS, NET

During the first nine months of 2015 and 2014, we completed sales of assets as summarized in the following table:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

<i>Dollars in thousands</i>	Acres	Proceeds	Gain
2015			
Timberlands	1,398	\$ 2,794	\$ 2,704

7. INCOME TAXES

Income taxes are recognized for the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. The effects of income taxes are measured based on enacted tax laws and rates.

As of September 30, 2015 and December 31, 2014, we had \$12.0 million and \$14.9 million of gross unrecognized tax benefits. As of September 30, 2015, if such benefits were to be recognized, approximately \$12.0 million would be recorded as a component of income tax expense, thereby affecting our effective tax rate. Gross unrecognized tax benefits reflected a net decrease of \$2.9 million during the nine months ended September 30, 2015, primarily due to the completion of federal and state examinations during the second quarter.

We, or one of our subsidiaries, file income tax returns with the United States Internal Revenue Service, as well as various state and foreign authorities.

The following table summarizes, by major jurisdiction, tax years that remain subject to examination:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

Jurisdiction	Open Tax Years	
	Examinations not yet initiated	Examination in progress
United States		
Federal	2013 - 2014	N/A
State	2010 - 2014	N/A

(1) includes provincial or similar local jurisdictions, as applicable

- 9 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

The amount of income taxes we pay is subject to ongoing audits by federal, state and foreign tax authorities, which often result in proposed assessments. Management performs a comprehensive review of its global tax positions on a quarterly basis and accrues amounts for uncertain tax positions. Based on these reviews and the result of discussions and resolutions of matters with certain tax authorities and the closure of tax years subject to tax audit, reserves are adjusted as necessary. However, future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are determined or resolved or as such statutes are closed. Due to potential for resolution of federal, state and foreign examinations, and the lapse of various statutes of limitation, it is reasonably possible our gross unrecognized tax benefits balance may decrease within the next twelve months by a range of zero to \$1.7 million. Substantially all of this range relates to tax positions taken in the U.S. and Germany.

We recognize interest and penalties related to uncertain tax positions as income tax expense. The following table summarizes information related to interest and penalties on uncertain tax positions:

<i>In millions</i>	Nine months ended September 30	
	2015	2014
Interest expense	\$	\$ 0.1
Penalties		
	September 30	December 31
	2015	2014
Accrued interest payable	\$ 0.6	\$ 0.6

8. STOCK-BASED COMPENSATION

The P. H. Glatfelter Amended and Restated Long Term Incentive Plan (the LTIP) provides for the issuance of Glatfelter common stock to eligible participants in the form of restricted stock units, restricted stock awards, non-qualified stock options, performance shares, incentive stock options and performance units.

Pursuant to terms of the LTIP, we have issued to eligible participants restricted stock units, performance share awards and stock only stock appreciation rights.

Restricted Stock Units (RSU) and Performance Share Awards (PSAs) Awards of RSUs and PSAs are made under our LTIP. The RSUs vest on the passage of time, generally on a graded scale over a three, four, and five-year period, or in certain instances the RSUs were issued with five year cliff vesting. PSAs are issued annually to members of management and each respective grant cliff vests each December 31 of the third year following the grant, assuming the achievement of predetermined, three-year cumulative performance targets. The performance measures include a minimum, target and maximum performance level providing the grantees an opportunity to receive more or less shares than targeted depending on actual financial performance. For both RSUs and PSAs, the grant date fair value of the awards, which is equal to the closing price per common share on the date of the award, is used to determine the amount of expense to be recognized over the applicable service period. Settlement of RSUs and PSAs will be made in shares of our common stock currently held in treasury.

The following table summarizes RSU and PSA activity during periods indicated:

<i>Units</i>	2015	2014
Balance at January 1,	888,942	1,001,814
Granted	160,514	173,206
Forfeited	(87,567)	(45,355)
Shares delivered	(286,857)	(239,394)
Balance at September 30,	675,032	890,271

The amount granted in 2015 and 2014 includes PSAs of 105,017 and 95,691 respectively, exclusive of reinvested dividends.

Stock Only Stock Appreciation Rights (SOSARs) Under terms of the SOSAR, a recipient receives the right to a payment in the form of shares of common stock equal to the difference, if any, in the fair market value of one share of common stock at the time of exercising the SOSAR and the exercise price. The SOSARs vest ratably over a three year period and have a term of ten years.

The following table sets forth information related to outstanding SOSARs.

	2015		2014	
	Shares	Wtd Avg Exercise Price	Shares	Wtd Avg Exercise Price
SOSARS				
Outstanding at January 1,	1,864,707	\$ 16.20	1,977,133	\$ 13.91

GLATFELTER

9.30.15 Form 10-Q

Table of Contents**10. ASSET IMPAIRMENT CHARGE**

During the third quarters of 2015 and 2014, in connection with our annual test of potential impairment of indefinite lived intangible assets, we recorded \$1.2 million and \$3.3 million, respectively, of non-cash asset impairment charges related to a trade name intangible asset acquired in connection with our Composite Fibers business unit's 2013 Dresden acquisition. The charges were due to changes in the estimated fair value of the trade name, primarily driven by lower forecasted revenues associated with the business, an increase in discount rates related to Dresden's business in Russia and Ukraine and this region's political and economic instability. The charges are recorded in the accompanying condensed consolidated statements of income under the caption Selling, general and administrative expenses. The fair value of the asset was estimated using a discounted cash flow model, Level 3 fair value classification.

11. INVENTORIES

Inventories, net of reserves, were as follows:

<i>In thousands</i>	September 30 2015	December 31 2014
Raw materials	\$ 59,985	\$ 61,266
In-process and finished	117,980	117,580
Supplies	70,121	69,859
Total	\$ 248,086	\$ 248,705

12. LONG-TERM DEBT

Long-term debt is summarized as follows:

<i>In thousands</i>	September 30 2015	December 31 2014
Revolving credit facility, due Mar. 2020	\$ 83,464	\$
Revolving credit facility, due Nov. 2016		90,555
5.375% Notes, due Oct. 2020	250,000	250,000
2.40% Term Loan, due Jun. 2022	10,803	12,155
2.05% Term Loan, due Mar. 2023	44,848	51,902
Total long-term debt	389,115	404,612
Less current portion	(7,580)	(5,734)
Long-term debt, net of current portion	\$ 381,535	\$ 398,878

On March 12, 2015, we amended our revolving credit agreement with a consortium of banks (the Revolving Credit Facility) which increased the amount available for borrowing to \$400 million, extended the maturity of the facility to March 12, 2020, and instituted a revised interest rate pricing grid.

For all US dollar denominated borrowings under the Revolving Credit Facility, the borrowing rate is, at our option, either, (a) the bank's base rate which is equal to the greater of i) the prime rate; ii) the federal funds rate plus 50 basis points; or iii) the daily Euro-rate plus 100 basis points plus an applicable spread over either i), ii) or iii) ranging from 12.5 basis points to 100 basis points based on the Company's leverage ratio and its corporate credit ratings determined by Standard & Poor's Rating Services and Moody's Investor Service, Inc. (the Corporate Credit Rating); or (b) the daily Euro-rate plus an applicable margin ranging from 112.5 basis points to 200 basis points based on the Company's leverage ratio and the Corporate Credit Rating. For non-US dollar denominated borrowings, interest is based on (b) above.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

The Revolving Credit Facility contains a number of customary covenants for financings of this type that, among other things, restrict our ability to dispose of or create liens on assets, incur additional indebtedness, repay other indebtedness, limits certain intercompany financing arrangements, make acquisitions and engage in mergers or consolidations. We are also required to comply with specified financial tests and ratios including: i) maximum net debt to earnings before interest, taxes, depreciation and amortization (EBITDA) ratio (the leverage ratio); and ii) a consolidated EBITDA to interest expense ratio. The most restrictive of our covenants is a maximum leverage ratio of 3.5x. As of September 30, 2015, the leverage ratio, as calculated in accordance with the definition in our credit agreement, was 2.2x which is within the limits set forth in our credit agreement. A breach of these requirements would give rise to certain remedies under the Revolving Credit Facility, among which are the termination of the agreement and accelerated repayment of the outstanding borrowings plus accrued and unpaid interest under the credit facility.

On October 3, 2012, we completed a private placement offering of \$250.0 million aggregate principal amount of 5.375% Senior Notes due 2020 (the 5.375% Notes). The 5.375% Notes are fully and unconditionally guaranteed, jointly and severally, by PHG Tea Leaves, Inc., Mollanvick, Inc., and Glatfelter Holdings, LLC (the Guarantors). Interest on the 5.375% Notes is payable semiannually in arrears on April 15 and October 15.

The 5.375% Notes are redeemable, in whole or in part, at anytime on or after October 15, 2016 at the redemption prices specified in the applicable Indenture. Prior to October 15, 2016, we may redeem some or all of the Notes at a make-whole premium as specified in the Indenture. These Notes and the guarantees of the notes are senior obligations of the Company and the Guarantors, respectively, rank equally in right of payment with future senior indebtedness of the Company and the Guarantors and will mature on October 15, 2020.

- 12 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

The 5.375% Notes contain various covenants customary to indebtedness of this nature including limitations on i) the amount of indebtedness that may be incurred; ii) certain restricted payments including common stock dividends; iii) distributions from certain subsidiaries; iv) sales of assets; v) transactions amongst subsidiaries; and vi) incurrence of liens on assets. In addition, the 5.375% Notes contain cross default provisions that could result in all such notes becoming due and payable in the event of a failure to repay debt outstanding under the Revolving Credit Agreement at maturity or a default under the Revolving Credit Agreement that accelerates the debt outstanding thereunder. As of September 30, 2015, we met all of the requirements of our debt covenants.

Glatfelter Gernsbach GmbH & Co. KG (Gernsbach), a wholly-owned subsidiary of ours, has two separate agreements with IKB Deutsche Industriebank AG, Düsseldorf (IKB). Pursuant to the first agreement, dated April 11, 2013, Gernsbach borrowed 42.7 million (or \$57.6 million) aggregate principal amount (the 2013 IKB Loan). The 2013 IKB Loan is repayable in 32 quarterly installments beginning on June 30, 2015 and ending on March 31, 2023 and bears interest at a rate of 2.05% per annum.

Pursuant to the second agreement with IKB dated September 4, 2014, Gernsbach borrowed 10.0 million (or \$12.6 million) aggregate principal amount (the 2014 IKB Loan). The 2014 IKB Loan is repayable in 27 quarterly installments beginning on September 30, 2015 and ending on June 30, 2022 and bears interest at a rate of 2.40% per annum. Interest on the IKB Loan or portion thereof is payable quarterly.

The IKB loans provide for representations, warranties and covenants customary for financings of these types. The financial covenants contained in each of the IKB loans, which relate to the minimum ratio of consolidated EBITDA to consolidated interest expense and the maximum ratio of consolidated total net debt to consolidated adjusted EBITDA, will be calculated by reference to our Revolving Credit Agreement.

Aggregated unamortized deferred debt issuance costs incurred in connection with all of our outstanding debt totaled \$5.6 million at September 30, 2015 and are reported under the caption Other assets in the accompanying condensed consolidated balance sheets. The deferred costs are being amortized on a straight line basis over the life of the underlying instruments.

P. H. Glatfelter Company guarantees all debt obligations of its subsidiaries, including each of the IKB loans. All such obligations are recorded in these condensed consolidated financial statements.

As of September 30, 2015 and December 31, 2014, we had \$5.3 million of letters of credit issued to us by certain financial institutions. The letters of credit, which reduce amounts available under our revolving credit facility, primarily provide financial assurances for the benefit of certain state workers compensation insurance agencies in conjunction with our self-insurance program. We bear the credit risk on this amount to the extent that we do not comply with the provisions of certain agreements. No amounts are outstanding under the letters of credit.

13. ASSET RETIREMENT OBLIGATION

During 2008, we recorded \$11.5 million, net present value, of asset retirement obligations related to the legal requirement to close several lagoons at the Spring Grove, PA facility. Historically, lagoons were used to dispose of residual waste material. Closure of the lagoons is expected to be completed in 2016 and will be accomplished by filling the lagoons, installing a non-permeable liner which will be covered with soil to construct the required cap over the lagoons. The retirement obligation was accrued with a corresponding increase in the carrying value of the property, equipment and timberlands caption on the consolidated balance sheet. The amount capitalized is being amortized as a charge to operations on the straight-line basis in relation to the expected closure period. Following is a summary of activity recorded during the first nine months of 2015 and 2014:

<i>In thousands</i>	2015	2014
Balance at January 1,	\$ 4,114	\$ 5,032
Accretion	59	115
Payments	(2,384)	(767)
Downward revision	(1,000)	
Gain	(359)	(128)
Balance at September 30,	\$ 430	\$ 4,252

Edgar Filing: GLATFELTER P H CO - Form 10-Q

During the second quarter of 2015 we recorded a downward revision to our estimated cost of closing the lagoons. The revision was recorded as an adjustment to both the carrying value of the associated property, equipment and timberlands as well as the asset retirement obligation.

The following table summarizes the line items in the accompanying condensed consolidated balance sheets where the asset retirement obligations are recorded:

<i>In thousands</i>	September 30 2015	December 31 2014
Other current liabilities	\$ 430	\$ 2,855
Other long-term liabilities		1,259
Total	\$ 430	\$ 4,114

- 13 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents**14. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The amounts reported on the condensed consolidated balance sheets for cash and cash equivalents and accounts receivable approximate fair value. The following table sets forth carrying value and fair value of long-term debt:

<i>In thousands</i>	September 30, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Variable rate debt	\$ 83,464	\$ 83,464	\$ 90,555	\$ 90,555
Fixed-rate bonds	250,000	253,908	250,000	255,470
2.40% Term loan	10,803	10,729	12,155	12,626
2.05% Term loan	44,848	43,611	51,902	53,106
Total	\$ 389,115	\$ 391,712	\$ 404,612	\$ 411,757

As of September 30, 2015, and December 31, 2014, we had \$250.0 million of 5.375% fixed rate bonds. These bonds are publicly registered, but thinly traded. Accordingly, the values set forth above for the bonds, as well as our other debt instruments, are based on observable inputs and other relevant market data (Level 2). The fair value of financial derivatives is set forth below in Note 15.

15. FINANCIAL DERIVATIVES AND HEDGING ACTIVITIES

As part of our overall risk management practices, we enter into financial derivatives primarily designed to either i) hedge foreign currency risks associated with forecasted transactions – cash flow hedges ; or ii) mitigate the impact that changes in currency exchange rates have on intercompany financing transactions and foreign currency denominated receivables and payables – foreign currency hedges.

Derivatives Designated as Hedging Instruments – Cash Flow Hedges We use currency forward contracts as cash flow hedges to manage our exposure to fluctuations in the currency exchange rates on certain forecasted production costs expected to be incurred over a twelve month to eighteen month period of time. Currency forward contracts involve fixing the exchange rate for delivery of a specified amount of foreign currency on a specified date.

We designate certain currency forward contracts as cash flow hedges of forecasted raw material purchases or certain production costs with exposure to changes in foreign currency exchange rates. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges of foreign exchange risk is deferred as a component of accumulated other comprehensive income in the accompanying condensed consolidated balance sheets and is subsequently reclassified into costs of products sold in the period that inventory produced using the hedged transaction affects earnings. The ineffective portion of the change in fair value of the derivative is recognized directly to earnings and reflected in the accompanying condensed consolidated statements of income as non-operating income (expense) under the caption Other, net.

We had the following outstanding derivatives that were used to hedge foreign exchange risks associated with forecasted transactions and designated as hedging instruments:

<i>In thousands</i>	September 30 2015	December 31 2014
Derivative		
<i>Sell/Buy - sell notional</i>		
Euro / British Pound	9,189	4,592
<i>Sell/Buy - buy notional</i>		
Euro / Philippine Peso	661,453	523,313
British Pound / Philippine Peso	471,607	260,535
Euro / U.S. Dollar	47,751	32,527
U.S. Dollar / Canadian Dollar	19,205	10,036

These contracts have maturities of between twelve months and eighteen months from the date originally entered into.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

Derivatives Not Designated as Hedging Instruments Foreign Currency Hedges We also enter into forward foreign exchange contracts to mitigate the impact changes in currency exchange rates have on balance sheet monetary assets and liabilities. None of these contracts are designated as hedges for financial accounting purposes and, accordingly, changes in value of the foreign exchange forward contracts and in the offsetting underlying on-balance-sheet transactions are reflected in the accompanying condensed consolidated statements of income under the caption Other, net.

- 14 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

The following sets forth derivatives used to mitigate the impact changes in currency exchange rates have on balance sheet monetary assets and liabilities:

<i>In thousands</i>	September 30 2015	December 31 2014
Derivative		
<i>Sell/Buy - sell notional</i>		
U.S. Dollar / Euro		4,000
U.S. Dollar / British Pound	7,000	9,000
Euro / British Pound		2,000
British Pound / Euro	2,000	
<i>Sell/Buy - buy notional</i>		
Euro / U.S. Dollar	7,000	
British Pound / Euro	15,500	3,000

These contracts have maturities of one month from the date originally entered into.

Fair Value Measurements The following table summarizes the fair values of derivative instruments for the period indicated and the line items in the accompanying condensed consolidated balance sheets where the instruments are recorded:

<i>In thousands</i>	September 30 2015	December 31 2014	September 30 2015	December 31 2014
Balance sheet caption				
		Prepaid Expenses and Other Current Assets		Other Current Liabilities
Designated as hedging:				
Forward foreign currency exchange contracts	\$ 693	\$ 3,106	\$ 1,676	\$ 394
Not designated as hedging:				
Forward foreign currency exchange contracts	\$ 91.0	\$ 70	\$ 0	\$ 161

The amounts set forth in the table above represent the net asset or liability giving effect to rights of offset with each counterparty. The effect of netting the amounts presented above did not have a material effect on our consolidated financial position.

The following table summarizes the amount of income or (loss) from derivative instruments recognized in our results of operations for the periods indicated and the line items in the accompanying condensed consolidated statements of income where the results are recorded:

<i>In thousands</i>	Three months ended September 30		Nine months ended September 30	
	2015	2014	2015	2014
Designated as hedging:				
Forward foreign currency exchange contracts:				
Effective portion cost of products sold	\$ 1,972	\$ (137)	\$ 4,595	\$ (1,227)
Ineffective portion other net	(184)	81	104	181
Not designated as hedging:				
Forward foreign currency exchange contracts:				
Other net	\$ 621	\$ 595	\$ 1,028	\$ 1,792

The impact of activity not designated as hedging was substantially offset by the remeasurement of the underlying on-balance sheet item.

The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The fair values of the foreign exchange forward contracts are considered to be Level 2. Foreign currency forward contracts are valued using foreign currency forward and interest rate curves. The fair value of each contract is determined by comparing the contract rate to the forward rate and discounting to present value. Contracts in a gain position are recorded in the condensed consolidated balance sheets under the caption Prepaid expenses and other current assets and the value of contracts in a loss position is recorded under the caption Other current liabilities.

A rollforward of fair value amounts recorded as a component of accumulated other comprehensive income is as follows:

Edgar Filing: GLATFELTER P H CO - Form 10-Q

<i>In thousands</i>	2015	2014
Balance at January 1,	\$ 3,282	\$ (1,296)
Deferred gains on cash flow hedges	1,100	2,223
Reclassified to earnings	(4,595)	1,227
Balance at September 30,	\$ (213)	\$ 2,154

We expect substantially all of the amounts recorded as a component of accumulated other comprehensive income will be realized in results of operations within the next twelve months and the amount ultimately recognized will vary depending on actual market rates.

Credit risk related to derivative activity arises in the event the counterparty fails to meet its obligations to us.

- 15 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

This exposure is generally limited to the amounts, if any, by which the counterparty's obligations exceed our obligation to them. Our policy is to enter into contracts only with financial institutions which meet certain minimum credit ratings.

16. COMMITMENTS, CONTINGENCIES AND LEGAL PROCEEDINGS

Fox River Neenah, Wisconsin

Background. We have significant uncertainties associated with environmental claims arising out of the presence of polychlorinated biphenyls (PCBs) in sediments in the lower Fox River, on which our former Neenah facility was located, and in the Bay of Green Bay Wisconsin (collectively, the Site). Since the early 1990s, the United States, the State of Wisconsin and two Indian tribes (collectively, the Governments) have pursued a cleanup of a 39-mile stretch of river from Little Lake Butte des Morts into Green Bay and natural resource damages (NRDs).

The United States notified the following parties (PRPs) of their potential responsibility to implement response actions, to pay response costs, and to compensate for NRDs at this site: Appvion, Inc. (formerly known as Appleton Papers Inc.), CBC Coating, Inc. (formerly known as Riverside Paper Corporation), Georgia-Pacific Consumer Products, L.P. (Georgia-Pacific, formerly known as Fort James Operating Company), Menasha Corporation, NCR Corporation (NCR), U.S. Paper Mills Corp., and WTM I Company. As described below, many other parties have been joined in litigation. After giving effect to settlements reached with the Governments, the remaining PRPs exposed to continuing obligations to implement the remainder of the cleanup consist of us, Georgia-Pacific and NCR.

The Site has been subject to certain studies and the parties conducted certain demonstration projects and completed certain interim cleanups. The permanent cleanup, known as a remedial action under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or Superfund), consists of sediment dredging, installation of engineered caps, and placement of sand covers in various areas in the bed of the river.

The United States Environmental Protection Agency (EPA) has divided the Site into five operable units, including the most upstream portion of the Site on which our facility was located (OU1) and four downstream reaches of the river and bay (OU2-5).

We and WTM I Company implemented the remedial action in OU1 under a consent decree with the Governments; Menasha Corporation made a financial contribution to that work. That project began in 2004 and the work is complete other than on-going monitoring and maintenance.

For OU2-5, work has proceeded primarily under a Unilateral Administrative Order (UAO) issued in November 2007 by the EPA to us and seven other respondents. The remedial actions from 2007 through 2014 were funded primarily by NCR and its indemnitors, including Appvion, Inc. In late June 2015, we began placing sand covers and certain other covering and capping in OU4b as a response to the Government's demands. We expect the cost of the remediation we will perform in 2015 to be approximately \$10 million. Georgia Pacific and NCR are funding work in 2015 pursuant to a proposed consent decree. Work is scheduled to continue in OU2-5 through 2017; although work may be required into 2018 to complete the project, with monitoring and maintenance to follow.

Although we have not contributed significant funds towards remedial actions other than in OU1 until 2015, as more fully discussed below, significant uncertainties exist pertaining to the ultimate allocation of OU2-5 remediation costs as well as the shorter term funding of the remedial actions for OU2-5.

Cost estimates. Estimates of the Site remediation change over time as we, or others, gain additional data and experience at the Site. In addition, disagreement exists over the likely costs for some of this work. On October 14, 2014, the Governments represented to the United States District Court in Green Bay that \$1.1 billion provided an upper end estimate of total past and future response costs including a \$100 million uncertainty premium for future response costs. Based upon estimates made by the Governments and independent estimates commissioned by various potentially responsible parties, we have no reason to disagree with the Governments' assertion. Much of that amount has already been incurred, including approximately \$100 million for OU1 and what we believe to be approximately \$500 million for OU2-5 prior to the 2015 remediation season.

In previous years, the Governments indicated their expectation was to have work in OU2-5 completed at a rate estimated to cost at least \$70 million annually in 2015 and 2016, and at lower rates thereafter. However, the Governments have revised their estimate per year and the cost for the 2015 dredging season was increased to be approximately \$100 million.

As the result of a partial settlement, Georgia-Pacific has no obligation to pay for work upstream of a line near

- 16 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

Georgia-Pacific's Green Bay West Mill located in OU4. We believe substantially all in-water work upstream of this line had been completed as of the end of the 2014 dredging season.

Allocation Litigation. In January 2008, NCR and Appvion brought an action in the federal district court in Green Bay to allocate among all parties responsible for this Site all of the costs incurred by the Governments, all of the costs incurred by the parties, and all of the NRDs owed to the Natural Resource Trustees. We have previously referred to this case as the Whiting Litigation. After several summary judgment rulings and a trial, the trial court entered judgment in the Whiting Litigation, allocating to NCR 100% of the costs of (a) the OU2-5 cleanup, (b) NRDs, (c) past and future costs incurred by the Governments in OU2-5, and (d) past and future costs incurred by any of the other parties net of an appropriate equitable adjustment for insurance recoveries. As to Glatfelter, NCR was judged liable to us for \$4.28 million and any future costs or damages we may incur. NCR was held not responsible for costs incurred in OU1.

All parties appealed the Whiting Litigation judgment to the United States Court of Appeals for the Seventh Circuit. On September 25, 2014, that court affirmed, holding that if knowledge and fault were the only equitable factors governing allocation of costs and NRDs at the Site, NCR would owe 100% of all costs and damages in OU2-5, but would not have a share of costs in OU1 which is upstream of the outfall of the facilities for which NCR is responsible solely as an arranger for disposal of PCB-containing waste paper by recycling it at our mill. However, the court of appeals vacated the judgment and remanded the case for the district court's further consideration of whether any other equitable factors might cause the district court to alter its allocation.

We contend the district court should, after further consideration, reinstate the 100%, or some similar very high, allocation to NCR of all the costs, and should hold that we should bear no share or a very small share. However, NCR has taken a contrary position and has sought contributions from others for future work until all allocation issues are resolved.

In addition, we take the position that the single site theory on which the courts held us responsible for cleaning up parts of the Site far downstream of our former mill should, if applied to NCR, make it liable for costs incurred in OU1. The district court agreed with us in an order dated March 3, 2015. On March 31, 2015, NCR sought review of that order by the court of appeals which review was denied on May 1, 2015. However, on May 15, 2015, the district court issued an opinion in the Government Action, described below, containing a sentence suggesting that NCR would not be liable for

OU1. Also as described below, on October 19, 2015, the district court reconsidered its May 15 opinion and ruled against NCR generally, although with no specific reference to OU1.

Appvion and NCR have had a cost-sharing agreement since at least 1998. The court of appeals held if Appvion incurred any recoverable costs because the Governments had named Appvion as a potentially responsible party, then Appvion may have a right to recover those costs under CERCLA. We and Appvion disagree over the proper treatment of amounts that Appvion incurred while a PRP that were also subject to a cost-sharing agreement with NCR; we contend Appvion may not recover costs it was contractually obligated to incur, that it has no other costs, and if it did, we would have a right to contribution of any recovery against NCR and others. However, Appvion takes a contrary position and claims in excess of \$170 million.

The district court has established a schedule for the Whiting Litigation under which it would hold a trial in July 2016 on remaining issues.

Enforcement Litigation. In October 2010, the United States and the State of Wisconsin brought an action (Government Action) in the federal district court in Green Bay against us and 13 other defendants seeking (a) to recover all of their unreimbursed past costs, (b) to obtain a declaration of joint and several liability for all of their future costs, (c) to recover NRDs, and (d) to obtain a declaration of liability of all of the respondents on the UAO to perform the remedy in OU2-5 as required by the UAO and a mandatory permanent injunction to the same effect. The last of these claims was tried in 2012, and in May 2013, the district court enjoined us, NCR, WTM I, and Menasha Corp. to perform the work under the UAO. As the result of partial settlements, U.S. Paper Mills Corp. and Georgia-Pacific agreed to joint and several liability for some of the work. Appvion was held not liable for this Site under CERCLA.

All other potentially responsible parties, including the United States and the State of Wisconsin, have settled with the Governments. As a result, the remaining defendants consist of us, NCR, and Georgia-Pacific.

We appealed the injunction to the United States Court of Appeals for the Seventh Circuit, as did NCR, WTM I, and Menasha. On September 25, 2014, the court of appeals decided our and NCR's appeals; the others' appeals were not decided because they entered into a settlement. The court of appeals vacated the injunction as to us and NCR. However, it affirmed the district court's ruling that we are liable for response actions in OU2-5 and for complying with the UAO. The court of appeals vacated and remanded the district court's decision that

- 17 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

NCR had failed to prove that liability for OU2-5 could be apportioned, directing the lower court to consider issues it had not considered initially.

On remand, the district court issued an opinion on May 15, 2015, (May 15 Decision) in which it held that the existing trial record allowed it to apportion NCR's liability for OU4 at 28% of the total OU4 costs. The district court did not apportion liability for OU2 or OU3. The court's opinion contains a sentence stating that NCR would not be liable for OU1 because the facilities formerly owned by NCR discharged downstream. We moved for reconsideration of the May 15 Decision, as did the United States, Georgia-Pacific, and certain other parties. On October 19, 2015, the district court reconsidered its May 15 Decision and held that NCR had not shown a reasonable basis for apportionment of its liability for the site.

We do not know the Governments' intentions concerning further litigation of the Government Action, nor do we know the schedule for any further proceedings. We cannot now predict when it will be resolved.

Interim Funding of Ongoing Work. As described above, the court of appeals vacated the allocation judgment in the Whiting Litigation on September 25, 2014, but neither court has since replaced that allocation with any other. The 2007 UAO requires the PRPs to submit annual remediation work plans. For 2015, the EPA approved the 2015 Work Plan for \$100 million of remediation activities. NCR, GP, and we were not able to reach agreement on a division of the costs of that work on an interim basis, subject to reallocation in the Whiting Litigation. NCR and GP have entered into a proposed consent decree with the United States under which they will fund certain work estimated to cost approximately \$67 million in 2015, and they will not be responsible for completing the remainder of the work in 2015, estimated to cost approximately \$33 million. The United States has not moved to enter that consent decree. Through the issuance of the 2015 Work Plan the EPA assigned to us those remaining tasks. Under the proposed consent decree, all parties would remain jointly and severally liable for work in the 2015 Work Plan not completed in 2015, except for a small amount of work upstream of the area for which GP is responsible. We contracted for remediation work in OU4, estimated to total approximately \$10 million, an amount less than the amount assigned to us in the 2015 Work Plan.

We anticipate that \$10 million of work in 2015 would satisfy our share of the obligation if NCR and GP perform the work assigned to them in the 2015 Work Plan. The United States disagrees. We cannot predict the outcome of these disagreements or any possible resulting litigation.

With respect to the 2015 Work Plan, we disagree with the United States over i) whether the work purportedly assigned to

us could be completed in the specified timeframe; ii) whether the EPA has the legal authority to assign remedial tasks as it purports to have done under the terms of the UAO; iii) whether we have available to us avenues for relief from the purported obligation to perform the assigned work in 2015; iv) whether we have any other responses of which we may avail ourself; v) whether an arbitrary per capita allocation of one-third can be imposed on us in light of the multiple rulings by the courts since 2009 that appear inconsistent with a per capita allocation; and vi) whether the 2015 Work Plan affects the Company's ultimate liability for this Site.

In September 2015, the U.S. Department of Justice notified us that we, along with Georgia - Pacific, should be prepared to participate in the remediation activities during 2016. In addition, we understand NCR has submitted a draft 2016 Work Plan. Although we do not have an estimate of the costs of completing the work NCR proposes be completed in 2016, we expect the cost could approximate \$100 million. The draft does not assign work to particular parties.

Because we may not be able to obtain an agreement with the other parties or a ruling in litigation defining our obligation to contribute to work in 2016 prior to the time that work would have to be implemented, it is conceivable that we may have to choose an amount of work that we believe satisfies any obligation we may have to complete work in 2016, which selection we will have to defend after the fact. It is also conceivable we may be in the same position with respect to work in OU2-5 beyond the 2016 season. Although we are unable to determine with any degree of certainty the amount we may be required to complete or fund, those amounts could be significant. Any amounts we pay or any other party pays in the interim may be subject to reallocation when the Whiting Litigation is resolved.

NRDs. The Governments' NRD assessment documents originally claimed we are jointly and severally responsible for NRDs with a value between \$176 million and \$333 million. The Governments claimed this range should be inflated to current dollars and then certain unreimbursed past assessment costs should be added, so the range of their claim was \$287 million to \$423 million in 2009.

However, on October 14, 2014, the Governments represented to the district court that if certain settlements providing \$45.9 million toward compensation of NRDs were approved, the total NRD recovery would amount to \$105 million. The Governments stated they would consider those recoveries adequate and they would withdraw their claims against us and NCR for additional compensation of NRDs. On October 19, 2015, the district court granted the Governments leave to withdraw their

- 18 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

NRD claims against us without prejudice to re-filing them at some later time. Some of the settling parties, including all of the settling parties contributing the \$45.9 million, have waived their rights to seek contribution from us of the settlement amounts. We previously paid a portion of the earlier settlements that the Governments value at \$59 million and that we contend may be somewhat more.

Reserves for the Site. Our reserve including ongoing monitoring obligations in OU1, our share of remediation of the downstream portions of the Site, NRDs and all pending, threatened or asserted and unasserted claims against us relating to PCB contamination is set forth below:

<i>In thousands</i>	2015	2014
Balance at January 1,	\$ 16,223	\$ 16,276
Payments	(5,617)	(39)
Accruals	10,000	
Balance at September 30,	\$ 20,606	\$ 16,237

The payments set forth above represent cash paid towards completion of remediation activities in connection with the 2015 Work Plan, of which approximately \$4.5 million will be paid during the fourth quarter of 2015. In addition, in the third quarter of 2015 we increased our reserve by \$10.0 million to reflect our estimate of costs to be incurred related to the 2016 Work Plan. The charge is recorded in the accompanying condensed consolidated financial statements under the caption Selling, general and administrative expenses. If we are unsuccessful in the allocation litigation or in the enforcement litigation described above, we may be required to record additional charges and such charges could be significant.

Of our total reserve for the Fox River, \$16.0 million is recorded in the accompanying September 30, 2015 condensed consolidated balance sheet under the caption Environmental liabilities and the remainder is recorded under the caption Other long term liabilities.

As described above, the appellate court vacated and remanded for reconsideration the district court's ruling in the Whiting Litigation that NCR would bear 100% of costs for the downstream portion of the Site. We continue to believe we will not be allocated a significant share of liability in any final equitable allocation of the response costs for OU2-5 or for NRDs. The accompanying condensed consolidated financial

statements do not include reserves for any future defense costs, which could be significant, related to our involvement at the Site.

In setting our reserve for the Site, we have assessed our legal defenses, including our successful defenses to the allegations made in the Whiting Litigation and the original determination in the Whiting Litigation that NCR owes us full contribution for response costs and for NRDs that we may become obligated to pay except in OU1. We assume we will not bear the entire cost of remediation or damages to the exclusion of other known parties at the Site, who are also jointly and severally liable. The existence and ability of other parties to participate has also been taken into account in setting our reserve, and setting our reserve is generally based on our evaluation of recent publicly available financial information on certain of the responsible parties and any known insurance, indemnity or cost sharing agreements between responsible parties and third parties. In addition, we have considered the magnitude, nature, location and circumstances associated with the various discharges of PCBs to the river and the relationship of those discharges to identified contamination. We will continue to evaluate our exposure and the level of our reserves associated with the Site.

Other Information. The Governments have published studies estimating the amount of PCBs discharged by each identified potentially responsible party to the lower Fox River and Green Bay. These reports estimate our Neenah mill's share of the mass of PCBs discharged to be as high as 27%. The district court has found the discharge mass estimates used in these studies not to be accurate. We believe the Neenah mill's absolute and relative contribution of PCB mass is significantly lower than the estimates set forth in these studies. The district court in the Government Action has found that the Neenah mill discharged an unknown amount of PCBs.

Based upon the rulings in the Whiting Litigation and the Government Action, neither of which endorsed an equitable allocation in proportion to the mass of PCBs discharged, we continue to believe an allocation in proportion to mass of PCBs discharged would not constitute an equitable allocation of the potential liability for the contamination at the Fox River. We contend other factors, such as a party's role in causing costs, the location of discharge, and the location of contamination must be considered in order for the allocation to be equitable.

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

Range of Reasonably Possible Outcomes. Based on our analysis of all available information, including but not limited to decisions of the courts, official documents such as records of decision, as well as discussions with legal counsel and cost estimates for work to be performed at the Site, and substantially dependent on the resolution of the allocation issues discussed above, we believe it is reasonably possible that our costs associated with the Fox River matter could exceed the aggregate amounts accrued for the Fox River matter by amounts ranging from insignificant to \$175 million. We believe the likelihood of an outcome in the upper end of the monetary range is less than other possible outcomes within the range and the possibility of an outcome in excess of the upper end of the monetary range is remote.

We expect remediation costs to be incurred primarily over the next two to three years, although we are unable to determine with any degree of certainty the amount we may be required to fund for interim remediation work. To the extent we provide such interim funding, we contend that NCR or another party would be required to reimburse us once the final allocation is determined.

Summary. Our current assessment is we will be able to manage this environmental matter without a long-term, material adverse impact on the Company. This matter could, however, at any particular time or for any particular year or years, have a material adverse effect on our consolidated financial position, liquidity and/or results of operations or could result in a default under our debt covenants. Moreover, there can be no assurance our reserves will be adequate to provide for future obligations related to this matter, or our share of costs and/or damages will not exceed our available resources, or those obligations will not have a long-term, material adverse effect on our consolidated financial position, liquidity or results of operations. Should a court grant the United States or the State of Wisconsin relief requiring us individually either to perform directly or to contribute significant amounts towards remedial action downstream of Little Lake Butte des Morts those developments could have a material adverse effect on our consolidated financial position, liquidity and results of operations and might result in a default under our loan covenants.

Table of Contents**18. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS**

Our 5.375% Notes issued by P. H. Glatfelter Company (the Parent) are fully and unconditionally guaranteed, on a joint and several basis, by certain of our 100%-owned domestic subsidiaries, PHG Tea Leaves, Inc., Mollanvick, Inc., Glatfelter Composite Fibers N. A., Inc. (CFNA), Glatfelter Advanced Materials N.A., Inc. (GAMNA), and Glatfelter Holdings, LLC. The guarantees are subject to certain customary release provisions including i) the designation of such subsidiary as an unrestricted or excluded subsidiary; (ii) in connection with any sale or disposition of the capital stock of the subsidiary guarantor; and (iii) upon our exercise of our legal defeasance option or our covenant defeasance option, all of which are more fully described in the Indenture dated as of October 3, 2012 and the First Supplemental Indenture dated as of October 27, 2015, among us, the Guarantors and US Bank National Association, as Trustee, relating to the 5.375% Notes.

The following presents the condensed consolidating statements of income, including comprehensive income for the three months and nine months ended September 30, 2015 and 2014, the condensed consolidating balance sheets as of September 30, 2015 and December 31, 2014 and the condensed consolidating cash flows for the nine months ended September 30, 2015 and 2014. These financial statements reflect the Parent, the guarantor subsidiaries (on a combined basis), the non-guarantor subsidiaries (on a combined basis) and elimination entries necessary to combine such entities on a consolidated basis. The condensed consolidating financial statements set forth below include the addition of CFNA and GAMNA as guarantors effective September 30, 2015 and all prior periods have been restated to retroactively effect this change. In addition, our presentation of the Guarantors' statement of income for the three months and nine months ended September 30, 2014 has been restated to correctly apply the equity method of accounting to reflect the Guarantors' equity interests in certain Non Guarantors. Such changes are reflected under the caption Equity in earnings of subsidiaries in the accompanying condensed consolidating statements of income. The correction had no impact on any financial information of the Parent Company, the Non Guarantors or on the condensed consolidating balance sheet or the statement of cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and Glatfelter's Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2014 Annual Report on Form 10-K.

Forward-Looking Statements This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including statements regarding industry prospects and future consolidated financial position or results of operations, made in this Report on Form 10-Q are forward looking. We use words such as anticipates, believes, expects, future, intends and similar expressions to identify forward-looking statements. Forward-looking statements reflect management's current expectations and are inherently uncertain. Our actual results may differ significantly from such expectations. The following discussion includes forward-looking statements regarding expectations of, among others, shipping volumes, selling prices, input costs, non-cash pension expense, environmental costs, capital expenditures and liquidity, all of which are inherently difficult to predict. Although we make such statements based on assumptions that we believe to be reasonable, there can be no assurance that actual results will not differ materially from our expectations. Accordingly, we identify the following important factors, among others, which could cause our results to differ from any results that might be projected, forecasted or estimated in any such forward-looking statements:

- i. variations in demand for our products including the impact of unplanned market-related downtime, variations in product pricing, or product substitution;
- ii. changes in the cost or availability of raw materials we use, in particular pulpwood, pulp, pulp substitutes, caustic soda, and abaca fiber;
- iii. changes in energy-related costs and commodity raw materials with an energy component;
- iv. our ability to develop new, high value-added products;
- v. the impact of exposure to volatile market-based pricing for sales of excess electricity;
- vi. the impact of competition, both domestic and international, changes in industry production capacity, including the construction of new mills or new machines, the closing of mills and incremental changes due to capital expenditures or productivity increases;
- vii. the gain or loss of significant customers and/or on-going viability of such customers;
- viii. the impact of unplanned production interruption;
- ix. cost and other effects of environmental compliance, cleanup, damages, remediation or restoration, or personal injury or property damages related thereto, such as the costs of natural resource restoration or damages related to the presence of polychlorinated biphenyls (PCBs) in the lower Fox River on which our former Neenah mill was located;
- x. adverse results in litigation of the Fox River matter;
- xi. risks associated with our international operations, including local economic and political environments and fluctuations in currency exchange rates;

- xii. geopolitical events, including the impact of conflicts such as Russia and Ukraine;
 - xiii. the impact of war and terrorism;
 - xiv. disruptions in production and/or increased costs due to labor disputes;
 - xv. the impact of unfavorable outcomes of audits by various state, federal or international tax authorities;
 - xvi. enactment of adverse state, federal or foreign tax or other legislation or changes in government policy or regulation; and
 - xvii. our ability to finance, consummate and integrate acquisitions.
- We manufacture a wide array of specialty papers and fiber-based engineered materials. We manage our company along three business units:

Composite Fibers with revenue from the sale of single-serve coffee and tea filtration papers, non-woven wallcover, papers for battery and capacitor applications, metallized papers, composite laminates, and other technical specialty papers;

Advanced Airlaid Materials with revenue from the sale of airlaid non-woven fabric like materials used in feminine hygiene products, adult incontinence products, cleaning pads, food pads, napkins, tablecloths, and baby wipes; and

Specialty Papers with revenue from the sale of carbonless papers, non-carbonless forms, book publishing, envelope & converting papers, and fiber-based engineered products.

GLATFELTER

9.30.15 Form 10-Q

Table of Contents**RESULTS OF OPERATIONS***Nine months ended September 30, 2015 versus the nine months ended September 30, 2014*

Overview For the first nine months of 2015, net income was \$30.3 million, or \$0.69 per diluted share, compared with \$49.7 million, or \$1.13 per diluted share, in the first nine months of 2014. On an adjusted earnings basis, a non-GAAP measure that excludes non-core business items discussed below, earnings per share were \$0.82 compared with \$1.11 in 2014. The year-over-year comparison of results of operations reflects the adverse impact of i) the stronger U.S. dollar on our euro-denominated businesses; ii) weaker demand and pricing for nonwoven wallcover products primarily due to economic conditions in Russia and Ukraine; iii) pricing pressures in our Specialty Papers business; and iv) weaker demand for certain Advanced Airlaid Materials products. The following table sets forth summarized results of operations:

	Nine months ended	
	September 30	
<i>In thousands, except per share</i>	2015	2014
Net sales	\$ 1,248,232	\$ 1,366,154
Gross profit	144,849	176,990
Operating income	47,536	77,120
Net income	30,277	49,689
Earnings per diluted share	0.69	1.13

In addition to the results reported in accordance with GAAP, we evaluate our performance using adjusted net income and adjusted earnings per diluted share. We disclose this information to allow investors to evaluate our performance exclusive of certain items that impact the comparability of results from period to period and we believe it is helpful in understanding underlying operating trends and cash flow generation. Adjusted net income consists of net income determined in accordance with GAAP adjusted to exclude the impact of the following:

Timberland sales and related costs. These adjustments exclude gains from the sales of timberlands as these items are not considered to be part of our core business, ongoing results of operations or cash flows. These adjustments are irregular in timing and amount and may significantly impact our operating performance. As such, these items may not be indicative of past or future performance of the Company and therefore are excluded for comparability purposes.

Workforce efficiency charges. These adjustments include costs that are directly related to actions undertaken to reduce costs and improve operating efficiencies. Such costs were specifically incurred as part of our initiative to reduce global headcount as part of a more broad based cost reduction effort initiated in the fourth quarter of 2014.

Acquisition and integration related costs. These adjustments include costs directly related to the consummation of the acquisition process and those related to integrating recently acquired businesses. These costs are irregular in timing and as such may not be indicative of our past or future performance.

Fox River environmental matter. This adjustment reflects a charge incurred to increase our reserve for estimated costs to remediate environmental contamination at the Fox River site. These costs are irregular in timing and as such may not be indicative of our past or future performance.

Asset impairment charges. This adjustment represents a non-cash charge required to adjust to its estimated fair value the carrying value of a trade name intangible asset. Charges of this nature are irregular in timing and as such may not be indicative of our past and future performance.

Alternative fuel mixture/Cellulosic biofuel credits. These adjustments reflect the release of reserves for uncertain tax position due to the lapse of statutes of limitation.

Adjusted earnings per diluted share is calculated by dividing adjusted net income by diluted weighted-average shares outstanding. Adjusted earnings and adjusted earnings per diluted share are considered measures not calculated in accordance with GAAP, and therefore are non-GAAP measures. These non-GAAP measures may differ from other companies. The non-GAAP financial information should not be considered in isolation from, or as a substitute for, measures of financial performance prepared in accordance with GAAP. The following table sets forth the reconciliation of net income to adjusted earnings for the nine months ended September 30, 2015 and 2014:

Business Units Results of individual business units are presented based on our management accounting practices and management structure. There is no comprehensive, authoritative body of guidance for management accounting equivalent to accounting principles generally accepted in the United States of America; therefore, the financial results of individual business units are not necessarily comparable with similar information for any other company. The management accounting process uses assumptions and allocations to measure performance of the business units. Methodologies are refined from time to time as management accounting practices are enhanced and businesses change. The costs incurred by support areas not directly aligned with the business unit are allocated primarily based on an estimated utilization of support area services or are included in Other and Unallocated in the Business Unit Performance table.

Management evaluates results of operations of the business units before pension expense, certain corporate level costs, and the effects of certain gains or losses not considered to be related to the core business operations. Management believes that this is a more meaningful representation of the operating performance of its core businesses, the profitability of business units and the extent of cash flow generated from these core operations. Such amounts are presented under the caption Other and Unallocated. This presentation is aligned with the management and operating structure of our company. It is also on this basis that the Company's performance is evaluated internally and by the Company's Board of Directors.

Table of Contents**Sales and Costs of Products Sold**

<i>In thousands</i>	Nine months ended September 30		Change
	2015	2014	
Net sales	\$ 1,248,232	\$ 1,366,154	\$ (117,922)
Energy and related sales, net	3,936	6,912	(2,976)
Total revenues	1,252,168	1,373,066	(120,898)
Costs of products sold	1,107,319	1,196,076	(88,757)
Gross profit	\$ 144,849	\$ 176,990	\$ (32,141)
Gross profit as a percent of Net sales	11.6%	13.0%	

The following table sets forth the contribution to consolidated net sales by each business unit:

<i>Percent of Total Business Unit</i>	Nine months ended September 30	
	2015	2014
Composite Fibers	32.8%	34.4%
Advanced Airlaid Material	14.7	15.8
Specialty Papers	52.5	49.8
Total	100.0%	100.0%

Net sales totaled \$1,248.2 million in the first nine months of 2015 compared with \$1,366.2 million in the first nine months of 2014. Currency translation adjustments unfavorably impacted the year-over-year comparison by \$82.7 million reflecting a significantly stronger U.S. dollar.

Composite Fibers net sales declined \$60.5 million, or 12.9%, due to \$62.1 million of unfavorable currency translation together with lower shipping volumes and \$7.8 million from lower selling prices, partially offset by the inclusion of Spezialpapierfabrik (SPO), which was acquired in the fourth quarter of 2014. Shipping volumes declined 2.8% primarily due to a 21.4% decline in shipments of nonwoven wallcover, partially offset by higher shipments of technical specialties and food and beverage segments. The weakness in sales to the wallcover segment is directly related to economic conditions in Russia and Ukraine, a region that accounts for roughly 50% of sales of this business unit's wallcover products.

Composite Fibers operating income for the first nine months of 2015 decreased \$9.2 million to \$45.4 million. The decline in operating income was primarily related to lower selling prices and shipping volumes and \$6.6 million of unfavorable currency translation. These factors were partially offset by a \$4.7 million benefit from lower raw material and energy prices and \$2.5 million from improved operations.

On a year-over-year basis, Advanced Airlaid Materials net sales decreased \$33.2 million largely due to \$20.6 million of unfavorable foreign currency translation and a 6.1% decline in shipping volumes. These factors were partially offset by \$1.5 million of higher selling prices.

Advanced Airlaid Materials operating income for the first nine months of 2015 declined \$4.3 million compared to the same period a year-ago as the combined impact of softer market demand and related production downtime and \$1.5 million from the adverse impact of foreign currency translation more than offset the benefit of higher selling prices.

On a year-over-year basis, Specialty Papers net sales declined \$24.3 million, or 3.6% due to lower shipping volumes and \$6.4 million from lower selling.

This business unit's operating income totaled \$16.9 million for the first nine months of 2015 compared to \$23.0 million a year ago. The decline in operating income was due to lower selling prices and shipping volumes together with \$4.3 million of operating cost penalties primarily related

Edgar Filing: GLATFELTER P H CO - Form 10-Q

to the expanded scope of the annual maintenance outages. These unfavorable factors were partially offset by a \$9.3 million benefit from lower raw material and energy costs.

Energy and related sales decreased \$3.0 million in the comparison as severe weather conditions in 2014 resulted in higher selling prices for excess power and a boiler outage in the first quarter of 2015 reduced power sales.

We sell excess power generated by the Spring Grove, PA facility. The following table summarizes this activity for the first nine months of 2015 and 2014:

<i>In thousands</i>	Nine months ended		Change
	September 30		
	2015	2014	
Energy sales	\$ 4,375	\$ 10,714	\$ (6,339)
Costs to produce	(3,387)	(5,288)	1,901
Net	988	5,426	(4,438)
Renewable energy credits	2,948	1,486	1,462
Total	\$ 3,936	\$ 6,912	\$ (2,976)

Renewable energy credits (RECs) represent sales of certified credits earned related to burning renewable sources of energy such as black liquor and wood waste. We sell RECs into an illiquid market. The extent and value of future revenues from REC sales is dependent on many factors outside of management s control. Therefore, we may not be able to generate consistent additional sales of RECs in future periods.

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

Other and Unallocated The amount of net operating expenses not allocated to a business unit and reported as Other and Unallocated in our table of Business Unit Performance, totaled \$29.9 million in the first nine months of 2015 compared with \$20.0 million in the first nine months of 2014. Excluding the gains from sales of timberlands in the comparison, unallocated net operating expenses increased \$8.9 million primarily due to the \$10.0 million Fox River environmental matter charge and severance costs related to our workforce efficiency initiative partially offset by lower corporate spending.

Pension Expense The following table summarizes the amounts of pension expense recognized for the periods indicated:

<i>In thousands</i>	Nine months ended September 30		Change
	2015	2014	
<i>Recorded as:</i>			
Costs of products sold	\$ 5,247	\$ 4,957	\$ 290
SG&A expense	1,370	55	1,315
Total	\$ 6,617	\$ 5,012	\$ 1,605

The amount of pension expense recognized each year is dependent on various actuarial assumptions and certain other factors, including discount rates and the fair value of our pension assets. Pension expense for the full year of 2015 is expected to be approximately \$9.1 million compared with \$6.7 million in 2014. The increase reflects the higher amortization of deferred actuarial losses related to lower discount rates and mortality assumptions.

Income taxes For the first nine months of 2015, we recorded a provision for income taxes of \$4.1 million on pretax income of \$34.4 million. The comparable amounts in the first nine months of 2014 were income tax expense of \$13.4 million on \$63.1 million of pretax income. The amount of taxes recorded in 2014 included a \$1.0 million benefit from the release of tax reserves related to alternative fuel mixture credits earned in 2009, due to the lapse of the applicable statutes of limitation.

Foreign Currency We own and operate facilities in Canada, Germany, France, the United Kingdom and the Philippines. The functional currency of our Canadian operations is the U.S. dollar. However, in Germany and France it is the Euro, in the UK, it is the British Pound Sterling, and in the Philippines the functional currency is the Peso. On an annual basis, our euro denominated revenue exceeds euro expenses by approximately 120 million. With respect to the British Pound Sterling, Canadian dollar, and Philippine Peso, we have greater outflows than inflows of these currencies, although to a lesser degree. As a result, particularly with respect to the euro, we are exposed to changes in currency exchange rates and such changes could be significant. The translation of the results from international operations into U.S. dollars is subject to changes in foreign currency exchange rates.

The table below summarizes the translation impact on reported results that changes in currency exchange rates had on our non-U.S. based operations from the conversion of these operations results for the first nine months of 2015.

<i>In thousands</i>	Nine months ended September 30, 2015 Favorable (unfavorable)
Net sales	\$(82,693)
Costs of products sold	62,069
SG&A expenses	6,987
Income taxes and other	2,263
Net income	\$(11,375)

The above table only presents the financial reporting impact of foreign currency translations assuming currency exchange rates in 2015 were the same as 2014 before giving effect to foreign currency hedges. It does not present the impact of certain competitive advantages or disadvantages of operating or competing in multi-currency markets.

GLATFELTER

9.30.15 Form 10-Q

Table of Contents*Three months ended September 30, 2015 versus the three months ended September 30, 2014*

Overview For the third quarter of 2015, net income totaled \$13.5 million, or \$0.31 per diluted share, compared with \$30.4 million, or \$0.69 per diluted share, in the third quarter of 2014.

The following table sets forth summarized results of operations:

<i>In thousands, except per share</i>	Three months ended September 30	
	2015	2014
Net sales	\$ 419,960	\$ 465,092
Gross profit	59,908	80,513
Operating income	20,239	44,217
Net income	13,504	30,372
Earnings per diluted share	0.31	0.69

Adjusted earnings, a non-GAAP financial measure, is set forth in the following table for the third quarters of 2015 and 2014:

<i>In thousands, except per share</i>	After-tax amounts	Diluted EPS
2015		
Net income	\$ 13,504	\$ 0.31
Fox River environmental matter	6,222	0.14
Asset impairment charge	857	0.02
Workforce efficiency charges	211	
Acquisition and integration related costs	13	
Adjusted earnings (non-GAAP)	\$ 20,807	\$ 0.47
2014		
Net income	\$ 30,372	\$ 0.69
Asset impairment charge	2,356	0.05
Acquisition and integration related costs	115	
Timberland sales and related costs	(1,004)	(0.02)
Alternative fuel mixture/ Cellulosic biofuel credits	(1,032)	(0.02)
Adjusted earnings (non-GAAP)	\$ 30,807	\$ 0.70

9.30.15 Form 10-Q

Table of Contents**Sales and Costs of Products Sold**

<i>In thousands</i>	Three months ended September 30		Change
	2015	2014	
Net sales	\$ 419,960	\$ 465,092	\$ (45,132)
Energy and related sales, net	1,153	860	293
Total revenues	421,113	465,952	(44,839)
Costs of products sold	361,205	385,439	(24,234)
Gross profit	\$ 59,908	\$ 80,513	\$ (20,605)
Gross profit as a percent of Net sales	14.3%	17.3%	

The following table sets forth the contribution to consolidated net sales by each business unit:

<i>Percent of Total Business Unit</i>	Three months ended September 30	
	2015	2014
Composite Fibers	31.9%	33.2%
Advanced Airlaid Material	15.0	16.0
Specialty Papers	53.1	50.8
Total	100.0%	100.0%

Net sales totaled \$420.0 million in the third quarter of 2015 compared with \$465.1 million in the third quarter of 2014. The translation of non-U.S. dollar sales unfavorably impacted the year-over-year comparison by \$25.2 million reflecting the weaker Euro.

Net sales for Composite Fibers declined \$20.6 million, or 13.3%, primarily due to \$18.8 million of unfavorable currency translation and \$3.9 million from lower selling prices, partially offset by the inclusion of Spezialpapierfabrik Oberschmitt GmbH (SPO), which was acquired in the fourth quarter of 2014. Shipping volumes declined 3.0% due to a 23.2% decline in nonwoven wallcover.

Composite Fibers third-quarter 2015 operating income totaled \$14.1 million, a \$4.0 million decline compared to the year-ago period. The negative impact of lower selling prices and wallcover shipping volumes was partially offset by \$2.2 million of improved operations and \$1.2 million of lower raw material and energy costs. The change in foreign currency exchange rates negatively impacted results by \$1.3 million.

On a year-over-year basis, Advanced Airlaid Materials net sales decreased \$11.2 million largely due to \$6.4 million of unfavorable currency translation and a 5.8% decline in shipping volumes.

Third-quarter 2015 operating income declined \$0.7 million compared to the same quarter a year-ago primarily due to approximately \$1.7 million related to lower shipping volumes and downtime to align production with demand, partially offset by \$1.5 million of lower raw material and energy costs.

On a year-over-year basis, Specialty Papers net sales decreased \$13.4 million, or 5.7%, due to lower average selling prices totaling \$5.7 million and a decline in shipping volumes.

Specialty Papers third-quarter 2015 operating income totaled \$17.5 million, a \$10.2 million decrease in the year-over-year comparison primarily due to lower selling prices, \$3.1 million of market downtime and \$3.7 million from lower pulp production, partially offset by \$2.9 million of

Edgar Filing: GLATFELTER P H CO - Form 10-Q

lower raw material and energy costs.

We sell excess power generated by the Spring Grove, PA facility. The following table summarizes this activity for the third quarters of 2015 and 2014:

<i>In thousands</i>	Three months ended		Change
	September 30		
	2015	2014	
Energy sales	\$ 1,047	\$ 1,513	\$ (466)
Costs to produce	(1,131)	(1,268)	137
Net	(84)	245	(329)
Renewable energy credits	1,237	615	622
Total	\$ 1,153	\$ 860	\$ 293

Renewable energy credits (RECs) represent sales of certified credits earned related to burning renewable sources of energy such as black liquor and wood waste. We sell RECs into an illiquid market. The extent and value of future revenues from REC sales is dependent on many factors outside of management s control. Therefore, we may not be able to generate consistent additional sales of RECs in future periods.

- 35 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

Other and Unallocated The amount of net operating expenses not allocated to a business unit and reported as Other and Unallocated in our table of *Business Unit Performance*, totaled \$18.2 million in the third quarter of 2015 compared with \$9.1 million in the third quarter of 2014. Excluding the impact of sales of timberlands in the comparison, unallocated net operating expenses increased \$7.6 million primarily due to the \$10.0 million Fox River environmental matter charge partially offset by lower corporate spending.

Pension Expense The following table summarizes the amounts of pension expense recognized for the periods indicated:

<i>In thousands</i>	Three months ended		Change
	2015	September 30 2014	
<i>Recorded as:</i>			
Costs of products sold	\$ 1,752	\$ 1,650	\$ 102
SG&A expense	454	3	451
Total	\$ 2,206	\$ 1,653	\$ 553

Income taxes For the third quarter of 2015, we recorded a provision for income taxes of \$2.3 million on pretax income of \$15.8 million. The comparable amounts in the third quarter of 2014 were income tax expense of \$9.0 million on \$39.4 million of pretax income. In the third quarter of 2014, we recorded a \$1.0 million benefit from the release of tax reserves related to alternative fuel mixture credits earned in 2009, due to the lapse of the applicable statutes of limitation.

Foreign Currency The table below summarizes the translation impact on reported results that changes in currency exchange rates had on our non-U.S. based operations from the conversion of these operations results for the third quarter of 2015 compared to the third quarter of 2014:

<i>In thousands</i>	Three months ended September 30, 2015 Favorable (unfavorable)
Net sales	\$(25,198)
Costs of products sold	19,146
SG&A expenses	2,052
Income taxes and other	491
Net income	\$ (3,509)

The above table only presents the financial reporting impact of foreign currency translations assuming currency exchange rates in 2015 were the same as 2014 before giving effect to foreign currency hedges. It does not present the impact of certain competitive advantages or disadvantages of operating or competing in multi-currency markets.

LIQUIDITY AND CAPITAL RESOURCES

Our business is capital intensive and requires significant expenditures for new or enhanced equipment, to support our research and development efforts, for environmental compliance matters including, but not limited to, the Clean Air Act, and to support our business strategy. In addition, we have mandatory debt service requirements of both principal and interest. The following table summarizes cash flow information for each of the periods presented:

<i>In thousands</i>	September 30 2015	2014
---------------------	----------------------	------

Edgar Filing: GLATFELTER P H CO - Form 10-Q

Cash and cash equivalents at beginning of period	\$ 99,837	\$ 122,882
Cash provided (used) by		
Operating activities	70,523	21,380
Investing activities	(72,923)	(43,585)
Financing activities	(21,946)	(46,007)
Effect of exchange rate changes on cash	(1,826)	(1,015)
Net cash used	(26,172)	(69,227)
Cash and cash equivalents at end of period	\$ 73,665	\$ 53,655

At September 30, 2015, we had \$73.7 million in cash and cash equivalents held by both domestic and foreign subsidiaries. Although unremitted earnings of our foreign subsidiaries are deemed to be permanently reinvested, substantially all of the cash and cash equivalents is available for use domestically. In addition to our cash and cash equivalents, \$157.2 million is available under our revolving credit agreement which matures in March 2020.

Cash provided by operating activities totaled \$70.5 million in the first nine months of 2015 compared with \$21.4 million in the same period a year ago. The increase in cash from operations primarily reflects a decrease in cash used for working capital primarily related to lower inventory and improved payment terms with suppliers together with lower income tax payments partially offset by cash used for Fox River environmental remediation activities.

Net cash used by investing activities increased by \$29.3 million in the year-over-year comparison primarily due to capital expenditures largely related to environmental compliance projects. Capital expenditures during the first nine months of 2015 and 2014, include \$19.0 million and \$2.9 million, respectively, related to environmental compliance projects. Capital expenditures in 2015 are expected to be approximately \$105 million to \$115 million including approximately \$35 million for Specialty Papers compliance projects.

- 36 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

Net cash used by financing activities totaled \$21.9 million in the first nine months of 2015 compared with \$46.0 million in the same period of 2014. In 2014, we used \$30.7 million of cash to reduce amounts outstanding on our revolving credit facility compared with no changes in the first nine months of 2015.

At September 30, 2015, our net debt (defined as total debt less cash) totaled \$315.5 million compared to \$304.8 million at the end of 2014. The following table sets forth our outstanding long-term indebtedness:

<i>In thousands</i>	September 30 2015	December 31 2014
Revolving credit facility, due Mar. 2020	\$ 83,464	\$
Revolving credit facility, due Nov. 2016		90,555
5.375% Notes, due Oct. 2020	250,000	250,000
2.40% Term Loan, due Jun. 2022	10,803	12,155
2.05% Term Loan, due Mar. 2023	44,848	51,902
Total long-term debt	389,115	404,612
Less current portion	(7,580)	(5,734)
Long-term debt, net of current portion	\$ 381,535	\$ 398,878

Our revolving credit facility contains a number of customary compliance covenants, the most restrictive of which is a maximum leverage ratio of 3.5x. As of September 30, 2015, the leverage ratio, as calculated in accordance with the definition in our credit agreement, was 2.2x, within the limits set forth in our credit agreement. Based on our expectations of future results of operations and capital needs, we do not believe the debt covenants will impact our operations or limit our ability to undertake financings that may be necessary to meet our capital needs.

The 5.375% Notes contain cross default provisions that could result in all such notes becoming due and payable in the event of a failure to repay debt outstanding under the credit agreement at maturity, or a default under the credit agreement that accelerates the debt outstanding thereunder. As of September 30, 2015, we met all of the requirements of our debt covenants. The significant terms of the debt instruments are more fully discussed in Item 1 Financial Statements Note 12.

Our long-term debt includes two term loans with mandatory principal repayments that have used \$3.4 million of cash in the first nine months of 2015. Principal repayments will total approximately \$4.7 million and \$6.8 million, in 2015 and 2016, respectively.

Cash used for financing activities includes cash used for common stock dividends, and, with respect to the first nine months of 2014, stock repurchases. In February 2015, our Board of Directors authorized a 9% increase in our quarterly cash dividend. In the first nine months of 2015, we used \$15.2 million of cash for dividends on our common stock compared with \$13.9 million in the same period of 2014. The Board of Directors determines what, if any, dividends will be paid to our shareholders. Dividend payment decisions are based upon then-existing factors and conditions and, therefore, historical trends of dividend payments are not necessarily indicative of future payments.

On May 1, 2014, we announced that our Board of Directors approved a \$25 million increase to our share repurchase program and extended the expiration date to May 1, 2016. Under the revised program, we may repurchase up to \$50 million of our outstanding common stock of which \$33.4 million remains available as of September 30, 2015. No repurchases were made in the first nine months of 2015 and repurchases totaled \$12.2 million in the first nine months of 2014.

We are subject to various federal, state and local laws and regulations intended to protect the environment as well as human health and safety. At various times, we have incurred significant costs to comply with these regulations and we could incur additional costs as new regulations are developed or regulatory priorities change. We will incur material capital costs to comply with new air quality regulations including the U.S. EPA Best Available Retrofit Technology rule (BART; otherwise known as the Regional Haze Rule) and the Boiler Maximum Achievable Control Technology rule (Boiler MACT). These rules will require process modifications and/or installation of air pollution controls on boilers at two of our facilities. We have begun converting or replacing four coal-fired boilers to natural gas and upgrading site infrastructure to accommodate the new boilers, including connecting to gas pipelines. The total cost of these projects is estimated at \$85 million to \$90 million of which \$25.1 million has been spent to date. The balance of the costs will be incurred substantially over the next eighteen months. The amount of capital spending ultimately incurred may differ, and the difference could be material. Enactment of new environmental laws or regulations or changes in existing laws or regulations could significantly change our estimates.

Edgar Filing: GLATFELTER P H CO - Form 10-Q

As more fully discussed in Note 16 Commitments, Contingencies and Legal Proceedings, during the fourth quarter of 2015, we expect to spend approximately \$5 million to remediate a portion of the Lower Fox River in Wisconsin (the Fox River), an EPA Superfund site. It is conceivable we may need to fund a portion of the on-going costs beyond 2015. Although we are unable to determine with any degree of certainty the amount we may

- 37 -

GLATFELTER

9.30.15 Form 10-Q

Table of Contents

be required to fund for interim remediation work, such amounts could be significant. The ultimate allocation of such costs is the subject of extensive ongoing litigation amongst three potentially responsible parties. See Item 1 Financial Statements Note 16 for a summary of significant environmental matters.

We expect to meet all of our near- and longer-term cash needs from a combination of operating cash flow, cash and cash equivalents, our credit facility or other bank lines of credit and other long-term debt. However, as discussed in Item 1 Financial Statements Note 16, an unfavorable outcome of the Fox River matters could have a material adverse impact on our consolidated financial position, liquidity and/or results of operations.

Off-Balance-Sheet Arrangements As of September 30, 2015 and December 31, 2014, we had not entered into any off-balance-sheet arrangements. Financial derivative instruments, to which we are a party, and guarantees of indebtedness, which solely consist of obligations of subsidiaries and a partnership, are reflected in the condensed consolidated balance sheets included herein in Item 1 Financial Statements.

Outlook Composite Fibers shipping volumes and selling prices in the fourth quarter are expected to approximate the third quarter of 2015 levels. Raw material and energy prices are expected to be slightly higher than the third quarter.

Shipping volumes for Advanced AirLaid Materials in the fourth quarter of 2015 are expected to be down slightly compared with the third quarter. Average selling prices and raw material prices in the fourth quarter are expected to be in-line with the third quarter.

For Specialty Papers, we expect shipping volumes in the fourth quarter of 2015 to be in-line with the third quarter. Overall, selling prices are expected to decline slightly in the fourth quarter compared to the third quarter due to continued pressure on commodity products and input costs are expected to be in-line with the third quarter of 2015. We do not expect any market downtime in Specialty Papers in the fourth quarter.

GLATFELTER

9.30.15 Form 10-Q

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS**

<i>Dollars in thousands</i>	Year Ended December 31					September 30, 2015	
	2015	2016	2017	2018	2019	Carrying Value	Fair Value
Long-term debt							
Average principal outstanding							
At fixed interest rates	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000	\$ 253,908
At fixed interest rates	57,547	52,261	44,681	37,101	29,521	55,651	54,340
At variable interest rates	83,464	83,464	83,464	83,464	83,464	83,464	83,464
						\$ 389,115	\$ 391,712
Weighted-average interest rate							
On fixed rate debt	5.375%	5.375%	5.375%	5.375%	5.375%		
On fixed rate debt	2.12%	2.12%	2.12%	2.12%	2.12%		
On variable rate debt	1.50%	1.50%	1.50%	1.50%	1.50%		

The table above presents the average principal outstanding and related interest rates for the next five years for debt outstanding as of September 30, 2015. Fair values included herein have been determined based upon rates currently available to us for debt with similar terms and remaining maturities.

Our market risk exposure primarily results from changes in interest rates and currency exchange rates. At September 30, 2015, we had \$389.1 million of long-term debt, of which 21.5% was at variable interest rates. Variable-rate debt outstanding consists of borrowings under our revolving credit agreement that accrues interest based on LIBOR plus a margin. At September 30, 2015, the interest rate paid was approximately 1.50%. A hypothetical 100 basis point increase or decrease in the interest rate on variable rate debt would increase or decrease annual interest expense by \$0.8 million.

As part of our overall risk management practices, we enter into financial derivatives primarily designed to either i) hedge foreign currency risks associated with forecasted transactions – cash flow hedges; or ii) mitigate the impact that changes in currency exchange rates have on intercompany financing transactions and foreign currency denominated receivables and payables – foreign currency hedges. For a more complete discussion of this activity, refer to Item 1 – Financial Statements – Note 15.

We are subject to certain risks associated with changes in foreign currency exchange rates to the extent our operations are conducted in currencies other than the U.S. Dollar. Our euro denominated revenue exceeds euro expenses by approximately 120 million. With respect to the British Pound Sterling, Canadian dollar, and Philippine Peso, we have greater outflows than inflows of these currencies, although to a lesser degree. As a result, particularly with respect to the euro, we are exposed to changes in currency exchange rates and such changes have been and could continue to be significant.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures Our chief executive officer and our principal financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2015, have concluded that, as of the evaluation date, our disclosure controls and procedures are effective.

Changes in Internal Controls There were no changes in our internal control over financial reporting during the three months ended September 30, 2015, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.
