**KIRKLAND S, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Note 1 Basis of Presentation**

Kirkland s, Inc. (the Company ) is a specialty retailer of home décor and gifts with 370 stores in 35 states as of October 31, 2015. The condensed consolidated financial statements of the Company include the accounts of Kirkland s, Inc. and its wholly-owned subsidiaries, Kirkland s Stores, Inc., Kirkland s DC, Inc., Kirkland s Texas, LLC, and Kirklands.com, LLC. All intercompany accounts and transactions have been eliminated.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. These financial statements should be read in conjunction with the audited financial statements included in the Company s Annual Report on Form 10-K filed with the Securities and Exchange Commission on April 14, 2015.

It should be understood that accounting measurements at interim dates inherently involve greater reliance on estimates than those at fiscal year-end. In addition, because of seasonality factors, the results of the Company s operations for the 13-week and 39-week periods ended October 31, 2015 are not indicative of the results to be expected for any other interim period or for the entire fiscal year. The Company s fiscal year ends on the Saturday closest to January 31, resulting in years of either 52 or 53 weeks. All references to a fiscal year refer to the fiscal year ending on the Saturday closest to January 31 of the following year.

The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from the estimates and assumptions used.

Changes in estimates are recognized in the period when new information becomes available to management. Areas where the nature of the estimate makes it reasonably possible that actual results could materially differ from amounts estimated include, but are not limited to impairment assessments on long-lived assets, asset retirement obligations, inventory reserves, self-insurance reserves, income tax liabilities, stock-based compensation, employee bonus accruals, gift card breakage, sales return reserves, customer loyalty program accruals and contingent liabilities.

For the 39-week period ended October 31, 2015, the Company incurred approximately \$7.3 million of non-cash investing activities, due to purchases of property and equipment awaiting processing for payment. This amount was included in accounts payable at October 31, 2015, and was not material for the 39-week period ended November 1, 2014.

**Note 2 Income Taxes**

An estimate of the annual effective tax rate is used at each interim period based on the facts and circumstances available at that time, while the actual effective tax rate is calculated at year-end. For the 13-week periods ended October 31, 2015 and November 1, 2014, the Company recorded an income tax benefit of 71.4% of the loss before income taxes and an income tax expense of 36.0% of pre-tax income, respectively. For the 39-week periods ended

October 31, 2015 and November 1, 2014, the Company recorded an income tax benefit of 95.0% of the loss before income taxes and an income tax expense of 37.7% of pre-tax income, respectively. The tax benefit for the 13-week and 39-week periods ended October 31, 2015 reflects state employment and investment credits realized during the period.

**Note 3 Earnings Per Share**

Basic earnings per share is computed by dividing net income by the weighted average number of shares outstanding during each period presented, which excludes non-vested restricted stock units. Diluted earnings per share is computed by dividing net income by the weighted average number of shares outstanding plus the dilutive effect of stock equivalents outstanding during the applicable periods using the treasury stock method. Diluted earnings per share reflects the potential dilution that could occur if options to purchase stock were exercised into common stock and if outstanding grants of restricted stock were vested. Stock options and restricted stock units that were not included in the computation of diluted

---

**Table of Contents**

earnings per share, because to do so would have been antidilutive, were 1.3 million and 556,000 shares for the 13-week periods ended October 31, 2015 and November 1, 2014, respectively, and 1.3 million and 510,000 shares for the 39-week periods ended October 31, 2015 and November 1, 2014, respectively.

**Note 4 Commitments and Contingencies**

The Company is party to pending legal proceedings and claims. Although the outcome of such proceedings and claims cannot be determined with certainty, the Company's management is of the opinion that it is unlikely that these proceedings and any claims in excess of insurance coverage will have a material effect on the financial condition, operating results or cash flows of the Company.

**Note 5 Stock-Based Compensation**

The Company maintains equity incentive plans under which it may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units, or stock appreciation rights to employees, non-employee directors and consultants.

The Company granted 187,500 stock options and 107,000 restricted stock units during the 39-week period ended October 31, 2015. This compares to 182,500 stock options and 97,000 restricted stock units granted during the 39-week period ended November 1, 2014. Total stock-based compensation expense (a component of compensation and benefits) was \$830,000 for the 13-week period ended October 31, 2015, and \$2.9 million for the 39-week period ended October 31, 2015 compared to \$670,000 and \$2.1 million, respectively, for the comparable prior year periods. Included in the 39-week period ended October 31, 2015 is \$600,000 of stock-based compensation expense that resulted from the accelerated vesting of stock options and restricted stock units upon the retirement of the Company's former Chief Executive Officer. Compensation expense is recognized on a straight-line basis over the vesting periods of each grant. There have been no other material changes in the assumptions used to compute compensation expense during the current quarter.

**Note 6 Related Party Transactions**

In July 2009, the Company entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because its principal is the spouse of the Company's Vice President of Merchandising. During the 13-week periods ended October 31, 2015 and November 1, 2014, purchases from this vendor totaled approximately \$13.2 million, or 15.6% of total merchandise purchases, and \$9.4 million, or 13.0% of merchandise purchases, respectively. During the 39-week periods ended October 31, 2015 and November 1, 2014, purchases from this vendor totaled approximately \$28.4 million, or 14.2% of total merchandise purchases, and \$21.4 million, or 12.3% of merchandise purchases, respectively. Included in cost of sales for the 13-week periods ended October 31, 2015 and November 1, 2014 were \$7.7 million and \$5.8 million, respectively, related to this vendor. Included in cost of sales for the 39-week periods ended October 31, 2015 and November 1, 2014 were \$20.8 million and \$17.4 million, respectively, related to this vendor. Payable amounts outstanding to this vendor were approximately \$7.2 million and \$3.8 million as of October 31, 2015 and November 1, 2014, respectively. The Company's payable terms with this vendor are consistent with the terms offered by other vendors in the ordinary course of business.

**Note 7 Stock Repurchase Program**

On May 22, 2014, the Company announced that its Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$30 million of the Company's outstanding common stock from time to time

until May 2016. From the inception of the plan through October 31, 2015, the Company repurchased and retired approximately 523,000 shares of common stock at an aggregate cost of approximately \$10.7 million under this repurchase plan. As of October 31, 2015, the Company had \$19.3 million remaining under the Board of Directors current authorization to repurchase its common stock. Subsequent to October 31, 2015, the Company has repurchased and retired approximately 142,000 shares of common stock at an aggregate cost of \$2.4 million.

**Note 8 Dividend**

On May 21, 2015, the Company announced that its Board of Directors authorized a special cash dividend of \$1.50 per share on its common stock. The special dividend of \$26.0 million was paid on June 19, 2015 to stockholders of record as of the close of business on June 5, 2015.

**Note 9 New Accounting Pronouncement**

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. ASU 2014-09 also requires more detailed disclosures to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB approved a one-year deferral of ASU 2014-09. As a result of the deferral, the amendments in ASU 2014-09 will be effective for the Company at the beginning of its fiscal 2018 year. The Company is still evaluating the impact the adoption of ASU 2014-09 will have on its consolidated financial statements.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Forward Looking Statements**

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide an understanding of our financial condition, change in financial condition, cash flow, liquidity and results of operations. The following MD&A discussion should be read in conjunction with the condensed consolidated financial statements and notes to those statements that appear elsewhere in this Form 10-Q and in our Annual Report on Form 10-K, filed April 14, 2015. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed or referred to in the forward-looking statements. Factors that could cause or contribute to any differences include, but are not limited to, those discussed under the caption Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995 and under Part II, Item 1A Risk Factors.

**General**

We are a specialty retailer of home décor and gifts in the United States, operating 370 stores in 35 states as of October 31, 2015, as well as an e-Commerce enabled website, www.kirklands.com. Our stores present a broad selection of distinctive merchandise, including framed art, mirrors, wall décor, candles and related items, lamps, decorative accessories, accent furniture, textiles, garden-related accessories and artificial floral products. Our stores also offer an extensive assortment of holiday merchandise during seasonal periods as well as items carried throughout the year suitable for gift-giving. In addition, we use innovative design and packaging to market home décor items as gifts. We provide our predominantly female customers an engaging shopping experience characterized by a diverse, ever-changing merchandise selection reflecting current styles at prices which provide discernible value. This combination of ever-changing and stylish merchandise, value pricing and a stimulating store experience has led to our emergence as a leader in home décor and enabled us to develop a strong customer franchise.

During the 13-week period ended October 31, 2015, we opened 21 new stores and closed two stores. During the 39-week period ended October 31, 2015 we opened 31 new stores and closed five stores. The following table summarizes our stores and square footage under lease:

*Net sales.* Net sales increased 10.3% to \$129.2 million for the third fiscal quarter of 2015 compared to \$117.2 million for the prior year period. The impact of net new store growth contributed an increase to net sales of \$10.0 million. An increase in comparable store sales, including e-Commerce sales, of 1.8%, contributed an increase over the prior year quarter of \$2.0 million. Comparable store sales, including e-Commerce sales, increased 6.3% in the prior year period. For the third fiscal quarter of 2015, the e-Commerce business was up 38.1% versus the prior year period, while comparable store sales at brick-and-mortar stores decreased 0.7%. For brick-and-mortar stores, the comparable store sales decrease was primarily due a small decrease in the average ticket with flat transactions. The slight decrease in average ticket was due to a small decrease in both items sold per transaction and average unit retail price. The flat transactions resulted from an increase in conversion, offset by a decline in traffic. The e-Commerce business benefitted from an increase in website traffic coupled with an increase in conversion, slightly offset by a decrease in average order size. The merchandise categories contributing most to the comparable store sales increase were holiday, housewares and decorative accessories.

*Gross profit.* Gross profit as a percentage of net sales decreased from 39.0% in the third quarter of 2014 to 37.2% in the third quarter of 2015. The overall decrease in gross profit margin was primarily due to lower merchandise margins and higher store and central distribution costs partially offset by lower outbound freight costs. Merchandise margin is calculated as net sales minus product cost of sales (including inbound freight), inventory shrinkage, and loyalty reward program charges. Merchandise margin excludes outbound freight, store occupancy and central distribution costs. Merchandise margin decreased from 56.3% in the third quarter of fiscal 2014 to 55.2% in the third quarter of fiscal 2015. The decrease in merchandise margin was primarily due to promotional markdowns to stimulate traffic and manage inventory levels as well as higher inbound freight charges required to process containers through our distribution center during peak season. Store occupancy costs as a percentage of net sales increased due in part to the timing of stores that opened late in the quarter and early November as well as some deleverage due to negative brick-and-mortar comparable store sales. Our central distribution costs increased as a percentage of net sales due to the addition of a 300,000 square-foot fulfillment facility in Jackson, Tennessee and increased labor expenses due to peak season challenges. Outbound freight costs decreased as a percentage of sales, primarily due to a shift in our e-Commerce business to more in-store-pickup sales which carry a lower fulfillment cost for the Company.

*Compensation and benefits.* Compensation and benefits expenses at the store level increased as a percentage of net sales for the third quarter of fiscal 2015 as compared to the third quarter of 2014 due to an increase in new store activity and heavier freight deliveries. At the corporate level, the compensation and benefits ratio was lower in the third quarter of 2015 as compared to the prior year period.

*Other operating expenses.* Other operating expenses increased as a percentage of net sales versus the prior year period. At the store level, advertising expense decreased in dollars and as a percentage of net sales compared to the prior year period. At the corporate level, professional and legal fees increased in dollars and as a percent of net sales which was partially offset by corporate office rent which decreased in dollars and as a percentage of sales compared to the prior year period.

*Depreciation.* The increase in depreciation as a percentage of sales reflects an increase in capital expenditures in recent fiscal years and the implementation of major technology upgrades.

*Income tax expense.* We recorded an income tax benefit of approximately \$674,000, or 71.4% of the loss before income taxes during the third quarter of fiscal 2015, compared to a tax expense of approximately \$710,000, or 36.0% of pre-tax income, in the prior year quarter. The tax benefit for the 13-week period ended October 31, 2015 reflects state employment and investment credits realized during the period.

*Net income (loss) and earnings (loss) per share.* As a result of the foregoing, we reported a net loss of \$270,000, or \$0.02 per diluted share, for the third quarter of fiscal 2015 as compared to net income of \$1.3 million, or \$0.07 per diluted share, for the third quarter of fiscal 2014.

*Net sales.* Net sales increased 10.3% to \$362.8 million for the first three quarters of fiscal 2015 compared to \$328.9 million for the prior year period. The impact of net new store growth contributed an increase to net sales of \$22.2 million. An increase in comparable store sales, including e-commerce sales, of 3.7%, contributed an increase over the prior year period of \$11.7 million. Comparable store sales increased 5.0% in the prior year period. For the first three quarters of 2015, the e-Commerce business was up 38.8% versus the prior year period, accompanied by an increase in comparable store sales at brick-and-mortar stores of 1.6%. For brick-and-mortar stores, the comparable store sales increase was primarily due to an increase in the number of transactions, while average ticket was down slightly. The increase in transactions resulted from an increase in conversion partially offset by a decrease in traffic. The lower average ticket reflected a slight decrease in average retail selling price, partially offset by a slight increase in items sold per transaction. The e-Commerce business benefitted from an increase in website traffic, slightly offset by a decrease in average order size. The merchandise categories contributing most to the comparable store sales increase were holiday, fragrance and accessories and housewares.

*Gross profit.* Gross profit as a percentage of net sales decreased from 38.4% in the first three quarters of 2014 to 38.1% in the first three quarters of 2015. The overall decrease in gross profit margin was primarily due to lower merchandise margins and higher store and central distribution expenses partially offset by lower outbound freight costs. Merchandise margin is calculated as net sales minus product cost of sales (including inbound freight), inventory shrinkage, and loyalty reward program charges. Merchandise margin excludes outbound freight, store occupancy and central distribution costs. Merchandise margins decreased from 55.5% in the first three quarters of fiscal 2014 to

55.2% in the first three quarters of fiscal 2015 primarily due to a year-over-year increase in markdowns and promotional activity. Our central distribution costs increased as a percent of sales due to the addition of a 300,000 square-foot fulfillment facility in Jackson, Tennessee and increased labor expenses. Store occupancy costs increased slightly as a percentage of net sales. Outbound freight costs decreased as a percentage of sales, primarily due to a shift in our e-Commerce business to more in-store-pickup sales which carry a lower fulfillment cost for the Company.

*Compensation and benefits.* Compensation and benefits expenses for stores increased in dollars as a result of an increase in store count, and slightly increased as a percent of net sales for the first three quarters of fiscal 2015 as compared to the first three quarters of 2014. At the corporate level, the compensation and benefits ratio was higher in the first three quarters of fiscal 2015 as compared to the prior year period primarily due to increased head count and \$600,000 of stock-based compensation expense that resulted from the accelerated vesting of stock options and restricted stock units upon the retirement of our former Chief Executive Officer.

*Other operating expenses.* Other operating expenses increased in dollars and as a percentage of net sales versus the prior year period. At the corporate level, higher professional fees drove much of the increase. At the store level, advertising expense decreased in dollars and as a percent of sales compared to the prior year period. This was partially offset by an isolated data processing issue involving loss of credit card data preventing us from collecting credit card funds for one specific day during the second quarter.

*Depreciation.* The increase in depreciation as a percentage of sales reflects an increase in capital expenditures in recent fiscal years and the implementation of major technology upgrades.

**Table of Contents**

*Income tax expense.* We recorded income tax benefit of approximately \$549,000, or 95.0% of the loss before income taxes during the first three quarters of fiscal 2015, versus income tax expense of approximately \$1.4 million, or 37.7% of pre-tax income, in the prior year period. The tax benefit for the 39-week period ended October 31, 2015 reflects state employment and investment credits realized during the period.

*Net income (loss) and earnings (loss) per share.* As a result of the foregoing, we reported a net loss of \$29,000, or \$(0.00) per diluted share, for the first three quarters of fiscal 2015 as compared to net income of \$2.3 million, or \$0.13 per diluted share, for the first three quarters of fiscal 2014.

**Liquidity and Capital Resources**

Our principal capital requirements are for working capital and capital expenditures. Working capital consists mainly of merchandise inventories offset by accounts payable, which typically reach their peak by the early portion of the fourth quarter of each fiscal year. Capital expenditures primarily relate to new store openings; existing store expansions, remodels or relocations; and purchases of equipment or information technology assets for our stores, distribution facilities and corporate headquarters. Historically, we have funded our working capital and capital expenditure requirements with internally generated cash and borrowings under our credit facility.

*Cash flows from operating activities.* Net cash used in operating activities was approximately \$8.6 million for the first three quarters of fiscal 2015, compared to net cash used in operating activities of approximately \$4.5 million for the first three quarters of 2014. Cash flows from operating activities depend heavily on operating performance and changes in working capital. The change in the amount of cash used in operations as compared to the prior year period was primarily the result of a decline in operating performance combined with a decrease in accrued expenses.

*Cash flows from investing activities.* Net cash used in investing activities for the first three quarters of fiscal 2015 consisted of \$25.7 million in capital expenditures as compared to \$24.0 million in capital expenditures for the prior year period. The capital expenditures in the current year period related to the opening of 31 new stores during the period, investments in our existing stores, improvements to our supply chain, as well as investments in our omni-channel systems. Capital expenditures in the prior year period related primarily to the opening of 23 new stores and information technology assets. We expect that capital expenditures for all of fiscal 2015 will be approximately \$32 to \$34 million, primarily to fund the leasehold improvements of new stores, supply chain investments, improvements in our information technology infrastructure and multi-channel capabilities, and maintain our investments in existing stores.

*Cash flows from financing activities.* Net cash used in financing activities was approximately \$32.5 million for the first three quarters of fiscal 2015, and was primarily related to a special cash dividend of \$26.0 million and the repurchase and retirement of common stock. Net cash used in financing activities was approximately \$3.9 million for the first three quarters of fiscal 2014, and was primarily related to the repurchase and retirement of common stock.

*Revolving credit facility.* On August 19, 2011, we entered into an Amended and Restated Credit Agreement (the Credit Agreement ) with Bank of America, N.A. as administrative agent and collateral agent, and the lenders named therein (the Lenders ), replacing our prior credit agreement entered into in 2004. The Credit Agreement increased our senior secured revolving credit facility from \$45 million to \$50 million and extended the maturity date to August 2016. Borrowings under the facility bear interest at an annual rate equal to LIBOR plus a margin ranging from 175 to 225 basis points with no LIBOR floor. Additionally, a fee of 0.375% per annum is assessed on the unused portion of the facility.

Pursuant to the Credit Agreement, borrowings are subject to certain customary conditions and contain customary events of default, including, without limitation, failure to make payments, a cross-default to certain other debt, breaches of covenants, breaches of representations and warranties, a change in control, certain monetary judgments and bankruptcy and ERISA events. Upon any such event of default, the principal amount of any unpaid loans and all other obligations under the Credit Agreement may be declared immediately due and payable. The maximum availability under the facility is limited by a borrowing base formula which consists of a percentage of eligible inventory and eligible credit card receivables, less reserves.

Also on August 19, 2011, we entered into an Amended and Restated Security Agreement with our Lenders. Pursuant to the Security Agreement, we pledged and granted to the administrative agent, for the benefit of itself and the secured parties specified therein, a lien on and security interest in all of the rights, title and interest in substantially all of our assets to secure the payment and performance of the obligations under the Credit Agreement.

## **Table of Contents**

As of October 31, 2015, we were in compliance with the covenants in the facility and there were no outstanding borrowings under the credit facility, with approximately \$50.0 million available for borrowing.

At October 31, 2015, our balance of cash and cash equivalents was approximately \$32.4 million. We do not anticipate any borrowings under the credit facility during fiscal 2015. We believe that the combination of our cash balances and cash flow from operations will be sufficient to fund our planned capital expenditures and working capital requirements for at least the next twelve months.

*Share Repurchase Authorization.* On May 22, 2014, we announced that our Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$30 million of our outstanding common stock until May 2016. From inception of the plan through October 31, 2015, we repurchased and retired approximately 523,000 shares of common stock at an aggregate cost of approximately \$10.7 million under this repurchase plan. As of October 31, 2015, we had \$19.3 million remaining under our Board of Directors' current authorization to repurchase our common stock. Subsequent to October 31, 2015, we have repurchased and retired approximately 142,000 shares of common stock at an aggregate cost of \$2.4 million.

*Special Cash Dividend.* On May 21, 2015, the Company announced that its Board of Directors authorized a special cash dividend of \$1.50 per share on its common stock. The special dividend of \$26.0 million was paid on June 19, 2015 to stockholders of record as of the close of business on June 5, 2015.

## **Related Party Transactions**

In July 2009, we entered into an agreement with a related party vendor to purchase merchandise inventory. The vendor is considered a related party for financial reporting purposes because its principal is the spouse of our Vice President of Merchandising. During the 13-week periods ended October 31, 2015 and November 1, 2014, purchases from this vendor totaled approximately \$13.2 million, or 15.6% of total merchandise purchases, and \$9.4 million, or 13.0% of merchandise purchases, respectively. During the 39-week periods ended October 31, 2015 and November 1, 2014, purchases from this vendor totaled approximately \$28.4 million, or 14.2% of total merchandise purchases, and \$24.1 million, or 12.3% of merchandise purchases, respectively. Included in cost of sales for the 13-week periods ended October 31, 2015 and November 1, 2014 were \$7.7 million and \$5.8 million, respectively, related to this vendor. Included in cost of sales for the 39-week periods ended October 31, 2015 and November 1, 2014 were \$20.8 million and \$17.4 million, respectively, related to this vendor. Payable amounts outstanding to this vendor were approximately \$7.2 million and \$3.8 million as of October 31, 2015 and November 1, 2014, respectively. Our payable terms with this vendor are consistent with the terms offered by other vendors in the ordinary course of business.

## **Significant Contractual Obligations and Commercial Commitments**

### *Construction Commitments*

The Company had commitments for new store construction projects totaling approximately \$629,000 at October 31, 2015.

## **Critical Accounting Policies and Estimates**

There have been no significant changes to our critical accounting policies during fiscal 2015. Refer to our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, for a summary of our critical accounting policies.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company does not utilize financial instruments for trading or other speculative purposes, nor does it utilize leveraged financial instruments. There have been no material changes in the market risk factors from those disclosed in the Company's Form 10-K for the year ended January 31, 2015.

#### **ITEM 4. CONTROLS AND PROCEDURES**

(a) *Evaluation of disclosure controls and procedures.* Both our President and Chief Executive Officer and Vice President and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15(d)-(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) have concluded that as of October 31, 2015 our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Change in internal controls over financial reporting.* There have been no changes in internal controls over financial reporting identified in connection with the foregoing evaluation that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

The Company is party to pending legal proceedings and claims. Although the outcome of such proceedings and claims cannot be determined with certainty, the Company's management is of the opinion that it is unlikely that these proceedings and claims in excess of insurance coverage will have a material effect on the financial condition, operating results or cash flows of the Company.

**ITEM 1A. RISK FACTORS**

In addition to factors set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations' Cautionary Statement for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995, in Part I Item 2 of this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

Shares of common stock repurchased by the Company during the third quarter of fiscal 2015, ending October 31, 2015, were as follows:

**Issuer Repurchases of Equity Securities**

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program</b>	<b>Maximum Dollar Value of Shares that May Yet Be Purchased Under the Program (in 000s)</b>
August 2, 2015 to August 29, 2015	16,103	\$ 24.09	16,103	\$ 22,296
August 30, 2015 to October 3, 2015	76,587	\$ 22.33	76,587	\$ 20,586
October 4, 2015 to October 31, 2015	55,817	\$ 22.75	55,817	\$ 19,316
Total	148,507	\$ 22.68	148,507	\$ 19,316

On May 22, 2014, the Company announced that its Board of Directors authorized a stock repurchase plan providing for the purchase in the aggregate of up to \$30 million of the Company's outstanding common stock from time to time until May 2016. Through October 31, 2015, the Company repurchased and retired a total of approximately 523,000 shares at an aggregate cost of \$10.7 million under this repurchase plan. Subsequent to October 31, 2015, the Company has repurchased and retired approximately 142,000 shares of common stock at an aggregate cost of \$2.4 million.
