Item 1.01 Entry into a Material Definitive Agreement.

On February 10, 2016, Mast Therapeutics, Inc. (the Company) entered into an Underwriting Agreement (the Underwriting Agreement) with Roth Capital Partners, LLC, as the representative of the underwriters identified therein (collectively, the Underwriters), pursuant to which the Company agreed to issue and sell to the Underwriters in connection with a public offering (the Offering) up to 29,090,910 shares (the Shares) of the Company's common stock, par value \$0.001 per share (Common Stock), and warrants to purchase up to an aggregate of 29,090,910 shares of Common Stock (the Warrants). The Shares and Warrants will be sold in units (Units) with each Unit consisting of (i) one share of Common Stock and (ii) one Warrant to purchase one share of Common Stock. The purchase price per Unit is \$0.275. The Units are immediately separable and the Shares and the Warrants included in the Units will be issued separately.

Each Warrant will have an initial exercise price of \$0.42 per share, will be exercisable six months and one day after the date of issuance, and will expire five (5) years from the date of issuance.

The Company expects to receive gross proceeds from the Offering of \$8 million and net proceeds of approximately \$7.3 million assuming no exercise of the Warrants and after deducting underwriting discounts and commissions and estimated offering expenses.

The Underwriting Agreement contains representations, warranties and covenants, including indemnification obligations, that are customary for transactions of this type. The Company expects to issue and deliver the securities sold in the Offering to the Underwriters against payment therefore on or about February 16, 2016, subject to the satisfaction of customary closing conditions.

In connection with the closing of the Offering, the Company will enter into a Warrant Agreement (the Warrant Agreement) with American Stock Transfer & Trust Company, LLC (the Transfer Agent), pursuant to which the Company engaged the Transfer Agent to act as registrar and transfer agent for the Warrants. The terms and conditions of the Warrants are set forth in the Warrant Agreement and the form of Warrant Certificate is attached as Exhibit A thereto. The Warrants initially will be issued in book-entry form. The Warrants initially will be represented by one or more permanent global certificates which will be deposited with a custodian for, and registered in the name of, a nominee of The Depository Trust Company, New York, New York (DTC), as depository.

The exercise price and the number of shares purchasable upon exercise of the Warrants are subject to adjustment upon certain corporate events, including reclassifications, stock dividends and stock splits. In the event of an extraordinary transaction, as described in the Warrants and generally including any merger with or into another entity, sale of all or substantially all of the Company's assets, tender offer or exchange offer, or reclassification of Common Stock, the Company or any successor entity will pay at the holder's option, exercisable at any time concurrently with or within 30 days after the consummation of the extraordinary transaction, an amount of cash equal to the value of the Warrant as determined in accordance with the Black Scholes option pricing model and the terms of the Warrants. The terms of the Warrants prohibit a holder from exercising its Warrants if doing so would result in such holder (together with its affiliates and other persons acting as a group) beneficially owning more than 9.99% of the outstanding shares of Common Stock after giving effect to such exercise, provided that, at the election of a holder and notice to the Company, such beneficial ownership limitation shall be 4.99% of the outstanding shares of Common Stock after giving effect to such exercise. The Warrants will not be listed on the NYSE MKT, any other national securities exchange or any other nationally recognized trading system, and no trading market for the Warrants is expected to develop.

The holders must surrender payment in cash of the aggregate exercise price of the shares being acquired upon exercise of the Warrants. If, however, a registration statement relating to the issuance of the shares underlying the Warrants is not effective or available, the Warrants may be exercised on a cashless basis, where the holder receives the net value

of the Warrant in shares of Common Stock. No fractional shares of Common Stock will be issued in connection with the exercise of a warrant. In lieu of a fractional share, the Company will pay the holder an amount in cash equal to the fractional amount multiplied by the exercise price.

The Offering is being made pursuant to the Company's Registration Statement on Form S-3 (Registration No. 333-202960), which was declared effective by the Securities and Exchange Commission (the "SEC") on August 19, 2015, and a prospectus supplement and accompanying base prospectus that forms a part of the Registration Statement.

The Underwriting Agreement, form of Warrant Agreement, and form of Warrant Certificate are filed herewith as Exhibits 1.1, 4.1, and 4.2, respectively, and are incorporated herein by reference. The foregoing description of the Underwriting Agreement, Warrant Agreement and Warrants does not purport to be complete and is qualified in its entirety by reference to such exhibits.

The legal opinion, including the related consent, of DLA Piper LLP (US) is filed as Exhibit 5.1 to this Current Report.

This Current Report contains forward-looking statements that involve risk and uncertainties, such as statements related to the anticipated closing of the Offering and the amount of net proceeds expected from the Offering. The risks and uncertainties involved include the Company's ability to satisfy certain conditions to closing on a timely basis or at all, as well as other risks detailed from time to time in the Company's SEC filings.

Item 7.01 Regulation FD Disclosure.

Copies of these press releases are furnished as Exhibits 99.1 and 99.2 hereto, respectively.
