EXECUTIVE SUMMARY

We have structured our corporate governance program to promote the long-term interests of shareholders, strengthen the accountability of our Board of Directors (Board) and management and help build public trust in the Company. Highlights include:

Separation of the chairman and chief executive officer roles

Appointment of a lead independent director

Independent directors serve as chairs of our Audit, Governance & Nominating and Compensation Committees

Regular executive sessions of independent directors

Annual Board and committee self-evaluations

2015 Financial Performance

Our year was driven by solid performance, improved efficiency and the successful acquisition of Absarokee Bancorporation, Inc., a \$73 million financial institution operating in markets immediately adjacent to our current footprint. In 2015 we saw strong loan demand throughout our markets and our loan growth was well-balanced across all of our commercial and consumer portfolios, with total loan growth of 7.1% year-over-year. Our deposit base remained stable at just over \$7 billion.

During 2015, we reported earnings of \$86.8 million, or \$1.90 per diluted share. Earnings levels were driven by loan growth, stable credit quality and continued improvement in our efficiency ratio. During 2015, we recorded \$795 thousand of acquisition-related expenses and \$5.0 million of legal and settlement expenses, all of which we consider to be non-core. Exclusive of non-core expenses and net investment securities gains, our 2015 earnings were \$90.3 million, or \$1.98 per diluted share, a 1.1% increase over 2014 earnings of \$89.3 million, or \$1.98 per diluted share. Core return on average equity was 9.75% and our core return on average assets was 1.06%.

We have consistently reported net income to shareholders for the last 28 years, and have paid over 21 years of consecutive quarterly dividends. During 2015, we increased quarterly dividends by 25% to \$0.20 per common share and announced an additional 10% increase in quarterly dividends to \$0.22 per common share during first quarter

2016. Our total shareholder return was 7.62% in 2015, as compared to 0.5% in 2014.

PROPOSAL TWO - RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

RSM US, LLP (formerly McGladrey LLP) was appointed by the Audit Committee of the Board as our independent registered public accounting firm for the year ending December 31, 2016. While the Audit Committee is directly responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm, the Audit Committee and the Board are submitting the selection of RSM US, LLP to our shareholders for ratification as a matter of good corporate governance. No representatives of RSM US, LLP are

expected to be present at the annual meeting.

The Audit Committee is not required to take any action as a result of the outcome of the vote on this proposal. However, if our shareholders do not ratify the selection of RSM US, LLP as our independent registered public accounting firm, the Audit Committee will consider whether to retain RSM US, LLP or to select another independent registered public accounting firm. Furthermore, even if the selection is ratified, the Audit Committee in its discretion may appoint a different independent registered public accounting firm at any time during the year if it determines that such a change is in the best interest of the Company and our shareholders.

Proxies solicited hereby will be voted for the proposal unless a vote against the proposal or abstention is specifically indicated. A majority of the shares entitled to vote and present in person or represented by proxy are needed to ratify the appointment of the independent registered public accounting firm. This means that the appointment of RSM US, LLP as the independent registered public accounting firm for the Company will be ratified if the votes cast by shareholders in favor of ratification exceed those votes cast in opposition of ratification.

**The Board recommends a vote FOR ratifying the appointment of RSM US, LLP as
our independent registered public accounting firm.**

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding the beneficial ownership of our common stock as of March 18, 2016 for (i) each of our directors and director nominees, (ii) each of the executive officers named in the summary compensation table, (iii) all directors and executive officers as a group, and (iv) beneficial owners of more than 5% of a class of our common stock.

We have determined beneficial ownership in accordance with the rules of the Securities and Exchange Commission (SEC). Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Percentage of class beneficially owned as of March 18, 2016 is based on 20,999,392 shares of Class A common stock and 23,700,619 shares of Class B common stock outstanding. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed shares of each class of common stock subject to options held by that person that were exercisable on or within 60 days of March 18, 2016 to be outstanding. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. In computing the number of shares of Class A common stock beneficially owned by a person and the percentage of Class A common stock ownership of that person, we assumed the conversion of any Class B common stock beneficially owned by such person into Class A common stock on a share-for-share basis.

Certain of our directors and greater than 5% shareholders, who own collectively and in the aggregate more than 50% of our outstanding common stock, are members of a group, as that term is defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended (the Exchange Act). This group is comprised of the following individuals and certain entities controlled by these individuals: James R. Scott, Randall I. Scott, Thomas W. Scott, John M. Heyneman, Jr. and Homer A. Scott, Jr.

Unless otherwise noted below, the address for each director, director nominee, named executive officer and beneficial owner of more than 5% of a class of our common stock listed in the table below is: c/o First Interstate BancSystem, Inc., 401 North 31st Street, Billings, Montana 59101.

CORPORATE GOVERNANCE

Our Board of Directors is accountable to our shareholders to build long-term financial performance and value and to assure that we operate consistently with shareholder values and strategic vision. The Board's responsibilities include:

Identifying organizational values and vision on behalf of our shareholders

Hiring and evaluating our chief executive officer

Ensuring management succession

Providing guidance, counsel and direction to management in formulating and evaluating operating strategies and plans

Monitoring our performance against established criteria

Ensuring prudence and adherence to ethical practices

Ensuring compliance with federal and state law

Ensuring that full and fair disclosure is provided to shareholders, regulators and other constituents

Overseeing risk management

Establishing policies for board operations

Board Structure and Composition

The size of our Board must be at least five and not more than eighteen, in accordance with our bylaws. We currently have sixteen directors divided into three groups with staggered three-year terms.

The Board does not have a formal written policy with regard to the consideration of diversity in identifying director nominees. Our governance standards, however, require the Board's Governance & Nominating Committee to review the qualifications of candidates to the Board, of which diversity is one of the criteria. This assessment includes the consideration of personal and professional ethics and integrity, including a candidate's reputation for integrity in the business community; diversity among the existing Board members, including racial and ethnic background and gender; specific business experience and competence, including an assessment of whether the candidate has experience in, and possesses an understanding of, business issues applicable to the success of the banking industry and whether the candidate has served in policy-making roles in business, government, education or other areas that are relevant to the Company's regional activities; financial acumen, including whether the candidate, through education or

experience, has an understanding of financial matters and the preparation and analysis of financial statements; professional and personal accomplishments, including involvement in civic and charitable activities; educational background; and whether the candidate has expressed a willingness to devote sufficient time to carrying out his or her duties and responsibilities effectively and is committed to service on the Board.

Controlled Company Exemptions

We qualify as a controlled company under the NASDAQ Marketplace Rules because members of the Scott family control in excess of 79% of the voting power of our outstanding common stock. As a controlled company, we are eligible for certain exemptions from the NASDAQ corporate governance requirements. Specifically, we are not required to have a majority of independent directors or a compensation committee composed entirely of independent directors.

Director Independence

The Board evaluates the independence of each director, including nominees for election to the Board, in accordance with applicable laws and regulations, the NASDAQ Marketplace Rules and our corporate governance guidelines. As a controlled company under the NASDAQ Marketplace Rules, we are exempt from the requirement to have a majority of independent directors on our Board. However, our governance guidelines require that a majority of our board members, including all members of the Audit Committee, meet director independence standards under the NASDAQ Marketplace Rules.

The Board has determined that the following ten directors are independent in accordance with such standards:

Steven J. Corning
Dana L. Crandall
David H. Crum
William B. Ebzery
Charles E. Hart, M.D.

David L. Jahnke
Ross E. Leckie
Michael J. Sullivan
Teresa A. Taylor
Theodore H. Williams

The Board considers all relevant facts and circumstances in determining independence, including, among other things, making an affirmative determination that the director has no material relationship with the Company directly or as an officer, shareholder, or partner of an organization that has a material relationship with the Company. In its determination of independence, the Board considered that the Company conducts banking and credit transactions in the ordinary course of business with certain independent directors. See [Certain Relationships and Related Transactions](#) below. The Company also purchases electrical services from an entity owned by Mr. Crum and employs in non-executive roles, family members of certain directors. None of these transactions or relationships were deemed by the Board to impair the independence of any of these directors.

Separate Chairman and Chief Executive Officer Roles

Our Board has chosen to separate the roles of Chairman of the Board and Chief Executive Officer, and it has appointed James R. Scott as Chairman of the Board. We believe that separating the roles of Chief Executive Officer and Chairman of the Board best serves the current needs of our Company and our shareholders. Our Chairman manages the overall Board function, and his current responsibilities include presiding at meetings of the Board; establishing the agenda for each Board meeting in consultation with the lead independent director, our Chief Executive Officer and other senior management as appropriate; helping to establish, coordinate and review the criteria and methods for evaluating, at least annually, the effectiveness of the Board and its committees; and exercising such other powers and duties as set forth in our bylaws and as may from time to time be assigned to him by the Board. The separation allows Mr. Scott to focus on management of Board matters and allows our Chief Executive Officer to focus on the general supervision, direction, and control of our business affairs, and ensure that all orders and resolutions of the Board are carried into effect. Additionally, we believe the separation of roles ensures the objectivity of the Board in its management oversight role, specifically with respect to reviewing and assessing our Chief Executive Officer's performance.

Lead Independent Director

The lead independent director, a position currently held by David L. Jahnke, serves as a liaison between the Chairman, management and independent directors as well as between the Scott family and independent directors; calls and presides over meetings of the independent directors no less than semi-annually and more often as appropriate; and, if requested by major shareholders or Scott family members, is available for consultation and direct communication.

Board Meetings and Attendance

Directors are expected to attend all meetings of the Board and each committee on which they serve, as well as our Annual Meeting of Shareholders. In 2015, our Board, as then constituted, met six times, with each serving director attending at least 75% of the total number of meetings of the Board. All of our continuing directors attended our 2015 Annual Meeting of Shareholders.

Director Nomination, Selection and Qualifications

The Governance & Nominating Committee is responsible for identifying and evaluating director nominees and recommending to the Board a slate of nominees for election at each Annual Meeting of Shareholders. When formulating its recommendations for director nominees, the Governance & Nominating Committee considers recommendations offered by our Chief Executive Officer, our shareholders and any outside advisors the Governance & Nominating Committee may retain. The Scott family, through a family council, recommends Scott family members to the Governance & Nominating Committee for consideration as candidates for Board membership. All current year nominees, with the exception of James R. Scott, Jr., are standing for re-election to the board. James R. Scott, Jr. was recommended for Board membership by the Scott family council. All candidates for Board membership, including those recommended by the Scott family council, are evaluated by the Governance & Nominating Committee on the basis of broad experience, financial acumen, professional and personal accomplishments, educational background, wisdom, integrity, ability to make independent analytical inquiries, understanding of our business environment and willingness to devote adequate time to board duties. The qualifications, attributes and skills of each nominee, together with their business experience led to the conclusion that each nominee is qualified to serve as a director of the Company.

The Scott family does not approve candidates for board membership prior to their nomination by the Governance & Nominating committee and there are no arrangements or understandings between any candidate and the Scott family that require disclosure pursuant to Item 401(a) of Regulation S-K.

We do not have a formal policy concerning shareholder recommendations of candidates for Board membership. The Board views that such a formal policy is not necessary given the procedures described above and our willingness to consider candidates recommended by shareholders. Shareholders may recommend candidates by writing to our corporate secretary at our headquarters, 401 N. 31st Street, Billings, Montana 59101, giving the candidate's name, contact information, biographical data and qualifications. A written statement from the candidate consenting to be named as a candidate and, if nominated and elected, to serve as a director should accompany any such recommendation. See Shareholder Proposals and Shareholder Communications with the Board contained herein.

Board Committees and Related Matters

The Board of Directors has six standing committees: Governance & Nominating, Compensation, Audit, Credit, Executive, and Technology & Business Process Improvement. In addition to these committees, our Chairman of the Board may from time to time designate and appoint, on a temporary basis, one or more directors to assist in the form of a limited or special assignment in the performance or discharge of any powers and duties of the Board or any committee thereof.

The Board makes committee and committee chair assignments annually at its meeting immediately following the Annual Meeting of Shareholders, although further changes may be made from time to time as deemed appropriate by the Board. Each committee has a Board-approved charter, which is reviewed annually by the respective committee. Recommended changes, if any, are submitted to the Board for approval. Each committee may retain and compensate consultants or other advisors as necessary for it to carry out its duties. A copy of the charters for each standing committee can be found on the Company's website at www.FIBK.com by selecting Governance Documents.

Compensation Committee Interlock and Insider Participation: No members of the Compensation Committee who served during 2015 were officers or employees of the Company or any of its subsidiaries during the year, were formerly Company officers or had any relationship otherwise requiring disclosure as a compensation committee interlock.

The Compensation Committee has overall responsibility for reviewing and approving corporate goals relevant to compensation for executive officers and evaluating the effectiveness of our compensation practices in achieving our strategic objectives, encouraging behaviors consistent with our values and aligning performance objectives consistent with our vision. The Compensation Committee has delegated authority to our Chief Executive Officer to make awards to employees who are not Section 16 Officers.

Compensation Consultant. The Compensation Committee has retained the services of Pearl Meyer & Partners, (PM&P), a compensation consulting firm, to assist with its executive compensation review and to provide competitive market data. A consultant from PM&P generally attends the Compensation Committee meetings at which executive officer compensation is discussed and provides information, research and analysis pertaining to executive compensation and updates on market trends as requested by the Compensation Committee.

In connection with its engagement of PM&P, the Compensation Committee considered various factors bearing upon PM&P's independence including, but not limited to, the amount of fees received by PM&P from the Company, PM&P's policies and procedures designed to prevent conflicts of interest, and the existence of any business or personal relationship that could impact PM&P's independence. After reviewing these and other factors, the Compensation Committee determined that PM&P was independent and that its engagement did not present any conflicts of interest. PM&P does not provide executive compensation services to the Company.

The Compensation Committee sets compensation levels based on the skills, experience and achievements of each executive officer,

taking into account market analysis and input provided by PM&P and the compensation recommendations of our Chief Executive Officer, except with respect to his own position. The Compensation Committee believes that input from both PM&P and our Chief Executive Officer provides useful information and points of view to assist the Compensation Committee in determining the appropriate compensation.

Board's Role in Risk Oversight

It is the responsibility of the Chief Executive Officer to fulfill the Board's expectation of a strong risk management culture throughout the organization. It is the responsibility of the Chief Risk Officer to ensure an appropriate risk management framework is implemented to identify, assess, and manage our exposure to risk. The Board and its committees play an important role in overseeing executive management's performance of their responsibilities relating to risk management. In general, this oversight includes working with executive management to determine an appropriate risk management culture, monitoring the amounts and types of risk taken in executing our business strategy and evaluating the effectiveness of risk management processes against the policies and procedures established to control those risks. We have adopted a risk management oversight structure designed to ensure that all significant risks are actively monitored by the entire Board or one of its committees. Furthermore, given the importance of the Bank's operations to us, additional risk management oversight is provided by the Bank's Board of Directors, members of which include certain of our directors.

In most cases, our respective Board committees are responsible for the oversight of specific risks as outlined in each of their respective charters. For example, the Credit Committee's risk oversight responsibilities include oversight of the annual credit plan, lending policies, credit trends, the allowance for loan loss policy, and high risk portfolios and concentrations. In addition to its oversight of all aspects of our annual independent audit and the preparation of our financial statements, the Audit Committee has been delegated responsibility for oversight of risks associated with our internal controls, compliance with applicable laws and regulations, monitoring the implementation of our code of conduct and overseeing responses to reports of examination. The Compensation Committee has been delegated responsibility for oversight of our compensation programs, including evaluating whether any of these programs contain features that promote excessive risk-taking by management and other employees, either individually or as a group. The Executive Committee oversees our capital positions and capital management activities to ensure compliance with applicable regulatory requirements and to ensure that our capital levels are a source of financial strength. The Governance & Nominating Committee has been delegated responsibility for establishing and reviewing the adequacy of our code of conduct and ethics, reviewing and approving related party transactions, developing criteria and qualifications for board membership, considering, recommending, and recruiting candidates to fill new or vacant positions on the Board, and ensuring an effective and efficient system of governance is in place. The Technology & Business Process Improvement Committee has been delegated responsibility for ensuring adequate processes are in place to protect our data.

In addition to oversight of risk management by the Board and its committees, the Bank's board of directors and its committees have been delegated the responsibility for overseeing management of the Bank's lending activities, liquidity and capital position, asset quality, interest rate risk and investment strategies. The chairman of the Bank's board communicates relevant information with respect to these activities to the full Board.

The Board's committees carry out their responsibilities by requesting and obtaining reports and other information from management with respect to relevant risk areas. In addition to our committee structure, our entire Board periodically receives reports and information about key risks and enterprise risk management from the chief risk officer.

Audit Committee Pre-Approval Policies and Procedures

After we have retained our independent registered public accounting firm, following approval by the Audit Committee, advance approval for audit and audit-related services is not required. Although pre-approval is not required for these services, the Audit Committee has adopted a policy of approving such services either in advance or after the fact. The Audit Committee has also adopted a policy that requires advance approval of all non-audit or audit-related services performed by our independent registered public accounting firm when fees are expected to exceed \$15,000. These policies are consistent with the Audit Committee charter. The Audit Committee has delegated to the Audit Committee Chairman, Ross E. Leckie, or any two other members of the Audit Committee, authority to approve services, subject to ratification by the Audit Committee at its next committee meeting.

Audit Committee Report

Report of the Audit Committee of the Board of Directors

March 16, 2016

To the Board of Directors of First Interstate BancSystem, Inc.:

The Audit Committee (Committee) operates under a charter approved by the Board of Directors (Board) that specifies the scope of the Committee's responsibilities and how they are carried out. The Board has determined that all members of the Committee are independent based upon the standards adopted by the Board, which standards incorporate the independence requirements under applicable laws and regulations.

Management is responsible for the Company's systems of internal controls and the financial reporting process. RSM US, LLP, the Company's independent registered public accounting firm (independent auditors), is responsible for the integrated audit of the consolidated financial statements and internal controls over financial reporting. The Company's internal auditors are responsible for preparing an annual audit plan and conducting internal audits under the control of the Chief Audit Executive, who is accountable to the Committee.

The Committee's responsibility is to monitor and oversee these processes and procedures.

The Committee relies, without independent verification, on the information provided to it and on the representations made by management regarding the effectiveness of internal control over financial reporting, and that such financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The Committee also relies on the opinions of the independent auditors on the consolidated financial statements and on the effectiveness of internal control over financial reporting. The Committee's oversight does not provide assurance that management's and the auditor's opinions and representations are correct.

The Committee reviewed and discussed the financial statements as of and for the year ended December 31, 2015 with management, the internal auditors and the independent auditors. The Committee's review of and discussions about the financial statements included discussions about the quality, not just the acceptability, of the accounting principles used, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee also discussed with the independent auditors all communications required by the standards of the Public Company Accounting Oversight Board (PCAOB) and has received the written disclosures required by the PCAOB concerning independence. The Committee discussed with the independent auditors any relationships that might have an impact on their objectivity and independence and reviewed and approved the amount of fees paid for audit and audit-related services.

Based on the above-mentioned reviews and discussions, and subject to the limitations on its role and responsibilities described above and in the Committee charter, on February 29, 2016, the Committee recommended to the Board that the audited financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the SEC.

Shareholder Communications with the Board

We have not, to date, developed a formal process for shareholder communications with the Board. We believe our current informal process, in which any communication sent to the Board either generally or in care of the chief executive officer, corporate secretary or other corporate officer or director is forwarded to all members of the Board, has adequately served the Board's and the shareholders' needs.

The purposes of the code of ethics are as follows:

- to oversee adherence to such code.

Employees may submit concerns or complaints regarding ethical issues on a confidential basis by means of a toll-free telephone hotline or the use of an internet-based reporting system. 2015 Financial Performance

First Interstate's year was driven by solid performance, improved efficiency and the successful acquisition of Absarokee Bancorporation, Inc., a \$73 million financial institution operating in markets immediately adjacent to our current footprint. In 2015 we saw strong loan demand throughout our markets and our loan growth was well-balanced across all of our commercial and consumer portfolios, with total loan growth of 7.1% year-over-year. Our deposit base remained stable at just over \$7 billion.

During 2015, we reported earnings of \$86.8 million, or \$1.90 per diluted share. Earnings levels were driven by loan growth, stable credit quality and continued improvement in our efficiency ratio. During 2015, we recorded \$795 thousand of acquisition-related expenses and \$5.0 million of legal and settlement expenses, all of which we consider to be non-core. Exclusive of non-core expenses and net investment securities gains, our 2015 earnings were \$90.3 million, or \$1.98 per diluted share, a 1.1% increase over 2014 earnings of \$89.3 million, or \$1.98 per diluted share. Core return on average equity was 9.75% and our core return on average assets was 1.06%.

We have consistently reported net income to shareholders for the last 28 years, and have paid over 21 years of consecutive quarterly dividends. During 2015, we increased quarterly dividends by 25% to \$0.20 per common share and announced an additional 10% increase in quarterly dividends to \$0.22 per common share during first quarter 2016. Our total shareholder return was 7.62% in 2015, as compared to 0.5% in 2014.

Three-year financial metrics are shown in the tables below. Financial metrics in the tables below are presented exclusive of non-core expenses and net investment securities gains.

Elements of Total Compensation

Summary of average target Named Executive Officer compensation as of December 31, 2015

We have three primary elements of compensation: base salary, annual short-term incentive and long-term incentive

Base Salary

Competitive fixed base of cash compensation
 Amount based on individual factors such as scope of responsibility, experience and strategic impact
 Approximately 55% of total compensation

Annual Short-Term Incentive (STI)
Cash Award

Based on individual and Company performance; not guaranteed
 Aligned with Company financial and growth objectives

Award opportunities established at threshold, target and maximum values
Approximately 22% of total compensation

Long-Term Incentive (LTI)

Performance-Based Restricted Stock (PSA)

and Time-Based Restricted Stock (RSA)

Emphasis on long-term Company performance compared to peers
Objective to retain and engage executive officers
Approximately 23% of total compensation

To promote a culture that aligns the interests of management with those of our shareholders, our 2015 executive compensation program focused on an appropriate mix of fixed and variable compensation as illustrated in the charts below.

The 2015 Average Pay Mix for Named Executive Officers, excluding our Chief Executive Officer, appears more heavily weighted toward fixed pay because Mr. Gottwals and Mr. Cerkovnik did not receive variable short-term incentives during 2015. Had Mr. Gottwals and Mr. Cerkovnik received short-term incentive pay-outs at adjusted targeted amounts, the Named Executive Officer 2015 Average Pay Mix would have been 58% fixed and 42% variable, with 14% of the variable in the form of short-term incentives and 28% in the form of long-term incentives.

Factors Considered in Determining Executive Compensation

Compensation Consultant and Management

The Compensation Committee approves our compensation structure, policy and programs to ensure we have in place appropriate executive officer incentives and employee benefits. Outside members of the Compensation Committee (those members meet both the definition of a non-employee director, as that term is defined for purposes of Rule 16b-3 under the Exchange Act, and an outside director, as that term is defined for purposes of Section 162(m) of the Code) annually review and determine the salary, short-term incentives and long-term equity incentives awarded to our Chief Executive Officer, approve all executive officers' compensation, and approve the total dollar value of equity awards for all other officers, taking into consideration non-binding recommendations from non-outside members, market analysis, input by the Committee's independent compensation consultant and the recommendations of our Chief Executive Officer, except with respect to his own position.

Role of Compensation Consultants/Peer Group Market Analysis

We use comparative executive officer compensation data publicly disclosed by a peer group of public companies in addition to compensation survey data to evaluate the competitiveness of our executive officer compensation and to guide the compensation for newly hired executive officers. During 2015, and extending through 2016, the compensation committee engaged the services of Pearl Meyer & Partners, (PM&P), a compensation consulting firm, to assist with our executive compensation review and to provide competitive market data. PM&P performed a comprehensive review of our executive compensation in 2015 by obtaining proxy data based on PM&P's recommended peer group, which includes banking organizations with asset size, geography and operational characteristics similar to ours. The peer group, which did not change from the previous year, was composed of the following banks:

BancFirst Corporation	IberiaBank Corporation
BancorpSouth, Inc.	International Bancshares Corporation
Banner Corporation	National Penn Bancshares
Chemical Financial Corporation	NBT Bancorp
Columbia Banking System, Inc.	Old National Bancorp
F.N.B. Corporation	Park National Corporation
First Financial Bancorp	Renasant Corporation
First Merchants Corporation	Trustmark Corporation
First Midwest Bancorp, Inc.	United Bankshares
Glacier Bancorp, Inc.	United Community Banks, Inc.
Heartland Financial USA, Inc.	WesBanco, Inc.

The compensation committee exercises its business judgment and discretion in determining executive compensation and generally targets market competitive (50th percentile) base pay, incentives and total cash compensation within the peer group. The compensation committee also takes into consideration data from salary surveys conducted by the American Bankers Association, McLagan, Mercer, PM&P and Towers Watson in determining executive compensation.

Short-Term Incentives

Our executive officers are eligible for annual cash-based short-term incentives under the 2015 Equity Incentive Plan. The Compensation Committee sets the value of the short-term incentive award as a percentage of an executive's base salary. Varying short-term incentive award percentages reflect the Compensation Committee's belief that an executive officer's scope of work, responsibilities and performance all be considered when awarding incentives. Award opportunities are established at threshold, target and maximum levels. The maximum level of each metric is capped at 150% of target. The pay-out percentage will be interpolated on a linear basis, except that the pay-out percentage will equal 0% for a ranking below the minimum of 50% of target. The 2015 short-term incentive plan awards for the Named Executive Officers were based on individual performance and Company performance, which was measured by core net income, core efficiency ratio and growth in customer accounts. Performance measures were aligned with the operating objectives of the Company's business. Short-term incentives payouts in for the Company in 2015 were 69.51% of target.

Long-Term Incentives

We believe long-term equity incentive compensation encourages employees to focus on our long-term performance. Long-term incentives in the form of equity compensation also provides an opportunity for executive officers and certain designated key employees to increase their equity ownership in the Company, further aligning their interests with those of our shareholders.

In 2015, long-term incentives awarded to the Named Executive Officers included an equal mix of performance vested and time vested restricted stock. The chief executive officer and chief financial officer were awarded long-term incentives equal to 50% of their base salary, and the remaining Named Executive Officers received long-term incentives equal to 35% of their base salaries. The value of the long-term incentive awards to our officers, including the Named Executive Officers, is based primarily on the individual's ability to influence the Company's long-term growth and profitability.

Time vested restricted stock awards have a three-year graded vesting period. Performance vested restricted stock awards can range from 0% to 150% of target based on performance and is determined by multiplying the target number of performance vested restricted shares by an adjustment percentage based on the three-year return on average assets, three-year return on average equity and the three-year total shareholder return average of our results relative to a peer group comprised of the SNL Financial index of bank holding companies with total assets between \$4.0 billion and \$12.0 billion (SNL Index). The adjustment percentage will be interpolated on a linear basis, except that the adjustment percentage will equal 0% for a ranking below the 35th percentile. The measurement date for 2015 performance vested restricted stock awards is September 30, 2017, using the previous 12 quarters.

Vesting is as follows:

Percentile Ranking	Adjustment Percentage
Below 35th percentile	0%
35th to < 41st percentile	50%
41st to < 51st percentile	75%
51st to < 61st percentile	100%
61st to < 76th percentile	125%
76th percentile or higher	150%

All awards under our equity compensation plan are based on the closing price of the underlying common stock as quoted on NASDAQ Stock Market for the last market trading day prior to the date of the award. Dollar values of the annual awards of long-term incentives to executives have historically been approved at the compensation committee's regularly scheduled meeting in January with the date of the awards specified at that time.

In conjunction with his appointment as chief executive officer effective September 23, 2015, Mr. Riley was awarded 10,818 shares of time vested restricted stock. In conjunction with her appointment as chief financial officer effective September 23, 2015, Ms. Mutch was awarded 1,803 shares of time vested restricted stock.

During 2015, certain performance vested restricted shares awarded to executive officers in 2013 vested at 83.33% based upon achievement of pre-defined performance objectives. During 2015, Mr. Garding vested in 4,355 performance vested restricted shares, Mr. Guenthner vested in 1,320 performance vested restricted shares and Mr. Cerkovnik vested in 562 performance vested restricted shares.

Comprehensive Benefits Package

We provide a competitive benefits package to all full-time employees, including the Named Executive Officers, that includes health and welfare benefits, such as medical, dental, vision care, disability insurance and life insurance benefits, and a 401(k) savings plan. We also provide a profit sharing plan for all non-temporary employees under which contributions are made as authorized by our Board. Participants vest in profit sharing amounts after three years of service.

We provide a non-qualified deferred compensation plan under which eligible participants may defer a portion of their base salary or short-term incentives subject to certain maximums as set forth by the plan administrator. Additionally, we make discretionary contributions on behalf of the executive officer participants for 401(k) plan matching contributions and profit sharing contributions in excess of Code limitations. Other contributions on behalf of a participant may be made at the discretion of our Board.

We have obtained life insurance policies covering selected officers of our banking subsidiary, First Interstate Bank, including certain of our Named Executive Officers. Under these policies, we receive benefits payable upon death of the insured. An endorsement split dollar agreement or survivor income benefit agreement has been executed with each of the insureds whereby a portion of the death benefit or a lump-sum survivor benefit is payable to the insured's designated beneficiary if the participant is employed by us at the time of death.

Perquisites

Perquisites offered to the Named Executive Officers may include payment of social club dues and the use of a company automobile.

Severance and Change-in-Control Benefits

We provide severance pay and other benefits to executive officers, including the Named Executive Officers, whose employment is terminated, including through involuntary termination by us without cause and, in some cases, voluntary termination by the executive for good reason. These arrangements provide security of transition income and benefit replacements that allow such executives to focus on our prospective business priorities that create value for shareholders. We believe the level of severance and benefits provided by these arrangements is consistent with the practices of our peers and are necessary to attract and retain key employees. Potential payments and benefits available under these arrangements are discussed further under Potential Payments upon Termination or Change of Control. Other than Mr. Riley, our Named Executive Officers are not entitled to any payment resulting from a change in control.

Other Matters

Tax Considerations

Section 162(m) of the Code generally disallows an income tax deduction to public companies for annual compensation in excess of \$1 million paid to the chief executive officer and the three other most highly compensated named executive officers (excluding the chief financial officer). Compensation that qualifies as performance-based or satisfies another exception is excluded for purposes of calculating the amount of compensation subject to the \$1 million limit. The Compensation Committee considers tax and accounting consequences in developing and implementing our executive compensation program and believes that compensation paid under our management incentive plans is generally fully deductible for federal income tax purposes.

Securities Trading Policy

Our insider trading policy prohibits our directors and employees from trading in our securities during certain designated blackout periods and otherwise while they are aware of material non-public information, and from engaging in hedging transactions or short sales and trading in puts and calls with respect to our securities. The policy also discourages holding our securities in a margin account or pledging our securities as collateral for a loan.

Clawback Provisions

In 2011, based on the Compensation Committee's recommendation, the Board approved a clawback policy for all Section 16 reporting officers, including the Named Executive Officers. The clawback policy authorizes the Board to recoup all performance-based compensation paid during the years affected by a financial restatement or executive misconduct. Based upon the facts and circumstances surrounding the restatement, the Board may also direct the Company to cancel any equity-based awards granted to the executives during the applicable time period and recoup any gains realized during the time period with respect to equity-based awards.

Stock Ownership Guidelines

In order to further align the interests of the employees with the interests of the Company, our Board approved a stock ownership guideline policy whereby each executive officer is expected to acquire and maintain ownership of our common stock equal in value to a specified multiple of the executive officer's base salary.

The policy recommends the following stock holdings for our Named Executive Officers:

Stock Ownership Guideline

Chief executive officer

Five (5) times base salary

Named executive officers (excluding chief executive officer)

Three (3) times base salary

Stock holdings are measured at the end of each year using the year's closing stock price. Each Named Executive Officer is expected to meet the ownership guidelines by the later of January 1, 2017 or five years from the date he or she became a named executive officer. While the Named Executive Officers are not required to meet the

recommended level of holding until January 1, 2017 at the earliest, all but three recently appointed Named Executive Officers have met the recommended levels of stock ownership.

Equity Granting Practices

The Board of Directors, based on the recommendation of the Compensation Committee, adopted the 2015 Equity Incentive Plan pursuant to which the compensation committee (or a subcommittee thereof) approves equity awards to certain officers, including the Named Executive Officers. Awards are granted to advance the interests of our shareholders by enhancing our ability to attract, retain and motivate employees and directors who are expected to make important contributions to us by providing them with both equity ownership opportunities and performance-based incentives intended to align their interests with those of our shareholders. The Compensation Committee has delegated authority to the Company's chief executive officer, subject to certain terms and limitations as established by the Committee, to make awards to employees who are not Section 16 officers. For additional information regarding our equity compensation plans, see [Equity Compensation Plans](#).

Results of Shareholder Advisory Approval of Named Executive Officer Compensation

At the 2015 Annual Meeting of Shareholders, shareholders were asked to approve, on an advisory basis, the Named Executive Officer compensation for 2014 as reported in our 2015 proxy statement. This say-on-pay proposal was approved by over 96% of the shares present and entitled to vote. The Compensation Committee considered the results of the 2015 advisory vote along with shareholder input and other factors discussed in this Compensation Discussion and Analysis and concluded that no changes to our compensation policies and practices were warranted in response to the shareholder advisory vote.

Risk Assessment of Compensation Programs

The Compensation Committee designs our compensation programs to encourage appropriate risk taking while discouraging behavior that may result in unnecessary or excessive risk. In this regard, the following elements have been incorporated in our compensation programs for executive officers:

Use of multiple metrics in annual incentive plan and use of two long-term incentive vehicles for executive officers

Each short-term incentive award metric capped at 150%

Performance-based share awards capped at 150%

Time-based share awards vest ratably over three years

Emphasis on long-term and performance-based compensation

Formal clawback policies applicable to both cash and equity compensation

Alignment of interests of our executive officers with the long-term interests of our shareholders through stock ownership guidelines that call for significant share ownership

The Compensation Committee periodically reviews with management an assessment of whether risks arising from the Company's compensation policies and practices for all employees are reasonably likely to have a material adverse effect on the Company, as well as the means by which any potential risks may be mitigated, such as through governance and oversight policies. Based on its most recent assessment, the Compensation Committee concluded that our compensation policies and practices for all employees do not create risks that are reasonably likely to have a material adverse effect on the Company.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement and be incorporated by reference into the Company's 2015 Form 10-K.

Equity Compensation Plans

The Company has equity awards outstanding under three stock-based compensation plans; the 2015 Equity Incentive Plan (the 2015 Plan), the 2006 Equity Compensation Plan, as amended and restated, (the 2006 Plan) and the 2001 Stock Option Plan. These plans were primarily established to enhance the Company's ability to attract, retain and motivate employees.

The 2015 Plan, approved by the Company's shareholders in May 2015, was established to provide us with flexibility to select from various equity-based performance compensation methods, and to be able to address changing accounting and tax rules and corporate governance practices by optimally utilizing performance based compensation. The 2015 Plan did not increase the number of shares of common stock available for awards under the 2006 Plan.

The 2006 Plan, approved by the Company's shareholders in May 2006 and May 2014, was established to consolidate into one plan the benefits available under the 2001 Stock Option Plan and all other then existing share-based award plans (collectively with the 2006 Plan, the Previous Plans). The Previous Plans continue with respect to awards made prior to June 2015. All equity compensation awards granted subsequent to March 29, 2010 are for shares of our Class A common stock. All awards granted prior to March 29, 2010 are for shares of our Class B common stock.

The 2015 Plan contains the following important features:

The maximum number of shares of our Class A common stock reserved for issuance under the 2015 Plan was 2,000,000, which was approximately 9.2% of our previously-existing Class A common stock outstanding at the time of shareholder approval.

The 2015 Plan prohibits the repricing of awards without shareholder approval.

The 2015 Plan prohibits the recycling of shares.

Awards under the 2015 Plan are subject to broad discretion by the Compensation Committee administering the plan.

All awards under the 2015 Plan are based on the closing price of the underlying common stock as quoted on NASDAQ Stock Market for the last market trading day prior to the date of the award.

The following terms apply to equity awards granted for each of the last three years:

Stock options - three-year graded vesting period, with a term of no more than 10 years;

Time-restricted awards - three-year graded vesting period; and

Performance-restricted awards - cliff vesting as of December 31st of the third year following the year of the award, based on achievement of specified performance conditions.

2015 Non-Qualified Deferred Compensation

The Company has a non-qualified deferred compensation plan (the Deferred Compensation Plan) established for the benefit of a select group of management and highly compensated employees, including Named Executive Officers. Under the terms of our Deferred Compensation Plan, eligible employees, as determined by our Board or Compensation Committee, may defer a portion of base salary or short-term incentives subject to certain maximums as set forth by the plan administrator. Deferral elections are made by eligible executives during the last quarter of each year for amounts to be earned in the following year. We make discretionary contributions to the Deferred Compensation Plan on behalf of the executive officer participants for 401(k) plan matching contributions and profit sharing contributions in excess of Code limitations. Other contributions on behalf of a participant may be made at the discretion of our Board.

The deferral account of each participant is adjusted by investment earnings or losses based upon the performance of the underlying investments selected by the participant from among alternatives selected by the plan administrator. Benefits under the Deferred Compensation Plan are generally not paid until the beginning of the year

following the participant's retirement or termination from the Company. Benefits can be received either as a lump sum payment or in annual installments based on the executive's election made at least one year prior to retirement. The distribution elections are all made in accordance with Section 409A.

The following table shows the contributions, earnings and aggregate balance of total deferrals by our Named Executive Officers as of December 31, 2015.

(2) The amounts in Registrant Contributions in Last Fiscal Year column are included as other compensation for each of the Named Executive Officers in the summary compensation table in the year the contribution was earned.

2015 Other Compensation

We provide our Named Executive Officers with other compensation that the Compensation Committee believes is reasonable and consistent with the overall compensation program to better enable us to attract and retain superior employees for key positions. The compensation committee annually reviews the levels of other compensation provided to Named Executive Officers.

The Named Executive Officers participate in the following plans and programs along with health and group life and disability insurance. Additional benefits offered to the Named Executive Officers may include some or all of the following:

- individual life insurance, as described below under **Endorsement Split Dollar and Survivor Income Benefits** ;
- payment of social club dues;
- dividends on unvested restricted stock; and
- use of a company automobile.

Endorsement Split Dollar and Survivor Income Benefits

We obtained a life insurance policy covering selected officers of First Interstate Bank. Under this policy, we receive all benefits payable upon death of the insured. An endorsement split dollar agreement has been executed with each of the insureds whereby \$100,000 of the policy death benefit is payable to designated beneficiaries if the participant is employed by us at the time of death. Upon termination of employment, the policy remains in place and 100% of the policy death benefit is payable to the Company. Mr. Garding was covered under this type of endorsement split dollar agreement until his retirement. Mr. Huston was also covered under this type of endorsement split dollar agreement until his resignation.

We also obtained additional life insurance policies on selected officers of First Interstate Bank. Under these policies, we receive all benefits payable upon death of the insured. A survivor income agreement was executed with each of the insured officers whereby a survivor benefit of \$150,000 is payable to designated beneficiaries if the participant is employed by us at the time of death. We have entered into this type of survivor income agreement with Mr. Riley and Mr. Guenther.

Retirement and Related Plan

We maintain a profit sharing plan for all non-temporary employees. Contributions are made as authorized by the Board. Participants vest after three years of service. In addition, employees are permitted to defer a portion of their compensation into our profit sharing plan under a 401(k) feature, and we make limited matching contributions with respect to such deferrals.

Chief Executive Officer Total Compensation

The outside members of the Compensation Committee reviewed all components of the chief executive officer's total compensation package. Mr. Riley replaced Mr. Garding as the Company's President and Chief Executive Officer upon his September 23, 2015 retirement. The compensation paid to Mr. Riley and Mr. Garding during each of their tenure as chief executive officer was determined to be reasonable based on the review of our peers' chief executive officer total compensation data. Mr. Riley's and Mr. Garding's compensation packages were larger than those granted to our other executives in recognition of the increased levels of responsibility and performance required of our chief executive officer.

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals unless certain conditions are met. We believe that compensation paid under the management incentive plans is generally fully deductible for federal income tax purposes.

Employment Agreements

Upon his appointment as President and Chief Executive Officer, the Company entered into an employment agreement with Mr. Riley. Under the terms of the employment agreement, Mr. Riley is entitled to annual base compensation of \$525,000, the one-time award of 10,818 shares of the Company's time-restricted Class A common stock vesting one-third on each of the first, second and third anniversaries of the grant date and additional benefits as are customarily offered to the Company's executives, including paid time off, health insurance, pension, 401(k) and profit sharing plans or benefits, use of a company car and a social club membership.

Mr. Riley's employment agreement provides for the establishment of a non-qualified defined contribution supplemental executive retirement plan (SERP), which became effective on January 1, 2016. The SERP provides for annual year-end contributions equal to 20% of Mr. Riley's base salary and performance-contingent contributions of up to an additional 20% of base salary dependent upon achievement of established performance goals as determined by the Compensation Committee. Both annual contributions and performance-contingent contributions to the SERP are 0% vested until the fourth anniversary of the date of establishment, at which time the balance will become 50% vested. The SERP will vest 10% per year thereafter and become fully vested on the ninth anniversary of the date of establishment. The SERP is adjusted for investment earnings or losses based upon the performance of the underlying investments selected by Mr. Riley from among alternatives selected by the plan administrator.

Potential Payments Upon Termination or Change of Control

The amount of compensation payable to the Named Executive Officers upon voluntary termination, retirement, involuntary not-for-cause termination, termination following a change of control and in the event of disability or death of the executives is explained below. The amounts shown assume that such termination was effective as of December 31, 2015 and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the Named Executive Officers upon their termination. The actual amounts to be paid out can only be determined at the time of separation.

Payments Made Upon Termination

Regardless of the manner in which a Named Executive Officer's employment is terminated, he or she is entitled to receive amounts earned during his term of employment. Such amounts include:

- salary;
- grants and awards received under our equity plans, subject to the vesting and other terms applicable to such grants and awards;
- amounts contributed and vested under our profit sharing plan and deferred compensation plan; and
- unused paid time off.

In its discretion, the Board, or the Chief Executive Officer (except with regard to any payments made on his behalf) may authorize payment of additional separation amounts for the Named Executive Officers. The Board may also accelerate the vesting of any unexercisable stock options or restricted stock awards outstanding at the time of termination. The amounts regarding applicable salaries, stock options, restricted stock awards, short-term incentives and deferred compensation for the most recent fiscal year ended December 31, 2015 are contained in the various tables included above.

Severance Payments

Except for the benefits listed under the heading "Payments Made Upon Termination" above, the Named Executive Officers are not entitled to any other severance benefits.

Payments Made Upon Retirement

In the event of retirement, the Named Executive Officers would be entitled to the benefits listed under the heading **Payments Made Upon Termination** above.

Payments Made Upon Death

In the event of death, in addition to the benefits listed under the heading **Payments Made Upon Termination** above, the estates or other beneficiaries of the Named Executive Officers are entitled to receive benefits under our group life insurance plan equal to the lesser of (i) 2.5 times their respective base salary or (ii) \$300,000. For all Named Executive Officers, the applicable amount would be \$300,000.

An additional \$150,000 of survivor income benefit pursuant to life insurance policies covering selected officers of First Interstate Bank is available to the beneficiaries of Mr. Riley and Mr. Guenthner should death occur while they are employed by the Company.

Payments Made Upon Disability

In the event of disability, in addition to the benefits listed under the heading Payments Made Upon Termination above, the Named Executive Officers are entitled to receive benefits under our group disability plan which generally provides for 60% of pre-disability earnings up to a maximum of \$13,000 per month. For each of the Named Executive Officers the applicable amount would be \$13,000 per month.

Payments Made Upon a Change of Control

Mr. Riley's employment agreement contains change in control provisions entitling Mr. Riley to cash severance equal to 1.5 times base salary plus bonus if he is involuntarily terminated or resigns for good reason during the six months prior to or in the twenty-four months following a change in control of the Company. This arrangement does not include any gross up for excise tax imposed as a result of severance or other payments made in connection with a change in control. Named Executive Officers, other than Mr. Riley, are not entitled to any payment resulting from a change in control.

In addition, our 2015 Equity Incentive Plan contains double trigger change in control provisions under which awards to participants, including the Named Executive Officers, are subject to accelerated vesting if the participant is involuntarily terminated or resigns for good reason during the twenty-four months following a change in control of the Company.

Director Compensation

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties as well as the skill level required by us with respect to members of the Board.

During 2015, each director, other than Ed Garding, Kevin P. Riley, Thomas W. Scott and James R. Scott, received an annual retainer valued at \$41,750, with at least \$21,750 of that being paid in the form of equity and the remaining \$20,000 paid in the form of cash or common stock at the Director's election.

Each director serving on the Audit Committee received fees of \$1,000 per committee meeting attended. The Audit Committee chairperson also received an additional annual retainer, in cash or equity, of \$2,500. Each director serving on committees other than the Audit Committee, with the exception of Ed Garding, Kevin P. Riley, Thomas W. Scott and James R. Scott, received fees of \$1,000 per board meeting attended and \$750 per committee meeting attended. Committee chairpersons received an annual retainer, in cash or equity, of \$7,500.

Thomas W. Scott received an annual retainer of \$323,057, paid bi-weekly, for his services as Chairman of the Board. James R. Scott received an annual retainer of \$338,436, paid bi-weekly, for services as Executive Vice Chairman of the Board. Both Thomas W. Scott and James R. Scott received one-third of their retainers in the form of stock. These retainers were in lieu of all director fees and other retainers described above. The retainer paid to Mr. Thomas Scott recognizes his work on executive succession planning, assistance provided to Company management in monitoring problem loans and non-performing assets and travel to branch banking offices to meet with and communicate expectations to the advisory boards of our Bank branches. The retainer paid to James R. Scott

recognizes his work in providing an interface between the Board and our management, oversight of strategic planning, leadership of the Board in capital planning, deployment and the creation of shareholder value, executive succession planning and community visibility.

Directors are reimbursed for ordinary expenses incurred in connection with attending board and committee meetings. Directors are also eligible for group medical insurance coverage at the director's option. Under our deferred compensation plan, directors may elect to defer any cash portion of director's fees until an elective distribution date or the director's retirement, disability or death.

- (3) Mr. Garding received no compensation for serving as a director, but he was compensated in his capacity as our President and Chief Executive Officer from January 1, 2015 through September 22, 2015 and as a Senior Project Management Officer through December 31, 2015.

Director Stock Ownership Guidelines

Under our stock ownership guidelines, each director is expected to acquire and maintain ownership of our common stock equal in value to five times his or her annual cash retainer. Stock holdings are measured at the end of each year using the year's closing stock price. Each director is expected to meet the ownership guidelines by the later of January 1, 2017 or five years from the date he or she became a director. While the directors are not required to meet the recommended level of holding until January 1, 2017 at the earliest, all directors with the exception of two recently elected directors have met the recommended levels of stock ownership.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related Person Transaction Policy

Our Board has adopted a related person transaction policy that is applicable to our executive officers, directors and certain entities and individuals related to such persons. The policy, as amended, generally provides that we will not enter into any transactions with related parties unless such transaction(s) are (1) reviewed after disclosure of the relevant facts and circumstances, including any benefits to the Company and the terms of any comparable products or services provided by unrelated third parties, and (2) determined to be in the best interests of the Company and our shareholders, as approved by the independent directors of our Governance & Nominating Committee. The policy also provides that the chairman of such committee, who is an independent director, has delegated authority to approve such transaction(s) in certain circumstances, subject to ratification by the independent directors of the Governance & Nominating Committee. The policy does not apply to loan and credit transactions to directors and executive officers that are covered by Regulation O adopted by the Federal Reserve.

All of the ongoing related party transactions described below were reviewed and approved by the independent directors of the Governance & Nominating Committee in accordance with the policy.

Related Party Transactions

We conduct banking transactions in the ordinary course of business with related parties, including directors, executive officers, shareholders and their associates, on the same terms as those prevailing at the same time for comparable transactions with unrelated persons and that do not involve more than a normal risk of collectability or present other unfavorable features.

Certain executive officers, directors and greater than 5% shareholders of ours and certain entities and individuals related to such persons, incurred indebtedness in the form of loans, as customers, of \$33.0 million as of December 31, 2015. During 2015, new loans and advances on existing loans of \$7.4 million were funded and loan repayments totaled \$7.3 million. These loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to us.

We lease an aircraft from an entity wholly-owned by Thomas W. Scott, the former chairman of our Board who retired in January 2016. Under the terms of the lease, we pay a fee for each flight hour plus certain third party operating expenses related to the aircraft. During 2015, we paid total fees and operating expenses of \$332 thousand for our use of the aircraft. In addition, we lease a portion of our hanger and provide pilot services to the related entity. During 2015, we received payments from the related entity of \$64 thousand for hanger use, pilot fees and reimbursement of certain third party operating expenses related to Mr. Scott's personal use of the aircraft.

We also lease an aircraft from an entity wholly-owned by James R. Scott, current chairman of our Board. Under the terms of the lease, we pay a fee for each flight hour plus certain third party operating expenses related to the aircraft. During 2015, we paid total fees and operating expenses of \$28 thousand for our use of the aircraft. In addition, we lease a portion of our hanger and provide pilot services to the related entity. During 2015, we received payments from

the related entity of \$23 thousand for hanger use, pilot fees and reimbursement of certain third party operating expenses related to Mr. Scott's personal use of the aircraft.

We lease an aircraft from an entity owned 50% by Jonathan R. Scott, a director and employee. Under the terms of the lease, we pay a fee for each flight hour plus certain operating costs for the use of the aircraft. During 2015, we paid total fees and operating expense of \$27 thousand for our use of the aircraft.

James R. Scott, current chairman and former executive vice-chairman of our Board, Thomas W. Scott, former chairman of our Board, four of our directors, John M. Heyneman, Jr., Charles M. Heyneman, Jonathan R. Scott and Randall I. Scott, a director nominee, James R. Scott, Jr., and one greater than 5% shareholder, Homer A Scott, Jr., each has a 2.5% interest in Scott Family Services, Inc. (SFS), which provides professional services that benefit us and the Scott Family. In addition, Randall I. Scott is the chairman of the board of directors of SFS. Services provided for our benefit include shareholder education and communication, strategic enterprise planning and corporate governance consultation. During 2015, we paid \$210 thousand for these services. SFS reimburses us for all salaries, wages and employee benefits expenses incurred by us on its behalf for personnel.

Conflict of Interest Policy

On an annual basis, each director and executive officer is obligated to complete a director and officer questionnaire that requires disclosure of any transactions with our Company in which the director or executive officer, or any member of his or her immediate family, have a direct or indirect material interest. Under our code of personal conduct, all employees, including executive officers, are expected to avoid conflicts of interest. Pursuant to our code of ethics for the chief executive officer and senior finance officers, such officers are prohibited from engaging in activities that are or may appear to be a conflict of interest unless a specific, case-by-case exception has first been reviewed and approved by the Board. All of our directors are subject to the Board's governance standards that include a code of ethics and conduct guide requiring the directors to avoid conflicts of interest.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

Solicitation Information

This proxy statement, the accompanying proxy card and the annual report on Form 10-K are being made available to our shareholders on the Internet at www.astproxyportal.com/ast/40019/ on or about April 4, 2016. Our Board is soliciting your proxy to vote your shares at the annual meeting of shareholders to be held on May 25, 2016. The Board is soliciting your proxy to give all shareholders the opportunity to vote on matters that will be presented at the annual meeting. This proxy statement provides you with information on these matters to assist you in voting your shares.

We are pleased to take advantage of the SEC e-proxy rules that allow companies to post their proxy materials on the internet. We will be able to provide our shareholders with the information they need while lowering the cost of the delivery of materials and reducing the environmental impact of printing and mailing hard copies. As permitted by the SEC rules, we are sending a Notice of Internet Availability of Proxy Materials, or the Notice, to our shareholders on or about April 4, 2016. All shareholders will have the ability to access the proxy materials on the website referred to above and in the Notice. Shareholders will also have the ability to request a printed set of the proxy materials. Instructions on how to access the proxy materials on the internet or to request a printed copy may be found in the Notice. Instructions on how to vote your shares and how to download a proxy card for voting at the annual meeting will also be contained in the Notice.

What is a proxy?

A proxy is your legal designation of another person to vote on your behalf. By completing and returning the proxy card, you are giving the persons designated in the proxy the authority to vote your shares in the manner you indicate on the proxy card.

Why did I receive more than one proxy card?

While we have attempted to consolidate your holdings onto one proxy card, you may receive multiple proxy cards if you hold your shares in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts. In addition, if your shares are held by a broker or trustee, you will receive your proxy card or other voting information from your broker or trustee. You should vote on and sign each proxy card you receive.

Who pays the cost of this proxy solicitation?

We pay the costs of soliciting proxies. Upon request, we will reimburse brokers, banks, trusts and other nominees for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of our common stock.

Is this proxy statement the only way that proxies are being solicited?

In addition to these proxy materials, certain of our directors, officers and employees may solicit proxies by telephone, facsimile, e-mail or personal contact. They will not be specifically compensated for doing so.

Voting Information

Who is qualified to vote?

You are qualified to receive notice of and to vote at the annual meeting if you owned shares of our Class A or Class B common stock as of the close of business on our record date of March 18, 2016.

How many shares of common stock may vote at the annual meeting?

As of the record date, there were 20,999,392 shares of Class A common stock outstanding and entitled to vote and 23,700,619 shares of Class B common stock outstanding and entitled to vote at our annual meeting. Our Class A common stock and our Class B common stock are referred to collectively as our common stock.

How are votes counted?

The proxies appointed by the Board will vote your shares as you instruct on your proxy. Each share of Class A common stock is entitled to one vote and each share of Class B common stock is entitled to five votes on all matters submitted to a vote of shareholders. Holders of Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of shareholders, unless otherwise required by law.

Is there a quorum requirement?

For the annual meeting to be valid, there must be a quorum present. A quorum requires that more than 50% of the voting power of our issued and outstanding common stock be represented at the meeting, whether in person or by proxy.

What is the difference between a shareholder of record and other beneficial holders?

These terms describe how your shares are held. If your shares are registered directly in your name, you are a shareholder of record. If your shares are held in the name of a broker, bank, trust or other nominee as a custodian, you are a beneficial holder.

How do I vote my shares?

If you are a shareholder of record, you can vote your proxy:

via internet at www.voteproxy.com;

via telephone by calling 1-800-PROXIES in the United States or 1-718-921-8500 in foreign countries;
by mailing in the proxy card that will be sent to you by mail or that you may download from the website referred to in the Notice; or

by designating another person to vote your shares with your own form of proxy.

Please refer to the specific instructions set forth on the proxy card. We encourage you to vote electronically or by telephone. If you are a beneficial holder, your broker, bank, trust or other nominee will provide you with materials and instructions for voting your shares.

Can I vote my shares in person at the annual meeting?

If you are a shareholder of record, you may vote your shares in person at the annual meeting. If you are a beneficial holder, you must obtain a proxy from your broker, bank, trust or other nominee giving you the right to vote the shares at the annual meeting.

What is the Board's recommendation on how I should vote my shares?

Proposal One - the Board recommends that you vote your shares FOR the election of each of the five director nominees.

Proposal Two - the Board recommends you vote your shares FOR ratification of the appointment of RSM US, LLP as our independent registered public accounting firm for the year ending December 31, 2016.

How will my shares be voted if I do not specify how they should be voted?

If you sign and return your proxy card without indicating how you want your shares to be voted, the proxies appointed by the Board will vote your shares FOR the election of all five director nominees and FOR the ratification of the appointment of RSM US, LLP as our independent registered public accounting firm for the year ending December 31, 2016.

Can my broker vote my shares for the proposal regarding the election of directors?

A broker or other entity holding shares for an owner in street name may vote for routine proposals without receiving voting instructions from the owner under certain circumstances. A broker or other entity may vote on non-routine proposals only if the owner has provided voting instructions. A broker non-vote occurs when the broker or other entity is unable to vote on a proposal because the proposal is non-routine and the owner does not provide any voting instructions. The only routine matter in this proxy statement is Proposal Two to ratify the appointment of our independent registered public accounting firm. Proposal One to elect the director nominees is a non-routine matter. Therefore, if we receive a proxy card with a broker non-vote, your proxy will be voted for Proposal Two and it will not be included in determining the number of votes cast with regard to Proposal One. It is important that you instruct your broker as to how you wish to have your shares voted on each proposal, even if you wish to vote as recommended by the Board.

How are votes withheld, abstentions and broker non-votes treated?

Votes withheld and abstentions are deemed as present at the annual meeting, are counted for quorum purposes, and except for voting on directors, will have the same effect as a vote against a matter. Broker non-votes, if any, while counted for general quorum purposes, are not deemed to be present with respect to any matter for which a broker does not have authority to vote.

How do I change or revoke my proxy?

After voting you may change your vote one or more times, or you may revoke your proxy, at any time before the vote is taken at the annual meeting. You may revoke your proxy by doing one of the following:

- sending a written notice of revocation to our corporate secretary that is received prior to the annual meeting, stating that you revoke your proxy;
- signing a later-dated proxy card and submitting it so that it is received prior to the annual meeting in accordance with the instructions included in the proxy card(s);
- voting again via the internet or by telephone using the instructions described in the Notice; or
- attending the annual meeting and voting your shares in person.

What vote is required?

With respect to Proposal One to elect the director nominees, a majority of votes are needed to elect a director. This means that the five nominees for director must each respectively receive affirmative votes of 50% or more of the votes cast to be elected. Neither a vote to abstain nor a broker non-vote will count as a vote cast FOR or AGAINST a director nominee. A vote to abstain or a broker non-vote will have no direct effect on the outcome of the election of directors.

With respect to Proposal Two to ratify the appointment of RSM US, LLP as our independent registered public accounting firm for the year ending December 31, 2016, ratification will be approved by the shareholders if the votes cast in favor of the matter exceed the votes cast in opposition. Abstentions will be treated as a vote cast and will have the same effect as a vote AGAINST this proposal.

Who will count the votes?

Representatives from American Stock Transfer & Trust Company, LLC will count the votes and serve as our inspectors of election. The inspectors of election will be present at the annual meeting.

What if I have further questions?

If you have any further questions about voting your shares or attending the annual meeting, please contact our corporate secretary, Kirk D. Jensen, at (406) 255-5304, or e-mail: Kirk.Jensen@fib.com.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than 10% of our common stock, to file with th
