#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Administrative Committee

Time Warner Savings Plan

We have audited the accompanying statement of net assets available for benefits of the Time Warner Savings Plan as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Time Warner Savings Plan at December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

The accompanying supplemental schedules of loans or fixed income obligations in default or classified as uncollectible, delinquent participant contributions, and assets (held at end of year) as of December 31, 2015 have been subjected to audit procedures performed in conjunction with the audit of the Time Warner Savings Plan s financial statements. The information in the supplemental schedules is the responsibility of the Plan s management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

#### TIME WARNER SAVINGS PLAN

#### NOTES TO FINANCIAL STATEMENTS

#### **December 31, 2015**

#### 1. Description of the Plan

The following is an abbreviated description of the Time Warner Savings Plan (the Plan ). Time Warner Inc. ( Time Warner ) is the Plan sponsor. More complete descriptions of the Plan are provided in the Plan documents, as amended, and the summary plan description/prospectus. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ( ERISA ).

#### General

The Plan is a defined contribution profit sharing plan with a 401(k) feature generally covering eligible employees of Time Warner and certain of its subsidiaries and affiliates (each, an Employing Company and, collectively, the Employing Companies ).

The Plan is the only participating plan in the Time Warner Defined Contribution Plans Master Trust (the Master Trust ) and is a Qualified Automatic Contribution Arrangement in accordance with the Internal Revenue Code of 1986, as amended (the Code ), and thus is exempt from nondiscrimination testing.

The Plan administrator is a committee (the Administrative Committee ) appointed by Time Warner s board of directors. Certain administrative functions of the Plan have been delegated to others in accordance with the terms of the Plan.

On June 6, 2014, Time Warner completed the legal and structural separation of Time Inc. from Time Warner (the Time Separation). Immediately after 11:59 p.m. EDT on June 6, 2014, Time Warner distributed all outstanding shares of Time Inc. common stock to Time Warner stockholders at a distribution ratio of one share of Time Inc. common stock for every eight shares of Time Warner common stock held on the May 23, 2014 record date (the Time Inc. Distribution). As a result of the Time Inc. Distribution, the Plan received 647,145 shares of Time Inc. common stock with a value of \$15.1 million. The shares were credited to eligible Plan participants—accounts in the Time Warner Inc. Stock Fund. In accordance with the provisions of the Plan, an independent fiduciary, Fiduciary Counselors Inc., was appointed to exercise control over the Time Inc. common stock received in the Time Warner Inc. Stock Fund as a result of the Time Inc. Distribution. In 2014, Fiduciary Counselors Inc. sold all of the Time Inc. common stock received by the Time Warner Inc. Stock Fund and reinvested the proceeds in Time Warner common stock, other than 380 shares of Time Inc. common stock that were distributed to participants who were eligible to receive shares in the Time Inc. Distribution and withdrew their account balances from the Plan prior to June 6, 2014.

## **Investment Funds, Contributions and Vesting**

The Plan provides for multiple investment funds made available through the trustee of the Master Trust, Fidelity Management Trust Company (Fidelity), pursuant to the Master Trust. The Plan's investment funds consist of four asset allocation (target risk) funds and 14 core investment funds (ten of which are actively managed and four of which are index funds). The Plan also offers a self-directed brokerage option that is limited to mutual funds. Participant contributions, Matching Contributions (as defined below) and Rollovers (as defined below) may generally be invested in specified increments in the investment funds. Participants may periodically transfer account balances among the investment funds offered under the Plan.

Contributions or investment fund transfers into the Time Warner Inc. Stock Fund, an employee stock ownership plan component of the Plan, are prohibited, but Plan participants who hold Time Warner common stock in the Time Warner Inc. Stock Fund have the option to reinvest cash dividends paid by Time Warner on its common stock in Time Warner common stock through the Time Warner Inc. Stock Fund in lieu of receiving the cash dividends.

4

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

Generally, the Plan provides for voluntary participant contributions on a pre-tax basis at an elected percentage of a participant s eligible compensation, up to an annual limit established by the Internal Revenue Service (IRS). The elective deferral amount for highly compensated employees is 50% for the pre-tax contributions, subject to the limit established by the IRS. After two months of continuous employment (or, with respect to employees classified as hourly or temporary employees, after 1,000 hours of credited service in any one year), matching contributions by Employing Companies (Matching Contributions) are made as a percentage of a participant s contributions to the Plan and are capped at certain percentages of the participant s eligible compensation deferred.

All newly eligible Plan participants and employees classified as hourly or temporary employees who are credited with at least 1,000 hours of service in any one year are automatically enrolled in the Plan at a pre-tax contribution rate of 3%, unless they change their contribution rate or opt out of the Plan. Unless participants who were automatically enrolled in the Plan elected or elect otherwise, their contribution rate automatically increased by an additional 1% of eligible compensation beginning on either January 1, 2012 or the first anniversary of their automatic enrollment date (depending on the date they were automatically enrolled) and will continue to increase by an additional 1% of eligible compensation annually until the 6% maximum pre-tax contribution rate for automatic contributions is reached. These participant contributions and Matching Contributions are invested in the Qualified Default Investment Alternative (the Growth Asset Allocation Fund), unless participants elect other investment option(s). Participants who are automatically enrolled in the Plan may change their contribution rate or opt out of the Plan at any time.

Matching Contribution rates for eligible Plan participants are consistent across all participating Employing Companies at a rate of  $133 \frac{1}{3}\%$  on up to the first 3% of eligible compensation deferred and 100% on up to the next 3% of eligible compensation deferred.

Participants are allowed to transfer amounts from certain other tax qualified plans to the Plan (Rollovers). Rollovers are included as participant contributions in the Statement of Changes in Net Assets Available for Benefits. Rollovers for 2015 and 2014 were \$16.2 million and \$16.3 million, respectively.

Matching Contributions and any other amounts contributed by an Employing Company, including those transferred into the Plan, are deemed Employing Company contributions ( Employing Company Contributions ). Each participant s account is credited with the participant s contributions, Rollovers, Employing Company Contributions and any earnings or losses thereon, as appropriate. Participant contributions, Rollovers and any earnings thereon are fully vested.

Matching Contributions and earnings thereon generally vest based on years or periods of service as follows:

Vesting of Matching Contributions Made and Earnings Thereon: (1)

March 1, 2007 Through June 30, 2010

<sup>(1)</sup> Any completed service prior to the dates set forth in this table generally counts toward vesting.

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

Matching Contributions and any earnings thereon also become fully vested upon a participant s termination of service due to death or disability, attainment of age 65, or upon the termination of the Plan.

#### **Forfeited Accounts**

Forfeited Employing Company Contributions and earnings thereon may be used to reduce future Employing Company Contributions to the Plan and/or to pay Plan expenses. Forfeited Employing Company Contributions and earnings thereon for 2015 and 2014 were \$4.0 million and \$3.8 million, respectively. The amount of forfeited nonvested accounts as of December 31, 2015 and 2014 was \$5.3 million and \$3.2 million, respectively, and is included in the Statement of Net Assets Available for Benefits.

#### **Notes Receivable From Participants**

Under the Plan, subject to certain restrictions and penalties, participants may withdraw amounts and/or take loans from their accounts. The maximum number of loans a participant may have outstanding is limited to three at any one time, in the form of either one primary residence loan and two general loans or three general loans; provided, however, that if the primary residence loan was obtained by December 31, 2007, it does not limit the availability of the three general loans. The minimum loan amount is \$1,000 and the maximum loan amount is \$50,000. Loans are valued at their outstanding balances, which approximate fair value, and are treated as transfers between the individual investment funds and the participant loan fund. Loan terms may be for up to five years or 15 years if for the purchase of a primary residence. Participants who have transferred accounts to the Plan with existing loans for the purchase of a primary residence may have loan terms of up to 30 years based on the provisions of the plan from which the original loan was obtained. Interest rates charged for loans originated under the Plan within any quarter are set at the prime rate in effect on the first day of such quarter plus 1%. Participants who have transferred accounts to the Plan with existing loans may be subject to different interest rates on those loans, as set in accordance with the provisions of the plan from which the original loan was obtained. Interest rates on outstanding participant loans as of December 31, 2015 and 2014 ranged from 4.25% to 10.50%.

#### **Payment of Benefits**

In-service withdrawals are available in certain limited circumstances, as provided under the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated under the Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Generally, on termination of service, participants are eligible to receive the vested portion of their account in a lump sum. However, subject to certain restrictions, the Plan permits other payment options. In addition, at the option of the participant, the commencement of payments may be deferred, subject to certain limitations. Benefits distributed from all investment funds in the Plan will be paid in cash, except for benefits distributed from the Time Warner Inc. Stock Fund, which also offers shares of Time Warner common stock as a distribution election. Fractional shares are paid in cash.

#### **Plan Termination**

Although it has not expressed any intent to do so, Time Warner reserves the right to discontinue Employing Company Contributions or to terminate or modify the Plan at any time. In the event of termination of the Plan, participants will become fully vested in their accounts and the net assets of the Plan will be distributed to participants in accordance with the Plan s provisions and applicable law.

6

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

#### **Plan Transfer**

Effective as of January 1, 2014, Time Inc., a subsidiary of Time Warner at that date, established the Time Inc. Savings Plan (the Time Plan ), a defined contribution savings plan intended to be tax-qualified. As of January 3, 2014, net assets in the amount of \$756.8 million and participant loans in the amount of \$11.6 million were transferred out of the Plan into the Time Plan, in connection with the transfer of the account balances and participant loans of participating employees at Time Inc. and its consolidated subsidiaries after giving effect to the Time Separation.

#### 2. Basis of Presentation and Summary of Significant Accounting Policies

#### **Basis of Presentation**

The accompanying financial statements have been prepared on the accrual basis of accounting. Costs and expenses incurred for the purchase, sale or transfer of investments reflected in the accompanying financial statements are considered a cost of the investment or a reduction in the proceeds of a sale, as appropriate. Investment management fees and certain administrative costs are paid by the Plan s investment funds and are included in Investment income, net of fees in the Statement of Changes in Net Assets Available for Benefits.

#### **Payment of Benefits**

Participant withdrawals are recorded when paid.

#### **Administrative Expenses**

Certain administrative costs are charged to the Plan as permitted under ERISA, including, for example, fees for auditing, recordkeeping, custodial and trustee services. Other administrative costs, such as compensation of employees responsible for the administration of the Plan, are paid by Time Warner.

### Reclassification

Certain 2014 amounts have been reclassified to conform to the current year presentation.

## **Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### **Investment Valuation and Income Recognition**

Investments held by the Plan, other than synthetic investment contracts, are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date (an exit price). See Note 4 for additional information and disclosures related to fair value measurements.

Synthetic investment contracts are valued at contract value, which represents contributions made under the contract, plus interest at the contract rate, less withdrawals under the contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes the Plan s gains and losses on investments bought and sold as well as held during the year.

7

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

#### **Accounting Guidance Adopted in 2015**

#### Net Asset Value Practical Expedient

During 2015, the Plan early adopted, on a retrospective basis, guidance that eliminated the requirement to categorize within the fair value hierarchy all investments for which net asset value per share is used as practical expedient to measure fair value. Accordingly, the fair value hierarchy table in Note 4 does not include these investments, which consist of commingled trust funds, and instead Note 4 includes these investments in a separate table. As of December 31, 2015 and 2014, the fair value of investments for which net asset value per share is used as a practical expedient to measure fair value totaled \$1.2 billion and \$1.1 billion, respectively.

#### Simplification of Fully Benefit-Responsive Investment Contracts and Other Investment Disclosures

Also during 2015, the Plan early adopted, on a retrospective basis, guidance issued in July 2015 that simplifies (i) the measurement, presentation and disclosure regarding fully benefit-responsive investment contracts and (ii) investment disclosure requirements. Under the new guidance, fully benefit-responsive investment contracts (e.g., synthetic investment contracts held by the Plan) are required to be shown at contract value instead of fair value in the Plan s Statement of Net Assets Available for Benefits. Accordingly, the Plan s Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014 includes the synthetic investment contracts held by the Plan at contract values of \$491.4 million and \$517.3 million, respectively. The difference between contract value and fair value as of December 31, 2015 and 2014 of \$4.9 million and \$9.4 million, respectively, is presented in Note 7 as a reconciliation to the IRS Form 5500. Because these investments are presented at contract value under the new guidance, they are no longer required to be included in the fair value hierarchy table in Note 4 and disclosures on valuation techniques and average yield information are no longer required in the notes to the Plan s financial statements.

The new guidance also simplifies plan investment disclosures by (i) eliminating the requirement to disaggregate plan investments based on their nature, characteristics, risk and general type and instead requiring that plan investments be disaggregated only by general type, either on the face of the financial statements or in the notes to the financial statements, (ii) providing that the aggregate net appreciation or depreciation in the fair value of plan assets can be disclosed rather than requiring such disclosure for each general type of investment, and (iii) eliminating the requirement to disclose individual investments with a value equal to or greater than 5% of net assets available for benefits. The adoption of this guidance did not have a material impact on the Plan s financial statements.

#### 3. Investments

Plan investments are made in a variety of investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is possible that changes in values could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

The Capital Preservation Fund, an investment fund available in the Plan, includes fully benefit-responsive synthetic investment contracts that are valued at contract value in the Statement of Net Assets Available for Benefits. In a

synthetic investment contract, debt securities (such as fixed-income, asset-backed and mortgage-backed securities) are purchased and then a financial institution agrees to provide for liquidity and an adjustable rate of return thereon (a Wrapper ), which, when taken together with the underlying securities, generally results in a guaranteed return of principal and accrued interest. As required for the IRS Form 5500 filing, these investments are valued at fair value in the Schedule of Assets (Held at End of Year). See Note 7 for a reconciliation of the financial statements to the Form 5500.

8

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

The Capital Preservation Fund and the Wrapper contracts purchased by that fund are designed to pay all participant-initiated transactions at contract value. However, the Wrapper contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include, but are not limited to:

complete or partial termination of the Plan;

any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the fund s cash flow;

merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; and

any early retirement program, group termination, group layoff, facility closing or similar program. At this time, the occurrence of an event that would limit the ability of the Capital Preservation Fund to transact at contract value is not probable. The completion of the Time Separation did not limit the ability of the Capital Preservation Fund to transact at contract value.

A Wrapper issuer may terminate a Wrapper contract at any time by providing the appropriate notification. In the event that the market value of the Capital Preservation Fund s covered assets is below their contract value at the time of such termination, Fidelity, as the Capital Preservation Fund s investment manager, may elect to keep the Wrapper contract in place through another Wrapper provider until such time as the market value of the Capital Preservation Fund s covered assets is equal to their contract value. Plan participants will continue to receive the Capital Preservation Fund s Crediting Rate (as defined below).

Interest income in the Capital Preservation Fund is accrued at the weighted-average return of individual fund investments, net of investment management and certain administrative fees (the Crediting Rate ). The Crediting Rate is calculated daily. Wrapper contracts use the Crediting Rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the difference between the market and contract value of the underlying assets over time. Using the Crediting Rate formula, an estimated future market value is calculated by compounding a portfolio s current market value at such portfolio s current yield to maturity for a period equal to such portfolio s duration. The Crediting Rate is the discount rate that equates that estimated future market value with such portfolio s current contract value. Crediting Rates are reset monthly. The Wrapper contracts are designed so that the Crediting Rate will not fall below 0%.

Certain investment managers of investment funds offered under the Plan are authorized to use derivative financial instruments, either directly or within a commingled fund structure, in accordance with established guidelines of the investment funds. Derivative financial instruments may be used for the purpose of managing interest rate and foreign

exchange risk, and for yield enhancement. Changes in the fair value of derivative financial instruments are recorded in the Statement of Changes in Net Assets Available for Benefits; therefore, no gains or losses are deferred. At December 31, 2015 and 2014, the fair value of derivative financial instruments held by the Plan was not material. The derivative financial instruments held by the Plan at December 31, 2015 consisted of interest rate and credit default swap contracts, futures contracts and interest rate and currency option contracts. The derivative financial instruments held by the Plan at December 31, 2014 consisted of interest rate and credit default swap contracts, futures contracts and interest rate option contracts. Significant derivative positions at December 31, 2015 included futures contracts with aggregate notional amounts of \$296.6 million in a liability position and \$68.5 million in an asset position. The derivative positions at December 31, 2014 were not material.

## NOTES TO FINANCIAL STATEMENTS (Continued)

#### 4. Fair Value Measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Plan to use present value and other valuation techniques in the determination of fair value (Level 3).

| Balance at end f period   | \$                       |     | \$ |       |     | \$                           |                             | \$ |                                    | \$ | 1 :                 | \$ | 1       |

Investments are recorded by the Plan on a trade date basis at fair value or contract value, as applicable. The following is a description of the valuation methodologies used for assets measured at fair value.

Commingled trust funds: Valued at the net asset value per unit at year end as reported to Fidelity by each fund company managing such trusts. Investments in the underlying commingled trust funds can generally be redeemed daily at net asset value.

*Equity securities:* Valued at the closing price at year end as reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Fixed income securities: Valued at the closing price at year end as reported on the active market on which the individual securities are traded. Securities not traded on an active market are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the securities are valued using a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Due to the subjectivity involved in this assessment, these investments may be classified in Level 3 of the fair value hierarchy. As of December 31, 2015 and 2014, there were no fixed income securities classified as level 3.

Cash equivalents and other investments: Cash equivalents consist of investments in short-term investment funds and a money market fund valued at net asset value per unit equal to one dollar at year end. Other investments can consist of certificates of deposit, commercial paper, repurchase agreements, warrants, and futures, option and swap contracts. Certificates of deposit and repurchase agreements are valued at amortized cost, which approximates fair value. Commercial paper is valued using broker quotes that utilize observable market inputs. Warrants are valued based on the relationship of the exercise price to the value of the underlying security. Futures and option contracts are generally valued at closing settlement prices. Swap contracts are marked-to-market as the net amount due to and from the Plan in accordance with the terms of the contract based on the closing level of the relevant market rate of interest.

#### TIME WARNER SAVINGS PLAN

## NOTES TO FINANCIAL STATEMENTS (Continued)

#### 5. Transactions with Parties-in-Interest

Under the terms of the Plan and the Master Trust, Time Warner may elect to contribute shares of Time Warner common stock and/or cash for Employing Company Contributions to the Plan. There were no shares of Time Warner common stock contributed in 2015 or 2014 as Employing Company Contributions to the Plan. The Plan may also purchase or sell shares of Time Warner common stock directly from or to Time Warner. There were no purchases or sales of Time Warner common stock by the Plan directly from or to Time Warner in 2015 or 2014.

Certain Plan investments are managed by Fidelity. Fidelity has appointed JP Morgan Chase and State Street Bank to act as individual sub-custodians for certain Plan investments. JP Morgan Chase replaced Citibank, N.A. as a sub-custodian in July 2015. Therefore, Fidelity s management of such Plan investments and Citibank, N.A. s, JP Morgan Chase s and State Street Bank s holdings of such investments as sub-custodians qualify as party-in-interest transactions; however, these transactions are exempt from the prohibited transaction rules under ERISA.

In addition, certain of the Plan s investments are securities that have been issued by the Plan s investment managers, custodian, sub-custodians, other service providers and their affiliated entities. The Plan s investments in these securities also qualify as party-in-interest transactions; however, these transactions are exempt from the prohibited transactions rules under ERISA.

#### 6. Tax Status of Plan

The Plan has received a determination letter from the IRS, dated April 14, 2015, stating that the Plan is qualified under Section 401(a) of the Code, subject to the Company's adoption of certain amendments to the Plan. The Plan has been amended to comply with the determination letter issued by the IRS. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Administrative Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax exempt. The Plan is subject to audits, from time to time, by various authorities. The Administrative Committee believes the Plan s information statement on Form 5500 is subject to examination for years after 2011. The IRS is currently auditing the Plan with respect to the year ended December 31, 2014.

#### 7. Reconciliation to Form 5500

The net assets of the Plan that are attributed to fully benefit-responsive investment contracts will be recorded at fair value on the 2015 IRS Form 5500 and related schedules. The following is a reconciliation of the Plan s net assets available for benefits and changes in net assets available for benefits between the financial statements and Form 5500 (thousands):

|  | Decem           | ber 3 | 1,        |
