Exact name of registrant as specified in charter:	Aberdeen Asia-Pacific Income Fund, Inc.
Address of principal executive offices:	1735 Market Street, 32 nd Floor Philadelphia, PA 19103
Name and address of agent for service:	Ms. Andrea Melia Aberdeen Asset Management Inc. 1735 Market Street 32 nd Floor Philadelphia, PA 19103
Registrant's telephone number, including area code:	800-522-5465
Date of fiscal year end:	October 31
Date of reporting period:	October 31, 2016

Item 1 Reports to Stockholders The Report to Shareholders is attached herewith.

Managed Distribution Policy (unaudited)

The Board of Directors of the Aberdeen Asia-Pacific Income Fund, Inc. (the Fund) has authorized a managed distribution policy (MDP) of paying monthly distributions at an annual rate set once a year. The Fund's current monthly distribution is set at a rate of \$0.035 per share. With each distribution, the Fund will issue a notice to shareholders and an accompanying press release which will provide detailed information regarding the amount and estimated composition of the distribution and other information required by the Fund's MDP exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to shareholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

Distribution Disclosure Classification (unaudited)

The Fund's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax rules, the amount applicable to the Fund and character of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. Dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. Under Section 19 of the Investment Company Act of 1940, as amended (the 1940 Act), the Fund is required to indicate the sources of certain distributions to shareholders. The estimated distribution composition may vary from month to month because it may be materially impacted by future income, expenses and realized gains and losses on securities and fluctuations in the value of the currencies in which the Fund's assets are denominated.

The distributions for the fiscal year ended October 31, 2016 consisted of 56% net investment income and 44% return of capital.

In January 2017, a Form 1099-DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2016 calendar year.

Dividend Reinvestment and Direct Stock Purchase Plan (unaudited)

Computershare Trust Company, N.A. (Computershare), the Fund's transfer agent, sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan (the Plan), which is available to shareholders.

The Plan allows registered shareholders and first-time investors to buy and sell shares and automatically reinvest dividends and capital gains through the transfer agent. This is a cost-effective way to invest in the Fund.

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Please note that for both purchase and reinvestment purposes, shares will be purchased in the open market at the current share price and cannot be issued directly by the Fund.

For more information about the Plan and a brochure that includes the terms and conditions of the Plan, please call Computershare at 1-800-647-0584 or visit www.computershare.com/buyaberdeen.

Letter to Shareholders (unaudited)

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Asia-Pacific Income Fund, Inc. (the Fund) for the fiscal year ended October 31, 2016. The Fund's principal investment objective is to seek current income. The Fund may also achieve incidental capital appreciation.

Fund Updates

As of July 31, 2016, the Fund's blended benchmark changed, as summarized below:

	Previous		New	
Index	Weight	New Index	Weight	
Bloomberg AusBond Composite ¹ Index	45.00%	Bloomberg AusBond Composite Index ¹	35.00%	
JP Morgan Asian Credit Index ²	35.75%	JP Morgan Asian Credit Index ²	40.00%	
Markit iBoxx Asia ex-Japan Government Bond Index ³	19.25%	Markit iBoxx Asia Government Index ³	15.00%	
		Markit iBoxx Asia Government India Index ⁴	5.00%	
		Markit iBoxx Asia Government Indonesia Index ⁵	5.00%	

¹ The Bloomberg AusBond Composite Bond Index includes investment grade fixed interest bonds of all maturities issued in the Australian debt market under Australian law.

² The JP Morgan Asian Credit Index is a broad-based securities market index which consists of liquid US dollar-denominated debt securities issued out of Asia ex-Japan region.

³ The Markit iBoxx Asia Government Index is a subset of the iBoxx Asia ex-Japan Index family investing in local currency sovereign bonds from China, Hong Kong, India, Indonesia, Korea, Malaysia, Philippines, Singapore, Taiwan, and Thailand.

⁴ The Markit iBoxx Asia Government India Index is a subset of the iBoxx Asia ex-Japan Index family investing in local currency sovereign bonds from India.

⁵ The Markit iBoxx Asia Government Indonesia Index is a subset of the iBoxx Asia ex-Japan Index family investing in local currency sovereign bonds from Indonesia.

NAV Total Return Performance

The Fund's total return, based on net asset value (NAV), net of fees, was 11.4% for the fiscal year ended October 31, 2016 and 8.2% per annum since inception, assuming the reinvestment of dividends and distributions. The Fund's total return for the fiscal year ended October 31, 2016 and per annum since inception is based on the reported NAV on each financial reporting period end.

Share Price Total Return Performance & Discount

For the fiscal year ended October 31, 2016, based on market price, the Fund's total return was 12.9%, assuming reinvestment of dividends and distributions. The Fund's share price increased by 3.6% over the fiscal year, from \$4.75 on October 31, 2015 to \$4.92 on October 31, 2016. The Fund's share price on October 31, 2016 represented a discount of 13.5% to the NAV per share of \$5.69 on that date, compared with a discount of 14.7% to the NAV per share of \$5.57 on October 31, 2015.

Portfolio Allocation

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

As of October 31, 2016, the Fund held 32.5% of its total investments in Australian debt securities, 62.8% in Asian debt securities, 4.4% in European debt securities and 0.3% in U.S. debt securities.

Of the Fund's total investments, 40.6% were held in U.S. Dollar-denominated bonds issued by foreign issuers. The rest of the Fund's currency exposure was 30.1% in the Australian Dollar and 29.3% in various Asian currencies.

Credit Quality

As of October 31, 2016, 48.7% of the Fund's total investments were invested in securities where either the issue or the issuer was rated A or better by Standard & Poor's or Moody's Investors Services, Inc. (Moody's).

¹ Standard & Poor's credit ratings are expressed as letter grades that range from AAA to D to communicate the agency's opinion of relative level of credit risk. Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. The investment grade category is a rating from AAA to BBB-.

² Moody's is an independent, unaffiliated research company that rates fixed income securities. Moody's assigns ratings on the basis of risk and the borrower's ability to make interest payments. Typically, securities are assigned a rating from Aaa to C, with Aaa being the highest quality and C the lowest quality.

Aberdeen Asia-Pacific Income Fund, Inc.

Letter to Shareholders (unaudited) (continued)

Portfolio Management

The Fund is managed by Aberdeen's Asia-Pacific fixed income team. The Asia-Pacific fixed income team works in a truly collaborative fashion; all team members have both portfolio management and research responsibilities. The team is responsible for the day-to-day management of the Fund.

Effective January 31, 2016, David Choi replaces John Manning. Mr Choi is responsible for overseeing day-to-day management and overall supervision of Australian Fixed Income team. He joins the team of Victor Rodriguez, Nick Bishop, Adam McCabe and Kenneth Akintewe. David Choi is the Head of Australian Macro on the Australia Fixed Income desk. David joined Aberdeen in 2011 after spending five years at NSW Treasury Corporation, where he was responsible for portfolio management of both asset and debt portfolios, and specialised in interest rate positioning with responsibility for tactical overlay strategies. David graduated with a Bachelor of Law/Commerce (Finance) from the University of NSW.

Managed Distribution Policy

Distributions to common shareholders for the twelve months ended October 31, 2016 totaled \$0.42 per share. Based on the share price of \$4.92 on October 31, 2016, the distribution rate over the twelve-month period ended October 31, 2016 was 8.5%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On November 9, 2016 and December 9, 2016, the Fund announced that it will pay on November 25, 2016 and January 11, 2017, respectively a distribution of U.S. \$0.035 per share to all shareholders of record as of November 18, 2016 and December 30, 2016, respectively.

The Fund's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital, which is a non-taxable return of capital. This policy is subject to an annual review as well as regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation.

Fund's Leverage

The table below summarizes certain key terms of the Fund's current leverage:

	Amount	
	(\$ in millions)	Maturity
Revolving Credit Facility	\$ 125	April 9, 2017
7-year Series A Senior Secured Notes	\$ 100	June 12, 2020
10-year Series B Senior Secured Notes	\$ 100	June 12, 2023
5-year Term Loan A	\$ 100	June 12, 2018
4-year Term Loan B	\$ 100	December 14, 2019
10-year Series A Mandatory Redeemable Preferred Shares	\$ 50	June 27, 2023

The Series A Mandatory Redeemable Preferred Shares, with a liquidation value of \$50 million, are rated AA by Fitch Ratings³ and the combined \$200 million 7- and 10-year Series A and B Senior Secured Notes are rated AAA by Fitch Ratings.

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

We believe the Fund has been able to lock in an attractive rate cost of borrowing and extend the maturity of the leverage facility while diversifying its borrowing structure during what we believe to be a favorable current interest rate environment. A more detailed description of the Fund's leverage can be found in the Report of Investment Manager and the Notes to Financial Statements.

Open Market Repurchase Program

The Fund's policy is generally to buy back Fund shares on the open market when the Fund trades at certain discounts to NAV and management believes such repurchases may enhance shareholder value. During the fiscal year ended October 31, 2016 and fiscal year ended October 31, 2015, the Fund repurchased 3,042,619 and 4,991,465 shares, respectively.

Portfolio Holdings Disclosure

The Fund's complete schedule of portfolio holdings for the second and fourth quarters of each fiscal year is included in the Fund's semi-annual and annual reports to shareholders. The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q filings are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund makes the

information on Form N-Q available to shareholders on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-800-522-5465.

Proxy Voting

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve months ended June 30 is available by August 31 of the relevant year: (i) upon request and without charge by calling Investor Relations toll-free at 1-800-522-5465; and (ii) on the SEC's website at <http://www.sec.gov>.

Unclaimed Share Accounts

Please be advised that abandoned or unclaimed property laws for certain states require financial organizations to transfer (escheat) unclaimed property (including Fund shares) to the state. Each state has its own definition of unclaimed property, and Fund shares could be considered unclaimed property due to account inactivity (e.g., no owner-generated activity for a certain period), returned mail (e.g., when mail sent to a shareholder is returned to the Fund's transfer agent as undeliverable), or a combination of both. If your Fund shares are categorized as unclaimed, your financial advisor or the Fund's transfer agent will follow the applicable state's statutory requirements to contact you, but if unsuccessful, laws may require that the shares be escheated to the appropriate state. If this happens, you will have to contact the state to recover your property, which may involve time and expense. For more information on unclaimed property and how to maintain an active account, please contact your financial adviser or the Fund's transfer agent.

Investor Relations Information

As part of Aberdeen's commitment to shareholders, we invite you to visit the Fund on the web at www.aberdeenfax.com. Here, you can view monthly fact sheets, quarterly commentary, distribution and performance information, updated daily data courtesy of Morningstar®, portfolio charting and other Fund literature.

Enroll in our email services today and be among the first to receive the latest closed-end fund news, announcements, videos and information. Aberdeen Asia-Pacific Income Fund, Inc.

Report of the Investment Manager (unaudited)

Market/economic review

Asian fixed-income assets rallied over the 12-month period ended October 31, 2016, despite a volatile start attributable to an interest-rate hike by the U.S. Federal Reserve (Fed) in December 2015, sharp declines in Chinese equities, and the decline in commodity prices. Just when investor sentiment appeared to stabilize going into the second half of the reporting period, risk aversion spiked again, this time caused by the UK's unexpected Brexit vote in June 2016. After a brief sell-off, Asian bonds rebounded as record-low interest rates in developed markets drove global fund flows in search of higher yields. Towards the end of the reporting period, caution rose ahead of the U.S. presidential election in early November. Republican Donald Trump subsequently won the election on November 8. Regional currencies ended the reporting period mixed against the U.S. dollar; the Indonesian rupiah, Malaysian ringgit and Thai baht led gains, but the Chinese yuan, Philippine peso and Indian rupee weakened.

In Australia, government bond yields fell as the central bank remained on a monetary policy easing path, cutting interest rates in attempts to boost growth amid deflationary pressures. Second-quarter 2016 gross domestic product (GDP) growth slowed as business investments remained a drag, but this was mitigated by good household spending and public investments in infrastructure. Although Standard & Poor's downgraded the country's credit rating outlook to negative, its impact was negligible.

In Asian bond markets, Indonesia and India were the strongest performers over the reporting period as their respective central banks continued to cut interest rates. The Indonesian market was further boosted by fiscal stimulus measures and the tax amnesty bill that investors hoped would encourage overseas asset repatriation. In India, reform momentum accelerated with the ratification of the bankruptcy code and the upper house's approval of the goods and services tax (GST) bill. The market also reacted positively to the appointment of Urjit Patel as the new central bank governor and formation of the monetary policy committee. Chinese bonds were buttressed by ample liquidity and Beijing's assurance that its economic growth targets would be met. In Malaysia, investor sentiment was lifted by the central bank's interest-rate cut and

J.P. Morgan's decision to include Islamic bonds in its emerging-market indices. Thai bond yields fell on hopes of easier monetary policy, which gained credence after King Bhumibol's death in October.

Yields in Singapore also trended lower over the reporting period, even though the central bank removed the appreciation bias from its currency policy. Korean bonds benefited from the central bank's policy rate cut and the government's 20 trillion-won (about US\$17 billion) stimulus package. However, gains were pared in the last few months of the period by protests calling for President Park Geun-hye's resignation for allowing a friend to gain inappropriate access to government documents. Philippine bonds underperformed versus the overall market during the reporting period. Investors initially welcomed President Rodrigo Duterte's election win, but his more strident invectives against the U.S. later reignited market jitters.

Asian credit markets strengthened over the reporting period, with spreads versus comparable-duration³ U.S. Treasuries narrowing substantially, led by the high-yield sector. As commodity prices rebounded and fears over Chinese economic growth subsided, investors' risk appetite improved. Nevertheless, some headwinds emerged later, particularly rising concerns over overheating Chinese property prices and corporate bond defaults in the hard-hit oil and gas sector. Towards the end of the reporting period, gains were capped by increasingly stretched valuations.

Fund performance review

Fund performance for the reporting period was hindered by our strategies in Asian local-currency bonds and Asian U.S.-dollar credit. On a positive note, the Fund's allocations to Australian and New Zealand bonds enhanced performance.

Within the Australia and New Zealand portfolio, our yield-curve and duration strategies bolstered Fund performance. In Asian local currency bonds, the Fund's overweight exposure to India was the biggest positive contributor to performance. Conversely, the underweight to Thai, Singapore and Hong Kong bonds weighed on Fund performance for the reporting period. In currency management, the Fund's overweight position in the Indian rupee detracted from performance, but was mitigated by the overweight to the rupiah and the positions in the Korean won and Singapore dollar.

- ¹ Brexit is an abbreviation of British exit, which refers to the June 23, 2016 referendum by British voters to exit the European Union.
- ² Standard & Poor's credit ratings express the agency's opinion about the ability and willingness of an issuer, such as a corporation or state or city government, to meet its financial obligations in full and on time. Typically, ratings are expressed as letter grades that range, for example, from AAA to D to communicate the agency's opinion of relative level of credit risk. Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.
- ³ Duration is an estimate of bond price sensitivity to changes in interest rates. The higher the duration, the greater the change (i.e., higher risk) in relation to interest-rate movements.

Aberdeen Asia-Pacific Income Fund, Inc.

Report of the Investment Manager (unaudited) (continued)

In the Asian U.S.-dollar credit segment, security selection in high-yield industrial bonds and investment-grade sovereign issues detracted from Fund performance; however, the overweight to the investment-grade oil and gas sector curbed the losses.

The Fund's use of derivatives was an overall detractor from performance during the reporting period. The impact of currency management in the Asian local currency bond segment via forwards⁴ was relatively flat. In the currency overlay,⁵ derivatives used for interest-rate management and currency management weighed on performance, particularly because of the long U.S. dollar-short Australian dollar position, given the Australian dollar's strength for much of 2016.

As part of the liberalization of the domestic bond market, in February 2016, the People's Republic of China (PRC) announced a new path for international investors to access onshore bonds through the China Interbank Bond Market (CIBM). Because more than 90% of current PRC bond trading activity is transacted in the CIBM, the Fund's new ability to access PRC bonds (and other products) through CIBM provides greater flexibility and liquidity, while subjecting the Fund to similar risks associated with other methods of investing directly in China.

Outlook

Market reaction in the immediate aftermath of the U.S. presidential election reflected not only surprise over Donald Trump's win but also elevated uncertainty that we believe could prevail going into 2017. U.S. Treasuries and some Asian bond markets initially rallied, but subsequently sold off, with current yields generally higher than their pre-election levels. The U.S. dollar weakened against its G10⁶ peers but later reversed course, and recently was stronger against most G10 and emerging-market currencies. Credit spreads narrowed after initially widening immediately after the election. We believe that investors will need to wait for President-elect Trump to set policy direction when he takes office in January. Early assumptions are that the U.S. may embark on fiscal stimulus, which could prove inflationary and cause U.S. Treasury yields to rise further. The Fed is also expected to continue on its path of monetary policy normalization in December 2016, provided that market sentiment and financial conditions are stable. For Asia, we think that a key risk stems from a potential increase in U.S. protectionism and its impact on global trade. The Italian referendum on constitutional reform in

early December 2016, along with the Supreme Court ruling in the UK on the need for parliamentary approval to invoke Article 50,⁷ also present further headwinds, in our view. On a positive note, we think that central banks still have some room to cut interest rates if they choose. In Australia, however, we do not believe that low inflation alone will spur the central bank to ease monetary policy further, given the risks posed by the burgeoning residential housing supply.

Loan Facilities and the Use of Leverage

The amounts borrowed under the Revolving Credit Facility, the Term Loan Facility, the Notes and the Series A MRPS (each as defined below) may be invested to seek to return higher rates than the rates pursuant to which interests or dividends are paid under such forms of leverage. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage.

The Fund employed leverage obtained via bank borrowing and other forms of leverage during the reporting period. On April 9, 2014, the Fund renewed its \$150 million revolving credit facility for a 3-year period with a syndicate of banks (the Revolving Credit Facility). On June 12, 2013, the Fund entered into a note purchase agreement (the Note Purchase Agreement) with institutional investors relating to the private placement of \$200 million of senior secured notes rated `AAA` by Fitch Ratings, \$100 million due June 12, 2020 and \$100 million due June 12, 2023 (the Notes). On the same day, the Fund also entered into a term loan agreement providing for \$200 million in secured term loans from Bank of America, N.A., \$100 million due June 12, 2016 (on December 14, 2015, the maturity of this loan was extended to December 14, 2019) and \$100 million due June 12, 2018 (the Term Loan Facility). On June 27, 2013, the Fund issued a private offering of 2 million shares of Series A Mandatory Redeemable Preferred Shares due June 25, 2023 (the Series A MRPS). The Series A MRPS have a liquidation value of \$50 million and are rated `AA` by Fitch Ratings. The Fund's outstanding balance as of October 31, 2016 was \$125 million on the Revolving Credit Facility.

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

- ⁴ A currency forward is a binding contract in the foreign exchange market that locks in the exchange rate for the purchase or sale of a currency on a future date.
- ⁵ A currency overlay segregates the currency component from other investments within a portfolio, allowing currency management to be separate from the management of other assets.
- ⁶ The G10 nations include Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the UK and the U.S.
- ⁷ Article 50 stipulates that Any Member State may decide to withdraw from the [European] Union in accordance with its own constitutional requirements.

Aberdeen Asia-Pacific Income Fund, Inc.

Report of the Investment Manager (unaudited) (concluded)

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the Revolving Credit Facility, the Term Loan Facility and the Notes may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is limited in its ability to declare dividends or other distributions under the terms of the various forms of leverage. In the event of an event of default under either the Revolving Credit Facility or Term Loan Facility, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. In the event of an event of default under the Note Purchase Agreement, the holders of the Notes have the right to cause a liquidation of the collateral (i.e., cause the sale of portfolio securities and other assets of the Fund).

Each of the Revolving Credit Facility Agreement, the Term Loan Agreement, the Note Purchase Agreement, and the Securities Purchase Agreement relating to the Series A MRPS includes usual and customary covenants for the applicable type of transaction. These covenants impose on the Fund asset coverage requirements, Fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on the Fund by the 1940 Act. The covenants or guidelines could impede the Fund's investment manager, investment adviser, or sub-adviser from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the occurrence of other events could lead to the cancellation of any and/or all of the forms of leverage. As of October 31, 2016, the Fund was in compliance with all covenants under the agreements relating to the various forms of leverage.

Interest Rate Swaps

The Fund may enter into interest rate swaps to efficiently gain interest rate exposure and hedge interest rate risk. On October 24, 2016, the Fund terminated a swap agreement with a notional value of \$59 million maturing on October 24, 2016 and entered into a swap agreement with a notional value of \$59 million maturing on October 28, 2026. As of October 31, 2016, the Fund held interest rate swap agreements with an aggregate notional amount of \$125 million, which represented 100% of the Fund's Revolving Credit Facility. Under the terms of the agreements currently in effect, the Fund receives a floating rate of interest (three-month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

Remaining Terms as of

	Amount (in millions)	Fixed Rate Payable (%)
October 31, 2016		
12 months	\$ 66.0	0.84
120 months	59.0	1.57

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreements. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the loan facility. The implementation of this strategy is at the discretion of the Leverage Committee of the Board.

Aberdeen Asset Management Asia Limited

Total Investment Return (unaudited)

The following table summarizes the average annual Fund performance for the 1-year, 3-year, 5-year and 10-year periods as of October 31, 2016. The Fund's principal investment objective is to seek current income. The Fund may also achieve incidental capital appreciation.

	1 Year	3 Years	5 Years	10 Years
Net Asset Value (NAV)	11.4%	1.5%	1.6%	6.0%
Market Value	12.9%	-1.1%	0.2%	5.1%

Aberdeen Asset Management Inc. (AAMI), the Fund's administrator, has entered into an agreement with the Fund to limit investor relations services fees, without which total return performance would be lower. For the fiscal year ended October 31, 2016, AAMI did not waive any investor relations services fees, because the Fund did not reach the capped amount. See Note 3 in the Notes to Financial Statements. Returns represent past performance. Total investment return at NAV is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program. All return data at NAV includes fees charged to the Fund, which are listed in the Fund's Statement of Operations under Expenses. The Fund's total return is based on the reported NAV on each financial reporting period end. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the NYSE MKT during the period and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program. The Fund's total investment return is based on the reported NAV on the financial reporting period end. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on both market price and NAV. **Past performance is no guarantee of future results.** The performance information provided does not reflect the deduction of taxes that a shareholder would pay on distributions received from the Fund. The current performance of the Fund may be lower or higher than the figures shown. The Fund's yield, return, market price and NAV will fluctuate. Performance information current to the most recent month-end is available at www.aberdeenfx.com or by calling 800-522-5465.

The net operating expense ratio based on the fiscal year ended October 31, 2016 was 2.23%. The net operating expense ratio, excluding interest expense and distributions to Series A Mandatory Redeemable Preferred Shares, based on the fiscal year ended October 31, 2016 was 1.14%.

Portfolio Composition (unaudited)

Quality of Investments⁽¹⁾

As of October 31, 2016, 48.7% of the Fund's total investments were invested in securities where either the issue or the issuer was rated A or better by Standard & Poor's or Moody's Investors Service, Inc. The table below shows the asset quality of the Fund's portfolio as of October 31, 2016 compared with the previous six and twelve months:

	AAA/Aaa	AA/Aa	A	BBB/Baa	BB/Ba*	B*	NR**
Date	%	%	%	%	%	%	%
October 31, 2016	31.6	7.9	9.2	25.0	3.6	3.6	19.1
April 30, 2016	37.2	11.2	10.3	22.4	6.4	4.1	8.4
October 31, 2015	36.9	12.4	9.2	22.9	7.5	5.4	5.7

* Below investment grade

** Not Rated

(1) For financial reporting purposes, credit quality ratings shown above reflect the lowest rating assigned by either Standard & Poor's or Moody's Investor Service if ratings differ. These rating agencies are independent, nationally recognized statistical rating organizations and are widely used. Investment grade ratings are credit ratings of BBB/Baa or higher. Below investment grade ratings are credit ratings of BB/Ba or lower. Investments designated NR are not rated by either rating agency. Unrated investments do not necessarily indicate low credit quality. Credit quality ratings are subject to change. Aberdeen Asset Management Asia Limited (AAMAL) or the Investment Manager evaluated the credit quality of unrated investments based upon, but not limited to, credit ratings for similar investments.

Geographic Composition

The table below shows the geographical composition (with U.S. Dollar-denominated bonds issued by foreign issuers allocated into country of issuance) of the Fund's total investments as of October 31, 2016, compared with the previous six and twelve months:

	Australia	Asia (including NZ)	Europe	United States	Canada
Date	%	%	%	%	%
October 31, 2016	32.5	62.8	4.4	0.3	0.0
April 30, 2016	37.7	56.1	4.5	1.7	0.0
October 31, 2015	34.6	57.7	3.8	3.8	0.1

Currency Composition

The table below shows the currency composition of the Fund's total investments as of October 31, 2016, compared with the previous six and twelve months:

Date	Australian	Asian Currencies (including NZ Dollar)	US Dollar*
			%

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

	Dollar	%	
	%		
October 31, 2016	30.1	29.3	40.6
April 30, 2016	40.4	20.5	39.1
October 31, 2015	37.4	20.4	42.2

* Includes U.S. Dollar-denominated bonds issued by foreign issuers: 40.6% of the Fund's total investments on October 31, 2016, 39.1% of the Fund's total investments on April 30, 2016, 42.2% of the Fund's total investments on October 31, 2015.

Aberdeen Asia-Pacific Income Fund, Inc.

Portfolio Composition (unaudited) (concluded)

Maturity Composition

As of October 31, 2016, the average maturity of the Fund's total investments was 7.8 years, compared with 7.8 years at April 30, 2016, and 7.9 years at October 31, 2015. The following table shows the maturity composition of the Fund's investments as of October 31, 2016, compared with the previous six and twelve months:

Date	Under 3 Years	3 to 5 Years	5 to 10 Years	10 Years & Over
	%	%	%	%
October 31, 2016	18.7	17.6	45.2	18.5
April 30, 2016	20.3	17.6	42.3	19.8
October 31, 2015	22.9	15.6	42.5	19.0

Aberdeen Asia-Pacific Income Fund, Inc.

Financial Highlights (concluded)

- (a) Based on average shares outstanding.
- (b) Total investment return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the closing market price as of the beginning of the period, dividends, capital gains, and other distributions were reinvested as provided for in the Fund's dividend reinvestment plan and then sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund. The total investment return based on the net asset value is similarly computed except that the Fund's net asset value is substituted for the closing market value.
- (c) The total return shown above includes the impact of financial statement rounding of the NAV per share and/or financial statement adjustments.
- (d) Ratios calculated on the basis of income, expenses and preferred share dividends applicable to both the common and preferred shares relative to the average net assets of common shareholders. For the fiscal years ended October 31, 2016, 2015, 2014, 2013 and 2012, the ratios of net investment income before preferred stock dividends to average net assets of common shareholders were 4.16%, 4.79%, 4.26%, 4.10% and 4.85%, respectively.
- (e) The expense ratio includes a one-time expense associated with the August 2011 shelf offering costs attributable to the registered but unsold shares expiring in August 2014.
- (f) Asset coverage ratio is calculated by dividing net assets plus the amount of any borrowings, including Series A Mandatory Redeemable Preferred Shares, for investment purposes by the amount of any long-term debt obligations, which includes the senior secured notes, revolving credit facility and term loans.
- (g) Asset coverage ratio is calculated by dividing net assets plus the amount of any borrowings, including Series A Mandatory Redeemable Preferred Shares, for investment purposes by the amount of any borrowings.

Amounts listed as are \$0 or round to \$0.

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements

October 31, 2016

1. Organization

Aberdeen Asia-Pacific Income Fund, Inc. (the Fund) was incorporated in Maryland on March 14, 1986 as a closed-end, non-diversified management investment company. The Fund's principal investment objective is to seek current income. The Fund may also achieve incidental capital appreciation. To achieve its investment objectives, the Fund normally invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in Asian debt securities, Australian debt securities and New Zealand debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Fund's Board of Directors (the Board) upon 60 days' prior written notice to shareholders. There can be no assurance that the Fund will achieve its investment objectives. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

The Fund may invest up to 80% of its total assets, plus the amount of any borrowings for investment purposes, in Asian debt securities, which include: (1) debt securities of an Asian Country (as defined below) issuers, including securities issued by Asian Country governmental entities, as well as by banks, companies and other entities which are located in Asian Countries, whether or not denominated in an Asian Country currency; (2) debt securities of other issuers denominated in, or linked to, the currency of an Asian Country, including securities issued by supranational issuers, such as The World Bank and derivative debt securities that replicate, or substitute for, the currency of an Asian Country; (3) debt securities issued by entities which, although not located in an Asian Country, derive at least 50% of their revenues from Asian Countries or have at least 50% of their assets located in Asian Countries; and (4) debt securities issued by a wholly-owned subsidiary of an entity located in an Asian Country, provided that the debt securities are guaranteed by the parent entity located in the Asian Country. With reference to items (3) and (4) above, Asian debt securities may be denominated in an Asian Country currency or in Australian, New Zealand or U.S. Dollars. The maximum country exposure to any one Asian Country (other than Korea) is limited to 20% of the Fund's total assets and the maximum currency exposure to any one Asian Country currency (other than Korea) is limited to 10% of the Fund's total assets. The maximum country exposure for Korea is limited to 40% of the Fund's total assets, and the maximum currency exposure for Korea is limited to 25% of the Fund's total assets.

Asian Countries (each, an Asian Country) include Bangladesh, China, Hong Kong, India, Indonesia, Japan, Malaysia, Pakistan, the Philippines, Singapore, South Korea, Taiwan, Thailand, Vietnam, Sri Lanka, Kazakhstan and Mongolia, and such other countries on the

Asian continent approved for investment by the Board upon the recommendation of Aberdeen Asset Management Asia Limited, the Fund's investment manager (AAMAL or the Investment Manager).

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies conform to accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The accounting records of the Fund are maintained in U.S. Dollars and the U.S. Dollar is used as both the functional and reporting currency. However, the Australian Dollar is the functional currency for U.S. federal tax purposes.

a. Security Valuation:

The Fund values its securities at current market value or fair value, consistent with regulatory requirements. Fair Value is defined in the Fund's Valuation and Liquidity Procedures as the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants without a compulsion to contract at the measurement date.

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1 measurements to valuations based upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon other significant observable inputs, including adjusted quoted prices in active markets for similar assets, and Level 3 measurements to valuations based upon unobservable inputs that are significant to the valuation. Observable inputs are inputs that reflect the

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement.

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

Long-term debt and other fixed-income securities are valued at the last quoted or evaluated bid price on the valuation date provided by an independent pricing service provider approved by the Board. Pricing services generally price debt securities assuming orderly transactions of an institutional round lot size, but some trades occur in smaller odd lot sizes at lower prices than institutional round lot trades. If there are no current day bids, the security is valued at the previously applied bid. Short-term debt securities (such as commercial paper and U.S. treasury bills) having a remaining maturity of 60 days or less are valued at amortized cost, if it represents the best approximation of fair value. Debt and other fixed-income securities are generally determined to be Level 2 investments.

Short-term investments are comprised of cash and cash equivalents invested in short-term investment funds which are redeemable daily. The Fund sweeps available cash into the State Street Institutional U.S. Government Money Market Fund; a government money market fund pursuant to Rule 2a-7 under the Investment Company Act of 1940, as amended, which has an objective to maintain a \$1.00 per share net asset value (NAV), which is not guaranteed. Registered investment companies are valued at their net asset value as reported by such company. Generally, these investment types are categorized as Level 1 investments.

Derivatives are valued at fair value. Exchange traded derivatives are generally Level 1 investments and over-the-counter derivatives are

generally Level 2 investments. Forward foreign currency contracts are generally valued based on the bid price of the forward rates and the current spot rate. Forward exchange rate quotations are available for scheduled settlement dates, such as 1-, 3-, 6-, 9- and 12-month periods. An interpolated valuation is derived based on the actual settlement dates of the forward contracts held. Futures contracts are valued at the settlement price or at the last bid price if no settlement price is available. Interest rate swaps agreements are generally valued by an approved pricing agent based on the terms of the swap agreement (including future cash flows).

In the event that a security's market quotations are not readily available or are deemed unreliable, the security is valued at fair value as determined by the Fund's Pricing Committee, taking into account the relevant factors and surrounding circumstances using valuation policies and procedures approved by the Board. A security that has been fair valued by the Fund's Pricing Committee may be classified as Level 2 or Level 3 depending on the nature of the inputs. The three-level hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of standard inputs is listed below:

Security Type	Standard Inputs
Debt and other fixed-income securities	Reported trade data, broker-dealer price quotations, benchmark yields, issuer spreads on comparable securities, credit quality, yield, and maturity.
Forward foreign currency contracts	Forward exchange rate quotations.

Swap agreements

Market information pertaining to the underlying reference assets, i.e., credit spreads, credit event probabilities, fair values, forward rates, and volatility measures.

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

The following is a summary of the inputs used as of October 31, 2016 in valuing the Fund's investments and other financial instruments at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Please refer to the Portfolio of Investments for a detailed breakout of the security types:

Investments, at Value	Level 1	Level 2	Level 3	Total
Fixed Income Investments				
Corporate Bonds	\$	\$ 854,945,741	\$	\$ 854,945,741
Government Bonds		1,111,630,197		1,111,630,197

Liabilities				
Other Financial Instruments				
Futures Contracts	(1,815,970)			(1,815,970)
Forward Foreign Currency Exchange Contracts		(1,272,393)		(1,272,393)
Interest Rate Swap Agreements		(44,835)		(44,835)
Total Liabilities	\$ (1,815,970)	\$ (1,317,228)	\$	\$ (3,133,198)

Amounts listed as are \$0 or round to \$0.

For movements between the Levels within the fair value hierarchy, the Fund has adopted a policy of recognizing transfers at the end of each fiscal period. During the fiscal year ended October 31, 2016, Green Dragon Gas Ltd. transferred from Level 3 to Level 2 because the security was evaluated by an independent pricing agent using a single broker price at October 31, 2015 and at October 31, 2016 the security was evaluated by an independent pricing agent using multiple inputs. For the fiscal year ended October 31, 2016, there were no significant changes to the fair valuation methodologies.

b. Restricted Securities:

Restricted securities are privately-placed securities whose resale is restricted under U.S. securities laws. The Fund may invest in restricted securities, including unregistered securities eligible for resale without registration pursuant to Rule 144A and privately-placed securities of U.S. and non-U.S. issuers offered outside the U.S. without registration pursuant to Regulation S under the Securities Act of 1933, as amended (the 1933 Act). Rule 144A securities may be freely traded among certain qualified institutional investors, such as the Fund, but resale of such securities in the U.S. is permitted only in limited circumstances.

c. Foreign Currency Translation:

Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of the Valuation Time, as provided by an independent pricing service approved by the Board. The Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time).

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Foreign currency amounts are translated into U.S. Dollars on the following basis:

(i) market value of investment securities, other assets and liabilities at the current daily rates of exchange at the Valuation Time; and

(ii) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising from changes in the foreign exchange rates due to the fluctuations in the market prices of the securities held at the end of the reporting period. Similarly, the Fund isolates the effect of changes in foreign

Notes to Financial Statements (continued)

October 31, 2016

exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net exchange gain/(loss) is realized from sales and maturities of portfolio securities, sales of foreign currencies, settlement of securities transactions, dividends, interest and foreign withholding taxes recorded on the Fund's books. Net unrealized foreign exchange appreciation/(depreciation) includes changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. The net realized and unrealized foreign exchange gain/(loss) shown in the composition of net assets represents foreign exchange gain/(loss) for book purposes that may not have been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. Dollar. Generally, when the U.S. Dollar rises in value against foreign currency, the Fund's investments denominated in that currency will lose value because its currency is worth fewer U.S. Dollars; the opposite effect occurs if the U.S. Dollar falls in relative value.

d. Derivative Financial Instruments:

The Fund is authorized to use derivatives to manage currency, interest rate and credit risk and as a substitute for physical securities. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Forward Foreign Currency Exchange Contracts:

A forward foreign currency exchange contract (forward contract) involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. Forward contracts are used to manage the Fund's currency exposure in an efficient manner. They are used to sell unwanted currency exposure that comes with holding securities in a market, or to buy currency exposure where the exposure from holding securities is insufficient to give the desired currency exposure either in absolute terms or relative to the benchmark. The use of forward contracts allows the separation of decision-making between markets and their currencies.

The forward contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized appreciation or depreciation. Forward contracts' prices are received daily from an

independent pricing provider. When the forward contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. These realized and unrealized gains and losses are reported on the Statement of Operations. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or from unanticipated movements in exchange rates. During the fiscal year ended October 31, 2016, the Fund used forward contracts to hedge and efficiently manage Australian and certain Asian currency exposure.

While the Fund may enter into forward contracts to seek to reduce currency exchange rate risks, transactions in such contracts involve certain risks. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts and from unanticipated movements in exchange rates. Thus, while the Fund may benefit from such transactions, unanticipated changes in currency prices may result in a poorer overall performance for the Fund than if it had not engaged in any such transactions. Moreover, there may be imperfect correlation between the Fund's portfolio holdings or securities quoted or denominated in a particular currency and forward contracts entered into by the Fund. Such imperfect correlation may prevent the Fund from achieving a complete hedge, which will expose the Fund to the risk of foreign exchange loss.

Forward contracts are subject to the risk that a counterparty to such contracts may default on their obligations. Since a forward foreign currency exchange contract is not guaranteed by an exchange or clearing house, a default on the contract would deprive the Fund of unrealized profits, transaction costs or the benefits of a currency hedge or force the Fund to cover its purchase or sale commitments, if any, at the market price at the time of the default.

Futures Contracts:

The Fund may invest in financial futures contracts (futures contracts) for the purpose of hedging its existing portfolio securities, or securities that the Fund intends to purchase, against fluctuations in value caused by changes in prevailing market interest rates or prices. Futures contracts may also be entered into for non-hedging purposes, however, in those instances, (a) either the aggregate initial margin and premiums required to establish the Fund s position may not exceed 5% of the Fund s NAV after taking into account unrealized profits and unrealized losses on any such contract into which it has entered into, or (b) the aggregate net notional value of the Funds position may not exceed 100% of the Fund s NAV after taking into account unrealized profits and unrealized losses on any such contract which it has entered into.

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

Upon entering into a futures contract, the Fund is required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount. This payment is known as initial margin. Subsequent payments, known as variation margin, are calculated each day, depending on the daily fluctuations in the fair value/market value of the underlying assets. An unrealized gain/(loss) equal to the variation margin is recognized on a daily basis. When the contract expires or is closed, the gain/(loss) is realized and is presented in the Statement of Operations as a net realized gain/(loss) on futures contracts. Futures contracts are valued daily at their last quoted sale price on the exchange on which they are traded.

A sale of a futures contract means a contractual obligation to deliver the securities or foreign currency called for by the contract at a fixed price at a specified time in the future. A purchase of a futures contract means a contractual obligation to acquire the securities or foreign currency at a fixed price at a specified time in the future. During the fiscal year ended October 31, 2016, the Fund used U.S. Treasury futures to efficiently manage U.S. interest rate exposure and hedge the U.S. interest rate risk.

There are significant risks associated with the Fund's use of futures contracts, including the following: (1) the success of a hedging strategy may depend on the ability of the Fund's investment adviser and/or sub-adviser to predict movements in the prices of individual securities, fluctuations in markets and movements in interest rates; (2) there may be an imperfect or no correlation between the movement in the price of futures contracts, interest rates and the value/market value of the securities held by the Fund; (3) there may not be a liquid secondary market for a futures contract; (4) trading restrictions or limitations may be imposed by an exchange; and (5) government regulations may restrict trading in futures contracts. In addition, should market conditions change unexpectedly, the Fund may not achieve the anticipated benefits of the futures contracts and may realize a loss.

Swaps:

A swap is an agreement that obligates two parties to exchange a series of cash flows and/or meet certain obligations at specified intervals based upon or calculated by reference to changes in specified prices or rates (interest rates in the case of interest rate swaps, currency exchange rates in the case of currency swaps) or the occurrence of a credit event with respect to an underlying reference obligation (in the case of a credit default swap) for a specified amount of an underlying asset or notional principal amount. The Fund will enter into swaps only on a net basis, which means that the two payment streams are netted out, with the Fund receiving or paying, as the case may be, only the amount of the difference between the two payments. Except for currency swaps and credit

default swaps, the notional principal amount is used solely to calculate the payment streams but is not exchanged. With respect to currency swaps, actual principal amounts of currencies may be exchanged by the counterparties at the initiation, and again upon the termination of the transaction.

Traditionally, swaps were customized, privately negotiated agreements executed between two parties (OTC Swaps) but since 2013, certain swaps are required to be cleared pursuant to rules and regulations related to the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) and/or Regulation (EU) No 648/2012 on OTC Derivatives, Central Counterparties and Trade Repositories (EMIR) (Cleared Swaps). Like OTC Swaps, Cleared Swaps are negotiated bilaterally. Unlike OTC Swaps, the act of clearing results in two swaps executed between each of the parties and a central counterparty (CCP), and thus the counterparty credit exposure of the parties is to the CCP rather than to one another. Upon entering into a Cleared Swap, the Fund is required to pledge an amount of cash and/or other assets equal to a certain percentage of the contract amount. This payment is known as initial margin. Subsequent payments, known as variation margin, are calculated each day, depending on the daily fluctuations in the fair value/market value of the underlying assets. An unrealized gain or loss equal to the variation margin is recognized on a daily basis. When the contract matures or is terminated, the gain or loss is realized and is presented in the Statements of Operations as a net realized gain or loss on swap contracts. As of March 2017, the Fund may be required to provide variation and/or initial margin for OTC Swaps pursuant to further rules and regulations related to Dodd-Frank and EMIR. The margin requirements associated with OTC Swaps and Cleared Swaps may not be the same.

The rights and obligations of the parties to a swap are memorialized in either an International Swap Dealers Association, Inc. Master Agreement (ISDA) for OTC Swaps or a futures agreement with an OTC addendum for Cleared Swaps (Clearing Agreement). These agreements are with certain counterparties whose creditworthiness is monitored on an ongoing basis by risk professionals. Both the ISDA and Clearing Agreement

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of default or termination by one party may give the other party the right to terminate and settle all of its contracts.

Entering into swap agreements involves, to varying degrees, elements of credit, market and interest risk in excess of the amounts reported on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

on its obligation to perform and that there may be unfavorable changes in the value of the index or securities underlying the agreement. The Funds' maximum risk of loss from counterparty risk related to swaps is the fair value of the contract. This risk is mitigated by the posting of collateral by the counterparties to the Funds to cover the Funds' exposure to the counterparty.

Interest Rate Swaps

The Fund uses interest rate swap contracts to manage its exposure to interest rates. Interest rate swap contracts typically represent the exchange between the Fund and a counterparty of respective commitments to make variable rate and fixed rate payments with respect to a notional amount of principal. Interest rate swap contracts may have a term that is greater than one year, but typically require periodic interim settlement in cash, at which time the specified value of the variable interest rate is reset for the next settlement period. Net payments of interest are recorded as realized gains or losses. During the period that the swap contract is open, the contract is marked-to-market as the net amount due to or from the

Fund and changes in the value of swap contracts are recorded as unrealized gains or losses. During the fiscal year ended October 31, 2016, the Fund used interest rate swaps to hedge the interest rate risk on the Fund's Revolving Credit Facility (as defined below).

Credit Default Swaps

A credit default swap is an agreement whereby one party, the buyer, is obligated to pay the other party, the seller, a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation. The Fund might use credit default swap contracts to limit or to reduce risk exposure of the Fund to defaults of corporate and sovereign issues (i.e., to reduce risk when the Fund owns or has exposure to such issuers). The Fund also might use credit default swap contracts to create direct or synthetic short or long exposure to domestic or foreign corporate debt securities or certain sovereign debt securities to which the Fund is not otherwise exposed. During the fiscal year ended October 31, 2016, the Fund did not invest in credit default swaps.

Summary of Derivative Instruments:

The Fund may use derivatives for various purposes as noted above. The following is a summary of the fair value of Derivative Instruments, not accounted for as hedging instruments, as of October 31, 2016:

Derivatives not accounted for as hedging instruments and risk exposure	Asset Derivatives Year Ended October 31, 2016		Liability Derivatives Year Ended October 31, 2016	
	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value
Interest rate swaps (interest rate risk)	Variation margin receivable for centrally cleared swaps	\$	Variation margin payable for centrally cleared swaps	\$ 104,200
Interest rate swaps (interest rate risk)	Unrealized appreciation on over-the-counter interest rate swaps		Unrealized depreciation on over-the-counter interest rate swaps	44,835
Forward foreign exchange contracts (foreign exchange risk)	Unrealized appreciation on forward currency exchange contracts	3,169,825	Unrealized depreciation on forward currency exchange contracts	1,272,393

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Futures contracts (Interest Rate Risk)	Unrealized appreciation on futures contracts	1,553,039	Unrealized depreciation on futures contracts	1,815,970
Total		\$ 4,722,864		\$ 3,237,398
Amounts listed as	are \$0 or round to \$0.			

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

The Fund has transactions that may be subject to enforceable master netting agreements. A reconciliation of the gross amounts on the Statement of Assets and Liabilities as of October 31, 2016 to the net amounts by broker and derivative type, including any collateral received or pledged, is included in the following tables:

Description	Gross Amounts of Assets Presented in Statement of Financial Position	Gross Amounts Not Offset in Statement of Assets & Liabilities			Gross Amounts of Liabilities Presented in Statement of Financial Position	Gross Amounts Not Offset in Statement of Assets and Liabilities		
		Financial Instrument Assets	Collateral Received (1)	Net Amount (3)		Financial Instruments Liabilities	Collateral Pledged (1)	Net Amount (3)
Forward foreign currency (2)								
BNP Paribas	\$ 1,111,466	\$	\$	\$ 1,111,466	\$	\$	\$	\$
Credit Suisse	23,486	(23,486)		275,871	(23,486)			252,385

Barclays Bank	\$	\$	\$	\$ 44,835	\$	\$ (40,000)	\$	4,835

- In some instances, the actual collateral received and/or pledged may be more than the amount shown here due to overcollateralization.
- Includes financial instruments (swaps and forwards) which are not subject to a master netting arrangement across funds, or other another similar arrangement.
- Net amounts represent the net receivable/(payable) that would be due from/to the counterparty in the event of default. Exposure from financial derivative instruments can only be netted across transactions governed under the same master netting arrangements with the same legal entity.

The Effect of Derivative Instruments on the Statement of Operations for the fiscal year ended October 31, 2016:

Derivatives not accounted for as hedging instruments	Location of Gain or (Loss) on Derivatives	Realized Gain or (Loss) on Derivatives	Change in Unrealized Appreciation/ (Depreciation) on Derivatives
	Realized/Unrealized Gain/(Loss) from Investments, Interest Rate Swaps, Futures Contracts and

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

Information about derivatives reflected as of the date of this report is generally indicative of the type of activity for the fiscal year ended October 31, 2016. The table below summarizes the weighted average values of derivatives holdings for the Fund during the fiscal year ended October 31, 2016.

Forward foreign exchange contracts (Average Notional Value)	Futures contracts (Average Notional Value)	Swap contracts (Average Notional Value)
\$ 644,736,056	\$ 7,983,333	\$ 125,000,000

e. Bank Loans:

The Fund may invest in bank loans. Bank loans include floating and fixed-rate debt obligations. Floating rate loans are debt obligations issued by companies or other entities with floating interest rates that reset periodically. Bank loans may include, but are not limited to, term loans, delayed funding loans, bridge loans and revolving credit facilities. Loan interest will primarily take the form of assignments purchased in the primary or secondary market but may include participants. Floating rate loans are secured by specific collateral of the borrower and are senior to most other securities of the borrower (e.g., common stock or debt instruments) in the event of bankruptcy. Floating rate loans are often issued in connection with recapitalizations, acquisitions, leveraged buyouts, and refinancings. Floating rate loans are typically structured and administered by a financial institution that acts as the agent of the lenders participating in the floating rate loan. Floating rate loans may be acquired directly through the agent, as an assignment from another lender who holds a direct interest in the floating rate loan, or as a participation interest in another lender's portion of the floating rate loan.

The Fund may also enter into, or acquire participation in, delayed funding loans and revolving credit facilities. Delayed funding loans and revolving credit facilities are borrowings in which the Fund agrees to make loans up to a maximum amount upon demand by the borrowing issuer for a specified term. A revolving credit facility differs from a delayed funding loan in that as the borrowing issuer repays the loan, an amount equal to the repayment is again made available to the borrowing issuer under the facility. The borrowing issuer may at any time borrow and repay amounts so long as, in the aggregate, at any given time the amount borrowed does not exceed the maximum amount established by the loan agreement. Delayed funding loans and revolving credit facilities usually provide for floating or variable rates of interest.

There are a number of risks associated with an investment in bank loans including credit risk, interest rate risk, illiquid securities risk, and prepayment risk. There is also the possibility that the collateral

securing a loan, if any, may be difficult to liquidate or be insufficient to cover the amount owed under the loan. These risks could cause the Fund to lose income or principal on a particular investment, which in turn could affect the Fund's returns. In addition, bank loans may settle on a delayed basis, resulting in the proceeds from the sale of such loans not being readily available to make additional investments or to meet the Fund's redemption obligations. To the extent the extended settlement process gives rise to short-term liquidity needs, the Fund may hold additional cash, sell investments or temporarily borrow from banks or other lenders.

As of October 31, 2016, the Fund held no unfunded commitments or bridge loans.

f. Security Transactions, Investment Income and Expenses:

Security transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Interest income and expenses are recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

g. Distributions:

The Fund has a managed distribution policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions, if necessary, on a monthly basis. The managed distribution policy is subject to regular review by the Board. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Dividends and distributions to shareholders are recorded on the ex-dividend date.

Dividends and distributions to shareholders are determined in accordance with federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

Distributions to Series A Mandatory Redeemable Preferred Shares (the Series A MRPS) shareholders are accrued daily and paid quarterly based on an annual rate of 4.125%. The Fund may not pay distributions to its preferred shareholders unless (i) the pro forma asset coverage ratios for the Series A MRPS, as calculated in accordance with the Fitch Ratings total and net overcollateralization tests per the AA rating guidelines outlined in Fitch Rating's closed-end fund criteria, is in excess of 100%, and (ii) the Fund's asset coverage ratios for the Series A MRPS, as calculated in accordance

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

with the Investment Company Act of 1940, as amended (1940 Act), is in excess of 225%. The character of distributions to Series A MRPS shareholders made during the fiscal year may differ from their ultimate characterization for federal income tax purposes. For tax purposes, the Fund's distributions to Series A MRPS shareholders for the fiscal year ended October 31, 2016 were 100% net investment income.

h. Federal Income Taxes:

For U.S. federal income purposes, the Fund is comprised of a separately identifiable unit called Qualified Business Unit (QBU) (see the Internal Revenue Code of 1986, as amended (IRC) section 987). The Fund has operated with a QBU for U.S. federal income purposes since 1990. The home office of the Fund is designated as the United States and of the QBU is Australia with a functional currency of Australian dollar. The securities held within the Fund reside within either the QBU or the home office depending on certain factors including geographic region. As an example, New Zealand and Indonesian securities reside within the Australian QBU. When sold, Australian dollar denominated securities within the Australian QBU generate capital gain/loss (which are translated for U.S. federal income tax purposes into U.S. Dollars based on the weighted average exchange rate for the period) but not currency gain/loss. When a New Zealand security is sold within the Australian QBU, the sale generates capital gain/loss as well as currency gain/loss based on the currency exchange between the New Zealand dollar and the Australian dollar.

Currency gain/loss related to currency exchange between the U.S. Dollar and the QBU functional currency is generated when money is transferred from a QBU to the home office. The currency gain/loss would result from the difference between the current exchange rate and the fiscal year to date average exchange rate until which profits are utilized and the pooled U.S. Dollar basis in the QBU (which is generally computed based on the currency exchange rates from when money was transferred into such QBU and from gain/losses generated within such QBU based on the weighted average exchange rates for the periods such gain/loss was recognized). Based on the QBU structure, there may be sizable differences in the currency gain/loss recognized for U.S. federal income tax purposes and what is reported within the financial statements under GAAP. As of the Fund's fiscal year-end, the calculation of the composition of distributions to shareholders is finalized and reported in the Fund's annual report to shareholders.

The Fund intends to continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in Subchapter M of the IRC, and to make distributions of net investment income and net realized capital

gains sufficient to relieve the Fund from all federal income taxes. Therefore, no federal income tax provision is required. Since tax authorities can examine previously filed tax returns, the Fund's U.S. federal and state tax returns for each of the four fiscal years up to the most recent fiscal year ended October 31 are subject to such review.

i. Foreign Withholding Tax:

Dividend and interest income from non-U.S. sources received by the Fund are generally subject to non-U.S. withholding taxes. In addition, the Fund may be subject to capital gains tax in certain countries in which it invests. The above taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties with some of these countries. The Fund accrues such taxes when the related income is earned.

In addition, when the Fund sells securities within certain countries in which it invests, the capital gains realized may be subject to tax. Based on these market requirements and as required under GAAP, the Fund accrues deferred capital gains tax on securities currently held that have unrealized appreciation within these countries. The amount of deferred capital gains tax accrued is reported on the Statement of Operations as part of the Net Change in Unrealized Appreciation/Depreciation on Investments.

j. Cash Flow Information:

The Fund invests in securities and distributes dividends from net investment income and net realized gains on investment and currency transactions which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statements of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency but does not include cash at brokers in segregated accounts for financial futures contracts because it is designated

as collateral.

k. Repurchase Agreements

The Fund may enter into repurchase agreements under the terms of a Master Repurchase Agreement. It is the Fund's policy that its custodian/counterparty segregate the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. Under the Master Repurchase Agreement, if the counterparty defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited. Repurchase

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

agreements are subject to contractual netting arrangements with the counterparty, Fixed Income Clearing Corp. To the extent the Fund enters into repurchase agreements, additional information on individual repurchase agreements is included in the Statements of Investments.

3. Agreements and Transactions with Affiliates

a. Investment Manager, Investment Adviser, and Investment Sub-Adviser:

AAMAL serves as investment manager to the Fund, pursuant to a management agreement. Aberdeen Asset Management Limited (the Investment Adviser) serves as the investment adviser and Aberdeen Asset Managers Limited (AAML or the Sub-Adviser) serves as the sub-adviser, pursuant to an advisory agreement and a sub-advisory agreement, respectively, with the Investment Manager. The Investment Manager, the Investment Adviser and the Sub-Adviser (collectively, the Advisers) are wholly-owned subsidiaries of Aberdeen Asset Management PLC.

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund. The Sub-Adviser manages the portion of the Fund's assets that the Investment Manager allocates to it. The Investment Adviser and Sub-Adviser are paid by the Investment Manager, not the Fund.

The management agreement provides the Investment Manager with a fee, payable monthly by the Fund, at the following annual rates: 0.65% of the Fund's average weekly Managed Assets up to \$200 million, 0.60% of Managed Assets between \$200 million and \$500 million, 0.55% of Managed Assets between \$500 million and \$900 million, 0.50% of Managed Assets between \$900 million and \$1.75 billion and 0.45% of Managed Assets in excess of \$1.75 billion. Managed Assets is defined in the management agreement to mean total assets of the Fund, including any form of investment leverage, minus all accrued expenses incurred in the normal course of operations, but not excluding any liabilities or obligations attributable to investment leverage obtained through (i) indebtedness of any type (including, without limitation, borrowing through a credit facility or the issuance of debt securities), (ii) the issuance of preferred stock or other similar preference securities, (iii) the reinvestment of collateral received for securities loaned in accordance with the Fund's investment objectives and policies, and/or (iv) any other means.

For the fiscal year ended October 31, 2016, AAMAL earned \$10,715,073 from the Fund for investment management fees.

b. Fund Administration:

Aberdeen Asset Management Inc. (AAMI), an affiliate of the Investment Manager, Investment Adviser and Sub-Adviser, is the Fund's Administrator pursuant to an agreement under which AAMI receives a fee, payable monthly by the Fund, at an annual fee rate of 0.125% of the Fund's average weekly Managed Assets up to \$1 billion, 0.10% of the Fund's average weekly Managed Assets between \$1 billion and \$2 billion, and 0.075% of the Fund's average weekly Managed Assets in excess of \$2 billion. For the fiscal year ended October 31, 2016, AAMI earned \$2,253,990 from the Fund for administration fees.

c. Investor Relations:

Under the terms of the Investor Relations Services Agreement, AAMI provides and pays third parties to provide enhanced investor relations services to the Fund and certain other funds advised by AAMAL or its affiliates as part of an Investor Relations Program. Under the Investor Relations Services Agreement, the Fund owes a portion of the fees related to the Investor Relations Program (the Fund's Portion). However, investor relations services fees are capped by AAMI so that the Fund will only pay up to an annual rate of 0.05% of the Fund's average weekly net assets. Any difference between the capped rate of 0.05% of the Fund's average weekly net assets and the Fund's Portion is paid for by AAMI.

Pursuant to the terms of the Investor Relations Services Agreement, AAMI provides, among other things, objective and timely information to shareholders based on publicly-available information; provides information efficiently through the use of technology while offering shareholders immediate access to knowledgeable investor relations representatives; develops and maintains effective communications with investment

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

professionals from a wide variety of firms; creates and maintains investor relations communication materials such as fund manager interviews, films and webcasts, published white papers, magazine articles and other relevant materials discussing the Fund's investment results, portfolio positioning and outlook; develops and maintains effective communications with large institutional shareholders; responds to specific shareholder questions; and reports activities and results to the Board and management detailing insight into general shareholder sentiment.

During the fiscal year ended October 31, 2016, the Fund incurred investor relations fees of approximately \$492,192. For the fiscal year ended October 31, 2016, AAMI did not waive any investor relations

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

fees because the Fund did not reach the capped amount. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

4. Investment Transactions

Purchases and sales of investment securities (excluding short-term securities) for the fiscal year ended October 31, 2016, were \$974,804,562 and \$1,004,710,894, respectively.

5. Capital

The authorized capital of the Fund is 400 million shares of \$0.01 par value common stock. During the fiscal year ended October 31, 2016, the Fund repurchased 3,042,619 shares pursuant to its Open Market Repurchase Program, see Note 6 for further information. As of October 31, 2016, there were 253,266,519 shares of common stock issued and outstanding.

6. Open Market Repurchase Program

On March 1, 2001, the Board approved a stock repurchase program. The Board amended the program on December 12, 2007. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12-month period. The Fund reports repurchase activity on the Fund's website on a monthly basis.

For the fiscal year ended October 31, 2016 and fiscal year ended October 31, 2015, the Fund repurchased 3,042,619 and 4,991,465 shares, respectively, through this program.

7. Preferred Shares

At October 31, 2016, the Fund had 2,000,000 shares of Series A MRPS outstanding with an aggregate liquidation preference of \$50,000,000 (\$25.00 per share). The following table shows the mandatory redemption date, annual fixed rate, aggregate liquidation preference and estimated fair value of the Series A MRPS at October 31, 2016.

Mandatory Redemption Date	Annual Fixed Rate	Aggregate Liquidation Preference	Estimated Fair Value
June 27, 2023	4.125%	\$ 50,000,000	\$ 51,035,844

Holders of the Series A MRPS are entitled to receive quarterly cumulative cash dividend payments on the first business day following each calendar quarter at an annual fixed rate of 4.125% until maturity. The Series A MRPS were issued in private placement offerings to institutional investors and are not listed on any exchange or automated quotation system. Distributions are accrued daily and paid quarterly and are presented in the Statement of

Assets and Liabilities as a dividend payable to preferred shareholders. For the fiscal year ended October 31, 2016, the Fund paid \$2,016,664 in distributions to preferred shareholders.

The Series A MRPS rank senior to all of the Fund's outstanding shares of common stock and on a parity with shares of any other series of preferred stock as to the payment of dividends to which the shares are entitled and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

The estimated fair value of Series A MRPS was calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the current U.S. Treasury rate with an equivalent maturity date, plus the spread between the U.S. insurance and financial debt rate and the U.S. Treasury rate plus a market spread for the issuance of preferred shares.

The Series A MRPS are redeemable in certain circumstances at the option of the Fund. The Series A MRPS are also subject to mandatory redemption, unless otherwise prohibited by the 1940 Act, if the Fund fails to maintain (1) asset coverage, as determined in accordance with Section 18(h) of the 1940 Act, of at least 225%, with respect to all outstanding preferred stock, as of the last day of any month or (2) eligible assets with an aggregate agency discounted value at least equal to the basic maintenance amount as provided in the Fund's rating agency guidelines. As of October 31, 2016, the Fund was in compliance with the asset coverage and basic maintenance requirements of the Series A MRPS.

Except for matters which do not require the vote of the holders of the Series A MRPS under the 1940 Act and except as otherwise provided in the Fund's Charter or Bylaws, or as otherwise required by applicable law, holders of the Series A MRPS have one vote per share and generally vote together with holders of common stock as a single class on all matters submitted to the Fund's stockholders. The holders of the Series A MRPS, voting separately as a single class, have the right to elect at least two directors of the Fund.

8. Senior Secured Notes

At October 31, 2016, the Fund had \$200,000,000 in aggregate principal amount of senior secured notes rated AAA by Fitch Ratings outstanding (\$100,000,000 in 3.05% Series A Senior Secured Notes due June 12, 2020 and \$100,000,000 in 3.69% Series B Senior Secured Notes due June 12, 2023) (collectively, the Notes). The Notes are secured obligations of the Fund and, upon liquidation, dissolution or winding up of the Fund, will rank senior to all unsecured and unsubordinated indebtedness and senior to any common or preferred stock pari passu in priority and security with all other secured indebtedness. Holders of the Notes are entitled to receive cash interest payments semi-annually until maturity. The

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

Series A Notes and the Series B Notes accrue interest at annual fixed rates of 3.05% and 3.69%, respectively.

The Notes were issued in private placement offerings to institutional investors and are not listed on any exchange or automated quotation system.

The Notes may be prepaid in certain limited circumstances at the option of the Fund. The Notes are also subject to optional prepayment to the extent needed to satisfy certain requirements if the Fund fails to meet an asset coverage ratio required by the terms of the Notes and is not able to cure the coverage deficiency by the applicable deadline.

The estimated fair value of each series of fixed-rate Notes was calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the current U.S. Treasury rate with an equivalent maturity date, plus either 1) the spread between the interest rate on recently issued debt and the U.S. Treasury rate with a similar maturity date or 2) if there has not been a recent debt issuance, the spread between the AAA corporate finance debt rate and the U.S. Treasury rate with an equivalent maturity date. The following table shows the maturity date, interest rate, notional/carrying amount and estimated fair value for each series of Notes outstanding at October 31, 2016.

Series	Maturity Date	Interest Rate	Notional/ Carrying Amount	Estimated Fair Value
Series A	June 12, 2020	3.05%	\$ 100,000,000	\$ 101,271,004
Series B	June 12, 2023	3.69%	\$ 100,000,000	\$ 103,339,995

9. Credit Facility

On April 9, 2014, the Fund renewed its credit agreement providing for a \$150,000,000 senior secured revolving credit loan facility (the Revolving Credit Facility) with a syndicate of banks with Bank of America Merrill Lynch, N.A., acting as administrative agent. On June 12, 2013 the Fund entered into a term loan agreement (the Term Loan Agreement) providing for \$200,000,000 of senior secured term loans (the Term Loan Facility) from Bank of America, N.A. At October 31, 2016, the Fund had \$125,000,000 outstanding under the Revolving Credit Facility and \$200,000,000 outstanding under the Term Loan Facility. Under the terms of the Revolving Credit Facility and the Term Loan Agreement and applicable regulations, the Fund is required to maintain certain asset coverage ratios for the amount of its outstanding borrowings.

For the fiscal year ended October 31, 2016, the average interest rate on the Revolving Credit Facility was 1.44% and the average balance

of the Revolving Credit Facility was \$125,000,000. Pursuant to the Term Loan Agreement, the Term Loan Facility consists of two separate facilities: \$100,000,000 term loan facility which accrues interest at 2.80% per annum (the Term A Facility) and a \$100,000,000 term loan facility which accrues interest at 2.38% per annum (the Term B Facility). On December 14, 2015 this term loan was extended to December 14, 2019. The rate prior to this renewal was 2.16%. The average rate on the Term B Facility for the year ended October 31, 2016 was 2.35%. For the fiscal year ended October 31, 2016, the average interest rate on the Term Loan Facility was 2.58% and the average balance of the Term Loan Facility was \$200,000,000. The interest expense is accrued on a daily basis and is payable on a monthly basis or on the last date of the respective LIBOR period, as applicable, for the Revolving Credit Facility, and payable on the last business day of each March, June, September and December and the maturity date for the Term Loan Facility.

The estimated fair value of each Term Loan Facility was calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the current U.S. Treasury rate with an equivalent maturity date, the spread between the U.S. insurance and financial debt rate and the U.S. Treasury rate. The following table shows the maturity date, interest rate, notional/carrying amount and estimated fair value for each Term Loan Facility outstanding as of October 31, 2016.

Series	Maturity Date	Interest Rate	Notional/ Carrying Amount	Estimated Fair Value
Term A				
Facility	June 12, 2018	2.80%	\$ 100,000,000	\$ 100,829,701
Term B				
Facility	December 14, 2019	2.38%	\$ 100,000,000	\$ 99,538,581

The Revolving Credit Facility has a term of 3-years and is not a perpetual form of leverage; there can be no assurance that the Revolving Credit Facility will be available for renewal on acceptable terms, if at all. The Term A Facility has a 5-year term. The Term B Facility, which initially had a 3-year term, was recently extended to December 14, 2019. Bank loan fees and expenses included in the Statement of Operations include fees for the renewal of the Revolving Credit Facility as well as commitment fees for any portion of the loan facility not drawn upon at any time during the period.

The estimated fair value of the Revolving Credit Facility was calculated, for disclosure purposes, by discounting future cash flows by a rate equal to the current U.S. Treasury rate with an equivalent maturity date, the spread between the U.S. insurance and financial debt rate and the U.S. Treasury rate. The following table shows the

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

maturity date, interest rate, notional/carrying amount and estimated fair value outstanding as of October 31, 2016.

Maturity Date	Interest Rate	Notional/ Carrying Amount	Estimated Fair Value
April 9, 2017	1.55%	\$ 125,000,000	\$ 124,824,726

10. Risks of Leveraged Capital Structure

The amounts borrowed under the Revolving Credit Facility, the Term Loan Facility and the Notes and other funds obtained through various forms of leverage, including the Series A MRPS, may be invested to return higher rates than the rates pursuant to which interests or dividends are paid under such forms of leverage. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage.

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the Revolving Credit Facility, the Term Loan Facility and the Notes may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is limited in its ability to declare dividends or other distributions under the terms of the various forms of leverage. In the event of an event of default under either the Revolving Credit Facility or Term Loan Facility, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. In the event of an event of default under the Note Purchase Agreement, the holders of the Notes have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund).

Each of the Revolving Credit Facility Agreement, the Term Loan Agreement, the Note Purchase Agreement or the Securities Purchase Agreement relating to the Series A MRPS includes usual and customary covenants for the applicable type of transaction. These covenants impose on the Fund asset coverage requirements, Fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on

the Fund by the 1940 Act. The covenants or guidelines could impede the Investment Manager, Investment Adviser, or Sub-Adviser from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the occurrence of other events could lead to the cancellation of any and/or all of the forms of leverage. As of October 31, 2016, the Fund was in compliance with all covenants under the agreements relating to the various forms of leverage.

During the fiscal year ended October 31, 2016, the Fund incurred fees of approximately \$746,638 for the Revolving Credit Facility, Term Loan Facility and Notes.

11. Portfolio Investment Risks

a. Credit and Market Risk:

A debt instrument's price depends, in part, on the credit quality of the issuer, borrower, counterparty, or underlying collateral and can decline in response to changes in the financial condition of the issuer, borrower, counterparty, or underlying collateral, or changes in specific or general market, economic, industry, political, regulatory, geopolitical, or other conditions. Funds that invest in high yield and emerging market instruments are subject to certain additional credit and market risks. The yields of high yield and emerging market debt obligations reflect,

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

among other things, perceived credit risk. The Fund's investments in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk of not receiving timely and/or ultimate payment of interest and principal, greater market price volatility, and less liquid secondary market trading.

b. Interest Rate Risk:

The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to perceptions about the creditworthiness of individual issuers, including governments. Generally, the Fund's fixed income securities will decrease in value if interest rates rise and vice versa, and the volatility of lower-rated securities is even greater than that of higher-rated securities. Also, longer-term securities are generally more volatile, so the average maturity or duration of these securities affects risk.

The Fund may be subject to a greater risk of rising interest rates due to current period of historically low rates and the effect of potential government fiscal policy initiatives and resulting market reaction to those initiatives.

c. Risks Associated with Foreign Securities and Currencies:

Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers.

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (continued)

October 31, 2016

These risks include future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, and political or social instability or diplomatic developments, which could adversely affect investments in those countries.

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers of industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and high price volatility with respect to securities of issuers from developing countries.

The value of foreign currencies relative to the U.S. Dollar fluctuates in response to market, economic, political, regulatory, geopolitical or other conditions. A decline in the value of a foreign currency versus the U.S. Dollar reduces the value in U.S. Dollars of investments denominated in that foreign currency. This risk may impact the Fund more greatly to the extent the Fund does not hedge its currency risk, or hedging techniques used by the Advisers are unsuccessful.

d. Focus Risk:

The Fund may have elements of risk not typically associated with investments in the United States due to focused investments in a limited number of countries or regions subject to foreign securities or currencies risks. Such focused investments may subject the Fund to additional risks resulting from political or economic conditions in such countries or regions and the possible imposition of adverse governmental laws or currency exchange restrictions could cause the securities and their markets to be less liquid and their prices to be more volatile than those of comparable U.S. securities.

e. Risks Associated with Mortgage-backed Securities:

The value of mortgage-backed securities can fall if the owners of the underlying mortgages default or pay off their mortgages sooner than expected, which could happen when interest rates fall.

f. High-Yield Bonds and Other Lower-Rated Securities Risk

The Fund's investments in high-yield bonds (commonly referred to as "junk bonds") and other lower-rated securities will subject the Fund to substantial risk of loss. Investments in high-yield bonds are speculative and issuers of these securities are generally considered to be less financially secure and less able to repay interest and principal than issuers of investment-grade securities. Prices of high-yield bonds tend to be very volatile. These securities are less liquid than investment-grade debt securities and may be difficult to price or sell, particularly in times of negative sentiment toward high-yield securities.

12. Contingencies

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund, and therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

13. Tax Information

The U.S. federal income tax basis of the Fund's investments and the net unrealized appreciation as of October 31, 2016 were as follows:

Appreciation

Depreciation

Net

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Tax Basis of Investments	Unrealized Appreciation			
\$1,921,529,358	\$65,968,554	\$	(11,965,460)	\$ 54,003,094

The tax character of distributions paid during the fiscal years ended October 31, 2016 and October 31, 2015 was as follows:

	October 31, 2016	October 31, 2015
Distributions paid from:		
Ordinary Income	\$ 59,990,293	\$ 102,766,980
Net long-term capital gains		
Tax return of capital	46,911,791	5,766,249
Total tax character of distributions	\$ 106,902,084	\$ 108,533,229

Aberdeen Asia-Pacific Income Fund, Inc.

Notes to Financial Statements (concluded)

October 31, 2016

As of October 31, 2016, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income net	\$
Undistributed long-term capital gains net	
Total undistributed earnings	\$
Capital loss carryforward	(39,184,958)*
Other currency gains	101,849,395
Other temporary differences	(6,198,819)
Unrealized appreciation/(depreciation) securities	57,240,702**
Unrealized appreciation/(depreciation) currency	(134,225,095)**
Total accumulated earnings/(losses) net	\$ (20,518,775)

* On October 31, 2016, the Fund has a net capital loss carryforward of \$(39,184,958) which will be available to offset like amounts of any future taxable gains. Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law. Capital loss carryforwards expire as follows:

Amounts	Expires
\$17,991,164	2017 (Short-Term)
\$21,193,794	2019 (Short-Term)

** The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities, differing treatments for foreign currencies, the tax deferral of wash sales and straddles, the realization of unrealized gains on certain futures and forward contracts, and other timing differences.

GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, the table below details the necessary reclassifications, which are a result of permanent differences primarily attributable to foreign currency gains and losses, capital gains tax, distributions in excess of current year earnings and profits, premium amortization and swap reclasses. These reclassifications have no effect on net assets or net asset values per share.

Paid-in capital	Accumulated net investment loss	Accumulated net realized loss	Accumulated net realized foreign exchange loss
\$(15,913,186)	\$(2,343,721)	\$ (717,468)	\$ 18,974,375

14. Subsequent Events

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no disclosures or adjustments were required to the financial statements as of October 31, 2016, other than those listed below.

On November 9, 2016 and December 9, 2016, the Fund announced that it will pay on November 25, 2016 and January 11, 2017, a distribution of US \$0.035 per share to all shareholders of record as of November 18, 2016 and December 30, 2016, respectively.

Aberdeen Asia-Pacific Income Fund, Inc.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of

Aberdeen Asia-Pacific Income Fund, Inc.:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the Aberdeen Asia-Pacific Income Fund, Inc. (the Fund), as of October 31, 2016, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, the statement of cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2016, by

correspondence with the custodian and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of October 31, 2016, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, its cash flows for the year then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Philadelphia, Pennsylvania

Aberdeen Asia-Pacific Income Fund, Inc.

Federal Tax Information: Dividends and Distributions (unaudited)

The following information is provided with respect to the distributions paid by the Aberdeen Asia-Pacific Income Fund, Inc. during the fiscal year ended October 31, 2016:

Common Shareholders

Payable Date	Foreign Taxes Paid *	Foreign Source Income**
11/30/15-1/12/16	1.858%	59.46%
1/28/16-10/28/16	3.854%	28.91%

Expressed as a percentage of the distributions paid.

* The foreign taxes paid represent taxes incurred by the Fund on interest received from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments. You should consult your tax advisor regarding the appropriate treatment of foreign taxes paid.

** Expressed as a percentage of ordinary distributions paid grossed-up for foreign taxes paid.

Supplemental Information (unaudited)

Board of Directors Consideration of Advisory and Sub-Advisory Agreements

At an in-person meeting of the Board of Directors (the Board) of Aberdeen Asia-Pacific Fund, Inc. (FAX or the Fund) held on September 7, 2016, the Board, including a majority of the Directors who are not considered to be interested persons of the Fund (the Independent Directors) under the Investment Company Act of 1940, as amended (the 1940 Act), approved for an annual period the continuation of the Fund's management agreement with Aberdeen Asset Management Asia Limited (the Investment Manager), the investment advisory agreement among the Fund, the Investment Manager and Aberdeen Asset Management Limited (the Investment Adviser), and the investment sub-advisory agreement among the Fund, the Investment Manager and Aberdeen Asset Managers Limited (the Sub-Adviser). Collectively, the Investment Manager, the Investment Adviser and the Sub-Adviser are referred to herein as the Advisers and the aforementioned agreements with the Advisers are referred to as the Advisory Agreements. The Investment Adviser and the Sub-Adviser are affiliates of the Investment Manager.

In considering whether to approve the renewal of the Fund's Advisory Agreements, the Board reviews a variety of information provided by the Advisers relating to FAX, the Advisory Agreements and the Advisers, including comparative performance, fee and expense information and other information regarding the nature, extent and quality of services provided by the Advisers under their respective Advisory Agreements. The materials provided to the Board generally include, among other items: (i) information on the

investment performance of the Fund and the performance of peer groups of funds and the Fund's performance benchmarks; (ii) information on the Fund's advisory fees and other expenses, including information comparing the Fund's expenses to those of a peer group of funds and information about any applicable expense limitations and fee breakpoints; (iii) information about the profitability of the Advisory Agreements to the Advisers; (iv) a report prepared by the Advisers in response to a request submitted by the Independent Directors' independent legal counsel on behalf of such Directors; and (v) a memorandum from the Independent Directors' independent legal counsel on the responsibilities of the

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Board in considering for approval the investment advisory and investment sub-advisory arrangements under the 1940 Act and Maryland law. The Board, including the Fund's Independent Directors, also considered other matters such as: (i) the Advisers' financial results and financial condition; (ii) the Fund's investment objective and strategies; (iii) the Advisers' investment personnel and operations; (iv) the procedures employed to determine the value of the Fund's assets; (v) the allocation of the Fund's brokerage, if any, including, if applicable, allocations to brokers affiliated with the Advisers and the use, if any, of soft commission dollars to pay Fund expenses and to pay for research and other similar services; (vi) the resources devoted to, and the record of compliance with, the Fund's investment policies and restrictions, policies on personal securities transactions and other compliance policies; and (vii) possible conflicts of interest. Throughout the process, the Board was afforded the opportunity to ask questions of and request additional materials from the Advisers.

Aberdeen Asia-Pacific Income Fund, Inc.

Supplemental Information (unaudited) (continued)

In addition to the materials requested by the Directors in connection with their annual consideration of the continuation of the Advisory Agreements, the Directors received materials in advance of each regular quarterly meeting of the Board that provided information relating to the services provided by the Advisers.

The Independent Directors were advised by separate independent legal counsel throughout the process. The Independent Directors also consulted in executive sessions with counsel to the Independent Directors regarding consideration of the renewal of the Advisory Agreements. The Directors also considered the recommendation of the Board's Contract Review Committee, consisting solely of the Board's Independent Directors, that the Advisory Agreements be renewed. In considering whether to approve the continuation of the Advisory Agreements, the Board, including the Independent Directors, did not identify any single factor as determinative. Individual Directors may have evaluated the information presented differently from one another, giving different weights to various factors. Matters considered by the Board, including the Independent Directors, in connection with its approval of the continuation of the Advisory Agreements included the factors listed below.

The nature, extent and quality of the services provided to the Fund under the Advisory Agreements. The Directors considered the nature, extent and quality of the services provided by the Advisers to the Fund and the resources dedicated to the applicable Fund by the Advisers. The Board considered, among other things, the Advisers' investment experience. The Board received information regarding the Advisers' compliance with applicable laws and SEC and other regulatory inquiries or audits of the Fund and the Advisers. The Board also considered the background and experience of the Advisers' senior management personnel and the qualifications, background and responsibilities of the portfolio managers primarily responsible for the day-to-day portfolio management services for the Fund. The Board also considered the allocation of responsibilities among the Advisers. The Board also considered that they receive information on a regular basis from the Fund's Chief Compliance Officer regarding the Advisers' compliance policies and procedures. The Board also considered the Advisers' risk management processes. The Board considered the Advisers' brokerage policies and practices. Management reported to the Board on, among other things, its business plans and organizational changes. The Board also took into account their knowledge of management and the quality of the performance of management's duties through Board meetings, discussion and reports during the preceding year.

After reviewing these and related factors, the Board concluded that they were satisfied with the nature, extent and quality of the services provided and supported the renewal of the applicable Advisory Agreements.

Investment performance of the Fund and the Advisers. The Board received and reviewed with management, among other performance data, information compiled by Strategic Insight Mutual Fund Research and Consulting, LLC ("SI"), an independent third-party provider of investment company data as to the Fund's total return, as compared to the funds in the Fund's Morningstar category (the "Morningstar Group"). The Board also received performance information from management that compared the Fund's return to comparable non-U.S. investment companies in its Lipper category.

The Board received and considered information for each of the last five fiscal years regarding the Fund's total return on a gross and net basis and relative to the Fund's benchmark, the Fund's share performance and premium/discount information and the impact of foreign currency movements on the Fund's performance. The Board also received and reviewed information as to the Fund's total return for each of the last five fiscal years as compared with the total returns of its respective Morningstar Group average, and other comparable Aberdeen-managed funds and segregated accounts. The Board considered management's discussion of the factors contributing to differences in performance, including differences in the investment strategies of each of these other funds and accounts. The Board also reviewed information as to the Fund's discount/premium ranking relative to its Morningstar Group. The Board took into account management's discussion of the Fund's performance. The Board concluded that overall performance results were satisfactory and supported continuation of the Advisory Agreements.

Fees and expenses. The Board reviewed with management the effective annual management fee rate paid by the Fund to the Investment Manager for investment management services. Additionally, the Boards received and considered information compiled at the request of the Fund by SI, comparing the Fund's effective annual management fee rate with the fees paid by a peer group consisting of other comparable closed-end funds (each such group, a "Peer Group"). The Board also took into account the management fee structure, including that management fees for the Fund were based on the Fund's total managed assets, whether attributable to common stock or borrowings, if any. The Board also considered that the compensation paid to the Investment Adviser and Sub-Adviser is paid by the Investment Manager, and, accordingly that the retention of the

Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-CSR

Investment Adviser and Sub-Adviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders. The Board also considered information about the Investment Adviser's and Investment Sub-Adviser's fees, including the amount of the management fees retained by the Investment

Aberdeen Asia-Pacific Income Fund, Inc.

Supplemental Information (unaudited) (concluded)

Manager after payment of the advisory and sub-advisory fees. The Board also received information from management regarding the fees charged by the Advisers to other U.S. and non-U.S. clients investing primarily in an asset class similar to that of the Fund. The Board considered the fee comparisons in light of the differences in resources and costs required to manage the different types of accounts.

The Board also took into account management's discussion of the Fund's expenses, including the factors that impacted the Fund's expenses.

Economies of Scale. The Board took into account management's discussion of the Fund's management fee structure. The Board determined that the management fee structure was reasonable. This determination was based on various factors, including that the Fund's management fee schedule provides breakpoints at higher asset levels and how the Fund's management fee compares relative to its Peer Group at higher asset levels.

The Directors also considered other factors, which included but were not limited to the following:

the effect of any market and economic volatility on the performance, asset levels and expense ratios of the Fund.
whether the Fund has operated in accordance with their investment objectives and the Fund's record of compliance with their investment restrictions, and the compliance programs of the Advisers. The Directors also considered the compliance-related resources the Advisers and their affiliates were providing to the Fund.

so-called "fallout benefits" to the Advisers and their affiliates, such as reputational and other indirect benefits. The Directors considered any possible conflicts of interest associated with these fallout and other benefits, and the reporting, disclosure and other processes in place to disclose and monitor such possible conflicts of interest.

* * *

Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent counsel, the Directors, including the Independent Directors, concluded that renewal of the Advisory Agreements would be in the best interest of the Fund and its shareholders. Accordingly, the Board, including the Board's Independent Directors voting separately, approved the Fund's Advisory Agreements for an additional one-year period.

Aberdeen Asia-Pacific Income Fund, Inc.

Management of the Fund (unaudited)

The names of the Directors and Officers of the Fund, their addresses, years of birth, and principal occupations during the past five years are provided in the tables below. Directors that are deemed interested persons (as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended) of the Fund, the Investment Manager or Investment Adviser are included in the table below under the heading Interested Directors. Directors who are not interested persons, as described above, are referred to in the table below under the heading Independent Directors.

As of October 31, 2016

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund may purchase, from time to time, shares of its common stock in the open market.

The common shares of Aberdeen Asia-Pacific Income Fund, Inc. are traded on the NYSE MKT Equities Exchange under the symbol **FAX**. Information about the Fund's net asset value and market price is available at www.aberdeenfax.com

This report, including the financial information herein, is transmitted to the shareholders of Aberdeen Asia-Pacific Income Fund, Inc. for their general information only. It does not have regard to the specific investment objectives, financial situation and the particular needs of any specific person. Past performance is no guarantee of future returns.

Item 2 Code of Ethics.

- (a) As of October 31, 2016, the Registrant had adopted a Code of Ethics that applies to the Registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the Registrant or a third party (the Code of Ethics).
- (c) There have been no amendments, during the period covered by this report, to a provision of the Code of Ethics.
- (d) During the period covered by this report, there were no waivers to the provisions of the Code of Ethics.
- (f) A copy of the Code of Ethics has been filed as an exhibit to this Form N-CSR.

Item 3 Audit Committee Financial Expert.

The Registrant’s Board of Directors has determined that John T. Sheehy, a member of the Board of Directors’ Audit and Valuation Committee, possesses the attributes, and has acquired such attributes through means, identified in instruction 2 of Item 3 to Form N-CSR to qualify as an audit committee financial expert, and has designated Mr. Sheehy as the Audit and Valuation Committee’s financial expert. Mr. Sheehy is considered to be an independent director, as such term is defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4 Principal Accountant Fees and Services.

- (a) (d) Below is a table reflecting the fee information requested in Items 4(a) through (d):

Fiscal	(a)	(b)	(c) ¹	(d)
Year Ended	Audit Fees	Audit-Related Fees	Tax Fees	All Other Fees
October 31, 2016	\$ 80,500	\$ 0	\$ 7,750	\$ 0
October 31, 2015	\$ 80,500	\$ 0	\$ 7,750	\$ 0

¹ The Tax Fees are for the completion of the Registrant’s federal and state tax returns.

- (e)(1) The Registrant’s Audit and Valuation Committee (the Committee) has adopted a Charter that provides that the Committee shall annually select, retain or terminate, and recommend to the Independent Directors for their ratification, the selection, retention or termination, the Fund’s independent auditor and, in connection

therewith, to evaluate the terms of the engagement (including compensation of the independent auditor) and the qualifications and independence of the independent auditor, including whether the independent auditor provides any consulting, auditing or tax services to the Registrant's investment adviser or any sub-adviser, and to receive the independent auditor's specific representations as to their independence, delineating all relationships between the independent auditor and the Registrant, consistent with the PCAOB Rule 3526 or any other applicable auditing standard. PCAOB Rule 3526 requires that, at least annually, the auditor: (1) disclose to the Committee in writing all relationships between the auditor and its related entities and the Fund and its related entities that in the auditor's professional judgment may reasonably be thought to bear on independence; (2) confirm in the letter that, in its professional judgment, it is independent of the Fund within the meaning of the Securities Acts administered by the SEC; and (3) discuss the auditor's independence with the audit committee. The Committee is responsible for actively engaging in a dialogue with the independent auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the independent auditor and for taking, or recommending that the full Board take, appropriate action to oversee the independence of the independent auditor. The Committee Charter also provides that the Committee shall review in advance, and consider approval of, any and all proposals by Management or the Registrant's investment adviser that the Registrant, the investment adviser or their affiliated persons, employ the independent auditor to render permissible non-audit services to the Registrant and to consider whether such services are consistent with the independent auditor's independence. The Committee may delegate to one or more of its members (Delegates) authority to pre-approve permissible non-audit services to be provided to the Fund. Any pre-approval determination of a Delegate shall be presented to the full Committee at its next meeting. The Committee shall communicate any pre-approval made by it or a Delegate to the Adviser, who will ensure that the appropriate disclosure is made in the Fund's periodic reports required by Section 30 of the Investment Company Act of 1940, as amended, and other documents as required under the federal securities laws.

(e)(2) None of the services described in each of paragraphs (b) through (d) of this Item involved a waiver of the pre-approval requirement by the Audit and Valuation Committee pursuant to Rule 2-01 (c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) Non-Audit Fees

For the fiscal year ended October 31, 2016 and October 31, 2015, respectively, KPMG billed \$849,518 and \$201,033 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Manager and Investment Adviser.

(h) The Registrant's Audit and Valuation Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence and has concluded that it is.

Item 5 Audit Committee of Listed Registrants.

- (a) The Registrant has a separately-designated standing Audit and Valuation Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)).

For the fiscal year ended October 31, 2016, the Audit and Valuation Committee members were:

Neville J. Miles

Peter D. Sacks

John T. Sheehy

- (b) Not applicable.

Item 6 Investments.

- (a) Included as part of the Report to Stockholders filed under Item 1 of this Form N-CSR.

- (b) Not applicable.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Pursuant to the Registrant's Proxy Voting Policy and Procedures, the Registrant has delegated responsibility for its proxy voting to its Investment Manager and Investment Adviser, provided that the Registrant's Board of Directors has the opportunity to periodically review the Investment Manager's and Investment Adviser's proxy voting policies and material amendments thereto.

The proxy voting policies of the Registrant are included herewith as Exhibit (d) and policies of the Investment Manager and Investment Adviser are included as Exhibit (e).

Item 8 - Portfolio Managers of Closed-End Management Investment Companies.

- (a)(1) The information in the table below is as of January 9, 2017.

Individual & Position	Services Rendered	Past Business Experience
Victor Rodriguez	Oversees management of fixed income division in Asia-Pacific	Currently, Head of Asia-Pacific Fixed Income for Aberdeen Asset Management Asia Limited. Total assets are as of October 31, 2016 and have been translated to U.S. dollars at a rate of £1.00 = \$1.22.

In accordance with legal requirements in the various jurisdictions in which they operate, and their own Conflicts of Interest policies, all subsidiaries of Aberdeen Asset Management PLC, (together Aberdeen), have in place arrangements to identify and manage Conflicts of Interest that may arise between them and their clients or between their different clients. Where Aberdeen does not consider that these arrangements are sufficient to manage a particular conflict, it will inform the relevant client(s) of the nature of the conflict so that the client(s) may decide how to proceed.

The portfolio managers' management of other accounts, including (1) mutual funds; (2) other pooled investment vehicles; and (3) other accounts that may pay advisory fees that are based on account performance (performance-based fees), may give rise to potential conflicts of interest in connection with their management of a Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. However, Aberdeen believes that these risks are mitigated by the fact that: (i) accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and similar factors; and (ii) portfolio manager personal trading is monitored to avoid potential conflicts. In addition, Aberdeen has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

In some cases, another account managed by the same portfolio manager may compensate Aberdeen based on the performance of the portfolio held by that account. The existence of such performance-based fees may create additional conflicts of interest for the portfolio manager in the allocation of management time, resources and investment opportunities.

Another potential conflict could include instances in which securities considered as investments for a Fund also may be appropriate for other investment accounts managed by Aberdeen or its affiliates. Whenever decisions are made to buy or sell securities by the Fund and one or more of the other accounts simultaneously, Aberdeen may aggregate the purchases and sales of the securities and will allocate the securities transactions in a manner that it believes to be equitable under the circumstances. As a result of the allocations, there may be instances where the Fund will not

participate in a transaction that is allocated among other accounts. While these aggregation and allocation policies could have a detrimental effect on the price or amount of the securities available to a fund from time to time, it is the opinion of Aberdeen that the benefits from the Aberdeen organization outweigh any disadvantage that may arise from exposure to simultaneous transactions. Aberdeen has adopted policies that are designed to eliminate or minimize conflicts of interest, although there is no guarantee that procedures adopted under such policies will detect each and every situation in which a conflict arises.

(a)(3)

Aberdeen's remuneration policies are designed to support its business strategy as a leading international asset manager. The objective is to attract, retain and reward talented individuals for the delivery of sustained, superior returns for Aberdeen's clients and shareholders. Aberdeen operates in a highly competitive international employment market, and aims to maintain its strong track record of success in developing and retaining talent.

Aberdeen's policy is to recognize corporate and individual achievements each year through an appropriate annual bonus scheme. The aggregate value of awards in any year is dependent on the group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards, which are payable to all members of staff, are determined by a rigorous assessment of achievement against defined objectives.

A long-term incentive plan for key staff and senior employees comprises a mixture of cash and deferred shares in Aberdeen PLC or select Aberdeen funds (where applicable). Overall compensation packages are designed to be competitive relative to the investment management industry.

Base Salary

Aberdeen's policy is to pay a fair salary commensurate with the individual's role, responsibilities and experience, and considering market rates being offered for similar roles in the asset management sector and other comparable companies. Any increase is generally to reflect inflation and is applied in a manner consistent with other Aberdeen employees; any other increases must be justified by reference to promotion or changes in responsibilities.

Annual Bonus

The Remuneration Committee of Aberdeen determines the key performance indicators that will be applied in considering the overall size of the bonus pool. In line with practices amongst other asset management companies, individual bonuses are not subject to an absolute cap. However, the aggregate size of the bonus pool is dependent on the group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards are determined by a rigorous assessment of achievement against defined objectives, and are reviewed and approved by the Remuneration Committee.

Aberdeen has a deferral policy which is intended to assist in the retention of talent and to create additional alignment of executives' interests with Aberdeen's sustained performance and, in respect of the deferral into funds, managed by Aberdeen, to align the interest of asset managers with our clients.

Staff performance is reviewed formally at least once a year. The review process evaluates the various aspects that the individual has contributed to Aberdeen, and specifically, in the case of portfolio managers, to the relevant investment team. Discretionary bonuses are based on client

service, asset growth and the performance of the respective portfolio manager. Overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also evaluated.

In the calculation of a portfolio management team's bonus, Aberdeen takes into consideration investment matters (which include the performance of funds, adherence to the company investment process, and quality of company meetings) as well as more subjective issues such as team participation and effectiveness at client presentations. To the extent performance is factored in, such performance is not judged against any specific benchmark and is evaluated over the period of a year - January to December. The pre- or after-tax performance of an individual account is not considered in the determination of a portfolio manager's discretionary bonus; rather the review process evaluates the overall performance of the team for all of the accounts the team manages.

Portfolio manager performance on investment matters is judged over all of the accounts the portfolio manager contributes to and is documented in the appraisal process. A combination of the team's and individual's performance is considered and evaluated.

Although performance is not a substantial portion of a portfolio manager's compensation, Aberdeen also recognizes that fund performance can often be driven by factors outside one's control, such as (irrational) markets, and as such pays attention to the effort by portfolio managers to ensure integrity of our core process by sticking to disciplines and processes set, regardless of momentum and hot themes. Short-terming is thus discouraged and trading-oriented managers will thus find it difficult to thrive in the Aberdeen environment. Additionally, if any of the aforementioned undue risks were to be taken by a portfolio manager, such trend would be identified via Aberdeen's dynamic compliance monitoring system.

¹ The Registrant's stock repurchase program was announced on March 19, 2001 and further amended by the Registrant's Board of Directors on December 12, 2007. Under the terms of the current program, the Registrant is permitted to repurchase up to 10% of its outstanding shares of common stock, par value \$.01 per share, on the open market during any 12 month period.

Item 10 Submission of Matters to a Vote of Security Holders.

During the period ended October 31, 2016, there were no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors.

Item 11 Controls and Procedures.

- (a) The Registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "Act") (17 CFR 270.30a-3(c)) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal half-year that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12 Exhibits.

- (a)(1) Code of Ethics of the Registrant for the period covered by this report as required pursuant to Item 2 of this Form N-CSR.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940, as amended.
- (c) A copy of the Registrant's notices to stockholders, which accompanied distributions paid, pursuant to the Registrant's Managed Distribution Policy since the Registrant's last filed N-CSR, are filed herewith as Exhibits (c)(1), (c)(2), (c)(3), (c)(4), and (c)(5) as required by the terms of the Registrant's SEC exemptive order.
- (d) Proxy Voting Policy of Registrant.
- (e) Investment Manager's and Investment Adviser's Proxy Voting Policies
