<sup>(1)</sup> The annualized rates of return are calculated on a semi-annual bond equivalent basis with compounding.

<sup>(2)</sup> The starting level.

The above figures are for purposes of illustration only and may have been rounded for ease of analysis. The actual amount you receive at stated maturity and the resulting pre-tax rate of return will depend on the actual average ending level.

How the redemption amount is calculated

The redemption amount per note payable at maturity will be determined as follows:

If the average ending level is greater than the starting level, the redemption amount will be equal to \$1,000 *plus* the greater of:

(i) the minimum return; and

(ii)  $\$1,000 \times \frac{\text{average ending level} - \text{starting level}}{\text{starting level}} \times \text{participation rate}$

If the average ending level is less than or equal to the starting level, the redemption amount will be equal to \$1,000 *plus* the minimum return

You May Not Receive Any Return On The Notes In Excess Of The Minimum Return.

You Will Be Required To Recognize Taxable Income On The Notes Prior To Maturity.

The Potential For A Return In Excess Of The Minimum Return On The Notes At Stated Maturity Is Based On The Average Performance Of The Index During The Term Of The Notes, Which May Be Less Favorable Than The Performance Of The Index As Measured From Its Starting Level To Its Level At Or Near Stated Maturity.

The Notes Are Subject To The Credit Risk Of Wells Fargo.

The Estimated Value Of The Notes On The Pricing Date, Based On Wells Fargo Securities, LLC's Proprietary Pricing Models, Is Less Than The Original Offering Price.

The Estimated Value Of The Notes Is Determined By The Issuer's Affiliate's Pricing Models, Which May Differ From Those Of Other Dealers.

The Estimated Value Of The Notes Is Not An Indication Of The Price, If Any, At Which Wells Fargo Securities, LLC Or Any Other Person May Be Willing To Buy The Notes From You In The Secondary Market.

The Value Of The Notes Prior To Stated Maturity Will Be Affected By Numerous Factors, Some Of Which Are Related In Complex Ways.

The Notes Will Not Be Listed On Any Securities Exchange And The Issuer Does Not Expect A Trading Market For The Notes To Develop.

The Amount You Receive On The Notes Will Depend Upon The Performance Of The Index And Therefore The Notes Are Subject To The Following Risks, As Discussed In More Detail In The Product Supplement:

*Your Return On The Notes Could Be Less Than If You Owned Securities Included In The Index.*

*Historical Levels Of The Index Should Not Be Taken As An Indication Of The Future Performance Of The Index During The Term Of The Notes.*

*Changes That Affect The Index May Adversely Affect The Value Of The Notes And The Amount You Will Receive At Stated Maturity.*

*The Issuer Cannot Control Actions By Any Of The Unaffiliated Companies Whose Securities Are Included In The Index.*

*The Issuer And Its Affiliates Have No Affiliation With The Index Sponsor And Have Not Independently Verified Its Public Disclosure Of Information.*

The Stated Maturity Date May Be Postponed If The Final Calculation Day Is Postponed.

The Issuer's Economic Interests And Those Of Any Dealer Participating In The Offering Are Potentially Adverse To Your Interests.

*The calculation agent is the Issuer's affiliate and may be required to make discretionary judgments that affect the return you receive on the notes.*

*The estimated value of the notes was calculated by the Issuer's affiliate and is therefore not an independent third-party valuation.*

*Research reports by the Issuer's affiliates or any participating dealer or its affiliates may be inconsistent with an investment in the notes and may adversely affect the level of the Index.*

*Business activities of the Issuer's affiliates or any participating dealer or its affiliates with the companies whose securities are included in the Index may adversely affect the level of the Index.*

*Hedging activities by the Issuer's affiliates or any participating dealer or its affiliates may adversely affect the level of the Index.*

*Trading activities by the Issuer's affiliates or any participating dealer or its affiliates may adversely affect the level of the Index.*

*A participating dealer or its affiliates may realize hedging profits projected by its proprietary pricing models in addition to any selling concession and/or distribution expense fee, creating a further incentive for the participating dealer to sell the notes to you.*

**Not suitable for all investors**

**Investment suitability must be determined individually for each investor. The notes described herein are not a suitable investment for all investors. In particular, no investor should purchase the notes unless they understand and are able to bear the associated market, liquidity and yield risks.
