Table of Contents**Proposal 1:****Election of Directors****General**

Our Board has six members. Our directors are divided into three classes and serve staggered three year terms. Class I, Class II and Class III directors will serve until our annual meetings of shareholders in 2019, 2020 and 2018, respectively. The Board has nominated Lon McCain and Mark E. Monroe, each of whose term as a director expires as of the Annual Meeting, to be re-elected as a Class III director for a term to continue until the 2021 Annual Meeting of Shareholders, each to serve until their respective successor has been elected and qualified or until their earlier resignation or removal. On March 26, 2018, it was announced that Mr. Gallogly had accepted an appointment as president designate of the University of Oklahoma, starting July 1, 2018. In connection with accepting this appointment, Mr. Gallogly submitted his resignation from the Company's Board of Directors, effective at the conclusion of the Annual Meeting, so that he would be in a position to devote the necessary time and attention to fulfilling his new position.

The election of a director requires the affirmative vote of a plurality of the shares of Common Stock voting in person or by proxy at the Annual Meeting. All proxies received will be voted, in the absence of instructions to the contrary, for the re-election of Messrs. McCain and Monroe to the Board. While withheld votes will not effect the outcome of the election, our Bylaws provide a nominee for director in an uncontested election who receives a greater number of votes withheld from his or her election than votes for such election shall submit his or her offer of resignation for consideration by the Nominating/

Corporate Governance Committee of the Board within ninety (90) days from the date of the election. The Nominating/Corporate Governance Committee of the Board shall consider all relevant facts and circumstances and recommend to the Board the action to be taken with respect to such offer of resignation.

Should a nominee for election to the Board be unable to serve for any reason, the Board may designate a substitute nominee in which event all proxies received without instructions will be voted for the election of such substitute nominee. To the best knowledge of our Board, each of the named nominees will serve if elected.

The Board recommends the shareholders vote for the re-election of Lon McCain and Mark E. Monroe to the Board.

The following table outlines certain information about each of the director nominees as well as our other directors as of April 5, 2018:

Table of Contents
Corporate Governance Matters

We are a controlled company within the meaning of the listing standards of the NYSE because a limited liability company owned by our Chairman and Chief Executive Officer, Harold G. Hamm, and members of his family own more than 50% of our outstanding shares of Common Stock. Consequently, we are not required to comply with certain NYSE listed company requirements, such as the requirement to have a majority of independent directors on our Board, or the requirement to have compensation and nominating committees comprised entirely of independent directors. However, we are required to have an independent Audit Committee, and we have voluntarily established a Compensation Committee comprised entirely of independent directors and a Nominating/Corporate Governance Committee. The Board uses the independence standards of the NYSE corporate governance rules generally applicable to directors for determining whether directors are independent. A copy of those standards is attached as Annex A. The Board additionally follows applicable rules of the Securities and Exchange Commission (SEC) in determining independence for committee members. The Board has determined Messrs. Berry, Gallogly, McCain, McNabb and Monroe have no relationship with the Company other than as a director and shareholder and are independent under the NYSE and SEC rules for purposes of service on the Board and its committees. Mr. Boren, whose term expired at the 2017 Annual Meeting, was determined to be independent on the same basis as described above, during the time of his service. Members of each committee are elected annually by the Board and serve for one year terms, until their successors are elected and qualified or until their earlier resignation or removal.

The Board held 9 meetings and acted by unanimous consent 2 times during the year ended December 31, 2017. Directors are expected to attend all meetings of the Board and the committees on which they serve. To be re-nominated, directors must have attended at least 75% of the Board and committee meetings during their term, and all directors did so during 2017. All then incumbent directors attended the 2017 Annual Meeting of Shareholders and all directors plan to attend the 2018 Annual Meeting. Under our Corporate Governance Guidelines, attendance at the Annual Meeting is listed as an indicator to be considered when evaluating whether a director is devoting sufficient time to his or her responsibilities.

Board Leadership Structure Harold G. Hamm serves as the Company's Chairman and Chief Executive Officer. Additionally, through Harold Hamm Family LLC (the Family LLC), a limited liability company owned by Harold G. Hamm, members of his family and trusts established for their benefit and for which Mr. Hamm serves as manager, Mr. Hamm exercises voting and dispositive power over approximately 75.28% of our outstanding shares of Common Stock as of March 22, 2018. The Board believes this leadership structure is appropriate because of the efficiencies of having the Chief Executive Officer also serve in the role of Chairman of the Board, Mr. Hamm's role in founding the Company, and Mr. Hamm's ongoing control of a significant financial interest in the Company through the Family LLC.

Lead Director The Board has appointed Mr. Monroe to serve as lead director with the following responsibilities similar to those typically performed by an independent Chairman: (i) presides at all meetings of the Board at which the Chairman is not present, including executive sessions of the independent directors; (ii) acts as a key liaison between the Chairman and Chief Executive Officer and the independent directors; (iii) provides input into the materials to be delivered to the directors in advance of each Board meeting; (iv) provides feedback regarding the quality, quantity, and timeliness of those materials; and (v) communicates Board member feedback to the Chairman and Chief Executive Officer. At the February 2018 Board meeting, Mr. Monroe was re-appointed to serve as lead director, effective immediately following the Annual Meeting for a period extending through the 2019 Annual Meeting.

Risk Oversight The Board is responsible for overseeing our Company's management of risk. The Board strives to effectively oversee our enterprise-wide risk management in a way that balances managing risks while enhancing the long-term value of our Company for the benefit of our shareholders. The Board understands its focus on effective risk

oversight is critical to setting our company's tone and culture towards effective risk management. To administer its oversight function, the Board seeks to understand our Company's risk philosophy by having regular discussions with management to establish a mutual understanding of our Company's overall appetite for risk. The Board maintains an active dialogue with management, including the Chief Executive Officer, Chief Financial Officer, and Chief Risk Officer, about existing risk management processes and how management identifies, assesses and manages our most significant risk exposures, including commodity price risk, liquidity risk, reputational risk, operational risk, safety risk, cybersecurity risk, compliance risk and legal risk. The Board appointed Eric S. Eissenstat in May 2014 as Chief Risk Officer to further enhance the Company's enterprise risk management. Mr. Eissenstat is primarily responsible for instituting risk management practices consistent with our overall business strategy and risk profile. The Board expects, and receives, regular updates from Mr. Eissenstat and other members of our management team about our most significant risks so as to enable it to evaluate whether management is responding appropriately. For example, senior management attends Board meetings and is available to address any questions or concerns raised by our Board on risk management-related and other matters. In addition, our Board receives presentations from senior management on strategic matters.

Table of Contents

The Board also relies on each of its committees to help oversee the risk management responsibilities relating to the functions performed by such committees. The Audit Committee considers risks related to financial reporting including overseeing our internal controls and interacting with our independent public accounting firm at least quarterly. The Compensation Committee oversees our compensation practices to ensure they do not encourage unnecessary and excessive risk taking by management. The Nominating/Governance Committee oversees risks relating to our corporate governance and compliance programs and assists the Board and management in promoting an organizational culture that encourages commitment to ethical conduct and a commitment to compliance with the law. Each of the Board's committees report regularly to the Board on risk-related matters within its responsibilities. While the Board does not directly consider the Company's risk profile and management program in assessing its leadership structure, a board member's ability to oversee the risks associated with the matters supervised by a committee is considered in making committee appointments.

Board Committees Our Board has three standing committees: (i) an Audit Committee; (ii) a Compensation Committee; and (iii) a Nominating/ Corporate Governance Committee. Each committee is governed by a written charter approved by the full Board. These charters form an integral part of our corporate governance policies and are available on our website, www.CLR.com.

The tables below provide information regarding the current composition of each standing committee of our Board, the significant responsibilities of each committee as set forth in their respective charters and the number of times each committee met or acted by written consent in 2017:

Corporate Governance Guidelines and Communications with the Board

We have adopted Corporate Governance Guidelines and a Code of Business Conduct and Ethics in accordance with the rules of the NYSE. We last amended our Corporate Governance Guidelines in March 2017 and our Code of Business Conduct and Ethics (formerly titled Code of Ethics) in September 2014. The Code of Business Conduct and Ethics is applicable to all employees and directors, including our principal executive, financial, and accounting officers. In addition, each of the standing committees of the Board has a charter which has been approved by the Board. Copies of the Corporate Governance Guidelines, Code of Business Conduct and Ethics, and committee charters are available on our website, www.CLR.com, and a printed copy of any of these documents will be made available to any shareholder requesting one from our Secretary.

Our Corporate Governance Guidelines require the non-management directors to meet in regularly scheduled executive sessions. Mr. Monroe was selected by the Board to serve as lead director through the 2018 Annual Meeting and, acting in that capacity, he and Mr. Berry, his predecessor as Lead Director, presided over 3 executive sessions in 2017. At the February 2018 Board meeting, Mr. Monroe was re-appointed to serve as lead director, effective immediately following the Annual Meeting for a period extending through the 2019 Annual Meeting.

Any shareholder or interested party desiring to communicate or express concerns to us, directors generally, non-management directors or an individual director may do so only by submission in writing to Continental Resources, Inc., Attn: Secretary, 20 N. Broadway, Oklahoma City, Oklahoma 73102, with information sufficient to identify the person submitting the communication or concern, including the name, address, telephone number, and an e-mail address (if applicable), together with information indicating the relationship of such person to us. Our Secretary is responsible for maintaining a record of any such communications or concerns and submitting them to the appropriate person(s) for potential action or response. We will verify the authenticity of any communication or concern before submission. We are not obligated to investigate or submit any anonymous submissions from persons who are not our employees.

Although we are a controlled company under the listing standards of the NYSE, the Board has voluntarily established a Nominating/Corporate Governance Committee. Our Nominating/Corporate Governance Committee is responsible for assessing the skills and characteristics of Board members and for screening potential Board candidates. While the Nominating/Corporate Governance Committee has no minimum qualifications for candidates, the Committee generally reviews and evaluates both incumbent and potential new directors to achieve diversity of skills and experience among our directors, based on the following criteria set forth in our Corporate Governance Guidelines:

commitment and background to represent shareholder interests;

moral character and integrity;

ability to apply sound business judgment;

independence and freedom from conflicts of interest;

ability to devote time necessary to understand the Company and carry out the duties of a director, including attendance at meetings and consultation on Company matters;

ability to function as a team member and communicate effectively;

professional and personal accomplishments;

understanding of strategic issues;

ability to understand financial matters and read financial statements;

oil and gas exploration and energy experience; and

experience with risk assessment.

Qualified candidates for nomination to the Board are considered without regard to race, color, religion, gender or national origin. The process used by the Nominating/Corporate Governance Committee for identifying and evaluating nominees for the Board consists of reviewing qualifications of candidates suggested by management, other Board members, shareholders, or other sources. In evaluating nominees, the Nominating/Corporate Governance Committee considers whether it has been successful in achieving the desired diversity of skills and experience based on the then current composition of the Board. The Nominating/Corporate Governance Committee will consider recommendations for nomination as a Board member by any shareholder of the Company who is a shareholder of record at the time of giving notice to the Company as provided in the Company bylaws (the Bylaws), is entitled to vote on the election of directors at the meeting, and complies with the notice procedures set forth in our Bylaws. Such nominations shall be made pursuant to timely notice in writing to Continental Resources, Inc., Attn: Secretary, 20 N. Broadway, Oklahoma City, Oklahoma 73102. The Nominating/Corporate Governance Committee will identify a replacement for Mr. Gallogly and make a recommendation for approval by the Board as soon as practicable following Mr. Gallogly's departure from the Board after the conclusion of the Annual Meeting.

To be timely, a shareholder's notice shall be delivered to or mailed and received at our principal executive office (i) with respect to an election of directors to be held at the annual meeting of the shareholders of the Company, not later than ninety (90) days or more than one hundred twenty (120) days prior to the one year anniversary date of the preceding year's annual meeting of shareholders of the Company; provided, however, if the date of the annual meeting is advanced more than thirty (30) days prior to or delayed by more than thirty (30) days after the anniversary of the preceding year's annual meeting, to be timely, a shareholder's notice must be so delivered not later than the close of business on the later of the ninetieth (90th) day prior to such annual meeting or the tenth (10th) day following the day on which public announcement of the date of such meeting is first made; and (ii) with respect to a special meeting of shareholders called for the purpose of electing one or more directors to the Board, not earlier than the ninetieth (90th) day prior to such special meeting and not later than the close of business on the later of the seventieth (70th) day prior to such special meeting or the tenth (10th) day following the day on which public announcement of the date of the special meeting is first made. Such shareholder's notice to the Secretary shall set forth (a) as to each person whom the shareholder proposes to nominate for election or re-election as a director, all information relating to the person required to be disclosed in solicitations for proxies for election of directors, or is otherwise required, pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including the written consent of such person to be named in the proxy statement as a nominee and to serve as a director if elected), and (b) as to the shareholder giving the notice (i) the name and address, as they appear on the Company's books, of such shareholder, and (ii) the class and number of shares of capital stock of the Company that are beneficially owned by the shareholder.

There are no specific minimum qualifications for shareholder nominees. The Company has not previously received nominees from shareholders. All nominees, regardless of source, will be evaluated by the Nominating/Corporate Governance Committee in the same manner and using the same criteria as is used for nominees recommended by the committee.

The Audit Committee recommends for approval only those related party transactions that are, in its business judgment, in our best interests and on terms no less favorable to us than we could have achieved with an unaffiliated party.

Transactions

In 2017, we participated in the related party transactions described below. Based upon the review and recommendations of our Audit Committee, or of our Board, or other committee thereof in the case of the transactions described in the following sentence, we believe the transactions described below are in our best interests and are on terms no less favorable to us than we could have achieved with an unaffiliated party. Our Audit Committee reviewed and recommended each of the transactions described below except that a Special Committee of the Board reviewed and recommended the registration rights agreement described below under Registration Rights Agreements Wheatland Transaction Registration Rights Agreement; and the full Board reviewed and recommended the registration rights agreement described below under Registration Rights Agreements Initial Public Offering Registration Rights Agreement.

Royalty and Common Ownership

In 2017, we received approximately \$302,000 from the Harold G. Hamm Trust (the Hamm Revocable Trust), a trust of which Harold G. Hamm, our Chief Executive Officer and Chairman of the Board, is the trustee and sole beneficiary, for billings on interests owned in various oil and gas wells which we operate. We also disbursed to the Hamm Revocable Trust approximately \$458,000 in 2017 for the Hamm Revocable Trust 's share of oil and gas sales attributed to these interests which were received from the purchasers of production. At December 31, 2017, approximately \$47,000 was due from the Hamm Revocable Trust and approximately \$46,000 was due to the Hamm Revocable Trust.

Aircraft Related Matters

From time to time, we have used the aircraft of Transwestern Transports, LLC (Transwestern), an entity owned by Mr. Hamm, to facilitate efficient transportation of personnel. The rates charged vary by type of aircraft used. In 2017, we paid Transwestern approximately \$368,000 for use of its aircraft and reimbursement of expenses and owed approximately \$92,000 to Transwestern at December 31, 2017.

Table of Contents*Registration Rights Agreements*

Initial Public Offering Registration Rights Agreement. In connection with the closing of our initial public offering in May 2007, we entered into a registration rights agreement with the Hamm Revocable Trust and the two irrevocable trusts established for the benefit of Mr. Hamm's children pursuant to which we granted to the trusts certain demand and piggyback registration rights. The Hamm Revocable Trust and the two irrevocable trusts identified above transferred the securities subject to this registration rights agreement to the Family LLC in September 2015 (the September Transfer). As a result, the rights of the Hamm Revocable Trust and the two irrevocable trusts under this registration rights agreement may be assigned to the Family LLC at the direction of these entities. Under the registration rights agreement, each holder of securities covered by the registration rights agreement has the one time right to require us to file a registration statement for the public sale of all or part of the shares of Common Stock owned by it at any time if at least six months have passed since the last demand registration statement. In connection with a demand by any such holder, the non-demanding parties have the right to participate in such registration process. However, in the event securities are to be sold in an underwritten offering pursuant to such demand registration statement and the managing underwriter thereof advises the participants the amount of securities to be offered thereby should be limited, such limitation shall be satisfied first from the securities allocated to participants other than the demanding party.

If we sell any shares of our Common Stock in a registered underwritten offering, each holder of securities covered by the registration rights agreement has the right to include its shares in that offering. The underwriters of any such offering have the right to limit the number of shares to be included in such sale. We will pay all expenses relating to any demand or piggyback registration, except for underwriters' or brokers' commissions or discounts. The securities covered by the registration rights agreement will no longer be registrable under the registration rights agreement if they have been sold to the public either pursuant to a registration statement or under Rule 144 promulgated under the Securities Act of 1933, as amended.

Wheatland Transaction Registration Rights Agreement. In March 2012, the Company entered into a Reorganization and Purchase and Sale Agreement (the Purchase and Sale Agreement) with Wheatland Oil Inc. (Wheatland) and the shareholders of Wheatland. Wheatland is owned 75% by the Hamm Revocable Trust and 25% by Jeffrey B. Hume, the Company's Vice Chairman of Strategic Growth Initiatives.

Pursuant to the Purchase and Sale Agreement, we entered into a registration rights agreement granting the Hamm Revocable Trust and Mr. Hume registration rights for the shares of Common Stock they received, at the direction of Wheatland, upon the closing of the acquisition (the Registrable Securities). The Hamm Revocable Trust transferred the Registrable Securities held by it to the Family LLC as part of the September Transfer. As a result, the rights of the Hamm Revocable Trust under this registration rights agreement may be assigned to the Family LLC at the direction of the Hamm Revocable Trust and Family LLC. Under the registration rights agreement, each holder of Registrable Securities has demand and piggyback registration rights. The demand rights enable each of the holders of Registrable Securities to require us to register their respective shares of Registrable Securities with the SEC at any time, subject to certain limited exceptions, including the requirement that the aggregate proceeds from the demand registration exceed \$40 million (net of underwriting discounts and commissions) and the Company is not required to effect more than four demand registrations in any three year period. The piggyback rights allow each of the holders of Registrable Securities to register their Registrable Securities along with any shares we register with the SEC. These registration rights are subject to customary conditions and limitations, including the right of the underwriters of an offering to limit the number of shares.

Enid Building Sale

In July 2017, HTH Enterprises, LLC, an entity 100% owned by Harold Thomas Hamm, the son of Mr. Hamm, our Chairman and Chief Executive Officer, purchased a building located in Enid, Oklahoma from the Company for a gross sales price of \$565,000. The gross sales price for the building represents the average of two independent appraisals.

Table of Contents**Non-Employee Director Compensation****General**

The Compensation Committee reviews annually the total compensation paid to our non-employee directors. The purpose of the review is to ensure the level of compensation is appropriate to attract and retain a diverse group of directors with the breadth of experience necessary to perform our Board's duties, and to fairly compensate our directors for their service. This review includes consideration of qualitative and quantitative factors. To ensure directors are compensated relative to the scope of their responsibilities, the Compensation Committee considers: (a) the time and effort involved in preparing for Board, committee and management meetings and the additional duties assumed by committee chairs; (b) the risks associated with serving on the Board; and (c) the compensation paid to directors at a peer group of companies as reported by the Compensation Committee's compensation consultant.

Directors who are also full-time employees receive no compensation for serving as directors. Mr. Hamm's compensation for his services as an employee is fully reported within the Summary Compensation Table on pages 32 and 33. We reimburse all directors for reasonable out-of-pocket expenses incurred in connection with their services as directors in accordance with our general expense reimbursement policies. Non-employee directors may participate in our medical and dental benefit programs, which are available to all full-time employees, as well as the Company's non-qualified deferred compensation program ("DCP").

2017 Retainers / Fees

During 2017, the amount of the base annual retainer was \$60,500. The amount of the annual retainer paid to the chair of the Audit Committee was \$25,000; the amount of the annual retainer paid to the chair of the Compensation Committee was \$15,000; and the amount of the annual retainer paid to the chair of the Nominating/Corporate Governance Committee was \$16,000. During 2017, the annual retainer for Audit Committee members was \$21,875; the annual retainer for Compensation Committee members was \$11,765; and the annual retainer for Nominating/Corporate Governance Committee members (except for Mr. Hamm) was \$10,765. The retainer structure described in this paragraph remains in effect as of the date of this filing.

Any applicable annual retainer was paid quarterly on a pro-rata basis and the amounts appearing in the table above reflect the retainer rate applicable to the quarter in which it was paid. None of the non-employee directors elected to participate in the DCP during 2017.

During 2017, the amount of the annual retainer for the position of Lead Director was \$12,000 and this rate remains in effect as of the date of this filing.

Equity-Based Compensation

In addition to cash compensation, we awarded and intend to continue to award restricted Common Stock to each of our non-employee directors. On May 18, 2017, each of our non-employee directors, other than Mr. Boren and Mr. Gallogly, was granted 5,403 shares of restricted Common Stock which vest on May 15, 2020. On May 18, 2017, Mr. Gallogly received a grant of 16,209 shares; which vests in increments of 5,403 shares on each of May 15, 2018; May 15, 2019; and May 15, 2020. It is expected Mr. Gallogly will forfeit the shares associated with the May 15, 2019 and May 15, 2020 vestings in connection with his resignation from the Board effective after the Annual Meeting. Mr. Boren did not receive a restricted Common Stock grant since he did not serve past the expiration of his term at the 2017 Annual Meeting. Our general practice has been to grant to each non-employee director shares of restricted stock annually, with such shares vesting three years after the date of grant. The number of shares of any future award may be impacted by the value of our stock at the time of the award and other relevant factors. Through the grant of such equity-based compensation, we are able to align a portion of our non-employee directors' compensation with the performance of our Common Stock.

We have adopted a Common Stock ownership requirement for non-employee directors. Each non-employee director is required to own shares of our Common Stock with a market value equal to at least three times the base annual retainer. In addition, we have a policy which prohibits certain employees and directors from holding our securities in a margin account or pledging our securities as collateral, unless permission is received from our General Counsel in writing, or from engaging in certain transactions which may hedge the value of our securities held by them.

Until the stock ownership guideline is achieved, each non-employee director is required to retain 100% of the shares received as a result of restricted shares granted under our 2005 Long-Term Incentive Plan (the "2005 Plan") and/or 2013 Long-Term Incentive Plan (the "2013 Plan"). The stock ownership calculation is determined as of December 31 each year based upon the average closing price of the Common Stock for the year compared to the non-employee director's base annual retainer as of such date. Shares owned directly by, or held in trust for, the non-employee director or his or her immediate family members residing in the same household and unvested restricted shares are included in the calculation. The Compensation Committee reviewed the non-employee directors' stock ownership and determined as of December 31, 2017, each non-employee director was in compliance with the stock ownership guidelines.

Following this discussion are tables that include compensation information for the NEOs. The NEOs for 2017 are as follows:

Harold G. Hamm, Chairman of the Board and Chief Executive Officer;

Jack H. Stark, President;

John D. Hart, Senior Vice President, Chief Financial Officer and Treasurer;

Executive Summary

Company Compensation Philosophy and Components Because we operate in a highly competitive environment, we have designed our executive compensation program to attract, retain and motivate experienced, talented individuals. We also designed our executive compensation program to reward our executives for achieving the strategic and business objectives determined to be important to help the Company create and maintain advantage in a competitive environment.

In determining individual compensation, we consider the performance of the Company against specific operational and financial factors determined to be relevant for the period in question. We consider competitive market compensation paid by other companies comparable to us in size, geographic location and operations. We maintain and incorporate flexibility into our compensation programs and in the assessment process, which we believe is particularly important in the current commodity price environment, which has improved, but remains volatile. As such, we do not apply rigid formulas in determining the amount and mix of compensation elements.

In 2017, the Compensation Committee evaluated how the following elements (collectively, the Primary Compensation Elements) of our compensation program compare to similar compensation awarded by the then current compensation survey group, with the Compensation Committee considering how the elements of our compensation compare to the target percentiles indicated below. Subsequent to setting 2017 compensation levels for Executive Officers, the Committee conducted a review of target levels among the current survey peer group of companies, and requested input and recommendation from its executive compensation consultant, Longnecker, as part of a process to evaluate existing target levels. Based on this review and the recommendation from Longnecker, the Committee approved the revised target levels for 2018 as noted below. The 2018 target levels, which did not play a role in compensation awarded with respect to 2017, further emphasize compensation elements whose value depends on Company performance, with the opportunity for compensation between the 50th and 75th percentiles, while aligning the fixed compensation element, base salary, with the 50th percentile.

Base salary – fixed cash component – generally targeted between the 50th and 75th percentile for 2017; 50th percentile beginning in 2018;

Cash bonus – short-term, variable cash component based on Company and individual performance – individual targets generally set at the 50th percentile for 2017; between the 50th and 75th percentile beginning in 2018; and

Table of Contents

Long-term incentive equity awards equity component with vesting periods designed to align the interests of executive and shareholders generally set between the 50th and 75th percentile for 2017 and will continue in 2018.

Based on the strength of 2016's accomplishments, an improving commodity price environment, the need to ensure the Company's compensation remains competitive with its industry peers and a review of the information customarily provided in connection with the compensation process, the Compensation Committee determined it was appropriate to adjust salaries in 2017. Bonus payments were also made with respect to 2017 based on the Company's strong operational performance. In determining the final Company performance factors to be used in the bonus calculation, the Compensation Committee considered the Company's performance with respect to the four bonus pool metrics and the additional factors described below in the discussion of the 2017 bonus. After considering these items, the Compensation Committee determined a Company performance factor of 150% appropriately reflected a balance of (x) the strong results achieved in connection with the four bonus pool metrics and (y) the Committee's assessment of the Company's performance with respect to the additional factors.

In setting Mr. Maranto's compensation as a new employee, the Compensation Committee set his compensation at a level commensurate with his role and responsibilities at the Company. It also considered internal pay equity and whether the components of his compensation package were consistent with targeted percentiles described above. As a result of his departure in June 2017, Mr. Maranto forfeited all stock awards made in connection with his employment and he did not receive a cash bonus with respect to the 2017 year.

Company Performance Highlights of the Company's 2017 performance include:

Net cash provided by operating activities increased 85% compared to 2016.

2017 average fourth quarter production increased 37% compared to 2016 average fourth quarter production.

Full-year production growth of 12% compared to 2016.

Improved full-year crude oil and natural gas differentials relative to benchmark prices by 25% and 74%, respectively, compared to 2016.

Completed steps necessary for transition to full field development of key assets.

Year-end 2017 proved reserves increased 6% (adjusted for 2017 divestitures) compared to year-end 2016.

At December 31, 2017, the Company's total debt was reduced by \$226 million compared to December 31, 2016, demonstrating continued progress made toward the Company's goal of reducing the total amount of its debt.

A discussion of the Company's performance with respect to the metrics used for the Company's 2017 annual cash bonus plan appears under the heading, "Annual Cash Bonus" below.

Compensation Actions The following is a summary of the material compensation decisions made by the Compensation Committee for 2017:

Base Salary The base salaries of our NEOs (other than Mr. Maranto) were adjusted, on average, 4.5% during 2017 for the reasons described above. Mr. Maranto's salary was not adjusted in 2017, since his employment with the Company commenced in 2017.

Table of Contents

Cash Bonus For 2017, the individual bonus target levels for Mr. Hamm, Mr. Stark and Mr. Gould remained as set in 2016. The Compensation Committee did not adjust the bonus target levels for these individuals as their existing targets were both competitive by comparison to the defined survey group as well as internally equitable. The Compensation Committee adjusted the bonus target levels for Mr. Hart and Mr. Eissenstat since their target levels were below the targeted percentile of our peer survey group. Mr. Maranto's bonus target level was not adjusted in 2017, since his employment with the Company commenced in 2017. The targets for 2017 are set forth in the table below.

Name	2017 Bonus Target
Harold G. Hamm	150%
Jack H. Stark	100%
John D. Hart	100%
Gary E. Gould	80%
Eric S. Eissenstat	80%
Tony Maranto	100%

Long-term incentive equity awards In February 2017, long-term incentive equity awards of restricted stock were made to each of our NEOs, other than Mr. Maranto, with three-year cliff vesting at a level consistent with the targeted percentiles described above. In connection with his employment by the Company, Mr. Maranto received an initial award of restricted stock in May of 2017, which would have vested in equal increments of one-third over a three-year period. Mr. Maranto's award was made at a level consistent with the targeted percentiles described above. Mr. Maranto's initial award was forfeited in connection with the termination of his employment.

In addition, awards made to each of the NEOs also reflected the Compensation Committee's evaluation of the performance of each of the NEOs with respect to the 2017 Performance Factors (as defined below) and other factors described below in connection with the discussion of each of the Primary Compensation Elements.

The following charts illustrate the various components of total annual compensation for our Chief Executive Officer and the other NEOs as a group, excluding Mr. Maranto, and reflect the following: (i) annual base salary paid for 2017; (ii) the cash bonus for 2017 paid in February 2018; (iii) the grant date fair value of the long-term equity incentive awards granted in 2017 (which is the value of the awards based on accounting principles on the date of grant, and not necessarily reflective of the amounts the NEOs may receive at the time of settlement); and (iv) the other compensation for each NEO included in the Summary Compensation Table below.

Key Executive Compensation Policies and Practices Key executive compensation policies and practices include:

Independent compensation consultant engaged by the Compensation Committee;

No individual employment agreements;

Majority of compensation is restricted stock awards with vesting periods designed to align interests of executives and shareholders;

Robust stock ownership requirements 5x of base salary for the Chief Executive Officer and President and 3x of base salary for the other executive officers;

Executive Compensation Philosophy

We operate in a highly competitive environment for securing trained and qualified personnel. We believe the loss of the services of members of our senior management could have a material adverse impact on our operations.

Accordingly, we have designed our executive compensation program to attract, retain and motivate experienced, talented individuals to achieve our primary business goals, using the business strategies discussed in greater detail in our Annual Report on Form 10-K. We have also designed our executive compensation program to reward our executives for achieving the strategic and business objectives determined to be important to help the Company create and maintain an advantage in a competitive environment. Specifically, the Primary Compensation Elements of our executive compensation program are designed to reward the achievement of these objectives by:

providing objective-driven compensation opportunities that incentivize executives to achieve optimal results for the Company and its shareholders;

aligning compensation with Company's short- and long-term business objectives; and

emphasizing the use of equity-based compensation to motivate the long-term retention of executives and align their interests with those of shareholders.

We do not apply rigid formulas in determining the amount and mix of compensation elements. For 2017 cash bonuses paid in February 2018, we considered the achievement of financial and operational goals only as part of establishing the aggregate bonus pool from which bonuses were paid to the NEOs and in connection with the determination of the Company multiplier described below in the discussion of the annual cash bonus. In connection with establishing the size of the aggregate bonus pool and determining the final Company multiplier, the Compensation Committee considered the Company's performance with respect to the four bonus pool metrics and the additional factors described below in the discussion of the 2017 bonus. After considering these items, the Compensation Committee determined a Company performance factor of 150% appropriately reflected a balance of (x) the strong results achieved in connection with the four bonus pool metrics and (y) the Committee's assessment of the Company's performance with respect to the additional factors. During 2017, in determining individual compensation, we considered the performance of the Company against the following specific operational and financial factors: production growth, net cash provided by operating activities, proved developed finding and development cost per barrel of oil equivalent, reserve growth, safety and environmental performance, and shareholder return (the 2017 Performance Factors). We consider competitive market compensation paid by other companies comparable to us in size, geographic location and operations, but do not exclusively rely on such data to determine compensation for the NEOs. We maintain flexibility

with respect to our compensation programs and the assessment process. This approach allows us to adjust to an evolving business environment and account for individual performance, which we believe is particularly important in the current dynamic commodity price environment. The total compensation of the Chief Executive Officer, which is significantly higher than our other NEOs, is commensurate with his role in the founding and development of the Company as well as leading the future success of the Company.

Compensation Setting Process

Role of Compensation Committee The Compensation Committee is responsible for overseeing and administering all aspects of our benefit, compensation plans, and programs for our executive officers. The Compensation Committee annually reviews and determines the individual elements of total compensation of the NEOs who appear in the compensation tables of this Proxy Statement as well as our other executive officers. Because our compensation programs are relatively simple, and we do not have complex equity plans or significant change in control or severance obligations, the Compensation Committee does not use tally sheets in analyzing the compensation of our NEOs, but does review each element of compensation as described in this Proxy Statement in evaluating and approving the total compensation of each of our NEOs. When making awards with respect to each element of our compensation program, the Compensation Committee considers how the award of that particular element will impact the overall compensation package awarded to each NEO. As a result, the award made with respect to each element of our compensation program may be impacted by the awards made with respect to the other elements of our compensation program.

Table of Contents

In general, the Compensation Committee evaluates how the Primary Compensation Elements of our compensation program compare to similar compensation awarded by the then current compensation survey group. Although the Compensation Committee's general approach is to award each element of compensation to align as closely as possible to the percentiles indicated above, the Compensation Committee considers an individual executive officer's performance and the external business environment, and any final compensation reflects the Compensation Committee's discretion. The Compensation Committee believes targeting total cash (base salary and cash bonus) between the 50th and 75th percentile results in competitive cash compensation while preserving considerable upside potential in connection with cash bonus awards should Company and individual executive performance merit a higher bonus. The Committee believes targeting long-term incentive equity awards between the 50th and 75th percentile helps align overall pay with shareholder interests, by putting greater weight on an element of compensation which directly reflects the performance of the Company. Additional detail regarding the actions of the Compensation Committee with respect to each of the Primary Compensation Elements appears in the discussion of Elements of Compensation below.

At the 2017 Annual Meeting, shareholders approved through a non-binding advisory vote, the compensation of our named executive officers. Following the 2017 Annual Meeting, the Board determined to hold an advisory shareholder vote on the compensation of the Company's named executive officers annually. This pattern will continue until the next required advisory vote on the frequency of shareholder votes on the compensation of executives, which will occur no later than our Annual Meeting of Shareholders in 2023. The Compensation Committee views the 98% vote in favor of approving the compensation of the Company's named executive officers received in 2017 as a validation of the Company's approach to executive compensation and determined, subject to the modifications discussed below, it was appropriate to continue structuring the compensation of the Company's NEOs consistent with its compensation philosophy. A non-binding advisory vote will be conducted again in connection with the Annual Meeting.

During 2017, the Compensation Committee primarily considered the individual performance of our NEOs with regard to 2017 Performance Factors in the determination of each officer's compensation. Variations in individual awards made to each of the NEOs are impacted by the Compensation Committee's evaluation of a given NEO's performance with respect to such factors. In addition, the Committee considers input provided by our Chief Executive Officer and President as described under Role of Management below and this process also drives variation in individual awards made to each of the NEOs.

Role of Management

Since the Family LLC which is managed by Mr. Hamm, and in which he has a substantial interest, beneficially

owns a substantial majority of our outstanding shares of Common Stock and since Mr. Hamm is our Chief Executive Officer, he provides the Compensation Committee a significant amount of input regarding the compensation of our executive officers (other than himself). Initially, the Compensation Committee, as well as our Chief Executive Officer and our President, review the Longnecker report described below regarding the analysis of market compensation. Our Chief Executive Officer and our President are then responsible for making recommendations of compensation for individual executive officers of the Company, other than themselves. With respect to each of our Chief Executive Officer and our President, our President and our Chief Executive Officer, respectively and individually, make recommendations for the other executive officer's compensation amounts. In making recommendations for executive officer compensation, our Chief Executive Officer and our President primarily rely on the Longnecker report, but also take into account other factors including, but not limited to, the following:

the overall performance of the Company;

the executive's contribution to the overall performance of the Company;

the executive's business responsibilities;

the executive's compensation relative to other executives;

the executive's current compensation arrangements; and

the executive's contribution to enhancing the ability of the Company to generate long-term shareholder value. Once our Chief Executive Officer and our President have made their compensation recommendations, the Compensation Committee reviews their recommendations and makes any changes it feels are appropriate to adequately meet our compensation objectives and approach on an individual basis. No adjustments were made to our Chief Executive Officer's compensation by the Board after his compensation was set by the members of the Compensation Committee. The Board, with Mr. Hamm abstaining, unanimously affirmed the cash bonus award and other compensation set by the Compensation Committee for our Chief Executive Officer for services rendered during 2017.

Table of Contents

Role of the Compensation Consultants In 2017, the Compensation Committee retained the services of an independent compensation consulting firm, Longnecker. Longnecker reports directly to the Compensation Committee. During 2017, Longnecker provided an analysis of market compensation for directors and executive officers based upon its review of compensation paid by exploration and production companies comparable to us in terms of revenues, total assets, geographic location and market capitalization. This analysis was contained in the report referred to above in the discussion appearing under the heading *Role of Management* and was used by the Compensation Committee, our Chief Executive Officer and President as described in that discussion. During 2017, Longnecker provided no services other than the director and executive officer compensation studies requested by the Compensation Committee, except for analysis of market compensation with respect to a limited number of positions on an ad hoc basis, resulting in total fees of less than \$120,000.

The Compensation Committee has assessed the independence of Longnecker in accordance with standards set forth in rules established by the NYSE and promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act) and concluded no conflict of interest exists that would prevent Longnecker from independently representing the Compensation Committee.

Compensation Survey Group In late 2016, the Compensation Committee decided the companies listed below (collectively, the 2017 Survey Group), each of which were also members of the E27 Survey Group used by the Company in 2016 (the E27 Survey Group), would be the peer group for evaluating compensation for its NEOs for 2017. The Compensation Committee determined to change to the 2017 Survey Group since, in its judgment, this subset of the E27 Survey Group has proven to be the most comparable to the Company and the group with which it is most likely to compete in order to attract and retain executive talent. The following table lists the companies included in the 2017 Survey Group at the time the analysis was completed for compensation recommendations made in February of 2017:

2017 Survey Group Companies¹

Anadarko Petroleum Corporation	Newfield Exploration Co.
Cabot Oil & Gas Corporation	Noble Energy, Inc.
Chesapeake Energy Corporation	Pioneer Natural Resources Company
Cimarex Energy Co	QEP Resources, Inc.
Continental Resources, Inc.	Range Resources Corporation
Devon Energy Corporation	Samson Resources Corporation ²
EOG Resources, Inc.	SandRidge Energy, Inc.
EP Energy Corporation	SM Energy Company
Hess Corporation	Southwestern Energy Company
Hunt Oil Company	WPX Energy, Inc.

- (1) Concho Resources, Inc. and Merit Energy Co. were added to the 2017 Survey Group in May 2017 following the compensation analysis and recommendations in February 2017.
- (2) Samson Resources Corporation was included in the 2017 Survey Group used for analysis and recommendations in February 2017, but has since been removed from the 2017 Survey Group.

In selecting the 2017 Survey Group, the Compensation Committee considered the location of operations, market capitalization, revenue, assets, net income, production profile of oil versus gas, as well as other factors to determine the most relevant subset of the E27 member companies for comparison purposes. At the time described in the

introduction to the table above, the 2017 Survey Group consisted of 20 independent, publicly traded and privately held energy exploration and production companies with a median revenue of approximately \$1.7 billion as of year-end 2016, which is comparable to the Company's revenue of approximately \$2.0 billion for 2016.

Table of Contents*Elements of Compensation*

The table below describes each of our Primary Compensation Elements, the purpose of each element, and how each element fits within the Company's compensation philosophy and objectives.

Annual Cash Bonus	Annual cash bonus related to individual contribution toward achievement of annual financial and operating results	<p>Attract and retain executive officers by paying a wage commensurate with such officer's experience, skills and responsibilities. Role of Discretion in Determining Primary Compensation Elements All base salary adjustments and long-term incentive awards

for NEOs have been determined on a discretionary basis and while not linked to specific corporate goals or objectives, the overall performance of the Company as well as individual performance was considered in determining pay. The Compensation Committee retains discretion over all aspects of the CLR Bonus Plan (defined below) and awards made thereunder. For 2017, the Target Pool Size, Final Pool Size and Company multiplier (each term as described below) were initially determined by the Company's performance in the areas of production growth, net cash provided by

operating activities, proved developed finding and development cost per barrel of oil equivalent, and reserve growth, as well as consideration of the additional factors described below in the discussion of the 2017 bonus. See Annual Cash Bonus below for a more detailed discussion of the discretion exercised by the Compensation Committee. The individual multiplier used in the CLR Bonus Plan is based on a subjective evaluation of an individual's performance.

Base Salary Base salary is intended to provide each NEO a regular source of income and compensate him for performing the

responsibilities associated with his position. It also serves the purposes listed in the table above. Base salary also impacts annual cash bonus awards in that the target size of these awards is expressed as a percentage of base salary. The table below shows the salary set by the Compensation Committee applicable to each of the NEOs during 2017.

NEO	Salary During 2017
Harold G. Hamm	\$1,219,063
Jack H. Stark	675,000
John D. Hart	556,500
Gary E. Gould	472,500
Eric S. Eissenstat	456,500
Tony Maranto	525,000

Except for Mr. Maranto, the salaries listed above went into effect in February 2017, and remained in effect for the remainder of the year. Mr. Maranto's salary was set in connection with his joining the Company in April 2017, and remained in effect until his departure in June 2017. In the future, we expect the base salaries of the NEOs will be reviewed on an annual basis and adjusted as necessary to remain competitive.

Table of Contents

Annual Cash Bonus Our NEOs may earn annual cash bonuses as a reward for their individual contribution to the achievement of annual financial and operating results as determined by the Compensation Committee. On February 22, 2013, the Compensation Committee approved a cash bonus plan that applies to certain employees of the Company, including the Company's executive officers (the CLR Bonus Plan). The CLR Bonus Plan is designed to reward the Company's employees and executive officers for achieving annual performance and strategic goals. The CLR Bonus Plan provides for the annual payment of cash bonuses, subject to the discretion of the Compensation Committee. The individual cash bonuses paid to NEOs for 2017 were paid pursuant to the CLR Bonus Plan. Mr. Maranto did not receive a bonus for 2017, due to his departure from the Company. The Compensation Committee exercises complete discretion in administering the CLR Bonus Plan, and the individual awards to our NEOs for 2017 were determined following the process described below.

Under the CLR Bonus Plan, the bonus pool is initially set based on the aggregate target bonus amount of all employees participating in the CLR Bonus Plan (referred to herein as the Target Pool Size). For 2017, the size of the bonus pool was initially set within a range based on the following factors: Production growth (weighted at 40%); net cash provided by operating activities (weighted at 30%); proved developed finding and development cost per barrel of oil equivalent (weighted at 15%); and reserve growth (weighted at 15%). With respect to the bonuses paid for 2017, the Compensation Committee evaluated the factors of the CLR Bonus Plan described above as presented by management and determined the factors and their respective weightings to be appropriate.

The Compensation Committee has complete discretion to increase, decrease or leave the size of the pool unchanged. In making the determination whether to adjust the size of the pool, the Compensation Committee considered such matters as it deemed relevant, including the Company's performance against key strategic and other initiatives identified by the Compensation Committee in areas such as shareholder return, health, safety and environmental, production costs and cycle times, maintenance of financial and other ratios, budget compliance, business process improvements and achievement of cash neutral operations. The size of the bonus pool as determined by the Compensation Committee is referred to herein as the Final Pool Size. The ratio of the Target Pool Size to the Final Pool Size is used to determine the Company multiplier in the calculation of an individual's bonus amount under the CLR Bonus Plan.

For 2017, production growth was 12%, net cash provided by operating activities was approximately \$2.1 billion, proved developed finding and development cost per barrel of oil equivalent was \$9.80, and reserve growth was 6% (adjusted for 2017 divestitures). The Company's aggregate performance in these areas was above internal expectations and resulted in an initial performance factor of 154% for the Company multiplier portion of the CLR Bonus Plan. The Compensation Committee also reviewed Company performance against the key strategic and other initiatives described in the paragraph above. After consideration, the Committee exercised discretion to determine a Company performance factor of 150% appropriately reflected Company performance for 2017, and struck the appropriate balance between (x) the strong results achieved in connection with the four bonus pool metrics described above, and (y) the Committee's assessment of the Company's performance with respect to the additional matters described above. In assessing the additional matters, the Compensation Committee gave particular weight to safety and environmental and shareholder return performance. Proved developed finding and development cost per barrel of oil equivalent represents the Company's net exploration and development costs incurred for wells having first production in 2017 divided by the net estimated recoverable reserves for those wells expressed in barrels of oil equivalent.

Individual awards for participants in the CLR Bonus Plan in connection with the bonuses for 2017 which were paid in February 2018, were calculated utilizing the following formula:

$$\text{Base Earnings} \times \text{Target Bonus} \times \text{Company Multiplier} \times \text{Individual Multiplier} = \text{Initial Bonus Amount}$$

For purposes of this formula, base earnings refers to the actual amount paid in respect of salary during 2017. Except for Mr. Hamm, the individual multiplier for the 2017 bonuses was based on the Compensation Committee's review of the 2017 Survey Group and the subjective evaluation of each of the NEOs' supervisor or supervisors. Mr. Hamm's individual multiplier was determined based on the subjective evaluation of the Compensation Committee. The subjective evaluation of each NEO was primarily based on an evaluation of each NEO's contributions to the Company's performance with respect to the 2017 Performance Factors relevant to that NEO. For 2017, after calculating the Company multiplier based on the measures and methodology described above, individual differences resulted from the subjective evaluation of performance that determined each NEO's individual multiplier. In making its evaluation, where applicable, the Compensation Committee places significant weight on input provided by our Chief Executive Officer and our President.

Once the NEOs' Initial Bonus Amounts were calculated, they were presented by Mr. Stark to the Compensation Committee for review, and in the case of Mr. Hamm also presented to the Board, both of which had the discretion to increase or decrease individual Initial

Table of Contents

Bonus Amounts and determine final awards. Using the factors described previously, the Compensation Committee determined the final awards were appropriate and approved the bonuses for 2017 as presented by management. Mr. Maranto did not receive a bonus for 2017 due to his departure from the Company in June 2017.

The following table shows target annual cash bonus amounts as a percentage of base earnings for each of the NEOs in connection with the bonuses for 2017 which were paid in February 2018 under the CLR Bonus Plan:

NEO	2017 Target Bonus %
Harold G. Hamm	150
Jack H. Stark	100
John D. Hart	100
Gary E. Gould	80
Eric S. Eissenstat	80
Tony Maranto	100

For 2018 compensation, the Compensation Committee has added two new bonus metrics to those used for 2017 and adjusted the weighting of the metrics. As a result of these changes, the 2018 metrics will be 70% focused on financial returns and 30% focused on operational performance. The 2018 metrics and relative weighting are as follows: net cash provided by operating activities (30%); return on capital employed (25%); relative total shareholder return (15%); production growth (15%); reserve growth (10%); and proved developed finding and development cost per barrel of oil equivalent (5%). The addition of return on capital employed and relative total shareholder return in combination with the continued use of net cash provided by operating activities and the weights assigned to these items highlights the Company's strong focus on financial and shareholder returns.

Annual cash bonuses for the NEOs are determined after completion of the year-end audited financial statements and reserve report. We have not adopted a policy regarding the adjustment or recovery of previously paid annual cash bonuses in the event a relevant metric is restated or otherwise adjusted in a manner that would have the effect of reducing the size of a previously paid annual cash bonus. The Compensation Committee has the discretion to take such an event into account in determining future compensation.

Long-Term Incentive Awards The objective of our long-term incentive awards is to retain and motivate our executives over the long-term and to align their interests with those of our shareholders. In February 2017, the NEOs, other than Mr. Maranto, received the following long-term incentive awards of restricted Common Stock which vest on February 15, 2020:

NEO	February 2017 Restricted Stock Award (shares)
Harold G. Hamm	165,049
Jack H. Stark	77,670
John D. Hart	54,369
Gary E. Gould	35,437
Eric S. Eissenstat	29,127

In May 2017, in connection with the start of his employment, Mr. Maranto received an initial award of 189,105 shares of restricted Common Stock, with shares intended to vest in equal increments of 63,035 shares on each of May 15, 2018, May 15, 2019 and May 15, 2020. Mr. Maranto forfeited all of these shares in connection with the termination of

his employment. The Compensation Committee considered the following in setting the size of Mr. Maranto's initial award: (i) the scope of his role and responsibilities; (ii) internal equity; and (iii) whether the award was consistent with the targeted percentiles for long-term equity awards.

The awards for each of the NEOs other than Mr. Hamm were approved by the Compensation Committee. Mr. Hamm's award was approved by the Compensation Committee and by the full Board based on the recommendation of the Compensation Committee, with Mr. Hamm abstaining.

Table of Contents

Each long-term incentive award for each NEO is determined at the discretion of the Compensation Committee using the approach described above under Executive Summary Compensation Philosophy and Components. Differences in long-term incentive awards are based on the Compensation Committee's subjective evaluation of the expected relative individual contribution to the achievement of our long-term financial and operating results. The value of unvested equity awards held by an individual is expected to be a factor considered in future awards.

The vesting provisions of the awards encourage our officers to remain in our employ in order to realize these forms of compensation. Our current equity programs consist of restricted stock awards, which we believe are stronger motivational tools for employees when compared to alternatives such as stock options. Restricted shares provide some value to an employee during periods of stock market volatility, while stock options may have limited perceived value and may do little to retain and motivate employees when the current value of our stock is less than the option price. Although our 2013 Plan allows for various equity instruments, we intend to make future grants primarily in the form of restricted stock.

We have a policy which prohibits our directors and certain employees, including our executive officers, from holding our securities in a margin account or pledging our securities as collateral, unless permission is received from our General Counsel in writing, or from engaging in certain transactions which may hedge the value of our securities held by them.

The Company has a Common Stock ownership requirement for our executive officers. Each such officer is required to own shares of our Common Stock at least equal to a specified multiple of such officer's base salary. The table below lists base salary multiples applicable to the different positions within this group:

	Required Stock Ownership
Officer	Multiple of Annual Base Salary
Chief Executive Officer	5x
President	5x
Other Executive Officers	3x

Until the stock ownership guideline is achieved, each such officer is required to retain 100% of the net shares received as a result of restricted shares granted under our 2013 Plan. Net shares are the number of shares that remain after shares are sold or withheld to pay withholding taxes. The calculation is determined as of December 31 each year based upon the average closing price of the Common Stock for the year compared to the officer's base salary as of such date. Shares owned directly by, or held in trust for, the officer or his or her immediate family members residing in the same household and unvested restricted shares are included in the calculation.

The Compensation Committee reviews the compliance of each executive officer with the stock ownership guidelines each year and reduces or eliminates future restricted stock grants under the 2013 Plan for any executive officer not in compliance with the stock ownership guidelines. The Compensation Committee reviewed the NEOs and other applicable officers' stock ownership as of December 31, 2017 and determined each NEO and other applicable officers were in compliance with the guidelines.

The restricted stock awards provide for immediate vesting upon a change of control, as defined by the 2013 Plan. We would likely need the assistance of several key employees to successfully conclude a transaction resulting in a change in control. We believe immediately vesting the awards may serve to reduce concerns, other than continued employment, such employees may have with respect to any potential change in control transaction and may motivate

them to complete the transaction.

Deferred Compensation Plan On September 20, 2013, the Board, based upon the recommendation of the Compensation Committee, established the DCP. The Board appointed the Compensation Committee to act as Plan Administrator of the DCP (the DCP Administrator).

The purpose of the DCP is to (i) give DCP participants, including the NEOs, an additional tool to use in planning their savings and for retirement; and (ii) provide a vehicle to allow employee DCP participants, all of whom are limited in their participation in the Company's 401(k) (as defined below) due to limits imposed under federal tax rules (Limits), to receive similar benefits in connection with Company matching contributions as employees whose ability to receive Company matching contributions is not impacted by the Limits. The DCP permits the Company to make discretionary matching and other contributions to a participant's account, although the Company did not make any such contributions to the NEOs' accounts within the DCP during the 2017 year. For a description of the material features of the DCP see the narrative Description of Deferred Compensation Plan on pages 35 and 36 below.

Table of Contents

Other Compensation and benefits that are outside of our three main compensation elements are designed to attract and retain

employees by enhancing our overall compensation package. During 2017, we provided automobiles to certain NEOs and certain other employees for business and personal use. The personal use is valued according to IRS guidelines and reported as taxable income to the individuals. We value vehicle usage for disclosure in our proxy statement based upon the aggregate incremental cost to us adjusted to reflect each individual's personal use of the vehicle.

In 2017, we allowed Mr. Hamm to use the corporate aircraft for personal trips. The value of such trips is calculated according to IRS guidelines and reported as taxable income to him. On occasion the spouses and guests of NEOs may accompany them on business-related trips. Aircraft usage and travel by spouses and guests are valued for disclosure in our proxy statement based on the aggregate incremental cost to us.

We have a defined contribution retirement plan (401(k)) covering all full-time employees. Our contributions to the plan are discretionary and based on a percentage of eligible compensation. On July 1, 2014, the Company elected to increase the contribution level in the plan up to a maximum of 10% of a covered employee's eligible compensation effective January 1, 2015, depending on the employee's level of contribution into the employee's account. This change was made in order to enhance the competitiveness of the compensation associated with the 401(k). Due to the commodity price environment in 2016, the 10% contribution level was reduced to 2% effective March 1, 2016. Beginning December 1, 2016, the Company reinstated the 10% contribution level based on dollar for dollar matching, subject to IRS limits.

All full-time employees may participate in our health and welfare benefit programs, including medical, dental, vision care, life insurance and disability insurance. We provide all full-time employees with life insurance coverage of the lesser of two times base salary or \$1,000,000 and allow them to purchase supplemental coverage. We do not sponsor any qualified or non-qualified defined benefit plans.

Impact of Accounting and Tax Treatment

We believe it is important to have flexibility in designing the compensation program in a manner to achieve the objectives described above under Compensation Objectives. Therefore, while we consider the accounting and tax treatment of certain forms of compensation in the design of our compensation program, the accounting and tax treatment is not a determinative factor.

With respect to the 2017 year, under Section 162(m) of the Code, a publicly-held company could deduct for federal tax purposes no more than \$1,000,000 of annual compensation paid to its principal executive officer and each of its three other most highly-paid officers other than the principal financial officer, unless the compensation was performance-based compensation. These Section 162(m) restrictions applied to salary, bonuses, and other compensation not directly tied to performance conditions. Our compensation program for the 2017 year did not meet the requirements for tax deductibility of annual compensation in excess of \$1,000,000 because the relevant compensation is not payable solely on account of the attainment of one or more performance goals. Beginning with the 2018 year, Section 162(m) of the Code will generally not contain an exception for performance-based compensation. Therefore, we do not expect the restrictions of Section 162(m) of the Code to play a significant role in our compensation decisions for 2018.

Insider Trading Policy

Our insider trading policy provides that certain of our employees and all directors may not purchase or sell puts or calls to sell or buy our securities or engage in short sales with respect to our securities. Certain employees and all

directors are also prohibited from holding our securities in a margin account or pledging our securities as collateral for a loan, unless permission is received from our General Counsel in writing. The purchase or sale of stock by our officers, directors and certain employees may only be made during a window of time described in our policy and after approval by our General Counsel.

Compensation Committee Report

In accordance with its written charter adopted by the Board, the Compensation Committee of the Board is responsible for overseeing awards to employees of stock or other equity compensation and reviewing and approving the individual elements of the total compensation of the Chief Executive Officer, the other NEOs and other senior executive officers. The Compensation Committee is also obligated to communicate to shareholders information regarding the factors and criteria on which the Chief Executive Officer's compensation was based, including the relationship of the Company's performance to the Chief Executive Officer's compensation, and the specific relationship of corporate performance to executive compensation overall.

Table of Contents

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis (CD&A) above with management. Based on this review and discussion, the Compensation Committee recommended to the Board that this CD&A be included in this Proxy Statement.

Summary Compensation Table

The following table sets forth the compensation of our Principal Executive Officer, Principal Financial Officer, and the three other most highly compensated executive officers. It also includes information for Tony Maranto, our former Chief Operating Officer, who left the Company in June 2017. Mr. Maranto is included since the compensation he received would have required him to be listed in the table but for the fact he was not serving as an executive officer of the Company at the end of the last completed fiscal year. We refer to these six individuals collectively as the NEOs for 2017. Compensation is shown for years 2015, 2016 and 2017, as applicable.

- (1) None of the NEOs elected to participate in the Company's DCP with respect to 2017 compensation. As a result, salary and bonus amounts reported in the table above do not include any amounts deferred pursuant to the Company's DCP. In addition, in November 2015, Mr. Hamm's base salary was reduced, at his request, to the amount needed each pay period to allow him to cover the expenses associated with the benefits we have customarily made available to all employees. This arrangement continued until April 2016, when Mr. Hamm resumed receiving his regular salary, in response to improving commodity prices. Mr. Hamm requested the reduction as a cost savings measure due to the then current commodity price environment and the amount reported for Mr. Hamm reflects the impact of this request during 2015 and 2016. All bonuses were paid pursuant to the CLR Bonus Plan in February 2018 for 2017.
- (2) The amounts under Stock Awards reflect the aggregate grant date fair value computed in accordance with ASC Topic 718, disregarding any estimate for forfeitures, for awards granted during the indicated year. A discussion of the grant date fair value calculation can be found in Note 12 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC.

- (a) We calculate the incremental cost to the Company of any personal use of corporate aircraft based on the cost of fuel, trip-related maintenance, crew travel expenses, on-board catering, landing fees, trip-related hangar and parking costs, and other variable costs. Occasionally, spouses and guests of NEOs ride along when an aircraft is already going to a destination for a business purpose. This use has minimal costs to the Company and, where applicable, only the direct variable costs associated with the additional passenger (for example fuel and catering) are included in determining the aggregate incremental cost to the Company. Since Company-owned aircraft are used primarily for business travel, we do not include the fixed costs that do not change based on usage, such as pilots' salaries and the purchase costs of Company-owned aircraft.
- (b) We calculate the incremental cost to the Company of any personal use of Company vehicles, including fuel, maintenance, insurance, lease payments and depreciation.
- (c) During 2017, each NEO received a membership to the Petroleum Club of Oklahoma City at no incremental cost to the Company.
- (d) Amount represents the incremental costs for meals and miscellaneous items of having the NEOs' spouse or significant other, and also, in the case of Mr. Hamm, other family members, travel with the indicated NEO on business-related trips.
- (e) Represents a lump sum payment of \$201,923 (20 weeks of base salary) made to Mr. Maranto in connection with his separation from the Company. It also includes \$5,108 of relocation expenses.
- (4) Mr. Maranto's 2017 compensation reflects the period from April 28, 2017 to June 5, 2017. Due to his departure from the Company, Mr. Maranto did not receive a bonus payment for 2017 and he forfeited the entire restricted stock award reflected in the table above. For a description of the payments made to Mr. Maranto in connection with his departure, please see Potential Payments Upon Termination or Change in Control - Maranto Departure From the Company below.

- (3) The shares underlying this award vest on February 15, 2020, subject to the NEOs' continued service.
- (4) The shares subject to this award would have vested in equal increments of 63,035 shares on each of May 15, 2018, May 15, 2019 and May 15, 2020, but this award was forfeited in connection with Mr. Maranto's departure from the Company.

Description of Deferred Compensation Plan

On September 20, 2013, the Board, based upon the recommendation of the Compensation Committee, established the DCP.

The purpose of the DCP is to (i) give DCP participants and non-employee directors, an additional tool to use in planning their savings and for retirement; and (ii) provide a vehicle to allow employee DCP participants, all of whom are limited in their participation in the Company's 401(k) plan due to the Limits, to receive similar benefits in connection with Company matching contributions as employees whose ability to receive Company matching contributions is not impacted by the Limits. The DCP permits the Company to make discretionary matching and other contributions to a participant's account and the matching and discretionary contributions approved in connection with the DCP are intended to facilitate the purpose described in (ii) above.

Table of Contents

The DCP is not intended to constitute a qualified plan subject to the limitations of Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), nor is it a funded plan for purposes of the Code. Benefits under the DCP constitute an unfunded general obligation of the Company. The DCP is designed to provide directors and select management or highly compensated employees of the Company the opportunity to defer the payment of all or a portion of their base pay and cash incentive awards (to the extent a participant is eligible to receive such awards).

Each year the DCP permits participants to elect to defer: (i) up to 100% of base pay (cash fees in the case of directors) for a calendar year and (ii) up to 100% of any cash incentive award received by the employee participant for a performance year. DCP participants are 100% vested in any amounts they deferred pursuant to the alternatives described in the prior sentence. The DCP permits discretionary contributions by the Company, which are subject to a vesting schedule, as described below, at the discretion of the DCP Administrator.

As permitted by the DCP, matching contributions have been approved enabling employee participants to receive matching under the DCP for up to 10% of their total cash compensation, including salary and bonus deferrals. The approved match was intended to align with the amount employee participants would have received under the 401(k) plan, but for the Limits and is given subject to terms and conditions applicable to matching contributions under the 401(k) plan. As a result of the commodity price environment experienced by the Company during 2014, 2015 and 2016, the Company suspended the match described above for 2017, and the suspension was applicable to any bonus paid in February 2018 for 2017 under CLR's Cash Bonus Plan.

Distribution of DCP amounts deferred in connection with 2014 will occur upon a participant's separation from service with the Company. The Company will require a six month delay in the payment of DCP benefits if the participant is a specified employee pursuant to Section 409A of the Code at the time of his or her separation from service with the Company, and an earlier payment would result in the imposition of an excise tax on the participant if the amounts were received at the time of his or her separation (the Specified Employee Delay). In addition, in connection with amounts deferred in respect of 2014, distribution of DCP accounts and vesting of any Company contributions will result from any of the following events: (i) Change of Control (as defined in the DCP); (ii) a participant's death or Disability (as defined in the DCP); (iii) a participant's Normal Retirement (as defined in the DCP); and (iv) a participant's Involuntary Termination (as defined in the DCP).

Distribution of DCP amounts deferred after 2014 will occur, subject to limited exceptions, based on the election of the participant to receive a distribution upon a fixed date chosen by the DCP participant, the participant's Termination of Employment (as defined in the DCP), or a Change in Control. In addition, distribution of DCP amounts deferred after 2014 will occur in the event of the participant's death or Disability. In connection with these distribution events, participants can choose, except in the case of death or Disability, to receive distributions in a lump sum or installments. In the case of death or Disability, the distribution will be made in a lump sum. Participants also have the ability to elect a lump sum distribution if a Change of Control or Involuntary Termination occurs after a participant has started to receive distributions after a fixed date. Distributions described above are also subject to the Specified Employee Delay. Finally, vesting restrictions on any amounts deferred after 2014 will lapse in connection with any of the following events: (i) Change of Control; (ii) participant's death or Disability; and (iii) a participant's achievement of Normal Retirement Age (as defined in the DCP).

Potential Payments Upon Termination or Change in Control

We do not maintain employment, severance or change in control agreements with our NEOs outside of the potential acceleration provisions described below with respect to our equity awards. We discussed our rationale for providing change in control equity vesting above under Compensation Discussion and Analysis.

Vesting of Restricted Stock on Change in Control. All of our employees and directors unvested shares of restricted stock will vest if a change in control occurs as defined in their respective agreements. Employees and directors are subject to the following definitions of change in control in connection with outstanding awards under the 2013 Plan.

For purposes of the 2013 Plan, a change in control means the occurrence of any of the following:

The consummation of an agreement to acquire or a tender offer for beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) by any person, of 50% or more of either (x) the then outstanding shares of Common Stock (the Outstanding Stock) or (y) the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors (the Outstanding Company Voting Securities); provided, however, the following acquisitions and transactions shall not constitute a change in control: (A) any acquisition directly from the Company, (B) any acquisition by the Company, (C) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any entity controlled by the Company, (D) any acquisition by any entity pursuant to a transaction that complies with clauses (A), (B), and (C) of the second item below describing a Business Combination (as defined below), or (E) any transaction in which Outstanding Stock or Outstanding Company Voting Securities are issued, sold or transferred to an Excluded Person (as defined below);

Individuals who constitute the Incumbent Board cease for any reason to constitute at least a majority of the Board;

Consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company or an acquisition of assets of another entity (a Business Combination), in each case, unless, following such Business Combination, all the following are true: (A) the Outstanding Stock and Outstanding Company Voting Securities immediately prior to such Business Combination represent or are converted into or exchanged for securities which represent or are convertible into more than 50% of, respectively, the then outstanding shares of Common Stock or common equity interests and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors or other governing body, as the case may be, of the entity resulting from such Business Combination (including, without limitation, an entity which as a result of such transaction owns the Company, or all or substantially all of the Company's assets either directly or through one or more subsidiaries), (B) no person (excluding any employee benefit plan (or related trust) of the Company or the entity resulting from such Business Combination) beneficially owns, directly or indirectly, 20% or more of, respectively, the then outstanding shares of Common Stock or common equity interests of the entity resulting from such Business Combination, and (C) at least a majority of the members of the board of directors or similar governing body of the entity resulting from such Business Combination were members of the Incumbent Board (as defined below) at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

Approval by the shareholders of the Company of a complete liquidation or dissolution of the Company. For purposes of the discussion above in connection with the meaning of "change in control" under the 2013 Plan, references to "Incumbent Board" means the portion of the Board constituted of the individuals who are members of the Board as of May 23, 2013 and any other individual who becomes a director of the Company after May 23, 2013 and whose election or appointment by the Board or nomination for election by the Company's shareholders was approved by a vote of at least a majority of the directors then comprising the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than the Incumbent Board.

For purposes of the discussion above in connection with the meaning of "change in control" under the 2013 Plan, a reference to an "Excluded Person" means (i) Harold G. Hamm ("Hamm"), (ii) Hamm's spouse (including any ex-spouse of Hamm pursuant to the terms of a domestic relations order), (iii) any of Hamm's lineal descendants, (iv) Hamm's guardian or other legal representative of Hamm or Hamm's estate, (v) any trust of which at least one of the trustees is Hamm, or the principal beneficiaries of which are any one or more of the persons or entities described in clause (i) through (iv) above, (vi) any person or entity that is controlled by any one or more of the

Table of Contents

persons or entities described in clause (i) through (v) above, (vii) any group (within the meaning of the Exchange Act and the rules of the SEC thereunder) that includes one or more of the persons or entities described in clauses (i) through (vi) above, provided that such persons and entities described in clauses (i) through (vi) above control more than 50% of the voting power of such group.

Listed in the following table is the value of unvested shares of restricted stock held by our NEOs (other than Mr. Maranto who left the Company) as of December 31, 2017, which would fully vest and be immediately available in the event of a change in control as described above in connection with the 2013 Plan. The table assumes a change in control occurred on December 31, 2017 and the per-share value is \$52.97, the closing price of our Common Stock as of December 29, 2017 (the last trading day of 2017):

Name	Early Vesting of Restricted Stock (\$)	Termination Payment (\$)	Total (\$)
Harold G. Hamm	\$34,094,617		\$34,094,617
Jack H. Stark	15,182,526		15,182,526
John D. Hart	10,855,407		10,855,407

Distributions in Connection with DCP. Under the terms of our DCP, distributions of deferred compensation and accelerated vesting of Company contributions may occur in connection with change of control or a participant's termination. A description of such distributions and accelerated vesting, as well as the circumstances triggering these events with respect to Messrs. Hamm, Stark, Hart, Gould and Eissenstat appear above on pages 35 and 36 in the description of our DCP appearing under the heading Description of Deferred Compensation Plan. Mr. Maranto did not participate in the DCP during his time with the Company.

Maranto Departure from the Company. In connection with his separation from the Company, the Company and Mr. Maranto entered into an agreement in June 2017 pursuant to which Mr. Maranto received a lump sum payment of \$201,923 (20 weeks of base salary) and the option to participate in the Company's medical and dental plans at employee rates for up to 20 weeks. In connection with the agreement, Mr. Maranto agreed to, among other things, a general release of claims against the Company.

Indemnification Agreements

Our officers and directors have entered into customary indemnification agreements with us, pursuant to which we have agreed to indemnify our officers and directors to the fullest extent permitted by law.

Risk Assessment Related to our Compensation Structure

We believe our executive compensation program is appropriately structured and not reasonably likely to result in risks that could have a material adverse effect on us. We believe our approach of subjectively evaluating performance results of each executive assists in mitigating excessive risk-taking that could harm our value or reward poor judgment by our executives. Several features of our programs reflect sound risk management practices. We believe we have

allocated our compensation among base salary and short and long-term compensation opportunities in such a way as to not encourage excessive risk-taking. Further, one of the primary factors we take into consideration in setting compensation is the performance of the Company as a whole. This is based on our belief that applying Company-wide metrics encourages decision-making that is in the best long-term interests of the Company and our shareholders as a whole. Finally, the time-based vesting over a multi-year period for our long-term incentive awards ensures our employees' interests align with those of our shareholders for the long-term performance of our Company.

Pay Ratio Disclosure

The 2017 compensation disclosure ratio of the median total compensation of all Company employees to the annual total compensation of Mr. Hamm our Chief Executive Officer, who is our principal executive officer, is as follows:

2017 Median employee total annual compensation: \$116,895

2017 Chief Executive Officer total annual compensation: \$12,269,399

2017 Ratio of total annual compensation of Chief Executive Officer to median employee: 105:1

With respect to the ratio calculation, we identified the median employee by examining the 2017 compensation reported on Form W-2 for all individuals, excluding our Chief Executive Officer, who were employed by us (whether on a full-time, part time, seasonal or temporary basis) on December 31, 2017, the last day of our previous fiscal year. For such employees we did not make any annualizations, assumptions, adjustments (including cost-of-living adjustments) or estimates with respect to the compensation reflected on the Form W-2s.

After identifying the median employee we calculated the total annual compensation for such employee using the same methodology we use for our named executive officers as set forth in the Summary Compensation Table appearing on page 32 of this proxy statement.

Given the different methodologies that various public companies will use to determine an estimate of their pay ratio, the ratio reported above should not be used as a basis for comparison between companies.

Section 16(a) Beneficial Ownership

Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, Section 16 officers and persons who beneficially own more than 10% of our Common Stock to file reports of ownership and changes in ownership of our Common Stock with the SEC. We are required to disclose delinquent filings of reports by such persons during the year ended December 31, 2017.

Based on a review of the copies of such reports and amendments thereto received by us, or written representations that no filings were required, we believe that during the year ended December 31, 2017, all Section 16(a) filing requirements applicable to our Section 16 officers, directors and 10% shareholders were met.

Proposal 2:

Ratification of Selection of

Independent Registered Public

Accounting Firm

General

The Audit Committee has directed us to submit the selection of our independent registered public accounting firm for ratification by the shareholders at the Annual Meeting. The Audit Committee evaluates the selection of our independent registered public accounting firm each year, and has reappointed Grant Thornton as the Company's independent registered public accounting firm to audit the consolidated financial statements of the Company for the year ended December 31, 2018. In determining to reappoint Grant Thornton as the Company's independent auditor, the Audit Committee took into consideration a number of factors, including, but not limited to: Grant Thornton's performance on prior Company audits; the quality and timeliness of the services and informative communications provided by Grant Thornton; the results of regulatory inspections performed on Grant Thornton audits; an assessment of Grant Thornton's resources and expertise; Grant Thornton's knowledge of the Company's business and industry; Grant Thornton's

Table of Contents

independence, objectivity and adherence to professional and ethical standards; the appropriateness of Grant Thornton's fees relative to the services provided; and the frequency and quality of Grant Thornton's interactions with the Audit Committee and the Company's management. Grant Thornton has served as our independent registered public accounting firm since 2004.

Our Bylaws and other governing documents or law do not require shareholder ratification of the selection of Grant Thornton as our independent registered public accounting firm. However, the Audit Committee is submitting the selection of Grant Thornton to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection, the Audit Committee will reconsider whether to retain that firm. Even if the selection is ratified, the Audit Committee may in its discretion direct the appointment of a different independent registered public accounting firm at any time during the year if it determines such a change would be in our and our shareholders' best interest.

The Board recommends the shareholders vote for the ratification of the selection of Grant Thornton as our independent registered public accounting firm for the year ending December 31, 2018.

Audit Committee Report

In accordance with its written charter adopted by the Board, the Audit Committee of the Board assists the Board in fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing, and financial reporting practices. In addition to overseeing the audit of our financials by our independent registered public accounting firm, the Audit Committee reviews our unaudited quarterly financials with management. The Audit Committee is also responsible for oversight of the Company's internal audit function and the Audit Committee meets periodically with the Company's Director of Internal Audit to review the effectiveness of the internal audit function, internal audit plan and related internal audit activities. Lastly, the Audit Committee is tasked with overseeing the Company's major financial risk exposures.

The Audit Committee is composed entirely of independent directors. All members of the Audit Committee have been determined by the Board to be financial experts. The Audit Committee's charter can be found in the Corporate Governance section of our website at www.CLR.com. A printed copy of the charter will be made available to any shareholder who requests it from our Secretary.

The Audit Committee reviewed and discussed our audited financial statements as of and for the fiscal year ended December 31, 2017, with Grant Thornton, our independent auditor, with and without management present. Management has the primary responsibility for our financial statements and the overall reporting process, including assuring we develop and maintain adequate financial controls and procedures for monitoring and assessing compliance with those controls and procedures, including internal control over financial reporting. Our independent auditor is responsible for auditing the annual financial statements prepared by management, expressing an opinion as to whether those financial statements fairly present our financial position, results of operations and cash flows in conformity with generally accepted accounting principles, and discussing with the Audit Committee any issues it believes should be raised.

The Audit Committee is responsible for the appointment, compensation and oversight of our independent auditor. In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the independent auditor a formal written statement describing all relationships between the auditor and us that might bear on the auditor's independence consistent with applicable requirements of the Public Company Accounting Oversight Board (PCAOB) regarding the independent auditor's communications with the Audit Committee concerning independence.

The Audit Committee also discussed with the auditor any relationships that may impact its objectivity and independence, and satisfied itself as to the auditor's independence. The independent auditor reviewed its audit plans, audit scope, and identification of audit risks with the Audit Committee. The Audit Committee also discussed with management and the independent auditor the quality and adequacy of our internal controls. Further, the Audit Committee discussed and reviewed with the independent auditor all communications required by PCAOB Auditing Standard No. 1301, *Communications with Audit Committees*.

Based on the above-mentioned review and discussions with management and the independent auditor, the Audit Committee recommended to the Board and the Board approved the Audit Committee's recommendation that the audited financial statements of the Company be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2017, for filing with the SEC. The Audit Committee also approved and recommended to the Board, and the Board ratified the reappointment of the independent auditor for 2018.

Audit and Other Fees

Grant Thornton served as our independent registered public accounting firm during 2017 and 2016. The aggregate fees for various services performed by Grant Thornton for the years ended December 31, 2017 and 2016 are set forth below:

	2017	2016
Audit Fees	\$ 1,021,015	\$ 777,171
Audit-Related Fees		
Tax Fees		
All Other Fees		
Total Fees	\$ 1,021,015	\$ 777,171

Fees for audit services include fees associated with our annual consolidated audits, the review of our quarterly reports on Form 10-Q, Sarbanes Oxley Act compliance review and services normally provided by the accounting firm in connection with statutory or regulatory filings. Audit fees for 2016 include amounts incurred for services associated with the review of a shelf registration statement filed with the SEC. Audit fees for 2017 include amounts incurred in connection with our December 2017 issuance of 4.375% Senior Notes due 2028, for services associated with the preparation of comfort letters and consents, and assistance with and review of documents to be filed with the SEC.

As necessary, the Audit Committee considers whether the provision of non-audit services by Grant Thornton is compatible with maintaining auditor independence and has adopted a policy that requires pre-approval of all audit and non-audit services. Such policy requires the Audit Committee to approve services and fees in advance and requires documentation regarding the specific services to be performed. All 2017 audit fees were approved in advance in accordance with the Audit Committee's policies.

Attendance at Annual Meeting

Representatives of Grant Thornton are expected to be present at the Annual Meeting, with the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

Proposal 3:

Approve, by a Non-Binding Vote,

The Compensation of the

Named Executive Officers

The Company is providing shareholders an advisory vote on the compensation of our named executive officers as required by Section 14A(a)(1) of the Exchange Act. Section 14A(a)(1) was added to the Exchange Act by Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). In January 2011, the SEC issued final rules to implement the requirements of Exchange Act Section 14A(a)(1).

Table of Contents

The Company's last advisory vote was held at the 2017 Annual Meeting of Shareholders (the 2017 Annual Meeting). Following the 2017 Annual Meeting, our Board determined to hold an advisory vote on the compensation of our named executive officers on an annual basis. This pattern will continue until the next required advisory vote on the frequency of shareholder votes on the compensation of executives, which will occur no later than our Annual Meeting of Shareholders in 2023. As a result, this proposal is being submitted for a non-binding vote at the Annual Meeting.

The advisory vote on compensation of our named executive officers is a non-binding vote on the compensation of the Company's NEOs, as described in the Compensation Discussion and Analysis section, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure set forth in this Proxy Statement. The advisory vote on executive compensation is not a vote on the Company's general compensation policies, compensation of the Company's Board, or the Company's compensation policies as they relate to risk management, as described under Risk Assessment Related to our Compensation Structure on page 38. The Dodd-Frank Act and related SEC regulations and guidance require the Company to hold the advisory vote on compensation of our NEOs at least once every three years.

The Company's executive compensation programs are designed to attract, retain, and motivate experienced, talented individuals to increase shareholder value by finding and developing crude oil and natural gas reserves at costs that provide an attractive rate of return on our investment. During 2017, the Company: (i) increased net cash provided by operating activities by 85%; (ii) increased 2017 average fourth quarter production by 37% compared to 2016 average fourth quarter production; (iii) increased production growth by 12%; (iv) improved crude oil and natural gas differentials relative to benchmark prices by 25% and 74%, respectively; (v) completed the steps necessary for transition to full field development of key assets; (vi) increased proved reserves by 6% (adjusted for 2017 divestitures); and (vii) reduced total debt by \$226 million. The Compensation Committee believes the Company's executive compensation programs reflect a strong pay-for-performance philosophy and are well aligned with the shareholders' long-term interests. The Compensation Discussion and Analysis section starting on page 21 provides a more detailed discussion of our executive compensation program.

This advisory vote on executive compensation is not binding on the Company's Board. However, the Board will take into account the result of the vote when determining future executive compensation arrangements.

Accordingly, the Board recommends the shareholders approve the compensation of our named executive officers by voting for the following advisory resolution:

RESOLVED, that the shareholders of Continental Resources, Inc. approve, on an advisory basis, the compensation of the individuals identified in the Summary Compensation Table, as disclosed in the Continental Resources, Inc. proxy statement for the 2018 annual meeting of shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, which disclosure includes the Compensation Discussion and Analysis section, the compensation tables and the accompanying footnotes and narrative within the Executive Compensation and Other Information section of such proxy statement.

We will promptly deliver a separate copy of our Annual Report, Notice and Proxy Statement and/or Notice of Internet Availability to you if you call or write us at the following address or phone number: Continental Resources, Inc., 20 N. Broadway, Oklahoma City, Oklahoma 73102, Attn: Secretary, (405) 234-9000. If you would like to receive separate copies of the Annual Report and Notice and Proxy Statement in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker, or other nominee record holder, or you may contact us at the above address and phone number.

Proposals of Shareholders

The Board will consider properly presented proposals of shareholders intended to be presented for action at the Annual Meeting. Such proposals must comply with the applicable requirements of the SEC and our Bylaws. Under our Bylaws a matter can properly be brought before an annual meeting by a shareholder of the Company who is a shareholder of record at the time notice of the proposal is given and who is entitled to vote at such annual meeting.

The proposing shareholder must give timely notice of his or her proposal in writing to the Secretary of the Company and satisfy the other requirements set forth in the Bylaws. To be timely, a shareholder's notice shall be delivered to or mailed and received at the principal executive offices of the Company at 20 N. Broadway, Oklahoma City, Oklahoma 73102 not later than ninety (90) days or more than one hundred twenty (120) days prior to the one year anniversary date of the preceding year's annual meeting of shareholders of the Company (which for our 2019 Annual Meeting will be February 16, 2019, and January 17, 2019, respectively); provided, however, that if the date of the annual meeting is advanced more than thirty (30) days prior to or delayed by more than thirty (30) days after the anniversary of the preceding year's annual meeting, to be timely, a shareholder's notice must be so delivered not later than the close of business on the later of the ninetieth (90th) day prior to such annual meeting or the tenth (10th) day following the day on which public announcement of the date of such meeting is first made. A shareholder's notice to the Secretary must comply with all applicable requirements set forth in our Bylaws, and shall set forth as to each matter: (a) a brief description of the business desired to be brought before the annual meeting (which, if the proposal is for any alteration, amendment, rescission or repeal of the Company's Certificate of Incorporation or Bylaws, shall include the text of the resolution which will be proposed to implement the same); (b) the reasons for conducting such business at the annual meeting; (c) the identity of any beneficial owner or owners on whose behalf the proposal is being made; (d) the name and address, as they appear on the Company's books, of the shareholder proposing such business and the name and address of any beneficial owner on whose behalf he or she may be acting; (e) the acquisition date, the class and the number of shares of voting stock of the Company which are owned beneficially by the shareholder and by any beneficial owner on whose behalf he or she may be acting; (f) any material interest of the shareholder in such business; (g) whether and the extent to which any hedging or other transaction or series of transactions has been entered into by or on behalf of such shareholder or any beneficial owner on whose behalf he or she may be acting, or any other agreement, arrangement or understanding (including any derivative or short positions, profit interests, options or borrowed or loaned shares) has been made, the

effect or intent of which is to manage the risk or benefit of share price changes in the stock price of the Company for such shareholder or beneficial owner, to mitigate loss with respect to any share of stock of the Company, or to increase or decrease the voting power of such shareholder or beneficial owner with respect to any share of the stock of the Company; (h) a description of all arrangements or understandings between such shareholder and any other person or persons (including their names) in connection with the proposal of such business by such shareholder; (i) a representation such shareholder intends to appear in person or by proxy at the annual meeting to bring such business before the meeting; and (j) an undertaking by the shareholder giving the notice to update the information required pursuant to this paragraph as of the record date for the meeting promptly following the later of the record date for the meeting or the date notice of the record date is first publicly disclosed.

A shareholder proposal submitted pursuant to Rule 14a-8 under the Exchange Act and intended to be included in our proxy statement relating to the 2019 Annual Meeting must be received no later than December 6, 2018. For a proposal to be considered for presentation at the 2019 Annual Meeting, although not included in the proxy statement for such meeting, it must be received within the time period set forth in our Bylaws as described above. In addition, the proxy solicited by the Board for the 2019 Annual Meeting will confer discretionary authority to vote on any such shareholder proposal presented at the 2019 Annual Meeting unless we are provided with notice of such proposal no later than ninety days prior to the date of the 2019 Annual Meeting.

Questions and Answers About This

Proxy Material and Voting

Why am I receiving these materials?

This Proxy Statement, the accompanying Notice of annual meeting and proxy card and our Annual Report are provided to you because our Board is soliciting your proxy to vote at the Annual Meeting. You are invited to attend the Annual Meeting to vote on the proposals described in this Proxy Statement. However, you do not need to attend the Annual Meeting to vote your shares. Under rules adopted by the SEC, we are furnishing proxy materials to our shareholders primarily via the Internet. On or about April 5, 2018, we plan to mail to beneficial owners of shares registered in the name of a Broker (who constitute the majority of our shareholders), a Notice of Internet Availability containing instructions on how to access our proxy materials and to shareholders of record, printed copies of our proxy materials. The Notice of Internet Availability also instructs shareholders on how to vote online. This process is designed to expedite shareholders' receipt of proxy materials, help conserve natural resources and lower the cost of the Annual Meeting. However, if you prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability.

Who can vote at the Annual Meeting?

Shareholders on March 22, 2018 (the record date for the Annual Meeting) are eligible to vote their shares at the Annual Meeting. On that date, we had 376,096,982 shares of our Common Stock outstanding and eligible to vote.

What am I voting on?

There are three proposals scheduled for a vote:

Election of two Class III directors to serve until the Annual Meeting of Shareholders in 2021 and until their respective successors are duly elected and qualified or until their earlier resignation or removal (Item 1 on the proxy card);

Ratification of selection of Grant Thornton as our independent registered public accounting firm (Item 2 on the proxy card); and

To approve, by a non-binding vote, the compensation of our named executive officers (Item 3 on the proxy card).

How do I vote?

For Proposal 1, you may either vote for a nominee to the Board or you may withhold authority regarding your vote for any nominee you specify. For Proposals 2 and 3, you may vote for or against or abstain from voting. The procedures for voting are as follows:

Shareholder of Record: Shares Registered in Your Name

If on March 22, 2018 your shares were registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, or if you hold shares of our Common Stock that have not vested pursuant to a restricted stock grant, then you are a shareholder of record. If you are a shareholder of record and you have not elected to receive notice of how to access proxy materials over the Internet, you may vote in person at the Annual Meeting, by proxy using the proxy card or over the Internet. If you have elected to receive notice of how to access proxy materials over the Internet, you may vote in person at the Annual Meeting or over the Internet. Whether you plan to attend the Annual Meeting, we urge you to vote by proxy to ensure your vote is counted.

To vote in person, come to the Annual Meeting and we will give you a ballot when you arrive.

To vote using the proxy card, simply complete, sign, and date the proxy card and return it promptly in the envelope provided. If you return your signed proxy card before the Annual Meeting, we will vote your shares as you direct.

To vote online, please follow the instructions included on your proxy card or in any notice regarding how to access proxy materials over the Internet. If you vote online, you do not need to complete and mail a proxy card.

Beneficial Owner: Shares Registered in the Name of a Broker, Bank or Other Nominee Record Holder

If you are a beneficial owner of shares registered in the name of your Broker, you should have received either a Notice of Internet Availability containing instructions on how to access our proxy materials and vote online or a voter information form and voting instructions with these proxy materials from that organization rather than from us. Simply follow the instructions to vote online (or by telephone if you received a voter information form), or complete and return the voter information form in accordance with the instructions provided to ensure your vote is counted. If you received a Notice of Internet Availability, you can elect to request to receive a paper copy of proxy materials which will include a voter information form. To vote in person at the Annual Meeting, you must obtain a valid proxy from your Broker. Follow the instructions from your Broker included with these proxy materials, or contact your Broker for a proxy form.

How many votes do I have?

On each proposal, you have one vote for each share of Common Stock you own as of March 22, 2018.

Who is paying for this proxy solicitation?

We are paying for the entire cost of soliciting proxies. In addition to these proxy materials, our directors, employees, and agents may also solicit proxies in person or by other means of communication. Directors and employees will not be paid any special compensation for soliciting proxies. We may reimburse brokerage firms, banks, dealers and other agents for the cost of forwarding proxy materials to beneficial owners.

What does it mean if I receive more than one Notice of Internet Availability, proxy card or voter information form?

If you receive more than one Notice of Internet Availability, proxy card or voter information form, your shares are registered in more than one name or are registered in different accounts. Please respond to each Notice of Internet Availability or please complete, sign, and return each proxy card or voter information form to ensure all of your shares are voted.

Can I change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the final vote at the Annual Meeting. If you are the record holder of your shares, you may revoke your proxy in any one of three ways:

You may enter a new vote over the Internet or by submitting another properly completed proxy card with a later date. To request a new proxy card, you should call our transfer agent, American Stock Transfer & Trust Company, LLC at (800) 937-5449 or mail a request to our transfer agent at 6201 15th Avenue, Brooklyn, NY 11219, Attn: Shareholder Services Dept.

You may send a written notice revoking your proxy to Continental Resources, Inc., 20 N. Broadway, Oklahoma City, Oklahoma 73102, Attn: Eric S. Eissenstat, Secretary.

You may attend the Annual Meeting and vote in person. Simply attending the meeting will not, by itself, revoke your proxy.

If your shares are held by your Broker, you should follow the instructions provided by your Broker to revoke your proxy.

What is the quorum requirement?

A quorum of shareholders is necessary to hold a valid meeting. A quorum is present if at least a majority of the issued and outstanding shares entitled to vote are represented by shareholders present at the Annual Meeting or by proxy. On the record date, there were 376,096,982 shares issued and outstanding and entitled to vote. Therefore, 188,048,492 shares must be represented by shareholders present at the Annual Meeting or by proxy to have a quorum.

Your shares will be counted towards the quorum only if you submit a valid proxy (or one is submitted on your behalf by your Broker), or if you vote in person at the Annual Meeting. Abstentions and withhold authority votes will be counted towards the quorum requirement and broker non-votes (discussed immediately below) will be counted toward the quorum requirement assuming the Broker is entitled to vote the applicable shares on at least one discretionary proposal. If there is no quorum, the Chairman of the Annual Meeting may adjourn the Annual Meeting to another date.

What are broker non-votes?

A broker non-vote occurs when the Broker is unable to vote the shares it holds on behalf of a beneficial owner (such shares are said to be held in street name) because a proposal is not routine and the beneficial owner has not provided any voting instructions on that matter. NYSE rules determine whether proposals are routine. If a proposal is routine, a Broker holding shares in street name may vote on the proposal without voting instructions. If a proposal is not routine, the Broker may vote on the proposal only if the beneficial owner has provided voting instructions. If a Broker does not receive instructions for a non-routine proposal, the Broker will return a proxy card without a vote on that proposal, which is commonly referred to as a broker non-vote. The ratification of Grant Thornton's appointment is a routine proposal, but the election of directors and say on pay proposal are not routine proposals under applicable NYSE rules.

***What vote is required to approve the election of directors
(Item 1 on the proxy card)?***

Directors are elected by a plurality of the votes cast at the Annual Meeting (that is the two director nominees receiving the greatest number of votes cast will be elected). While votes withheld will not have an effect on the outcome of the elections, our Bylaws provide that, if a nominee for director receives a greater number of votes withheld from his or her election than votes for such election he or she must submit his or her offer of resignation for consideration by the Nominating/Corporate Governance Committee. Broker non-votes will not have an effect on the outcome since they do not count as a vote in favor of a nominee under the plurality standard.

Table of Contents

What vote is required to approve the ratification of the selection of Grant Thornton LLP as our independent registered public accounting firm (Item 2 on the proxy card)?

Under Oklahoma state law the ratification of the selection of Grant Thornton as our independent registered public accounting firm requires a majority of the shares present in person or represented by proxy and entitled to vote on the matter vote for the proposal. If you abstain from voting, it will have the same effect as an against vote because abstentions are treated as entitled to vote under Oklahoma state law.

What vote is required to approve the compensation of the named executive officers (Item 3 on the proxy card)?

Oklahoma state law requires the proposal to approve the compensation of the named executive officers be approved by a majority of the shares present in person or represented by proxy and entitled to vote on the matter. If you abstain from voting, it will have the same effect as an against vote on the proposal to approve, by a non-binding vote, the compensation of the Company's named executive officers, because abstentions are treated as entitled to vote under state law. Since this proposal is not a routine proposal, broker non-votes will not be treated as entitled to vote and accordingly will have no impact on the outcome of this vote.

What if I do not mark a voting choice for some of the matters listed on my proxy card?

If you return a signed proxy card without indicating your vote, your shares will be voted in accordance with the Board's recommendation for each proposal with respect to which a voting choice is not indicated.

Could other matters be decided at the Annual Meeting?

We do not know of any other matters that will be considered at the Annual Meeting. If any other matters arise at the meeting, proxies will be voted at the discretion of the proxy holders.

What happens if the Annual Meeting is postponed or adjourned?

If the Annual Meeting is postponed or adjourned, your proxy will still be valid and may be voted at the rescheduled meeting. You may change or revoke your proxy until it is voted.

How does the Board recommend I vote on the proposals?

The Board recommends you vote:

FOR the two Class III nominees for director (Item 1 on the proxy card);

FOR the ratification of the selection of Grant Thornton as our independent registered public accounting firm for the fiscal year ending December 31, 2018 (Item 2 on the proxy card); and

FOR approval, by a non-binding vote, of the compensation of our named executive officers (Item 3 on the proxy card).

Who will serve as the inspector of election at the Annual Meeting?

We anticipate Eric S. Eissenstat, our Senior Vice President, General Counsel, Chief Risk Officer and Secretary, will serve as the inspector of election and will tabulate the proxies and ballots at the Annual Meeting.

Table of Contents

How can I find out the results of the voting at the Annual Meeting?

Preliminary voting results will be announced at the Annual Meeting. Final voting results will be published in a Form 8-K filed within four business days after the Annual Meeting.

Other Matters

Our Board does not know of any other matters to be presented for action at the Annual Meeting other than those listed in the Notice of Annual Meeting of Shareholders and referred to herein. If any other matters properly come before the Annual Meeting or any adjournment thereof, it is intended the proxy solicited hereby be voted as to any such matter in accordance with the recommendations of our Board.

ANNEX A

NYSE Independence Standards Generally Applicable to Directors

The Board of Directors uses the independence standards of the New York Stock Exchange (NYSE) generally applicable to directors to determine the independence of its members. These are set forth below, omitting commentary and definitions. Defined terms are marked with asterisks and have the meanings set forth in Section 303A.02 of the NYSE Listed Company Manual.

No director qualifies as independent unless the board of directors affirmatively determines that the director has no material relationship with the *listed company* (either directly or as a partner, shareholder or officer of an organization that has a relationship with the *company*).

In addition, in affirmatively determining the independence of any director who will serve on the compensation committee of the listed company's board of directors, the board of directors must consider all factors specifically relevant to determining whether a director has a relationship to the listed company which is material to that director's ability to be independent from management in connection with the duties of a compensation committee member, including, but not limited to:

(A) the source of compensation of such director, including any consulting, advisory or other compensatory fee paid by the listed company to such director; and

(B) whether such director is affiliated with the listed company, a subsidiary of the listed company or an affiliate of a subsidiary of the listed company.

In addition, a director is not independent if:

(i) The director is, or has been within the last three years, an employee of the listed company, or an *immediate family member* is, or has been within the last three years, an *executive officer*, of the listed company.

(ii) The director has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from the listed company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).

(iii) (A) The director is a current partner or employee of a firm that is the listed company's internal or external auditor; (B) the director has an immediate family member who is a current partner of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and personally works on the listed company's audit; or (D) the director or an immediate family member was within the last three years a partner or employee of such a firm and personally worked on the listed company's audit within that time.

(iv) The director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of the listed company's present executive officers at the same time serves or served on that company's compensation committee.

(v) The director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the listed company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's

consolidated gross revenues.
