Accrued interest on the Reopened Notes from April 30, 2018 to but excluding the date of delivery must be paid by the purchaser.

The Notes may be redeemed prior to maturity

Repayment: x The Notes cannot be repaid prior to maturity

The Notes can be repaid prior to maturity at the option of the holder of the Notes

Discount Note: Yes x No

Defeasance: The defeasance and covenant defeasance provisions of the Senior Indenture described under Description of Debt Securities Debt Securities Issued by the Company under the Senior Indenture or the Senior Subordinated Indenture Legal Defeasance and Covenant Defeasance in the Prospectus will apply to the Notes.

United States Federal Income Tax Consequences: Subject to the discussion below regarding amortizable bond premium, a U.S. holder will generally be taxed on interest on the Reopened Notes as ordinary income at the time such holder receives the interest or when it accrues, depending on the holder's method of accounting for tax purposes. However, the portion of the first interest payment on the Reopened Notes that represents a return of the 103 days of accrued interest that a U.S. holder paid as part of the issue price of the Reopened Notes will not be treated as an interest payment for United States federal income tax purposes, and will accordingly not be includible in income.

Because the purchase price of the Reopened Notes exceeds the principal amount of the Reopened Notes, a U.S. holder may elect to treat the excess (after excluding the portion of the purchase price attributable to accrued interest) as amortizable bond premium, as discussed in the prospectus supplement under United States Federal Income Tax Consequences U.S. Holders Amortization of Bond Premium.

See the discussion in the prospectus supplement under United States Federal Income Tax Consequences for further discussion of the United States federal income tax consequences of investing in the Notes.
