**We expect that delivery of the notes will be made to investors on or about October 18, 2018, which is the fourth Tokyo business day following the date of this final term sheet (such settlement being referred to as T+4). Under the E.U. Central Securities Depositories Regulation, trades in the secondary market are required to settle in two London business days, unless the parties to any such trade expressly agree otherwise. Also, under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market are required to settle in two New York business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes earlier than the second London business day, or the second New York business day, before October 18, 2018 will be required, by virtue of the fact that the notes initially will settle T+4, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement, and so should consult their own advisors.
