Closed-end funds

Delaware Funds by Macquarie Closed-End Municipal Bond Funds

September 30, 2017

The figures in the semiannual report for Delaware Funds by Macquarie Closed-End Municipal Bond Funds represent past results, which are not a guarantee of future results. A rise or fall in interest rates can have a significant impact on bond prices. Funds that invest in bonds can lose their value as interest rates rise.

Macquarie Investment Management (MIM), a member of Macquarie Group, refers to the companies comprising the asset management division of Macquarie Group Limited (MGL) and its subsidiaries and affiliates worldwide. MGL is a global provider of banking, financial, advisory, investment, and funds management services. For more information, including press releases, please visit delawarefunds.com/closed-end.

Unless otherwise noted, views expressed herein are current as of Sept. 30, 2017, and subject to change for events occurring after such date.

The Funds are not FDIC insured and are not guaranteed. It is possible to lose the principal amount invested.

Mutual fund advisory services provided by Delaware Management Company, a series of MIMBT, which is a US registered investment advisor.

Other than Macquarie Bank Limited (MBL), none of the entities noted are authorized deposit-taking institutions for the purposes of the Banking Act 1959 (Commonwealth of Australia). The obligations of these entities do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of these entities, unless noted otherwise. The Funds are governed by US laws and regulations.

All third-party marks cited are the property of their respective owners.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At Sept. 30, 2017, the aggregate value of Rule 144A securities was \$4,691,759, which represents 6.39% of the Fund's net assets. See Note 5 in Notes to financial statements.

⌘ Tax-exempt obligations that contain a floating or variable interest rate adjustment formula and an unconditional right of demand to receive payment of the unpaid principal balance plus accrued interest upon a short notice period (generally up to 30 days) prior to specified dates either from the issuer or by drawing on a bank letter of credit, a guarantee, or insurance issued with respect to such instrument. Each rate shown is as of Sept. 30, 2017.

§ Pre-refunded bonds. Municipal bonds that are generally backed or secured by US Treasury bonds. For pre-refunded bonds, the stated maturity is followed by the year in which the bond is pre-refunded.

° Principal amount shown is stated in US dollars unless noted that the security is denominated in another currency.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At Sept. 30, 2017, the aggregate value of Rule 144A securities was \$4,367,233, which represents 2.59% of the Fund's net assets. See Note 5 in Notes to financial statements.

⌘

Edgar Filing: Delaware Investments National Municipal Income Fund - Form N-CSRS

Tax-exempt obligations that contain a floating or variable interest rate adjustment formula and an unconditional right of demand to receive payment of the unpaid principal balance plus accrued interest upon a short notice period (generally up to 30 days) prior to specified dates either from the issuer or by drawing on a bank letter of credit, a guarantee, or insurance issued with respect to such instrument. Each rate shown is as of Sept. 30, 2017.

- § Pre-refunded bonds. Municipal bonds that are generally backed or secured by USTreasury bonds. For pre-refunded bonds, the stated maturity is followed by the year in which the bond is pre-refunded.
- Principal amount shown is stated in US dollars unless noted that the security is denominated in another currency.

Leverage analysis:

Value of preferred shares outstanding (000 omitted) ⁶	\$ 30,000	\$ 30,000	\$ 30,000	\$ 30,000	\$ 30,000	\$ 30,000
Net asset coverage per share of preferred shares, end of period ⁶	\$ 344,775	\$ 340,799	\$ 352,571	\$ 350,753	\$ 332,602	\$ 347,829
Liquidation value per share of preferred shares ⁶	\$ 100,000	\$ 100,000	\$ 100,000	\$ 100,000	\$ 100,000	\$ 100,000

¹ Ratios have been annualized and total return and portfolio turnover have not been annualized.

² Net investment income is reduced by dividends paid to preferred shareholders from net investment income of \$0.063, \$0.110, \$0.079, \$0.077, \$0.078, and \$0.079 per share for the six months ended Sept. 30, 2017 and the years ended March 31, 2017, 2016, 2015, 2014, and 2013, respectively, and from realized capital gains of \$0.002, and \$0.006 per share for the years ended March 31, 2014 and 2013, respectively.

³ Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

⁴ The ratio of expenses to average net assets applicable to common shareholders excluding interest expense for the six months ended Sept. 30, 2017 and the years ended March 31, 2017, 2016, 2015, 2014, and 2013 were 0.92%, 0.90%, 1.01%, 0.92%, 0.94%, and 0.89%, respectively.

⁵ The ratio of net investment income excluding interest expense for the six months ended Sept. 30, 2017 and the years ended March 31, 2017, 2016, 2015, 2014, and 2013 were 5.03%, 5.03%, 5.11%, 5.16%, 5.45%, and 5.27%, respectively.

⁶ In November 2011, the Fund issued a series of 300 variable rate preferred shares, with a liquidation preference of \$100,000 per share (Series 2016 Shares). The Series 2016 Shares were redeemed on Feb. 2, 2016 and replaced with Series 2021 Shares, which are the same amount and value as the Fund's Series 2016 Shares.

Notes to financial statements

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds

September 30, 2017 (Unaudited)

Delaware Investments Colorado Municipal Income Fund, Inc. (Colorado Municipal Fund) and Delaware Investments Minnesota Municipal Income Fund II, Inc. (Minnesota Municipal Fund II) are organized as Minnesota corporations and Delaware Investments National Municipal Income Fund (National Municipal Fund) is organized as a Massachusetts business trust (each referred to as a Fund and collectively as the Funds). Colorado Municipal Fund, Minnesota Municipal Fund II, and National Municipal Fund are considered diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' shares trade on the New York Stock Exchange MKT, the successor to the American Stock Exchange.

The investment objective of each of Colorado Municipal Fund and Minnesota Municipal Fund II is to provide current income exempt from federal income tax and from state personal income tax, if any, consistent with the preservation of capital. The investment objective of National Municipal Fund is to provide current income exempt from federal income tax, consistent with the preservation of capital. Each of Colorado Municipal Fund and Minnesota Municipal Fund II seeks to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state at the time of investment. National Municipal Fund seeks to achieve its investment objective by investing at least 80% of its net assets in securities the income from which is exempt from federal income tax.

1. Significant Accounting Policies

The following accounting policies are in accordance with US generally accepted accounting principles (US GAAP) and are consistently followed by the Funds.

Security Valuation Debt securities are valued based upon valuations provided by an independent pricing service or broker and reviewed by management. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Valuations for fixed income securities utilize matrix systems, which reflect such factors as security prices, yields, maturities, and ratings, and are supplemented by dealer and exchange quotations. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of each Fund's Board of Directors/Trustees (each a Board, or collectively, the Boards). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security. The foregoing valuation policies apply to restricted and unrestricted securities.

Federal Income Taxes No provision for federal income taxes has been made as each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Funds evaluate tax positions taken or expected to be taken in the course of preparing each Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed each Fund's tax positions taken on the Fund's federal income tax returns through the six months ended Sept. 30, 2017 and for all open tax years (years ended March 31, 2014 - March 31, 2017), and has concluded that no provision for federal income tax is required in each Fund's financial statements. If applicable, each Fund recognizes interest

accrued on unrecognized tax benefits in interest expense and penalties in other expenses on the Statements of operations. During the six months ended Sept. 30, 2017, the Funds did not incur any interest or tax penalties.

Cash and Cash Equivalents Cash and cash equivalents include deposits held at financial institutions, which are available for the Fund's use with no restrictions, with original maturities of 90 days or less.

Use of Estimates Each Fund is an investment company, whose financial statements are prepared in conformity with US GAAP. Therefore, each Fund follows the accounting and reporting guidelines for investment companies. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

Other Expenses directly attributable to each Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Funds SM by Macquarie (Delaware Funds) are generally allocated among such funds on the basis of average net assets. Management fees and certain other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums on debt securities are accreted or amortized to interest income, respectively, over the lives of the respective securities using the effective interest method. Each Fund declares and pays

(continues)

31

Table of Contents

Notes to financial statements

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds**1. Significant Accounting Policies (continued)**

dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually. Each Fund may distribute more frequently, if necessary for tax purposes. Dividends and distributions, if any, are recorded on the ex-dividend date.

Each Fund receives earnings credits from its custodian when positive cash balances are maintained, which may be used to offset custody fees. The expense paid under this arrangement is included on the Statements of operations under Custodian fees with the corresponding expense offset shown under Less expense paid indirectly. For the six months ended Sept. 30, 2017, each Fund earned the following amounts under this agreement:

Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
\$1,149	\$1,284	\$775

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Macquarie Investment Management Business Trust (formerly, Delaware Management Business Trust) and the investment manager, an annual fee of 0.40% which is calculated based on each Fund's adjusted average daily net assets.

Delaware Investments Fund Services Company (DIFSC), an affiliate of DMC, provides fund accounting and financial administration oversight services to each Fund. For these services, DIFSC's fees were calculated daily and paid monthly based on the aggregate daily net assets of the Delaware Funds from April 1, 2017 through Aug. 31, 2017 at the following annual rate: 0.0050% of the first \$30 billion; 0.0045% of the next \$10 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$50 billion. The fees payable to DIFSC under the service agreement described above were allocated among all funds in the Delaware Funds on a relative net asset value (NAV) basis. Effective Sept. 1, 2017, the Funds entered into an amendment to the DIFSC agreement. Under the amendment to the DIFSC agreement, DIFSC's fees are calculated daily and paid monthly based on the aggregate daily net assets of the Delaware Funds at the following annual rate: 0.00475% of the first \$35 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$45 billion (Total Fee). Each Fund in the Delaware Funds pays a minimum of \$4,000, which, in aggregate, is subtracted from the Total Fee. Each Fund in the Delaware Funds then pays its relative portion of the remainder of the Total Fee on a relative NAV basis. These amounts are included on the Statements of operations under Accounting and administration

expenses. For the six months ended Sept. 30, 2017, each Fund was charged for these services as follows:

Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
\$2,653	\$5,806	\$2,490

As provided in the investment management agreement, each Fund bears a portion of the cost of certain resources shared with DMC, including the cost of internal personnel of DMC and/or its affiliates that provide legal, tax, and regulatory reporting services to each Fund. These amounts are included on the Statements of operations under Legal fees. For the six months ended Sept. 30, 2017, each Fund was charged for internal legal, tax, and regulatory reporting services provided by DMC and/or its affiliates employees as follows:

Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
\$8,201	\$13,243	\$8,628

Directors /Trustees fees include expenses accrued by each Fund for each Director s/Trustee s retainer and meeting fees. Certain officers of DMC and DIFSC are officers and/or Directors/Trustees of the Funds. These officers and Directors/Trustees are paid no compensation by the Funds.

Cross trades for the six months ended Sept. 30, 2017, were executed by the Funds pursuant to procedures adopted by the Boards designed to ensure compliance with Rule 17a-7 under the 1940 Act. Cross trading is the buying or selling of portfolio securities between funds of investment companies, or between a fund of an investment company and another entity, that are or could be considered affiliates by virtue of having a common investment advisor (or affiliated investment advisors), common directors/trustees and/or common officers. At their regularly

Table of Contents

scheduled meetings, the Boards review such transactions for compliance with the procedures adopted by the Boards. Pursuant to these procedures, for the six months ended Sept. 30, 2017, the Funds engaged in securities purchases and securities sales, which did not result in any realized gains or losses as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Purchases	\$ 100,058	\$ 900,301	\$ 200,096
Sales	400,169	3,901,455	450,113

3. Investments

For the six months ended Sept. 30, 2017, each Fund made purchases and sales of investment securities other than short-term investments as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Purchases	\$ 4,022,980	\$ 24,438,517	\$ 11,981,572
Sales	(2,427,615)	(22,207,319)	(11,930,508)

At Sept. 30, 2017, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At Sept. 30, 2017, the cost and unrealized appreciation (depreciation) of investments for the Fund were as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Cost of investments	\$ 96,942,051	\$ 231,587,623	\$ 88,428,404

Aggregate unrealized appreciation of investments	\$ 6,562,973	\$ 10,996,637	\$ 6,706,906
Aggregate unrealized depreciation of investments	(49,546)	(668,444)	(135,575)
Net unrealized appreciation of investments	\$ 6,513,427	\$ 10,328,193	\$ 6,571,331

Under the Regulated Investment Company Modernization Act of 2010 (Act), net capital losses recognized for tax years beginning after Dec. 22, 2010 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

At March 31, 2017, capital loss carryforwards available to offset future realized capital gains, through the indicated expiration dates were as follows:

	Pre-enactment capital loss			
	Expiration date	No expiration		Total
	2018	Short-term	Long-term	
Colorado Municipal Fund	\$	\$216,568	\$323,934	\$ 540,502
Minnesota Municipal Fund II		778,237		778,237
National Municipal Fund	407,888	795,309	40,087	1,243,284

US GAAP defines fair value as the price that each Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three-level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the

Notes to financial statements

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds

3. Investments (continued)

asset or liability based on the best information available under the circumstances. Each Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-level hierarchy of inputs is summarized below.

Level 1 Inputs are quoted prices in active markets for identical investments. (Examples: equity securities, open-end investment companies, futures contracts, exchange-traded options contracts)

Level 2 Other observable inputs, including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs. (Examples: debt securities, government securities, swap contracts, foreign currency exchange contracts, foreign securities utilizing international fair value pricing, broker-quoted securities, fair valued securities)

Level 3 Significant unobservable inputs, including each Fund's own assumptions used to determine the fair value of investments. (Examples: broker-quoted securities, fair valued securities)

Level 3 investments are valued using significant unobservable inputs. Each Fund may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may also be based upon current market prices of securities that are comparable in coupon, rating, maturity, and industry. The derived value of a Level 3 investment may not represent the value which is received upon disposition and this could impact the results of operations.

The following tables summarize the valuation of each Fund's investments by fair value hierarchy levels as of Sept. 30, 2017:

Colorado

Municipal Fund

Edgar Filing: Delaware Investments National Municipal Income Fund - Form N-CSRS

Securities	Level 2
Assets:	
Municipal Bonds	\$ 103,155,478
Short-Term Investments	300,000

	Municipal Fund
Securities	Level 2
Assets:	
Municipal Bonds	\$ 94,649,735
Short-Term Investments	350,000
Total Value of Securities	\$ 94,999,735

During the six months ended Sept. 30, 2017, there were no material transfers between Level 1 investments, Level 2 investments or Level 3 investments. The Funds policy is to recognize transfers between levels based on fair value at the beginning of the reporting period.

Table of Contents

4. Capital Stock

Pursuant to their articles of incorporation, Colorado Municipal Fund and Minnesota Municipal Fund II each have 200 million shares of \$0.01 par value common shares authorized. National Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. Shares issuable under each Fund's dividend reinvestment plan are purchased by each Fund's transfer agent, Computershare, Inc., in the open market. During the six months ended Sept. 30, 2017 and the year ended March 31, 2017, the Funds did not issue any shares under each Fund's dividend reinvestment plan.

On Jan. 22, 2016, Colorado Municipal Fund, Minnesota Municipal Fund II, and National Municipal Fund successfully issued \$30,000,000, \$75,000,000 and \$30,000,000, respectively, of Variable Rate MuniFund Term Preferred (VMTP) Shares with a \$100,000 liquidation value per share in a privately negotiated offering. The net proceeds from each offering were used to redeem the Series 2016 (in the case of Colorado Municipal Fund and Minnesota Municipal Fund II) and Series 2017 (in the case of National Municipal Fund) VMTP Shares previously outstanding. The VMTP Shares were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. Each Fund's Series 2016 and Series 2017 VMTP Shares were the same amount and value as the respective Fund's Series 2021 VMTP Shares.

Each of the Funds is obligated to redeem its VMTP Shares on Feb. 1, 2021, unless earlier redeemed or repurchased by a Fund. VMTP Shares are subject to optional and mandatory redemption in certain circumstances. VMTP Shares are redeemable at par. A Fund may be obligated to redeem certain of the VMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. Dividends on VMTP shares are set weekly, and are based on a short-term index rate plus an additional spread that is subject to adjustment in certain circumstances, including a change in the credit rating assigned to the VMTP Shares by Fitch Ratings (Fitch) and Moody's Investors Service (Moody's).

The weighted average dividend rates for the six months ended Sept. 30, 2017 were as follows:

Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
-------------------------------	-----------------------------------	-------------------------------

2.0%	2.0%	2.0%
------	------	------

The Funds use leverage because their managers believe that, over time, leveraging may provide opportunities for additional income and total return for common shareholders. However, the use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage; accordingly, the use of structural leverage may hurt a Fund's overall performance.

Leverage may also cause the Funds to incur certain costs. In the event that a Fund is unable to meet certain criteria (including, but not limited to, maintaining certain ratings with Fitch and Moody's, funding dividend payments, or funding redemptions), that Fund will pay additional fees with respect to the leverage.

For financial reporting purposes, the VMTP Shares are considered debt of the issuer; therefore, the liquidation value which approximates fair value of the VMTP Shares is recorded as a liability in the statements of assets and liabilities. Dividends accrued and paid on the VMTP Shares are included as a component of interest expense in the statements of operations. The VMTP Shares are treated as equity for legal and tax purposes. Dividends paid to holders of the VMTP Shares are generally classified as tax-exempt income for tax-reporting purposes.

Offering costs for VMTP Shares are recorded as a deferred charge and amortized over the 5-year life of the VMTP Shares. These are presented as Offering cost for preferred shareholders on the Statements of assets and liabilities and Offering costs on the Statements of operations.

5. Geographic, Credit, and Market Risk

The Funds concentrate their investments in securities issued by municipalities. Because each of the Colorado Municipal Fund and the Minnesota Municipal Fund II invests substantially all of its net assets in municipal obligations of its respective state at the time of investment, events in that state may have a significant impact on the performance and investments of the Colorado Municipal Fund and the Minnesota Municipal Fund II. These events may include economic or political policy changes, tax base erosion, state constitutional limits on tax increases, budget deficits and other financial difficulties, changes in the credit ratings assigned to the state's municipal issuers, the effects of natural or human-made disasters, or other economic, legislative, or political or social issues. Any downgrade to the credit rating of the securities issued by the US government may result in a downgrade of securities issued by the states or US territories. The National Municipal Fund will be subject to these

(continues)

35

Table of Contents

Notes to financial statements

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds**5. Geographic, Credit, and Market Risk (continued)**

risks as well but to a lesser extent because it invests at least 80% of its net assets in securities, the income from which is exempt from federal income tax and is not limited to investing substantially all of its assets in municipal obligations of a single state. From time to time and consistent with its investment policies, the National Municipal Fund may invest a considerable portion of its assets in certain municipalities. As of Sept. 30, 2017, the National Municipal Fund has invested 20.87%, 19.61%, 15.48%, and 11.88%, (each as a percentage of net assets) in securities issued by the State of California, the State of New York, the Commonwealth of Pennsylvania, and the State of Texas, respectively. These investments could make the National Municipal Fund more sensitive to economic conditions in those states than other more geographically diversified national municipal income funds.

Each Fund may invest a percentage of assets in obligations of governments of US territories, commonwealths, and possessions such as Puerto Rico, the US Virgin Islands, or Guam. To the extent a Fund invests in such obligations, that Fund may be adversely affected by local political and economic conditions and developments within these US territories, commonwealths, and possessions.

From time to time, a fund may invest in industrial development bonds (IDBs) or pollution control revenue (PCR) bonds that are issued by a conduit authority on behalf of a corporation that is either foreign owned or has international affiliates or operations. While the bonds may be issued to finance a facility located in the United States, the bonds may be secured by a payment obligation or guaranty of the corporation. To the extent the Fund invests in such securities, that Fund may be exposed to risks associated with international investments. The risk of international investments not ordinarily associated with US investments includes fluctuation in currency values, differences in accounting principles, and/or economic or political instability in other nations.

Many municipalities insure repayment for their obligations. Although bond insurance may reduce the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons, and there is no assurance that the insurance company will meet its obligations. A real or perceived decline in creditworthiness of a bond insurer can have an adverse impact on the value of insured bonds held in each Fund. At Sept. 30, 2017, the percentages of each Fund's net assets insured by insurers are listed below and these securities have been identified on the Schedules of investments.

	Colorado Municipal Fund	Minnesota Municipal Income Fund II
Assured Guaranty Corporation	1.64%	2.39%
Assured Guaranty Municipal Corporation	7.92%	0.69%

Syncora Guarantee	2.35%	
Total	11.91%	3.08%

Each Fund invests a portion of its assets in high yield fixed income securities, which are securities rated BB or lower by Standard & Poor's (S&P) and/or Ba or lower by Moody's, or similarly rated by another nationally recognized statistical rating organization. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Funds may invest in advanced refunded bonds, escrow secured bonds, or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days from the issuance of the refunding issue is known as a current refunding. Advance refunded bonds are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high-grade interest-bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are escrowed to maturity when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates.

Bonds are considered pre-refunded when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at the time, including any required premium. Bonds become defeased when the rights and interests of the bondholders and of their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to

Table of Contents

the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's, S&P, and/or Fitch Ratings due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

To the extent that the Funds invest in securities with longer duration, they may be more sensitive to fluctuation of interest rates.

Each Fund invests in certain obligations that may have liquidity protection designed to ensure that the receipt of payments due on the underlying security is timely. Such protection may be provided through guarantees, insurance policies, or letters of credit obtained by the issuer or sponsor from third parties, through various means of structuring the transaction, or through a combination of such approaches. The Funds will not pay any additional fees for such credit support, although the existence of credit support may increase the price of a security.

Each Fund may invest up to 15% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A promulgated under the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Boards have delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of each Fund's limitation on investments in illiquid securities. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to each Fund's 15% limit on investments in illiquid securities. Rule 144A securities held by each Fund have been identified on the Schedules of investments.

6. Contractual Obligations

Each Fund enters into contracts in the normal course of business that contain a variety of indemnifications. Each Fund's maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed each Fund's existing contracts and expects the risk of loss to be remote.

7. Recent Accounting Pronouncements

In October 2016, the Securities and Exchange Commission released its Final Rule on Investment Company Reporting Modernization (Rule). The Rule contains amendments to Regulation S-X which impact financial statement

presentation, particularly the presentation of derivative investments. The financial statements presented are in compliance with the most recent Regulation S-X amendments.

8. Subsequent Events

Management has determined that no material events or transactions occurred subsequent to Sept. 30, 2017 that would require recognition or disclosure in the Funds' financial statements.

Fund management

Joseph R. Baxter

Senior Vice President, Head of Municipal Bond Department, Senior Portfolio Manager Macquarie Investment Management, Americas

Joseph R. Baxter is the head of the municipal bond department in the Americas and is responsible for setting the department's investment strategy. He is also a co-portfolio manager of the firm's municipal bond funds and several client accounts. Before joining Macquarie Investment Management (MIM), which includes the former Delaware Investments, in 1999 as head municipal bond trader, he held investment positions with First Union, most recently as a municipal portfolio manager with the Evergreen Funds. Baxter received a bachelor's degree in finance and marketing from La Salle University.

Stephen Czepiel

Senior Vice President, Senior Portfolio Manager

Steve Czepiel is a member of the firm's municipal fixed income portfolio management team with primary responsibility for portfolio construction and strategic asset allocation. He is a co-portfolio manager of the firm's municipal bond funds and client accounts. He joined Macquarie Investment Management (MIM), which includes the former Delaware Investments, in July 2004 as a senior bond trader. Previously, he was vice president at both Mesirow Financial and Loop Capital Markets. He began his career in the securities industry in 1982 as a municipal bond trader at Kidder Peabody and now has more than 20 years of experience in the municipal securities industry. Czepiel earned his bachelor's degree in finance and economics from Duquesne University.

Denise A. Franchetti, CFA

Vice President, Portfolio Manager, Senior Municipal Analyst

Denise A. Franchetti is a senior municipal analyst for the municipal bond department. Currently, she is responsible for following the airport, education, hotel, cogeneration, and cargo sectors for the group. In 2003, she was also named as portfolio manager on the tax-exempt closed-end funds in addition to her research duties. Prior to joining Macquarie Investment Management (MIM), which includes the former Delaware Investments, in 1997 as a municipal bond analyst, she was a fixed income trader at Provident Mutual Life Insurance and an investment analyst at General Accident Insurance. Franchetti received her bachelor's degree and an MBA from La Salle University. She is a member of the Financial Analysts of Philadelphia.

Gregory A. Gizzi

Senior Vice President, Senior Portfolio Manager

Gregory A. Gizzi is a member of the firm's municipal fixed income portfolio management team. He is also a co-portfolio manager of the firm's municipal bond funds and several client accounts. Before joining Macquarie Investment Management (MIM), which includes the former Delaware Investments, in January 2008 as head of municipal bond trading, he spent six years as a vice president at Lehman Brothers for the firm's tax-exempt institutional sales effort. Prior to that, he spent two years trading corporate bonds for UBS before joining Lehman Brothers in a sales capacity. Gizzi has more than 20 years of trading experience in the municipal securities industry, beginning at Kidder Peabody in 1984, where he started as a municipal bond trader and worked his way up to institutional block trading desk manager. He later worked in the same capacity at Dillon Read. Gizzi earned his bachelor's degree in economics from Harvard University.

Board Consideration of Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments National Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc. Investment Management Agreements

At a meeting held on Aug. 16-17, 2017 (the Annual Meeting), the Board of Trustees/Directors (collectively, Trustees) (the Board), including a majority of disinterested or independent Trustees, approved the renewal of the Investment Advisory Agreements for Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments Minnesota Municipal Income Fund II, Inc.; and Delaware Investments National Municipal Income Fund (each, a Fund and together, the Funds). In making its decision, the Board considered information furnished at regular quarterly Board meetings, including reports detailing Fund performance, investment strategies, and expenses, as well as information prepared specifically in connection with the renewal of the investment advisory and sub-advisory contracts. Information furnished specifically in connection with the renewal of the Investment Management Agreements with Delaware Management Company (DMC), a

Table of Contents

series of Macquarie Investment Management Business Trust (formerly, Delaware Management Business Trust), included materials provided by DMC and its affiliates concerning, among other things, the nature, extent, and quality of services provided to the Funds; the costs of such services to the Funds; economies of scale; and the investment manager's financial condition and profitability. In addition, in connection with the Annual Meeting, reports were provided to the Trustees in May 2017 and included reports provided by Broadridge Financial Solutions (formerly Lipper) (Broadridge or Lipper). The Broadridge reports compared each Fund's investment performance and expenses with those of other comparable mutual funds. The Independent Trustees reviewed and discussed the Broadridge reports with independent legal counsel to the Independent Trustees. In addition to the information noted above, the Board also requested and received information regarding DMC's policy with respect to advisory fee levels and its breakpoint philosophy; the structure of portfolio manager compensation; comparative client fee information; and any constraints or limitations on the availability of securities for certain investment styles, which had in the past year inhibited, or which were likely in the future to inhibit, the investment manager's ability to invest fully in accordance with Fund policies.

In considering information relating to the approval of each Fund's advisory agreement, the Independent Trustees received assistance and advice from and met separately with independent legal counsel to the Independent Trustees and also from an experienced and knowledgeable fund consultant, JDL Consultants, LLC (JDL). Although the Board gave attention to all information furnished, the following discussion identifies, under separate headings, the primary factors taken into account by the Board during its contract renewal considerations.

Nature, extent, and quality of service. The Board considered the services provided by DMC to the Funds and their shareholders. In reviewing the nature, extent, and quality of services, the Board considered reports furnished to it throughout the year, which covered matters such as the relative performance of the Funds; compliance of portfolio managers with the investment policies, strategies, and restrictions for the Funds; compliance by DMC (Management) personnel with the Code of Ethics adopted throughout the Delaware FundsSM by Macquarie (Delaware Funds); and adherence to fair value pricing procedures as established by the Board. The Board was pleased with the current staffing of the Fund's investment advisor and the emphasis placed on research in the investment process. The Board recognized DMC's receipt of several industry distinctions during the past several years. The Board gave favorable consideration to DMC's efforts to control expenditures while maintaining service levels committed to Fund matters. The Board was satisfied with the nature, extent, and quality of the overall services provided by DMC.

Investment performance. The Board placed significant emphasis on the investment performance of the Funds in view of the importance of investment performance to shareholders. Although the Board considered performance reports and discussions with portfolio managers at Board meetings throughout the year, the Board gave particular

weight to the Broadridge reports furnished for the Annual Meeting. The Broadridge reports prepared for each Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Broadridge (the Performance Universe). A fund with the highest performance ranked first, and a fund with the lowest ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25%, the second quartile; the next 25%, the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for each Fund was shown for the past 1-, 3-, 5-, and 10-year periods, to the extent applicable, ended Jan. 31, 2017. The Board's objective is that each Fund's performance for the 1-, 3-, and 5-year periods be at or above the median of its Performance Universe.

Delaware Investments Colorado Municipal Income Fund, Inc. The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Broadridge. The Broadridge report comparison showed that the Fund's total return for the 1-, 3-, and 5-year periods was in the second quartile of its Performance Universe. The Board was satisfied with performance.

Delaware Investments Minnesota Municipal Income Fund II, Inc. The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other states municipal debt funds as selected by Broadridge. The Broadridge report comparison showed that the Fund's total return for the 1- and 5-year periods was in the third quartile of its Performance Universe. The report further showed that the Fund's total return for the 3-year period was in the fourth quartile of its Performance Universe. The Fund's performance results were not in line with the Board's objective. In evaluating the Fund's performance, the Board considered the numerous investment and performance reports delivered by Management personnel to the Board's Investments Committee. The Board was satisfied that Management was taking action to improve Fund performance and meet the Board's performance objective.

Delaware Investments National Municipal Income Fund The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end general and insured municipal debt funds as selected by Broadridge. The Broadridge report comparison showed that the Fund's total return for the 1-year period was in the third quartile of its Performance Universe. The report further showed that the Fund's total return for the

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds

Board Consideration of Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments National Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc. Investment Management Agreements (continued)

3- and 5-year periods was in second quartile of its Performance Universe. The Board observed that the Fund's performance results were mixed but tended toward median, which was acceptable.

Comparative expenses. The Board considered expense data for the Delaware Funds. Management provided the Board with information on pricing levels and fee structures for each Fund as of its most recently completed fiscal year. The Board also focused on the comparative analysis of effective management fees and total expense ratios of each Fund versus effective management fees and total expense ratios of a group of similar closed-end funds as selected by Broadridge (the Expense Group). In reviewing comparative costs, each Fund's contractual management fee and the actual management fee incurred by each Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) within the Expense Group, taking into account any applicable breakpoints and fee waivers. Each Fund's total expenses were also compared with those of its Expense Group. The Board's objective is to limit each Fund's total expense ratio to be competitive with that of the Expense Group.

Delaware Investments Colorado Municipal Income Fund, Inc. The expense comparisons for the Fund showed that its actual management fee and total expenses were both the lowest of its Expense Group. The Board was satisfied with the management fee and total expenses of the Fund in comparison to those of its Expense Group.

Delaware Investments Minnesota Municipal Income Fund II, Inc. The expense comparisons for the Fund showed that its actual management fee and total expenses were both the lowest of its Expense Group. The Board was satisfied with the management fee and total expenses of the Fund in comparison to those of its Expense Group.

Delaware Investments National Municipal Income Fund The expense comparisons for the Fund showed that its actual management fee was in the quartile with the lowest expenses of its Expense Group and its total expenses were in the quartile with the second highest expenses of its Expense Group. The Board gave favorable consideration to the Fund's management fee, but noted that the Fund's total expenses were not in line with the Board's objective. In evaluating total expenses, the Board considered the limited number of funds in the Expense Group. The Board was satisfied with Management's efforts to improve the Fund's total expense ratio and to bring it in line with the Board's objective.

Management profitability. The Board considered the level of profits, if any, realized by DMC in connection with the operation of the Funds. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of DMC's business in providing management and other services to each of the individual funds and the Delaware Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of DMC, to a

certain extent, reflects recent operational cost savings and efficiencies initiated by DMC. The Board considered DMC's efforts to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent industry-wide Securities and Exchange Commission initiatives. The Board also considered the extent to which DMC might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Funds and the benefits from allocation of fund brokerage to improve trading efficiencies. Finally, the Board also reviewed a report prepared by JDL regarding DMC profitability in the context of sub-advised funds and met with JDL personnel to discuss DMC's profitability in such context. The Board found that the management fees were reasonable in light of the services rendered and the profitability of DMC.

Economies of scale. As closed-end funds, the Funds do not issue shares on a continuous basis. Fund assets, therefore, increase primarily as a result of the increase in value of the underlying securities in the Fund. Accordingly, the Board determined that the Funds were not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of economies of scale on to shareholders was not likely to provide the intended effect.

Proxy results

At the annual meeting on Aug. 16, 2017, the shareholders of the Funds voted to elect a Board of Directors. A quorum was present and the votes passed with a majority of those shares. All shareholders of each Fund vote together with respect to the election of each Director with one exception. The holders of preferred shares of the Funds that have issued one or more classes of preferred shares have the exclusive right to separately elect two Directors, Ms. Landreth and Ms. Yeomans.

Delaware FundsSM by Macquarie Closed-End Municipal Bond Funds

Dividend reinvestment plan for Delaware Investments Colorado Municipal Income Fund, Inc. (VCF), Delaware Investments National Municipal Income Fund (VFL), and Delaware Investments Minnesota Municipal Income Fund II, Inc. (VMM)

Each Fund offers a dividend reinvestment program (Plan). Shareholders of VFL and VMM who have shares registered in their own names are automatically considered participants in the Plan, unless they elect to withdraw from the Plan. Shareholders of VCF who have shares registered in their own names are eligible to elect to participate in the Plan by notifying Computershare Trust Company, N.A. (Computershare).

Shareholders who hold their shares through a bank, broker, or other nominee should request the bank, broker, or nominee to participate in the Plan on their behalf. This can be done as long as the bank, broker, or nominee provides a dividend reinvestment service for the Fund. If the bank, broker, or nominee does not provide this service, such shareholders must have their shares taken out of street or nominee name and re-registered in their own name in order to participate in the Plan.

Computershare will apply all cash dividends, capital gains and other distributions (collectively, Distributions) on the Fund's shares of common stock which become payable to each Plan participant to the purchase of outstanding shares of the Fund's common stock for such participant. These purchases may be made on a securities exchange or in the over-the-counter market, and may be subject to such terms of price, delivery, and related matters to which Computershare may agree. The Fund will not issue new shares in connection with the Plan.

Most shareholders of VFL and VMM holding shares in nominee name will receive their Distributions in cash, if they either fail to notify their bank, broker or nominee of their wish to participate, or if they fail to have their shares taken out of street name when their nominee does not provide a dividend reinvestment service for the Fund. Shareholders of VCF will receive their Distributions in cash unless they notify Computershare and their bank, broker or nominee of their desire to enroll in the Plan.

Distributions reinvested for participants are subject to income taxes just as if they had been paid directly to the shareholder in cash. For convenient record keeping and to assist in preparing taxes, participants will receive a year-end statement showing distributions reinvested, and any brokerage commissions that Computershare is required to pay.

Shareholders holding shares of the Fund in their own names who wish to terminate their participation in the Plan may do so by providing telephonic, electronic, or written instructions to Computershare so that Computershare receives such instructions by the Distribution record date. Shareholders with shares held in an account by a bank, broker or other nominee should contact such bank, broker or other nominee to determine the procedure for withdrawal from the Plan. Shareholders owning shares of more than one Fund must specify the Fund or Funds to which their termination request pertains.

If instructions are not received by Computershare by the record date for a particular Distribution, that Distribution may be reinvested at the sole discretion of Computershare. After a shareholder's instructions to terminate participation in the Plan become effective, Distributions will be paid to the shareholder in cash. Upon termination, a shareholder

may elect to receive either stock or cash for all the full shares in the account. If cash is elected, Computershare will sell such shares at the weighted average sale price obtained by Computershare's broker for all shares sold in such batch on the applicable trade date or dates and then send the net proceeds to the shareholder, after deducting any applicable transaction fees, per share fees and related expenses, if any. Any fractional shares at the time of termination will be paid in cash at the current market price, less any applicable transaction fees, per share fees and related expenses, if any. Shareholders may at any time request a full or partial withdrawal of shares from the Plan, without terminating participation in the Plan, by contacting Computershare or their bank or broker as appropriate. Shareholders may elect to receive such withdrawals in stock or in cash as described above.

When shares outside of the Plan are liquidated, Distributions on shares held under the Plan will continue to be reinvested unless Computershare is notified of the shareholder's withdrawal from the Plan.

An investor holding shares that participate in the Plan in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan. Please contact your broker/dealer for additional details.

Computershare will charge participants their proportional share of brokerage commissions on market purchases. Participants may obtain a certificate or certificates for all or part of the full shares credited to their accounts at any time by making a request in writing to Computershare. A fee may be charged to the participant for each certificate issuance.

If you have any questions and shares are registered in your name, contact Computershare at 866 437-0252 or P.O. Box 50500, Louisville, KY 40233-5000. If you have any questions and shares are registered in street name, contact the broker/dealer holding the shares or your financial advisor.

Your reinvestment options

Each of the Funds offers an automatic dividend reinvestment program. If you would like to reinvest dividends, and shares are registered in your name, contact Computershare, Inc. at 866 437-0252. You will be asked to put your request in writing. If you have shares registered in street name, contact the broker/dealer holding the shares or your financial advisor. If you choose to receive your dividends in cash, you may now elect to receive them by ACH transfer. Contact Computershare at the number above for more information.

Each Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. Each Fund's Forms N-Q, as well as a description of the policies and procedures that each Fund uses to determine how to vote proxies (if any) relating to portfolio securities are available without charge (i) upon request, by calling 866 437-0252; and (ii) on the SEC's website at sec.gov. In addition, a description of the policies and procedures that the Funds use to determine how to vote proxies (if any) relating to portfolio securities and the Schedules of Investments included in the Funds' most recent Forms N-Q are available without charge on the Funds' website at delawarefunds.com/closed-end. Each Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C.; information on the operation of the Public Reference Room may be obtained by calling 800 SEC-0330. Information (if any) regarding how each Fund voted proxies relating to portfolio securities during the most recently disclosed 12-month period ended June 30 is available without charge (i) through the Funds' website at delawarefunds.com/proxy; and (ii) on the SEC's website at sec.gov.
