Delaware Investments Dividend and Income Fund Inc. ( DDF or the Fund ), acting pursuant to a Securities and Exchange Commission ( SEC ) exemptive order and with the approval of the Fund s Board of Directors (the Board ), has adopted a managed distribution policy (the Plan ). Currently under the Plan, the Fund makes monthly distributions to common shareholders at a targeted annual distribution rate of 10% of the Fund s average net asset value ( NAV ) per share. The Fund will calculate the average NAV per share from the previous three full months immediately prior to the distribution based on the number of business days in those three months on which the NAV is calculated. The distribution will be calculated as 10% of the prior three months average NAV per share, divided by 12. This distribution methodology is intended to provide shareholders with a consistent, but not guaranteed, income stream and a targeted annual distribution rate and is intended to narrow the discount between the market price and the NAV of the Fund s common shares, but there is no assurance that the policy will be successful in doing so.

Under the Plan, the Fund is managed with a goal of generating as much of the distribution as possible from net investment income and short-term capital gains. The balance of the distribution will then come from long-term capital gains to the extent permitted, and if necessary, a return of capital. The Fund will generally distribute amounts necessary to satisfy the terms of the Fund s Plan and the requirements prescribed by excise tax rules and Subchapter M of the Internal Revenue Code (the Code ). Each monthly distribution to shareholders is expected to be at the fixed percentage described above, except for extraordinary distributions and potential distribution rate increases or decreases to enable the Fund to comply with the distribution requirements imposed by the Code.

The Board may amend, suspend or terminate the Fund s Plan at any time without prior notice if it deems such action to be in the best interest of the Fund or its shareholders. The methodology for determining monthly distributions under the Plan will be reviewed at least annually by the Fund s Board, and the Fund will continue to evaluate its distribution in light of ongoing market conditions. The suspension or termination of the Plan could have the effect of creating a trading discount (if the Fund s stock is trading at or above NAV) or widening an existing trading discount. The Fund is subject to risks that could have an adverse impact on its ability to maintain distributions under the Plan. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, increased market volatility, portfolio companies suspending or decreasing corporate dividend distributions, and changes in the Code.

Shareholders should not draw any conclusions about the Fund s investment performance from the amount of these distributions or from the terms of the Plan. The Fund s total investment return on NAV is presented in its financial highlights table.

A cumulative summary of the Section 19(a) notices for the Fund s current fiscal period, if applicable, is included in Other Fund Information. Section 19(a) notices for the Fund, as applicable, are available on the Fund s website at
