Edgar Filing: Delaware Enhanced Global Dividend & Income Fund - Form N-Q

(Unaudited)

Securities have been classified by type of business.

PIK. 100% of the income received was in the form of cash.

⁼ The value of this security was determined using significant unobservable inputs and is reported as a Level 3 security in the disclosure table located in Note 2 in "Notes."

[°] Principal amount shown is stated in US Dollars unless noted that the security is denominated in another currency.

^Δ Securities have been classified by country of origin.

^μ Fixed to variable rate investment. The rate shown reflects the fixed rate in effect at Aug. 31, 2018. Rate will reset at a future date.

Restricted security. These investments are in securities not registered under the Securities Act of 1933, as amended, and have certain restrictions on resale which may limit their liquidity. At Aug. 31, 2018, the aggregate value of restricted securities was \$2,067,028, which represented 1.09% of the Fund's net assets. See table below for additional details.

No contractual maturity date.

[†] Non-income producing security.

Variable rate investment. Rates reset periodically. Rate shown reflects the rate in effect at Aug. 31, 2018. For securities based on a published reference rate and spread, the reference rate and spread are indicated in their description above. The reference rate descriptions (i.e. LIBOR03M, LIBOR06M, etc.) used in this report are identical for different securities, but the underlying reference rates may differ due to the timing of the reset period. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions, or for mortgage-backed securities, are impacted by the individual mortgages which are paying off over time. These securities do not indicate a reference rate and spread in their description above.

Notes

Delaware Enhanced Global Dividend and Income Fund

August 31, 2018 (Unaudited)

1. Significant Accounting Policies

The following accounting policies are in accordance with US generally accepted accounting principles (US GAAP) and are consistently followed by Delaware Enhanced Global Dividend and Income Fund (Fund). The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946, "Financial Services - Investment Companies". This report covers the period of time since the Fund's last fiscal year end, Nov. 30, 2017.

Security Valuation — Equity securities and exchange-traded funds (ETFs), except those traded on the Nasdaq Stock Market LLC (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange on the valuation date. Equity securities and ETFs traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If, on a particular day, an equity security or ETF does not trade, the mean between the bid and ask prices will be used, which approximates fair value. Equity securities listed on a foreign exchange are normally valued at the last quoted sales price on the valuation date. US government and agency securities are valued at the mean between the bid and ask prices, which approximates fair value. Other debt securities are valued based upon valuations provided by an independent pricing service or broker and reviewed by management. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Valuations for fixed income securities utilize matrix systems, which reflect such factors as security prices, yields, maturities, and ratings, and are supplemented by dealer and exchange quotations. For asset-backed securities, collateralized mortgage obligations, commercial mortgage securities, and US government agency mortgage securities, pricing vendors utilize matrix pricing which considers prepayment speed; attributes of the collateral; yield or price of bonds of comparable quality, coupon, maturity, and type as well as broker/dealer-supplied prices. Foreign currency exchange contracts are valued at the mean between the bid and ask prices, which approximates fair value. Interpolated values are derived when the settlement date of the contract is an interim date for which quotations are not available. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Trustees (Board). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security. The Fund may use fair value pricing more frequently for securities traded primarily in non-US markets because, among other things, most foreign markets close well before the Fund values its securities, generally as of 4:00pm Eastern time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, government actions or pronouncements, aftermarket trading, or news events may have occurred in the interim. Whenever such a significant event occurs, the Fund may value foreign securities using fair value prices based on third-party vendor modeling tools (international fair value pricing). Restricted securities are valued at fair value using methods approved by the Board.

2. Investments

US GAAP defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three-level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available under the circumstances. The Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-level hierarchy of inputs is summarized below and on the next page.

Inputs are quoted prices in active markets for identical investments. (Examples: equity securities, open-end investment Level 1 –companies, futures contracts, and exchange-traded options contracts)

Other observable inputs, including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates), or other market-corroborated inputs. (Examples: debt securities, government securities, swap contracts, foreign currency exchange contracts, foreign securities utilizing international fair Level 2 –value pricing, broker-quoted securities, and fair valued securities)

Edgar Filing: Delaware Enhanced Global Dividend & Income Fund - Form N-Q

Significant unobservable inputs, including the Fund's own assumptions used to determine the fair value of investments.
Level 3 (Examples: broker-quoted securities, fair valued securities)

Edgar Filing: Delaware Enhanced Global Dividend & Income Fund - Form N-Q

(Unaudited)

Level 3 investments are valued using significant unobservable inputs. The Fund may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may also be based upon current market prices of securities that are comparable in coupon, rating, maturity, and industry. The derived value of a Level 3 investment may not represent the value which is received upon disposition and this could impact the results of operations.

The following table summarizes the valuation of the Fund's investments by fair value hierarchy levels as of Aug. 31, 2018:

<u>Securities</u>	Level 1	Level 2	Level 3	Total
<u>Assets:</u>				
Agency, Asset- &				
Mortgage-Backed Securities	\$ —	\$ 149,740	\$ —	\$ 149,740
Corporate Debt	—	115,154,100	—	115,154,100
Foreign Debt	—	7,296,910	—	7,296,910
Common Stock	130,486,181	—	—	130,486,181
Convertible Preferred Stock ¹	2,511,019	2,915,656	—	5,426,675
Exchange-Traded Fund	11,337	—	—	11,337
Limited Partnerships	—	—	2,067,028	2,067,028
Preferred Stock ¹	440,778	507,600	—	948,378
US Treasury Obligations	—	1,788,242	—	1,788,242
Warrant	—	222	—	222
Short-Term Investments	—	5,268,000	—	5,268,000
Total Value of Securities	\$ 133,449,315	\$ 133,080,470	\$ 2,067,028	\$ 268,596,813
<u>Derivatives:</u> [*]				
<u>Liabilities:</u>				
Foreign Currency Exchange				
Contracts	\$ —	\$ (33)	\$ —	\$ (33)

*Foreign currency exchange contracts are valued at the unrealized appreciation (depreciation) on the instrument at the period end.

¹Security type is valued across multiple levels. Level 1 investments represent exchange-traded investments, Level 2 investments represent investments with observable inputs or matrix-priced investments, and Level 3 investments represent investments without observable inputs. The amounts attributed to Level 1 investments, Level 2 investments, and Level 3 investments represent the following percentages of the total market value of these security types:

	Level 1	Level 2	Total
Convertible Preferred Stock	46.27%	53.73%	100.00%
Preferred Stock	46.48%	53.52%	100.00%

As a result of utilizing international fair value pricing at Aug. 31, 2018, a portion of the portfolio was categorized as Level 2.

The securities that have been valued at zero on the "Schedule of investments" are considered to be Level 3 investments in this table.

During the period ended Aug. 31, 2018, there were no transfers between Level 1 investments, Level 2 investments, or Level 3 investments that had a significant impact to the Fund. This does not include transfers between Level 1 investments and Level 2 investments due to the Fund utilizing international fair value pricing during the period. In accordance with the fair valuation procedures described in Note 1, international fair value pricing of securities in the Fund occurs when market volatility exceeds an established rolling threshold. If the threshold is exceeded on a given date, then prices of international securities (those that traded on exchanges that close at a different time than the time that the Fund's net asset value (NAV) is determined) are established using a separate pricing feed from a third party vendor designed to establish a price for each such security as of the time that the Fund's NAV is determined. Further, international fair value pricing uses other observable market-based inputs in place of the closing exchange price due to the events occurring after the close of the exchange or market on which the investment is principally traded, causing a change in classification between levels. The Fund's policy is to recognize transfers between levels based on fair value at the beginning of the reporting period.

Edgar Filing: Delaware Enhanced Global Dividend & Income Fund - Form N-Q

(Unaudited)

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value for the Fund:

	Limited Partnerships
Beginning balance Nov. 30, 2017	\$ 1,826,153
Purchases	82,233
Amortization of premium	(101,928)
Net change in unrealized appreciation	260,570
Ending balance Aug. 31, 2018	\$2,067,028
Net change in unrealized appreciation from investments still held at the end of the period	\$ 260,570

When market quotations are not readily available for one or more portfolio securities, the Fund's NAV shall be calculated by using the "fair value" of the securities as determined by the Pricing Committee. Such "fair value" is the amount that the Fund might reasonably expect to receive for the security (or asset) upon its current sale. Each such determination should be based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to: (i) the type of security, (ii) the size of the holding, (iii) the initial cost of the security, (iv) the existence of any contractual restrictions of the security's disposition, (v) the price and extent of public trading in similar securities of the issuer or of comparable companies, (vi) quotations or evaluated prices from broker/dealers and/or pricing services, (vii) information obtained from the issuer, analysts, and/or appropriate stock exchange (for exchange-traded securities), (viii) an analysis of the company's financial statements, and (ix) an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

The Pricing Committee, or its delegate, employs various methods for calibrating these valuation approaches, including due diligence of the Fund's pricing vendors and periodic back-testing of the prices that are fair valued under these procedures and reviews of any market related activity. The pricing of all securities fair valued by the Pricing Committee is subsequently reported to and approved by the Board on a quarterly basis.

3. Recent Accounting Pronouncements

In March 2017, the FASB issued an Accounting Standards Update, ASU 2017-08, Receivables — Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities which amends the amortization period for certain purchased callable debt securities held at a premium, shortening such period to the earliest call date. The ASU 2017-08 does not require any accounting change for debt securities held at a discount; the discount continues to be amortized to maturity. The ASU 2017-08 is effective for fiscal years, and interim periods within those fiscal years, beginning after Dec. 15, 2018. At this time, management is evaluating the implications of these changes on the financial statements.

In August 2018, the FASB issued an Accounting Standards Update, ASU 2018-13, which changes certain fair value measurement disclosure requirements. The ASU 2018-13, in addition to other modifications and additions, removes the requirement to disclose the amount and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for the timing of transfers between levels and the valuation process for Level 3 fair value measurements. The ASU 2018-13 is effective for fiscal years, and interim periods within those fiscal years, beginning after Dec. 15, 2019. At this time, management is evaluating the implications of these changes on the financial statements.

4. Subsequent Events

Management has determined that no material events or transactions occurred subsequent to Aug. 31, 2018 that would require recognition or disclosure in the Fund's "Schedule of investments."

16 NQ-DEX [8/18] 10/18 (621370)

Item 2. Controls and Procedures.

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

File as exhibits as part of this Form a separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), exactly as set forth below:
