**Item 8.01 Other Events.**

On September 25, 2018, ImmuCell announced that the FDA issued a Technical Section Complete Letter for the Human Food Safety Technical Section of ImmuCell's New Animal Drug Application ("NADA") for its Nisin-based intramammary treatment of subclinical mastitis in lactating dairy cows. There are five major Technical Sections to a NADA with the FDA. ImmuCell previously received three of the five Technical Section Complete Letters required for NADA approval. This fourth Complete Letter leaves just the manufacturing technical section (known as the Chemistry, Manufacturing and Controls ("CMC") Technical Section) remaining for product approval and market launch.

Additional information is provided in today's press release that is attached as Exhibit 99.1 to this Form 8-K.
