GLOBAL MARKET OVERVIEW

The long awaited interest rate increase took place at the June 30, 2004 meeting of the Federal Reserve (the "Fed"). By increasing rates by only 25 basis points, the Fed did not surprise the market and kept rates below expected inflation, a position that can still be viewed as very accommodative. U.S. monetary policy is widely expected to be changed at a measured pace, especially since the effect of higher market rates leading up to the Fed meeting was already being felt, slowing down some sectors of the economy. This slow tightening pace is likely to put even more selling pressure on the U.S. dollar due to its increasingly real yield disadvantage.

Volatility and trading volume have been low in the second quarter in most of the world markets. Large capitalization stocks have usually outperformed small and mid capitalization stocks, as markets have become narrower, with fewer stocks holding up the indices. Energy was the big winner as oil prices, defying expectations, went from \$30 to \$40 a barrel. Financial services stocks were weak as investors anticipated that the peak of the earning cycle had been reached. The raw materials and industrial metals sectors were volatile due to concerns about the magnitude of the slowdown in Chinese demand precipitated by the implementation of government policies aimed at bringing inflation under control. However, its underlying trend remains up.

Overall the sideways price action in stocks reflected investors' fears that operating margins have no room left to expand and that sales are reaching a plateau in the current cycle as U.S. consumer spending lacks the stimulus of tax reductions and mortgage refinancings this time around.

SWISS ECONOMIC NOTES

On June 17, 2004, the Swiss National Bank (SNB) increased the target range for the three-month LIBOR by 25 basis points. The interest rate range extends now from 0.0% to 1.0%. This move reverses half of the latest interest rate cut of March 6, 2003. Even after this adjustment, the SNB affirmed that its monetary policy would remain expansionary and would continue to support the economic upswing.

Real gross domestic product in the third and fourth quarters of 2003 grew at an annualized rate of more than 2% compared with the previous quarter. In the first quarter of this year the trend continued at a slightly weaker rate of 1.6%. The SNB is forecasting economic growth of close to 2% for this year.

More evidence of the economic upswing is the stabilization of the labor market. As of June 30, 2004, the unemployment rate was 3.7%, down from a 5-year high point of 4.1% reached in January.

The SNB noted that inflation remained within the range that equates with price stability despite rising oil prices. A strong Swiss franc helped, to a certain extent, to offset the increase in the oil prices. On the assumption that the three-month LIBOR will

2

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders (continued)

remain stable at 0.5%, the SNB forecasts that average annual inflation will amount to 0.6% this year, 1% in 2005 and 2% in 2006.

The ten-year spot interest rate on Confederation bonds climbed from its lowest level of 2.37% in mid March to 2.87% at the end of June.

SWISS MARKET REVIEW AND FUND PERFORMANCE

The Swiss market was resilient, with the Swiss Performance Index ("SPI") showing a return of 4% in U.S. dollar terms with a currency appreciation of 1.27%. The Fund outperformed the SPI by 0.15% due to the good performance of most of the mid capitalization stocks in which the Fund has substantial positions.

The best performing sectors on the Swiss market year-to-date were Construction (+25.3%), led by Holcim Ltd. which increased by 23% helped by its exposure to emerging markets; Basic Resources (+22.4%), mainly led by increasing demand in steel; Utility Suppliers (+19%) led by energy stocks; and, finally, Chemicals (+12.3%), led mainly by Syngenta AG, which increased by 27% thanks to the increasing demand in seeds and crop protection products.

As shown in the following table, the Fund's cumulative performance since 1996 continues to be superior to its Swiss peers and its benchmark. As of June 30, 2004, the Fund maintained an overall rating of four stars from Morningstar. Past performance is no guarantee of future results.

*Lipper, Inc. is an independent fund performance monitor. As of December 31, 2003, there were 8 funds in the Lipper Western European closed-end funds category, which is comprised of funds that concentrate their investments in equity securities whose primary trading markets or operations are in the Western

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

European region or a single country within this region.

**Morningstar is an independent fund performance monitor. Its ratings reflect historic risk-adjusted performance and may change monthly. Its ratings of one (low) and five (high) stars are based on a fund's three- and five-year average annual total returns with fee adjustments, and a risk factor that reflects fund performance relative to three-month Treasury Bill monthly returns. Only 33% of the funds in an investment category may receive four or five stars. As of June 30, 2004, there were 10 funds in the Fund's asset category rated by Morningstar.

OUTLOOK

Abundant uncertainties and high earnings expectations, especially for 2005, increased the risk for equity investments. However, reasonable historical valuations and the lack of other investment opportunities in a world of low fixed-income yields are supportive factors.

In historic terms, the Swiss market's valuation is favorable, with stock prices discounting a more difficult future, mainly in the insurance and banking sectors. Industrial and construction companies continue to represent an interesting long-term opportunity due to their exposure to the emerging markets. Their performance was among the strongest on the Swiss market year-to-date.

The defensive segment of the market, which is very large for Switzerland (about 50% of the market is represented by consumer staples and healthcare companies), has held well and should be resilient in the case of slower global economic growth. Moreover, it would be beneficial if long-term bond yields stayed on a moderate upward path, as has been the case in the second quarter under review. In fact, contrary to our expectations, U.S. long bond yields have come down since mid June despite the weakening of the U.S. currency and the size of the budget deficit. This shows investor nervousness about the projection for economic expansion.

In that context, Management believes that the short term performance of economically sensitive sectors and the market overall will be muted, with a sequential decline, most likely in the third quarter, in sales numbers for numerous companies, especially in the technology area.

STOCK REPURCHASE PROGRAM

Pursuant to authorization by the Board, the Fund began open market purchases of its common stock on the New York Stock Exchange in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio and without realizing capital gains in order to fund the repurchases. The Board has authorized the purchase of up to 500,000 shares in 2004. During the six months ended June 30,

THE SWISS HELVETIA FUND, INC.

Letter to Stockholders (concluded)

2004, the Fund repurchased and retired 128,400 shares at an average price of \$12.89 per share (including brokerage commissions) and a weighted average discount of 17.86%. These repurchases, which had a total cost of \$1,654,922, resulted in an increase of \$359,779 to the Fund's net asset value

Notes to Financial Statements (Unaudited)

NOTE 1-- ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. ORGANIZATION

The Swiss Helvetia Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a non-diversified, closed-end investment management company. The Fund is organized as a corporation under the laws of the State of Delaware.

The investment objective of the Fund is to seek long-term growth of capital through investment in equity and equity-linked securities of Swiss companies.

B. VALUATION OF SECURITIES

The Fund values its investments at market value.

When valuing listed equity securities, the Fund uses the last sale price prior to the calculation of the Fund's net asset value. When valuing equity securities that are not listed or that are listed but have not traded, the Fund uses the mean between the bid and asked prices for that day.

When valuing fixed income securities, the Fund uses the last bid price prior to the calculation of the Fund's net asset value. If a current bid price is not available, the Fund uses the mean between the latest quoted bid and asked prices. When valuing fixed income securities that mature within sixty days, the Fund uses amortized cost.

It is the responsibility of the Fund's Board of Directors (the "Board") to establish fair valuation procedures. When valuing securities for which market quotations are not readily available or for which the market quotations that are available are considered unreliable, the Fund determines a fair value in good faith in accordance with these procedures. The Fund may use these procedures to establish the fair value of securities when, for example, a significant event occurs between the time the market closes and the time the Fund values its investments. After consideration of various factors, the Fund may value the securities at their last reported price or at some other value. On June 30, 2004, there were no fair valued securities.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME

Securities transactions are recorded on the trade date. Realized gains and losses are determined by comparing the proceeds of a sale or the cost of a purchase with a specific offsetting transaction.

Dividend income, net of any foreign taxes withheld, is recorded on the ex-dividend date. Interest income, including amortization of premiums and accretion of discounts, is accrued daily. Estimated expenses are also accrued daily.

The Fund records Swiss withholding tax as an expense, net of any amount receivable from Swiss tax authorities in accordance with the tax treaty between the United States and Switzerland.

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

D. DISTRIBUTIONS

The Fund pays dividends annually to the extent it has any net investment income and net realized gains from foreign currency transactions and makes distributions of any net realized capital gains to the extent they exceed any capital loss carryforwards. The Fund determines the size and nature of these distributions in accordance with provisions of the Internal Revenue Code. Distributions may be paid either in cash or in stock with an option to take cash. The Fund records dividends and distributions on its books on the ex-dividend date.

E. FEDERAL INCOME TAXES

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its stockholders. Therefore, no federal income tax provision is required.

F. SECURITIES LENDING

The Fund may lend securities to financial institutions. The Fund retains beneficial ownership of the securities it has loaned and continues to receive amounts equivalent to the dividends paid on these securities and to participate in any changes in their market value. For the initial transaction, the Fund requires the borrowers of the securities to establish collateral with the Fund in the form of cash and/or government securities equal to 105% of the value of the securities loaned. Subsequent to the initial transaction, the Fund requires the borrowers to maintain collateral with the Fund equal to 100% of the value of the securities loaned. The Fund receives fees as compensation for lending its securities. Either the Fund or the borrower may

16

THE SWISS HELVETIA FUND, INC.

Notes to Financial Statements (Unaudited) (continued)

terminate the securities loan at any time. On June 30, 2004 there were no securities on loan.

G. FOREIGN CURRENCY TRANSLATION

The Fund maintains its accounting records in U.S. dollars. The Fund determines the U.S. dollar value of foreign currency denominated assets, liabilities and transactions by using prevailing exchange rates. In valuing assets and liabilities, the Fund uses the prevailing exchange rate on the valuation date. In valuing securities transactions, the receipt of income and the payment of expenses, the Fund uses the prevailing exchange rate on the transaction date.

Net realized and unrealized gains and losses on foreign currency translations shown on the Fund's financial statements result from the sale of foreign currencies, from currency gains or losses realized between the trade and settlement dates on securities transactions, and from the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

When calculating realized and unrealized gains or losses on investments in equity securities, the Fund does not separate the gain or loss attributable to changes in the foreign currency price of the security from the gain or loss

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

attributable to the change in the U.S. dollar value of the foreign currency.

On June 30, 2004, the Fund held the following currency contracts:

Contracts To Deliver (CHF)	Settlement Date	Settlement Value (USD)	Market Value (USD)	Net Unrealized Depreciation
-----	-----	-----	-----	-----
1,261,870	07/02/04	\$1,000,000	\$1,007,561	\$7,561

CHF Swiss Franc

USD U.S. Dollar

H. ESTIMATES

In preparing its financial statements in conformity with accounting principles generally accepted in the United States, management makes estimates and assumptions. Actual results may be different.

NOTE 2-- FEES AND TRANSACTIONS WITH AFFILIATES

Hottinger Capital Corp. ("HCC"), which is owned jointly by Hottinger U.S., Inc. and Hottinger & Cie (Zurich), is the Fund's advisor (the "Advisor"). The Fund pays the Advisor an annual fee based on its month-end net assets which is calculated and paid monthly at the following annual rates: 1.00% of the first \$60 million, 0.90% of the next \$40 million, 0.80% of the next \$100 million, 0.70% of the next \$100 million, 0.65% of the next \$100 million, 0.60% of the next \$100 million, 0.55% of the next \$100 million, and 0.50% of such assets in excess of \$600 million. The Fund paid Hottinger & Cie \$19,676 in brokerage commissions for the six months ended June 30, 2004.

The Fund and the Advisor have agreed to share certain common expenses subject to review and allocation by the Audit Committee (the "Committee") of the Board. The Committee's allocations are based on its determination of the relative benefits the Fund and the Advisor derive from the expenditures. During 2004, the Committee allocated \$9,300 of expenses incurred in connection with publicizing the Fund as follows: \$4,650 to the Fund and \$4,650 to the Advisor.

Certain officers and directors of the Fund are also officers or directors of HCC, Hottinger U.S. Inc., Hottinger & Cie (Zurich). These persons are not paid by the Fund for serving in these capacities.

NOTE 3-- OTHER FEES

Citigroup Global Transaction Services, through its various affiliates, provides certain administration and portfolio accounting services to the Fund.

American Stock Transfer & Trust Company is the Fund's transfer agent. The Fund pays the transfer agent an annual fee which is accrued daily and paid monthly.

Swiss American Securities Inc. is the Fund's U.S. custodian. Credit Suisse First Boston is the Fund's Swiss sub-custodian. The Fund pays the custodian and sub-custodian an annual fee.

The Fund pays each director who is not an interested person (as such term is defined in the Act) of the Fund, its Advisor or Forum Administrative Services,

of the Audit Committee and the Governance/Nominating Committee, to whom the Fund pays an annual fee of approximately \$17,600. In addition, the Fund pays each disinterested director \$750 for each Board meeting attended and \$750 for each committee meeting attended, if it is held separately. In addition, the Fund reimburses directors who are not employees of, or affiliated with, the Advisor for out-of-pocket expenses incurred in conjunction with attendance at meetings.

NOTE 4-- CAPITAL SHARE TRANSACTIONS

The Fund is authorized to issue up to 50 million shares of capital stock. HCC owned 113,788 of the 23,969,918 shares outstanding on June 30, 2004. Transactions in capital shares were as follows:

	For the Six Months Ended June 30, 2004		For the Year Ended December 31, 2003

(a) REPRESENT SHARES ISSUED TO STOCKHOLDERS WHO DID NOT ELECT CASH IN CONJUNCTION WITH CAPITAL GAINS DISTRIBUTION OF \$0.541 PER SHARE PAID JANUARY 14, 2003 TO STOCKHOLDERS OF RECORD ON DECEMBER 19, 2002.

NOTE 5-- INVESTMENT TRANSACTIONS

The aggregate cost of purchases and proceeds from sales of investments, other than short-term obligations, for the six months ended June 30, 2004, were \$62,007,887 and \$77,070,778, respectively.

The net unrealized appreciation from investments for those securities having an excess of value over cost was \$188,475,986 and the net unrealized depreciation from investments for those securities having an excess of cost over value was \$1,356,625.

NOTE 6-- STOCK REPURCHASE PROGRAM

Pursuant to authorization by the Board, the Fund began open market purchases of its common stock on the New York Stock Exchange in 1999 and has continued purchases in each subsequent year. The principal purpose of the stock repurchase program is to enhance stockholder value by increasing the Fund's net asset value per share without creating a meaningful adverse effect upon the Fund's expense ratio and without realizing capital gains in order to fund the repurchases. The

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

Board has authorized the purchase of up to 500,000 shares in 2004. During the six months ended June 30, 2004, the Fund repurchased and retired 128,400 shares at an average price of \$12.89 per share (including brokerage commissions) and a weighted average discount of 17.86%. These repurchases, which had a total cost of \$1,654,922, resulted in an increase of \$359,779 to the Fund's net asset value.

NOTE 7-- LITIGATION

On April 2, 2001 and May 8, 2001, two complaints were filed in purported class actions on behalf of stockholders of the Fund, in the Court of Chancery of the State of Delaware, against the Fund, each of its directors and HCC, the Fund's Investment Advisor (collectively, the "defendants"). The complaints in these cases, entitled KIMBERLY KAHN V. PAUL HOTTINGUER ET AL. and CHARLES MILLER V. PAUL HOTTINGUER ET AL., have been voluntarily dismissed by plaintiffs with prejudice pursuant to a settlement agreement that was approved by the Delaware Chancery Court on June 4, 2003. In the opinion of management, the terms of the settlement did not have a material adverse effect on the financial statements of the Fund.

Dividend Reinvestment Plan (Unaudited)

The Plan

The Fund's Dividend Reinvestment Plan (the "Plan") offers a convenient way for you to reinvest your capital gains distributions and ordinary income dividends in additional shares of the Fund.

Some of the Plan features are:

- Once you enroll in the Plan, all of your future distributions and dividends payable in whole or in part in cash will be automatically reinvested in Fund shares.
- You will receive shares valued at the lower of the Fund's net asset value or the Fund's market price as described below. The entire amount of your distribution or dividend will be reinvested automatically in additional Fund shares. For any balance that is insufficient to purchase full shares of the Fund, your account will be credited with fractional shares.
- Your shares will be held in an account with the Plan agent. You will be sent regular statements for your records.
- You may terminate participation in the Plan at any time.

The following are answers to frequently asked questions about the Plan.

How do I enroll in the Plan?

If you are holding certificates for your shares, contact American Stock Transfer

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

& Trust Company (AST) at the address shown below. If your shares are held in a brokerage account, contact your broker. Not all brokerage firms permit their clients to participate in dividend reinvestment plans such as the Plan and, even if your brokerage firm does permit participation, you may not be able to transfer your Plan shares to another broker who does not permit participation. Your brokerage firm will be able to advise you about its policies.

How does the Plan work?

Any dividends or distributions you receive will be reinvested in shares of the Fund. The number of shares credited to your Plan account as a result of the reinvestment will depend upon the relationship between the Fund's market price and its net asset value per share on the record date of the distribution or dividend, as described below:

- If the net asset value is greater than the market price (the Fund is trading at a discount), AST as Plan Agent, will buy Fund shares for your account on the open market on the New York Stock Exchange or elsewhere. Your dividends or distributions will be reinvested at the average price AST pays for those purchases.
- If the net asset value is equal to the market price (the Fund is trading at parity), the Fund will issue for your account new shares at net asset value.
- If the net asset value is less than but within 95% of the market price (the Fund is trading at a premium of less than 5%), the Fund will issue for your account new shares at net asset value.
- If the net asset value is less than 95% of the market price (the Fund is trading at a premium of 5% or more), the Fund will issue for your account new shares at 95% of the market price.

If AST begins to buy Fund shares for your account at a discount to net asset value but, during the course of the purchases, the Fund's market price increases to a level above the net asset value, AST will complete its purchases, even though the result may be that the average price paid for the purchases exceeds net asset value.

20

THE SWISS HELVETIA FUND, INC.

Dividend Reinvestment Plan (Unaudited) (concluded)

Will the entire amount of my distribution or dividend be reinvested?

The entire amount of your distribution or dividend will be reinvested in additional Fund shares. If a balance remains after the purchase of whole shares, your account will be credited with any fractional shares (rounded to three decimal places) necessary to complete the reinvestment.

How can I sell my shares?

You can sell any or all of the shares in your Plan account by contacting AST. AST charges \$15 for the transaction plus \$.10 per share for this service. You can also withdraw your shares from your Plan account and sell them through your broker.

Does participation in the Plan change the tax status of my distributions or dividends?

No. The distributions and dividends are paid in cash and their taxability is the same as if you received the cash. It is only after the payment of distributions and dividends that AST reinvests the cash for your account.

Can I get certificates for the shares in the Plan?

Edgar Filing: SWISS HELVETIA FUND INC - Form N-CSRS

AST will issue certificates for whole shares upon your request. Certificates for fractional shares will not be issued.

Is there any charge to participate in the Plan?

There is no charge to participate in the Plan. You will, however, pay a pro rata share of brokerage commissions incurred with respect to AST's open market purchases of shares for your Plan account.

How can I discontinue my participation in the Plan?

Contact your broker or AST in writing. If your shares are in a Plan account, AST will send you a certificate for your whole shares and a check for any fractional shares.

Where can I direct my questions and correspondence?

Contact your broker, or contact AST as follows:

By mail:

PO Box 922
Wall Street Station
New York, NY 10269-0560

Through the Internet:
