TIM BRASIL

Highlights 2007

TIM Brasil is positioned as leader in value in the Brazilian mobile market, by means of its:

- National presence
- Innovation in terms of Marketing and Technology
- Strong brand

In 2007, main results achieved were:

- Leadership in service revenues share (since 2006)
- Best value customer mix (postpaid segment) and ARPU above market average
- *Top of Mind* (four times in the last 5 years) and best preference index
- Positive Net Cash Flow and positive Net Income
- All 2007 targets achieved

In 2007, TIM Brasil decided to change through:

- Fixed line license acquisition: entrance in fixed and internet market
- Launch of a new business model targeting Low ARPU
- 3G License acquisition

TIM BRASIL

Political and Economic Scenario

- PAC investments approx. R\$ 500 bln to R\$ 900 bln between 2007 - 2010.
- Lower interest rates producing a record bank lending, powering consumer spending
- Positive Trade Balance since 2001
- In January '08, Brazil became a net foreign creditor for the first time in history.

CAPEX evolution breakdown

BR GAAP, Bln Reais

TIM BRASIL

3G Licenses

Brazil's telecoms regulator Anatel, during the 2.100MHz 3G Auction, raised a total of 5.3 bln Reais (US\$2.9 bln), representing an 86.7% premium over the bid base prices

TIM Brasil acquired 10+10 MHz for all areas, but for:

Area III e IV, São Paulo Metropolitan area and North Region: TIM acquired 15+15 MHz

Area VII, Cities of Minas Gerais State that are considered part of TrianguloMineiro : Despite not having acquired 2.100MHz license in this small area, TIM will be able to provide 3G services based on the current 850 MHz license

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
