**Clarification regarding the BM-S-9**

Rio de Janeiro, March 10, 2010. Petróleo Brasileiro S.A - Petrobras, in response to written notice received from Securities and Exchange Commission of Brazil CVM, GEA-2/Nº 120/2010, wishes to clarify the news published today in the Brazilian Press, titled Petrobras declares a new discovery in the Santos Basin pre-salt layer . The Company confirms that it notified the ANP (National Agency for Oil, Natural Gas and Biofuels) about the presence of hydrocarbons in the well 3-SPS-69 (3-BRSA-788-SPS), located in the northern part of the BM-S-9 area, developed under the Guará Evaluation Plan.

The Company further clarifies that the concession contracts executed with ANP requires that the Agency must be informed by the operator about any evidence of the presence of oil, natural gas or other hydrocarbons within the concession area. This requirement is mandatory to all the companies which operate in Brazil.

In this context, the consortium formed by Petrobras (45% - Operator), BG (30%) and Repsol (25%) notified the ANP, on March 9<sup>th</sup>, about the presence of hydrocarbons during the drilling activity in the aforementioned area.

This notification merely represents a standard procedure required by the Agency and does not represents a declaration of discovery nor any material fact, having no impact in Petrobras´s stocks trade, considering the imprecision of the results which are still pending to be achieved.

Although the information represents a positive sign by itself, it is not conclusive. The *West Polaris* drilling rig will continue the activities in the well to gather more data and evidence. The information could become relevant in the light of new studies and data gathered during the testing and, if that be the case, will be announced to the market and to the regulatory agencies.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
