This report on Form 6-K is incorporated by reference in the Registration Statement on Form F-3 of Petróleo Brasileiro -- Petrobras (No. 333-163665).

Clarification on Cherne II Platform

Rio de Janeiro, February 10th, 2011 Petróleo Brasileiro S.A. - Petrobras informs that the Labor Superintendence of the State of Rio de Janeiro (SRT/RJ) decided to interdict the Cherne II platform, located in Campos Basin.

Petrobras reiterates that the platform is in safe operating conditions for the integrity of the workers, the environment and the unit's facilities.

Cherne II had already been inspected by the Brazilian Navy on February 1st and released for its normal operations. The Navy inspected and approved the unit's firefighting system, recognizing the Company's ability to act in emergency situations.

All essential equipment that ensure the safety of the personnel and the operation of Cherne II are in accordance with the normative requirements of NR-10, as well as all the expected training and collective protection equipment (CPE) are met.

For these reasons, none of the points put forward by the SRT/RJ represent a risk which justifies the interruption of the platform's operation. They were already part of the list of items to be checked during the maintenance shutdown, which will take place at the end of February, according to the schedule prepared in November 2010.

In compliance to the requirement of the interdiction report, Petrobras has started the technical procedures to shut down the platform's operation, according to the international operational safety standards and is analyzing the applicable legal measures. The platform's average daily production was approximately 9 thousand barrels a day.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
