**Petrobras signs agreement to convert platform hulls  
for transfer of rights areas**

Rio de Janeiro, May 7, 2012 – Petróleo Brasileiro S.A. – Petrobras has signed today an agreement to convert four ships of the Very Large Crude Carrier (VLCC) type into hulls in the future platforms P-74, P-75, P-76 and P-77 for the transfer of rights areas. The agreement's overall value is US\$1.7 billion and the work will be carried out in the Inhaúma shipyard, in the state of Rio de Janeiro, which has been leased by Petrobras and is being remodeled in order to meet the Company's demands. The agreement was signed with the consortium composed by the construction companies Norberto Odebrecht S/A, OAS Ltda. and UTC Engenharia S/A.

Each platform will have the capacity to produce up to 150,000 oil barrels per day and compress 7 million cubic meters of natural gas per day, and will operate in the Franco and Nordeste de Tupi prospects, located in the pre-salt area of the Santos Basin.

Conversion work should begin in June. The first unit of this series is platform P-74, whose ship is already anchored in the Rio de Janeiro Port, with conversion of the hull expected to be concluded in March 2014. The conversion of the P-75 hull is scheduled to be concluded in October 2014, and the P-76 and P-77 hulls should be converted in 2015.

When that stage of the conversion is complete, each hull will be sent to another worksite. The next stage will involve installing the oil and gas processing and production plant modules and integrating the units (installing the modules in the hulls). These agreements should be signed by April 2013.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
