PREVIEW OF OPERATIONAL RESULTS - GAFISA GROUP

1Q13

--- Launches reached R\$ 308 million, 10% of the mid-point of full-year launch guidance ---

--- Consolidated pre-sales totaled R\$205 million in 1Q13 and gross sales reached R\$700 million in 1Q13 --

FOR IMMEDIATE RELEASE - São Paulo, April 15th 2013 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today announced operational results for the first quarter ending March 31, 2013.

Duilio Calciolari, Chief Executive Officer, said: “During the first quarter of 2013 we relaunched the Tenda brand under its new business model, thus maximizing the potential of the Tenda brand within the Gafisa Group. The move forms part of the Company’s reinvestment strategy that will expand medium and long-term profitability.”

“Market conditions remained stable and the first quarter results were in keeping with seasonally lower activity in the first three months of the year. Given the high volume of deliveries in the second half of 2012, Gafisa brand registered a higher volume of sales cancellations in this quarter. Throughout the year, we will work to resell these units. We also maintained our focus on inventory reduction initiatives, and inventory represented 65% of total sales. Cash generation was slightly negative, mainly impacted by lower launch volume due to seasonality and expenditures linked to landbank acquisition.”

Delivered Projects

Gafisa Group delivered 9 projects/phases encompassing 1.300 units during the first quarter, a 79% decrease compared to the 6.165 delivered during 1Q12. See the accompanying chart for detailed information.

Chart 1. Delivered Units (2010 – 1Q13)

Operational Consolidated Cash Flow Status

Preliminary consolidated operational cash flow was R\$95 million in the quarter. Preliminary consolidated cash generation (cash burn) was negative at approximately R\$30 million in 1Q13. This preliminary consolidated cash generation result is subject to changes given the new resolution (established for homebuilders) on the consolidation method for shared control projects released by the CPC (Brazilian accounting committee) to adapt to international standards.

Consolidated Launches

First-quarter 2013 launches totaled R\$308 million, a 34% decrease compared to 1Q12. The result represents 10% of the mid-point of full-year launch guidance of R\$ 2.7 to R\$ 3.3 billion, which is broadly in keeping with the proportion of full-year launches historically occurring in the first quarter. Throughout the quarter, 5 projects/phases were launched across 3 states, with Tenda accounting for 37% of launches, Alphaville 36% and the Gafisa segment the remaining 27% in terms of PSV.

As reported above, dissolutions on the Gafisa segment were higher than the last quarter and impacted the volume of net sales. Tenda's sales in both launched projects reached R\$ 13.7 million, which are not included in this preview, and will be reported accordingly, by the time of the transfer of the mortgage to the

financial institutions.

Throughout 2012, Tenda's senior management team implemented corrective actions focused on execution and the delivery of existing and in-progress developments. In the meantime, the Company deliberately halted the launch of Tenda units to establish control over the financial and operational construction cycle so that sustainable profitable growth could be resumed.

Having achieved control of the operational and the financial cycle in 2012, the Tenda brand resumed launches in the first quarter of 2013. First-quarter launches totaled R\$ 114 million and included 2 projects/phases across 2 cities, Sao Paulo and Salvador. The brand accounted for 37% percent of first quarter consolidated launches.

Sales from units launched during the same period represented 5% of total gross contracted sales of R\$239 million, which will not be accounted on the consolidated base until these units are transferred to the financial institutions. Sales from inventory accounted for the remaining 95%. All pre-sales were contingent upon the ability to pass mortgages onto financial institutions. All new projects under the Tenda brand are being developed in phases, in which it is necessary to be qualified to the financing programs and sales are conditioned to ability of the transfer of the mortgage to the financial institutions.

In 1Q13, sales velocity (sales over supply) was 5.0%, compared to 13.9% in 1Q12. The sales velocity of Tenda launches was 14% during the 1Q13.

Tenda is still working to finish its legacy projects, and keeps the process of dissolution with non-eligible clients, to further sell the units to qualified customers. Out of the 2.300 Tenda units that were cancelled and returned to inventory, 41% have already been resold to qualified customers within 1Q13.

Tenda Segment Operations

In 1Q13, Tenda transferred around 2,451 units to financial institutions.
