FOR IMMEDIATE RELEASE - São Paulo, May 10, 2013 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported financial results for the first quarter ended March 31, 2013.

Duilio Calciolari, Chief Executive Officer, said: "Market conditions were stable in the first quarter and results are in keeping with seasonally lower activity. The high volume of deliveries in the second half of 2012 resulted in increased first quarter sales cancellations, however we are making steady progress on the resale of these units to qualified customers. Inventory sales represented 65% of total sales as we continue to focus on inventory reduction initiatives. Cash generation was impacted by lower launch volumes and expenditures linked to land bank acquisition."

"Our focus in 2013 is on profitable growth in order to capture the full potential of the Gafisa Group's new operating structure. Accordingly, the relaunch of the Tenda brand under a new business model is proceeding in line with plan. Two projects were launched in São Paulo and Salvador in the first quarter, with sales contingent upon the transfer of mortgages to financial institutions. The brand's relaunch forms part of the Company's reinvestment strategy that will expand medium and long-term profitability. Results

continue to be impacted by the resolution of Gafisa segment legacy projects launched in non-core markets and the majority of the remaining Tenda projects.

CONSOLIDATED FINANCIAL RESULTS

Revenue for the first quarter of 2013, recognized by the "PoC" method, decreased 20% year-over-year to R\$669 million. Cost of goods sold (COGS) decreased 22% to R\$510 million. Gross profit was R\$158 million, compared to R\$177 million in 1Q12. Gross margin increased to 24%, or 32% excluding the impact of the Tenda business, from 21% and 29%, respectively, in the prior-year period.

Adjusted EBITDA was R\$68 million in 1Q13, compared to R\$100 million in 1Q12. Adjusted EBITDA for the Gafisa and Alphaville brands totaled R\$45 million and R\$48 million, respectively, while Tenda's adjusted EBITDA was negative R\$25 million in 1Q13. The adjusted EBITDA margin was 10% or 18% ex-Tenda, compared to 12% and 21%, respectively, in 1Q12.

Consolidated Free Cash Generation Impacted by New Industry Accounting Rules

Chart 1. Cash Generation (Cash burn) (3Q10 – 1Q13)

Nota: 1) Cash Burn de R\$20 milhões no critério anterior para efeito de comparação.

Consolidated operational cash flow was R\$122 million in the quarter. Consolidated cash generation (cash burn) was negative at R\$89 million and was impacted by the adoption of new accounting rules on the consolidation method for shared control projects. The new accounting standards are reflected in both individual and consolidated financial statements as of March 31, 2013. Their adoption resulted in the restatement of 2012 interim results and changes to some balance sheet items. On a pro forma basis, consolidated cash generation (cash burn) was positive at R\$20 million.

Unit Deliveries

Chart 2. Delivered units (2010 – 1Q13)

Gafisa Group delivered 9 projects/phases encompassing 1,300 units during the first quarter, a 79% decrease compared to 1Q12 due to the lower volume of sites under construction at the Tenda business. See the accompanying chart for detailed information.

Status on Alphaville Acquisition

The arbitration has been submitted to the Brazil-Canada Chamber of Conciliation and Arbitration as prescribed in the Investment Agreement. To recap, according to the terms of the agreement between Gafisa and Alphapar when Gafisa acquired control of Alphaville in 2006, as the Parties did not reach an agreement on the acquisition of the remaining 20% stake in Alphaville, the process was submitted to arbitration on an exclusive and final basis.

Analysis of Strategic Options for the Alphaville Business

In September 2012, the Company disclosed in a material fact that it has initiated an analysis of strategic options for the Alphaville business. It believes that the value of Alphaville is not reflected in the current valuation of Gafisa by the market. Strategic options include an IPO of its controlled company Alphaville Urbanismo S.A. ("Alphaville"), the sale of a stake in the business or the maintenance of the current status. Gafisa continues to analyze strategic options for Alphaville that will maximize value for Gafisa shareholders in the long run and will inform the market as soon as possible once a decision has been made.

RECENT EVENTS

Impact of New Industry Accounting Standards on the Group's Consolidated Financial Statements

Commencing 2013, the Company has adopted new accounting rules for Brazilian homebuilders on the consolidation method of control of shared projects published by the Accounting Pronouncements Committee - CPC 19 (R2) - "Business Combination".

Beginning January 1, 2013, jointly controlled entities are consolidated by the equity method, instead of the proportional method. As a result, the Company consolidates jointly controlled entities in the consolidated interim statements.

The new rules, which align with international standards, are reflected in Gafisa's individual and consolidated interim statements for March 31, 2013. Thus, for comparison purposes, the consolidated financial statements for the quarters ended March 31, 2012 and December 31, 2012 were reclassified to reflect this change. The main impacts occurred in net revenue, costs, gross financial result and equity. The table below shows pro-forma results and the impact on 1Q13 balances.

RECENT EVENTS

Updated Status of the Results by Brand

Having successfully executed significant structural and operational changes in 2012, Gafisa will deliberately accelerate investment in its business in 2013. This will be achieved through land purchases for the Gafisa brand and increased overall launch activity, including the resumption of launches in the Tenda business under a profitable business model and the continued expansion of Alphaville's growth.

GAFISA SEGMENT

The Company advanced in delivering projects on schedule and within budget. The Gafisa brand experienced increased sales cancellations in the first quarter, reflecting the high volume of deliveries in the second half of 2012. 44% of dissolutions referred to completed units and 34% to units in non-core markets. Of those units cancelled, around 40% were promptly resold in the quarter.

ALPHAVILLE SEGMENT

Alphaville's operations are performing as planned. The Company plans to selectively expand its subdivisions business to take advantage of the growth potential of the Brazilian residential market. Since the brand's acquisition by Gafisa, Alphaville has grown on average 34% p.a. with substantial gains in margin and returns to shareholders.

TENDA SEGMENT

Having achieved control of the operational and the financial cycle in 2012, the Tenda brand resumed launches in the first quarter of 2013. First-quarter launches totaled R\$114 million and included 2 projects/phases across 2 cities, Sao Paulo and Salvador. The Company relaunched the Tenda brand under its new business model, which is detailed below, thus maximizing the potential of the Tenda brand within the Gafisa Group. The move forms part of the Company's reinvestment strategy that will expand medium and long-term profitability.

Figure 1. Tenda Homebuilding Workflow

Phase 1 - In new communities, Tenda either purchases a parcel of land on which it can build a number of homes or subdivides the land into lots to build multiple projects that will be launched in phases.

Tenda targets areas where customers make 3-6 times the monthly minimum wage. Participants in the land development stage are: financial institutions (projects need to be approved and contracted before the 2nd phase), municipal planning and zoning departments, elected officials and community interest groups.

Phase 2 - During this stage, Tenda does not contract advertising agencies. Instead the marketing campaign is conducted internally. Brochures are distributed exclusively at Tenda's store, eliminating the need for a sales stand.

Sales are conducted by an internal force and targeted at customers whose units can be immediately transferred to banks. The remuneration of the internal sales team is based on the “repassé” (transfer of units to financial institutions). The sale transferred to banks makes the sales process more complex, but much more assertive and with virtually no sales cancellations. As a result of the tighter credit policy and the new sales process, sales velocity has no peaks during the launch phase, but on the other hand, sales expenses are lower, and sales are steady. The model is made to have between 7-10% SoS per month, each and every month, until the project is sold out at least in 15 months.

Phase 3 - Aluminum molds are used in construction to ensure a high quality and cost efficiency. Tenda uses its own project management software and procedures for construction to minimize external variances. During this phase, monthly installments are not adjusted for inflation. However, the shorter cycle and use of aluminum mold improve cost visibility. The overall process, from authorization, through to launch, construction and delivery, is planned to take approximately 2 years. The loan starts out as a construction loan based on a subsidized line of credit that banks provide to low income builders and rolls over into a permanent mortgage to the final buyer. The line of credit provides the builder with financing for several homes at a time. A key advantage of the program is the assurance of financing, which allows the builder to focus on execution and better schedule construction workflow.

Phase 4 - Collections for sold units are in accordance with the payment plan provided by financial institutions under the “associativo” (MCMV - a federal program established in 2009 to fund housing for Brazil’s poor and middle classes).

Tenda receives 100% of the value of the unit during the construction phase, eliminating the risk of delinquency on its balance sheet.

Liquidity

The Gafisa Group ended the first quarter with R\$1.4 billion in cash and cash equivalents, down from R\$1.6 billion at the end of 4Q12. Net debt was R\$2.5 billion at the end of 1Q13, a R\$89.0 million increase from R\$2.4 billion the end of 4Q12. As a result, consolidated cash generation (cash burn) was negative at approximately R\$89.0 million in 1Q13. The net debt and investor obligations to equity and minorities ratio was 94% compared to 89% in 4Q12 and 114% in 1Q12. Excluding project finance, the net debt/equity ratio reached 19% from 20% in 4Q12 and 50% in the 1Q12.

The Company has access to a total of R\$1.6 billion in construction finance lines contracted with banks and R\$520 million of construction credit lines in the process of being approved. Also, Gafisa has R\$3.1 billion available in construction finance lines of credit for future developments. The following tables provide information on the Company's debt position:

OUTLOOK

First-quarter 2013 launches totaled R\$308 million, a 34% decrease compared to 1Q12. The result represents 10% of the mid-point of full-year launch guidance of R\$ 2.7 to R\$ 3.3 billion and is broadly in keeping with the proportion of full-year launches historically occurring in the first quarter. Gafisa is expected to represent 42% of 2013 launches, Alphaville 46% and Tenda the remaining 12%.

Given the focus on cash generation in 2012, Gafisa enters 2013 with a comfortable liquidity position and capital structure, having restructured debt and diversified funding sources and cash facilities. As of March 31, 2013, the net debt and investor obligations to equity ratio was 94%.

Table 59. Guidance Leverage (2013E)

The Company expects an adjusted EBITDA margin in the range of 12% - 14% in 2013, as margins continue to be impacted by (1) the resolution of Tenda legacy projects, including the delivery of around 7,000 units in 2013, and (2) the delivery of lower margin projects launched by Gafisa in non core markets, expected to be substantially concluded in 2013.
