(A free translation of the original report in Portuguese as published in
Brazil containing Quarterly Information (ITR) prepared in

Report on the review of quarterly information - ITR

To the Shareholders, Board of Directors and Officers

Gafisa S.A.

São Paulo, SP

We have reviewed the accompanying individual and consolidated interim financial information of Gafisa S.A. (“Company”), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended June 30, 2014, which comprises the balance sheet as at June 30, 2014 and the respective statement of operations and statement of comprehensive income (loss) for the quarter and six-month period then ended, and the statement of changes in equity and statement of cash flows for the six-month period then ended, including explanatory notes.

The Company’s management is responsible for the preparation of individual interim financial information in accordance with the Technical Pronouncement of the Brazilian FASB (CPC) 21 – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) which considers the Technical Orientation - OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, edited by the Brazilian FASB (CPC) and approved by the Brazilian Securities Commission (CVM) and the Brazilian Federal Accounting Council (CFC), as well as for the presentation of these information in compliance with the rules issued by the CVM, applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 – Review of Interim Financial Information Performed by the Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the

financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.

Conclusion from the individual and consolidated interim financial information prepared in accordance with CPC 21 (R1)

Based on our review, we are not aware of any fact that makes us believe that the individual and consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

Conclusion from the consolidated interim information prepared in accordance with IAS 34, which considers the Technical Orientation - OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, edited by the Brazilian FASB (CPC) and approved by the Brazilian Securities Commission (CVM) and the Brazilian Federal Accounting Council (CFC)

Based on our review, we are not aware of any fact that makes us believe that the consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with IAS 34, which considers the Technical Orientation - OCPC 04 - Application of technical interpretation ICPC02 to the Brazilian Real Estate Development Entities, issued by the Brazilian FASB (CPC) and approved by the Brazilian Securities Commission (CVM) and the Brazilian Federal Accounting Council (CFC) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

Emphasis of matter

As described in Note 2, the individual (Company) and consolidated interim financial information was prepared in accordance with accounting practices adopted in Brazil (CPC21 (R1)). The consolidated interim financial information prepared in accordance with the IFRS applicable to the real estate development entities also considers the Technical Orientation OCPC04, edited by the Brazilian FASB (CPC). This Technical Orientation refers to the revenue recognition of this sector and comprises other matters related to the meaning and adoption of the concept of continuous transfer of the risks, benefits and control over real estate unit sales, as further described in Note 2. Our conclusion is not modified in view of this matter.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statement of value added for the six-month period ended June 30, 2014, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules of the CVM applicable to Quarterly Information (ITR), and as supplementary information under IFRS, whereby no statement of value added presentation is required. These statements have been subject to the same review procedures previously described and, based on our review, we are not aware of any fact that makes us believe that they were not prepared, in all material respects, according to the individual and consolidated interim financial information taken as a whole.

GAFISA RELEASES 2Q14 RESULTS

FOR IMMEDIATE RELEASE

São Paulo, August 08, 2014

Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of Brazil's leading homebuilders, today reported financial results for the quarter ended June 30, 2014.

MANAGEMENT COMMENTS AND HIGHLIGHTS

We are pleased to report continued improvement in Gafisa and Tenda's financial results during the second quarter of 2014. In spite of the uncertain economic environment and the impact, at the end of the quarter, of the World Cup in Brazil, the Company was able to report solid operating results, which positively impacted financial performance.

Gafisa's profitability continues to improve. In the quarter, margins were in line with our expectations and are consistent with the business plan for the year. Adjusted gross margin reached 38.1%, and adjusted EBITDA margin was 20.9%, as a result of our strategy of consolidating operations in the more profitable markets of São Paulo and Rio de Janeiro. In response to the consumer spending environment in Brazil, we are taking a selective approach to product development and closely monitoring the execution process. In the second quarter we launched PSV of R\$314.7 million in the Gafisa segment, comprising three projects in São Paulo and Osasco. Pre-sales during the period totaled R\$ 251.3 million, reflecting the continued sale of inventory. The speed of sales improved on a sequential basis and was stable year-over-year. In the second quarter, the number of deliveries increased almost three-fold to 1,504 units, compared with 524 units in the 1Q14. The high level of deliveries underpinned the volume of transfers, which reached R\$ 442.8 million in the first-half. While the sequential increase in quarterly unit deliveries led to an associated rise in cancellations, the result was lower on a year-over-year basis. The Gafisa segment generated net income of R\$ 17.1 million in 2Q14, ending the 1H14 with accumulated income of R\$ 14.8 million.

The Tenda segment also performed well. Net pre-sales totaled R\$181.7 million, the best quarterly result since the fourth quarter of 2011, which marked the early stage of the turnaround process. The volume of sales cancelations declined 25.5% on a year-over-year basis, reflecting the immediate transfer of sales and the gradual reduction in legacy projects in the portfolio. While the segment's performance improved in the quarter, sales were nonetheless impacted by the World Cup in Brazil, which reduced in store traffic. The performance of projects launched under the New Model was in line with expectations, due to good sales velocity, fast transfer to financial institutions and tight control over construction costs. In 2Q14, Tenda transferred 1,708 units, representing R\$223.7 million in sales. This solid operating performance resulted in a significant improvement in financial results. Adjusted gross income reached R\$69.4 million in the first-half, with a margin of 24.5%. The Company expects a sequential improvement in Tenda's profitability, due to the ongoing streamlining of the segment's cost and expense structure, the adherence to and strong

performance of the New Business Model, and the contribution of a smaller number of underperforming legacy projects.

Consolidated launch volumes for the quarter reached R\$413.7 million and R\$949.1 million in the first-half, while pre-sales were R\$433.0 million and R\$672.3 million respectively. Adjusted gross profit was R\$205.2 million with a margin of 35.7% in the quarter, 7.5 percentage points above that of the previous year. The result underscores the improved operating and financial performance achieved by the two segments in 2Q14. During the first-half, adjusted gross profit was R\$337.4 million, with a margin of 33.5%. Adjusted EBITDA was R\$89.8 million in 2Q14 and R\$116.3 million in 1H14, with an EBITDA margin of 15.6% and 11.5%, respectively.

The Company reported a loss of R\$851.0 thousand in the second quarter, as a profit of R\$17.1 million in the Gafisa segment was offset by a loss of R\$18.0 million in the Tenda segment. In 1H14, the net loss was R\$40.6 million.

We would also like to highlight the Company's operating cash generation in the first half of the year. We ended 2Q14 with operating cash flow of R\$39.1 million, totaling R\$ 146.1 million in 1H14, as a result of: (i) the Company's success in transferring units sold to financing agents, with nearly R\$851 million transferred in the period; and (ii) greater control over the business cycle. Free cash flow generation in 2Q14 was negative at R\$ 1.3 million, while in 1H14, free cash flow was positive at R\$19.2 million.

The Net Debt/Equity ratio was 44.9% at the end of June and stable on a sequential basis. Excluding project finance, the Net Debt/Equity ratio was negative 16.9%.

During the second quarter we made further progress in separating the Gafisa and Tenda business units into two independent companies. During the quarter, a number of administrative functions, including Services, Personnel and People Management, among others, were split, and are currently operating independently from an administrative point of view. At the same time, we continue to evaluate the most appropriate capital structure for Gafisa and Tenda.

Looking ahead, we are confident in our business's prospects, and believe that the measures implemented to date mean we are well-positioned to face future challenges.

ANALYSIS OF RESULTS

Gafisa Segment

Gross Margin Expansion and Reduction in Expenses Benefit EBITDA Margin

The Gafisa segment's margin has been improving in recent quarters, due to the consolidation of operations in certain markets and the delivery of legacy projects. In the 2Q14, adjusted gross profit increased to R\$ 151.5 million, compared to R\$ 116.5 million in the previous quarter and R\$ 144.6 million in the 2Q13. Accordingly, the adjusted gross margin reached 38.1%, up from 35.7% in the 1Q14. Another highlight is the 14.0% y-o-y reduction in the amount of expenses, despite higher launch volumes in the period. These factors contributed to an increase in EBITDA margin to 20.9% from 16.8% in 1Q14 and 15.3% in the previous year.

Net Income

Net income for the period was R\$17.1 million, compared to a loss of R\$2.3 million in 1Q14, and profit of R\$11.9 million in the year-ago period. Excluding the equity from Alphaville, at R\$8.4 million, the Gafisa segment's net income was positive at R\$8.7 million, compared with net income of R\$ 1.1 million in 1Q14 and a net loss of R\$ 30.6 million in the previous year.

Note that currently Gafisa holds a 30% stake in Alphaville, while in 2Q13 this stake was 80%.

<i>Equity income from Alphaville</i>	8.4	(3.4)	42.5
Net Profit Ex-Alphaville	8.7	1.1	(30.6)

Tenda Segment

Significant Gross Margin Expansion and Lower Expenses

The reduced contribution and complexity of Tenda legacy projects, coupled with the resumption of launches under a new business model, is resulting in a gradual improvement in the segment's margins. In the 2Q14, adjusted gross profit increased to R\$53.8 million, compared to R\$15.6 million in the previous quarter and R\$35.4 million in 2Q13. Accordingly, the adjusted gross margin reached 30.4%, compared to a margin of 14.7% in the 1Q14 and 13.3% in 2Q13.

A streamlined cost structure, which better reflects the size of operations, also contributed to the segment's second quarter results. Selling, general and administrative expenses once again decreased from a year earlier, with a sharp 30.0% reduction in selling expenses, despite higher launch volumes in the period. This was mainly driven by the sale of units through Tenda's own stores, which is one of the pillars of the new Tenda business model.

Net Income

Second quarter net income was negative at R\$18.0 million, compared to a net loss of R\$37.5 million in 1Q14, and R\$26.0 million in 2Q13.

RECENT EVENTS

Share Buyback Program

Regarding the share buyback program in place, on July 25, 2014, the Company had acquired 24 million shares, or around 74% of the total amount permitted, considering the maximum amount of 32,938,554 shares.

The approved program is conditional on the maintenance of consolidated net debt at a level equal to or less than 60% of net equity and does not oblige the Company to acquire any particular amount of shares in the market. The program may be suspended at any time.

On February 28, 2014, the Company canceled an open share buyback program in place in the Tenda subsidiary and opened a new program in Gafisa, containing the same previously defined conditions. The new program can repurchase the remaining balance of shares.

Change in Tenda Securities Issuer Category

In keeping with the process to separate the Gafisa and Tenda business units, on July 29, 2014 the Company informed the market that the Brazilian Securities and Exchange Commission (CVM) authorized Tenda to change its securities issuer category to Category "A".

Such conversion is part of the first phase of the process to separate the two segments, which was announced in February. Both Gafisa and Tenda are still working on studies related to separation alternatives and assessing issues relating to capital structure, liquidity, fiscal, tax, legal and corporate aspects, among others.

Update on the Separation Process

Administrative Split and Next Steps

Throughout this quarter, the Company continued to evaluate the potential separation of the Gafisa and Tenda business units.

As previously reported, a separation would be the next step in a comprehensive plan initiated by management to enhance value creation for both business units and its shareholders.

As announced in the first quarter, the Company made some initial progress in splitting Gafisa and Tenda's administrative structures, so that they can operate independently in the future.

In this quarter, the Company made the following progress:

- (1) Effective separation of the following areas: Services, Personnel and Management Center, among others;
- (2) Physical separation of business units, with the aforementioned teams established at their respective head offices: Gafisa and Tenda;
- (3) Appointment of Felipe Cohen as the new Chief Financial and Investor Relations Officer of Tenda. The appointment marks an additional step in establishing the Tenda business as a standalone entity.

At the same time, the Company continues to evaluate separation alternatives for the two companies.

Among the initiatives and studies being undertaken, we highlight:

- (1) Review of relationship with agents potentially linked to the separation process in order to align contractual and operational issues related to the possible separation.;
- (2) Amendment with the Brazilian Securities and Exchange Commission (CVM), related to the category of Tenda as an issuer. Since late July 2014, Tenda became registered under Category A.
- (3) Continuity of studies regarding the definition of a capital structure, which is appropriate to the business cycle of each company, as well as liquidity, and fiscal, tax, legal, corporate aspects, among others.

Over the coming months, the Company will continue the necessary studies for the separation of Gafisa and Tenda, and will keep its shareholders and the market informed as to the progress and developments of this process.

During 2Q14, gross sales reached R\$299.3 million, while net pre-sales totaled R\$181.7 million. Sales from inventory accounted for 94.4% of the total, while sales from units launched during 2Q14 accounted for the remaining 5.6%.

Sales over Supply (SoS)

In 2Q14, sales velocity (sales over supply) continued to improve, reaching 20.8%, which is in line with the same period last year. Considering the last 12 months, Tenda's SoS ended the 2Q14 at 44.2%.

Dissolutions

The level of dissolutions in the Tenda segment has decreased since the end of 2011, declining 25.5% to R\$117.6 million in 2Q14 compared with 2Q13.

A high volume of recent deliveries, combined with changes to Caixa's credit criteria in the last 2 quarters of 2013, impacted the ability of some customers to secure financing and resulted in an increase in first quarter 2014 cancellations. As expected, the impact of these factors has diminished and the level of cancellations in Tenda resumed its downward trend in this quarter. Approximately 80% of 2Q14 dissolutions in the Tenda segment related to old projects.

Tenda remains focused on the completion and delivery of legacy projects, and is dissolving contracts with ineligible clients, so as to sell the units to new qualified customers.

Of the 788 Tenda units cancelled and returned to inventory in the quarter, 55% were resold to qualified customers during the same period. In 1H14, nearly 79% of dissolutions related to the new Tenda model were resold in the same period. New Model Update and Turnaround

During the first half of the year, Tenda launched projects under its New Business Model, which is based on three pillars: operational efficiency, risk management and capital discipline. Currently, the Company continues to operate in four regions: São Paulo, Rio de Janeiro, Minas Gerais and Northeast (Bahia and Pernambuco states), with a launched PSV of R\$594.4 million to date. Below is a brief description of the performance of these projects:

Financial Result

Revenues

Tenda's net revenue in 2Q14 totaled R\$176.9 million, a reduction of 33.6% compared with the previous year. The decline reflects the low level of revenues related to the resumption of Tenda launches in the 1Q13. As shown in the table below, revenues from new projects accounted for 38.9% of Tenda's revenues in 2Q14, while revenues from older projects accounted for the remaining 61.1%. In 1H14, Tenda recorded net income of R\$282.9 million, of which R\$127.0 million, or 44.9%, is related to the New Business Model.

Gross Profit & Margin

Gross profit in 2Q14 reached R\$45.8 million, a sharp increase compared to R\$8.5 million in 1Q14, and R\$19.7 million in the previous year. Gross margin for the quarter also increased significantly, reaching 25.9% compared to 8.0% in 1Q14 and 7.4% in the prior-year period. The improvement in gross margin is due to the following factors: (i) increased average margin of legacy projects in 2Q14, due to the resale, at higher prices, of previously canceled projects; (ii) increased participation of projects launched under the New Business Model, which have higher margins and profitability, as has been observed in recent quarters and more prominently in 2014.

Below is Tenda's gross margin breakdown in 2Q14. To note, the gross margin of the first projects under Tenda's new business model benefit from the use of landbank acquired in the past, resulting in increased profitability.

Selling, General, and Administrative Expenses (SG&A)

During 2Q14, selling, general and administrative expenses totaled R\$39.7 million, a 1.9% decrease compared to R\$40.5 million in 2Q13.

Selling expenses totaled R\$14.7 million in 2Q14, a 30.0% decrease y-o-y, due to the sale of units through the segment's own stores, which started with the implementation of the New Business Model in early 2013. The increase compared to 1Q14 relates to higher sales in the second quarter.

Regarding general and administrative expenses, the sequential decrease is the result of a higher bonus provision of R\$8.0 million in 2Q14. Excluding the effect of this provision, in both periods, general and administrative expenses reached R\$17.0 million, up 7.7%, due to the higher level of IT expenses.

Adjusted EBITDA					

Adjusted EBITDA was negative R\$1.9 million in 2Q14, compared to negative adjusted EBITDA of R\$5.8 million last year and negative R\$24.9 million in 1Q13.

Despite the lower level of revenue, the Company was able to improve its operating performance due to the expansion of its gross margin and efforts to streamline its cost and expense structure.

Cash Generation

Operational cash generation performed well in the first half. The Company ended 2Q14 with operating cash flow of R\$39.1 million, reaching R\$146.1 million in 1H14, reflecting: (i) the transfer/receiving process for units sold with financing agents (R\$850.6 million was transferred during the period), and; (ii) greater control over the Company's business cycle.

Free cash generation for the period was negative at R\$1.3 million in 2Q14, including the effect of R\$3.2 million disbursed in the share buyback program for the period. In 1H14, free cash generation was positive

at R\$19.2 million. The main non-recurring events that impacted free cash generation were: (i) R\$58.5 million used in the share buyback program; (ii) the payment of R\$63.6 million in taxes on the sale of Alphaville; and (iii) the payment of interest on own capital in the amount of R\$130.2 million.

Financial Results

Revenue

On a consolidated basis, net revenue in the 2Q14 totaled R\$574.8 million, down 10.3% over the previous year.

In the 2Q14, the Gafisa segment represented 69.2% of revenues and Tenda accounted for the remaining 30.8%.

Gross Profit & Margin

Gross profit in 2Q14 was R\$164.9 million, an increase of 69.4% compared to the R\$97.3 million reported in 1Q14, and R\$143.8 million in the previous year. Gross margin for the quarter reached 28.7%, up 625 bps over the previous year. Adjusted gross profit reached R\$205.3 million, with a margin of 35.7%. the 2Q14.

The lower net profit is a result of lower revenues, the non-cash impact of the SELIC change on the NPV of receivables, non-recurring expenses associated to the spin-off of the back office from Gafisa and increased financial expenses.

Pre-Sales

Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted

pre-sales" under Brazilian GAAP.

PSV

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

In case the plan is approved by the Board of Directors and shareholders, this transaction could be completed throughout 2015.

On July 28, 2014, giving continuity to the process for separating the business units, the Brazilian Securities Commission (CVM) granted the request of the subsidiary Tenda for converting the registry of the securities issuer into the "A" Category.

3. Pronouncements (new or revised) and interpretation adopted from 2013 or applicable as of January 1, 2014 and 2015

IFRS 15 – Revenue from contracts with customers

On May 28, 2014, the International Accounting Standards Board (IASB) and the Financial Accounting Standards Board (FASB) issued new standards for recognizing revenue under both IFRS and U.S. GAAP, respectively. The IFRS 15, Revenue from Contracts with Customers, requires that an entity recognizes the amount of revenue reflecting the consideration that it expects to receive in exchange for the control over those goods or services. The new standard is going to replace most of the detailed guidance on recognition of revenue that currently exists under IFRS and U.S. GAAP when it is adopted. The application is necessary for years beginning on or after January 1, 2017, with early adoption permitted for IFRS purposes and not locally permitted before the harmonization and approval from the CPC and the CVM.

The Company is examining the effects of IFRS 15 on its Financial Statements and has not yet completed its analysis, not being able to measure the impact of the adoption of this standard.

The other explanations regarding the pronouncement and interpretation revisions and issues did not have significant changes in relation to those reported in Note 3 to the financial statements as of December 31, 2013.

During the period ended June 30, 2014, the amount of R\$245 (R\$2,894 in 2013) in the Company's statements and in the consolidated statements, which refer to net result of the interest swap transaction, was recognized in the "financial income" line in the statement of profit or loss for the period, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note25).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific valuation methodologies.

However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction. Accordingly, the estimates above do not necessarily indicate the actual amounts realized upon the financial settlement of transactions.

31. Communication with regulatory bodies

The other explanation related to this note was not subject to significant changes in relation to those reported in Note 31 to the financial statements as of December 31, 2013.

32. Additional Information

Law 12,973/14 of May 13, 2014 made amendments to the IRPJ, CSLL, PIS and COFINS, effective for 2015, allowing taxpayers to adhere to the new rules in 2014 already, on irrevocable basis. This Law which was originated from the provisional measure 627 among other matters, particularly dealt with the harmonization of the tax legislation with the accounting criteria and procedures introduced by Laws 11,638/2007 and 11,941/2009, as well as the extinction of the Transitory Tax Regime (RTT) and new tax rules for companies domiciled in Brazil in relation to profit earned abroad by subsidiary and associates, and amendments to how goodwill is used. The Company opted for not early adopting this Law. However, based on the wording in effect, we estimate that such Law does not produce material accounting effects on the financial information of the Company.

33. Subsequent events

(i) 9th Debenture Placement

On July 22, 2014, the Company approved the 9th private placement of non-convertible debentures, with general guarantee, in sole series in the amount of R\$130,000, fully paid-in on July 28, 2014 with final maturity on July 27, 2018. The proceeds from the placement will be used in the development of select real estate ventures and their general guarantees are represented by the trust receipt of real estate receivables and the real estate mortgage of such ventures. The face value of the Placement will accrue interest corresponding to the cumulative variation of the DI plus a spread equivalent to 1.90%. This placement was subject to an assignment to the securitization company by its debenture holders, which later issued mortgage-backed securities (CRI).

A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.
