SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 6-K

**REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13A-16
OR 15D-16 OF THE SECURITIES EXCHANGE ACT OF 1934**

For the month of February, 2015
(Commission File No. 1-14862)

BRASKEM S.A.

(Exact Name as Specified in its Charter)

N/A

(Translation of registrant's name into English)

Rua Eteno, 1561, Polo Petroquimico de Camacari
Camacari, Bahia - CEP 42810-000 Brazil

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(1).

Indicate by check mark if the registrant is submitting the Form 6-K
in paper as permitted by Regulation S-T Rule 101(b)(7).

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to
the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82- _____.

Braskem S.A.

Financial Statements

at December 31, 2014

and Independent Auditors' Report

Independent auditor's report

(A free translation of the original in Portuguese)

To the Board of Directors and Shareholders

Braskem S.A.

We have audited the accompanying financial statements of Braskem S.A. ("Parent Company"), which comprise the balance sheet as at December 31, 2014 and the statements of operations and comprehensive income, changes in equity and cash flows for the year then ended, as well as the accompanying consolidated financial statements of Braskem S.A. and its subsidiaries ("Consolidated"), which comprise the consolidated balance sheet as at December 31, 2014 and the consolidated statements of operations and comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and accounting practices adopted in Brazil, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Braskem S.A. and its subsidiaries as at December 31, 2014, and their financial performance and their cash flows for the year then ended, in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and accounting practices adopted in Brazil.

Other matters

**Supplementary information - statements
of value added**

We have also audited the Parent company and Consolidated statements of value added for the year ended December 31, 2014, which are the responsibility of the Company's management. The presentation of these statements is required by the Brazilian corporate legislation for listed companies, but it is considered supplementary information for IFRS. These statements were subject to the same audit procedures described above and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements taken as a whole.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

1 Operations

Braskem S.A. (hereinafter “Parent Company”) is a public company headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”), operates 36 industrial units, 29 of which in the Brazilian states of Alagoas (“AL”), BA, Rio de Janeiro (“RJ”), Rio Grande do Sul (“RS”) and São Paulo (“SP”), five are located in the United States, in the states of Pennsylvania, Texas and West Virginia and two are located in Germany, in the cities Wesseling and Shckopau. These units produce thermoplastic resins – polyethylene (“PE”), polypropylene (“PP”) and polyvinyl chloride (“PVC”), as well as basic petrochemicals.

Additionally, Braskem is also engaged in the import and export of chemicals, petrochemicals and fuels, the production, supply and sale of utilities such as steam, water, compressed air, industrial gases, as well as the provision of industrial services and the production, supply and sale of electric energy for its own use and use by other companies. Braskem also invests in other companies, either as a partner or as shareholder.

The Company is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

The issue of these financial statements was authorized by the Company’s Board of Directors on February 11, 2015.

(a) Significant corporate and operating events impacting these financial statements

(i) On December 31, 2013, the parent company entered into a share sales agreement with Odebrecht Ambiental (“OA”), through which it sold its interest in the subsidiary Distribuidora de Águas Triunfo S.A. (“DAT”) for R\$315 million, which were received over the course of the second quarter of 2014. The assets of DAT were shown in the balance sheet of December 31, 2013 as “non-current assets held for sale.” The sale price agreed upon by the parties was evaluated by a specialized company, which issued a favorable opinion of the price.

On February 3, 2014, the Extraordinary Shareholders' Meeting of DAT approved the change in its management and consequently the transfer of the management of the operations from Braskem to OA, upon the recognition of a gain of R\$277,338 (Note 28).

(ii) On December 1, 2014, the Extraordinary Shareholders' Meeting approved the merger, the values of cost accounting, of Braskem Qpar S.A. ("Braskem Qpar") by the Parent Company, without any change in its capital stock or the issue of new shares.

On the merger date, the amount of the investment in Braskem Qpar was composed as follows:

	At December 1, 2014
Equity amount	6,112,866
Balance of values determined on the acquisition of Braskem Qpar	
Property, plant and equipment	634,940
Intangible assets	292,859
Deferred income tax and social contribution - assets	49,788
Sundry provisions	(146,435)
Deferred income tax and social contribution - liabilities	(315,452)
	515,700
	6,112,866

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated**

The effects of the merger on the balance sheet of the Parent Company are shown below:

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

(b) Solvay Indupa

On December 17, 2013, the Parent Company entered into a share sales agreement (“Agreement”) with Solvay Argentina S.A. (“Solvay Argentina”), through which it committed to acquire, upon the fulfillment of certain conditions provided for in the Agreement (“Acquisition”), 70.59% of the total and voting capital of Solvay Indupa S.A.I.C. (“Solvay Indupa”). On November 12, Brazil’s antitrust agency Conselho Administrativo de Defesa Econômica (“CADE”) rejected the transaction.

(c) Naphtha agreement with Petrobras

On August 29, 2014, Braskem and Petrobras executed a new amendment to the naphtha supply agreement dated July 24, 2009. The amendment is valid through February 2015 and maintained the formula for determining the naphtha price provided for in said agreement. The amendment also established that if a new price formula is adopted in a new agreement, it would be applied to the purchases made during the period in which the amendment was valid. As of the date on which the issue of these financial statements was authorized, Braskem and Petrobras had not concluded their negotiations of a new agreement.

(d) Net working capital

On December 31, 2014, net working capital at the Parent Company was negative R\$726,012 (R\$564,412 in 2013). On the other hand, consolidated net working capital was positive R\$677,907 (R\$1,402,327 in 2013). The consolidated figures are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements. For this reasons, any analysis of the Parent Company’s working capital will not reflect the actual liquidity position of the consolidated group.

Braskem also has revolving credit lines that may be used at any time (Note 4.3).

2 Summary of significant accounting policies

The principal accounting policies applied consistently in the preparation of these financial statements are described in the notes of the items on which they have impacts.

2.1 Basis of preparation and presentation of the financial statements

The financial statements have been prepared under the historical cost convention and were adjusted, when necessary, to reflect the fair value of assets and liabilities.

The preparation of financial statements requires the use of certain estimates. It also requires Management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 3.

The Company started to include in its balance sheet the net value, per legal entity, of the amounts related to deferred income and social contribution tax assets and liabilities on its profit, due to due legal right of each entity to offset these amounts. The balance sheet at December 31, 2013 was revised to reflect such adjustment, as shown below:

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated****2.1.1 Consolidated financial statements**

The consolidated financial statements were prepared and presented in accordance with accounting practices adopted in Brazil, including the standards issued by the Brazilian Accounting Pronouncements Committee ("CPC"), and in accordance with the International Financial Reporting Standards ("IFRS") issued by the IASB.

Brazil's corporate law and the accounting practices applicable to publicly held corporations require the presentation of individual and consolidated Statement of Value Added (DVA). However, the International Financial Reporting Standards (IFRS) do not require this statement. As a result, pursuant to IFRS, this statement is being presented as additional information, without prejudice to the financial statements.

(a) Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and the following entities:

2.1.2 Parent company financial statements

The financial statements have been prepared in accordance with accounting practices adopted in Brazil, following the provisions in Federal Law 6,404/76 ("Brazilian Corporations Law"), and subsequent amendments, and the standards issued by CPC and in accordance with IFRS issued by the IASB, and are disclosed together with the consolidated financial statements.

2.2 Foreign currency translation**(a) Functional and presentation currency**

The functional and presentation currency of the Company is the real

(b) Functional currency other than the Brazilian real

Some subsidiaries and a jointly controlled subsidiary have a different functional currency from that of the Parent Company, as follows:

	Functional currency
Subsidiaries	
Braskem Alemanha, Braskem Austria e Braskem Austria Finance	Euro
Braskem America e Braskem America Finance	U.S.dollar
Braskem Idesa , Braskem Idesa Serviços, Braskem México e Braskem México Serviços	Mexican peso
Jointly-controlled investments	
Propileno Del Sur S.A. ("Propilsur")	U.S.dollar

The other subsidiaries adopt the Brazilian real as functional currency.

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated****(c) Exchange variation effects**

The main effects from exchange variation that impacted these financial statements are shown below:

	End of period rate at December 31			Average rate		
	2014	2013	Variation	2014	2013	Variation
U.S. dollar - Brazilian real	2.6562	2.3426	13.39%	2.3547	2.1605	8.99%
U.S. dollar - Mexican peso	14.7180	13.1005	12.35%	13.3113	12.7692	4.24%
U.S. dollar - Euro	0.8231	0.7261	13.37%	0.7545	0.7532	0.17%

2.3 New or revised pronouncements with first-time adoption in 2014

IFRS 10, IFRS 12 and IAS 27 – "Investment Entities" – Braskem does not have this type of investment.

IFRS 8 – "Segment Information" – in December 2013, the International Accounting Standards Board (IASB) issued a review that introduced two changes, namely: aggregations of operating segments and reconciliation of total reportable assets with the total assets of the Company. The adoption of these changes to the rule did not have any impact on these financial statements. This review was contemplated by the Accounting Pronouncements Committee (CPC) in September 2014.

IFRS 13 – "Fair value measurement" – in December 2013, a revision of this rule was issued that removed the paragraph addressing the measurement of short-term assets and liabilities without embedded interest rates reported by the invoiced amounts. The adoption did not have any impact on these financial statements. This review was contemplated by the CPC in September 2014.

IAS 24 – “Related parties” – in December 2013, as part of the review, the IASB revised the definition and the requirements for the disclosure of key managers. The adoption did not have any impact on these financial statements. This review was contemplated by the CPC in September 2014.

IAS 38 – “Intangible assets” – in December 2013, the IASB issued a review clarifying the accumulated amortization at the date of a revaluation. This change is not applicable to Braskem. This review was contemplated by the CPC in September 2014.

IAS 32 – “Financial Instruments: Presentation” – in December 2011, the IASB issued a review providing further clarification to the application guidance in IAS 32 on the requirement to offset financial assets and liabilities in the balance sheet. The adoption did not have any impact on these financial statements. This review was contemplated by the CPC in September 2014.

IFRIC 21 – “Levies” – in May 2013, the IASB issued an interpretation regarding the fees and taxes charged by public authorities on entities that operate in a specific market. The adoption of this rule did not have any impact on these financial statements. The rule was issued by the CPC in September 2014.

Braskem S.A.

Management notes to the financial statements

All amounts in thousands of reais, except as otherwise stated

2.4 Rules, changes and interpretations of standards that are not yet in force

Rules, changes and interpretations of standards that currently are not in force and have not been adopted early by the Company:

IAS 16 and IAS 38 – “Property, plant and equipment” and “Intangible assets” – in May 2014, said accounting rules were revised to clarify the prohibition of the use of revenue-based methods for depreciation or amortization. The Company conducted an evaluation of the changes, which did not have any impacts on the financial statements. This change has not yet been issued by the CPC and should be adopted as from 2016.

IAS 27 – “Separate financial statements” – in August 2014, the rule addressing separate financial statements was revised, allowing entities to account for investments through the equity method. The Company already adopts this method by requirement of Brazilian legislation and thus the change has no impact on the financial statements. The change has not been issued by CPC yet and is expected to become effective as from 2016, with optional early adoption.

IFRS 10 and IAS 28 – “Consolidated financial statements” and “Investments in Associates, Subsidiaries and Jointly Controlled Entities” – in September 2014, a revision was issued proposing that gains or losses resulting from the sale or contribution of a subsidiary that does not constitute a business, as defined in IFRS 3, between an investor and its subsidiary or jointly-controlled company is recognized only in the share of the unrelated investors in the subsidiary or jointly-controlled companies. This change has not yet been issued by the CPC and should be adopted as from 2016.

IFRS 7 – “Financial Instruments: Disclosures” – in September 2014, the IASB revised rule IFRS 7, which adds additional guidance for servicing contracts to decide when said contract represents continuing involvement and that the additional disclosure requirements are not specifically for interim periods. This rule has not yet been issued by the CPC and should be adopted as from 2016.

IFRS 9 – “Financial instruments” – in July 2014, a review of the rule introduced the classification and measurement, impairment and hedge accounting in a single document, following a single measurement and classification logic, reflecting a business model in which these are managed and the characteristics of cash flows. The concept of provisioning for losses based on future expectations recognition of the impairment of financial assets, will be at a more opportune moment. This rule has not yet been issued by the CPC and should be adopted as from 2018.

IFRS 15 – “Revenue from contracts with customers” – in May 2014, the accounting standard for the recognition of revenue from contracts with customers was issued. The Company conducted an evaluation of the standard, believes that this would not have any impacts on the financial statements. This rule has not yet been issued by the CPC and should be adopted as from 2017.

3 Application of critical estimates and judgments

Critical estimates and judgments are those that require the most difficult, subjective or complex judgments by management, usually as a result of the need to make estimates that affect issues that are inherently uncertain. Estimates and judgments are continually reassessed and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results can differ from planned results due to differences in the variables, assumptions or conditions used in making estimates.

The Company makes a series of other estimates that are presented in the respective notes, such as allowance for doubtful accounts, fair-value adjustment of inventories and provision for repairing environmental damage.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

In order to provide an understanding of the way the Company forms its judgments on future events, the variables and assumptions used in critical estimates are presented below:

3.1 Deferred income tax and social contribution

The recognition and the amount of deferred taxes assets depend on the generation of future taxable income, which requires the use of an estimate related to the Company's future performance. These estimates are included in the business plan, which is annually submitted for approval by the Board of Directors. This plan is prepared by the Executive Board using as main variables the price of the products manufactured by the Company, prices of raw materials, gross domestic product, exchange variation, interest rate, inflation rate and fluctuations in the supply and demand of inputs and finished products. These variables are obtained from expert external consultants, historical performance of the Company and its capacity to generate taxable income, internal programs focused on operational efficiency, and specific incentives from the Brazilian government for the petrochemical sector in Brazil.

3.2 Fair value of derivative and non-derivative financial instruments

The Company evaluates the derivative financial instruments at their fair value and the main sources of information are the stock exchanges, commodities and futures markets, disclosures of the Central Bank of Brazil and quotation services like Bloomberg and Reuters. Nevertheless, the high volatility of the foreign exchange and interest rate markets in Brazil caused, in certain periods, significant changes in future rates and interest rates over short periods of time, leading to significant changes in the market value of swaps and other financial instruments.

The fair values of non-derivative, quoted financial instruments are based on current bid prices. If the market for a financial asset and for unlisted securities is not active, the Company establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models that make maximum use of market inputs and rely as little as possible on information provided by the Company's Management.

3.3 Useful life of assets

The Company recognizes the depreciation and depletion of its long-lived assets based on their useful life estimated by independent appraisers and approved by the Company's technicians taking into consideration the experience of these professionals in the management of Braskem's plants. The useful lives initially established by independent appraisers are reviewed at the end of every year by the Company's technicians in order to check whether they need to be changed. This analysis indicated that the useful lives applied in 2014 should be maintained in 2015.

The main factors that are taken into consideration in the definition of the useful life of the assets that compose the Company's industrial plants are the information of manufacturers of machinery and equipment, level of the plants' operations, quality of preventive and corrective maintenance and the prospects of technological obsolescence of assets.

The Company's management also decided that (i) depreciation should cover all assets value because when the equipment and installations are no longer operational, they are sold by amounts that are immaterial; and (ii) land is not depreciated because it has an indefinite useful life.

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated**

The useful lives applied to the assets determined the following average depreciation and depletion rates:

	2014	(%) 2013
Buildings and improvements	3.38	3.42
Machinery, equipment and installations	7.29	7.23
Mines and wells	8.83	8.96
Furniture and fixtures	10.82	10.28
IT equipment	20.15	21.21
Lab equipment	9.59	9.30
Security equipment	9.79	9.83
Vehicles	19.91	20.02
Other	18.19	15.86

3.4 Impairment test and analysis**(a) Tangible and intangible assets with defined useful lives**

On the balance sheet date, the Company makes an analysis to determine if there is indicators that the accounting balance of long-lived tangible assets and intangible assets with defined useful lives may not be recoverable. This analysis is conducted to assess the likelihood of scenarios that could adversely affect its cash flow and the recovering of the invested assets. The scenarios arise from issues of a macroeconomic, legal, competitive or technological nature.

Some significant aspects of this analysis include: (i) the possibility of an oversupply of products manufactured by the Company or of a significant reduction in demand due to adverse economic factors; (ii) the prospects of material fluctuations in the prices of products and inputs; (iii) the likelihood of the development of new technologies or raw materials that could materially reduce production costs and consequently impact sales prices, ultimately leading to the obsolescence of the industrial facilities of the Company; and (iv) changes in the general regulatory environment that make the production process of Braskem infeasible or that significantly impact the sale of its products. For this

analysis, the Company maintains an in-house team with a more strategic vision of the business and also remains in permanent contact with a team of external consultants. If the aforementioned variables indicate significant risks to cash flows, the Management of Braskem conducts impairment tests in accordance with Note 3.4(b).

The assets are allocated to the Cash Generating Units (“CGU”) as follows:

Basic petrochemicals operating segment:

- CGU UNIB Bahia: represented by assets of the basic petrochemicals plants located in the state of Bahia;
- CGU UNIB South: represented by assets of the basic petrochemicals plants located in the state of Rio Grande do Sul;
- CGU UNIB Southeast: represented by assets of the basic petrochemicals plants located in the states of Rio de Janeiro and São Paulo;

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

Polyolefins operating segment:

- CGU Polyethylene: represented by assets of the PE plants located in Brazil;
- CGU Polypropylene: represented by assets of the PP plants located in Brazil;
- CGU Renewables: represented by the Green PE plant located in Brazil;

Vinyls operating segment:

- CGU Vinyls: represented by assets of PVC plants and chloride soda located in Brazil;

USA and Europe operating segment:

- CGU Polypropylene USA: represented by assets of PP plants located in the United States;
- CGU Polypropylene Europe: represented by assets of PP plants located in Germany;

Chemical Distribution operating segment:

- Represented by assets of the subsidiaries Quantiq and IQAG.

(b) Intangible assets with indefinite useful lives

The balances of goodwill from future profitability arising from business combinations and intangible assets with indefinite useful lives are tested for impairment once a year. These tests are based on the projected cash generation for a five-year period, which are extracted from the business plan of the Company and cited in Note 3.1. In addition to cash flow is also used discount rate based on the weighted average cost of capital (“WACC”). This rate, adjusted for inflation, is the rate to perpetuity, without real growth.

The goodwill allocated to the Polyolefins operating segment (Note 13) was generated in a business combination that resulted in the simultaneous acquisition of polypropylene and polyethylene plants. The main raw materials of these plants were already supplied by the Parent Company, which allowed for the obtainment of significant synergies in the operation. These synergies were one of the main drivers of that acquisition. Accordingly, the Company’s management tested this goodwill for impairment in the operating segment since the benefits of the synergies are associated with all units acquired.

The remaining existing goodwill is allocated to the UNIB South CGU and to the Vinyls operating segment (Note 13).

3.5 Provisions and contingent liabilities

Existing contingent liabilities and provisions are mainly related to discussions in the judicial and administrative spheres arising from primarily labor, pension, civil and tax lawsuits and administrative procedures.

The Management of Braskem, based on the opinion of its external legal advisors, classifies these proceedings in terms of probability of loss as follows:

Probable loss – these are proceedings for which there is a higher probability of loss than of a favorable outcome, i.e., the probability of loss exceeds 50%. For these proceedings, the Company recognizes a provision that is determined as follows:

- (i) labor claims – the amount of the provision corresponds to the amount to be disbursed as estimated by the Company’s legal counsels;

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

(ii) tax claims - the amount of the provision corresponds to the value of the matter plus charges corresponding to the variation in the Selic rate; and

(iii) other claims – the amount of the provision corresponds to the value of the matter.

Possible loss – these are proceedings for which the possibility of loss is greater than remote. The loss may occur, however, the elements available are not sufficient or clear to allow for a conclusion on whether the trend is for a loss or a gain. In percentage terms, the probability of loss is between 25% and 50%. For these claims, except for the cases of business combinations, the Company does not recognize a provision and mentions the most significant ones in a note to the financial statements (Note 23). In business combination transactions, in accordance with the provision in CPC 15 and IFRS 3, the Company records the fair value of the claims based on the assessment of loss (Note 20). The amount of the provision corresponds to the value of the matter, plus charges corresponding to the variation in the Selic rate, multiplied by the probability of loss, as determined by our external counsels.

The Company's management believes that the estimates related to the outcome of the proceedings and the possibility of future disbursement may change in view of the following: (i) higher courts may decide in a similar case involving another company, adopting a final interpretation of the matter and, consequently, advancing the termination of the of a proceeding involving the Company, without any disbursement or without implying the need of any financial settlement of the proceeding; and (ii) programs encouraging the payment of the debts implemented in Brazil at the Federal and State levels, in favorable conditions that may lead to a disbursement that is lower than the one that is recognized in the provision or lower than the value of the matter.

3.6 Hedge accounting

The Parent Company designated foreign-denominated liabilities (financing and trade accounts payable) to hedge future exports. The transaction involves two main critical estimates and judgments: sales and the refinancing, rollover or substitution of the designated liabilities. In the case of exports, these are provided for in the business plan of the Company (Note 3.1), since constitute part of its strategy and are inherent to its business. This is confirmed by the

historical data series for exports. In the case of liabilities, the Parent Company imports around 30% of the naphtha it consumes and has in the export market a permanent source for financing its projects to expand and maintain its production capacity. The maintenance of a minimum level of net liabilities in U.S. dollar is provided for in the Financial Policy of the Company.

Braskem Idesa designated all of the financing it obtained for the construction of its industrial plant to protect part of its sales to be made in the same currency as said financing, the U.S. dollar. The sales estimate are contemplated in the project that was presented to the lenders, which verified the consistency of the projection and in turn granted Braskem Idesa a financing line to be paid exclusively using the cash generated by these sales. All the commercial considerations of the project were based on market studies conducted by expert consulting firms during the feasibility-analysis phase.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

4 Risk management

Braskem is exposed to market risks arising from variations in commodity prices, foreign exchange rates and interest rates, credit risks of its counterparties in cash equivalents, financial investments and trade accounts receivable, and liquidity risks to meet its obligations from financial liabilities.

Braskem adopts procedures for managing market and credit risks that are in conformity with its Financial Policy approved by the Board of Directors on August 9, 2010. The purpose of risk management is to protect the cash flows of Braskem and reduce the threats to the financing of its operating working capital and investment programs.

4.1 Market risks

Braskem prepares a sensitivity analysis for foreign exchange rate and interest rate risks to which it is exposed, which is presented in Note 16.4.

(a) Exposure to commodity risks

Braskem is exposed to the variation in the prices of various commodities (naphta, PP, PE, PVC, etc.) and, in general, seeks to transfer the variations caused by fluctuations in market prices.

(b) Exposure to foreign exchange risk

Braskem has commercial operations denominated in or pegged to foreign currencies. Braskem's inputs and products have prices denominated in or strongly influenced by international prices of commodities, which are usually denominated in U.S. dollar. Additionally, Braskem has long-term loans in foreign currencies that expose it to variations in the foreign exchange rate between the functional currency (Brazilian real, Mexican peso and Euro) and the foreign currency, in particular the U.S. dollar. Braskem manages its exposure to foreign exchange risk through the combination of debt, financial investments, accounts receivable and raw material purchases denominated in foreign currencies and through derivative operations. Braskem's financial policy for managing foreign exchange risks provides for the maximum and minimum coverage limits that must be observed and which are continuously monitored by its Management.

On December 31, 2014, Braskem prepared sensitivity analyses for exposures to the risks of fluctuations in U.S. dollar, as informed in Note 16.4.

(c) Exposure to interest rate risk

Braskem is exposed to the risk that a variation in floating interest rates causes an increase in its financial expense due to payments of future interest. Debt denominated in foreign currency subject to floating rates is mainly subject to fluctuations in Libor. Debt denominated in local currency is mainly subject to the variation in the Long-Term Interest Rate ("TJLP") and in the Interbank Certificate of Deposit ("daily CDI") rate.

In the year, Braskem held swap contracts (Note 16.2.1) in which it: (i) receives the pre-contractual rate and pays the CDI overnight rate; and (ii) receives Libor and pays a fixed rate.

On December 31, 2014, Braskem prepared a sensitivity analysis for the exposure to the floating interest rates Libor, CDI and TJLP, as informed in Notes 16.4(b.1) and (b.2).

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

4.2 Exposure to credit risk

The transactions that subject Braskem to the concentration of credit risks are mainly in current accounts with banks, financial investments and trade accounts receivable in which Braskem is exposed to the risk of the financial institution or customer involved. In order to manage this risk, Braskem maintains bank current accounts and financial investments with major financial institutions, weighting concentrations in accordance with the credit rating and the daily prices observed in the Credit Default Swap market for the institutions, as well as netting contracts that minimize the total credit risk arising from the many financial transactions entered into by the parties.

On December 31, 2014, Braskem held netting contracts with Banco Citibank S.A., HSBC Bank Brasil S.A. – Banco Múltiplo, Banco Itaú BBA S.A., Banco Safra S.A., Banco Santander S.A., Banco Votorantim S.A., Banco West LB do Brasil S.A., Banco Caixa Geral – Brasil S.A., and Banco Bradesco S.A. Approximately 31% of the amounts held in cash and cash equivalents (Note 5) and financial investments (Note 6) are contemplated by these agreements, whose related liabilities are accounted for under “borrowings” (Note 14). The effective netting of these amounts is possible only in the event of default by one of the parties.

With respect to the credit risk of customers, Braskem protects itself by performing a rigorous analysis before granting credit and obtaining secured and unsecured guarantees when considered necessary.

The maximum exposure to credit risk of non-derivative financial instruments on the reporting date is the sum of their carrying amounts less any provisions for impairment losses. On December 31, 2014, the balance of trade accounts receivable was net of allowance for doubtful accounts of R\$322,831 (R\$282,753 in 2013) (Note 7).

4.3 Liquidity risk

Braskem has a calculation methodology to determine operating cash and minimum cash for the purpose of, respectively: (i) ensuring the liquidity needed to comply with obligations of the following month; and (ii) ensuring that the Company maintains liquidity during potential crises. These amounts are calculated mainly based on the projected operating cash generation, less short-term debts and working capital needs.

Braskem has two revolving credit lines for the purpose of managing liquidity risks, which may be used without restrictions in the amounts of: (i) US\$750 million for a period of five years as from December 2014; and (ii) US\$500 million for a period of three years as from September 2014. These credit facilities enable Braskem to reduce the amount of cash it holds. As of December 31, 2014, none of these credit lines had been used.

The table below shows Braskem's financial liabilities by maturity. These amounts are calculated from undiscounted cash flows and may not be reconciled with the balance sheet.

	Note	Maturity				Consolidated
		Until one year	Between one and two years	Between two and five years	More than five years	Total
Trade payables		11,038,788				11,038,788
Borrowings		1,495,374	3,365,142	5,432,193	22,685,686	32,978,395
Project finance		40,949	668,275	1,342,785	9,514,958	11,566,967

At December 31, 2014		12,715,282	4,246,622	7,408,580	32,992,832	57,363,316

(i) Amounts payable to BNDES Participações S.A. ("BNDESPAR") (Note 22).

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

4.4 Capital management

The ideal capital structure, according to Braskem's Management, considers the balance between own capital and the sum of all payables less the amount of cash and cash equivalents and financial investments. This composition meets the Company's objectives of perpetuity and of offering an adequate return to shareholders and other stakeholders. This structure also permits borrowing costs to remain at adequate levels to maximize shareholder remuneration.

Due to the impact of the U.S. dollar on the Company's operations, the Management of Braskem believes that the own capital used for capital management purposes should be measured in this currency and on a historical basis. Moreover, the Company may temporarily maintain a capital structure that is different from this ideal. This occurs, for example, during periods of growth, when the Company may finance a large portion of its projects through borrowings, provided that this option maximizes return for shareholders once the financed projects start operating. In order to adjust and maintain the capital structure, the Management of Braskem may also consider the sale of non-strategic assets, the issue of new shares or even adjustments to dividend payments.

As is also the case of liquidity, capital is not managed at the Parent Company level, but rather at the consolidated level.

5 Cash and cash equivalents

	2014	Consolidated 2013	Parent Company 2014	2013
Cash and banks (i)	227,237	987,824	52,164	131,210

Cash equivalents:

	Domestic market	2,253,648	1,906,790	1,336,267	1,835,423
	Foreign market (i)	1,512,474	1,441,245	1,027,857	458,445
Total		3,993,359	4,335,859	2,416,288	2,425,078

(i) On December 31, 2014, it includes cash and banks of R\$26,830 (R\$656,427 in 2013) and cash equivalents of R\$307,034 (R\$153,448 in 2013) of the subsidiary Braskem Idesa, available for use in its project (Note 15).

Cash and cash equivalents include cash in hand, deposits held at call with banks and highly liquid investments with maturities of three months or less. They are convertible into a known amount and subject to an immaterial risk of change in value.

Cash equivalents in Brazil are mainly represented by fixed-income instruments and time deposits held by the exclusive FIM Sol fund. The cash equivalents abroad comprise fixed-income instruments issued by first-class financial institutions (time deposit) with high market liquidity.

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated****6 Financial investments**

		Consolidated	Parent Company

Total		132,223	107,498	120,738	107,309

(i) On December 31, 2014, Braskem Holanda had financial investments held to maturity that are irrevocably offset, by an export prepayment agreement of the Parent company, in the amount of US\$150 million, as provided for in the credit assignment agreement entered into between these two companies and Banco Bradesco. This accounting offset was carried out in accordance with CPC 39 and IAS 32, which provide for the possibility of offsetting financial instruments when there is intent and rightfully executable right to realize an asset and settle a liability simultaneously.

7 Trade accounts receivable

The Company's billing period is generally 30 days; therefore, the amount of the trade accounts receivable corresponds to their fair value on the date of the sale. The Company realizes part of its trade accounts receivable through the sale

of trade notes to funds that acquire receivables. These operations are not entitled to recourse, for which reason the trade notes are written-off at the moment of the operation.

Allowance for doubtful accounts	(322,831)	(282,753)	(268,859)	(200,794)
Total customers portfolio	2,717,662	2,872,395	5,405,585	3,875,158

Braskem S.A.**Management notes to the financial statements****at December 31, 2014****All amounts in thousands of reais, except as otherwise stated**

The changes in the balance of the allowance for doubtful accounts are presented below:

	Consolidated		Parent company	
	2014	2013	2014	2013
Balance of provision at the beginning of the year	(282,753)	(256,884)	(200,794)	(203,922)
Provision in the year	(81,078)	(27,333)	(78,081)	(18,677)
Write-offs	41,000	23,250	35,819	21,805
Addition through merger of Braskem Qpar			(25,803)	
Transfers (of) to non-current assets held for sale		(21,786)		
Balance of provision at the end of the year	(322,831)	(282,753)	(268,859)	(200,794)

The methodology adopted by the Company for recognizing the provision for impairment is based on the history of losses and considers the sum of (i) 100% of the amount of receivables past due for over 180 days; (ii) 50% of the amount of receivables past due for over 90 days; (iii) 100% of the amount of receivables under judicial collection (iv) all the receivables from the first renegotiation maturing within more than 24 months; and (v) 100% of the receivables arising from a second renegotiation with customers. Receivables from related parties are not considered in this calculation. This methodology is revised on an annual basis by the Management of the Company.

8 Inventories

	Consolidated		Parent company	
	2014	2013	2014	2013
Finished goods	3,681,204	3,429,979	2,325,911	1,717,416
Raw materials, production inputs and packaging	1,067,512	1,113,272	963,550	851,448

Maintenance materials	247,327	230,822	187,773	122,848
Advances to suppliers	346,885	236,672	324,893	190,931
Imports in transit and other	94,206	139,562	77,359	82,771
Total	5,437,134	5,150,307	3,879,486	2,965,414
In current assets	5,368,146	5,033,593	3,810,498	2,848,700
In non-current assets	68,988	116,714	68,988	116,714
Total	5,437,134	5,150,307	3,879,486	2,965,414

Inventories are stated at the lower between the average acquisition or production cost or at the estimated retail or sales price, net of taxes, whichever is lower. The Company determines the cost of its production using the absorption method.

A portion of the final inventory of finished products and raw materials was adjusted to fair value is less than the cost of production/acquisition. This adjustment was R\$83,265 (2013 – R\$12,333). For this estimate, the Company considers the purchase/sale price projected for the period during which it expects to sell or consume the product. This period is determined based on the historical data for the turnover of the respective inventory.

Advances to suppliers and expenditures with imports in transit are mainly related to operations for the acquisition of raw materials.

9 Related parties

The Parent Company and its subsidiaries carry out transactions among themselves and with other related parties in the ordinary course of its operations and activities. The Company believes that all the conditions set forth in the contracts with related parties meet the Company's interests. To ensure that these contracts present terms and conditions that are as favorable to the Company as those it would enter into with any other third parties is a permanent objective of Braskem's management.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

As provided for in the Company's bylaws, the Board of Directors has the exclusive power to decide on any contract but those related to the supply of raw materials that exceed R\$ 5,000 per operation or R\$ 15,000 altogether per year. This provision encompasses contracts between the Parent Company and its subsidiaries and any of its common shareholders, directors of the Company, its parent company or subsidiary or its respective related parties. Additionally, the Company has a Finance and Investment Committee that, among other things, monitors the contracts with related parties that are approved by the Board of Directors.

Pursuant to Brazilian Corporations Law, officers and directors are prohibited from: (i) performing any acts of liberality with the use of the Company's assets and in its detriment; (ii) intervening in any operations in which these officers and directors have a conflict of interest with the Company or in resolutions in which they participate; and (iii) receiving, based on their position, any type of personal advantage from third parties, directly or indirectly, without statutory authorization or general meeting.

The related parties that have significant relationship with the Company are as follows:

- Construtora Norberto Odebrecht S.A. ("CNO"): subsidiary of Odebrecht
- Odebrecht Ambiental: subsidiary of Odebrecht
- Petrobras: shareholder of Braskem

The transactions with related parties, except wholly owned subsidiaries of the Company, are summarized below:

- CNO:

(i) Parent Company – in May 2014, an alliance agreement was signed for maintenance services with duration of four years and estimated value of R\$121 million;

(ii) Braskem Idesa – an agreement was executed on September 28, 2012, for the engineering, procurement and construction services of the Ethylene XXI Project for an estimated value of US\$3 billion and duration through 2015; and

(iii) Braskem – the lease agreement for the floors in the building where the offices of Braskem are located in São Paulo came into force as of January 1, 2014. The agreement is worth R\$226,217 and is valid through December 2028.

- Odebrecht Ambiental:

On September 30, 2009, the Company entered into an agreement for the acquisition of reuse water with Aquapolo (a special purpose entity formed by Odebrecht Ambiental and the water utility Companhia de Saneamento Básico do Estado de São Paulo – SABESP for the production of industrial reuse water) by the plants located in the São Paulo Petrochemical Complex. The agreement is valid through 2053 and has an estimated annual value of R\$65 million.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

- Petrobras:

- (i) Naphtha

Braskem maintains an agreement with Petrobras for the acquisition of naphtha, as cited in Note 1.

- (ii) Propylene

Braskem has propylene supply agreements with Petrobras for the Company's plants located in the Petrochemical Complexes of Triunfo, Rio de Janeiro and São Paulo. These agreements provide for the full supply of approximately 910,000 metric tons of propylene a year. The contracted propylene price is based on various international references linked to the most important markets for propylene and polypropylene, particularly the U.S., European and Asian markets.

- (iii) Ethane, propane, light refinery hydrocarbons ("HLR") and electricity

The Company has an agreement with Petrobras for the supply of 392,500 metric tons of ethane a year, 392,500 metric tons of propane a year, 438,000 Nm³/year of HLR and 306.6 GWh of electricity a year in 2014 and 204.4 GWh a year in 2015.

(c) Key management personnel

The Company considers “Key management personnel” to be the members of the Board of Directors and the Executive Board, composed of the CEO and vice-presidents. Not all the members of the Executive Board are members of the statutory board.

Non-current liabilities	Parent company and consolidated	
	2014	2013

Post-employment benefit	256	275
Long-term incentives	560	15
Total	36,779	35,670

(i) In a meeting held on May 7, 2014, the Board of Directors approved the termination of the long-term incentive plan. The plan had been created in September 2005 and was not based on the Company’s shares. Through this plan, members of strategic programs could acquire securities issued by the Company called “Certificates of Investment Units”. These securities did not entitle their holder to the status of Braskem shareholder or to any rights or privileges inherent to such status, especially voting and other political rights. The amount paid to terminate the plan, including participants not designated as “Key management personnel” was R\$14,002.

Total		3,175,265	3,523,203	2,379,074	2,146,609

(a) ICMS – normal operations

The Company has accumulated ICMS credits over the past few years arising mainly from domestic sales subject to deferred taxation and export sales.

The Management of the Company has been prioritizing a series of actions to maximize the use of these credits and currently does not expect losses on their realization. These include the maintenance of the terms of the agreements with the states in which the Company produces petrochemical products in order to defer the ICMS tax levied on naphtha purchases, which increases the effective monetization of the balances.

(b) PIS and COFINS

The Company has PIS and COFINS tax credits arising materially from the incentivized domestic outflows and exports.

The realization of these credits occurs in two ways: (i) offset of overdue or falling due liabilities related to taxes levied by the Federal Revenue Service; or (ii) cash reimbursement.

Braskem S.A.

Management notes to the financial statements

at December 31, 2014

All amounts in thousands of reais, except as otherwise stated

(c) REINTEGRA Program

The REINTEGRA program aims to refund to exporters the federal taxes levied on the production chain for goods sold abroad. The amount to be refunded is equivalent to 3% of all export revenue and such credits may be made in two ways: (i) by offsetting own debits overdue or undue related to taxes levied by the Federal Revenue Service; or (ii) by a cash reimbursement.

In accordance with Provisional Presidential Decree (“MP”) 601/12, the program was valid until December 31, 2013. However, MP 651/14, which was converted into Federal Law 13,043/14, determined the new starting date of the program as from October 1, 2014, similarly to what had been established by MP 601.

In the fiscal year ended December 31, 2014, the Company recognized credits in the amount of R\$65,701 (R\$229,742 in 2013) and offset the amount of R\$69,192 (R\$180,468 in 2013). In the Statement of Operations, credits are recognized in the item “Cost of Products Sold.”

(d) Federal supervenience

This item includes credits arising from legal discussions regarding the legality and constitutionality of various taxes and contributions in which the Company has already obtained a favorable ruling or has unquestionable jurisprudence in its favor.

(e) Value added tax – subsidiaries abroad

On December 31, 2014, this line included:

(i) R\$16,185 from sales by Braskem Alemanha to other countries. These credits are reimbursed in cash by the local government;

(ii) R\$483,668 from purchases of machinery and equipment for the Ethylene XXI project (Note 16). These credits will be reimbursed in cash by the local government after validating the credits according to established tax procedures. In the fourth quarter of 2014, Braskem Idesa was reimbursed in the amount of R\$634,911 (US\$250.454 thousand).
