**FOR IMMEDIATE RELEASE** - São Paulo,  
August 11, 2016 – Gafisa S.A. (Bovespa: GFSA3;  
NYSE: GFA), one of Brazil's leading  
homebuilders, today reported financial results for  
the second quarter ended June 30, 2016.

## **GAFISA RELEASES 2Q16 RESULTS**

# MANAGEMENT COMMENTS AND HIGHLIGHTS

The Company's results from the first half of 2016 reflect continued uncertainty in Brazil's political and economic prospects. This uncertainty stems from an economic slowdown and has greatly impacted the Brazilian real estate market. Gafisa was able to partially mitigate the negative effects of this period, as a result of its diversification in both the medium-high income and the low income segments.

The Gafisa and Tenda segments faced substantially different market environments throughout the quarter. The Gafisa segment has been affected by reduced demand levels in this weak macroeconomic environment. The segment is focused on its strategy of improving operational efficiency and business management, by maintaining a conservative approach in the development of new projects. The Tenda segment, conversely, took advantage of the low-income market's resilience and continued to expand the scale of its business model, despite macroeconomic conditions.

In 2Q16, the Gafisa segment launched two projects/phases in the city of São Paulo, accounting for R\$130.4 millions in PSV, ending the first six months with R\$210.5 millions in new projects launched.

Despite the political and economic headwinds, the segment posted improved results in 2Q16 relative to 1Q16. The recent sales performance in the quarter may signal a marginal rebound in the Brazilian consumer environment. In addition to increased sales, with gross sales totaling R\$262.0 millions, up 10.5% from 1Q16, dissolutions decreased in the quarter and returned to average levels seen in 2015.

This result reflected positive trends in both Gafisa's operations and consumer confidence. As a result of these factors, 2Q16 net pre-sales nearly doubled QoQ to R\$129.5 millions, representing 66% of total net pre-sales in 1S16.

Gafisa segment's SoS slightly recovered reaching 6.3% in 2Q16, compared to 3.3% in the previous

quarter and 10.5% in 2Q15. SoS in the last twelve months reached 26.5%.

The volume of dissolutions in 2Q16, despite a slight improvement, comes as a result of a high volume of deliveries since the end of 2015, approximately R\$1.5 billions in PSV, combined with decreased demand in the current economic scenario. In 2Q16, PSV of R\$412.3 millions was delivered, ending the first six months with R\$517.1 millions in delivered projects.

The Gafisa segment ended 2Q16 with 25 projects under construction, all on schedule and within the delivery timeframe, reflecting Gafisa's commitment to our clients. 2Q16 transfer volume reached R\$142.7 millions and R\$252.7 millions in 6M16, showing an appropriate level of operational control and efficiency. Despite the current credit restrictions, Gafisa maintains a strong relationship in partnering with banks for the transfer process.

The Company has maintained a focus on the sale of remaining units. As a result, 72.3% of net sales in 2Q16 and 77.6% in 1H16 were units from inventory. Considering the higher volume of dissolutions related to older projects, net sales in 1H16 were concentrated in more recent projects, impacting the Gafisa segment's first half revenues.

Despite the expectation of greater visibility into the Brazilian political and economic scenario, the Company is still missing higher visibility related to a recovery in the real estate market and will keep operating on a cautious manner.

In this regard, we will keep our conservative approach, seeking to balance the placement of new products on the market, prioritizing those with higher liquidity, so as to achieve an appropriate level of sales, profitability, and cash flow.

Tenda's 2Q16 results benefitted from the stable scenario in the low-income segment, with increased launches and fewer dissolutions. These factors were further improved by the policy of immediately transfer after sale, and a reduction in the legacy project portfolio. The Tenda segment continues concentrating its efforts in the new business model. The consolidation of the new model, based on four

In 2Q16, Tenda launches totaled R\$414.7 millions, the highest levels since 4Q10. The launches were comprised of 12 projects/phases, in the states of São Paulo, Rio de Janeiro, Rio Grande do Sul, Minas Gerais and Bahia.

2Q16 launches accounted for 39.8% of the Tenda segment's total sales and 25.6% of the segment's total in 6M16.

The Tenda segment's SoS reached an impressive level of 26.4%, among the highest in the sector.

2Q16 gross sales reached R\$382.9 millions and dissolutions remained under control at 15.1% of gross sales, resulting in net pre-sales of R\$325.0 millions. This marked an increase of 21.9% from the previous quarter and of 12.1% y-o-y. In 6M16, the net pre-sales totaled R\$591.5 millions.

Since 2013, when Tenda started its new model operations, the segment has launched 72 projects, representing a total of R\$2.7 billions in PSV. Of this total, Tenda has delivered R\$1.1 billions, comprised of 32 projects/phases. Notably, all projects related to the first year of new model operations (2013) have been completed and delivered on schedule. In relation to the 2014 projects, only one project/phase of 14 projects launched is still waiting delivery. In 2Q16, the Tenda segment delivered 10 projects/phases, corresponding to 1,895 units, and representing R\$275.4 millions in PSV. In 1H16, the Tenda segment delivered 13 projects/phases, comprising 2,359 units and R\$337.1 millions in PSV.

For the second half of the year, the Tenda segment will continue focusing on increasing its scale by growing launches and implementing strategies designed to ensure a strong sales pace. The segment will be guided by market behavior and focused on delivering profitability. The consistency of recent results from the new model projects reaffirms management's confidence in the 2016 business plan.

On a consolidated basis, Gafisa and Tenda

strategic pillars, has allowed Tenda to post consistent positive operational and financial performance.

launched R\$545.0 millions in 2Q16, ending the first six months with R\$853.7 millions in new projects. The Gafisa segment accounted for 24% of 2Q16 launches while Tenda accounted for the remaining 76%.

Second quarter 2016 net pre-sales totaled R\$454.5 millions, an increase of 36.4% quarter-over-quarter. In the quarter, sales from launches accounted for 36.4% of total sales, while the sale of inventory units accounted for the remaining 63.6%. The Gafisa segment accounted for 29% of net pre-sales while the Tenda segment represented the remaining 71%.

Consolidated adjusted gross profit totaled R\$138.3 millions with a gross margin of 29.2%, which resulted from a partial recovery in the Gafisa segment's operating profitability in the period. In 1H16, adjusted gross profit totaled R\$248.5 millions, with a gross margin of 28.3%.

In the current economic environment, the Company's main focus is on greater stability in its cost and expense structure. Selling, general and administrative expenses were R\$82.2 millions in 2Q16, stable y-o-y and down 8.3% q-o-q, reflecting the Company's efforts in efficiently answering to the adjustments and movements of the real estate market, so that to allow a structure of costs and expenses aligned to current scenario.

As a result of these factors, Gafisa reported a 2Q16 consolidated net loss of R\$38.5 millions, compared to a loss of R\$53.2 millions recorded in 1Q16 and net income of R\$28.5 millions in 2Q15.

**Sandro Gamba**

Chief Executive Officer – Gafisa

At the end of the first six months, the Net Debt/Shareholders' Equity ratio reached 48.5%, a slight increase compared to 1Q16, although in line with the Company's business plan. Excluding project finance, the Net Debt/Shareholders' Equity ratio was negative at 9.8%.

Consolidated operating cash generation reached R\$38.2 millions in the quarter, ending the period with a net cash burn of R\$32.5 millions. In 6M16, the net cash burn totaled R\$4.2 millions. It is worth noting that in 1H16, the Company's cash generation was impacted by the decreased volume of deliveries in the Gafisa segment, which we expect to improve on in the second semester of the year.

We will maintain this conservative approach in this second half of 2016, seeking to balance the placement of new products on the market, prioritizing those with higher liquidity, in order to reach adequate sales and profitability levels. The Gafisa segment, through its balanced performance, seeks to manage the effects of this period of economic weakness. The Tenda segment is ready to expand the volume of new projects, backed by the resilience of the low-income market, sustained demand, and the positive results from new model projects.

The Company continues to advance guided by capital discipline, its profitability goals, and value creation for shareholders.

The uncertainty in Brazil's economic and political environment negatively impacted demand in the mid-high income segment and continued to hurt the Gafisa segment's operational performance. Despite a greater share of projects launched before 2015 in the 2Q16 gross sales mix (68.7% of gross sales), the high volume of dissolutions related to these projects (95.2% of dissolutions in the quarter) ended up concentrating part of the net volume of sales from inventory of more recent projects. Thus, revenues in the quarter were impacted again for the following items: (i) lower volume of net sales in the period; and (ii) higher concentration of net sales in projects with slower evolution of work progress.

The Gafisa segment ended 2Q16 with a gross margin of 12.3% compared to 25.9% in 2Q15 and 2.0% in the past quarter, reflecting a modest rebound from 1Q16. 2Q16 was still impacted by dissolutions related to commercial projects (R\$28.4 millions – 21.4% of total PSV dissolutions) and due to the effects of pricing

pressure related to the resale of cancelled units. Adjusted Gross Margin reached 30.7% in the quarter and 26.4% in the first half of the year.

In 2Q16 the Gafisa segment maintained a level of SG&A expenses more in line with the current level of the business cycle and market demand, posting a y-o-y reduction of 21.2% and ending 1H16 down 10.6% from 1H15.

## Net Income

Net loss for the period was R\$47.1 millions compared to a loss of R\$58.0 millions in 1Q16 and a profit of R\$8.5 millions in 2Q15. Excluding the net loss from Alphaville equity income, which totaled R\$12.0 millions in the quarter, the Gafisa segment reported a 2Q16 net loss of R\$35.1 millions, compared to a net loss of R\$68.9 millions in 1Q16 and net profit of R\$3.3 millions in 2Q15. In 1H16, the Gafisa segment posted a net loss of R\$104.0 millions.

As previously stated, this was due to the following items: (i) volume and mix of net sales in the period, and (ii) the effect of the negative contribution of AUSA equity income, due to the lower operating volume (launches and sales), reflecting on the quarter's revenue level and also to AUSA's net financial result, impacted by the higher cost of debt, compared to the previous year. In 1H16, net loss including Alphaville reached R\$105.1 millions.

During 2Q16, the Tenda segment continued to scale its operations, supported by positive demand levels, which stimulated sales and launches.

Adjusted gross margin went down to 28.0% in the second quarter, compared to 31.7% in the 1Q16 and 30.1% in the previous year, as a result of the completion of the receivables portfolio revision, started in 4Q15, which resulted in additional provisioning of R\$14.6 millions in 2Q16. In April, as a result of major credit constraints, Tenda chose to be more flexible in its discount policy as an initiative to recover sales volume. This initiative was a one-off situation that normalized in subsequent months.

Selling, general and administrative expenses ended the 1H16 at R\$79.7 millions, 18.9% higher than 1H15, but in line with the expansion of Tenda's operations; launch volume increased by 37.5% in 6M16, compared

to the same period last year.

Adjusted EBITDA totaled R\$21.9 millions, with adjusted EBITDA margin of 8.4% in 2Q16. Adjusted EBITDA increased from R\$15.2 millions in 2Q15 and decreased from R\$22.8 millions in 1Q16.

## Net Income

The Tenda segment's 2Q16 net income was R\$8.6 millions, up from net income of R\$4.8 millions recorded in 1Q16 and down from net income of R\$20.0 millions in 2Q15. In 6M16, net income was R\$13.4 millions.

The 2Q16 results are attributable to: (i) higher volume of revenues, mitigating the effect of the lower gross margin; and (ii) a lower impact from Other Operating Revenues/Expenses.

## **RECENT EVENTS**

### **UPDATE SHARE BUYBACK PROGRAM**

Referring to the current share buyback program, through July 11, 2016, the Company has acquired 4.5 millions shares or 55% of the total amount authorized, with a maximum amount of 8,198,565 shares. It is worth mentioning that the Company reaffirms its commitment to capital discipline. The execution of the program is conditional on the maintenance of Gafisa's Consolidated Net Debt to Equity ratio at a level equal or lower than 60%. The Company's Executive Officers are authorized to determine the opportunities in which operations will be performed, as well as the amount of shares to be traded.

### **UPDATE ON THE SEPARATION PROCESS OF THE GAFISA AND TENDA UNITS**

In 2016, the Company has continued working on the potential separation of the Gafisa and Tenda business units. Since studies began in February 2014, several activities have been undertaken to enable these two business units to become more independent, both from an operational viewpoint and in terms of capital structure. As previously informed via Material Fact, such procedures are still in progress, but are taking more time to complete than initially planned.

The Company will keep its shareholders and the market informed about the process and any developments pertaining to the issues mentioned above.

## **GAFISA SEGMENT**

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with average unit prices above R\$250,000.

### **Operating Results | Launches and Pre-Sales**

Second quarter launches totaled R\$130.4 millions and consisted of 2 projects/phases in São Paulo. The sales speed of these launches reached 21.0%. In 6M16, the Gafisa segment reached R\$210.5 millions in launches or 23.9% of consolidated launches.

Second quarter gross pre-sales in the Gafisa segment totaled R\$262.0 millions. Dissolutions in 2Q16 were R\$132.5 millions, yielding total net pre-sales of R\$129.5 millions, up 93.8% q-o-q and down 46.5% y-o-y. Out of total dissolutions in the quarter, 21.5% were related to corporate projects, while residential dissolutions corresponded to the remaining 78.5%. In 1H16, net pre-sales totaled R\$196.4 millions.

Despite headwinds in Brazil's political and economic scenario, the segment was capable of achieving an improved performance in 2Q16 relative to the previous quarter. Gross sales totaled R\$262.0 millions, 10.5% higher than the previous quarter. The slight improvement in sales performance from 1Q16 signals a marginal improvement in the consumer environment and a potentially improving scenario in 2H16. Another positive trend in 2Q16 was the lower volume of dissolutions compared to 1Q16, which returned to average levels posted in 2015.

As a main operational guideline for the year, the Company continues to focus its efforts on the sale of remaining units. As a result, 77.6% of net sales for the period were related to projects with launches before 2016. The dissolutions, in turn, were concentrated in the units launched prior to 2014, impacting the level of revenue in the period.

Table 6 – Gafisa Segment – Launches and Pre-sales (R\$ 000)

## Sales over Supply (SoS)

The Gafisa segment's SoS for the last twelve months reached 26.5% compared to 27.7% in the same period last year. In the 2Q16, SoS was 6.3% compared to 3.3% in 1Q16 and 10.5% in 2Q15.

## Dissolutions

The weak economic conditions observed in 2016 and the strong recession have directly impacted consumer confidence and, accordingly, the level of gross sales and dissolutions. Due to the challenging operating environment, the level of dissolutions in the Gafisa segment reached R\$132.5 millions in 2Q16, down sequentially compared to R\$170.3 millions in 1Q16 and up from R\$115.6 millions in 2Q15. In 1H16, the total volume of dissolutions was R\$302.8 millions.

Over the last three years, the Company has been working on initiatives to strengthen the credit review component of its sale process. In doing so, the Company intends to reduce the level of dissolutions throughout the construction and delivery cycle. Given the current economic uncertainties and corresponding effects on the real estate market, the reduction in dissolutions has been slower than expected.

A comprehensive approach in the credit review process at the time of sale has generated a more efficient process of transferring Gafisa customers to financial institutions, even amid an unfavorable economic environment. As an example of the efficiency achieved in this process, only 9.2% of those who asked for transfers in 1H16 have been rejected by the bank's credit analysis. (i.e. out of the 656 units asking for transfers, only 60 were not accepted)

In recent quarters the Gafisa segment has been able to reduce the level of dissolutions by enabling customers facing financial pressure to swap their units for those that better match their financial position. This exchange process reflects the flexibility of Gafisa's product portfolio. In 1H16, R\$56.2 millions of new sales were made to clients who opted for swaps.

In the quarter, 243 Gafisa units were cancelled and 143 units, representing R\$73.4 millions, were already resold within the period. In 1H16, 500 units were cancelled, with the resale of 259 units in the same period, or R\$135.3 millions.

## Inventory

Gafisa is maintaining its focus on inventory reduction initiatives. Projects launched prior to 2016 represented 72.3% of net sales in the period. The market value of the Gafisa segment's inventory decreased by 3.1% q-o-q, and 7.8% y.o.y, totaling R\$1.9 billions. The reduction reflects current market conditions, the effect of sales income in the period, as well as pricing adjustments on some inventory projects. Finished units outside of core markets accounted for R\$51.2 millions, or 2.7% of total inventory.

During the same period, finished units represented R\$451.2 millions, or 23.6% of total inventory. Inventory from projects launched outside core markets, which is comprised exclusively of finished units, represented R\$51.2 millions, a decrease of 51.5% when compared to R\$105.4 millions in 2Q15 and down 9.2% from 1Q16. The Company estimates that through the beginning of 2017, it will have monetized a large portion of its inventory in non-core markets, based on the sales rate observed in these markets over the past few quarters.

In regards to Gafisa's inventory, approximately 46% or R\$869.7 millions, is concentrated in projects to be delivered after 2Q17 and will not significantly increase the segment's inventory of finished units in the short term.

Currently, Gafisa has 25 projects under construction, all of which are on schedule according to the Company's business plan.

## **Transfers**

Over the past few years, the Company has been taking steps to improve the performance of its receivables/transfer process, in an attempt to achieve higher rates of return on invested capital. Currently, the Company's strategy is to transfer 90% of eligible units in a 90-day period after the delivery of the project. In accordance with this policy, transfers totaled R\$142.7 millions in PSV in the second quarter.

## Financial Results

### Revenue

2Q16 net revenues for the Gafisa segment totaled R\$212.6 millions, up 24.4% q-o-q and down 39.0% y-o-y, as a result of higher sales volume compared to 1Q16 and the sales mix, with a higher concentration of projects launched from 2015. In 1H16, net revenue reached R\$383.6 millions.

In the quarter, 100% of Gafisa segment revenues were derived from projects located in Rio de Janeiro and São Paulo. The table below provides additional details.

### Gross Profit & Margin

2Q16 gross profit for the Gafisa segment was R\$26.1 millions, up from R\$3.5 millions in 1Q16, and down from R\$90.3 millions in the prior year period, due to a lower top line result. Gross margin in the quarter reached 12.3%, higher q-o-q, but still negatively impacted by the higher volume of dissolutions, mainly those related to corporate projects (R\$28.4 millions – 21.4% of total PSV cancelled) and the effect of pricing differences. Excluding financial impacts, adjusted gross margin reached 30.7% in 2Q16 compared to 21.0% in 1Q16 and 36.5% in 2Q15.

The table below contains more details on the breakdown of 2Q16 Gafisa's gross margin.

## Selling, General and Administrative Expenses (SG&A)

SG&A expenses totaled R\$39.8 millions in the 2Q16, down 21.2% y-o-y and 9.1% q-o-q. In the 6M16, these expenses totaled R\$83.5 millions, 10.6% down from the R\$93.4 millions in the past year.

While selling expenses decreased 11.9% compared to 2Q15, they increased 20.9% from 1Q16, due to an increased level of launch volumes and higher required sales and marketing investments to stimulate demand. Year-to-date, the sales expenses remained stable compared to 6M15.

The segment's general and administrative expenses reached R\$19.5 millions in 2Q16, a decrease of 28.9% compared to the previous year and 27.7% compared to 1Q16. In the 6M16, G&A expenses reached R\$46.5 millions compared to R\$56.4 millions in 6M15, a decrease of 17.4%.

The improved balance in the Gafisa segment's SG&A levels reflects the Company's commitment to improving operational efficiency and achieving a level of costs and expenses that is more in line with the current economic outlook.

A higher volume of deliveries over the past three years, due to the delivery of delayed projects in legacy regions, led to an increase in the level of contingencies. The Gafisa segment has since concentrated its operations on the metropolitan regions of São Paulo and Rio de Janeiro. This strategic geographical positioning, combined with improved internal processes, is expected to result in fewer future legal claims and a subsequent decrease in the amount of expenses related to contingencies in the following years.

## Adjusted EBITDA

Adjusted EBITDA for the Gafisa segment was R\$12.5 millions in 2Q16, an improvement from the negative R\$18.1 millions in 1Q16 and lower than the R\$52.4 millions recorded in 2Q15. Year-to-date adjusted EBITDA was negative R\$5.6 millions compared to the positive result of R\$110.7 millions in 6M15. 2Q16 Adjusted EBITDA was impacted year-over-year by the following factors: (i) lower revenue in the quarter due to the volume and sales mix; and (ii) decreased gross margin level in 2Q16. As a reminder, adjusted EBITDA for the Gafisa segment does not include equity income from Alphaville.

The adjusted EBITDA margin reached 5.9% in 2Q16, compared to 15.0% in 2Q15, and a negative margin of 10.6% in 1Q16. The adjusted EBITDA margin for the 6M16 was negative 1.5%.

## Dissolutions

The level of dissolutions in the Tenda segment totaled R\$57.9 millions in 2Q16, an increase of 7.8% compared to 2Q15 and 25.3% compared to 1Q16, in line with the increasing volume of gross sales in this quarter.

Due to its transfer policy, which occurs immediately after the sale, and the reduction of the legacy portfolio, the Tenda segment continues to support a lower volume of dissolutions. The percentage of dissolutions over gross sales reached 15.1%, despite the 58.5% of the legacy projects in this quarter's total volume of dissolutions.

### Gross Profit and Margin

2Q16 gross profit totaled R\$67.4 millions, in line with R\$68.3 millions in 2Q15, and R\$68.7 millions in the 1Q16. Gross margin for the quarter reached 25.9%, compared to 28.1% in 2Q15 and 29.3% in 1Q16. The reduction in gross margin is a result of the completion of the receivables portfolio review, started in 4Q15, resulting in additional provisioning of R\$14.6 millions in the 2Q16. In April, as a result of major credit constraints, Tenda chose to be more flexible in its discount policy as an initiative to recover sales volume. This initiative was a one-off situation that normalized in subsequent months.

It is worth mentioning that the adjusted gross margin remained in the level between 28 and 30%, as it has been since 2Q14, as a result of the consolidation of New Model projects, improved performance and profitability and decreased contribution from legacy projects in the breakdown of Tenda's revenues. 2Q16 adjusted gross margin was 28.0%, lower than the 30.1% seen in 2015 and the 31.7% in 1Q16. In 6M16, Tenda's adjusted gross margin reached 29.7%.

The table below shows Tenda's gross margin breakdown in 2Q16.

## Selling, General and Administrative Expenses (SG&A)

During 2Q16, selling, general and administrative expenses totaled R\$42.4 millions, an increase of 8.1% compared to R\$39.3 millions in 2Q15 and 13.8% compared to R\$37.3 millions in 1Q16. In 1H16, SG&A increased by 18.9%, totaling R\$79.7 millions, as a result of a higher volume of Tenda segment operations.

Selling expenses reached R\$21.3 millions in 2Q16, an increase of 16.4% from 1Q16 and 20.4% from 2Q15, due to a higher launch volume and increased gross sales in the Tenda segment. It is worth noting that despite the 16.4% increase in selling expenses, gross sales volume outpaced the SG&A expense, increasing 22.4% in the quarter. In 6M16, selling expenses increased 28.9%, totaling R\$39.5 millions.

In 2Q16, general and administrative expenses decreased 2.0% compared to 2Q15 and increased 11.3% in the sequential comparison. The difference is a result of the partial reversal of expenses related to the provision for profit sharing recorded in 1Q16, which had a net effect of R\$2.0 millions between the quarters. Year-to-date, general and administrative expenses totaled R\$40.2 millions, 10.5% above the R\$36.4 millions recorded in 2015 and in line with the level of operations of the Tenda segment.

Another step taken by the Tenda segment to improve its operational and financial cycle since 2013 is the reduction in the cost structure to match the Company's new business model and achieve better profitability.

Below, we present a breakdown of this expense.

## Adjusted EBITDA

Adjusted EBITDA was R\$21.9 millions in 2Q16, compared to adjusted EBITDA of R\$22.8 millions in 1Q16 and R\$15.2 millions in 2Q15. In 1H16, adjusted EBITDA was R\$44.6 millions compared to R\$36.3 millions in the last year.

Adjusted EBITDA margin was 8.4% in 2Q16 compared to an adjusted EBITDA margin of 6.3% in 2Q15 and 9.7% in the previous quarter. The y-o-y increase is attributable to: (i) higher volume of net sales in the period, contributing to a higher level of revenue; and (ii) better performance from Other Operating Revenues/Expenses due to a lower impact from non-recurring effects compared to the previous quarter.

In 1H16, adjusted EBITDA margin reached 9.0%.

## 20. Financial instruments

The Company and its subsidiaries engage in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at providing liquidity, return and safety. The use of financial instruments with the objective of hedging is achieved through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and performance of the proposed strategy. The control policy consists of continuously monitoring the contracted conditions in relation to the prevailing market conditions. The Company and its subsidiaries do not use derivatives or any other risky assets for speculative purposes. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the following risk factors:

(i) Risk considerations

a) *Credit risk*

There was no significant change in relation to the credit risks disclosed in Note 20(i)(a) to the financial statements as of December 31, 2015.

b) *Derivative financial instruments*

The Company holds derivative instruments to mitigate the risk arising from its exposure to index and interest volatility recognized at their fair value in profit or loss for the year. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

As of June 30, 2016, the Company had derivative contracts for hedging purposes in relation to interest fluctuations, with final maturity between June 2016 and January 2020. The derivative contracts are as follows:

	Reais	Consolidated Percentage	
<b>Companies Swap agreements (Fixed for CDI)</b>	<b>Face value</b>	<b>Original Index</b>	<b>Swap – liability position</b>

Gafisa S/A Banco Votorantim S.A.	55,000	IPCA + 8.22%	120%

During the period ended June 30, 2016, the amount of R\$12,216 (R\$(4,346) in 2015) in the Company's and consolidated statements, which refers to net result of the interest swap transaction, arising from the payment in the amount of R\$8,216, and the positive value change based on the market of R\$20,432, was recognized in the "financial income (expenses)" line in the statement of profit or loss for the year, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 24).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific valuation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction, which may vary upon the financial settlement of transactions.

c) *Interest rate risk*

There was no significant change in relation to the interest rate risks disclosed in Note 20(i)(c) to the financial statements as of December 31, 2015.

**Report on the review of quarterly information - ITR**

To the shareholders, Board of Directors and Officers

Gafisa S.A.

São Paulo - SP

We have reviewed the accompanying individual and consolidated interim financial information of Gafisa S.A. (“Company”), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended June 30, 2016, which comprises the balance sheet as at June 30, 2016 and the respective statement of operations, statement of comprehensive income (loss) for the quarter and six-month period then ended, and the statement of changes in equity and statement of cash flows for the six-month period then ended, including explanatory notes.

The Company’s management is responsible for the preparation of individual interim financial information in accordance with the Technical Pronouncement of the Accounting Pronouncements Committee (CPC) 21 (R1) – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) which considers the Technical Orientation - OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, edited by the Accounting Pronouncements Committee (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM) and the Brazilian Federal Accounting Council (CFC), as well as for the presentation of these information in compliance with the rules issued by the CVM, applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of review**

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 – Review of Interim Financial Information Performed by the Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity,

respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.

**Conclusion from the individual and consolidated interim financial information prepared in accordance with CPC 21(R1)**

Based on our review, we are not aware of any fact that makes us believe that the individual and consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.
