Quarterly Information (ITR) at

March 31, 2018

and Independent Auditors' Report Review

Report on review of interim financial information

To Shareholders, Members of the Board and Management

Braskem S.A.

Camaçari - Bahia

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Braskem S.A. (the “Company”) included in the Quarterly Financial Information for the quarter ended March 31, 2018, which comprises the balance sheet as of March 31, 2018, the statements of profit or loss and comprehensive income for the three-month period then ended, changes in equity and cash flows for the three-month period then ended, and notes to the interim financial information.

Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) Technical Pronouncement - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 - *Interim Financial Reporting*, issued by the *International Accounting Standards Board* - IASB, as well as for the presentation of this quarterly information in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission, applicable to the preparation of interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international review standards applicable to interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not

express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by the IASB, applicable to the preparation of interim financial information and presented in accordance with the standards issued by CVM - Brazilian Securities and Exchange Commission.

Other matters

Statements of value added

The individual and consolidated interim financial information related to the Statements of added value (DVA) for the three-month period ended March 31, 2018, prepared under the responsibility of the Company's management, presented herein as supplementary information for IAS 34 purposes, have been subject to review procedures jointly performed with the review of the Company's interim financial information - ITR. In order to form our conclusion, we assessed whether those statements are reconciled with the interim financial information and accounting records, as applicable, and whether their format and contents are in accordance with criteria determined in the Technical Pronouncement CPC 09 - Demonstração do Valor Adicionado. Based on our review, nothing has come to our attention that causes us to believe that the statements of added value referred to above were not prepared, in all material respects, consistently with the overall individual and consolidated interim financial information.

Notes to the financial statements

at March 31, 2018

All amounts in thousands of reais, unless otherwise stated

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Significant operating events impacting these financial statements

(b) Net Working Capital

On March 31, 2018, in compliance with CPC 26 and its corresponding IAS 1 (Presentation of Financial Statements), the subsidiary Braskem Idesa maintained as current liabilities its financial obligations whose original maturities were long term, since certain contractual covenants for which, on the reporting date of these quarterly financial statements, the Company was not in compliance (Note 13). Consequently, the consolidated net working capital was negative R\$1,032,670.

Note that Braskem Idesa has been settling its obligations in accordance with the original maturity schedule and none of its creditors has requested the immediate reimbursement of said obligations and, without the aforementioned reclassification, consolidated net working capital was positive R\$7,751,591.

2. Summary of significant accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2017, with the exception of changes in the accounting policies described in Note 2.1.1.

2.1. Basis of preparation

This Quarterly Information includes the three-month period ended March 31, 2018 and should be read together with the financial statements of Braskem as of December 31, 2017, which were prepared and presented (i) in the consolidated, in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB); and (ii) in the Parent Company, in accordance with the accounting practices adopted in Brazil, in compliance with Federal Law 6,404/76, as amended, and with the standards issued by CPC.

The preparation of the Quarterly Information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies.

There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2017 financial statements.

Issue of these financial statements was authorized by the Executive Board on May 07, 2018.

Braskem S.A.

Notes to the financial statements

at March 31, 2018

All amounts in thousands of reais, unless otherwise stated

2.1.1 Changes in key accounting policies

Except as described below, the accounting policies applied to this Quarterly Financial Information are the same as those applied to the consolidated financial statements of the Company for the fiscal year ended December 31, 2017.

These changes in accounting policies also will be reflected in the consolidated financial statements of the Company for the fiscal year ending December 31, 2018.

The Company adopted for the first time “CPC 47 / IFRS 15 – Revenue from Contracts with Customers” and “CPC 48/ IFRS 9 – Financial Instruments” as from January 1, 2018.

The effect from the first-time adoption of these standards is attributed mainly to the following: (i) presentation of variable considerations (bonuses) deducted directly from gross sales revenue (Note 23); (ii) replacement of the “incurred loss” model for the prospective model of “expected credit losses.” (Note 3); (iii) change in the classification and measurement of financial assets (Note 16); and (iv) change in the accounting of operations involving dollar put and call options designated for hedge accounting (Note 16.2.1.a).

As described in Note 2.3 to the financial statements dated December 31, 2017, the Company identified a performance obligation in its sales associated with freight contracts for product deliveries. The Company concluded that there is no material effect on its financial statements for recording this performance obligation separately from the performance obligation associated with product deliveries.

2.1.2 Consolidated and parent company quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements. The parent company information was prepared and is being presented in accordance with CPC pronouncement.

All relevant information pertaining exclusively to these interim financial statements is presented herein and corresponds to the information used by the Management of the Company.

2.1.3 Consolidated quarterly information

The consolidated Quarterly Information includes the quarterly information of the Parent Company and companies in which it, directly or indirectly, maintains a controlling equity interest or controls the activities, as presented below:

(a) As disclosed in the annual financial statements for 2017 (Note 2.3), CPC48 / IFRS 9 substituted, as from January 1, 2018, the “incurred losses” model of CPC 38 / IAS 39 with a prospective model of “expected credit losses,” which requires greater judgment of how the changes in economic factors affect the expected credit losses, which are determined based on the following stages:

Stage 1 – when the securities are still performing, expected credit losses were calculated based on the actual experience of credit loss (write-off) over the last five years, segregating customers in accordance with their Operating Risk.

Stage 2 – when there is deterioration in the credit risk of the customer since the initial recognition. The Company considered as deterioration of credit risk any credits that were renegotiated and that must be collected in court.

Stage 3 – includes financial assets that have objective evidence of impairment on the reporting date.

The following table shows the Company's expected credit loss for each stage:

(i) Financing without recourse or with recourse limited to shareholders.

In keeping with the Company's Financial Policy, the investment in the construction of the Braskem Idesa plant is financed under a Project Finance structure, in which the construction loan must be repaid using exclusively the cash generated by the company itself and with the shareholders pledging limited guarantees. Accordingly, this financing structure includes guarantees typical to transactions of this kind, such as assets, receivables, cash generation and other rights of Braskem Idesa.

Project Finance borrowings include various contractual obligations (covenants) that are typical of contracts of this nature.

On the reporting date of the financial statements of March 31, 2018, the company was in unremedied breach of some of its non-financial contractual obligations. As a result, the entire balance of non-current liabilities, in the amount of R\$8,784,261 was reclassified to current liabilities, in accordance with CPC 26 and its corresponding accounting standard IAS 1 (Presentation of Financial Statements).

In accordance with the aforementioned accounting standards, reclassification is required in situations in which the breach of certain contractual obligations entitles creditors to request from Braskem Idesa the prepayment of obligations in the short term. In this context, note that none of the creditors requested said prepayment of obligations and that Braskem Idesa has been settling its debt service obligations in accordance with their original maturity schedule.

Furthermore, Braskem Idesa continued to negotiate approval of such breaches with its creditors in order to reclassify the entire amount reclassified from current liabilities back to non-current liabilities.

The following amortization schedule presents the original long-term maturities, excluding the reclassification to current liabilities arising from the aforementioned breach of contractual obligations.

16. Financial instruments

The information related to financial instruments was presented in the 2017 financial statements of the Company, in Note 19.

As of January 1, 2018, as disclosed in the annual financial statements of 2017 (Note 2.3), the financial instruments were classified and measured in accordance with its Business Model (CPC 48/IFRS 9).

The adoption of new classifications of financial instruments in accordance with CPC 48/IFRS 9 did not produce a significant effect on the Company's accounting policies, as shown in the following table:

(a) Operations designated for hedge accounting

(a.i) U.S. dollar Call and Put Options

On March 31, 2018, Braskem held a total notional amount of put options of US\$1.7 billion, with an average strike price of 2.96 R\$/US\$. Simultaneously, the Company also held a total notional amount of call options of US\$1.2 billion, with an average strike price of R\$4.30. The operations have a maximum term of 17 months.

According to IFRS 9, the accounting standard applicable as from January 1, 2018, any gain or loss related to the effective portion of dollar options (intrinsic value), as well as the extrinsic value and the premium of the operation, is recognized as other comprehensive income under shareholders' equity.

(a.ii) Swap IPCA

To maintain its strategy of managing risks related to currencies and interest rates, the Company opted to swap to fixed rates in U.S. dollar the portions not yet due under the Leniency agreement entered into with the Federal Prosecution Office (MPF), which originally were denominated in Brazilian real and pegged to the IPCA inflation index. For such, derivative instruments were contracted in the amount of R\$1.3 billion, divided into five annual installments due on January 30 of each year as from 2019. These operations were designated as cash flow hedge accounting, where the hedging instruments are currency derivatives and the hedged objects are the liabilities under the Agreement. Accordingly, the mark-to-market adjustment of the effective portion of the hedge will be recognized under shareholders equity in the line "Other comprehensive income" ("OCI") and will be recognized in the financial result only upon the maturity of each installment.

16.5. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On March 31, 2018, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Brazilian real/Mexican peso exchange rate;
- Libor floating interest rate;
- Selic interest rate;
- CDI interest rate;
- TJLP interest rate;
- IPCA interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, not reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Value at risk

The value at risk of the derivatives held by Braskem which is defined as the loss that could result in one month as from March 31, 2018, with a probability of 5%, and under normal market conditions, was estimated by the Company at US\$4,838 for put and call options (Note 16.2.1(a.i)) and US\$11,144 for the swap of Libor related to Braskem Idesa's project.

(c) Selection of scenarios

(c.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate, Selic basic interest rate and the CDI interest rate, using the reference date of March 29, 2018. According to the Market Readout, at the end of 2018, the U.S. dollar will depreciate by approximately 0.72% against the Brazilian real, compared to the closing PTAX rate at September 29, 2017, while the Selic rate will be 6.25% p.a. The Selic rate is used as a reference for analyses of sensitivity to the CDI.

The probable scenario for the TJLP is a decrease of 0.25% from the current rate of 6.6%, i.e., the same magnitude as the projected decrease in the Selic rate. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered 25% and 50% increases on current market levels.

(c.2) Possible and extreme adverse scenarios

The sensitivity values in the table below are the changes in the value of the financial instruments in each scenario:

20.2. Claims with possible losses

The amount under claims and a description of the main claims with possible losses are presented in the financial statements for fiscal year 2017, in Note 23.2.

(a) Tax claims

(i) ICMS - Use and consumption credit

In January 2018, the Company was served a notice by the State of Rio Grande do Sul, charging, at the administrative level, ICMS and a fine of 120% for using ICMS credits in the acquisition of goods (“pallets”), which were considered by the Tax Authority as for use and consumption in the period from January 2013 to November 2017. On March 31, 2018, the updated amount of these deficiency notices amounted to R\$79 million.

The Company’s external legal advisors estimate that these administrative proceedings should be concluded in 2022.

There are no deposits or any other type of guarantee for these proceedings since they are still being disputed at the administrative level.

20.3. Global Settlement with authorities

Complete information on the global settlement with authorities was presented in Note 23.3 to the Company's annual financial statements for 2017.

(a) Global Settlement with authorities

The Leniency Agreement ("Agreement") entered into in December 2016 with the Federal Prosecution Office ("MPF") and with U.S. and Swiss authorities ("Global Settlement"), in the approximate amount of US\$957 million (approximately R\$3.1 billion) was officially ratified as follows:

1. In Brazil, the Agreement was ratified by the 5th Coordination and Review Chamber of the MPF on December 15, 2016, with ratification by the 13th Federal Court of Curitiba on June 6, 2017.
2. The agreement with the U.S. Department of Justice ("DoJ") was confirmed by a U.S. court ruling on January 26, 2017.
3. The agreement with the Securities and Exchange Commission ("SEC") was confirmed on February 28, 2017.
4. The agreement with Swiss authorities did not require ratification to produce effect.

Of the aggregate amount of the Global Settlement, the Company already has paid approximately R\$1.6 billion, as follows:

1. US\$94,894 (R\$296,591) to the DoJ, paid on February 8, 2017;

2. US\$65,000 (R\$206,460) to the SEC, paid on April 27, 2017;
3. CHF30,240 (R\$104,307) to the Swiss Office of the Attorney General, paid on June 27, 2017;
4. R\$736,445 to the MPF, paid on July 6, 2017; and
5. R\$267,985 to the MPF, paid on January 30, 2018.

The outstanding amount, of approximately R\$1.5 billion, will be paid as follows:

1. CHF64,260 to the Swiss Office of the Attorney General in four annual installments of CHF16.065 due on June 30 of each year as from 2018;
2. R\$1.3 billion to the MPF in five annual installments adjusted for inflation by the variation in the IPCA inflation index due on January 30 of each year as from 2019. To guarantee payment of the installments coming due, Braskem gave as collateral assets from its property, plant and equipment corresponding to one annual installment.

(b) Reimbursement for damages and other considerations

A significant portion of the total of R\$2.2 billion of the Agreement entered into with MPF will be allocated to paying redress to third parties for damages incurred due to the facts that are the subject-matter of the Agreement.

Under the Agreement, the MPF undertook to coordinate actions with other authorities or government agencies, as well as state-owned companies and mixed-economy companies with which Braskem comes to negotiate for entering into agreements based on the facts object of the collaboration, including for the purpose of preventing duplicate restitution with regard to the amount paid under the Agreement.

Braskem S.A.

Notes to the financial statements

at March 31, 2018

All amounts in thousands of reais, unless otherwise stated

The Agreement does not prevent any third party with legitimate interest on the facts from filing proceedings to claim remedy for any damages caused by Braskem, which could result in payments other than those provided for in the Agreement. Therefore, the Company cannot guarantee that the total amount available for reimbursement will be sufficient to fully remedy any third parties affected by the wrongdoings, which means that the Company may be required to indemnify or be subject to the payment of financial penalties other than those provided for in the Global Settlement.

In addition, other authorities with jurisdiction over the Company may seek to impose additional monetary sanctions or fines or commence new investigations against Braskem. Finally, as a result of the Global Settlement, the Company may be subject to increased operating costs in connection with its obligations to improve its governance and anti-corruption practices.

It is not possible to predict the impacts on Braskem of others investigations or any decision or action taken by authorities involving its largest shareholders, namely Odebrecht S.A. and Petróleo Brasileiro S.A. – Petrobras, or any of their subsidiaries.

(c) Control deficiencies and Compliance Program

After the investigation conducted in 2016 and confirmation of wrongdoings, the Company identified material control deficiencies.

In 2016, it began developing a comprehensive Compliance Program to strengthen its governance with the goal of significantly reducing the possibility of other wrongdoings of the same kind from recurring. The Program also contains initiatives that have been implemented throughout 2017.

As of the period ended March 31, 2018, a series of Compliance initiatives are being implemented and/or improved, including:

- (i) Increase in the number of Team Members in the Compliance Department;
- (ii) Designation and engagement of independent monitors jointly with the DoJ and MPF, and beginning of analysis of the Company's processes and documents by said monitors;
- (iii) Approval of the following documents: Policy on Compliance in Acting Ethically with Integrity and Transparency; Internal Audit Directive; Corporate Credit Card Directive; Procedure for payment of commissions to agents; and Ethics Line Investigation Protocols;
- (iv) Continuing the training program with a focus on the Compliance System, applicable legislation and raising Team Member awareness;
- (v) Setting a corporate target related to Compliance for all Leaders at the Company;
- (vi) Approving the Directive and Procedure for Relations with Government Officials, which regulates interactions with politicians and executives at state-owned companies;
- (vii) Formally and effectively participating in working groups: UN Anticorruption and ETHOS Integrity;
- (viii) Improving the supplier registration and approval process by implementing a third-party risk and integrity assessment;
- (ix) Developing the Communication Plan for disseminating the Company's commitment to conducting its Business Ethically with Integrity and Transparency;
- (x) Approving the Procedure for the Ethics Line, considering the formal process for handling reports of violations and investigation protocols;
- (xi) Outsourcing of the Whistleblowing Channel and improving the tool for receiving reports of violations;

(d) Class actions

On July 1, 2015, a putative class action lawsuit was filed in the United States District Court for the Southern District of New York against the Company and certain of its then-current and former officers and directors. In the current lawsuit, titled *In re Braskem Securities Litigation*, the Lead Plaintiff, Boilermaker-Blacksmith National Pension Trust, alleges that the Defendants made misrepresentations or omissions that inflated the price of the Company's stock in violation of U.S. securities laws.

After the decision on the motion to dismiss filed by the Company, partially granting its arguments, the Company and the Lead Plaintiff executed a proposal of resolution agreement ("Proposed Agreement"), which was ratified by the applicable Court, which issued a final decision ending all claims from all members of the class of Investors (as defined below).

Under the terms of the Proposed Settlement, Braskem paid US\$10 million (approximately R\$31,680) to resolve all claims arising out of or relating to the subject matter of the class action of a settlement class consisting of all persons who purchased or otherwise acquired a legal or beneficial ownership interest in Braskem American Depositary Receipts (“ADRs”) between July 15, 2010 and March 11, 2015 inclusive. The amount under the agreement was deposited by Braskem in an Escrow Account on October 2, 2017.

On February 21, 2018, a hearing was held, in which the final approval decision of the agreement was pronounced in relation to all classes of investors and the extinction of the lawsuit. Such a decision has already been the subject of a final decision.

The individual distribution thereof will be made by the manager of the Escrow Account, by determination of the court, in accordance with the allocation plan ratified by the Court.

The Proposed Settlement was signed solely to avoid the risk, uncertainty, and expense of further litigation and does not represent the admission of any wrongdoing or liability by Braskem.

The Company may be named as a defendant in other legal actions. 28. Subsequent events

(a) On March 21, 2018, the Extraordinary Shareholders' Meeting approved the long-term share-based incentive plan ("ILP Plan"). The ILP Plan aims to align the interests of its participants with those of the Company's shareholders and to encourage participants' retention at the Company by offering eligible participants an opportunity to receive restricted shares in the Company by voluntarily investing own funds and holding such shares through the end of the three-year vesting period.

On March 28, 2018, the Board of Directors approved the "ILP Plan 2018," in accordance with the terms and conditions of the ILP Plan, which includes the list of eligible persons, the deadline for acquiring own shares by participants and the number of restricted shares to be delivered to participants as matching contribution for each own share acquired. The maximum number of shares the Company expects to deliver to the participants of the ILP Program 2018, after the vesting period and subject to compliance with all necessary requirements, is 685,195 shares. The shares to be delivered by the Company to participants of the ILP Program 2018 are those currently held in treasury or acquired through repurchase programs, and in the event said shares cannot be delivered, the Company will pay participants in cash the amount corresponding to the shares, based on the quote on the stock exchange on the second business day immediately prior to the respective payment date.

This plan should be accounted for in accordance with CPC 10 – Share-Based Payment and its corresponding standard IFRS 2, which requires the Company to calculate the value of equity instruments granted based on the fair value thereof on the grant date. The corresponding expense will be recognized by the accrual method over the vesting period for exercising the instruments.

(b) On April 30, 2018, the Annual Shareholders' Meeting approved the payment of additional dividends considering the net income for fiscal year 2017, in the amount of R\$1,500,000, to be paid as from May 10, 2018.
