Message of the Chairman of the Board of Directors

Cidade de Deus, Osasco, SP, February 7, 2019

Dear shareholders,

It is with great pleasure that I invite you to participate in the Special and Annual Shareholders' Meetings of Bradesco, which will be held, cumulatively, on March 11, 2019, at 4 p.m. In the Meetings, you will have the opportunity to discuss and vote on the matters set out in the Call Notice, which accompanies this Manual and will be disclosed in the official gazettes from tomorrow, February 8.

It is important to highlight that, if you are not able to attend the event, the exercise of your right to vote may be manifested to Bradesco either by power-of-attorney or Remote Voting Form, in accordance with the legislation in force, in addition to the electronic voting platform available. Any of these options will ensure the full participation of shareholders in the Meetings.

Aligned with our commitment with transparency and the democratization of information, you will find in this manual all the information and guidelines required by the applicable laws, as well as others that can assist you in the thorough examination of the matters that will be the object of resolution in the Shareholders' Meetings and, consequently, for the best decision of your votes.

In order to give you enough time to examine the matters that will be submitted for your deliberation, all the documents required will be informed to the market on this date, 32 days prior to the meeting.

Certain that we will continue counting on your support, Bradesco is at your disposal for any further enquiries.

I wish you all a great event!

Banco Bradesco S.A.

Luiz Carlos Trabuco Cappi
Chairman of the Board of Directors

Complementary Information

Information on Shareholders' Meetings

According to the Sole Paragraph of Article 131 of Law No. 6,404/76, the Special and Annual Shareholders' Meetings may cumulatively be called and held at the same place, date and time, as well as drawn up in a single minutes.

Using this option, we summon Shareholders' Meetings, cumulatively held on March 11, at 4 p.m., whose Call Notice, contained in this Manual, lists, separate and expressly, on the agendas all matters to be discussed in the Meetings, and no other matter pending approval by the shareholders shall be included.

The documents mentioned in Article 133 of Law No. 6,404/76, related to the fiscal year ended on December 31, 2018, are listed below:

- I. Management Report on the business and main administrative acts of the fiscal year ended;
 - II. Financial Statements;
 - III. Independent Auditors' Report;
 - IV. Fiscal Council's Opinion; and
 - V. Summary of the Audit Committee's Report.
- they were available, on January 31, 2019, to investors in Brazil (B3 S.A. - Brasil, Bolsa, Balcão – www.b3.com.br; and CVM – Brazilian Securities and Exchange Commission – www.cvm.gov.br) and to investors abroad (NYSE and LATIBEX) and, henceforth, they can be viewed on the websites mentioned above, as well as on Bradesco's website (banco.bradesco/ri); and

- they were published, on February 5, 2019, in the newspapers “*Diário Oficial do Estado de São Paulo*” and “*Valor Econômico*”.

All other documents referring to the Shareholders’ Meetings are part of this Manual and are at the disposal of shareholders at the Market Relations Department, Núcleo Cidade de Deus, Prédio Vermelho, 3º andar, Vila Yara, Osasco, São Paulo, and may also be viewed on Bradesco, B3 and CVM websites, as given above.

Quorum

Pursuant to Article 125 of Law No. 6,404/76, save the exceptions provided for by law, the Shareholders’ Meeting will be installed, on first call, with the attendance of shareholders representing at least one quarter (1/4) of the voting capital stock and, on second call, it shall be installed with any number of shareholders.

The Special Shareholders’ Meeting, deciding on the amendment to the Bylaws, pursuant to Article 135 of Law No. 6,404/76, will be instated, on first call, with the attendance of shareholders representing at least two thirds (2/3) of the voting capital stock and, on second call, it may be instated with any number of shareholders.

Complementary Information

Quorum for Resolutions

According to Article 129 of Law No. 6,404/76, the resolutions shall be taken by the absolute majority of votes, not counting blank votes.

Exercise of Voting Rights

Common Shareholders

Pursuant to Brazilian legislation and Bradesco's Bylaws, common shareholders shall be entitled to vote on all matters listed in the Agenda, except for the separate election of candidates for members of the Fiscal Council that may be appointed exclusively by the preferred shareholders, pursuant to the following item.

Voting separately for the Fiscal Council

In relation to the election of members to compose the Fiscal Council, item 3 of the Annual Shareholders' Meeting Agenda, Law No. 6,404/76 establishes the possibility for preferred shareholders and common shareholders, **not part of the controlling block**, to elect their candidates, in a separate vote, in which: a) the holders of preferred shares will be entitled to elect one (1) member and his/her respective alternate; and b) common shareholders will have the same right, as long as there is in the market at least ten percent (10%) or more of common shares issued by the Company.

Except for the provisions above, other common shareholders may elect the effective and alternate members that, in any case, shall be equal to the number of the member selected by minority shareholders, plus one.

Holders of American Depositary Receipts (ADRs)

The right to vote on the matters listed in the Agenda will be given to holders of American Depositary Receipts (ADRs), according to the types of shares (common or preferred) their ADRs represent.

The ADR holders will be properly instructed by The Bank of New York Mellon, the depositary financial institution of ADRs backed by Bradesco's shares.

Participation in the Shareholders' Meetings

Attendance

The Company's shareholders may take part in the Shareholders' Meetings by attending the meetings at its headquarters and by casting their votes, according to the class of shares held by them (common and/or preferred) and the matters to be voted on.

Complementary Information

Pursuant to the provisions in Article 126 of Law No. 6,404/76, shareholders must attend the Shareholders' Meetings providing, in addition to their identification document, a certificate of ownership of the Company's shares, issued by the depositary and/or custodian financial institution. Management recommends that such certificate of ownership be issued at least two (2) business days before the date of mentioned Shareholders' Meetings.

Legal entities shareholders, such as Companies and Investment Funds, must be represented in accordance with their Bylaws, Articles of Incorporation or Charters, delivering the documents that evidence the good standing of the representation, having with them the Minutes of the election of Management, as the case may be, at the place and time indicated in the item below.

Shareholders without voting rights may attend the Shareholders' Meeting and discuss all the matters submitted for resolution, in addition to the ones contained in item 3 of the Annual Shareholders' Meeting.

Attorneys-in-fact

Shareholders may also be represented by an attorney-in-fact appointed not more than one year prior, provided that he/she is a shareholder, manager of Bradesco, lawyer or financial institution, being incumbent upon the investment fund manager to represent its condominium members, pursuant to Paragraph One of Article 126, of Law No. 6,404/76, and the power of attorney shall mandatorily bear a notarized signature of the grantor at the Notary. We also observe that the legal entities shareholders may be represented as set out in their bylaws/articles of incorporation. It is not mandatory that their attorneys be shareholders, managers of Bradesco, lawyers or a financial institution.

In order to help shareholders, the Power of Attorney Templates contained in this Manual may be used, in which case the attorney-in-fact shall vote in strict compliance with the instructions contained in the respective powers of attorney.

Optionally, the shareholders may also grant powers of attorney using different texts from those suggested herein, provided that they contain, expressly, the powers granted and the precise identification of both the shareholder and the attorney.

When the shareholder is represented by an attorney-in-fact, the good standing of the power of attorney will be verified before the beginning of the Shareholders' Meetings, as well as the ownership of shares.

In order to speed up the process and facilitate the proceedings in the Meetings, we request that the certificate of ownership of the shares, the power of attorney and eventual voting declaration, at the shareholder's discretion, are sent to the Company's headquarters, preferably, with at least two (2) business days before the Shareholders' Meetings, at Banco Bradesco S.A. – Secretaria Geral – Área Societária – Núcleo Cidade de Deus – Prédio Vermelho, 4º andar – Vila Yara – Osasco, SP, Brazil – CEP 06029-900. A copy of the documentation may also be sent by email to governancacorp@bradesco.com.br.

Before being sent to Bradesco, corporate and representation documents of legal entities and investment funds written in a foreign language must be translated into Portuguese. The said translations must be registered in the Titles and Documents Registry (a certified translation is not required).

Complementary Information

Participation by Remote Vote

As accounted for in Articles 21-A et seq. and pursuant to CVM Instruction No. 481/09, the Company's shareholders may also exercise their right to vote in shareholders' meetings through the remote voting process, to be formalized in a document named as "Remote Voting Form" (Form), whose template is available on the Corporate Governance area of Bradesco's Investor Relations website (banco.bradesco/ri) or on the CVM – Brazilian Securities and Exchange Commission's website (<http://sistemas.cvm.gov.br/?CiaDoc>).

Bradesco informs that:

ü **The common shareholders** with positions held up to the date of the Meetings will be entitled to vote on all matters of the form, except in the separate vote for the election of the members of the Fiscal Council appointed **EXCLUSIVELY** by the minority shareholders who are holders of preferred shares;

ü **The minority shareholders who are holders of preferred shares** with positions held up to the date of the Meetings are entitled to vote **EXCLUSIVELY** in the item of the Form regarding the separate vote process to elect members of the Fiscal Council appointed by the shareholder(s) holder(s) of such type of share.

The shareholder who decides to exercise their right to vote remotely must do so **by one of the options described below:**

I. **By delivering the Form, completed and signed, to one of Bradesco's Branches**

This option is intended exclusively for the shareholders with shares backed by Bradesco, as the registrar of shares issued by itself:

In order to offer a greater convenience to shareholders with a position in our Record Book of Shares, the entire Bradesco's Network of Branches in Brazil is available, **during the business hours of the local bank**, to take the necessary actions for the shareholder to exercise their remote voting right.

To do so, the shareholder must take the following measures:

ü Access the Corporate Governance area of Bradesco's Investor Relations website (banco.bradesco/ri) or the website of the Brazilian Securities and Exchange Commission – CVM (<http://sistemas.cvm.gov.br/?CiaDoc>), **print the Form, fill it out, initial each page and sign it.**

ü With the Form **completed, initialed and signed**, as well as the documents listed in the table below, the shareholder must go to any Bradesco Branches, **up until March 1, 2019, during the local bank's business hours**, in order for the information in their Form, in their presence, to be transferred to Bradesco systems, receiving a proof of the completion of the voting process.

(1) Identity cards accepted: Identity Card, Identity Card of Foreigner, National Driving License, Passport and professional registration officially recognized.

(2) For investment funds, documents of the manager and/or administrator, pursuant to the voting policy.

Before being forwarded to Bradesco Branches, corporate and representation documents of the legal entity and the investment funds drawn up in a foreign language must be translated into Portuguese. The said translations must be registered in the Titles and Documents Registry (a certified translation is not required).

Important: Forms received by the Bradesco's Branches after the end of the bank's business hours, on March 1, 2019, will be disregarded.

The Management highlights that the procedures above cannot be adopted for the holders of shares in custody at B3 and/or with any other custodian agent. In this case, the provisions of section II below must be observed.

II. By vote instructions conveyed by the shareholders to its respective custody agents

This option is intended exclusively for the shareholders who own shares held in custody at B3. In this case, the remote voting shall be exercised by the shareholders in accordance with the procedures adopted by the Institutions and/or Brokers holding their positions in custody.

The holder of shares deposited at B3 that chooses to exercise their remote voting right must do so by forwarding their voting instructions to the Institution and/or Broker (Custody Agent) holding their shares in custody, subject to the rules set forth by the latter, which, as a result, shall forward such vote statements to the Central Depository of B3.

Given that the services to receive and convey the instructions to complete Form is optional for Custody Agents, we recommend that the shareholders verify if their custodian is entitled to provide such services and also check the procedures set forth by them to issue the voting instructions, as well as the documents and information required by them.

Complementary Information

Bradesco informs that, if your Custody Agent does not provide the remote voting service, the shareholder will have the option to send their Form and applicable documents directly to the Company itself, pursuant to section III below.

III. By forwarding its vote instruction directly to the Company

This option may be used by all shareholders of the Company, both the holders of shares deposited in Bradesco, as custodian of the shares of their own issuance, and those holders of shares deposited in B3:

In case the shareholder chooses to direct his or her voting orientation directly to the Company, the following deadlines must be observed:

Up to March 6, 2019	the shareholder may forward to the email governancacorp@bradesco.com.br a copy of the Form completed, initialed and signed as well as a copy of the documents indicated in the table below.
Up to March 7, 2019	Bradesco will confirm, also by email, the receipt of the Form and its acceptance or, in the case of the need to rectify the Form partially or completely, the necessary guidelines for the correct completion, advising them about any irregularity found in the documents indicated in the table below.
Up to March 8, 2019	the shareholder must return, via the email governancacorp@bradesco.com.br , the rectified Form and/or the remaining documents.

Whether it is sent in advance, according to the description in the table above, Bradesco requests that the shareholder should **send, by post**, a hard copy, of the Form together with hard copy of the documents indicated in the table below, for the timely **receipt, by the cut-off date, which is March 8, 2019 (included)**, in its headquarters, at Núcleo Cidade de Deus, Prédio Vermelho, 4º andar, Vila Yara, Osasco, SP, Brasil - CEP 06029-900.

Complementary Information

If the physical documentation indicated in the table above is not received in its headquarters by March 8, 2019, Bradesco will communicate to the shareholder that the votes cast via the Form will not be considered.

General Information

The Company highlights that:

ü as established by Article 21-S of CVM Instruction No. 481/09, the Central Depositary of B3, upon receiving voting instructions by the shareholders through their respective custodian agents, will disregard any divergent instructions in relation to the same resolution that may have been issued by the same Individual or Corporate Taxpayer's ID;

ü when the period for remote voting ends, the shareholder may not change the voting instructions already sent, unless they are present at the Shareholders' Meetings or represented by proxy, through an explicit request to disregard the voting instructions sent through the Form, before the respective matter(s) is cast to vote.

Participation through the electronic voting platform

For investors with shares in custody in B3 or directly with the bookkeeper, in addition to the participation processes listed above, Bradesco also allows the exercise of the right to vote electronically free-of-charge.

Thus, the shareholder that so desires, must access the link **www.proxyvoting.com.br**, request access to the voting platform and provide the necessary information to confirm their

status as a shareholder of Bradesco.

Bradesco emphasizes that the procedure should be completed at least 72 hours before the time of the Meetings, i.e. up until March 8, 2019, at 4 p.m.

Additional information can be obtained on the phones and email address contained on the website of the electronic platform mentioned above.

Special Shareholders' Meeting

Proposal for the increase of the capital stock with a bonus of 20% in shares, with the subsequent change of the "caput" of Article 6 of the Bylaws, and for the partial amendment of the Bylaws

Dear Shareholders,

The Board of Directors of Bradesco hereby submits, to be examined and resolved by you, proposals to:

1) increase the capital stock by R\$8,000,000,000.00, increasing it from R\$67,100,000,000.00 to R\$75,100,000,000.00, with bonus stock, through the capitalization of part of the balance of the "Profit Reserves - Statutory Reserve" account, pursuant to Article 169 of Law No. 6,404/76, issuing 1,343,971,619 registered book-entry shares with no par value, being 671,985,845 common shares and 671,985,774 preferred shares, which will be allocated free of charge to the shareholders in the proportion of 2 new shares for each 10 shares of the same type they hold on the base date, to be established after the approval of the process by the Central Bank of Brazil, observing:

I. **Goals:** the bonus operation's purpose is to: a) increase the liquidity of the shares in the market, considering that the greater amount of outstanding shares will possibly generate a growth in the business; b) enable an adjustment in the shares price, making the unit price more attractive and accessible to a larger number of investors; and c) improve the compliance of the balance of the profit reserve with the legal limits.

II. **Base date of Right to Bonus Stock:** it will be announced to the market after the approval of the respective process by the Central Bank of Brazil.

III. **Trading:** current shares will continue to be traded with the right to bonus and the new shares shall be available for trading after the approval of the said process by the Central Bank of Brazil and the inclusion in the position of the shareholders, which will be dealt with in a notice to the market.

IV. **Right to Shares with Bonus:** will be entitled to dividends and/or interest on own capital that may be declared as of the date of their inclusion in the position of shareholders. They are also entitled, in full, to any benefits attributed to other shares as of the aforementioned date.

V. **Monthly Interest on Shareholders' Equity:** will be maintained at R\$0.017249826 per common share and R\$0.018974809 per preferred share (gross), with the payment for the net amount of R\$0.014662352 per common share and R\$0.016128588 per preferred share, after the deduction of tax income at the source of fifteen percent (15%). They will continue to be paid in accordance with the Systematics of Monthly Payment of Dividends/Interest on Equity. Income tax at the source does not apply to legal entities that are exempt from this tax.

Thus, the total amount paid monthly to the shareholders will have an increase of 20%, after the inclusion of the new shares into its position.

VI. **Fractions of Shares:** the bonus will always occur in whole numbers. Shares remaining unsubscribed arising from the fractions of shares will be separated, grouped in whole numbers and sold in an auction to be held at B3 S.A. – Brasil, Bolsa, Balcão (B3). After the approval needed for the process by the Central Bank of Brazil and, prior to the sale, Bradesco will establish a period of no less than 30 days, during which the shareholders may transfer the fractions of shares, as provided for in Paragraph Three of Article 169 of Law No. 6,404/76. After the sale of the shares, the respective amounts will be made available to the shareholders entitled thereto. Other additional details will be announced to the shareholders in due course.

Complementary Information

VII. **Cost of the Shares with Bonus:** the cost attributed to the shares with bonus is of R\$5.952506650 per share, regardless of the type, for the purposes of Article 10 of Law No. 9,249/95 (with new wording granted by Law No. 12,973/14), and Paragraph One of Article 58 of Instruction No. 1,585/15, of the Internal Revenue Service.

VIII. **Additional Procedures – Payment of Fractions of Shares:** the amounts resulting from the fractions of shares will be made available to the shareholders as follows:

- a) to shareholders whose shares are deposited in the Company and with their registration and banking data up to date, through a credit to be made in the bank accounts at a Financial Institution appointed by them; and
- b) to those whose shares are deposited at B3, by means of the Institutions and/or Brokers that maintain their positions in custody.

Shareholders whose such data is not updated should seek a Bradesco Branch of their choice with their Individual Taxpayer's ID, their Identity Card and their proof of residence to update their registration data and receive the respective amounts to which they are entitled to.

- 2) change item “e” of Article 9 of the Bylaws, in order to adapt the term “Permanent Assets” to “Non-Current Assets”, according to the legislation in force;
- 3) change Article 21 of the Bylaws, pertinent to the term of office of the members of the Audit Committee, from five (5) to two (2) years, in order to standardize the term of office to the members of the Board of Directors and the Board of Executive Officers.

The new wording for the aforementioned statutory provisions are included in the Attachment Transcription of the consolidated Bylaws proposed and will be submitted for the approval of the Central Bank of Brazil.

All other information required by Article 11 of CVM Instruction No. 481/09 can be found in the Attachment Detailing the origin and rationale of the statutory amendments proposed and analysis of their legal and economic effects. Proposal for the overall Management compensation and social security amount

The Board of Directors of the Company hereby submits for your examination and approval a proposal for establishing the total compensation, social security funds and contributions to the INSS for the year 2019, in the total of up to R\$ 995,000,000.00, of which:

- a) R\$632,000,000.00, of which: (i) R\$515,918,367.35, as fixed and variable compensation;
- (ii) R\$116,081,632.65, as contributions to INSS, borne by the Company; and
- b) R\$363,000,000.00 to fund the management's pension plan.

The Company clarifies that:

- 1) In relation to the year 2018, the amount of the global compensation, social security funds and contributions to INSS is being increased by 31.8%.

The main indices justifying the increase proposed here are:

- the positive change of 50.9% in the market value of Bradesco, achieved in the last 2 years, considering that in 2018 there was no increase in compensation funds;
- the 30.2% increase in net income in the fiscal year 2018 compared to the year 2017;
- the 19.0% profitability achieved in 2018, which is the highest in recent years;
- the expectation of raising the guidance indexes disclosed for the year 2019 compared to 2018.

2) in view of the guidelines of the Superintendence of Relations with Companies of the Brazilian Securities and Exchange Commission - CVM, consolidated in Report No. 238/2018-CVM/SEP/GEA, Bradesco, henceforth, will consider the contributions to the INSS to be borne to the Company. The Company clarifies that, until then, it did not include this amount in the proposal regarding the overall compensation of the Management submitted to the Annual Shareholders' Meetings;

3) the values proposed above are consistent with the great experience of the Management and their high level of knowledge on the Company, considering that the majority has made its career in the Organization itself, as well as the need to retain talents in an increasingly competitive market;

4) it will be incumbent on the Remuneration Committee to continue assessing the corporate performance, the fulfillment of the objectives and the sustainability of the business, for the purpose of checking whether the results justify the distribution of the overall annual amount of the remuneration funds up to the limit proposed; and

5) pursuant to item "p" of Article 9 of the Bylaws, the Board of Directors will decide the distribution of the annual overall remuneration, including the one related to the pension plan, to its own members and to the members of the Board of Executive Officers.

For further details, check the [Attachment Information on the Management Compensation](#), according to Item 13 of Attachment 24 of CVM Instruction no. 480/09.

Proposal for the monthly compensation of the Fiscal Council's effective members

The Company's Board of Directors is submitting, for your examination and approval, proposal for the individual compensation of the effective members of the Fiscal Council, for the fiscal year 2019, established at R\$216,000.00/year, plus the individual amount/year of R\$48,600.00 corresponding to the pension contributions to the INSS borne by the Company.

Finally, Bradesco clarifies that the amount proposed for the compensation:

- 1) remained unchanged in relation to that which was approved in the Annual Shareholders' Meeting held in 2018. In compliance with the orientations of the Superintendence of Companies Relations of the Brazilian Securities and Exchange Commission – CVM, contained in the Report no. 238/2018-CVM/SEP/GEA, Bradesco, henceforth, will consider the amount corresponding to the contributions to INSS to be borne by the Company. The Company clarifies that, until then, it did not include in the propose regarding the overall compensation of the Fiscal Council submitted to the Annual Shareholders' Meetings;
- 2) meets the provisions of Paragraph Three of Article 162 of Law No. 6,404/76, which establishes that the remuneration for the Fiscal Council's members will be determined by the Shareholders' Meeting in which they are elected and that it cannot be lower, for each member in office, than ten percent (10%) of the monthly compensation that, on average, is attributed to each Officer as fixed compensation, without the payment, according to current legislation, of benefits, expense account and participation in the Company's profit sharing, or any other denomination; and
- 3) the alternate members are remunerated only when they replace the Effective Members, in the cases of vacancy, absence or temporary impediments.

Attachment 14 required by Article 14 of CVM Instruction No. 481/09, regarding the capital stock increase

1. State the amount of the increase and of the new capital stock

Increase of R\$8,000,000,000.00, raising the capital stock from R\$67,100,000,000.00 to R\$75,100,000,000.00

2. State if the increase will be carried out through: (a) the conversion of debentures or other debt securities into shares; (b) the exercise of the subscription rights or of the subscription warrant; (c) the capitalization of profits or reserves; or (d) the subscription of new shares

Increase through the capitalization of part of the balance of the "Profit Reserve - Statutory Reserve" Account, in accordance with the provisions of Article 169 of Law No. 6,404/76, with a bonus of 20% in shares.

3. Explain in detail the reasons for the increase and its legal and economic consequences

The Capital Increase aims to increase the liquidity of the shares in the market, considering that a greater amount of outstanding shares may generate a growth in the business, may enable an adjustment in the shares price, making the unit price more attractive and accessible to a larger number of investors and also improve the compliance of the profit reserve's balance with the legal limits.

The operation will produce:

legal effects solely by virtue of the assignment of ownership of 2 new shares to each 10 shares of the same type previously held, getting preserved the ownership of all shareholders, without distinction; and

economic effects arising from the increment of 20% in the total amount of interest on shareholders' equity and/or dividends paid monthly, benefiting proportionally all shareholders. Will be held the monthly amount of interest on shareholders' equity and/or dividends per share, by changing the total amount due to the greater number of shares issued and received by the shareholders due to the bonus stock.

4. Provide a copy of the Fiscal Council's opinion, if applicable

Full transcription of the Fiscal Council's Opinion registered in Special Meeting of mentioned Body, held on February 7, 2019: "**Fiscal Council's Opinion - Banco Bradesco S.A.** The undersigned, members of the Fiscal Council of Banco Bradesco S.A., according to the provisions in Section III of Article 163 of Law No. 6,404/76, proceeding with the examination of the Board of Directors' Proposal to increase the capital stock by means of capitalization of reserves with 20% bonus stock and the consequent amendment to the "caput" of Article 6 of the Bylaws, registered in the Special Meeting, of said Body, held on this date, opine that the proposal will be analysed by the shareholders of the Company that meet in the Special Shareholders' Meeting to be held on March 11, 2019, at 4 p.m. Cidade de Deus, Osasco, SP, February 7, 2019. ss) Ariovaldo Pereira, Domingos Aparecido Maia, José Maria Soares Nunes, João Carlos de Oliveira and Walter Luis Bernardes Albertoni."

Legal and economic effects derived from the statutory amendment

The proposed amendment of the "caput" of Article 6 of the Bylaws arises from the capital stock increase of Bradesco through the capitalization of existing profit reserves and subsequent issuance of shares that shall be allocated free of charge to the shareholders, as a bonus, at a ratio of 2 new shares for every 10 shares of the same type that they hold on the base date. The Management of Bradesco foresees that the mentioned statutory amendment will produce:

ü **legal effects:** solely by virtue of the assignment of ownership of two (2) new shares to each ten (10) shares of the same type previously held, getting preserved the ownership of all shareholders, without distinction; and

ü **economic effects:** arising from the increment of 20% in the total amount of interest on shareholders' equity and/or dividends paid monthly, benefiting proportionally all shareholders. Will be held the monthly amount of interest on shareholders' equity and/or dividends per share, by changing the total amount due to the greater number of shares issued and received by the shareholders due to the bonus stock.

With respect to other statutory amendments:

1) in item "e" of Article 9, to amend the term "Permanent Assets" to "Non-Current Assets", according to the legislation in force;

ü **Legal and/or economic effects are not expected**, once the amendment is only an adaptation to the terms of Law No. 6,404/76, updated by Law No. 11,941/09;

2) in Article 21, change the term of office of the members of the Audit Committee from five (5) years to two (2) years, in order to standardize the term of office of the members of the

Attachment 14 required by Article 14 of CVM Instruction No. 481/09, regarding the capital stock increase 50

Board of Directors and the Board of Executive Officers.

ü **Legal and/or economic effects are not expected**, once the amendment is just to adapt the term of office currently practiced for the Company's Management.

10. In relation to the mandatory dividend

a. Describe the method of calculation provided in the Bylaws

The method of calculation is provided in the Articles 26 and 27 of the Bylaws, transcribed as follows:

“Article 26) Balance sheets will be prepared at the end of each semester, on June 30 and December 31 of every year. The Board of Executive Officers, subject to the approval of the Board of Directors, may determine the preparation of balance sheets for shorter periods of time, including monthly balance sheets.

Complementary Information

Article 27) The Net Income, as defined in Article 191 of the Law No. 6,404/76, accounted at every six-month or in the annual balance sheet will be allocated in the following order:

I. constitution of the Legal Reserve;

II. constitution of the Reserves set forth in Articles 195 and 197 of the aforementioned Law No. 6,404/76, subject to a proposal of the Board of Executive Officers, approved by the Board of Directors and resolved by the Shareholders' Meeting;

III. payment of dividends, proposed by the Board of Executive Officers and approved by the Board of Directors, which, added to interim dividends and/or interest on shareholders' equity referred to in Paragraphs One and Two of this Article, given that they are declared, guarantee to the shareholders, at every fiscal year, as a mandatory minimum dividend, thirty percent (30%) of the respective net income, adjusted by the decrease or increase of the amounts specified in items I, II and III of Article 202 of mentioned Law No. 6,404/76.

Paragraph One - *The Board of Executive Officers, subject to the approval of the Board of Directors, is authorized to declare and pay interim dividends, especially semiannual and monthly dividends, resulting from Retained Earnings or existing Profits Reserves.*

Paragraph Two - *The Board of Executive Officers may, also, subject to the approval of the Board, authorize the distribution of profits to shareholders as interest on own capital, pursuant to specific legislation, in total or partial substitution of interim dividends, whose declaration is permitted by the foregoing paragraph or, further, in addition thereto.*

Paragraph Three - *Any interest eventually paid to the shareholders will be imputed, net of withholding income tax, to the mandatory minimum dividend amount for that fiscal year (30%), in accordance to Section III of the "caput" of this Article."*

Information on the Management Compensation and Monthly Compensation of the Effective Members of the Fiscal Council, in the terms of Item 13 of Attachment 24 of CVM Instruction No. 480/09

13.1 - Description of the policy or compensation practice, including the Non-Statutory Board of Executive Officers

a) Objectives of the policy or practice of compensation informing if the compensation policy was formally approved, responsible body for its approval, approval date and, if the issuer disclose the policy, sites on the world wide web of computers where the document can be consult

In 2012, Bradesco amended its compensation policy for managers, being approved by the Board of Directors in Special Meeting of February 6, 2012, in order to reflect the objectives established by Resolution No. 3,921/10 of the National Monetary Council (CMN), which caused, from that year on, the payment of part of the amount approved in the Annual Shareholders' Meeting as variable compensation. Its policy aims at:

- ensuring that the compensation practice is in accordance with the law, rules and regulations that govern the matter, based on the Manager's duties, which result from the positions they hold and functions they perform; time dedicated to their functions; in competence and professional reputation, in view of their experience and qualification; and in the value of their services in the market;

Complementary Information

- providing alignment between compensation practices for the Management and the Organization's interests, so that the decisions made are the best possible, seeking to create value for its shareholders and investors; and
- ensuring that the compensation practice is related to objectives that seek the valuation of the Organization, not encouraging behaviors that increase the risk exposure above levels considered prudent for the strategies adopted for the short, medium and long terms.

The Policy of Compensation is available on site:

https://www.bradesco.com.br/siteBradescoRI/Paginas/governancacorporativa/141_estatuto-politicas

b) Composition of compensation, indicating:

i. description of the compensation elements and objectives of each one of them

a) Board of Directors and Board of Executive Officers

The compensation of the members of the Board of Directors and of the Board of Executive Officers consists of Fixed Compensation, represented by Monthly Compensations fixed for the duration of their term, and Variable Compensation, based on target criteria and performance indicators, attributed according to the criteria of multiple Monthly Compensation, up to the limit authorized by the Shareholders' Meeting.

In addition, annually, a proposal is submitted to the approval of the Shareholders' Meeting to fund the Pension Plan for Managers, the amounts of which are shown in item 13.2, as post-employment benefits, which aims to ensure the commitment of managers to the present and future development of the Company's activities, that is, its operations focusing on business perpetuity and long-term value generation.

Pursuant to Circular Letter CVM/SEP/No.002/18, we are indicating in item 13.2, in the years 2018, 2017 and 2016, the amounts corresponding to social security contributions (INSS) paid by Bradesco and recognized in its results.

b) Fiscal Council

The compensation of the Effective Members of the Fiscal Council is fixed by the Shareholders' Meeting in which they are elected and they cannot be lower, for each member in office, to ten percent (10%) of the monthly compensation that, on average, is attributed to each Officer, as fixed compensation, without, under current legislation, the payment of benefits, expense account and participation in the Company's profit sharing, or any other denomination.

c) Audit Committee

The compensation of the Members of the Audit Committee is represented by fixed monthly payments for the term of his term of office, with the exception of a member which only receives remuneration as a member of the Board of Directors, and aims at rewarding the contribution of each member for acting on advising the Board of Directors in the performance of its attributions related to the follow up of the accounting practices adopted in the preparation of the Company's financial statements and of its subsidiaries, as well as in the process of appointing and evaluating the effectiveness of the independent audit.

Complementary Information

Another important factor in the definition of the compensation is that the Committee's members must have high technical qualification so as to exercise their position and at least one of them must have proven knowledge in the areas of accounting and auditing of financial institutions which qualify him to exercise his function, proving the high degree of expertise required from them, including by the regulatory bodies.

d) Remuneration Committee

The Remuneration Committee, defined in the Bylaws, is composed by members chosen among the members of the Company's Board of Directors and also, as required by the Resolution No. 3,921/10 of CMN, by one (1) non-manager member. The members of the Board of Directors and the non-manager member, when an employee of the Bradesco Organization, are not compensated due to the position of member of the Remuneration Committee. While being a non-employee, when nominated, the member has his/her compensation set by the Board of Directors, according to the market parameters. No Manager of the Bradesco Organization is remunerated for the functions that they exercise in Bradesco Organization committees.

e) Other Committees

The members of the other committees are remunerated only for the duties they perform in the management bodies or executive areas in which they act in Bradesco Organization. No Manager of Bradesco Organization is remunerated for duties that they perform in the referred committees.

ii. Regarding the last three fiscal years, what is the proportion of each element in the total remuneration

The Managers' compensation is comprised of Fixed Compensation, represented by Monthly Compensations established according to the duration of their term, and Variable Compensation awarded according to the criteria of multiple Monthly Compensations, based on target criteria and performance indicators, up to the limit authorized by the Shareholders' Meeting.

We highlight that the proportion/percentage of each element in the total compensation is not established, and it can be changed annually.

iii. methodology for calculating and adjusting of each component of the compensation

Board of Directors and Board of Executive Officers

- **Fixed Compensation or Monthly Compensation:** monthly fixed compensations established for the period of the Manager's term.
- **Variable Compensation:** amount attributed to the Managers, as performance compensation, in addition to the Fixed Compensation, based on the target criteria and performance indicator. It is important to highlight that the total Variable Compensation will be paid on a date to be defined by the Board of Directors, and 50% of the net value of the Variable Compensation will be allocated for the purchase of PNB shares issued by BBD Participações S.A. (PNB BBD Shares) and/or preferred shares issued by Bradesco (Bradesco preferred shares), which are filed and unavailable ("Restricted Shares"). The Restricted Shares become available in three (3) equal, annual and successive installments. The first installment

will expire one year after the date of the acquisition of shares.

Complementary Information

- **Overall amount:** includes the total compensation (fixed compensations and variable compensation).

To determine the overall amount for compensation, Bradesco Organization observes the following criteria:

1. **Bradesco Organization's Remuneration Committee:** proposes to the Board of Directors the Overall Amount for compensation (Monthly Compensation and Variable Compensation). The payment of Variable Compensation will observe the target criteria and performance indicators to be established and will be limited to Overall Amount, to be distributed to the Managers).

To define the Overall Amount for compensation (Monthly Compensations and Variable Compensation), the Remuneration Committee shall observe the following aspects:

- size and result of the company comparing to its competitors;
- domestic and international economic conditions, taking into consideration the past, present and future scenarios;
- internal and external factors that may affect the Bradesco Organization's businesses (current and potential risks); and
- Bradesco Organization's Overall performance, involving the recurrent income realized and the capacity to produce cash flows.

The Remuneration Committee will use other indicators when deem necessary and suitable. In addition, it will use studies, evaluations, surveys and other materials prepared by the technical areas, such as DEPEC – Department of Research and Economic Studies, DPOC – Department of Planning, Budget and Control, General Accounting Department and DCIR – Integrated Risk Control Department, besides other areas it deems appropriate.

2. **Board of Directors:** the most important management Body of the Bradesco Organization, it must evaluate the Remuneration Committee proposals and resolve on them.
3. **Shareholders' Meeting:** it is incumbent on the Shareholders' Meeting to approve the Overall Amount for the compensation of the Company.

Once all the steps to determine and approve the Overall Amount for compensation are fulfilled, it is incumbent on the Board of Directors of Bradesco to establish the compensation of each one of the Managers, comprised by Monthly Compensation and, based on the fulfillment of the target criteria and indicators, Variable Compensation.

Audit Committee

The process to calculate and readjust the Audit Committee's compensation starts in the Remuneration Committee.

The Board of Directors, on its turn, evaluates the recommendations and proposals of this Committee and defines the amount of compensation for each Committee's member.

iv. reasons that justify the composition of compensation

The compensation structure of Bradesco's Managers, composed by Fixed Compensation (Monthly Compensation) and Variable Compensation (multiple fixed Compensations), in consonance with the guidelines established in its Managers' Compensation Policy, whom takes into consideration the requirements of CMN Resolution No. 3,921/10, and, additionally, the post-employment benefit in Additional Pension Plan, aim to align the managers interests with the Bradesco projects and results.

Besides, the composition of the compensation and the post-employment benefit are based in the management alignment with the results and short, medium and long terms risks of the Company, as well as justifying themselves as a mean to maintain high quality managers and notorious knowledge in the Bradesco staffs.

v. existence of non-remunerated members by the issuer and the reason for this fact

Not applicable.

c) main performance indicators that are taken into consideration in determining each component of compensation

Corporate Assessment Process

The uniformity in the treatment of work areas is one of the keys for the Bradesco Organization's effectiveness, as a manner to inhibit the individualism, maintaining a good work environment favorable for teamwork.

The Organization maintains a collegiate management culture, in which all relevant decisions, business or administrative ones, are made by committees composed, primarily, by Managers.

Thus, even with the establishment of goals and objectives for all areas, individually, for purposes of compensation, prevails the Overall performance of the Organization, making no segregation of area, if it is considered as area of business or support, technical or relationship.

This overall performance, denominated in the Corporate Rule as Corporate Assessment Process takes into consideration the outcome of performance indicators, as follows:

- ROAE – Return on Equity – Adjusted;
- Overall Customer Satisfaction Index;
- Basel Index – Level 1;
- Operating Efficiency Ratio (OER);

- Social and Environmental Dimension of Market Indexes; and
- Coverage Index.

Individual assessment process

The individual performance of the Managers, as well as their corresponding areas, is accompanied by their respective superiors, according to the formal evaluation process, in compliance with the requirements of CMN Resolution No. 3,921/10.

Complementary Information

For the formal assessment process, specific indicators are defined for areas and for individual assessment, according to the Managers' functions, taking into account the areas for business, controls, and other supporting area.

For the assessment of areas, at least the following groups of indicators are considered:

- a) main activity actions: are indicators that suggest the goals and objectives of the main activities of the area;
- b) actions focused on operational efficiency: are indicators that measure the operating efficiency, in order to maximize their results with minimum use of resources;
- c) actions directed to risks management: are corporate indicators that measure exposure to risk and the internal controls, properly monitored by the responsible Area (Integrated Risk Control Department – DCIR);
- d) actions directed to customer service: are indicators that assess the results/levels of satisfaction of internal and/or external customers; and
- e) actions directed to environmental aspects: are indicators that assess the degree of compliance of the objectives of the area to environmental aspects.

For individual assessment, at least the following indicators are considered:

- a) quality of the products/services: aims to evaluate the quality standards of products/services offered/rendered according to the area of the Manager assessed;
- b) commitment to strategy: aims to evaluate if its performance reflected positively with material contributions to the Strategic Planning in the period;
- c) participation in collegiate decisions: aims to evaluate the active participation in meetings and committees, with opinions that contributed to the submitted decisions;
- d) leadership team: evaluates the team management process;
- e) planning: assesses the ability to plan the activities of their area in the medium and long term;
- f) overview: evaluates, mainly, the Managers' vision about future trends to meet the demands of the market; and
- g) applies to the Board of Directors and its respective members, if suitable, the indicators listed above.

The performance assessment of Managers in the areas of internal control and risks management must be based on the achievement of the objectives of their own functions and not specifically in the overall performance of the Organization. The Integrated Risk Control Department – DCIR and the General Inspectorate Department – IGL are considered areas of internal control and risk management in the context of the Bradesco Organization, as well as the related areas of other companies of the Bradesco Organization.

d) how compensation is structured to reflect the evolution of performance indicators

[Voltar ao índice](#)

Página 63

Complementary Information

It is up to the Board of Directors, after completion of all stages of definition and approval of the Overall Amount, to set the value of the compensation for each one of the Managers, in compliance with the following rules:

- i. uniformity of compensation among members of the same hierarchy (office), or differentiation as a result of the time in that position, experience, academic background or other difference that the Board of Directors deems appropriate;
- ii. part of the Overall Amount approved will be distributed in fixed equal monthly installments during the term of office of the Manager, subject to the provisions above, called Monthly Compensation; and
- iii. the remaining part of the Overall Amount may be distributed as Variable Compensation, upon proposal of the Remuneration Committee, which shall comply with established target criteria and performance indicators.

Based on the assessment and proposal of the Remuneration Committee, the Board of Directors shall define the amount of the Variable Compensation that will be paid to Managers, which will correspond to equal multiples of the Monthly Compensation that each Manager is receiving at the date of the resolution for the payment of Variable Compensation.

e) how the compensation policy or practice is in line with the issuer's short, medium and long term interests

One of the guidelines of the Managers' Compensation Policy is ensuring that the practice of compensation is related to goals that value Bradesco Organization and the individual, not encouraging behaviors that increase the exposure to risks above the levels considered prudent in the strategies of short, medium and long terms adopted by the Bradesco Organization.

As a result, by means of the payment of the fixed compensation, Bradesco seeks, in the short term, to align the interests of its managers to its.

Aiming to encourage the alignment of medium term interests, Bradesco can realize the payment of variable compensation to its managers, according to item 13.1.d.iii of the Reference Form, that will be deliberated after the verifying of the satisfaction of the specific indicators.

The payment of variable compensation will be realized upon receipt of fifty percent (50%) in cash and fifty percent (50%) destined to the acquisition of preferred shares issued by Bradesco or PNB shares issued by BBD Participações S.A. (company belonging of Bradesco control group), which are recorded and unavailable ("Restricted Shares"), becoming available in three (3) equal, annual and successive installments.

The Restricted Shares detained by the Managers are subject to adjustments in case of a significant reduction of the Recurring Profit made, or in the occurrence of negative financial result of the Company, during the deferral period.

In addition, the Pension Plan of the Managers constitutes a form of ensuring their performance focused on business perpetuity and on long-term value generation for the Company. This process links the managers to a cautious management and in consonance with the long term risks, leading to an increase in the amounts distributed to shareholders of the Company.

g) existence of any compensation or benefit related to the occurrence of certain corporate event, such as the sale of the corporate control of the issuer

Not applicable.

h) practices and procedures adopted by the board of directors to define the individual compensation of the board of directors and board of executive officers, indicating:

i. the issuer's bodies and committees that participate in the decision-making process, identifying how they participate

The governance structure responsible for managing and ensuring compliance with the Remuneration Policy is exercised by the following Bodies and their attributions:

- **Bradesco Organization's Remuneration Committee**, (i) analyzes the results of the performance evaluation, in order to propose the payment of Variable Remuneration for resolution by the Board of Directors; (ii) proposes to the Board of Directors the Global Amount of the remuneration (Monthly Fee and Variable Remuneration) to be distributed to the Managers of each company of the Organization; and (iii) proposes to the Board of Directors the payment of Variable remuneration to the Directors of each company of the Organization.
- **Board of Directors**, evaluates the proposals of the Compensation Committee and resolve on them.
- **General Meeting of Shareholders / Meeting of Quotaholders**, approves the Global Amount of the company's remuneration.

ii. criteria and methodology used for the determination of individual remuneration, indicating whether studies are used to verify market practices and, if so, the criteria for comparison and the scope of such studies.

The guidelines established in the Remuneration Policy are in compliance with the legislation, rules and regulations that govern the subject, observing the following rules:

- ensure the establishment of remuneration practice for all Managers of the Organization, which includes the Members of the Board of Directors and Board of Executive Officers, maintaining the uniformity of remuneration among the members of the same hierarchy (position), and there may be differentiation as a result of time in the position, experience, academic formation or other differential that the Board of Directors deems appropriate. 13.16 - Other relevant information**a) Increase in the remuneration of managers**

At the Shareholders' Meeting held on March 10, 2017, the increase in the amount of compensation (fixed and variable) by 36% (thirty-six percent) was approved, as well as to fund the pension plan for managers.

The proposal for the increase of the remuneration of the managers, both fixed and variable, was submitted to and approved by the shareholders, with the purpose of recovering the effects of accumulated inflation between 2011 and 2016.

In fact, since 2011, these funds had not changed, although, in the period from March/2011 to December/2016, the accumulated inflation calculated by the INPC was 47.6%.

That is, the Company's shareholders approved a 36% increase in the overall amount of fixed and variable compensation and the pension plan, in a percentage lower than the amount of inflation calculated since the last change in management compensation.

10.1 – General Financial and Equity Conditions

Officers should comment:

a) general financial and equity conditions

We understand that Bradesco has all financial and asset conditions to ensure the compliance with obligations, guaranteeing the business expansion in the short- and long-terms.

Our analysis is based on information from the last three managerial financial statements on the balance sheet date, as follows:

2018

The uncertainties of the economic agents increased volatility in the global and domestic financial markets in 2018. Themes such as commercial discussions, standardization of the US monetary policy and geopolitical risks were on the radar, affecting the prices of assets of emerging countries. Brazil, despite the good foundations of its external accounts, was influenced by this adverse international environment. Even though the annual expansion of the Brazilian economy has remained on a very close level to the one observed in 2017, the recovery was more disseminated, both sector and regional based.

Looking ahead, the Country is in a cyclic position favorable to the faster growth pace, including more beneficial financial conditions. Inflation and interest at a lower level, unleveraged families and companies, low levels of delinquency ratios and space for the demand expansion, are favorable vectors for a more intense growth in 2019, which may be boosted at the recovery of the structural reform agenda, with positive impacts over the confidence of businessmen and consumers.

We evaluated that there are indicators to boost employment, income, credit and investments, as the maintenance of the credible and sustainable economic policies should avoid inflationary pressures originating from this recovery. It is fundamental, therefore, for Brazil to advance in its agenda, comprising macro and microeconomic aspects, preparing for an international environment that should remain challenging in the coming quarters.

The Recurring Net Income attributable to shareholders was R\$21.564 billion in the fiscal year, equivalent to R\$3.22 per share and equivalent to an annualized profitability of 19.0% over the average Shareholders' Equity. The return on Average Total Assets was 1.6% in the year. Shareholders' Equity amounted to R\$121.121 billion and the total of the adjusted assets stood at R\$1.386 trillion.

Loan operations

We continuously monitor the portfolios and keep our policy up to date and in line with the current economic situation. We are expanding and diversifying supply in various channels of distribution, especially, complemented by the Branch Network and the Banking Correspondents. Our capillarity allows the achievement of loans and direct financing or in strategic partnerships with the various business chains.

The consumer credit is one of the modalities with larger representativity in the Bank's portfolio, contributing to the growth of many production chains among small, medium and large businesses. Highlighted in the portfolio are personal loans, payroll-deductible loans, real estate financing and credit cards.

The following are comments about our key indicators:

I) **Basel Ratio**

Brazilian financial institutions are subject to methodology for capital metrics and levels based on a risk-weighted asset index. The parameters of this methodology resemble the international framework for minimum capital measurements adopted for the Basel Accord. Starting in October 2013, the implementation of a new capital structure began in Brazil. The Central Bank of Brazil (Bacen), through CMN Resolution No. 4,192/13, set out the new methodology for calculating the Capital ("*Patrimônio de Referência*"), superseding CMN Resolution No. 3,444/07. Since then, the Capital started being calculated based on CMN Resolution No. 4,192/13, which determined that the elaboration be made based on the "Prudential Conglomerate", as per January 2015.

Complementary Information

The composition of our Basel Ratio is shown below:

The growth of the capital indexes, in the comparative between 2018, 2017 and 2016, is related to the strong generation of capital (net income), which positively exceeded the impacts of the prudential adjustments, defined in Resolution No. 4,192/13, which gradually went from 60%, in 2016, to 80%, in 2017 and, reached 100% in 2018. In addition, in 2018, we issued perpetual subordinate loans, in the sum of R\$4.2 billion to compose the complementary capital in tier I and subordinated debts for the re-composition of the capital of tier II, in both cases, approved and authorized by the Central Bank of Brazil.

II) Operating Efficiency Ratio (ER) and Operating Coverage Ratio

Página 88

Complementary Information

Operating Efficiency Ratio (ER)

With the goal of improving our indicators, in 2018, we changed the methodology of calculation of the ER⁽¹⁾. In 2018, compared to 2017, the evolution of revenues with the net interest income, the higher revenues from the provision of services and the higher result of insurance, pension and capitalization operations, positively influenced this indicator. The performance between 2017 and 2018 was impacted by the higher constitution of tax provisions and increment of the tax expenses.

Comparing 2016 and 2017, the ER showed an increase of 1.9 p.p. due, mainly, to the increment of the operating expenses (staff and administrative) in the period, impacted by the effect of the consolidation of HSBC Brasil, which occurred from the third quarter of 2016. It is important to note the growth of revenues arising from the provision of services, resulting from the increase in the volume of business and services rendered and the higher result of

insurance, pension and capitalization operations, which presented significant growth in the period.

Operating Coverage Ratio

In the comparison between 2018, 2017 and 2016, the operating coverage ratio showed sequential improvement, a reflection, mainly of the increase in fees and commission income, coupled with the ongoing efforts to control expenditure, including actions of the Efficiency Committee and actions to expand the offer of products and services to the entire customer base.

In 2018, the movement of improvement, which demonstrates the increase of 2.7 p.p. in this indicator, highlights the benefits captured by PDVE, synergy gains arising from the incorporation of HSBC Brasil and the strategy for optimizing costs and points of service, in addition to the major contributions arising from the revenue from fee and commission income, which have been registering the positive results of the process of segmentation of clients and the efficiency obtained in the management and offer of products and services.

III) Main loan portfolio indicators

Delinquency Ratio > 90 days ⁽¹⁾

[Voltar ao índice](#)

Página 89

Complementary Information

⁽¹⁾ Concept defined by the Central Bank of Brazil.

The delinquency ratio, including operations with delinquency exceeding 90 days of the total portfolio, maintained the downward trend observed during 2017 and 2018, reflecting the better quality of the new captures and adjustments in the loan concession and recovery processes. Since the peak of total delinquency in March 2017, the ratio presents a decrease of 2.1 p.p.

All the portfolios showed improvement in the ratio since the beginning of 2018, with emphasis on the improvement recorded in the segments of micro, small and medium-sized businesses and of individuals that showed reductions in the balance of their delinquent loans, in 2017 and 2018.

Coverage Ratios

Complementary Information

Our coverage ratios (60 days and 90 days) showed an improvement for the seventh quarter in a roll, reaching very satisfying levels. Our level of provisioning concerning the loan portfolio reflects the quality improvement of our operations and because of the improvement of the models of provisioning, which are based on statistical models that capture historical, actuarial and prospective data. In December 2018, we highlighted a decrease of 17% in our operations past due of 60 and 90 days, in relation to December 2017.

Complementary Information

b) capital structure

Analyzing the tables below, we understand that the Bank's current capital structure is adequate and consistent with our business expansion strategy. The largest funding source for its operations is from third-party capital.

Over the last three years, Bradesco has kept its proportion of capital held by third parties at around 91.7%, which is seen as a normal level for institutions in the financial intermediation business.

c) capacity to pay financial commitments

We understand that the operations stated in the balance sheet at the periods stated below, evidence that we has a comfortable liquidity margin to comply with its short-term liabilities. It is worth mentioning that Bradesco's asset and liability management policy is regularly reviewed to ensure sufficient liquidity to honor withdrawals, deposits, repay other obligations at maturity, extend loans or other forms of credit to the customers and meet its own needs of working capital for investment.

d) *financing sources used for working capital and investments in non-current assets*

We highlight below the main sources of working capital and investments in non-current assets for the last three fiscal years:

Deposits

In 2018, the deposits correspond to 48.2% of our total primary funding sources, which consist in time deposits and savings accounts with interest, deposits at sight, on which no interest is levied, both expressed in Brazilian reais, and interbank deposits.

In the comparison between December 2018, 2017 and 2016, the deposits showed evolution, mainly due to new business opportunities offered to clients, in virtue of interest rate oscillations occurring in the period, in addition to the increase in the customer base. We highlighted effects of adequacy to Resolution No. 4,527/16, which changed the way of using these securities issued by institutions linked to the conglomerate, as guarantees in committed transactions, mainly impacting the balance of debentures, with a consequent effect on the balances of time deposits.

Borrowing and Onlending

In December 2018, the borrowing and onlending balance presented an evolution regarding the balance of December 2017, due to the larger volume of funds raised abroad and the exchange rate variation that presented an evolution of 17.13% in the period.

In the comparative between December 2017 and 2016, the reduction shown refers to a smaller volume of funds raised by borrowing and onlending in the country, mainly by means of Finame operations; and funds raised abroad.

Funds from securities issued

The increase in the resources from the issuing of securities, in the comparative between the balances of December 2018 and 2017, mainly due to the evolution of the financial bills, with an increase of 11.2% and an agribusiness loan letter, with an increase of 19.5%. We also emphasize that in 2018 we raised securities from secured real estate, which are secured by the real estate loan portfolio, in accordance with the requirements established by BACEN

Resolution 4,598 / 17.

[Voltar ao índice](#)

Página 94

Complementary Information

In the comparative between December 2017 and 2016, the reduction of 10.5%, resulted mainly from the lower volume of bonds and the reduction in the balance of operations abroad.

Subordinated Debt

The variations presented in the balances of December 2018, 2017 and 2016 in the subordinate debts, reflect the issuing / maturities of debts in the periods.

e) financing sources for working capital and investments in non-current assets that it intends to use to cover liquidity deficits

As sources of financing for working capital and for investments in non-current assets used to cover liquidity shortfalls, we may use the following resources: (i) Deposit Raising; (ii) Loans; (iii) Issuance of Securities; (iv) Subordinated Debt; and (v) Injection of Capital by the controlling shareholders. Management may also use alternatives such as: (i) to redeem resources invested in assets that are not classified as liquidity; (ii) To assign credit operations; (iii) To encourage the raising of funds, as a time deposit and committed to private securities; (iv) Define parameter to interrupt quotation / lending.

In some limited circumstances, we may obtain emergency funds from the Central Bank through a transaction referred to as “discount”. A discount is a loan from the Central Bank to a financial institution, that loan being guaranteed by Federal Government securities owned by the financial institution. The amount of Federal Government securities held by the financial institution as trading securities limits the amount of discount transactions. Bradesco never entered into discount transactions for liquidity purposes.

f) indebtedness ratios and the characteristics of the debts, also describing: (i) relevant loan and financing agreements; (ii) other long-term relationships with financial institutions; (iii) level of subordination between debts; (iv) any restrictions imposed on the issuer, in particular in relation to limits for indebtedness and contracting new debts, to the distribution of dividends, disposal of assets, issue of new securities and disposal of shareholding control, as well as if the issuer is in accordance with the restrictions.

There are no loan and financing agreements or long-term relationships with financial institutions that we believe are relevant for Bradesco.

Página 95

Complementary Information

Financial institutions are subject to operating limits defined by the National Monetary Council and the Central Bank of Brazil for operating, according to provisions of the regulations in force, particularly Law No. 4,595/64, which sets forth the National Financial System.

Among the limits defined, noteworthy are as follows (i) Capital consistent with the risks of its activity, (ii) fixed assets, which limits to 50% of the Capital amount the total funds invested in Permanent Assets, (iii) exposure by costumer, which sets forth the maximum limit of 25% of the amount of Capital of exposure by costumer, (iv) exposure in gold, foreign currency and in operations subject to foreign exchange variation, limited to 30% of the Capital amount, and (v) minimum limits of realized capital and shareholders' equity for operating.

Rules also bar financial institutions from carrying out certain operations, and noteworthy are as follows: (i) granting loans or advances to related companies, managers and relatives, and (ii) acquiring real estate not intended for own use.

g) limits of contracted financing and percentages already used

There are no limits of contracted financing.

h) significant changes to each item of financial statements

We understand that Bradesco has all financial and asset conditions to ensure the compliance with obligations, guaranteeing the business expansion.

We present below comments on the items the Officers believe are important and relevant, stated in the Balance sheet and Statement of Recurring Income.

Complementary Information

Consolidated Managerial Balance Sheet Adjusted

In relation to significant changes in consolidated managerial balance sheet adjusted items, the table below compares the most significant events in 2018, 2017 and 2016.

In December 2018, the total assets reached R\$1.386 trillion, showing an evolution of 6.8% in comparison to December 2017. This increase was driven by the growth of 6.2% of the Loan Operations and the increase of 3.7% in the available funds, cash and banks, short-term interbank investments and securities, which together represent 56.5% of the total assets.

The Loan Operations showed a positive performance in the comparative between December 2018 and 2017. In the loans allocated to individuals, with emphasis on operations related to consumer finance (personal loans, payroll-deductible loans, vehicles and credit card) and real estate financing. In legal entities, the highlight is for export financing and CDC/ *Leasing* operations. Between December 2017 and 2016, the reduction in operations was due to the reduction in operations with legal entities, which reflected mainly in the drop in operations abroad, of working capital and BNDES/Finame onlending; offset by the increase of loans to individuals that grew in the period, with emphasis on the products of payroll-deductible loans, real estate financing and CDC vehicles.

The balance of other loans and values and assets in the comparative between December 2018 and 2017 presented an evolution due to an increase in the balance of securities of accounts receivable, to the largest volume of operations with credit cards and taxes and contributions to offset. Between December 2017 and 2016, the evolution refers essentially to the increase in debtors for escrow deposits, taxes and contributions to offset and securities of accounts receivable.

Complementary Information

The technical reserves for insurance, pension plans and capitalization showed growth, in the comparative between the balances for 2018, 2017 and 2016, mainly due to the increase in pension products, which grew by 4.6% between December 2018 and 2017 and 11.6% between the balances of 2017 and 2016. It should be noted our market share in the technical provisions for insurance, pension plans and capitalization that in 2018 was 25, 8% (November data).

The increase in the balance of other obligations, in the comparative between December 2018 and 2017, is related to the increase in the volume of subordinate debts and higher miscellaneous provisions for contingent liabilities. Between December 2017 and 2016, the reduction in the balance refers, substantially, to the reduction of operations with credit cards and the volume of subordinate debts, which showed a reduction of 4.6% in comparison to December 2016.

The main sources of funding (deposits, debentures, borrowing and onlending resources, funds from the issuing of bonds and subordinate debts), were discussed in item 10.1 d).

Statement of Recurring Income

During the periods, certain non-recurring events were recorded in our financial statements in order to allow a better understanding, comparability and analysis of our performance, we have adjusted our statement of income after excluding such events, thus resulting in what we refer to as statement of recurring income.

(1) In 2018 the following are composed, substantially, by impairment of: (i) software, in the amount of R\$212 million; (ii) goodwill on investments, in the amount of R\$59 million; (iii) real estate, in the amount of R\$33 million; and (iv) hardware/equipment, in the amount of R\$19 million;

(2) Provision fully reversed in accordance with SUSEP Circular No. 517/15 and its changes; and

Complementary Information

We present below the financial information for the fiscal years 2018, 2017 and 2016. It should be noted that all the results, in 2016, were impacted by the effect of the consolidation of HSBC Brasil, which began in the third quarter of 2016. In addition, in the first quarter of 2018, the expenses with impairment of Financial Assets (operations with loan characteristics, in the expanded concept, in its majority composed of debentures) previously highlighted as an item of the Net Interest Income, were reclassified to the expense of "Expanded ALL", which includes, in addition to the ALL expense, loan recovery and discounts granted. Now the expenses with impairment of Financial Assets without the characteristic of a loan, in the expanded concept, remained in the net interest income, specifically in the "Net Interest Income - Non Interest". For best effect of comparability, the periods of 2017 and 2016 were reclassified.

Complementary Information

Our return on average shareholders' equity (ROAE) has been growing and, in 2018, reached 19.0%. Our return on average assets also progressed, reaching 1.6% in 2018.

Our recurring net income in the comparative between 2018 and 2017 reflects the good performance of the operating income, which was driven by the behavior of expenditure with Expanded ALL, which showed a significant reduction of 29.6%, even considering the growth of the loan portfolio in the period. In addition, we highlight the positive performance of revenues from the provision of services and the results with insurance, pension and capitalization operations, in addition to the behavior of operating expenses, which demonstrated the good direction and control of our spending. We also highlight the evolution presented by the net interest income, which includes the positive effects of the increase of the average volume of business, mainly by the evolution of operations aimed at individuals and the best result of the mix of products.

Now in the comparative between 2017 and 2016, the growth observed was due to the good performance of revenues from the provision of services and the results with insurance, pension and capitalization operations, as well as the behavior of expenditure with Expanded ALL, which contributed to offset the increase in operating expenses (staff and administrative) in the period.

Next we will comment on the main factors that influenced our lines of results in the comparative of the last three fiscal years:

Net Interest Income

In 2018, the performance of net interest income was impacted by the following factors:

- **Credit Intermediation** – the performance includes the positive effects of the average business volume increase, mainly because of the improvement of operations to individuals and the better results of the products' mix. These effects were impacted by the lower average spread, due to the higher competitive market dynamics.
- **Insurance** – the performance showed is largely due to the movement of the price indexes (IGP-M and IPCA), besides, it reflects the behavior of the interest rates.
- **ALM / Other** – the growth in the period is due to the gains of the operations of the treasury in the management of proprietary positions of assets/liabilities (ALM), highlighting the highest result of the fixed holdings and the expense reduction with certain funding operations.

In 2017, the net interest income decreased compared to 2016, reflecting the lower results obtained with the "Credit Intermediation" and "Insurance" margins, offset by the higher margins with "ALM / Others". Also worthy of note is the impact of the consolidation of HSBC Brasil, which began in the third quarter of 2016.

Complementary Information

Expanded ALL

In the comparative between 2018 and 2017, the strong decrease in the ALL expense (Expanded) is related to the quality improvement of the loan portfolio, a reflection of a better of procedures for loan concession and recovery and the quality of new yields, in addition to lower expenses with impairment of financial assets.

Now in the comparative between 2017 and 2016, the expense declined due to the strengthening of the policy and procedures for loan concession and of the quality of guarantees obtained, by the results of the improvement of the processes of loan recovery, which contributed to higher revenues from loan recovery in the period and by the improvement of the economic environment, with the reduction of the delinquency indicators. These factors contributed to offset the higher costs with impairment of financial assets in the period.

Income from insurance, pension plans and capitalization bonds

In the comparative between 2018 and 2017, the evolution reflects the improvement of the expense and claims ratios, highlighting the segments of "Health", "Life and Pension" and "Auto P&C". It is important to note that by the end of December 2018 the Liability Adequacy Test (TAP) did not have any effect on the result, since the higher value of securities held to maturity was greater than the need to complement the provision, according to Susep Circular No. 543/16.

In 2017, there was a growth in the income from insurance, pension and capitalization in relation to the previous year, due to the increase of 6.8% in revenues, reflecting mainly the performance of the products of "Life and Pension" (8.7%), "Health" (6.9%), and "Capitalization" (3.2%).

Fee and commission income

In 2018, the fee and commission income evolved in all of the lines, with emphasis on current accounts, cards, fund management, consortium, loan operations, and custody and brokerage. We highlight that the increase observed of the revenues derives from the largest volume of operations, driven by a greater supply of products and services, widely available in digital and traditional channels. The results also show signs of constant improvements in the management of the products and services portfolio, as well as with benefits of the process of segmentation of clients and the gains of synergies obtained with the incorporation of HSBC Brasil.

In the comparative between 2017 and 2016, the growth resulted from the increase in the volume of transactions, reflection of the advance of the process of segmenting customers, which generated a greater offer of products and services in the various service channels and the consolidation of HSBC Brasil, which occurred from the third quarter of 2016. This result was due to the good performance of the activity of cards, the result of the increase of the financial volume transacted and the higher number of transactions carried out; in addition to the evolution of revenues with: current accounts, fund management, management of consortium, collection, loan operations and custody services and brokerage.

Personnel expenses

In 2018, even considering the effects of the collective bargaining agreement for 2018/2019 (readjustment of 5%), the increase of expenditure with PLR and labor proceedings, our personnel costs evolved below inflation ratios, in relation to 2017.

In the comparative between 2017 and 2016, there was a growth in expenses justified by an increase in structural expenditure with earnings, social contributions and benefits, which were impacted by the effect of the consolidation of HSBC Brasil, which occurred from the third quarter of 2016 and by the increase of the wage levels, according to the collective bargaining agreements of 2016/2017; in addition to higher expenses with provision for labor proceedings.

It is worth noting that in July 2017, the Special Voluntary Dismissal Plan (PDVE) was launched, to which employees from the Organization who met the requirements set out in the regulation of the respective plan could join. The deadline for joining the plan expired at the end of August 2017, with the voluntary joining of 7,400 employees, with a total cost of R\$2.3 billion.

Administrative expenses

The increase in administrative expenses in 2018 stems from the growth in the volume of business and services, from higher expenses with advertising and publicity, arising out of the institutional positioning, and higher investments in technology, which impacted the expenses of depreciation and amortization. The expenditure had positive performance, mainly if we consider the inflation of the period, which highlights the efficient management in channeling expenses, in addition to the synergy gains arising from the incorporation of HSBC Brasil and the strategy for optimization of points of service.

In 2017, the expenditure increased, reflecting the increase of expenditure incurred by the growth in the volume of business and services in the period; by the effect of the consolidation of HSBC Brasil, which occurred from the third quarter of 2016; and by contractual adjustments. It is important to note that the expenditure incurred during 2017 includes the effects of gains in scale and synergies arising from the incorporation and integration of the activities of HSBC Brasil, which occurred in October 2016.

Other operating income / expenses

The increase in expenditure in the comparative between 2018 and 2017 reflects the higher constitutions of provisions for fiscal risks and higher expenses with the marketing of cards, justified by higher variable expenses related to compensation for the performance of strategic partnerships.

In the fiscal year of 2017, other operating expenses net of revenue recorded an increase in comparison to the previous year, mainly reflecting the effect of the consolidation of HSBC Brasil, which occurred from the third quarter of 2016.

10.2 – Operating and Financial Income

Officers should comment:

a) results of issuer's operations, in particular:

i) description of any major components of revenue

Below we highlight our principal operating income:

Loan and Leasing Operations

The reductions observed in the comparative periods, reflect major competitive dynamics of the market, which impacted the average balance of loan operations, as well as the mix of the loan portfolio.

Income from securities, derivatives and foreign exchange operations

The result of operations with securities, derivatives and foreign exchange had a reduction in the comparative between 2018 and 2017, due to the lower volumes of interbank investments, reflecting the decreased of income, as well as lower interest rates between the periods.

In the comparative between 2017 and 2016, the reduction occurred mainly by the decrease in operations with fixed income securities, it was offset by the increase in the income from operations of foreign exchange, a reflection, largely, of the positive exchange rate variation of 1.5% in the period.

Financial income from insurance, pension plans and capitalization bonds

In the comparative between 2018, 2017 and 2016, the financial result of insurance, pension and capitalization declined, reflecting the behavior of interest rates in the period.

Revenue from reserve requirement

[Voltar ao índiceã](#)

Página 103

Complementary Information

In the comparative between the balances for 2018, 2017 and 2016, the reduction in revenue, was due, largely, to the reduction of the Selic rate in the periods, which was of 6.50% in 2018, 7.00% in 2017 and 13.75% in 2016.

Earnings with Retained Premiums from Insurance, Pension Plans and Capitalization and Revenues from Provision of Services

Regarding the variations in income from insurance retained premiums, pension plans and capitalization and banking services fees, the related comments are included in item 10.1.h.

ii) factors that materially affected the operating results

Officers report that no factors have occurred that might significantly affect the Company's operating results in the last three fiscal years other than those described in items 10.1.a; 10.1.h and 10.2.a.i.

b) variations in income from price changes, foreign exchange rates, inflation, changes in volumes and introduction of new products and services

Officers report that there were no significant variations in the issuer's financial income or revenues attributable to changing prices of our main inputs and products, exchange rates, inflation, altered volumes or the introduction of new products and services for the years 2018, 2017 and 2016.

c) impact of inflation, variation of prices of main inputs and products, and foreign exchange and interest rates on the issuer's operating income and financial income, when relevant

During the periods of high interest rates, our financial income increases because the interest rates on our interest-earning assets are higher too. At the same time, we incur higher financial expenses since interest rates on interest-bearing liabilities are also higher. Changes in volumes of our assets and liabilities that incur interest also affect our revenues and expenses. For example, an increase in our interest income attributable to higher interest rates may be impacted by a reduction in the volume of our outstanding loans.

Moreover, when the Brazilian Real depreciates, we incur: (i) losses on our liabilities denominated in or indexed to foreign currency, such as our long-term debt denominated in US dollar and foreign currency borrowings, in such a way that the cost in Reais of the relative financial expense increases; and (ii) gains in our assets denominated in and/or indexed to

foreign currency, such as our securities and loan operations indexed to the US dollar, when the revenue from these assets measured in Reais increases. Conversely, when the Brazilian Real appreciates, we incur: (i) losses on our assets denominated in and/or indexed to foreign currencies; and (ii) gains on our liabilities denominated in or indexed to foreign currency.

10.3 – Events with Significant Effects (occurred and expected) on Financial Statements

Officers should comment on material effects that the events below have caused or are expected to cause for the issuer's financial statements and results:

a) introduction or sale of operating segment

No operational segment was introduced or sold in the period.

b) creation, acquisition or sale of equity interest

On December 31, 2018, Bradesco and the Fidelity Group concluded the termination of its joint venture in Fidelity Processadora S.A. ("**Processing Company**"), whereby Bradesco will be the sole shareholder of the Processing Company, whose shareholders' equity is composed exclusively of the assets and liabilities relating to the provision of credit card processing services to the Bradesco Organization. The operation (a) aims to reduce the costs of processing and the increase in the efficiency of the credit card business; (b) will not have any impact on the activities and clients of Bradesco; and (c) did not involve any financial values. The parties, Bradesco and Fidelity Group, will also maintain their association in Fidelity Serviços S.A., a company that provides call center services, collection, fraud prevention, support and other related services.

On October 2, 2018, Bradesco entered into a strategic partnership with RCB Investimentos S.A., one of the leading companies in the credit management and recovery market in Brazil, after acquiring 65% of its shares. Bradesco expects to add more efficiency to its credit recovery process, as well as actively participate in the credit acquisition market for recovery.

On July 20, 2018, Odontoprev, a subsidiary of Bradesco Saúde S.A., informed the Market about the proposed acquisition of 100% of the share capital of Odonto System Planos Odontológicos Ltda., a company with head offices in Fortaleza/ Ceará, for the amount of R\$201,637 thousand, in addition to this amount, the acquisition foresees a variable price for the future, related the achievement of the future targets of growth of the EBITDA for Odonto System of 2018 and 2019. This transaction was approved, with no restrictions, by the *Agência Nacional de Saúde Suplementar* – ANS (National Supplementary Health Agency), Central Bank of Brazil – BACEN and Administrative Council for Economic Defense – CADE. The transaction was approved by the shareholders of the Company, in Shareholders' Meeting held on August 6, 2018.

c) unusual event or operations

In the period, there were no unusual events or transactions involving the issuer, other than the extraordinary events stated in items 10.1.a and 10.1.h, which caused or are expected to cause significant impacts on its results.

10.4 – Significant Changes in Accounting Practices – Reservation and Emphases in the Auditor’s Opinion

Officers should comment:

a) significant changes in accounting practices

Officers report that no significant changes were made to the accounting practices that Bradesco uses in the years ended December 31, 2017, 2016 and 2015.

b) significant effects of changes in accounting practices

Officers highlight that, although there have been no significant changes in accounting practices of Bradesco, it is noteworthy that, unlike the other publically-traded companies that are already using all of the “CPCs”, financial institutions use nine of the technical accounting standards issued by Brazil’s Accounting Standards Committee (CPC), that were approved by the National Monetary Council (CMN). The other CPC statements, interpretations and guidelines will only be applicable to financial institutions after approval by the National Monetary Council.

It is currently not possible to estimate when National Monetary Council will approve the other CPC accounting statements or if their adoption will be prospectively or retrospectively.

Below is a list of the nine CPC accounting statements approved by the National Monetary Council:

- Resolution No. 3,566/08 – Asset impairment (CPC 01);
- Resolution No. 3,604/08 – Statement of cash flows (CPC 03);
- Resolution No. 3,750/09 – Related party disclosures (CPC 05);
- Resolution No. 3,823/09 – Provisions, contingent liabilities and contingent assets (CPC 25);
- Resolution No. 3,973/11 – Subsequent events (CPC 24);
- Resolution No. 3,989/11 – Share-based payment (CPC 10-R1);
- Resolution No. 4,007/11 – Accounting policies, changes in accounting estimates and errors (CPC 23);
- Resolution No. 4,144/12 – Basic conceptual pronouncement (R1); and
- Resolution No. 4,424/15 – Benefits to Employees (CPC 33-R1).

c) Reservations and emphases in the auditor's report

There were no disclaimers and emphases on the independent auditors' report.

10.5 - Critical Accounting Policies

Officers should indicate and comment on the critical accounting policies adopted by the issuer, in particular, accounting estimates made by management on uncertain and relevant issues for describing the financial position and results of operations that require subjective or complex judgment, such as: provisions, contingencies, revenue recognition, tax credits, long-lived assets, useful life of non-current assets, pension plans, foreign currency translation adjustments, environmental recovery costs, criteria for asset and financial instrument impairment tests.

Bradesco has disclosed critical risk factors and accounting policies, in conformity with the best international transparency and Corporate Governance practices, in relation to possible political and economic situations in the domestic and foreign markets, which may directly impact the day-to-day of operations and, accordingly, the Bank's financial position.

Our Officers believe that Bradesco's results are subject to accounting policies, assumptions and estimates. It is Management's responsibility to adopt fair accounting practices, in addition to using judgment while carrying out reasonable and conservative estimates to be used in the preparation of financial statements.

Regarding materiality, the items below describe the accounting policies deemed as critical, as well as the areas demanding better judgment or involving a high complexity level, which may affect our financial position and the result of our operations. The accounting estimates we carry out in this context cause us to make assumptions on issues involving uncertainties. In each case, if our estimates are not confirmed, in the comparison with effective results, there may be significant impacts on our financial situation or the results of our operations.

Allowance for loan losses

The allowance for loan losses is calculated in an amount sufficient to cover possible losses and take into account the rules and instructions issued by National Monetary Council and Central Bank of Brazil, together with the appraisals carried out by Management upon calculation of credit risks.

At the end of each period, the allowance for loan losses is adjusted based on the analysis of our portfolio, including the estimate of losses in loan and leasing operations and other operations with credit characteristics.

In view of its nature, the definition of the allowance for loan losses requires us to make judgments and assumptions related to our portfolios, both on individual and product-specific portfolio bases. Whenever we reassess the portfolio as a whole, a number of factors may

affect the probable losses, including which methodology we will adopt for measuring the historical delinquency rates and which historical period we will take into account to carry out such measurements. Other factors that may affect our judgment to set the amount regarding the allowance for loan losses include as follows:

[Voltar ao índice](#)

Página 107

Complementary Information

- Brazilian general economic conditions and relevant conditions in the sector;
- previous experience with the debtor or the relevant economy sector, including the recent experience of losses;
- credit quality trends;
- values loan securities;
- volume, composition and growth of our portfolio;
- the Brazilian government's monetary policy; and
- any delays in receiving information necessary to evaluate operations or confirm existing impairment.

We use models to help the analysis of our portfolios and define the required amount of the provision for losses. We use statistical factors to show losses and other risk indicators for groups of loans with similar risk characteristics to achieve an estimate of losses incurred by the portfolio. Although our models are often reviewed and improved, by their nature, they depend on our judgments made in relation to information and/or forecasts we receive. In addition, the Brazilian economy's volatility may lead to greater uncertainty in our models than one would expect in more stable macroeconomic environments. Therefore, our provision for doubtful debt may not be indicative of actual future losses.

The process to calculate the level of provision for doubtful debt requires a high judgment level. It is possible that others, taking into account the same information, may at any time reach reasonably different conclusions.

Classification of Securities and Derivatives

Securities are classified into three categories: for trading, available for sale, and held to maturity. The classification under these categories is based on the Management's intent of keeping or selling such securities. The accounting treatment to the securities we hold is dependent on how they are classified. Changes in the economic environment may alter our strategy in relation to a particular security, which would require a transfer between categories.

Evaluation of Securities and Derivatives

Financial instruments and derivatives recorded at fair value in our financial statements basically include securities classified as: (i) for trading; (ii) available for sale; and (iii) other trading assets, including derivatives. The fair value is defined as the price that would be received for the sale of an asset or that would be paid for the transfer of a liability in a transaction not enforced among market participants on the date of measurement.

We estimate the fair value by using the market prices, as available. We note that the price may be affected by the volume of shares transacted, and may also fail to reflect the “control premiums” under share agreements with shareholders, which holds significant investments. However, the Management believes that market prices are the best indicators of fair value.

At the determination of the fair value, when market prices are not available, the Management’s judgment is made, as models depend on our judgment of weight assignable to different factors and the quality of information received. The factors used in these models include quotations by distributors, pricing models, prices of instruments with similar characteristics and discounted cash flows. Model-based pricing also uses information on interest rates, foreign exchange rates and volatility of options, whenever significant and available. Such as reliable market data while estimating the impact of keeping a large position is generally limited. We use likewise our judgment for estimating prices whenever there is no external parameter. If we make inaccurate assumptions or the model itself makes inaccurate correlations or assumptions, the amount of income or loss recorded for a specific asset or liability may be incorrect. Judgment should also determines whether a reduction in the fair value below the updated cost of a held-to-maturity or an available-for-sale security is not temporary, so that it would demand the possible recognition of impairment of the updated cost and that we may record this reduction as an expense. At that evaluation, if any devaluation is not temporary, the Management will decide which historic period should be considered and how severally a loss may be provisioned for.

Complementary Information

These appraisal methods may lead Bradesco to have different results should the assumptions and estimates used fail to subsequently become real.

Deferred Income and Social Contribution Taxes

The value determination of income tax and social contribution is complex, and therefore our evaluation is based on the analysis of our deferred fiscal assets and liabilities and income tax and social contribution payable. In general, the evaluation requires us to estimate the future amounts of deferred fiscal assets and income tax and social contribution payable. Evaluating the possibility of any deferred fiscal assets to be realized is subjective and involves uncertain evaluations and assumptions. Realization of deferred fiscal assets is subject to changes to future fiscal rates and the development of our tax planning strategies. Evaluations and assumptions may change over time as a result of unforeseen events or circumstances, thereby changing our initial judgment during the definition of our tax liabilities.

We continuously monitor and evaluate the impact of new tax laws on our liabilities, as well as new events likely to affect the evaluations and assumptions of our analysis of the possibility of deferred fiscal assets realization.

A significant judgment is required for the determination of the probability of a position on income tax and social contribution be sustained even after the result of any legal or administrative proceedings, on the basis of technical merits. An additional judgment is then required to determine the amount of benefit eligible to be recognized in our consolidated financial statements.

Impairment

The balances of securities classified as available-for-sale and held to maturity, in addition to non-financial assets (except for deferred tax credits), are reassessed at least on a yearly basis, to determine where there is any indication of impairment. When a loss is identified, we recognize an expense in income for the year. This occurs when the carrying amount of the asset exceeds its recoverable value.

We use a number of judgments to calculate the recoverable value, and accordingly we estimate the value of the most variable assets subject to impairment testing.

Complementary Information

Technical provisions for insurance, pension plan and capitalization

Technical reserves are liabilities representing estimates of amounts to be due on the future to our customers, stakeholders of pension plans, insured parties or their beneficiaries. The actuarial assumptions are based on our experience, and are periodically reviewed in relation to sector standards to assure actuarial credibility. Significant changes in the experiences or scenarios may compel us to establish a provision for expected future losses on a product, establishing complementary provisions for premiums of insurance and contributions of pension plans. These provisions are set forth in short- or long-term agreements to forecast expected future losses.

For insurance, the calculations are performed using datas on mortality rates, incapacity, expiry date, investment performance, inflation, expenses, and others. For long-term insurance agreements, when the actuarial assumptions in a specific policy or group of policies are fulfilled, they will not be changed during the validity time

For pension plans, future benefits to be paid to participants or their beneficiaries include retirement, pension and redemptions, with actuarial hypotheses that take into account factors such as survivorship, interest rates, and disability, among others.

For capitalization bonds operations, future payments to our customers include provisions for prize draws and redemptions. These are calculated over par security values and adjusted for inflation.

Accounting provisions and contingent liabilities

We established accounting provisions recorded based the opinion of legal counsel, the nature of the lawsuits, similarity with previous proceedings, complexity and positioning of the courts, whenever the loss is deemed probable, which would cause a potential outflow of funds to settle the obligation, and when amounts can be reliably measured.

Contingent liabilities classified as possible losses are not recorded as liabilities in the financial statements and must only be stated in notes, when individually relevant, whereas the liabilities classified as remote losses do not require provisions or statements.

We continuously monitor lawsuits in progress in order to evaluate, among other things: (i) the nature and complexity thereof; (ii) the development of the proceedings; (iii) the opinion of our legal advisors; and (iv) our experience with similar cases. Upon determining whether a loss is likely to occur and estimating its value, we also consider:

- a) the probability of loss derived from claims occurred on or before the date of financial statements, which were identified by us after the date of such statements but before their publication; and
- b) the need to disclose claims or events occurred after the date of financial statements, but before their publication.

Complementary Information

10.6 – Material Items not shown in Financial Statements

Officers should describe material items not shown in the issuer's financial statements, and state:

a) *assets and liabilities directly or indirectly held by the issuer that are not presented in its balance sheet (off-balance sheet items), such as:*

(i) operating leases, assets and liabilities; (ii) written-off portfolios of receivables for which the entity has risks and responsibilities, indicating the related liabilities; (iii) agreements for the future purchase and sale of products or services; (iv) agreements for constructions in progress; and (v) agreements for future receipt of financing;

There are no relevant items that have not been evidenced in the financial statements.

b) *other items omitted from the financial statements*

Below, we present the values that represent the total risk of off-balance sheet items:

The commitments of the credit values include limits for authorization of credit card, personal credit, real estate financing, *conta garantida* (guaranteed account) and overdraft. Such values consist basically in the credit operations contracted, not yet released, and limits not yet used by clients.

The guarantees offered are conditional commitments of loans issued to guarantee the performance of a client before a third party. According to these guarantees, generally, we have the right of recourse against the client to recover any amounts paid. In addition, we retain resources in cash or other guarantees of high liquidity to ensure these commitments. These operations, relate, in their vast majority, to operations of sureties and guarantees carried out with Corporate clients.

The letters of credit (credits opened for imports) are undertakings issued to guarantee the performance of a customer to a third party. We issue business letters of credit to enable foreign trade transactions. These instruments are short-term commitments to pay the beneficiary of a third party under certain contractual conditions by the shipment of products.

The contracts are subject to the same credit assessments applied in other credit concessions.

10.7 – Comments on Material Items not shown in Financial Statements

In relation to each of the items omitted from the financial statements referred to in item 10.6, the Officers should comment:

a) how such items change or may eventually change revenues, expenses, operating result, financial expenses or other items of the issuer's financial statements

As described in item 10.6, we inform that, with regard to the guarantees provided and the letters of credit for import, the issuer receives a rate or a commission for the operation that sensitizes the revenue and consequently the operating income. If a problem occurs related to the capacity of a client making a payment, there may be the need for the constitution of provisions. Now regarding the commitments of credit values to be released, there will be only impact on the lines of income, if clients use these lines of credit.

b) nature and purpose of operation

Information mentioned in item 10.6.

c) nature and amount of obligations and rights generated for the issuer under the operation

Information mentioned in item 10.6.

Complementary Information

10.8 – Business Plan

Officers should state and comment the principal elements of the issuer's business, specifically exploring the following topics:

a) investments, including: (i) quantitative and qualitative description of the investments in progress and expected investments; (ii) sources of investment financing; (iii) relevant divestitures in progress and expected divestitures.

As a necessary condition for the continued growth, we are investing in Information Technology (IT), and as a source of funding, we use our own working capital, which is represented by the shareholders' equity.

The following table shows the total amount invested over the last three years, including infrastructure (facilities, furniture and fixtures):

b) if already disclosed, the acquisition of plants, equipment, patents or other assets likely to materially influence the issuer's production capacity should be indicated

No acquisitions of plant, equipment, patents or other assets that are likely to materially affect our production capacity have been disclosed.

c) new products and services, indicating: (i) description of the research in progress that has already been disclosed; (ii) total amounts spent by the issuer in research for the development of new products and services; (iii) projects in progress that have already been disclosed; (iv) total amounts spent by the issuer in the development of new products and services

There are no new significant products and services, individually.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
