# $$\rm F{-}4$$ UNITED ECOENERGY CORP. NOTES TO FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2006 (unaudited)

Note 1. Organization and Interim Financial Statements

United EcoEnergy Corp. (United EcoEnergy or the Company), a Nevada corporation, was organized on February 28, 1997 and is a closed-end investment company that has filed an election to be treated as a business development company (BDC) under the Investment Company Act of 1940, (the 1940 Act) in February 2006. The Company has not yet undertaken its initial portfolio investment and has not yet raised significant capital for its investment activities. Prior to the election to be treated as a BDC, the Company had been a development stage company and had not engaged in any operating business activity.

The Company intends to focus primarily on investments in alternative energy companies, including bio-fuel companies, and expects to invest, under normal circumstances, at least 80.0 percent of its net assets (including the amount of any borrowings for investment purposes) in these companies. At June 30, 2006, the Company had no net assets invested in alternative energy companies but has signed two letters of intent to acquire portfolio investments, one in wind energy generation and the other in ethanol production, both subject to funding. The Company expects to

concentrate on making investments in alternative energy companies having annual revenues of less than \$250.0 million and in transaction sizes of less than \$55.0 million. In most cases, these companies will be privately held or have thinly traded public equity.

The accompanying financial statements are un-audited and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q. Accordingly, certain information and footnote disclosures normally included in audited financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements that were included in the Form 10-K filed by the Company for the year ended December 31, 2005.

Company. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full year. Information presented for the quarter ended June 30, 2005 has been restated to conform to the reporting requirements for a business development company for comparison purposes, although the Company did not elect business development company status until February, 2006.

In March 2006, the Company implemented a 100 for 1 forward split of its common shares. The stock split was given retroactive treatment in the accompanying financial statements.

On June 30, 2006, the Company accepted subscriptions for 177,600 common shares under a Regulation E, 1-E exemption offering, for a total of \$44,400. Of the total amount subscribed, \$34,650 was received on June 30, 2006 and the balance of \$9,750 has been reported as a subscription receivable at June 30, 2006. This balance was collected during July, 2006.

Note 2. Significant Accounting Policies

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the

reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported period. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ

The following are significant accounting policies consistently applied by the Company:

#### Investments:

- (a) Security transactions are recorded on a trade-date basis.
- (b) Valuation:
- (1) Investments for which market quotations are readily available are valued at such market quotations.

F-6

UNITED ECOENERGY CORP.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2006

(unaudited)

Note 2. Significant Accounting Policies (continued)

(2) Short-term investments which mature in 60 days or less,

such as U.S. Treasury bills, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of

the difference between the principal amount due at maturity and cost. Short-term securities which mature in more than 60 days are valued at current market quotations by an independent pricing service or at the mean between the bid and ask prices obtained from at least two brokers or dealers (if available, or otherwise by a principal market maker or a primary market dealer). Investments in money market mutual funds are valued at their net asset value as of the close of business on the day of valuation.

(3) It is expected that most of the investments in the Companys portfolio will not have readily available market values. Debt and equity securities whose market prices are not readily available are valued at fair value, with the assistance of an independent valuation service, using a valuation policy and a consistently applied valuation process which is under the direction of our board of directors.

The factors that may be taken into account in fairly valuing investments include, as relevant, the portfolio company ability to make payments, its estimated earnings and projected

discounted cash flows, the nature and realizable value of any collateral, the financial environment in which the portfolio company operates, comparisons to securities of similar publicly traded companies and other relevant factors. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of these investments may differ significantly from the values that would have been used had a ready market existed for such investments, and any such differences could be material.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2006

(unaudited)

Note 2. Significant Accounting Policies (continued)

As part of the fair valuation process, the Audit Committee of the Company will review the preliminary evaluations prepared by the independent valuation firm engaged by the Board of Directors, as well as managements valuation recommendations and the recommendations of the Investment Committee. Management and the independent valuation firm will respond to the preliminary evaluation to reflect comments provided by the Audit Committee. The Audit Committee will review the final valuation report and managements valuation recommendations and make a recommendation to the Board of Directors based on its analysis of the methodologies employed and the various weights valuation as well as factors that the independent valuation firm and management may not have included in their evaluation processes. The Board of Directors then will evaluate the Audit Committee recommendations and undertake a similar analysis to determine the fair value of each investment in the portfolio in good faith.

- (c) Realized gains or losses on the sale of investments are calculated using the specific identification method.
- (d) Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis.
- (e) Dividend income is recorded on the ex-dividend date.
- (f) Loan origination, facility, commitment, consent and other advance fees received by us on loan agreements or other investments are accreted into income over the term of the loan.

Federal and State Income Taxes:

The Company has not elected to be treated as a regulated

investment company and does not presently intend to comply with the requirements of the Internal Revenue Code of 1986 (the Code), applicable to regulated investment companies. A regulated investment company is required to distribute at least 90% of its investment company taxable income to shareholders,

which the Company does not expect to do for the foreseeable future. Therefore, the Company must make appropriate provision for income taxes in accordance with SFAS 109, Accounting for Income Taxes, using the liability method, which requires the recognition of deferred assets and liabilities for the expected future tax consequences of temporary differences between carry amounts and tax basis of assets and liabilities. At June 30, 2006, the Company has approximately \$110,317 of net operating loss carryforwards available to affect future taxable income and has established a valuation allowance equal to the tax benefit of the net operating loss carryforwards as realization of the asset is not assured. The net operating loss carryforwards may be limited under the change of control provisions of the Internal revenue Code, Section 382.

#### Dividends and Distributions:

Dividends and distributions to common stockholders will be recorded on the ex-dividend date. The amount, if any, to be paid as a dividend will be approved by the board of directors each quarter and will be generally based upon managements estimate of our earnings for the quarter and our investment needs. Net realized capital gains, if any, will be reviewed distributed at least annually as part of any distribution determination.

#### Consolidation:

As an investment company, the Company will only consolidate subsidiaries which are also investment companies. At June 30, 2006, the Company did not have any consolidated subsidiaries.

#### Recent Accounting Pronouncements

In July, 2006, the Financial Accounting Standards Board issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes—An Interpretation of FASB Statement No, 109. (FIN 48). Fin 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with FASB Statement No. 109-Accounting for Income Taxes. FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement

recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006. We will adopt FIN 48 in the first quarter of 2007. We do not believe the effect of adopting FIN 48 will have a material impact on our financial statements.

#### Note 3. Portfolio Investments

As required by the 1940 Act, we will classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally viewed to exist when a company or individual owns 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through ownership of an amount greater than 5% but less than 25% of the voting securities of the investee company. The Company currently has no controlled or affiliated investments.

Note 4. Related Party Agreements and Transaction

Investment Advisory Agreement

The Company has entered into an Investment Advisory Agreement with United EcoEnergy Advisors LLC (the Investment Advisor) under which the Investment Advisor, subject to the overall supervision of the board of directors of the Company, will manage the day-to-day operations of, and provide investment advisory services to, the Company. United EcoEnergy Advisors, LLC is owned equally by William K. Mackey, Patrick Donelan and Adam Mayblum. Mr. Mayblum and Mr. Donelan are also the equal owners of Enterprise Partners, LLC, our majority Common Stockholder and the holder of our Series A Convertible Preferred shares at the end of the quarter. Mr. Mayblum also serves as a director of the Company and Mr. Mackey is a director and our Chief Executive Officer.

For providing these services the Investment Advisor will receive a fee from the Company, consisting of two components—a base management fee and an incentive fee. The base management fee will be calculated at an annual rate of 2.00% on the gross assets of the Company (including amounts borrowed). The base management fee is payable quarterly in arrears based on the average value of the Companys gross assets at the end of the two most recently completed calendar quarters and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro rated.

Under the terms of the original Agreement, the Base Management Fee would not be lower than \$25,000 per month for the first two years of

the term of the Agreement; however, the Investment Advisor agreed with the Company to eliminate the minimum fee, and the Company amended the Agreement accordingly. The Amended Investment Advisory Agreement was submitted to The shareholders of the Company for approval at the Annual Meeting of shareholders held on June 30, 2006. The common shareholders, other than Enterprise Partners which abstained, unanimously approved the Amended Investment Advisory Agreement and the appointment of United EcoEnergy Advisers, LLC as the investment adviser for the Company at the Annual Meeting

On April 1, 2006, the Company entered into a Consulting Agreement with William Mackey, the President and CEO, to cover his services until such time as the Company completes its first portfolio investment in the alternative energy and appoints a permanent CEO. Under the terms of the Consulting Agreement, Mr. Mackey is entitled to an initial signing amount of \$22,500 and thereafter to a monthly consulting fee of \$7,500, payable on the 15th of each month. These amounts have been accrued as Amounts Due to Officer. On April 10, 2006, Enterprise Partners advanced the \$22,500 for the sign-on Bonus to Mr. Mackey, and that amount has been reflected as an Amount Due to Affiliate of \$22,500 on the accompanying financial statements.

No investment advisory fees have been accrued for the quarter ended June 30, 2006.

#### Managerial Assistance

As a business development company, we will offer, and must provide upon request, managerial assistance to certain of our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. The Company expects to receive fee income for providing these services.

The Series A Convertible Preferred Stock is \$0.001 par value stock, and may be converted into common stock based on a formula under which conversion is equal to 1 divided by the 30 day trailing average stock price of the common shares at the time of the conversion election, but not more than 15 common shares for each preferred share converted, or a maximum of 15 million common shares. No conversion may occur until after one year from the date of issue. The Company may redeem the Series A Convertible Preferred Stock in whole or in part beginning 181 days after issue at \$0.75 per share, and after 365 days from issue at \$0.95 per share. The Series A Convertible Preferred Stock automatically converts into common stock following the second anniversary of issue, at the formula price if not redeemed prior to that date.

#### Note 6. Financial Highlights (continued)

- (1) Financial highlights as of June 30, 2006 and December 31, 2005 are based on 28,646,500 and 28,468,900 common shares outstanding, respectively, giving effect to the 100 for 1 forward split. On a fully diluted basis, there would be 39,658,721 shares outstanding as of June 30, 2006, based on conversion of the Series A Convertible Preferred Stock into 15 million common shares, the maximum conversion possible under the terms of the Series A Preferred Stock, and treating those shares as outstanding as of the date of their issuance at the end of February, 2006.
- (2) Total return based on net asset value is based upon the change in net asset value per share between the opening and ending net asset values per share in each period. The total return is not annualized.

#### Note 7. Subsequent Events

The Company completed an exempt offering of common shares under Regulation E, using Form 1-E, for a total of 223,000 common shares and \$55,750, at a price of \$0.25 per share. A total of 177,600 shares were subscribed for and accepted as of June 30, 2006, the common shares were issued as of that date, and all but \$9,750 of the total subscription was received as of June 30, 2006. The remaining \$9,750 was received by the Company in July, 2006. Subsequently, the Company has received and accepted subscriptions for an additional 45,400 shares for a total subscription of \$11,350, all of which has been collected in August, 2006, and the shares have been issued. As a result, there are 28,864,500 common shares currently issued, as of August 11, 2006.

In August, 2006, Enterprise Partners, LLC, our majority common shareholder and the sole holder of our Series A Convertible Preferred Stock, transferred 25,370,600 of the common shares held by it, and also conveyed 731,519 of the Series A Convertible Preferred shares held by it to its debenture holders (23 Persons) As a result of these transactions, Enterprise Partners, LLC holds 1,567,700 shares of our common stock, representing approximately 5.47 percent Of our undiluted common stock outstanding, and 268,481 shares of our Series A Convertible Preferred Stock, representing 26.8 percent of the 1,000,000 shares outstanding, and convertible into a maximum of 4,020,000 shares of our common stock. Therefore, Enterprise Partners, LLC now holds a total of approximately 12.8 percent of our common stock on a fully diluted basis, giving effect to the maximum conversion of the Series A Convertible Preferred Stock held by it.

Item 2. Management Discussion and Analysis of Financial Condition and Results of Operations.

This quarterly report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause the results of the Company to differ materially from those expressed or implied by such forward-looking

statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including any projections of revenue, expenses, earnings or losses from operations or investments, or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. The risks, uncertainties and assumptions referred to above include risks that are described from time to time in our Securities and Exchange Commission, or the SEC, reports filed before this report.

The forward-looking statements included in this quarterly report represent our estimates as of the date of this quarterly report. We specifically disclaim any obligation to update these forward-looking statements in the future. Some of the statements in this quarterly report constitute forward-looking statements, which relate to future events or our future performance or financial condition. Such forward-looking statements contained in this quarterly report involve risks and uncertainties.

We use words such as anticipates, believes, expects, future, intends and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason. We caution you that forward-looking statements of this type are subject to uncertainties and risks, many of which cannot be predicted or quantified.

The following analysis of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes thereto contained elsewhere in this Form 10-Q.

#### Overview

The Company was incorporated under the Nevada General Corporation Law in February 1997 as MNS Eagle Equity Group III, Inc., and was a development stage company through the end of 2005, and until the Company changed its business model with the election to be treated as a business development company on February 28, 2006. On February 21, 2006, the Company changed its corporate name to United EcoEnergy Corp., to reflect its new business model and plan.

On February 21, 2006, our then sole shareholder sold 284,689 pre-split common shares, representing 100 percent of the pre-split outstanding stock of the Company at the time, resulting in a change of control of the Company. Of these shares, 269,689 common shares, representing 94.7 percent of the outstanding shares, were purchased by Enterprise Partners, LLC, 11,000 shares were purchased by Peachtree Consultants, LLC, and 4,000 shares were purchased by Fairmont East Finance, Ltd. As a result of this change of control, our then sole director and president, Stephen Siedow, resigned effective February 22, 2006 after appointing William K. Mackey, William L. Sklar, Adam Mayblum, Alec Hoke and John Paul DeVito as the directors of the Company, to serve until the

-3-

next annual meeting of shareholders of the Company. The name of the Company was changed from MNS Eagle Equity Group III, Inc. to United EcoEnergy Corp. by the filing of an amendment to the Articles of Incorporation with the State of Nevada on February 21, 2006.

On February 27, 2006, the Company filed a Certificate of Designations for Series A Convertible Preferred Stock with the Nevada Secretary of State and the Board of Directors authorized the issuance of 1 million shares of Series A Convertible Preferred Stock to Enterprise Partners, LLC, our majority shareholder, in exchange for the cancellation of \$60,000 in loans for funds advanced to the Company by Enterprise Partners LLC to pay off debts of the Company and for initial working capital. The Series A Convertible Preferred

Stock is \$0.001 par value stock, and may be converted into common stock based on a formula under which conversion is equal to 1 divided by the 30 day trailing average stock price of the common shares at the time of the conversion election, but not more than 15 common shares for each preferred share converted, or a maximum of 15 million common shares. No conversion may occur until after one year from the date of issue. The Company may redeem the Series A Convertible Preferred Stock in whole or in part beginning 181 days after issue at \$0.75 per share, and after 365 days from issue at \$0.95 per share. The Series A Convertible Preferred Stock automatically converts into common stock following the second anniversary of issue, at the formula price if not redeemed prior to that date. The conversion of the Series A Convertible Preferred into Common stock of the Company is illustrated by the following table:

#### Series A Convertible Preferred Shares

Currently, the Common shares of the Company do not trade on an over-the-counter market or exchange; however, based on the total acquisition price of the Common shares purchased from our former sole shareholder in February, 2006, the shares

-4-

were purchased for the equivalent of \$0.0006 per share in an arms length transaction. This amount was in excess of the undiluted net asset value of the Common shares at the time. In order for a holder of the Series A Preferred Stock to realize a conversion value in Common stock equal to the \$60,000 paid for the preferred shares, the market value of the Common stock must increase by approximately 7 times, to \$0.0042 per share, either as a result of acquisitions or operations of the Company, or from a subsequent offering of shares by the Company.

The Company has amended the Certificate of Designations for the Series A Convertible Preferred Stock, as filed with the Secretary of State of Nevada, with the consent of the original holder of the shares, Enterprise Partners, LLC. The amendments were designed to insure that the Series A Convertible Preferred Stock meets the requirements of a senior security, as defined in Section 18(g) of the 1940 Act. The Amended Certificate of designations of Series A Convertible Preferred Stock was filed as an exhibit to the Proxy Statement filed with the SEC on Form 14A on June 19, 2006, and both the

Amendments and the prior issuance of the Series A Convertible Preferred Stock to Enterprise Partners, LLC was approved unanimously by our common Shareholders at our Annual Meeting held on June 30, 2006.

Effective February 27, 2006, the Company implemented a 100 for 1 forward split of our outstanding common shares. As a result of the forward split, there were 28,468,900 common shares outstanding. This forward split has been reflected retroactively on our financial statements

We have elected to be treated as a business development company under the 1940 Act. Accordingly, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities of private or thinly traded public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We will typically invest under normal circumstances, at least 80% of net assets in alternative energy companies.

We intend to invest in companies in the alternative energy industry, including bio-fuel companies, most of which have relatively short or no operating histories. These companies are and will be subject to all of the business risks and uncertainties associated with any new business enterprise, including the risk that these companies may not reach their investment objective and the value of our investment in them may decline substantially or fall to zero.

As of June 30, 2006, we had not yet made any portfolio or other investments. However, we have signed several letters of intent for such acquisitions, Subject to our obtaining funding, and we have also entered into an investment Banking arrangement with Lempert Brothers US, in New York. These letters of intent and the investment banking arrangement were disclosed in our Form 8-K filed with the SEC on July 31, 2006.

Critical Accounting Policies

In determining the fair value of our investments, the Audit Committee will consider valuations from an independent valuation firm, from our Investment Committee and from management

Results of Operations

A comparison of the current quarter results to the quarter ended June 30, 2005 is not meaningful, as we had not then made the election to be treated as a business development company and our business model in 2005 was to locate and merge with an operating business. Financial Highlights

Financial highlights of the Company for the period ending June 30, 2006 Are included in Footnote 7 to our Financial Statements.

Investment Activity

We have not yet engaged in any investment activity and have not yet raised significant capital to be employed in our proposed investment activities. We have engaged Lempert Brothers US in New York to assist us in raising not Less than \$10 million to enable us to continue with several pending letters of intent and we are currently engaged in due diligence in that regard.

Long-Term Portfolio Investments

There were no portfolio investments made during the three months ended June 30,

2006.

Investment Income

We expect to generate revenue in the form of interest income on the debt securities that we own, dividend income on any common or preferred stock that we own, and capital gains or losses on any debt or equity securities that we acquire in portfolio companies and subsequently sell. Our investments, if in the form of debt securities, will typically have a term of one to ten years and bear interest at a fixed or floating rate. To the extent achievable, we will seek to collateralize our investments by obtaining security interests in our portfolio companies assets. We also may acquire minority or majority equity interests in our portfolio companies, which may pay cash or in-kind dividends on a recurring or otherwise negotiated basis. In addition, we may generate revenue in other forms including commitment, origination, structuring or due diligence fees, and possibly consultation fees. Any such fees generated in connection with our investments will be recognized as earned. We earned no investment income during the quarter ended June 30, 2006.

#### Operating Expenses

Our primary operating expenses consist of investment advisory fees, consulting, legal and professional fees and other operating and overhead-related expenses. Operating expenses totaled \$ 63,130 for the quarter ended June 30, 2006 as compared to \$ 657 for the quarter ended June 30, 2005, before our election to be treated as a business development company. These expenses consisted of general and administrative expenses and most of the expenses represented for periods before March 31, 2006 were amounts due to our former sole shareholder and officer, Stephen M. Seidow, in connection with the preparation of our financial reports for prior years.

Net Investment Income, Net Unrealized Appreciation and Net Increase in Stockholders Equity Resulting from Operations

Our net investment income totaled \$0 for the quarter ended June 30, 2006 compared to \$0 for the quarter ended June 30, 2005 and \$0 for the year ended December 31, 2005. Net unrealized appreciation totaled \$0 for the quarter ended June 30, 2006 compared to \$0 for the quarter ended June 30, 2005 and \$0 for the year ended December 31, 2005.

Financial Condition, Liquidity and Capital Resources
Our liquidity and capital resources were generated primarily from an advance
of \$60,000 by our major shareholder, Enterprise Partners, LLC, which was later
converted into 1 million shares of Series A Convertible Preferred Stock. We
generated no cash flows from operations. We also undertook an exempt offering
of our common shares pursuant to a Form 1-E Application and Notice filed with
the SEC on June 19, 2006, and accepted subscriptions for a total of 233,000
common shares, representing \$58,250 in additional working capital. In the
future, we may fund a portion of our investments through borrowings from banks,
issuances of senior securities or secondary offerings of equity, including
further exempt offerings. We may also securitize a portion of our investments
in mezzanine or senior secured loans or other assets. Our primary use of
funds will be investments in portfolio companies.

#### Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in

our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are subject to financial market risks, including changes in interest rates, equity price risk and some of the loans in our portfolio may have floating rates in the future. We may hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of higher interest rates with respect to our portfolio of investments. During the three and six months ended June 30, 2006 and the twelve months ended December 31, 2005, we did not engage in any hedging activities.

#### Item 4. Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, as of July 31, 2006, the Chief Executive Officer

-7-

and the Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them to material information relating to the Company that is required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934.

#### Internal Control Over Financial Reporting

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting, as such responsibility is defined in Rule 13a-15(f) of the Securities Exchange Act of 1934, and for performing an assessment of the effectiveness of internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of assets that could have a material effect on the financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns

resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

There have been no changes in our internal controls over financial reporting that occurred during the three months ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is not a defendant in any legal action arising out of its activities. We are not aware of any other material pending legal proceeding, and no such material proceedings are known to be contemplated, to which we are a party or of which any of our property is subject.

-8-

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
