Costamare was incorporated as part of a reorganization to acquire the ownership interest in 53 ship-owning companies (the predecessor companies) owned by the Konstantakopoulos family (Vasileios Konstantakopoulos and his three sons Messrs. Konstantinos Konstantakopoulos, Achillefs Konstantakopoulos and Christos Konstantakopoulos, together the Family). The reorganization was completed in November 2008. On November 4, 2010, Costamare completed its initial public offering (Initial Public Offering) in the United States under the United States Securities Act of 1933, as amended. At March 31, 2013, members of the Family owned, directly or indirectly, approximately 64.8% of the outstanding common shares, in the aggregate.

As of December 31, 2012 and March 31, 2013, the Company owned and operated a fleet of 47 and 48 container vessels, respectively, with a total carrying capacity of approximately 239,498 TEU and 250,377 TEU, respectively, through wholly-owned subsidiaries incorporated in the Republic of Liberia, providing worldwide marine transportation services by chartering its container vessels to some of the world's leading liner operators under long, medium and short-term time charters.

At March 31, 2013, Costamare had 84 wholly-owned subsidiaries, all incorporated in the Republic of Liberia, out of which 48 operate vessels, 26 sold or disposed their vessels and became dormant, nine were established in 2010 and 2011 to be used for the acquisition of nine newbuild vessels (Note 5) and one was established to be used for future vessel acquisitions.

3. Transactions with Related Parties:

(a) Costamare Shipping Company S.A. (the Manager or Costamare Shipping): Costamare Shipping is a ship management company wholly-owned by Mr. Konstantinos Konstantakopoulos, the Company's Chief Executive Officer, and as such is not part of the consolidated group of the Company, but is a related party. Costamare Shipping provides the Company with general administrative services, certain commercial services, director and officer related insurance services and the provision of officers (with effect from the consummation of the Company's Initial Public Offering on November 4, 2010 (Note 1), Costamare Shipping receives \$1,000 annually on a prorated basis for the services of the Company's officers in aggregate). Costamare Shipping, itself or through Shanghai Costamare Ship Management Co., Ltd. (Shanghai Costamare) and CIEL Shipmanagement S.A. (CIEL), which are also controlled by Mr. Konstantakopoulos, or, in certain cases, a third party sub-manager, provides technical, crewing, commercial, provisioning, bunkering, sale and purchase, chartering, accounting, insurance and administrative services in exchange for a daily fee for each containership. (We refer to Costamare Shipping, CIEL and Shanghai Costamare as our affiliated managers.)

Pursuant to the management agreement Costamare Shipping receives a daily fee for each containership as follows: (i) for each containership (subject to any charter other than a bareboat charter) it receives a daily fee of \$0.884 since January 1, 2013 (\$0.850 for the period from the consummation of the Company's Initial Public Offering on November 4, 2010 (Note 1) through December 31, 2012 and \$0.700 prior to November 4, 2010), prorated for the calendar days the Company owns each containership and for the three-month period following the date of the sale of a vessel, (ii) for each containership subject to a bareboat charter it receives a daily fee of \$0.442 since January 1, 2013 (\$0.425 for the period from the consummation of the Company's Initial Public Offering on November 4, 2010 (Note 1) through December 31, 2012), prorated for the calendar days the Company owns each containership and for the three-month period following the date of the sale of a vessel.

The Company also pays to Costamare Shipping (i) a flat fee of \$700 for the supervision of the construction of any newbuild vessel contracted by the Company, provided that such flat fee (which is fixed at the time of the ordering of any newbuild and remains constant until its delivery) will be annually adjusted upwards by 4% for any vessels ordered after December 31, 2012 and (ii) a fee of 0.75% on all gross freight, demurrage, charter hire, ballast bonus or other income earned with respect to each containership in the Company's fleet.

The initial term of the management agreement expires on December 31, 2015 and will be automatically extended in additional one-year increments until December 31, 2020, at which point it will expire. The daily management fee for each containership was fixed until December 31, 2012, and is thereafter annually adjusted upwards by 4%, with further annual increases permitted to reflect the strengthening of the Euro against the U.S. dollar and/or material unforeseen cost increases. After the initial term expires on December 31, 2015, the Company will be able to terminate the management agreement, subject to a termination fee, by providing written notice to Costamare Shipping at least 12 months before the end of the subsequent one-year term. The termination fee is equal to (a) the lesser of (i) five and (ii) the number of full years remaining prior to December 31, 2020, times (b) the aggregate fees due and payable to Costamare Shipping during the 12-month period ending on the date of termination; provided that the termination fee will always be at least two times the aggregate fees over the 12-month period described above.

On January 7, 2013, Costamare Shipping entered into a co-operation agreement (the Co-operation Agreement) with third-party ship managers V.Ships Greece Ltd., pursuant to which the two companies will establish a ship management cell (the Cell) under V.Ships Greece Ltd. In April 2013, the Cell commenced providing technical, crewing, provisioning, bunkering, sale and purchase and accounting services, as well as certain commercial management services, to Costamare Inc. container vessels, which will initially cover about 22 container vessels, including all container vessels currently managed by CIEL, pursuant to separate management agreements to be entered into with V.Ships Greece Ltd. in respect of each container vessel, for a daily management fee. Costamare Shipping will remain the head manager for all vessels owned by the Company. The Cell will also offer ship management services to third-party owners and the net profits from the operation of the Cell will be split equally between V.Ships Greece Ltd. and Costamare Shipping. Costamare Shipping has agreed to pass to the Company the net profit, if any, it receives pursuant to the Co-operation Agreement as a refund or reduction of the management fees payable by the Company to Costamare Shipping under the Group Management Agreement.

On September 21, 2010, the Company through its three wholly-owned subsidiaries, Adele Shipping Co., Bastian Shipping Co. and Cadence Shipping Co., contracted with a shipyard for the construction and purchase of three newbuild vessels (Hulls H1068A, H1069A and H1070A), each of approximately 9,403 TEU capacity at a contract price per newbuild vessel of \$95,080. These three newbuild vessels are scheduled to be delivered between December 2013 and February 2014, and the Company entered into ten-year charter party agreements from their delivery from the shipyard at a daily rate of \$43 each.

On January 28, 2011, the Company, through its two wholly-owned subsidiaries Jodie Shipping Co. and Kayley Shipping Co., contracted with a shipyard for the construction and purchase of two newbuild vessels (Hulls S4010 and S4011), each of approximately 8,827 TEU capacity. 12. Interest and Finance Costs:

The amounts in the accompanying consolidated statements of income are analyzed as follows:

	2012	2013
Interest expense	6,565	7,079
Interest capitalized	(1,733)	(3,215)
Swap effect	13,723	12,345
Amortization of financing costs	222	277
Commitment fees	1,393	1,009
Bank charges and other	70	69
	20,240	17,564

13. Taxes:

Under the laws of the countries of the companies' incorporation and / or vessels' registration, the companies are not subject to tax on international shipping income; however, they are subject to registration and tonnage taxes, which are included in Vessel operating expenses in the accompanying consolidated statements of income.

The vessel owning companies with vessels that have called on the United States during the relevant year of operation are obliged to file tax returns, with the Internal Revenue Service. The applicable tax is 50% of 4% of U.S. related gross transportation income unless an exemption applies. Management believes that based on current legislation the relevant vessel owning companies are entitled to an exemption because they satisfy the relevant requirements, namely that (i) the related vessel owning companies are incorporated in a jurisdiction granting an equivalent exemption to U.S. corporations and (ii) over 50% of the ultimate stockholders of the vessel owning companies are residents of a country granting an equivalent exemption to U.S. persons.

14. Derivatives:

(a) Interest rate swaps that meet the criteria for hedge accounting: The Company, according to its long-term strategic plan to maintain stability in its interest rate exposure, has decided to minimize exposure to floating interest rates by entering into interest rate swap agreements. To this effect, the Company has entered into interest rate swap transactions with varying start and maturity dates, in order to proactively and efficiently manage its floating rate exposure.

These interest rate swaps are designed to hedge the variability of interest cash flows arising from floating rate debt, attributable to movements in three-month or six-month USD LIBOR. According to the Company's Risk Management Accounting Policy, after putting in place the formal documentation required by ASC 815 in order to designate these swaps as hedging instruments, as from their inception, these interest rate swaps qualified for hedge accounting. Accordingly, since that time, only hedge ineffectiveness amounts arising from the differences in the change in fair

value of the hedging instrument and the hedged item are recognized in the Company's earnings. Assessment and measurement of prospective and retrospective effectiveness for these interest rate swaps are being performed on a quarterly basis. For qualifying cash flow hedges, the fair value gain or loss associated with the effective portion of the cash flow hedge is recognized initially in stockholders' equity and recognized to the consolidated statement of income in the periods when the hedged item affects profit or loss. Any ineffective portion of the gain or loss on the hedging instrument is recognized in the consolidated statement of income immediately.

The interest rate swaps included in the table above are for the Credit Facility discussed in Note 8 and the term loans discussed in Note 8.2.1, 8.2.2, 8.2.3, 8.2.5, 8.2.6, 8.2.10, 8.2.11 and 8.2.12.

In the three-month periods ended March 31, 2012 and 2013, the realized ineffectiveness of the interest rate swaps discussed under (a) above was \$0.

(b) Interest rate swaps that do not meet the criteria for hedge accounting: As of both December 31, 2012 and March 31, 2013, the Company had outstanding one interest rate swap agreement for the purpose of managing risks associated with the variability of changing LIBOR-related interest rates. Such agreement did not meet hedge accounting criteria and therefore changes in its fair value are reflected in earnings. More specifically, the swap has a Notional amount \$100,000 non-amortizing zero-cost collar (1.37%-6.00%) with a knock-in floor sold at 1.37% and struck at 6.00%, as a nine-year forward hedge, covering the period from September 2008 to March 2017. At December 31, 2012 and March 31, 2013, the fair value of this swap was a liability of \$21,865 and \$18,703, respectively and is included in Fair value of derivatives in the accompanying consolidated balance sheets.

(c) Foreign currency agreements: As of March 31, 2013, the Company was engaged in five Euro/U.S. dollar contracts totaling \$8,500 at an average forward rate of Euro/U.S. dollar 1.285 expiring in monthly intervals up to June 2013.

As of December 31, 2012, the Company was engaged in two Euro/U.S. dollar contracts totaling \$5,000 at an average forward rate of Euro/U.S. dollar 1.280 expiring in monthly intervals up to February 2013.

The total change of forward contracts fair value for the three-month period ended March 31, 2013, was a loss of \$173 and for the three-month period ended March 31, 2012, was a gain of \$1,214 and are included in Gain / (loss) on derivative instruments in the accompanying consolidated statements of income.

15. Financial Instruments:

(a) *Interest rate risk:* The Company's interest rates and loan repayment terms are described in Note 8.

(b) *Concentration of credit risk:* Financial instruments consist principally of cash, trade accounts receivable, investments and derivatives. The Company places its temporary cash investments, consisting mostly of deposits, primarily with high credit rated financial institutions. The Company performs periodic evaluations of the relative credit standing of those financial institutions that are considered in the Company's investment strategy. The Company limits its credit risk with accounts receivable by performing ongoing credit evaluations of its customers' financial condition and generally does not require collateral for its accounts receivable and does not have any agreements to mitigate credit risk. The Company limits the exposure of non-performance by counterparties to derivative instruments by diversifying among counterparties with high credit ratings and performing periodic evaluations of the relative credit standing of the counterparties.

(c) *Fair value:* The carrying amounts reflected in the accompanying consolidated balance sheet of financial assets and accounts payable approximate their respective fair values due to the short maturity of these instruments. The fair value of long-term bank loans with variable interest rates approximate the recorded values, generally due to their variable interest rates. The fair value of the interest rate swap agreements discussed in Note 14 above are determined through Level 2 of the fair value hierarchy as defined in FASB guidance for Fair Value Measurements and are derived principally from or corroborated by observable market data, interest rates, yield curves and other items that allow value to be determined.

The fair value of the interest rate swap agreements discussed in Note 14(a) and (b) equates to the amount that would be paid by the Company to cancel the agreements. As at December 31, 2012 and March 31, 2013, the fair value of these interest rate swaps in aggregate amounted to a liability of \$180,811 and \$165,251, respectively.

The fair market value of the forward contracts discussed in Note 14(c) determined through Level 2 of the fair value hierarchy as at December 31, 2012 and March 31, 2013 amounted to an asset of \$165 and a liability of \$8, respectively.

The following tables summarize the hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique on a recurring basis as of the valuation date.
