Fifth Amended and Restated Credit Agreement

On May 2, 2011, Linn Energy, LLC (the “Company”) entered into the Fifth Amended and Restated Credit Agreement (the “Amended Credit Agreement”), among the Company, BNP Paribas, as administrative agent, and the other agents and lenders party thereto, which amends and restates the Company’s Fourth Amended and Restated Credit Agreement, as amended (the “Existing Facility”).

The Amended Credit Agreement has a maturity of April 6, 2016 and provides for a revolving credit facility up to the lesser of (i) the then effective borrowing base and (ii) the maximum commitment amount of \$1.5 billion. The initial borrowing base under the Amended Credit Agreement is \$2.5 billion. Borrowings under the Amended Credit Agreement are available for working capital and other general corporate purposes, including the acquisition and development of natural gas and oil properties and distributions to unitholders.

The borrowing base under the Amended Credit Agreement will be redetermined semi-annually by the lenders in their sole discretion, based on, among other things, reserve reports as prepared by reserve engineers taking into account the natural gas and oil prices at such time. The Company’s obligations under the Amended Credit Agreement are secured by mortgages on its and certain of its material subsidiaries’ natural gas and oil properties and other personal property as well as a pledge of all of its and its subsidiaries’ ownership interests in its direct or indirect material subsidiaries. The Company and its subsidiaries are required to maintain the mortgages on properties representing at least 80% of the natural gas and oil properties of the Company and its subsidiaries. Additionally, the obligations under the Amended Credit Agreement are guaranteed by all of the Company’s material subsidiaries and are required to be guaranteed by any future material subsidiaries.

At the Company’s election, interest on borrowings under the Amended Credit Agreement is determined by reference to either the LIBO Rate (as defined therein) plus an applicable margin between 1.75% and 2.75% per annum or the Alternate Base Rate (as defined therein) plus an applicable margin between 0.75% and 1.75% per annum. Interest is generally payable quarterly for loans bearing interest based on the Alternate Base Rate and at the end of the applicable interest period for loans bearing interest based on the LIBO Rate. The Company is required to pay a commitment fee to the lenders under the Amended Credit Agreement, which accrues at a rate per annum equal to 0.50% on the average daily unused amount of the lesser of (i) the maximum commitment amount of the Lenders and (ii) the then effective borrowing base.

The Amended Credit Agreement contains various covenants, substantially similar to the Existing Facility, that limit the Company's ability to incur indebtedness, enter into commodity and interest rate swaps, grant certain liens, make certain loans, acquisitions, capital expenditures and other investments, make distributions other than from available cash, merge or consolidate, or engage in certain asset dispositions, including a sale of all or substantially all of the Company's assets. The Amended Credit Agreement also contains covenants, substantially similar to the Existing Facility, that require the Company to maintain specified financial ratios. The other terms and conditions of the Amended Credit Agreement are substantially similar to the Existing Facility.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to the Amended Credit Agreement, a copy of which will be filed with the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2011.
