PROXY STATEMENT FOR THE
2018 ANNUAL MEETING OF STOCKHOLDERS
INFORMATION ABOUT THE MEETING, VOTING AND PROXIES

Date, Time and Place of Meeting

Our Board of Directors (the “Board”) is asking for your proxy for use at the Rosetta Stone Inc. 2018 Annual Meeting of Stockholders (the “2018 Annual Meeting”) and at any adjournment or postponement thereof for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. We are holding the 2018 Annual Meeting on Monday, June 18, 2018 at 3:00 p.m. local time at our offices at 1621 North Kent Street, Suite 1200, Arlington, Virginia 22209. Directions to the 2018 Annual Meeting may be found at <http://www.rosettastone.com/directions>. We have first released this proxy statement to our stockholders beginning on or about May 3, 2018.

Internet Availability of Proxy Materials

Under rules adopted by the U.S. Securities and Exchange Commission (the “SEC”), we furnish our proxy materials on the Internet. Instructions on how to access and review the proxy materials on the Internet can be found on the proxy card sent to stockholders of record and on the Notice of Internet Availability of Proxy Materials (the “Notice”) sent to stockholders who hold their shares through a brokerage firm or bank, also referred to as holding shares in street name. The Notice will also include instructions for stockholders who hold their shares in street name on how to vote over the Internet.

Record Date, Outstanding Shares and Quorum

Only holders of record of our common stock on April 20, 2018 (the “Record Date”) will be entitled to vote at the 2018 Annual Meeting. On the Record Date, we had approximately 24,214,618 shares outstanding and entitled to vote. We need a quorum to take action at the 2018 Annual Meeting. We will have a quorum if a majority of the shares outstanding and entitled to vote on the Record Date are present at the 2018 Annual Meeting, either in person or represented by proxy.

If by the date of the 2018 Annual Meeting we do not receive sufficient shares to constitute a quorum or approve one or more of the proposals, the Chairman of the Annual Meeting, or the persons named as proxies, may propose one or more adjournments of the Annual Meeting to permit further solicitation of proxies. The persons named as proxies would typically exercise their authority to vote in favor of adjournment.

Voting Rights

Holders of our common stock are entitled to one vote for each share they own on the Record Date. Cumulative voting for directors is not permitted. The Inspector of Elections appointed for the 2018 Annual Meeting will tabulate all votes. The Inspector will separately tabulate for and against votes, withhold votes, abstentions and broker non-votes for each proposal, as applicable.

Table of Contents

Voting and Revoking Proxies

Our Board of Directors is soliciting proxies to vote your shares at the 2018 Annual Meeting. If you attend the 2018 Annual Meeting, you may submit your vote in person, and any proxy that you previously submitted may be revoked and superseded by the vote that you cast at the 2018 Annual Meeting.

If you properly submit your proxy, and do not revoke it prior to the 2018 Annual Meeting, your shares will be voted in the manner described in this proxy statement or as you may otherwise direct. If you sign and return your proxy card, but do not give any voting instructions, your shares will be voted in favor of the election of each of the director nominees listed in Proposal 1 and in favor of Proposals 2 and 3. As far as we know, no other matters will be presented at the 2018 Annual Meeting. However, if any other matters of business are properly presented, the proxy holders named on the proxy card are authorized to vote the shares represented by proxies according to their judgment.

Whether you submit your proxy via the Internet or by mail, you may revoke it at any time before voting takes place at the 2018 Annual Meeting. If you are the record holder of your shares and you wish to revoke your proxy, you must deliver instructions to the General Counsel and Secretary at our headquarters and principal executive office: Rosetta Stone Inc., 1621 North Kent Street, Suite 1200, Arlington, Virginia 22209. You may also revoke a proxy by submitting a later-dated proxy or by voting in person at the 2018 Annual Meeting. Please note that if a broker, bank or other nominee is the record holder of your shares and you wish to vote at the 2018 Annual Meeting, you must bring to the 2018 Annual Meeting a letter from the record holder confirming your beneficial ownership of the shares. If a broker, bank or other nominee is the record holder of your shares and you wish to revoke your proxy, you must contact the record holder of your shares directly.

Abstentions and Broker Non-Votes

Any shares represented by proxies that are marked to abstain from voting on a proposal will be counted as present in determining whether we have a quorum. They will also be counted in determining the total number of shares entitled to vote on a proposal.

If your shares are held in street name and you do not instruct your broker on how to vote your shares, your broker, in its discretion, may either leave your shares un-voted or vote your shares on certain routine matters. However, the New York Stock Exchange (the "NYSE") precludes brokers from exercising voting discretion on certain proposals without specific instructions from the beneficial owner. Importantly, NYSE rules expressly prohibit brokers holding shares in street name for their beneficial holder clients from voting in uncontested director elections or executive compensation matters, including say-on-pay proposals, without receiving specific voting instructions from those clients. Under NYSE rules, only Proposal No. 2 (ratifying the selection of our independent registered public accounting firm) should be treated as a routine matter on which a broker can exercise its discretion and vote your shares without specific instructions. If your broker votes on your behalf on this proposal, your shares also will be counted as present for the purpose of determining a quorum. Proposals 1 and 3 are not considered routine matters, and, without your instruction, your broker cannot vote your shares with respect to these proposals. If a broker, bank, custodian, nominee or other record holder of Rosetta Stone stock indicates on a proxy that it does not have discretionary authority to vote certain shares on a particular matter, these shares (called "broker non-votes") will be counted as present in determining whether we have a quorum.

Soliciting Proxies

We will pay all expenses of soliciting proxies to be voted at the 2018 Annual Meeting. After the proxies are initially distributed, we and/or our directors, officers and regular employees may also solicit proxies by mail, electronic mail, telephone or in person. We will ask brokers, custodians, nominees and other record holders to prepare and send the

Notice to people or entities for which they hold shares and forward copies of the proxy materials to beneficial owners who request paper copies, and we may reimburse them for their expense in doing so.

Delivery of Voting Materials to Stockholders Sharing an Address

To reduce the expense of delivering duplicate materials to stockholders sharing the same address, we have adopted a procedure approved by the SEC called “householding.” Under this procedure, certain stockholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of the Notice, Annual Report on Form 10-K and proxy materials, as applicable, sent to stockholders until such time as one or more of these stockholders notifies us that they wish to receive individual copies. In addition, your broker or bank may also follow this procedure. This procedure will reduce duplicate mailings and save printing costs and postage fees, as well as natural resources.

How to Obtain a Separate Set of Voting Materials

If you would like to have additional copies of our Notice, Annual Report on Form 10-K and proxy materials, as applicable, mailed to you, please submit your request to the General Counsel and Secretary at our headquarters, Rosetta Stone Inc., 1621 North Kent Street, Suite 1200, Arlington, Virginia 22209, or call the General Counsel and Secretary at (703) 387-5800 and we will promptly deliver these materials to you. Copies of our Annual Report on Form 10-K do not include exhibits unless exhibits are specifically requested in writing. You may also contact us at the address or phone number above if you received multiple copies of materials for the 2018 Annual Meeting and would prefer to receive a single copy in the future. If you would like to opt out of householding for future mailings, call the General Counsel and Secretary at (703) 387-5800 or send a written request to the General Counsel and Secretary at the above address.

Annual Report on Form 10-K and Additional Materials

The Notice of Annual Meeting, this Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 have been made available to all stockholders entitled to vote at the 2018 Annual Meeting and who received the Notice. The Annual Report on Form 10-K can also be viewed at <http://www.cstproxy.com/rosettastone/2018>.

OUR BOARD OF DIRECTORS AND NOMINEES

Our Board of Directors currently consists of eight directors and is divided into three classes, with the nominees for one class to be elected at each annual meeting of stockholders, to hold office for a three-year term and until successors of the members of such class have been elected and qualified, subject to their earlier death, resignation or removal. During 2017 and 2018, our Board conducted an extensive search for director nominees in order to strengthen the composition of the Board and gain additional expertise in the area of education technology. Following this search, in October 2017, our Board unanimously voted to increase the size of the Board from six to seven directors, and appointed Jessie Woolley-Wilson to Class III of our Board of Directors. In March 2018, our Board unanimously voted to increase the size of the Board from seven to eight directors, and appointed George A. Logue to Class III of our Board of Directors. Also in March 2018, Caroline Tsay, a Class III member of our Board, notified the Board of her decision not to stand for re-election at the 2018 Annual Meeting.

Our Board of Directors believes that the board composition and size following the addition of Ms. Woolley-Wilson’s and Mr. Logue’s appointments and the departure of Ms. Tsay is sufficient to provide all required oversight, governance, and related board duties.

Only the terms of the Class III directors are scheduled to expire on the date of the upcoming 2018 Annual Meeting. Based on the recommendation of the Corporate Governance and Nominating Committee of our Board of Directors, the nominees for election to the Board of Directors by the stockholders are three current Class III members of our

Board, who are Patrick W. Gross, George A. Logue and Jessie Woolley-Wilson. If elected, the nominees will serve as directors until the Annual

3

Table of Contents

Meeting of Stockholders in 2021 and until their successors are elected and qualified, subject to their earlier death, resignation or removal.

The names and certain information about the nominee directors and the continuing directors in each of the other two classes of our Board are set forth below. There are no family relationships among any of our directors or executive officers.

It is intended that the proxy will be voted, unless otherwise indicated, for the election of the nominees as Class III directors to our Board of Directors. If any of the nominees should for any reason be unable or unwilling to serve at any time prior to the 2018 Annual Meeting, the proxies may be voted for the election of a substitute nominee that our Board may designate in place of such nominee.

Because the upcoming 2018 Annual Meeting will trigger the expiration of the terms of only the Class III directors, proxies cannot be voted for more than three director nominees. The three candidates receiving the highest number of affirmative votes of the shares of our common stock entitled to vote at the 2018 Annual Meeting will be elected Class III directors to serve for a three-year term and until their successors have been duly elected and qualified, subject to their earlier death, resignation or removal.

CORPORATE GOVERNANCE

Our Board of Directors believes that good corporate governance is important to ensure that Rosetta Stone is managed for the long-term benefit of our stockholders. This section describes key corporate governance guidelines and practices that our Board has adopted. Complete copies of our corporate governance guidelines, committee charters and Code of Ethics and Business Conduct are available on the investor relations section under the corporate governance page of our corporate website, www.rosettastone.com. Alternatively, you can request a copy of any of these documents by writing to the General Counsel and Secretary at: Rosetta Stone Inc., 1621 North Kent Street, Suite 1200, Arlington, Virginia 22209.

Code of Ethics and Business Conduct

We have adopted a Code of Ethics and Business Conduct applicable to directors and all employees, including our principal executive, financial and accounting officers and all persons performing similar functions. A copy of that code is available on our corporate website at www.rosettastone.com. We intend to satisfy the disclosure requirements under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) regarding an amendment to, or waiver concerning a material departure of a provision of our Code of Ethics and Business Conduct involving our principal executive, financial or accounting officer or controller by posting such information on our website.

Composition of our Board of Directors; Classified Board

Our Board of Directors currently consists of eight members, seven of whom are non-employee members and are considered independent under NYSE rules. Each director holds office until the election and qualification of his or her successor, or his or her earlier death, resignation or removal. Our bylaws permit our Board of Directors to establish by resolution the authorized number of directors. Our bylaws provide that our Board of Directors is divided into three classes of directors, each serving a staggered three-year term. As a result, one class of our Board of Directors will be elected at each annual meeting for three-year terms.

Our Board of Directors is classified as follows:

David Nierenberg and Steven P. Yankovich are designated Class I Directors whose terms will expire at our 2019 Annual Meeting of Stockholders;

A. John Hass III and Laurence Franklin are designated Class II Directors whose terms will expire at our 2020 Annual Meeting of Stockholders; and

Patrick W. Gross, George A. Logue, Caroline Tsay and Jessie Woolley-Wilson are designated Class III Directors whose terms will expire at our upcoming Annual Meeting; if re-elected at our upcoming Annual Meeting, these directors will have terms that expire at our 2021 Annual Meeting of Stockholders. Ms. Tsay has notified the Board of her decision not to stand for re-election at the 2018 Annual Meeting.

Our bylaws provide that the number of authorized directors will be determined from time to time by resolution of our Board of Directors. Any vacancy created by a resignation of a director shall automatically reduce the number of directors on our Board accordingly, upon the effective date of such resignation. Any additional directorships resulting from an increase in the number of authorized directors will be distributed among the three classes so that, as nearly as reasonably possible, each class will consist of one-third of the directors. The classification of our Board of Directors may have the effect of delaying or preventing changes in control of our Company. Our certificate of incorporation further provides for the removal of a director only for cause and by the affirmative vote of the holders of a majority of the shares then entitled to vote at an election of our directors.

Table of Contents

Director Independence

Our Board of Directors reviewed the independence of each director other than Mr. Logue in February 2018, and reviewed the independence of Mr. Logue in March 2018, and considered whether any director had or has a material relationship with us that could compromise his or her ability to exercise independent judgment in carrying out his or her responsibilities. As a result of this review, our Board of Directors determined that all of our directors, other than our President and Chief Executive Officer, A. John Hass III, were “independent directors” and meet the independence requirements under the listing standards of the NYSE and rules and regulations of the SEC.

Our Corporate Governance Guidelines provide that the non-management directors will regularly meet in executive session, without management present. As required under applicable NYSE listing standards, in the year ended December 31, 2017, our non-management directors met in regularly scheduled executive sessions at which only non-management directors were present. As Lead Director, Mr. Gross presided over these sessions. Mr. Gross is an “independent director” and meets the independence requirements under the listing standards of the NYSE.

Board Leadership Structure and Role in Risk Oversight

Our Board of Directors believes it is important to retain its flexibility to allocate the responsibilities of the offices of the Chairman of the Board and the Chief Executive Officer in a way that is in the best interest of the Company at any given point of time. The Board of Directors may make a determination as to the appropriateness of its current policies in connection with the recruitment and succession of the Chairman of the Board and/or the Chief Executive Officer.

Our Board of Directors appointed Mr. Hass to serve as President, Chief Executive Officer and Chairman of the Board effective April 1, 2016. Mr. Hass previously served as a director since November 2014. We believe that as President and Chief Executive Officer, Mr. Hass is in the best position to focus the independent directors’ attention on the issues of greatest importance to the Company and its stockholders. At any time that the Chairman of the Board is not an individual who is independent under the rules of the NYSE, the Board of Directors will appoint a Lead Independent Director elected by the independent directors, with broad authority and responsibility over Board governance and operations. This structure allows one person to speak for and lead both the Company and the Board of Directors, while also providing for effective independent board oversight through a Lead Independent Director.

The Lead Independent Director has the following authority, as detailed in the Company’s Corporate Governance Guidelines:

- preside at all meeting of the Board at which the Chairman of the Board is not present, including executive sessions of the independent directors;
- serve as a liaison between the Chairman of the Board and the independent directors;
- approve information sent to the Board;
- approve meeting agendas for the Board;
- approve meeting schedules to assure that there is sufficient time for discussion of all agenda items; and
- call meetings of the independent directors.

Mr. Gross acted as Lead Independent Director from February 2012 to May 2013 until he was appointed Chairman of the Board in May 2013. Mr. Gross served as Chairman of the Board until Mr. Hass was appointed as Chairman of the Board, effective April 1, 2016. In light of Mr. Gross’ experience, the independent directors elected Mr. Gross as Lead Independent Director on April 1, 2016. Mr. Gross also serves as a member of our Audit, Compensation, Corporate Governance and Nominating and Transaction Committees.

The Board of Directors oversees risk by actively reviewing management decisions and financial controls at both the full Board and Board committee levels. The Board of Directors takes a hands-on role in risk management practices in such areas as credit risk, liquidity risk, and operational risk by obtaining detailed reports from management, maintaining continuous dialogue with management, and providing extensive input on material corporate decisions. The Board of Directors extensively oversees management, particularly through periodic conferences between the Chief Executive Officer and certain members of the Board of Directors. The extent of the Board of Directors' oversight function has the effect of solidifying the Board's leadership structure by providing excellent knowledge of the day-to-day workings of the Company to the Board of Directors.

The Audit Committee assists our Board of Directors in risk oversight by reviewing and discussing policies with management and the independent auditor regarding our major financial risk exposures and the steps management has taken to monitor and control such exposures. The Audit Committee, as part of its independent auditor and internal audit oversight, also reviews and discusses the effectiveness of our disclosure controls and internal control over financial reporting and the performance of the internal audit function. The Compensation Committee also ensures that our compensation practices are in line with best practices with respect to "say on pay" philosophies and guidelines.

The Corporate Governance and Nominating Committee evaluates the Board of Directors' corporate governance guidelines and other Board and committee processes.

The Business Advisory Committee, a special ad hoc advisory committee that was formed to replace and combine the former Consumer Advisory Committee and E&E Advisory Committee, provides operational and strategic thought-partnership to the E&E and Consumer business leadership.

The Transactions Committee is a special ad hoc advisory committee formed to review strategic transactions and operational alternatives for the Company.

Our Board of Directors receives periodic reports from each of these committees on their activities.

Policy Governing Director Qualifications and Nominations

We seek directors who possess, at a minimum, the qualifications and skills described below as set forth in our Policy Governing Director Qualifications and Nominations. We consider diversity in our nomination of directors, and in our assessment of the effectiveness of the Board of Directors and its committees. In considering diversity, we evaluate each director candidate in the context of the overall composition and needs of our Board of Directors, with the objective of recommending a group that can best manage the business and affairs of the Company and represent stockholder interests using its diversity of backgrounds and experience. Our Corporate Governance and Nominating Committee will consider these and other qualifications, skills, and attributes when recommending candidates to our Board of Directors.

Our Corporate Governance and Nominating Committee must be satisfied that each Committee-recommended nominee meets the following minimum qualifications:

- the candidate shall exhibit high standards of integrity, commitment, and independence of thought and judgment;

DIRECTOR COMPENSATION

Non-Employee Director Compensation Policy

The Compensation Committee is responsible for the review and oversight of non-employee director compensation of our Board of Directors in relation to the market and our peer data. We have adopted a compensation policy under which our non-employee directors receive an annual retainer for Board and committee membership, as well as additional fees for attending certain Board and committee meetings. An additional retainer is also provided to individuals who serve as chair of a committee or the Board.

In 2016, as part of cost efficiency efforts, the Compensation Committee reviewed the Company's non-employee director compensation policy against peer companies and adjusted the policy to also allow non-employee directors to choose payment in non-qualified stock options ("NQSOs") or restricted stock units ("RSUs") for the annual retainer for Board and Committee membership and the annual retainer for chairing the Board of Directors and Committees of the Board, as an expression of commitment and confidence of the Company's long-term success. The Compensation Committee also adjusted the vesting schedule of restricted stock units ("RSUs"), which comprise 50% of director's annual grants of equity, to vesting quarterly over one year, conditioned upon the director's continued service on our Board of Directors during that year, and paid out in shares of our common stock upon the recipient director's separation from service on our Board of Directors. The Compensation Committee also provided for an annual retainer for the Lead Director of the Board. After reviewing non-employee director compensation market data, no changes were made to the non-employee director compensation policy in 2017. The current non-employee director compensation policy provides that each non-employee director will receive the following compensation for Board and Committee services:

- an annual retainer for Board membership of \$40,000 paid in cash, NQSOs or RSUs at the choice of the director;

- an annual retainer of \$40,000 for chairing the Board of Directors, paid in cash, NQSOs or RSUs at the election of a non-employee Chairman of the Board;

- an annual retainer of \$15,000 for acting as Lead Director of the Board of Directors, paid in cash, NQSOs or RSUs at the choice of the Lead Director;

- an annual retainer of \$20,000 for chairing the Audit Committee, \$10,000 for chairing the Compensation Committee, and \$5,000 for chairing the Corporate Governance and Nominating Committee, each paid in cash, NQSOs or RSUs at the choice of the director;

- an annual retainer of \$10,000 for serving as a member of one or more Board committees (regardless of the number of committees served), paid in cash, NQSOs or RSUs at the choice of the director; and

- an annual grant of equity with a fair market value as of the date of grant of \$100,000 comprised of:

- 50% NQSOs vesting quarterly over one year conditioned upon the director's continued service on our Board of Directors during that year; and

- 50% RSUs vesting quarterly over one year conditioned upon the director's continued service on our Board of Directors during that year and which will be paid out in shares of our common stock following the recipient director's separation from service from the Company.

All cash retainers will be paid annually upon Board of Directors approval, with one-fourth of the total paid quarterly in arrears. Additionally, in the event of a change to the designated chair for each committee, the annual cash retainer for chairing a

19

committee will be prorated based on the number of days the chair held the position. Non-employee directors are also encouraged to accumulate stock ownership, including ownership of RSUs, equal in value to three times the annual retainer for Board membership within three years of their appointment to the Board of Directors. All of our directors have achieved or are on course to achieve this threshold based on the applicable tenure of and payment to the individual directors.

In addition, our stockholders must comply with other requirements of the SEC related to stockholder proposals that are to be included in proxy statements as set forth in Rule 14a-8 of the Securities Exchange Act of 1934, as amended.

If a proposal or nomination is not to be included in our proxy statement, any stockholder who wishes to bring a proposal or nominate a person for election to our Board of Directors at the 2018 Annual Meeting of Stockholders must provide written notice of the proposal or nomination to our General Counsel and Secretary, at our principal executive offices, between February 18, 2019 and March 20, 2019, which is 120 to 90 days prior to the one year anniversary of the upcoming 2018 Annual Meeting. These time periods are designed to allow us time to adequately consider all proposals and nominees.

To be considered, each nomination must include the following information:

all information relating to the nominee that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to and in accordance with Section 14 of the Exchange Act and the rules and regulations promulgated thereunder;

a written representation and agreement, in the form provided by our General Counsel and Secretary upon written request, that the nominee is not and will not become a party to any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any person or entity as to how the nominee, if elected as a director, will act or vote on any issue or question that has not been disclosed to us or that could limit or interfere with the nominee's ability to comply, if elected as a director, with the nominee's fiduciary duties under applicable law, is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than us with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as our director that has not been disclosed to us, and in the nominee's individual capacity and on behalf of any person or entity on whose behalf the nomination is being made, would be in compliance, if elected as our director, and will comply with all of our applicable publicly disclosed corporate governance, conflict of interest, confidentiality and stock trading policies and guidelines.

The proposing stockholder must also include such other information as we may reasonably require or that is otherwise reasonably necessary to determine the eligibility of such proposed nominee to serve as a director of our Company, to determine whether such nominee qualifies as an "independent director" or "audit committee financial expert" under applicable law, securities exchange rule or regulation, or any of our publicly-disclosed corporate governance guidelines or committee charters, including our Corporate Governance Guidelines, and that could be material to a reasonable stockholder's understanding of the independence and qualifications, or lack thereof, of such nominee.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, as well as beneficial owners of more than ten percent of our common stock, to file with the SEC an initial report of ownership of our stock on Form 3 and reports of changes in ownership on Form 4 or Form 5. Persons subject to Section 16 are required by SEC regulations to furnish us with copies of all Section 16(a) forms that they file. As a matter of practice, our staff assists our executive officers and directors in preparing initial ownership reports and reporting ownership changes and typically files those reports on their behalf. Based solely on a review of the copies of such forms in our possession and on written representations from reporting persons, we believe that during the fiscal year ended December 31, 2017, one required report was not filed on a timely basis under Section 16(a) of the Exchange Act by our executive officers and directors, as well as beneficial owners of more than ten percent of our common stock.

Fiscal Year 2017

In 2017, to position Rosetta Stone for success, we focused on the following priorities:

growing literacy sales by providing digital instruction and assessment tools for K-12, building a direct sales force to augment our historical reseller model, and continuing to develop our implementation services business;

positioning our E&E Language business for profitable growth by focusing our direct sales on our best geographies and customer segments, partnering with resellers in other geographies and successfully delivering our Catalyst product to corporate customers;

successfully transitioning from CDs to subscriptions for our Consumer Language products and seeking additional growth opportunities with a greater emphasis on a streamlined, mobile-oriented product portfolio focused on our customers' needs, while optimizing our marketing spend appropriately;

seeking opportunities to leverage our content, tools and pedagogy, as well as our well-known Rosetta Stone brand, through partnerships with leading players in key markets around the world; and

continuing to identify opportunities to become more efficient.

We executed on these priorities in 2017 by

increasing Lexia Learning sales by 24% over 2016;

continuing to build Lexia's direct sales force and K-12 literacy product portfolio;

largely completing the transition of the Consumer Language business to a subscription-based model from a one-time CD-based sales model;

introducing new products in our Consumer and Enterprise & Education Language businesses and new features and functionality to our apps;

completing partnerships including one in Japan with SOURCENEXT;

continuing to reduce expenses, with total operating expenses reduced by over \$120 million versus 2014 levels; and

maintaining an adequate cash balance, which was \$43 million as of December 31, 2017, with no outstanding debt.

These actions led to financial results that met or exceeded our guidance expectations.

We aligned our compensation program to drive our business priorities and to enhance alignment with the long-term interests of stockholders in 2017 by:

adopting an Annual Incentive Program ("AIP") that emphasized the importance of increasing sales, profitable growth and the delivery of new products; and

incentivizing the creation of shareholder value and the retention of critical senior talent by instituting a Long-Term Performance-Based Equity Incentive Program ("LTIP").

Table of Contents

Our 2017 AIP and LTIP were based entirely on the achievement of the goals detailed below. Under the LTIP, we have placed an emphasis on achieving longer-term revenue and profit targets, which complement the goals of the AIP. We also have established non-financial goals. John Hass, our President and CEO, has been asked to work with our team to improve our competitive positioning across our key markets. Mr. Hass, Tom Pierno, our CFO, and Sonia Galindo, our General Counsel, have been tasked with identifying and executing strategic partnerships, licensing agreements or similar arrangements that leverage the power of our brand and products. Nick Gaehde, our President, Lexia Learning, is to invest in market research and government relations efforts to drive future growth. Mathew Hulett, our President, Language who joined the Company in August 2017, is participating in a modified 2017 LTIP based on 2018 financial goals related to the Company and Language business unit.

To conserve cash and to demonstrate our CEO's commitment to our long-term success, Mr. Hass was paid a cash annual base salary of only \$200,000 in 2017. The remainder of his 2017 target compensation was based in equity. Short and long-term performance share units ("PSUs") comprised 80% of Mr. Hass's 2017 target compensation. These PSUs will be paid out in shares of our common stock only if performance targets are achieved. The LTIP grants for the other NEOs were also made using PSUs and will be paid out in shares of our common stock only if performance targets are achieved. In addition, all members of the Board of Directors elected to take most, if not all, of their compensation in equity in 2017.

We will continue to adapt our compensation plans to the changing needs of our business and the long-term interests of our stockholders.

Advisory Vote on Executive Compensation

At our 2017 Annual Meeting of Stockholders, nearly 98% of the votes cast on the proposal were in favor of our NEO compensation as disclosed in our Current Report on Form 8-K filed with the SEC on May 19, 2017. The results of this vote led our Compensation Committee to conclude that our executive compensation program was endorsed by stockholders. Further, we believe our overall compensation philosophy and pay practices demonstrate an ongoing commitment to align executive compensation with the long-term interests of our stockholders and reflect evolving best practices.

Current Executive Compensation Best Practices

We employ the following executive compensation best practices.

- **Clawback Policy.** We have a Policy on Recoupment of Performance Based Compensation ("Clawback Policy"). Under the Clawback Policy, in the event of a restatement of our financial results, other than a restatement caused by a change in applicable accounting principles, we may review the circumstances that caused the restatement and recover certain performance-based incentive compensation wrongly awarded to an executive officer as a result of misconduct. The Clawback Policy applies to certain performance-based incentive compensation granted on or after January 1, 2014.

- **No Tax Gross-ups in Employment Agreements.** We do not have any contract or agreement with our NEOs that obligates us to make a payment to assist with the tax liability related to any amounts we pay our NEOs.

- **No Excessive Severance Payments.** Our termination arrangements with our NEOs do not contain excessive severance payments in cases of their termination.

No Guaranteed Bonuses. We believe that performance-based bonuses should reflect actual performance of the Company and/or individual. Therefore, we do not guarantee performance-based bonus payments to our NEOs.

Table of Contents

• **Double Trigger Vesting for Equity Awards.** Our equity awards do not vest upon consummation of a change in control, unless there is also a termination of service without cause or a voluntary resignation for good reason.

• **No Repricing or Replacing Outstanding Stock Options.** We do not permit the exercise price of an outstanding stock option to be changed without stockholder approval. We have never repriced or replaced any of our outstanding stock options.

• **Limited Use of Perquisites.** We do not believe in granting perquisites to our NEOs that are excessive in value or substantially different from the perquisites available to all our employees generally.

• **No Hedging or Pledging.** To ensure that the interests of our directors and employees are fully aligned with those of stockholders in general, our Insider Trading Compliance Policy prohibits our directors and employees from engaging in short-term or speculative transactions including selling our stock “short” and transacting in publicly-traded options, warrants, puts and calls or similar instruments on our securities. Directors and employees also are prohibited from holding our stock in a margin account or pledging our stock as collateral for a loan.

• **Stock Ownership Guidelines.** Executives are required to hold a significant equity interest in the Company. Effective January 1, 2013, our stock ownership guidelines are as follows:

Chief Executive Officer - equal in value to five times (5x) the market equivalent level of annual base salary; and

Other Executives - equal in value to twice (2x) their annual base salary.

Executive officers have five years from the date one becomes an executive officer to attain the equity ownership levels.

Elements of our Executive Compensation Program for Fiscal Year 2017

Our objective is to provide a competitive total compensation package to attract and retain key personnel and drive performance. To achieve this objective, the Compensation Committee has implemented and maintains compensation plans that are performance-based and tie a substantial portion of the executives’ overall compensation to strategic performance goals. Our executive compensation program consisted of four principal components in 2017:

- base salary;
- annual performance-based cash incentive;
- annual performance-based equity incentive; and
- long-term performance-based equity incentive.

Compensation of our Named Executive Officers

A detailed description of the components of our executive compensation program is provided below.

Base Salaries We use base salary to compensate our executive officers for performing the essential elements of their jobs. To enhance our ability to attract and retain executives in competitive markets, we establish each executive's base salary at approximately the median base salary of our peer group.

Annual Performance-Based Incentive Our annual incentive program is intended to reward our executive officers, including NEOs, for performance which meets or exceeds corporate financial and strategic goals. Each of the goals is independent of the other goals and is eligible for payout even if the other goals are not achieved.

Our Compensation Committee typically sets a specific threshold performance level for financial goals to ensure that a minimum quantitative hurdle is met before any payment is earned by an executive officer for that goal. Our Compensation Committee also establishes a target performance level that would result in a payout equal to 100% of an executive officer's annual cash incentive target payout amount. If specific milestones above the target performance level are achieved, payouts can reach 150% of an executive officer's annual cash incentive target payout amount. The non-financial strategic goals include specific quantitative milestones as well as other metrics and objectives that cannot be defined by bright-line measurements, which require more qualitative determination by our Compensation Committee.

Annual and Long-Term Performance-Based Equity Incentive We provide equity-based incentive compensation to (1) enhance our ability to retain talent over a longer period of time, (2) reward long-term achievements that enhance the future value of the Company, and (3) provide executives with a form of performance compensation that aligns their long-term interests with those of our stockholders using multi-year vesting and performance periods.

Our Compensation Committee intends to grant annual and long-term equity-based compensation awards to our executives in amounts that are competitive with the equity awards made by comparable public companies with whom we compete for talent. Our Compensation Committee may use restricted stock awards, performance share units and/or stock options.

Benefits NEOs generally participate in the same benefits programs offered to all employees. Our benefits, such as our basic health benefits, 401(k) Plan, and disability and life insurance, are intended to provide support to executives and their families throughout their careers. These core benefits are provided to all executives regardless of their individual performance levels. The 401(k) Plan allows participants to defer up to 100% of their annual compensation, subject to any applicable caps set by the Internal Revenue Code. The executives' elective deferrals are immediately vested and non-forfeitable upon contribution to the 401(k) Plan. We currently provide matching contributions equal to 100% of an employee's individual contribution, up to a maximum of 4% of the employee's annual salary, subject to certain limits.

For 2017, as detailed in the chart that follows, an average of approximately 59% of the target total direct compensation for our NEOs other than our CEO was at-risk, variable compensation. This compensation included the annual performance-based cash incentive, the annual performance-based equity incentive and the long-term performance-based equity incentive. All equity grants were valued based on the fair market value on the date of grant.

Compensation of our President and Chief Executive Officer

For 2017, Mr. Hass received

• an annual base salary of only \$200,000 in order to promote the conservation of cash and to align his compensation closely with annual and long-term value creation and share price appreciation;

• an annual equity award of \$350,000 of restricted stock, which vested in equal installments over twelve months through March 17, 2018;

• an annual performance-based equity award with a target value of \$1,100,000 aligned to 2017 Company financial and non-financial goals. Shares of our stock received upon achievement of those goals vest over three years on each anniversary date at a rate of 50%, 25% and 25%, respectively, beginning on March 17, 2018; and

• a long-term performance-based equity award with a target value of \$1,100,000 aligned to the achievement of revenue, profitability and strategic goals between January 2017 and December 2018. Shares of our stock received upon achievement of those goals vest ratably over two years, on each anniversary date, beginning on March 17, 2019.

As detailed in the chart below, approximately 93% of the 2017 target total direct compensation for our Chief Executive Officer, Mr. Hass, was at-risk, variable compensation. This compensation included the annual equity award, the annual performance-based equity incentive and the long-term performance-based equity incentive. All equity grants were valued based on the fair market value on the date of grant.

Determining the Amount of Each Element of Executive Compensation

Overview

Management is responsible for the compensation program for our executive officers, including NEOs, with our Compensation Committee's oversight. Management and our Compensation Committee consider several factors in determining the design and elements of our executive compensation program. In general, the weight of each element of our executive compensation program is recommended by management to our Compensation Committee on an annual basis and considers the following factors, among others:

- Company and individual performance;
- pay practices among competitive companies;
- the Company's desire to attract and retain key talent;
- broad economic factors; and
- the discretion of our Compensation Committee members based on their relevant experience.

In designing our executive compensation program, management and our Compensation Committee seek to achieve the appropriate balance between immediate cash rewards and performance-driven annual and long-term equity and cash incentives. In doing so, they reference both publicly-disclosed peer group compensation information and broad-based compensation survey data, as described below.

During 2017, management, on behalf of our Compensation Committee, engaged Exequity, an independent compensation consultant, on a very limited basis to provide our Compensation Committee with an update on executive compensation tax compliance matters.

Comparable Market Compensation

In analyzing the competitiveness of our executive compensation program, our Vice President of Human Resources and our Compensation Committee reviewed pay practices from two primary sources. The market data for our NEOs and other senior management team members was collected from peer group proxy data (as described below) and the Radford Global Technology Compensation Survey data (the "Radford Survey"). It is generally our policy to target compensation levels, both in aggregate and by element, to median compensation levels from each of these sources. The Radford Survey includes compensation market data from more than 2,000 companies and provides a holistic perspective on total compensation levels, practices and emerging trends. We reviewed the following types of companies in the Radford Survey to derive the overall data and medians against which we benchmarked our executive compensation levels:

- companies in the Internet/E-Commerce/Online Community industries;
- companies located in the mid-Atlantic states or in locations where we source our executive talent, such as in Seattle and Boston; and
- software and technology companies with most recent annual revenues ranging between \$50 million to \$399 million.

Table of Contents

Our Compensation Committee performs a formal review of our peer group annually and makes what it considers appropriate changes. In the third quarter of 2017, our Vice President of Human Resources reviewed the 2016 Peer Group to determine whether it remained an appropriate peer group for executive compensation benchmarking purposes, based on the following guiding principles and criteria:

- companies that compete with Rosetta Stone for key executive talent;
- publicly traded companies;
- similar or complementary industries;
- organizational structure;
- relative peer as indicated by the proxy advisory services;
- common operational or business challenges;
- investor feedback; and
- similar size in terms of revenue, market capitalization, and number of employees.

After reviewing the 2016 Peer Group and other relevant companies, management recommended to our Compensation Committee that our 2016 Peer Group be revised by removing three peer companies and adding three new peer companies for a total of 14 peer companies, which the Compensation Committee approved (the “2017 Peer Group”). The 2017 Peer Group consisted of:

2017 Peer Group

Actua Corporation	GluMobile, Inc.
American Public Education, Inc.	K12 Inc.
Bazaarvoice, Inc.	Liquidity Services, Inc.
Brightcove, Inc.	LivePerson, Inc.
Cambium Learning Group, Inc.	QAD Inc.
Capella Education Company	RealNetworks, Inc
Career Education Corp.	Strayer Education Inc.

For 2017, our NEOs’ base salaries and target annual cash and equity incentive opportunities were generally close to the median levels of the 2017 Peer Group. However, the grant date fair values of long-term performance-based incentive opportunities for our NEOs were generally above the 2017 Peer Group median. Through the LTIP, our Compensation Committee re-introduced long-term performance-based incentives in 2017 in order to align our executives with our long-term business plan and key strategic objectives, reward their achievement of the plan and objectives and provide a competitive and retentive element within our executive compensation program.

Role of Chief Executive Officer and Other Executives in Executive Compensation Decisions

Our Compensation Committee received recommendations from our Chief Executive Officer, our General Counsel and Secretary, in her capacity as the Chief of Human Resources, and our Vice President of Human Resources on the appropriate compensation levels for our NEOs, other than the Chief Executive Officer. The Chief Executive Officer provided information about the other NEOs’ performance to assist our Compensation Committee with its evaluations and decisions.

Overview of Our Executive Compensation Program for Fiscal Year 2017

Base Salaries

Management reviews and recommends to our Compensation Committee our executives' base salaries on an annual basis taking into consideration the factors described above as well as changes in position or responsibilities and time and experience in the position. In the event of material changes in position, responsibilities or other factors, management may recommend and our Compensation Committee may approve changes in base pay during the year.

In March 2017, our Compensation Committee completed its annual CEO assessment process, which included our Committee discussing and finalizing Mr. Hass's 2016 performance and compensation recommendations for 2017. It agreed to increase the base salary for Mr. Hass while maintaining a similar proportion of performance-based equity subject to the achievement of annual and long-term performance objectives. Our Compensation Committee also completed an annual assessment process for Messrs. Pierno and Gaehde and Ms. Galindo. Mr. Hulett was not included in this assessment process because he did not join the Company until August 2017. Our Compensation Committee did not make any changes to base salaries as a result of these assessments other than for Mr. Hass.

Name	2016 Base Salary (\$)	Annualized Base Salary after	
		2017 Adjustments (\$)	% Change
A. John Hass III (1)	50,000	200,000	400.00%
Thomas M. Pierno	340,000	340,000	--%
Sonia Galindo	325,000	325,000	--%
Mathew N. Hulett (2)	--	350,000	--%
Nicholas C. Gaehde (3)	300,000	300,000	--%

(1)Mr. Hass also received an equity award of \$350,000 of restricted stock which vested in equal installments over twelve months through March 17, 2018.

(2)Mr. Hulett was appointed as President, Language as of August 21, 2017 and his base salary of \$350,000 was established pursuant to an employment agreement he entered into at the time of his appointment.

(3)Mr. Gaehde was promoted to President, Lexia Learning as of August 21, 2017.

Annual Performance-Based Incentive

For 2017, management recommended, and our Compensation Committee approved, annual performance-based incentive targets under the 2017 AIP as set forth in the following table.

Table of Contents

Name	2017 Annualized Base Salary (\$)	2017 Target Annual Incentive Opportunity (\$)	Target Annual Incentive as a Percentage of Base Salary	Financial Goals Target Annual Incentive (\$)	Non-financial Strategic Goals Target Annual Incentive (\$)
A. John Hass III (1)	200,000	1,100,000	550%	990,000	110,000
Thomas M. Pierno (2)	340,000	255,000	75%	204,000	51,000
Sonia Galindo (3)	325,000	195,000	60%	156,000	39,000
Mathew N. Hulett (4)	350,000	76,520	60%	53,564	22,956
Nicholas Gaehde (5)	300,000	180,000	60%	144,000	36,000

(1) Mr. Hass's target annual incentive opportunity (100% PSUs) was based on 90% financial goals and 10% on a non-financial strategic goal.

(2) Mr. Pierno's target cash incentive opportunity was based 80% on financial goals and 20% on non-financial strategic goals.

(3) Ms. Galindo's target cash incentive opportunity was based 80% on financial goals and 20% on non-financial strategic goals.

(4) Mr. Hulett's target cash incentive opportunity of \$210,000 was prorated based on his hire date. Mr. Hulett's target cash incentive opportunity was based 70% on financial goals and 30% on non-financial strategic goals.

(5) Mr. Gaehde's target cash incentive opportunity was based 80% on financial goals and 20% on non-financial strategic goals.

Each executive's annual incentive opportunity was based on financial goals and non-financial strategic goals. Mr. Hass's target annual performance-based incentive opportunity was comprised entirely of equity. Ninety percent of his annual incentive was subject to the achievement of financial goals and 10% was subject to the achievement of a non-financial strategic efficiency goal.

Messrs. Pierno and Gaehde and Ms. Galindo were awarded an annual cash incentive opportunity based 80% on the achievement of financial goals and 20% on the achievement of non-financial strategic goals. Seventy percent of Mr. Hulett's annual cash incentive opportunity was subject to the achievement of financial goals and 30% was subject to the achievement of non-financial goals. His opportunity was pro-rated to reflect that he joined the Company in August 2017. Our Compensation Committee believes that maintaining these weightings of financial and non-financial strategic goals align the financial interests of our executives with the financial interests of our stockholders.

With respect to each of the 2017 financial goals under the 2017 AIP, amounts would be earned as set forth in the table below.

Level of Achievement & Percentage Funded			
	Threshold		
Below Threshold (or Minimum)	Target	Maximum	
0%	25%	100%	150%

With respect to any one of the financial goals, failure to achieve the threshold level of performance means no amount would be earned. To the extent that actual performance is between achievement levels, the amount earned would be determined on a pro rata basis using straight line interpolation. No minimum threshold level of performance was established for the non-financial strategic goals.

The financial goals and non-financial strategic goals are evaluated separately in determining the amount each independent goal contributes to the level of award. As a result, amounts could be earned if one goal was met but another goal was not.

Non-Financial Goals

With respect to the 2017 non-financial goals portion of the annual incentive program, no minimum threshold level of performance was established. Management recommended, and our Compensation Committee approved, a percentage of overall achievement based on an evaluation of our performance in meeting these goals during the year, as set forth in the following table. Some of the goals included defined milestones or other business metrics while others are subjective and not capable of being defined by bright line measurements.

Based on the assessments discussed above, the financial goals and non-financial goals under the 2017 AIP were funded at a percentage of each NEO's annual target incentive opportunity as follows:

Name	Financial Goal Funding	Non-Financial Goal Funding	Aggregate 2017 AIP Funding
A. John Hass III	84.1%	9%	93.1%
Thomas M. Pierno	80.8%	18.7%	99.5%
Sonia Galindo	80.8%	18.7%	99.5%
Mathew N. Hulett	64.5%	26%	90.5%
Nicholas C. Gaehde	79.2%	14.5%	93.7%

Then, our Compensation Committee used its discretion to evaluate each NEO's performance, based in part, on recommendations by Mr. Hass with respect to the performance and contributions of each NEO other than himself. Our Compensation Committee determined the following actual fiscal 2017 annual incentive payments for our NEOs.

Table of Contents

Name (1)	Total Bonus (\$)
A. John Hass III	1,024,048
Thomas M. Pierno	253,500
Sonia Galindo	220,000
Mathew N. Hulett	70,000
Nicholas C. Gaehde	170,000

(1) Our Compensation Committee completed an assessment of our overall performance against the 2017 non-financial goals, as well as each executive's individual performance, to determine the annual incentive payments for each NEO. Mr. Hass's award was paid out in shares of restricted stock, which vest over three years on each anniversary date at a rate of 50%, 25% and 25%, respectively, beginning March 17, 2018. Mr. Hulett's payment was prorated to reflect that he joined the Company in August 2017.

The following chart shows the annual target incentive opportunity compared to the actual amount paid to each NEO under our 2017 AIP, as described above.

Annual Performance-Based Equity Incentive

In February 2018, each NEO then employed with the Company, other than Mr. Hass, received a grant of restricted stock that vests over a period of four years, with 25% of the shares vesting on each annual anniversary of the grant date. The value of the grant was based on a percentage of the NEO's annualized base salary adjusted for Company and individual performance during 2017. Mr. Hulett received an equity grant consisting of restricted stock vesting over four years when he joined the Company in August 2017.

Long-Term Performance Based Equity Incentive

In April 2017, the Compensation Committee approved the 2017 LTIP, in which each of our NEOs participates. The long-term incentive program focuses on business goals and growth across multiple years. Management recommended, and our Compensation Committee approved, long-term performance-based incentive targets under the 2017 LTIP as set forth in the following table.

Table of Contents

Name	2017 Annualized Base Salary (\$)	2017 Total Target Long-Term Incentive Opportunity (\$)	Target Long-Term Incentive as a Percentage of Base Salary	Financial Goals Target Long-Term Incentive (\$)	Non-financial Strategic Goals Target Long-Term Incentive (\$)
A. John Hass III (1)	200,000	1,100,000	550.00%	660,000	440,000
Thomas M. Pierno (2)	340,000	255,000	75.00%	204,000	51,000
Sonia Galindo (3)	325,000	162,500	50.00%	113,750	48,750
Mathew N. Hulett (4)	350,000	130,000	37.14%	130,000	0
Nicholas Gaehde (5)	300,000	300,000	100.00%	225,000	75,000

(1) Mr. Hass's target long-term incentive opportunity is based 60% on financial goals and 40% on non-financial strategic goals.

(2) Mr. Pierno's target long-term incentive opportunity is based 80% on financial goals and 20% on non-financial strategic goals.

(3) Ms. Galindo's target long-term incentive opportunity is based 70% on financial goals and 30% on non-financial strategic goals.

(4) Mr. Hulett's target long-term opportunity of \$130,000 was determined separately by the Compensation Committee upon his hire in August 2017.

Mr. Hulett's target long-term incentive opportunity is based 100% on financial goals.

(5) Mr. Gaehde's target long-term incentive opportunity is based 75% on financial goals and 25% on non-financial strategic goals.

Each executive's long-term incentive opportunity is based on financial goals and non-financial strategic goals over a two year performance period beginning January 1, 2017 and ending December 31, 2018 (a one year performance period beginning January 1, 2018 and ending December 31, 2018 for Mr. Hulett). Each executive's target long-term incentive award is comprised entirely of PSUs, which if earned, will be paid out in shares of our common stock at the end of the performance period and be subject to further vesting requirements.

The set of financial and non-financial goals over the two year performance period varies among the NEOs as set forth below. The financial goals and non-financial strategic goals are evaluated separately in determining the amount each independent goal contributes to the level of award. As a result, amounts could be earned if one goal was met but another goal was not. Our Compensation Committee believes that maintaining these weightings of financial and non-financial strategic goals align the financial interests of our executives with the financial interests of our stockholders.

Company Revenue Adjusted EBITDA and Business Unit Segment Contribution are non-GAAP financial measures. We provide definitions of these terms in Appendix A.

Table of Contents

Since projected cumulative revenue, Company revenue adjusted EBITDA and business unit revenue segment contribution for the two year performance period is highly sensitive data, we do not disclose specific threshold, target and maximum goals. We believe that such disclosure would result in serious competitive harm and be detrimental to our operating performance. Our cumulative financial metrics are intended to be realistic and reasonable, but challenging, in order to drive performance and are consistent with our internal budgets and projections at the time of the grant.

With respect to each of the 2017 financial goals under the long-term incentive program, amounts could be earned as set forth in the table. For each financial goal, no amount would be earned if we failed to achieve the threshold level of performance for that particular goal. To the extent that actual performance is between achievement levels, the amount earned would be determined on a pro rata basis using straight line interpolation. No minimum threshold level of performance was established for the non-financial strategic goals.

Name	Financial Metric	Level of Achievement & Percentage Funded		
		Below Threshold	Threshold (or Minimum)	Target Maximum
A. John Hass III	Company Weighted Sum Revenue	0%	50%	100% 200%
	Company Revenue Adjusted EBITDA	0%	50%	100% 200%
Thomas M. Pierno & Sonia Galindo	Company Revenue	0%	50%	100% 100%
	Company Revenue Adjusted EBITDA	0%	25%	100% 100%
Nicholas C. Gaehde & Mathew N. Hulett	Segment Revenue	0%	50%	100% 100%
	Segment Contribution	0%	25%	100% 100%

At the end of the performance period, our Compensation Committee will also consider an executive's individual performance and may use its discretion to adjust the long-term incentive payout achieved under the financial and non-financial goals. Any earned awards will be paid out in shares of our common stock, which will vest as to 50% of the shares on March 17, 2019 and as to the other 50% of the shares on March 17, 2020.

2016 CEO Long-Term Performance Incentive

As disclosed in our proxy statement relating to the 2017 annual meeting of stockholders, in April 2016, our Compensation Committee approved a long-term performance incentive to Mr. Hass directly aligned to increasing shareholder value. Mr. Hass was granted a long-term performance incentive opportunity with a target grant value of \$1,100,000 aligned to an absolute total shareholder return (TSR) growth metric between January 2016 and December 2017. This long-term target grant opportunity consisted entirely of performance stock units that would be paid in restricted stock and stock options if the absolute TSR performance goals were achieved.

Based on the Company's absolute TSR performance over the two year period ended December 31, 2017 of 81% (a beginning stock price of \$6.88 on January 1, 2016 and an ending stock price of \$12.47 on December 31, 2017), our Compensation Committee determined that Mr. Hass had achieved a maximum level of performance, resulting in a payout equal to 200% of his target award. In February 2018, Mr. Hass received 140,846 shares of restricted stock and 314,466 options to purchase shares of our common stock at a price of \$7.10 per share. The exercise price of the stock options is equal to the closing price of our common stock on April 4, 2016, the date the performance share units were granted. One-third of the restricted stock and stock options will vest annually over a three year period beginning on April 4, 2018.

Timing of Equity-Based Compensation Awards

In connection with its annual review of our executives' compensation, our Compensation Committee typically approves grants of equity to our NEOs. These equity grants may be comprised of restricted stock, performance share units or stock options.

We do not have any program, plan or practice to time equity grants in coordination with the release of material non-public information.

Severance and Change in Control Arrangements

Each of our equity incentive programs provides for a potential acceleration of vesting of outstanding awards in the event of a change in control and/or termination without cause, as defined in each plan. Starting with equity awards granted in 2012, none of the equity awards granted to our NEOs provide for automatic vesting acceleration upon consummation of a change in control transaction unless there is also a termination of service without cause or a voluntary resignation for good reason in connection with the change in control with the exception of the performance share units granted in 2017. Those performance share units will vest upon consummation of a change in control (1) at target, if less than 50% of the performance period has elapsed or (2) based on actual performance, if at least 50% of the performance period has elapsed and performance is determinable.

In November 2015, our Board of Directors adopted and approved a Change in Control Severance Plan (the "Change in Control Plan") in which all of our NEOs participate. The Change in Control Plan provides for severance and other benefits to eligible participants if they experience a "qualifying termination" within six months prior to or two years following a change in control event, as defined in the Change in Control Plan. Our Change in Control Plan generally provides that a change in control may occur upon

- the liquidation, dissolution or winding up of the Company;
- the sale, license or lease of all or substantially all of the assets of the Company; or
- a share exchange, reorganization, recapitalization or certain merger and consolidation transactions.

The Change in Control Plan was adopted to reduce the uncertainty that NEOs and other executives can experience while the possibility of a change in control exists. This allows them to operate the Company in the best interests of the Company and stockholders and to remain at the Company through the desired retention period.

For a description of the payments and benefits a participant will receive under the Change in Control Plan, see "Potential Payments Upon Termination of Employment or Upon Change in Control." In connection with the payment of benefits under the Change in Control Plan, a participant must release any claims he or she may have against us and agree to maintain the confidentiality of our information and to not compete against us or solicit our employees or customers for a period of twelve months.

For a description of the employment and other severance arrangements we have with our NEOs, see "Employment Arrangements with Named Executive Officers" and "Potential Payments Upon Termination of Employment or Upon Change in Control." Our Compensation Committee believes that these arrangements were necessary to attract and retain our NEOs. The terms of each arrangement were determined in negotiation with the applicable NEO in connection with his or her hiring, or promotion, and were not based on any set formula.

Effect of Accounting and Tax Treatment on Compensation Decisions

We consider the anticipated accounting and tax implications to the Company and our executives in establishing and refining our executive compensation programs. While we consider the applicable accounting and tax treatment of alternative forms of equity compensation, these factors are not the only ones we consider. We also consider the cash and non-cash impact of the programs and whether a program is consistent with our overall compensation philosophy and objectives.

Prior to December 22, 2017, when the Tax Cuts and Jobs Act of 2017 (“TCJA”) was signed into law, Section 162(m) of the Internal Revenue Code imposed a limit on the amount of compensation that we may deduct in any one year with respect to our Chief Executive Officer and each of our next three most highly compensated executive officers (excluding our Chief Financial Officer) to \$1,000,000, unless the compensation qualified as performance-based and certain requirements were satisfied. Performance-based compensation, prior to the enactment of the TCJA, was fully deductible if the material terms of the compensation were approved by stockholders and met certain other requirements. While our Compensation Committee was mindful of the benefit of deductibility of compensation, our Compensation Committee believed that it should not be constrained by the requirements of Section 162(m) where those requirements would impair flexibility in compensating our executive officers in a manner that can best promote our corporate objectives. Therefore, our Compensation Committee did not adopt a policy that requires that all compensation be deductible.

Under the TCJA, the performance-based exception has been repealed and the \$1 million deduction limit now applies to anyone serving as the chief executive officer or the chief financial officer at any time during the taxable year and the top three other highest compensated executive officers serving at fiscal year end. The new rules generally apply to taxable years beginning after December 31, 2017, but do not apply to compensation provided pursuant to a written binding contract in effect on November 2, 2017 that is not modified in any material respect after that date.

Our Compensation Committee intends to continue to compensate our executive officers in a manner consistent with the best interests of our Company and our stockholders.

Compensation Policies and Practices as They Relate to Risk Management

In 2017, our Compensation Committee reviewed our compensation policies and practices and concluded that the mix and design of these policies and practices are not reasonably likely to encourage our employees to take excessive risks. In connection with its evaluation, our Compensation Committee considered the structure, philosophy and design characteristics of our primary incentive compensation plans and programs in light of our risk management and governance procedures, as well as other factors that may mitigate potential risk-taking incentives.

The Compensation Committee also reviewed our compensation programs for certain design features that have been identified by experts as having the potential to encourage excessive risk-taking.

The Compensation Committee noted several design features of our cash and equity incentive programs for all employees that reduce the likelihood of excessive risk-taking, including:

- the Compensation Committee's ability to exercise discretion to decrease incentive award payouts;
- the use of an array of performance metrics across compensation programs (that is, annual and long-term performance-based incentives are based on financial and non-financial goals as well as individual performance and new hire and annual equity incentives are driven by stock price gains);
- the fact that many of our executives hold vested equity stakes in the Company; and
- the fact that the mix of compensation balances a short-term and long-term focus.

Based on this assessment, our Compensation Committee concluded that risks arising from our compensation policies and practices for all employees, including executive officers, are not reasonably likely to have a material adverse effect on the Company.
