Item 1.01

Entry into a Material Definitive Agreement

At the annual meeting on February 27, 2008, International Game Technology (IGT) shareholders approved the following amendments to the 2002 Stock Incentive Plan (SIP).

Increase in Aggregate Share Limit. An increase in the number of shares of IGT common stock that may be delivered pursuant to all awards granted under the SIP to 43.0 million from 34.0 million shares. The SIP previously had separate award limits for awards granted to directors who are not also employed by IGT or one of its subsidiaries (non-employee directors) and awards granted to other grantees. As amended, these separate limits have been eliminated and the 43.0 million share limit applies to all awards.

Changes to Non-Employee Director Program. One feature of the SIP is a program of automatic award grants to non-employee directors. This program was revised as follows:

a

the number of shares of IGT common stock subject to the annual stock option grant for continuing non-employee directors was decreased from 24,000 to 11,000

a

the number of shares of IGT common stock subject to the stock option grant for any newly elected or appointed non-employee director was decreased from 40,000 to 20,000

a

each year, continuing non-employee directors will be granted 2,750 shares of restricted IGT common stock

a

newly elected or appointed non-employee directors will be granted 5,000 shares of restricted IGT common stock

Discretionary award grants to non-employee directors may also be made under the SIP.

Extension of Plan Term and Performance-Based Award Feature. The term of the SIP was extended to December 17, 2013. In addition, the performance-based award feature of the SIP was extended through the first annual meeting of IGT shareholders that occurs in 2013.
