### Vote of Proxies

Subject to revocation, all shares represented by duly executed proxies will be voted for the election of the nominees named herein as directors unless authority to vote for the proposed slate of directors or any individual director has been withheld. With respect to the proposal to approve the appointment of Moss Adams, LLP as the Company's independent accountants, all such shares will be voted for or against, or not voted, as specified on each proxy. If no choice is indicated, a proxy will be voted for the proposal to ratify the appointment of the accountants. If no choice is indicated, a proxy will not be voted on such proposal. If any other matters are properly presented at the Meeting, the Proxy will be voted in accordance with the best judgment and in the discretion of the Proxy Holders.

### Voting and Record Date

Only stockholders of record of the Company's \$.10 par value common stock ("Common Stock") at the close of business on August 6, 2001 will be entitled to notice of and to vote at the Meeting. As of that date, the total number of shares issued and outstanding of Common Stock was 7,448,015.

In voting on matters other than the election of directors, each share of Common Stock entitles the holder thereof on the record date to one vote at the Meeting. The appointment of the accountants requires the affirmative vote of a majority of the shares present at the Meeting in order to be valid and binding.

With respect to the election of directors of the Company, the stockholders have cumulative voting rights, whereby any stockholder may multiply the number of shares he is entitled to vote by the number of directors to be elected and allocate his votes among the candidates in any manner he chooses. The five nominees receiving the highest number of votes shall be duly elected. There are no conditions precedent to the exercise of the right to cumulate votes in the election of directors of the Company; stockholders may exercise such cumulative voting rights, either in person or by proxy, with or without advance notice to the Company.

### QUORUM AND PRINCIPAL SHAREHOLDERS

The presence in person or by proxy of the holders of a majority of the total outstanding voting shares is necessary to constitute a quorum at the Meeting. Approval of the proposals to be presented at the Meeting, except for the election of directors (as discussed above), will require the affirmative vote of the holders of a majority of the shares present at the Meeting.

The following table sets forth certain information as of August 6, 2001 relating to the beneficial ownership of the Company's Common Stock by (i) all persons known by the Company to beneficially own more than 5% of the outstanding shares of the Company's Common Stock, (ii) each director, director nominee, and officer of the Company, and (iii) all officers and directors of the Company as a group.

Options. Incentive Stock Options and Nonstatutory Stock Options (together hereinafter referred to as "Option" or "Options", unless the context otherwise requires) must be evidenced by written stock option agreements in such form as the Committee may from time to time determine. Each Option must state the number of Shares to which it pertains and must provide for the adjustment thereof if the outstanding shares of Common Stock are changed into or exchanged for cash or a different number or kind of shares or securities of the Corporation, or if the outstanding shares of the Common Stock are increased, decreased, exchanged for, or otherwise changed, or if additional shares or new or different shares or securities are distributed with respect to the outstanding shares of the Common Stock, through a reorganization or merger in which the Corporation is the surviving entity or through a combination, consolidation, recapitalization, reclassification, stock split, stock dividend, reverse stock split, stock consolidation or other capital change or adjustment. In addition, the Board or the Committee may grant such additional rights in the foregoing circumstances as the Board or the Committee deems to be in the best interest of any Participant and the Corporation in order to preserve for the Participant the benefits of the Award.

The exercise price in the case of any Incentive Stock Option may not be less than the fair market value on the date of grant and, in the case of any Option granted to an optionee who owns more than ten percent (10%) of the total combined voting power of all classes of outstanding stock of the Company, may not be less than 110% of the fair market value on the date of grant. The exercise price in the case of any Nonstatutory Stock Option may not be less than 85% of the fair market value on the date of

grant.

The purchase price is to be payable in full in United States dollars upon the exercise of the Option; provided, however, that if the applicable Option agreement so provides, the purchase price may be paid (i) by the surrender of Shares in good form for transfer, owned by the participant and having a fair market value on the date of exercise equal to the purchase price, or in any combination of cash and Shares, as long as the sum of the cash so paid and the fair market value of the Shares so surrendered equals the purchase price, (ii) by cancellation of indebtedness owed by the Company to the participant, (iii) with a full recourse promissory note executed by the participant, or (iv) any combination of the foregoing. The interest rate and other terms and conditions of such note may be determined by the Board or the Committee. The Board or Committee may require that the participant pledge his or her Shares to the Company for the purpose of securing the payment of such note. In no event may the stock certificate(s) representing such Shares be released to the participant until such note shall be paid in full.

Each Option must state the time or times which all or part thereof becomes exercisable. No Option shall be exercisable after the expiration of 10 years from the date it was granted, and no Option granted to an optionee who owns more than 10% of the total combined voting power of all classes of outstanding stock of the Company may be exercisable after the expiration of five years from the date it was granted. During the lifetime of a participant in the Plans, the Option may be exercisable only by that participant and may not be assignable or transferable. In the event of the participant's death, the Option may not be transferable by the participant other than by will or the laws of descent and distribution.

Within the limitations of the Plans, the Board or Committee may modify, extend or renew outstanding Options or accept the cancellation of outstanding Options (to the extent not previously exercised) for the granting of new Options in substitution therefor. No modification of an Option may, without the consent of the participant, alter or impair any rights or obligations under any Option previously granted.

In the case of Incentive Stock Options granted under the Plans, the aggregate fair market value (determined as of the date of the grant thereof) of the Shares with respect to which Incentive Stock Options become exercisable by any participant for the first time during any calendar year (under the Plans and all other plans maintained by the Company) may not exceed \$100,000. The Board or Committee may, however, with the participant's consent, authorize an amendment to the Incentive Stock Option which renders it a Nonstatutory Stock Option.

The stock option agreements authorized under the Plans may contain such other provisions not inconsistent with the terms of the Plans (including, without limitation, restrictions upon the exercise of the Option) as the Board or the Committee shall deem advisable.

**Restricted Stock Purchase Agreements.** Restricted stock purchase rights (hereinafter defined as "Purchase Rights") must be evidenced by written stock purchase agreements in such form as the Committee may from time to time determine. Each Purchase Right must state the number of Shares to which it pertains and may provide for the adjustment thereof in the event that the outstanding shares of Common Stock are changed into or exchanged for cash or a different number or kind of shares or securities of the Corporation, or if the outstanding shares of the Common Stock are increased, decreased, exchanged for, or otherwise changed, or if

## Edgar Filing: METALCLAD CORP - Form DEFR14A

additional shares or new or different shares or securities are distributed with respect to the outstanding shares of the Common Stock, through a reorganization or merger in which the Corporation is the surviving entity or through a combination, consolidation, recapitalization, reclassification, stock split, stock dividend, reverse stock split, stock consolidation or other capital change or adjustment. In addition, the Board or the Committee may grant such additional rights in the foregoing circumstances as the Board or the Committee deems to be in the best interest of any Participant and the Corporation in order to preserve for the Participant the benefits of the Award.

Each agreement must state the purchase price per Share at which the Purchase Right may be exercised, which may not be less than the fair market value of a Share on the date on which the Purchase Rights are granted. Unless the Board or Committee otherwise determines, the purchase price per Share at which any Purchase Right granted under the Plans may be exercised may not be less than the fair market value of a Share as of the date on which the Purchase Right is granted, less a discount equal to not more than 75% of such value.

Purchase Rights must be exercised within 60 days after the later to occur of (i) Board approval of the grant of the Purchase Right or (ii) delivery of notice of such grant. Purchase Rights may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner and must expire immediately upon the death of the participant or the termination of such participant's employment with the Company.

The purchase price must be payable in full in United States dollars upon exercise of the Purchase Right; provided, however, that if the applicable agreement so provides, the purchase price may be paid (i) by the surrender of Shares in good form for transfer, owned by the person exercising the Purchase Right and having a fair market value on the date of exercise equal to the purchase price, or in any combination of cash and Shares, as long as the sum of the cash so paid and the fair market value of the Shares so surrendered equal the Purchase Price, or (ii) with a full recourse promissory note executed by the participant. The interest rate and other terms and conditions of such note must be determined by the Board or the Committee. The Board or Committee may require that the participant pledge his or her Shares to the Company for the purpose of securing the payment of such note. In no event may the stock certificate(s) representing such Shares be released to the participant until such note has been paid in full. In the event the Company determines that it is required to withhold state or Federal income tax as a result of the exercise of a Purchase Right, as a condition to the exercise thereof, a participant may be required to make arrangements satisfactory to the Company to enable it to satisfy such withholding requirements. In addition, the participant must agree to immediately notify the Company if he or she files an election pursuant to Section 83(b) of the Internal Revenue Code with respect to receipt of the Shares.

Within the limitations of the Plans, the Board or the Committee may modify, extend or renew outstanding Purchase Rights or accept the cancellation of outstanding Purchase Rights (to the extent not previously exercised) for the granting of new Purchase Rights in substitution therefor. The foregoing notwithstanding, no modification of a Purchase Right may, without the consent of the participant, alter or impair any rights or obligations under any Purchase Right previously granted.

In the event of the voluntary or involuntary termination or cessation of employment or association of a participant with the Company or any Subsidiary for any reason whatsoever, with or without cause (including death or disability), the Company may, upon the date of such termination,

## Edgar Filing: METALCLAD CORP - Form DEFR14A

have an irrevocable, exclusive option to repurchase (the "Repurchase Option") all or any portion of the Shares held by the Employee that are subject to the Repurchase Option as of such date at the original purchase price.

Initially, all of the Shares must be subject to the Repurchase Option. Thereafter, the Repurchase Option must lapse and expire, or "vest," as to a specified number of the Shares in accordance with a schedule to be determined by the Board or the Committee, as the case may be, which must be attached to the stock purchase agreement to be entered into between the participant and the Company. All Shares which continue to be subject to the Repurchase Option are sometimes hereinafter referred to as "Unvested Shares." Within 90 days following the date of the Participant's termination of employment by the Corporation, the Corporation shall notify the Employee as to whether it wishes to repurchase the Unvested Shares pursuant to the exercise of the Repurchase Option. If the Corporation elects to repurchase said Unvested Shares, it must set a date for the closing of the transaction at the Executive Offices of the Corporation, not later than 30 days from the date such notice.

Except for transfers to participant's descendants and spouses, the participant may not transfer by sale, assignment, hypothecation, donation, or otherwise any of the Shares or any interest therein prior to the release of such Shares from the Repurchase Option. The Company's Repurchase Option may be assigned in whole or in part to any stockholder or stockholders of the Company or other persons or organizations. Each stock purchase agreement entered into as provided herein must provide for a right of first refusal and option on the part of the Company to purchase all or any part of any Shares which are no longer subject to the Repurchase Option which the participant purposes to sell, transfer or otherwise dispose of (except for transfers to participant's descendants and spouses) on the condition that: (a) the participant must notify the Company in writing of any proposed sale, transfer or other disposition of any of the Shares, specifying the proposed transferee, the number of Shares proposed to be transferred, and the price at which such Shares are to be sold, transferred or otherwise disposed; (b) the Company must have a period of 30 days from receipt of such notice to notify the participant in writing as to whether or not the Company elects to purchase all or a specified portion of such Shares at the lower of (i) price per share set forth in the notice given by the participant, or (ii) the fair market value for a share of the Company's Common Stock, without restrictions, on the date on which the notice is given by participant to the Company, less in either case an amount equal to the discount, if any; (c) if the Company elects not to purchase all of the Shares specified in the notice, the participant may sell, transfer or otherwise dispose of the remaining Shares in strict accordance with the terms specified in the notice within 90 days following the date of the notice. Any transferee of any of such Shares (other than the Company) will take and acquire all of such Shares subject to the continuing right of first refusal and option on the part of the Company to purchase all or any portion of such Shares from the transferee on all of the same terms and conditions as are set forth in the stock purchase agreement, unless the participant shall have paid to the Company, out of the proceeds from the sale of such Shares or otherwise, an amount equal to the lesser of (i) the discount or (ii) the amount by which the fair market value for a share of the Company Common Stock, without restrictions, on the date on which the notice is given by participant to the Company exceeds the price per Share paid by the participant for such Shares.

Stock Appreciation Rights. Stock Appreciation Rights related or unrelated to Options or other Awards may be granted to eligible employees:

## Edgar Filing: METALCLAD CORP - Form DEFR14A

(i) at any time if unrelated to an Award or if related to an Award other than an Incentive Stock Option; or (ii) only at the time of grant of an Incentive Stock Option if related thereto. A Stock Appreciation Right may extend to all or a portion of the shares covered by a related Award.

A Stock Appreciation Right granted in connection with an Award may be exercisable only at such time or times, and to the extent, that a related Award is exercisable. A Stock Appreciation Right granted in connection with an Incentive Stock Option may be exercisable only when the fair market value of the stock subject to the Incentive Stock Option exceeds the exercise price of the Incentive Stock Option. Upon the exercise of a Stock Appreciation Right, and if such Stock Appreciation Right is related to an Award surrender of an exercisable portion of the related Award, the participant shall be entitled to receive payment of a amount determined by multiplying the difference obtained by subtracting the purchase price of a share of Common Stock specified in the related Award, or if such Stock Appreciation Right is unrelated to an Award, from the fair market value, book value or other measure specified in the Award of such Stock Appreciation Right of a share of Common Stock on the date of exercise of such Stock Appreciation Right, by the number of shares as to which such Stock Appreciation Right has been exercised.

The Board or the Committee, as the case may be, in its sole discretion, may require settlement of the amount determined under paragraph (i) above solely in cash, solely in shares of Common Stock valued at fair market value, or partly in such shares and partly in cash. Each Stock Appreciation Right and all rights and obligations thereunder must expire on such date as shall be determined by the Board or the Committee, but not later than 10 years after the date of the Award thereof, and must be subject to earlier termination as provided in the Plans.

Performance Awards. One or more Performance Awards may be granted to any eligible employee. The value of such Awards may be linked to the market value, book value or other measure of the value of the Common stock or other specific performance criteria determined appropriate by the Board or the Committee, in each case on a specified date or over any period determined by the Board or the Committee, or may be based upon the appreciation in the market value, book value or other measure of the value of a specified number of shares of Common stock over a fixed period determined by the Board or the Committee. In making such determinations, the Board or the Committee may consider (among such other factors, as it deems relevant in light of the specific type of award) the contributions, responsibilities, and other compensation of the participant.

Dividend Equivalents. A participant may also be granted Dividend Rights based on the dividends declared on the Common Stock, to be credited as of dividend payment dates, during the period between the date of grant of the Award and the date such Award is exercised, vests or expires, as determined by the Board or the Committee. Such Dividend Rights may be converted to cash or additional shares of Common Stock by such formula and at such time and subject to such limitations as may be determined by the Board or the Committee.

Stock Payments. The Board or the Committee may approve Stock Payments to eligible employees who elect to receive such payments in the manner determined from time to time by the Board or the Committee. The number of shares must be determined by the Board or the Committee and may be based upon the fair market value, book value or other measure of the value of such shares on the date the Award is granted or on any date thereafter.

Loans. The Company may, with the Board's or the Committee's approval, extend one or more loans to participants in connection with the exercise or receipt of outstanding Awards granted under the Plans. Such loans are subject to the following conditions: (i) the principal of the loan may not exceed the amount required to be paid to the Corporation upon the exercise or receipt of one or more Awards under the Plans less the aggregate par value of any Common Stock deliverable on such event, and the loan proceeds must be paid directly to the Corporation in consideration of such exercise or receipt; (ii) the initial term of the loan must be determined by the Board or the Committee; provided that the term of the loan, including extensions, may not exceed a period of ten years; (iii) the loan must be with full recourse to the participant, must be evidenced by the participant's promissory note and must bear interest at a rate determined by the Board or the Committee but not less than the Company's average cost of funds as of a date within 31 days of the date of such loan, as determined by the Board or the Committee; and iv) in the event a participant terminates his or her employment at the request of the Company, the unpaid principal balance of the note must become due and payable on the tenth business day after such termination; provided, however, that if a sale of such shares would cause such participant to incur liability under Section 16(b) of the Exchange Act, the unpaid balance may become due and payable on the 10th business day after the first day on which a sale of such shares could have been made without incurring such liability assuming for these purposes that there are no other transactions by the participant subsequent to such termination. In the event a participant terminates employment other than at the request of the Company, the unpaid principal balance of the note becomes due and payable six months after the date of such termination.

Termination, Suspension and Amendment. The Board of Directors or the Committee may, at any time, suspend, amend, modify or terminate the Plans (or any part thereof) and may, with the consent of the recipient of an Award, authorize such modifications of the terms and conditions of such participant's Award as it shall deem advisable. However, no amendment or modification of the Plans may be adopted without approval by a majority of the shares of the Common Stock represented (in person or by proxy) at a meeting of stockholders at which a quorum is present and entitled to vote thereat, if such amendment or modification would materially increase the benefits accruing to participants under the Plans within the meaning of Rule 16b-3 under the Exchange Act or any successor provision; materially increase the aggregate number of shares which may be delivered pursuant to Awards granted under the Plans; or materially modify the requirements of eligibility for participation in the Plans.

Compliance With Section 16 (a) of the Exchange Act

Section 16 (a) of the Securities Exchange Act of 1934 requires the Company's officers, directors, and persons who own more than 10% of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission (the "SEC"). Officers, directors, and greater than 10% beneficial owners are required by SEC regulation to furnish the Company with copies of all Section 16 (a) forms they file. The Company believes that all filing requirements applicable to its officers, directors, and greater than 10% beneficial owners were complied with.

Section 401 (k) Plan

In December 1989, the Company adopted a tax-qualified cash or deferred profit sharing plan (the "401 (k) Plan") covering all employees who have completed six months of continuous service prior to a plan entry date. Pursuant to the 401 (k) Plan, eligible employees may make salary

## Edgar Filing: METALCLAD CORP - Form DEFR14A

deferral (before tax) contributions of up to 15% of their total compensation per plan year up to a specified maximum contribution as determined by the Internal Revenue Service. The 401 (k) Plan also includes provisions which authorize the Company to make discretionary contributions. Such contributions, if made, are allocated among all eligible employees as determined under the 401(k) Plan. The trustees under the 401 (k) Plan invest the assets of each participant's account attributable to the Company's contribution in an equity fund or guaranteed income fund until the participant is fully vested. The trustees invest the assets at the direction of such participant for the portion attributable to the participant's contribution and the portion attributable to the Company's contribution if the participant is fully vested. No contributions were made to the 401 (k) Plan during the year ended December 31, 2000.

### Certain Relationships and Related Transactions

In October 1994, in consideration of extraordinary contributions to the Company, including but not limited to the pledge of 75,500 shares of common stock of the Company owned by them to facilitate necessary financings for the Company, the board of Directors approved a loan of \$370,000 to each of Mr. Kesler and Mr. Neveau. Such borrowings are due 30 days after demand and bear annual interest at the prime rate of interest plus 7%. In February 1996 Messrs. Kesler and Neveau each repaid \$150,000 to the Company. In March 1996, the notes were amended to modify the loan principal between Messrs. Kesler and Neveau as well as to adjust the interest rates, effective March 1, 1996 to a variable rate based upon the Company's quarterly investment rate. Repayment of these notes has been extended until completion of the NAFTA arbitration. Mr. Kesler's note is secured by his employment agreement.

During the twelve months ended December 31, 2000, the Company incurred legal fees of \$28,000 from the law firm of Gibson, Haglund & Paulsen, of which Bruce H. Haglund, general counsel, Director, and Secretary of the Company, is a principal; however, none of such fees have yet been paid.

### Report of Compensation Committee

April 27, 2001

Board of Directors  
Metalclad Corporation  
2 Corporate Plaza 125  
Newport Beach, California 92660

As the Compensation Committee of Metalclad Corporation (the "Company"), it is our duty to review and recommend the compensation levels for members of the Company's management, evaluate the performance of management and the administration of the Company's various incentive plans.

The policies and underlying philosophy governing the Company's compensation program are to: maintain a comprehensive program that is competitive in the marketplace, provide opportunities integrating salary and stock rights to compensate short and long-term performance of management, recognize and reward individual accomplishments and allow the Company to retain seasoned executives who are essential to the Company's success.

In determining management's compensation, this Committee evaluates the compensation paid to management based on their performance, their

## Edgar Filing: METALCLAD CORP - Form DEFR14A

experience, and the stage of development of the Company. The Committee also takes into account such relevant external factors as general economic conditions, stock price performance, and stock market prices generally.

Management compensation is composed of salary, bonuses, and options to purchase shares of Common Stock at the fair market value on the date of grant. The Company entered into employment agreements with Messrs. Kesler and Dabbene in January 1998, which established base salaries and minimum bonus amounts. The number of options granted is scaled to the salary of each individual officer.

The base salaries for executive officers are determined by evaluating the responsibilities of the positions held, the individual's experience, the competitive marketplace, the individual's performance of responsibilities and the individual's overall contribution to the Company. Mr. Kesler's last salary increase was in 1997 and Mr. Dabbene's last salary increase was also in 1997.

The Committee considers and recommends stock option grants under the Company's stock option plans for key employees and others who make substantial contributions to the long-term financial success of the Company. The Company and the Committee believe that stock options provide strong incentive to increase the value of stockholders' interests. Stock options grants are believed by the Committee to help focus management on the long-term success of the Company. The amount of any stock option grant is based primarily on an individual's responsibilities and position with the Company. Individual awards of options are affected by the Committee's subjective evaluation of factors it deems appropriate such as the assumption of responsibilities, competitive factors and achievements. During 2000, options were granted to Messrs. Kesler, Dabbene and Rizzo for the purchase of 250,000, 200,000 and 10,000 shares, respectively, at an exercise price of \$3.00 per share.

Significant to the Committee's recommendations concerning executive compensation and option grants are significant events which have occurred over time as well as objectives set for the coming year. With regard to the year ended December 31, 2000, the Company a) increased revenues in its insulation business; b) continued pursuit of the NAFTA claim, including a defense to Mexico's challenge to the award; and c) obtained the additional capital necessary to support the Company's operations.

The executive officers devoted substantial time and effort in achieving the aforementioned objectives while at the same time devoting significant time to the daily affairs of the Company. Based on the performance of management in achieving these objectives in 2000 and the financial condition of the Company, Messrs. Kesler and Dabbene were granted stock options as described above and awarded the minimum bonus amounts of \$50,000 and \$36,000, respectively, as provided under their respective employment agreements.

RATIFICATION OF APPOINTMENT OF AUDITORS

General

Moss Adams, LLP has been the Company's independent auditors since 1998. There were no disagreements with the former accountants, and there are no disagreements with the current accountants on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure. At a meeting on March 21, 2001, the Board of Directors unanimously approved the recommendation of the Audit Committee for the appointment of Moss Adams to audit the financial statements of the Company for 2001. This selection is subject to ratification or rejection by the Stockholders.

Moss Adams has no financial interest in the Company. A representative of Moss Adams is expected to be present at the Annual Meeting, will have an opportunity to make a statement if he or she so desires, and is expected to be available to respond to appropriate questions.

Moss Adams performed various audit and other services for the Company during 2000. Such services included an audit of annual financial statements, interim reviews of quarterly financial statements, review and consultation connected with certain filings with the SEC, internal control reviews required by certain contractual agreements or requested by the Company's management, consultation on tax, financial accounting and reporting matters, and meetings with the Audit Committee of the Board of Directors.

### All Other Fees

The Company paid fees of approximately \$36,000 to Moss Adams for all other services provided by it during 2000, including audit-related services of \$22,000 and non-audit services of \$14,000. Non-audit-related services generally include fees for services relating to tax advice and research associated with the Company's NAFTA award. The Audit Committee has considered the compatibility of non-audit services with the auditors' independence.

### Report of the Audit Committee

The Board of Directors of the Company has appointed an Audit Committee currently composed of three directors, Raymond J. Pacini, Chairman, J. Thomas Talbot, and Bruce H. Haglund, the Company's Secretary and general counsel. All three members of the Audit Committee are "independent" as defined in the Nasdaq-listing standards.

The Board of Directors has adopted a written charter for the Audit Committee. A copy of that Charter is included as Exhibit "A" to this Proxy Statement. The Audit Committee's job is one of oversight as set forth in its Charter. It is not the duty of the Audit Committee to prepare the Company's financial statements, to plan or conduct audits, or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. The Company's management is responsible for preparing the Company's financial statements and for maintaining internal control. The independent auditors are responsible for auditing the financial statements and for expressing an opinion as to whether those audited financial statements fairly present the financial position, results of operations, and cash flows of the Company in conformity with generally accepted accounting principles. The Audit Committee met three times in 2000.

The Audit Committee has reviewed and discussed the Company's audited financial statements with management and with Moss Adams, the Company's independent auditors for 2000.

The Audit Committee has discussed with Moss Adams the matters required to be discussed by Statement on Auditing Standards No. 61.

The Audit Committee has received from Moss Adams the written statements required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed Moss Adams' independence with them, and has considered the compatibility of non-audit services with the auditors' independence.

Based on the review and discussions referred to above, the Audit Committee has recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000 for filing with the Securities and Exchange Commission.
