**Table of Contents****Earnings Release for the Six Months Ended September 30, 2008****<< 1. Operating Results >>****1. Business Overview**

Competition among network operators in the mobile communications market in Japan, which already entered a mature phase given the high penetration rate, has been fueled by recent price competition and market entry by new competitors such as MVNO\*.

In such market environment, we decided to offer new optional packet billing plans called Pake-hodai double and Biz-hodai double, both of which enable users to utilize data communications with the two-phase flat-rate charges, so that users can enjoy content services more comfortably without worrying about usage fee. We also released new handsets such as FOMA 706i series and Raku-Raku PHONE V. We strived for further penetration of our new discount programs and new handset sales methods, which we believe are appropriate for the current market conditions.

On July 1, 2008, we reorganized our group structure by integrating eight regional subsidiaries, consolidating the group's nationwide business operations under a single entity for the purpose of enhancing the speed and effectiveness of our operations. We have also strived to improve our business from our customers' point of view with the keywords, Change and Challenge.

As a result, for the three months ended September 30, 2008, operating revenues were ¥1,097.5 billion, operating income was ¥280.5 billion, income before income taxes was ¥271.7 billion and net income was ¥173.1 billion. For the six months ended September 30, 2008, operating revenues were ¥2,267.8 billion, operating income was ¥576.9 billion, income before income taxes was ¥560.2 billion and net income was ¥346.7 billion.

\* MVNO (Mobile Virtual Network Operator): a service provider who leases its physical wireless communication infrastructure from other network operators to provide wireless services.

## **2. Segment information**

### **(1) Mobile phone business**

As of September 30, 2008, the number of cellular services subscriptions was 53.94 million (an increase of 0.31 million compared to the number as of June 30, 2008), 86.1% of which was represented by FOMA services subscriptions of 46.44 million. The aggregate number of subscriptions to the new discount programs introduced in August 2007 such as Fami-wari MAX50 reached approximately 28.5 million while the number of subscriptions to the Value Plan reached approximately 13.0 million as of September 30, 2008, respectively. As a result, aggregate ARPU of cellular (FOMA+mova) services decreased to ¥5,860 for the three months ended September 30, 2008 (down 10.5% compared to the same period of the prior year).

The number of handsets sold decreased to 5.32 million units for the three months ended September 30, 2008 (a decrease of 1.24 million units compared to the same period of the prior year). Value Course, which was introduced in November 2007, was applied to more than 90% of the aggregate number of handsets sold through our new handset sales methods.

Our cellular churn rate for the three months ended September 30, 2008 improved significantly to 0.52% compared to 0.94% during the same period of the prior year, reflecting the effect of these new discount programs and new handset sales methods.

For the three months ended September 30, 2008, operating revenues and operating income from mobile phone business were ¥1,081.7 billion and ¥286.6 billion, respectively.

For the six months ended September 30, 2008, operating revenues and operating income from mobile phone business were ¥2,236.5 billion and ¥587.6 billion, respectively.

Table of Contents**DOCOMO Earnings Release****Six Months Ended September 30, 2008**<<3. Prospects for the Fiscal Year Ending March 31, 2009 >>

Competition among network operators in the mobile communications market in Japan has become increasingly fierce due to price competition, market entry by new competitors such as MVNO and other factors.

Under these market conditions, we have decided to revise our group's full-year guidance for the fiscal year ending March 31, 2009 as described in the table below.

The operating revenues forecast has been revised downwards by ¥171.0 billion from the initial guidance to ¥4,597.0 billion, mainly due to a decrease in equipment sales, while offset by the increase in operating revenues reflecting a revision of ARPU.

On the other hand, we projected the decrease in operating expenses mainly due to the decrease in cost of equipment sold, as the number of handsets we expect to be sold has also been revised. Accordingly, our forecast of operating income remains unchanged from the original forecast of ¥830.0 billion.

Against this backdrop, we will strive even harder to reinforce our core business, and at the same time, work to create new revenue sources by offering customized services for each customer and collaborating with partner companies in various fields, as part of our endeavors to cultivate new businesses.

- (3) Changes in significant accounting policies, procedures and presentation in quarterly consolidated financial statements:

**Fair Value Measurements**

Effective April 1, 2008, DOCOMO adopted Statement of Financial Accounting Standards ( SFAS ) No. 157 Fair Value Measurements . SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. Although the definition of fair value retains the exchange price notion in earlier definitions of fair value, SFAS No. 157 clarifies that the exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability in the market and emphasizes that fair value is a market-based measurement, rather than an entity-specific measurement. SFAS No. 157 also expands disclosures about the use of fair value to measure assets and liabilities subsequent to initial recognition through fair value hierarchy as a framework for measurement. The initial adoption of SFAS No. 157 did not have a material impact on DOCOMO s results of operations and financial position. The disclosure required by SFAS No. 157 was omitted in this earnings release.

(1)

From March 3, 2008 onward, another FOMA subscription is a prerequisite for the application of 2in1 in principle, and those FOMA subscriptions are included in the number of FOMA subscribers.

- (2) Source for other cellular telecommunications operators: Data announced by Telecommunications Carriers Association.
- (3) Data are calculated including Communication Module Services subscriptions.
- (4) Sum of new FOMA/mova subscriptions, change of subscription from mova to FOMA, FOMA handset upgrade by FOMA subscribers, mova handset upgrade by mova subscribers, and change of subscription from FOMA to mova.
- (5) Data are calculated excluding Communication Module Services-related revenues and Communication Module Services subscriptions.

## Definition and Calculation Methods of ARPU and MOU

**1. Definition of ARPU and MOU****i) ARPU (Average monthly Revenue Per Unit)<sup>1</sup> :**

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per subscription basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as basic monthly charges, voice communication charges and packet communication charges, from designated services which are incurred consistently each month, by the number of active subscriptions to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information to analyze the average usage per subscription and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter.

**ii) MOU (Minutes of Usage): Average monthly communication time per subscription.****2. ARPU Calculation Methods****i) ARPU (FOMA + mova)**

Aggregate ARPU (FOMA+mova) = Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)

Voice ARPU (FOMA+mova): Voice ARPU (FOMA+mova) Related Revenues (basic monthly charges, voice communication charges) / No. of active cellular phone subscriptions (FOMA+mova)

Packet ARPU (FOMA+mova): {Packet ARPU (FOMA) Related Revenues (basic monthly charges, packet communication charges)+ i-mode ARPU (mova) Related Revenues (basic monthly charges, packet communication charges)} / No. of active cellular phone subscriptions (FOMA+mova)

i-mode ARPU (FOMA+mova): i-mode ARPU (FOMA+mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active cellular phone subscriptions (FOMA+mova)

ARPU generated purely from i-mode (FOMA+mova): i-mode ARPU (FOMA+mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active i-mode subscriptions (FOMA+mova)

**ii) ARPU (FOMA)**

Aggregate ARPU (FOMA) = Voice ARPU (FOMA) + Packet ARPU (FOMA)

Voice ARPU (FOMA): Voice ARPU (FOMA) Related Revenues (basic monthly charges, voice communication charges) / No. of active cellular phone subscriptions (FOMA)

Packet ARPU (FOMA): Packet ARPU (FOMA) Related Revenues (basic monthly charges, packet communication charges) / No. of active cellular phone subscriptions (FOMA)

i-mode ARPU (FOMA): i-mode ARPU (FOMA) Related Revenues (basic monthly charges, packet communication charges) / No. of active cellular phone subscriptions (FOMA)

ARPU generated purely from i-mode (FOMA): i-mode ARPU (FOMA) Related Revenues (basic monthly charges, packet communication charges) / No. of active i-mode subscriptions (FOMA)

**iii) ARPU (mova)**

Aggregate ARPU (mova) = Voice ARPU (mova) + i-mode ARPU (mova)

Voice ARPU (mova): Voice ARPU (mova) Related Revenues (basic monthly charges, voice communication charges) / No. of active cellular phone subscriptions (mova)

i-mode ARPU (mova): i-mode ARPU (mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active cellular phone subscriptions (mova)

ARPU generated purely from i-mode (mova): i-mode ARPU (mova) Related Revenues (basic monthly charges, packet communication charges) / No. of active i-mode subscriptions (mova)

**3. Active Subscriptions Calculation Methods**

Edgar Filing: NTT DOCOMO INC - Form 6-K

No. of active subscriptions used in ARPU/MOU/Churn Rate calculations is as follows:

No. of active subscriptions for each month:

(No. of subscriptions at the end of previous month + No. of subscriptions at the end of current month) / 2

No. of active subscriptions for full-year results/forecasts:

Sum of No. of active subscriptions for each month from April to March

- 1 Communication Module service subscriptions and the revenues thereof are not included in the ARPU and MOU calculations.
- 2 The denominator used in calculating i-mode ARPU (FOMA+mova, FOMA, mova) is the aggregate number of cellular subscriptions to each service (FOMA+mova, FOMA, mova, respectively), regardless of whether i-mode service is activated or not.
- 3 ARPU generated purely from i-mode (FOMA+mova, FOMA, mova) is calculated using only the number of active i-mode subscriptions as

a denominator.

Edgar Filing: NTT DOCOMO INC - Form 6-K

	March 31, 2009 (Revised Forecasts)	Year ended March 31, 2008	Three months ended September 30, 2008	Six months ended September 30, 2008	Six months ended September 30, 2007
Free cash flows excluding irregular factors and changes in investments for cash management purposes	¥ 130.0	¥ 442.4	¥ 41.0	¥ (64.6)	¥ 168.9
Irregular factors (1)		210.0			(3.0)
Changes in investments for cash management purposes (2)		148.9	(1.3)	49.2	97.3
Free cash flows	130.0	801.3	39.8	(15.4)	263.2
Net cash used in investing activities	(771.0)	(758.8)	(233.3)	(423.8)	(365.2)
Net cash provided by operating activities	901.0	1,560.1	273.1	408.4	628.4

Note:

- (1) Irregular factors represent the effects of uncollected revenues due to a bank closure at the end of the fiscal period.

Irregular factors during the six months ended September 30, 2007 was the net effect of bank closures as of March 31, 2007 and September 30, 2007.

- (2) Changes in investments for

cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months. Net cash used in investing activities for the six months ended September 30, 2008 and 2007 and the year ended March 31, 2008 includes changes in investments for cash management purposes. However, the effect of changes in investments for cash management purposes is not taken into account when we forecasted net cash used in investing activities for the year ending March 31, 2009 due to the difficulties in forecasting

such effect.

**Special Note Regarding Forward-Looking Statements**

This Earnings Release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as expected number of subscribers, and expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this report were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

1. As competition in the market becomes more fierce due to changes in the business environment caused by Mobile Number Portability, new market entrants, competition from other cellular service providers or other technologies, and other factors could limit our acquisition of new subscribers, retention of existing subscribers, or may lead to diminishing ARPU or an increase in our costs and expenses.
2. Current and new services, usage patterns, and sales schemes introduced by our corporate group may not develop as planned, which could affect our financial condition and limit our growth.
3. The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations.
4. Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction.
5. The W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers.
6. Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.
7. As electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects or loss of handsets, or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations.
8. Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image.
9. Inadequate handling of confidential business information including personal information by our corporate group, contractors and other factors may adversely affect our credibility or corporate image.
10. Owners of intellectual property rights that are essential for our business execution may not grant us the right to license or otherwise use such intellectual property rights on acceptable terms or at all, which may limit our ability to offer certain technologies, products and/or services, and we may also be held liable for damage compensation if we infringe the intellectual property rights of others.
11. Earthquakes, power shortages, malfunctioning of equipment, software bugs, computer viruses, cyber attacks, hacking, unauthorized access and other problems could cause systems failures in the networks required for the

provision of service, disrupting our ability to offer services to our subscribers, and may adversely affect our credibility or corporate image.

12. Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations.
13. Our parent company, Nippon Telegraph and Telephone Corporation (NTT), could exercise influence that may not be in the interests of our other shareholders.
