In addition to factors previously disclosed in reports filed by CZWI with the Securities and Exchange Commission (“SEC”), additional risks and uncertainties may include, but are not limited to: the possibility that any of the anticipated benefits of the proposed mergers will not be realized or will not be realized within the expected time period; the risk that integration of operations with those of CZWI will be materially delayed or will be more costly or difficult than expected; the inability to complete the mergers due to the failure of shareholder approval to adopt the respective merger agreements; the failure to satisfy other conditions to completion of the mergers, including receipt of required regulatory and other approvals; the failure of the proposed mergers to close for any other reason; the effect of the announcement of the mergers on customer relationships and operating results; the possibility that the mergers may be more expensive to complete than anticipated, including as a result of unexpected factors or events; and general competitive, economic, political and market conditions and fluctuations. As stated previously, additional factors affecting CZWI are discussed in CZWI’s Annual Report on Form 10-K, its Quarterly Reports on Form 10-Q and its Current Reports on Form 8-K, filed with the SEC. Please refer to the SEC’s website at www.sec.gov where you can review those documents.
