Forward-Looking Statements

This quarterly report may contain forward-looking statements that are within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements include, but are not limited to, discussions related to Apollo’s expectations regarding the performance of its business, liquidity and capital resources and the other non-historical statements in the discussion and analysis. These forward-looking statements are based on management’s beliefs, as well as assumptions made by, and information currently available to, management. When used in this quarterly report, the words “believe,” “anticipate,” “estimate,” “expect,” “intend” and similar expressions are intended to identify forward-looking statements. Although management believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will prove to have been correct. These statements are subject to certain risks, uncertainties and assumptions, including risks relating to our dependence on certain key personnel, our ability to raise new private equity, credit or real estate funds, market conditions generally, our ability to manage our growth, fund performance, changes in our regulatory environment and tax status, the variability of our revenues, net income and cash flow, our use of leverage to finance our businesses and investments by our funds and litigation risks, among others. We believe these factors include but are not limited to those described under the section entitled “Risk Factors” in the Company’s Annual Report on Form 10-K filed with the United States Securities and Exchange Commission (the “SEC”) on February 27, 2015 (the “2014 Annual Report”); as such factors may be updated from time to time in our periodic filings with the SEC, which are accessible on the SEC’s website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this quarterly report and in our other filings. We undertake no obligation to publicly update or review any forward-looking statements, whether as a result of new information, future developments or otherwise, except as required by applicable law.

Terms Used in This Report

In this quarterly report, references to “Apollo,” “we,” “us,” “our” and the “Company” refer collectively to Apollo Global Management, LLC, a Delaware limited liability company, and its subsidiaries, including the Apollo Operating Group and all of its subsidiaries, or as the context may otherwise require;

“AMH” refers to Apollo Management Holdings, L.P., a Delaware limited partnership, that is an indirect subsidiary of Apollo Global Management, LLC;

“Apollo funds”, “our funds” and references to the “funds” we manage, refer to the funds (including the parallel funds and alternative investment vehicles of such funds), partnerships, accounts, including strategic investment accounts or “SIAs,” alternative asset companies and other entities for which subsidiaries of the Apollo Operating Group provide investment management services;

“Apollo Operating Group” refers to (i) the limited partnerships through which our Managing Partners currently operate our businesses and (ii) one or more limited partnerships formed for the purpose of, among other activities, holding certain of our gains or losses on our principal investments in the funds, which we refer to as our “principal investments”; “Assets Under Management”, or “AUM”, refers to the assets we manage for the funds, partnerships and accounts to which we provide investment management services, including, without limitation, capital that such funds, partnerships and accounts have the right to call from investors pursuant to capital commitments. Our AUM equals the sum of:

- (i) the fair value of the investments of the private equity funds, partnerships and accounts we manage plus the capital that such funds, partnerships and accounts are entitled to call from investors pursuant to capital commitments; the net asset value, or “NAV,” of the credit funds, partnerships and accounts for which we provide investment management services, other than certain collateralized loan obligations (“CLOs”) and collateralized debt obligations (“CDOs”), which have a fee-generating basis other than the mark-to-market value of the underlying assets, plus used or available leverage and/or capital commitments;
- (ii) the gross asset value or net asset value of the real estate funds, partnerships and accounts we manage, and
- (iii) the structured portfolio company investments of the funds, partnerships and accounts we manage, which includes the leverage used by such structured portfolio company investments;
- (iv) the incremental value associated with the reinsurance investments of the portfolio company assets we manage; and
- (v)

the fair value of any other assets that we manage for the funds, partnerships and accounts to which we provide investment management services, plus unused credit facilities,

- 3-

Table of Contents

including capital commitments to such funds, partnerships and accounts for investments that may require pre-qualification before investment plus any other capital commitments to such funds, partnerships and accounts available for investment that are not otherwise included in the clauses above.

Our AUM measure includes Assets Under Management for which we charge either no or nominal fees. Our definition of AUM is not based on any definition of Assets Under Management contained in our operating agreement or in any of our Apollo fund management agreements. We consider multiple factors for determining what should be included in our definition of AUM. Such factors include but are not limited to (1) our ability to influence the investment decisions for existing and available assets; (2) our ability to generate income from the underlying assets in our funds; and (3) the AUM measures that we use internally or believe are used by other investment managers. Given the differences in the investment strategies and structures among other alternative investment managers, our calculation of AUM may differ from the calculations employed by other investment managers and, as a result, this measure may not be directly comparable to similar measures presented by other investment managers;

“Fee-Generating AUM” consists of assets we manage for the funds, partnerships and accounts to which we provide investment management services and on which we earn management fees, monitoring fees pursuant to management or other fee agreements on a basis that varies among the Apollo funds, partnerships and accounts we manage.

Management fees are normally based on “net asset value,” “gross assets,” “adjusted par asset value,” “adjusted cost of all unrealized portfolio investments,” “capital commitments,” “adjusted assets,” “stockholders’ equity,” “invested capital” or “capital contributions,” each as defined in the applicable management agreement. Monitoring fees, also referred to as advisory fees, with respect to the structured portfolio company investments of the funds, partnerships and accounts we manage, are generally based on the total value of such structured portfolio company investments, which normally includes leverage, less any portion of such total value that is already considered in Fee-Generating AUM.

“Non-Fee-Generating AUM” consists of assets that do not produce management fees or monitoring fees. These assets generally consist of the following:

- (i) fair value above invested capital for those funds that earn management fees based on invested capital;
- (ii) net asset values related to general partner and co-investment ownership;
- (iii) unused credit facilities;
- (iv) available commitments on those funds that generate management fees on invested capital;
- (v) structured portfolio company investments that do not generate monitoring fees; and
- (vi) the difference between gross asset and net asset value for those funds that earn management fees based on net asset value.

“Carry-Eligible AUM” refers to the AUM that may eventually produce carried interest income. All funds for which we are entitled to receive a carried interest income allocation are included in Carry-Eligible AUM, which consists of the following:

(i) “Carry-Generating AUM” refers to funds’ invested capital that is currently above its hurdle rate or preferred return, and the funds’ profit is allocated to the general partner in accordance with the applicable limited partnership agreements or other governing agreements.

(ii) “AUM Not Currently Generating Carry” refers to funds’ invested capital that is currently below its hurdle rate or preferred return.

(iii) “Uninvested Carry-Eligible AUM” refers to available capital for investment or reinvestment subject to the provisions of applicable limited partnership agreements or other governing agreements that are not currently part of the NAV or fair value of investments that may eventually produce carried interest income, which would be allocated to the general partner.

“AUM with Future Management Fee Potential” refers to the committed uninvested capital portion of total AUM not currently earning management fees. The amount depends on the specific terms and conditions of each fund.

Table of Contents

We use Non-Fee-Generating AUM combined with Fee-Generating AUM as a performance measurement of our funds' investment activities, as well as to monitor fund size in relation to professional resource and infrastructure needs. Non-Fee-Generating AUM includes assets on which we could earn carried interest income;

“capital deployed” or “deployment” is the aggregate amount of capital that has been invested during a given period (which may, in certain cases, include leverage) by (i) our drawdown funds, (ii) SIAs that have a defined maturity date and (iii) funds and SIAs in our real estate debt strategy;

“drawdown” refers to commitment-based funds and certain SIAs in which investors make a commitment to provide capital at the formation of such funds and SIAs and deliver capital when called as investment opportunities become available. It includes assets of Athene Holding Ltd. (“Athene Holding”) and its subsidiaries (collectively “Athene”) managed by Athene Asset Management, L.P. (“Athene Asset Management”) that are invested in commitment-based funds;

“inflows” represents (i) at the individual segment level, subscriptions, commitments, and other increases in available capital, such as acquisitions or leverage, net of inter-segment transfers, and (ii) on an aggregate basis, the sum of inflows across the private equity, credit and real estate segments;

“liquid/performing” includes CLOs and other performing credit vehicles, hedge fund style credit funds, structured credit funds and SIAs. It also includes sub-advised managed accounts owned by or related to Athene. Certain commitment-based SIAs are included as the underlying assets are liquid;

“Realized Value” refers to all cash investment proceeds received by the relevant Apollo fund, including interest and dividends, but does not give effect to management fees, expenses, incentive compensation or carried interest to be paid by such Apollo fund;

“Total Invested Capital” refers to the aggregate cash invested by the relevant Apollo fund and includes capitalized costs relating to investment activities, if any, but does not give effect to cash pending investment or available for reserves;

“Total Value” represents the sum of the total Realized Value and Unrealized Value of investments;

“Unrealized Value” refers to the fair value consistent with valuations determined in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”), for investments not yet realized and may include pay in kind, accrued interest and dividends receivable, if any. In addition, amounts include committed and funded amounts for certain investments;

“carried interest”, “carried interest income” and “incentive income” refer to interests granted to Apollo by an Apollo fund that entitle Apollo to receive allocations, distributions or fees which are based on the performance of such fund or its underlying investments;

“Contributing Partners” refer to those of our partners and their related parties (other than our Managing Partners) who indirectly beneficially own (through Holdings) Apollo Operating Group units;

“gross IRR” of a private equity fund represents the cumulative investment-related cash flows in the fund itself (and not any one investor in the fund) on the basis of the actual timing of investment inflows and outflows (for unrealized investments assuming disposition on June 30, 2015 or other date specified) aggregated on a gross basis quarterly, and the return is annualized and compounded before management fees, carried interest and certain other fund expenses (including interest incurred by the fund itself) and measures the returns on the fund's investments as a whole without regard to whether all of the returns would, if distributed, be payable to the fund's investors;

“gross IRR” of a credit fund represents the annualized return of a fund based on the actual timing of all cumulative fund cash flows before management fees, carried interest income allocated to the general partner and certain other fund expenses. Calculations may include certain investors that do not pay fees. The terminal value is the net asset value as of the reporting date. Non-U.S. dollar denominated (“USD”) fund cash flows and residual values are converted to USD using the spot rate as of the reporting date;

“gross IRR” of a real estate fund represents the cumulative investment-related cash flows in the fund itself (and not any one investor in the fund), on the basis of the actual timing of cash inflows and outflows (for unrealized investments assuming disposition on June 30, 2015 or other date specified) starting on the date that each investment closes, and the return is annualized and compounded before management fees, carried interest, and certain other fund expenses (including interest incurred by the fund itself) and measures the returns on the fund's investments as a whole without regard to whether all of the returns would, if distributed, be payable to the fund's investors. Non-USD fund cash flows

and residual values are converted to USD using the spot rate as of the reporting date;

- 5-

Table of Contents

“gross return” of a credit or real estate fund is the monthly or quarterly time-weighted return that is equal to the percentage change in the value of a fund’s portfolio, adjusted for all contributions and withdrawals (cash flows) before the effects of management fees, incentive fees allocated to the general partner, or other fees and expenses. Returns of Athene sub-advised portfolios and CLOs represent the gross returns on invested assets, which exclude cash. Returns over multiple periods are calculated by geometrically linking each period’s return over time;

“Holdings” means AP Professional Holdings, L.P., a Cayman Islands exempted limited partnership through which our Managing Partners and Contributing Partners indirectly beneficially own their interests in the Apollo Operating Group units;

“Managing Partners” refer to Messrs. Leon Black, Joshua Harris and Marc Rowan collectively and, when used in reference to holdings of interests in Apollo or Holdings, includes certain related parties of such individuals;

“net IRR” of a private equity fund means the gross IRR, including returns for related parties which may not pay fees or carried interest, net of management fees, certain fund expenses (including interest incurred by the fund itself) and realized carried interest all offset to the extent of interest income, and measures returns on amounts that, if distributed, would be paid to investors of the fund. To the extent that an Apollo private equity fund exceeds all requirements detailed within the applicable fund agreement, the estimated unrealized value is adjusted such that a percentage of up to 20.0% of the unrealized gain is allocated to the general partner of the fund, thereby reducing the balance attributable to fund investors. Net IRR does not represent the return to any fund investor;

“net IRR” of a credit fund represents the annualized return of a fund after management fees, carried interest income allocated to the general partner and certain other fund expenses, calculated on investors that pay such fees. The terminal value is the net asset value as of the reporting date. Non-USD fund cash flows and residual values are converted to USD using the spot rate as of the reporting date;

“net IRR” of a real estate fund represents the cumulative cash flows in the fund (and not any one investor in the fund), on the basis of the actual timing of cash inflows received from and outflows paid to investors of the fund (assuming the ending net asset value as of June 30, 2015 or other date specified is paid to investors), excluding certain non-fee and non-carry bearing parties, and the return is annualized and compounded after management fees, carried interest, and certain other expenses (including interest incurred by the fund itself) and measures the returns to investors of the fund as a whole. Non-USD fund cash flows and residual values are converted to USD using the spot rate as of the reporting date;

“net return” of a credit or real estate fund represents the gross return after management fees, incentive fees allocated to the general partner, or other fees and expenses. Returns of Athene sub-advised portfolios and CLOs represent the gross or net returns on invested assets, which exclude cash. Returns over multiple periods are calculated by geometrically linking each period’s return over time;

“our manager” means AGM Management, LLC, a Delaware limited liability company that is controlled by our Managing Partners;

“Permanent Capital Vehicles” refers to (a) assets that are managed by Athene Asset Management, (b) assets that are owned by or related to MidCap FinCo Limited (“MidCap”) and managed by Apollo Capital Management, L.P., and (c) assets of publicly traded vehicles managed by Apollo such as AP Alternative Assets, L.P. (“AAA”), Apollo Investment Corporation (“AINV”), Apollo Commercial Real Estate Finance, Inc. (“ARI”), Apollo Residential Mortgage, Inc. (“AMTG”), Apollo Tactical Income Fund Inc. (“AIF”), and Apollo Senior Floating Rate Fund Inc. (“AFT”), in each case that do not have redemption provisions or a requirement to return capital to investors upon exiting the investments made with such capital, except as required by applicable law. The investment management arrangements of AINV, AIF and AFT have one year terms, are reviewed annually and remain in effect only if approved by the boards of directors of such companies or by the affirmative vote of the holders of a majority of the outstanding voting shares of such companies, including in either case, approval by a majority of the directors who are not “interested persons” as defined in the Investment Company Act of 1940. In addition, the investment management arrangements of AINV, AIF and AFT may be terminated in certain circumstances upon 60 days’ written notice. The investment management arrangements of ARI and AMTG have one year terms and are reviewed annually by each company’s board of directors and may be terminated under certain circumstances by an affirmative vote of at least two-thirds of such company’s independent directors. The investment management arrangements between MidCap and Apollo Capital Management,

L.P. and Athene and Athene Asset Management may also be terminated under certain circumstances; “private equity investments” refer to (i) direct or indirect investments in existing and future private equity funds managed or sponsored by Apollo, (ii) direct or indirect co-investments with existing and future private equity funds managed or sponsored by Apollo, (iii) direct or indirect investments in securities which are not immediately capable of resale in a public market that Apollo identifies but does not pursue through its private equity funds, and (iv) investments of the type described in (i) through (iii) above made by Apollo funds;

- 6-

Table of Contents

“Strategic Investors” refer to the California Public Employees’ Retirement System, or “CalPERS,” and an affiliate of the Abu Dhabi Investment Authority, or “ADIA”; and

“traditional private equity fund appreciation (depreciation)” refers to gain (loss) and income for the traditional private equity funds (i.e., Funds I-VIII, each as defined in the notes to the condensed consolidated financial statements) for the periods presented on a total return basis before giving effect to fees and expenses. The performance percentage is determined by dividing (a) the change in the fair value of investments over the period presented, minus the change in invested capital over the period presented, plus the realized income for the period presented, by (b) the beginning unrealized value for the period presented plus the change in invested capital for the period presented.

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

Apollo Global Management, LLC (together with its consolidated subsidiaries, the “Company” or “Apollo”) is a global alternative investment manager whose predecessor was founded in 1990. Its primary business is to raise, invest and manage private equity, credit and real estate funds as well as strategic investment accounts (“SIAs”), on behalf of pension, endowment and sovereign wealth funds, as well as other institutional and individual investors. For these investment management services, Apollo receives management fees generally related to the amount of assets managed, transaction and advisory fees and carried interest income related to the performance of the respective funds that it manages. Apollo has three primary business segments:

Private equity—primarily invests in control equity and related debt instruments, convertible securities and distressed debt investments;

Credit—primarily invests in non-control corporate and structured debt instruments; and

Real estate—primarily invests in real estate equity for the acquisition and recapitalization of real estate assets, portfolios, platforms and operating companies, and real estate debt including first mortgage and mezzanine loans, preferred equity and commercial mortgage backed securities.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with U.S. GAAP for interim financial information and instructions to the Quarterly Report on Form 10-Q. The condensed consolidated financial statements and these notes are unaudited and exclude some of the disclosures required in annual financial statements. Management believes it has made all necessary adjustments (consisting only of normal recurring items) so that the condensed consolidated financial statements are presented fairly and that estimates made in preparing its condensed consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. The condensed consolidated financial statements include the accounts of the Company, its wholly-owned or majority-owned subsidiaries, the consolidated entities which are considered to be variable interest entities (“VIEs”) and for which the Company is considered the primary beneficiary, and certain entities which are not considered VIEs but which the Company controls through a majority voting interest. Intercompany accounts and transactions have been eliminated upon consolidation. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of the Company for the year ended December 31, 2014 included in the 2014 Annual Report.

Certain reclassifications, when applicable, have been made to the prior period’s condensed consolidated financial statements and notes to conform to the current period’s presentation and are disclosed accordingly.

Organization of the Company

The Company was formed as a Delaware limited liability company on July 3, 2007 and completed a reorganization of its predecessor businesses on July 13, 2007 (the “2007 Reorganization”). The Company is managed and operated by its manager, AGM Management, LLC, which in turn is indirectly wholly-owned and controlled by Leon Black, Joshua Harris and Marc Rowan (the “Managing Partners”).

As of June 30, 2015, the Company owned, through four intermediate holding companies that include APO Corp., a Delaware corporation that is a domestic corporation for U.S. federal income tax purposes, APO Asset Co., LLC, a Delaware limited liability company that is a disregarded entity for U.S. federal income tax purposes, APO (FC), LLC, an Anguilla limited liability company that is treated as a corporation for U.S. federal income tax purposes and APO (FC II), LLC, an Anguilla limited liability company that is treated as a corporation for U.S. federal income tax purposes (collectively, the “Intermediate Holding Companies”), 43.8% of the economic interests of, and operated and controlled all of the businesses and affairs of, the Apollo Operating Group through its wholly-owned subsidiaries.

AP Professional Holdings, L.P., a Cayman Islands exempted limited partnership (“Holdings”), is the entity through which the Managing Partners and certain of the Company’s other partners (the “Contributing Partners”) indirectly beneficially own interests in each of the partnerships that comprise the Apollo Operating Group (“AOG Units”). As of June 30, 2015, Holdings owned the remaining 56.2% of the economic interests in the Apollo Operating Group. The Company consolidates the financial results of the Apollo Operating Group and its consolidated subsidiaries. Holdings’ ownership interest in the Apollo Operating Group is reflected as a Non-Controlling Interest in the accompanying condensed consolidated financial statements.

- 13-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Pursuant to an exchange agreement between Apollo, Holdings and the other parties thereto (as amended, the “Exchange Agreement”), the holders of the AOG Units (and certain permitted transferees thereof) may, upon notice and subject to the applicable vesting and minimum retained ownership requirements, transfer restrictions and other terms of the Exchange Agreement, exchange their AOG Units for the Company’s Class A shares on a one-for-one basis a limited number of times each year, subject to customary conversion rate adjustments for splits, distributions and reclassifications. Pursuant to the Exchange Agreement, a holder of AOG Units must simultaneously exchange one partnership unit in each of the Apollo Operating Group partnerships to effectuate an exchange for one Class A share. As a holder exchanges its AOG Units, the Company’s indirect interest in the Apollo Operating Group is correspondingly increased.

Venator Acquisition

On May 5, 2015, the Company acquired 100% of the assets and liabilities of Venator Real Estate Capital Partners (Hong Kong) Limited and its wholly-owned subsidiary, Venator Investment Management Consulting (Shanghai) Limited (together referred to as “Venator”), in exchange for restricted shares of Apollo Global Management, LLC. The acquisition provides the Company’s real estate segment with additional real estate investment management and related service capabilities in Asia. The transaction was accounted for as a business combination. Identifiable assets with a combined fair value of \$3.0 million were acquired and liabilities with a combined fair value of \$2.1 million were assumed, resulting in a bargain purchase gain of \$0.9 million as of the acquisition date, which was recorded in other income, net in the condensed consolidated statement of operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation—The types of entities with which Apollo is involved generally include subsidiaries (e.g., general partners and management companies related to the funds the Company manages), entities that have all the attributes of an investment company (e.g., funds) and securitization vehicles (e.g., collateralized loan obligations). Each of these entities is assessed for consolidation on a case by case basis depending on the specific facts and circumstances surrounding that entity.

In February 2015, the Financial Accounting Standards Board (“FASB”) issued new consolidation guidance which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period, and adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The Company has elected to adopt this new guidance using the modified retrospective method, which results in an effective date of adoption of January 1, 2015. Restatement of prior period results is not required. Amounts presented for the three and six months ended June 30, 2015 in the condensed consolidated statements of operations have reflected the adoption of this accounting guidance as of January 1, 2015.

Pursuant to the new consolidation guidance, the Company first evaluates whether it holds a variable interest in an entity. Fees that are customary and commensurate with the level of services provided, and where the Company doesn’t hold other economic interests in the entity that would absorb more than an insignificant amount of the expected losses or returns of the entity, would not be considered a variable interest. Apollo factors in all economic interests including proportionate interests through related parties, to determine if fees are considered a variable interest. As Apollo’s interests in many of these entities are solely through carried interests, performance fees, and/or insignificant indirect interests through related parties, Apollo is not considered to have a variable interest in many of these entities under the new guidance and no further consolidation analysis is performed. Prior to adoption of the new consolidation guidance, fees received by the Company for investment management services (e.g. carried interests and performance fees) were considered variable interests. For the remaining entities where the Company has determined that it does hold a variable interest, the Company performs an assessment to determine whether each of those entities qualify as a

variable interest entity (“VIE”).

An entity is considered a VIE if any one of the following conditions exist: (a) the total equity investment at risk is not sufficient to permit the legal entity to finance its activities without additional subordinated financial support, (b) the holders of equity investment at risk (as a group) lack either the direct or indirect ability through voting rights or similar rights to make decisions about a legal entity’s activities that have a significant effect on the success of the legal entity or the obligation to absorb the expected losses or right to receive the expected residual returns, or (c) the voting rights of some investors are disproportionate to their obligation to absorb the expected losses of the legal entity, their rights to receive the expected residual returns of the legal entity, or both and substantially all of the legal entity’s activities either involve or are conducted on behalf of an investor with disproportionately few voting rights. Under the new guidance, for limited partnerships and other similar entities, unaffiliated investors must be granted rights to either dissolve the fund or remove the general partner (“kick-out rights”) in order to not qualify as a VIE under condition (b) above. Entities that do not qualify as VIEs are generally assessed for consolidation as voting interest entities (“VOEs”) under the voting interest model.

- 14-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Under the voting interest model, Apollo consolidates those entities it controls through a majority voting interest. Apollo does not consolidate those VOEs in which substantive kick-out rights have been granted to the unaffiliated investors to either dissolve the fund or remove the general partner.

As previously indicated, the consolidation assessment, including the determination as to whether an entity qualifies as a VIE depends on the facts and circumstances surrounding each entity and therefore certain of Apollo's funds may qualify as VIEs whereas others may qualify as VOEs. The granting of substantive kick-out rights is a key consideration in determining whether a limited partnership or similar entity is a VIE and whether or not that entity should be consolidated. For example, when the unaffiliated holders of equity investment at risk of a fund (assumed to be limited partnerships or similar entities) with sufficient equity to permit the fund to finance its activities without additional subordinated financial support are not granted substantive kick-out rights the fund is determined to be a VIE. Alternatively, when the unaffiliated holders of equity investment at risk are granted substantive kick-out rights, the fund is generally determined to be a VOE. Prior to adoption of the new guidance, in certain cases where the Company held a substantive equity investment at risk in the fund, the fund may be determined to be a VOE even though substantive kick-out rights were not granted to the unaffiliated holders of equity investment at risk. Under the new guidance for limited partnerships or similar entities, unaffiliated investors must have kick-out rights to be considered a VOE.

If the entity is determined to be a VIE under the conditions above, the Company assesses whether the entity should be consolidated by determining if Apollo is the primary beneficiary of the entity. Prior to adoption of the new consolidation guidance, this analysis differed depending on the type of VIE being assessed and which consolidation model was applied. For VIEs that qualified for the deferral of the then amended consolidation rules (i.e. investment company entities), it was determined that Apollo was determined to be the primary beneficiary when its interests, through holding interests directly or indirectly in the VIE or contractually through other variable interests (e.g., carried interest and performance fees), would be expected to absorb a majority of the VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. In cases where two or more Apollo related parties held a variable interest in a VIE, and the aggregate variable interest held by those parties would, if held by a single party, identify that party as the primary beneficiary, then the Company was determined to be the primary beneficiary to the extent it was the party within the related party group that was most closely associated with the VIE.

For VIEs that did not qualify for the deferral, such as Apollo's CLOs which applied the then amended consolidation rules, the Company was determined to be the primary beneficiary if it held a controlling financial interest defined as possessing both (a) the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and (b) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE. Under the new guidance, for all VIEs including investment company entities that previously met the deferral requirements, the Company is only determined to be the Primary Beneficiary when it has a controlling financial interest as defined above. Prior to adoption of the new guidance, when Apollo alone was not considered to have a controlling financial interest but Apollo and its related parties on an aggregate basis did have a controlling financial interest, an analysis regarding which party was most closely associated with the VIE was performed. Under the new guidance, determining which party is more closely associated with an entity is only performed when the related party group that has a controlling financial interest, shares power or is under common control. When the related party group holding a controlling financial interest is not under common control, then Apollo would only be deemed to be the primary beneficiary if substantially all the activities of the entity are performed on behalf of Apollo.

Apollo continues to determine whether it is the primary beneficiary of a VIE at the time it becomes initially involved with the VIE and reconsiders that conclusion continuously. Investments and redemptions (either by Apollo, affiliates of Apollo or third parties) or amendments to the governing documents of the respective entity may affect an entity's status as a VIE or the determination of the primary beneficiary.

The assessment of whether an entity is a VIE and the determination of whether Apollo should consolidate such VIE requires judgments. Under both the previous and the new guidance, those judgments include, but are not limited to: (i) determining whether the total equity investment at risk is sufficient to permit the entity to finance its activities without additional subordinated financial support, (ii) evaluating whether the holders of equity investment at risk, as a group, can make decisions that have a significant effect on the success of the entity, (iii) determining whether the equity investors have proportionate voting rights to their obligations to absorb losses or rights to receive the expected residual returns from an entity, and (iv) evaluating the nature of the relationship and activities of the parties involved in determining which party within a related-party group (only for those related parties with shared power or under common control under the new guidance) is most closely associated with the VIE. Judgments are also made in determining whether a member in the equity group has a controlling financial interest including power to direct activities that most significantly impact the VIEs' economic performance and rights to receive benefits or obligations to absorb losses that could be potentially significant to the VIE. This analysis includes interests through related parties. Prior to adoption,

- 15-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

where the VIEs had qualified for the deferral, judgments were made in estimating cash flows to evaluate which member within the equity group absorbed a majority of the expected losses or residual returns of the VIE.

Assets and liabilities of the consolidated VIEs are shown in separate sections within the condensed consolidated statements of financial condition as of June 30, 2015 and December 31, 2014.

For additional disclosures regarding VIEs, see note 4. Intercompany transactions and balances, if any, have been eliminated in consolidation.

Equity Method Investments—For investments in entities over which the Company exercises significant influence but which do not meet the requirements for consolidation, the Company uses the equity method of accounting, whereby the Company records its share of the underlying income or loss of such entities. The carrying amounts of equity method investments are reflected in investments in the condensed consolidated statements of financial condition. As the underlying entities that the Company manages and invests in are, for U.S. GAAP purposes, primarily investment companies which reflect their investments at estimated fair value, the carrying value of the Company's equity method investments in such entities approximates fair value.

Non-Controlling Interests—For entities that are consolidated, but not 100% owned, a portion of the income or loss and corresponding equity is allocated to owners other than Apollo. The aggregate of the income or loss and corresponding equity that is not owned by the Company is included in Non-Controlling Interests in the condensed consolidated financial statements. As of June 30, 2015, the Non-Controlling Interests relating to Apollo Global Management, LLC primarily include the ownership interest in the Apollo Operating Group held by the Managing Partners and Contributing Partners through their limited partner interests in Holdings and other ownership interests in consolidated entities. Non-Controlling Interests also include limited partner interests of Apollo managed funds in certain consolidated VIEs.

Non-Controlling Interests are presented as a separate component of shareholders' equity on the Company's condensed consolidated statements of financial condition. The primary components of Non-Controlling Interests are separately presented in the Company's condensed consolidated statements of changes in shareholders' equity to clearly distinguish the interest in the Apollo Operating Group and other ownership interests in the consolidated entities. Net income (loss) includes the net income (loss) attributable to the holders of Non-Controlling Interests on the Company's condensed consolidated statements of operations. Profits and losses are allocated to Non-Controlling Interests in proportion to their relative ownership interests regardless of their basis.

Revenues—Revenues are reported in three separate categories that include (i) advisory and transaction fees from affiliates, net, which relate to the investments of the funds and may include individual monitoring agreements the Company has with the portfolio companies and debt investment vehicles of the private equity funds and credit funds; (ii) management fees from affiliates, which are based on committed capital, invested capital, net asset value, gross assets or as otherwise defined in the respective agreements; and (iii) carried interest income (loss) from affiliates, which is normally based on the performance of the funds subject to preferred return.

Advisory and Transaction Fees from Affiliates, Net—Advisory and transaction fees, including directors' fees, are recognized when the underlying services rendered are substantially completed in accordance with the terms of the transaction and advisory agreements. Additionally, during the normal course of business, the Company incurs certain costs related to certain transactions that are not consummated ("broken deal costs"). These costs (e.g., research costs, due diligence costs, professional fees, legal fees and other related items) are determined to be broken deal costs upon management's decision to no longer pursue the transaction. In accordance with the related fund agreement, in the event the deal is deemed broken, all of the costs are reimbursed by the funds and then included as a component of the calculation of the Management Fee Offset described below. If a deal is successfully completed, Apollo is reimbursed by the fund or fund's portfolio company for all costs incurred and no offset is generated. As the Company acts as an agent for the funds it manages, any transaction costs incurred and paid by the Company on behalf of the respective funds relating to successful or broken deals are presented net on the Company's condensed consolidated statements of

operations, and any receivable from the respective funds is presented in due from affiliates on the condensed consolidated statements of financial condition.

Advisory and transaction fees from affiliates, net, also includes underwriting fees. Underwriting fees include gains, losses and fees, net of syndicate expenses, arising from securities offerings in which one of the Company's subsidiaries participates in the underwriter syndicate. Underwriting fees are recognized at the time the underwriting is completed and the income is reasonably assured and are included in the condensed consolidated statements of operations.

Underwriting fees recognized but not received are included in other assets on the condensed consolidated statements of financial condition.

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

As a result of providing advisory services to certain private equity and credit portfolio companies, Apollo is generally entitled to receive fees for transactions related to the acquisition, in certain cases, and disposition of portfolio companies as well as ongoing monitoring of portfolio company operations and directors' fees. The amounts due from portfolio companies are included in due from affiliates, which is discussed further in note 12. Under the terms of the limited partnership agreements for certain funds, the management fee payable by the funds may be subject to a reduction based on a certain percentage of such advisory and transaction fees, net of applicable broken deal costs ("Management Fee Offset"). Advisory and transaction fees from affiliates are presented net of the Management Fee Offset in the condensed consolidated statements of operations.

Management Fees from Affiliates—Management fees for private equity, credit, and real estate funds are recognized in the period during which the related services are performed in accordance with the contractual terms of the related agreement, and are generally based upon (1) a percentage of the capital committed during the commitment period, and thereafter based on the remaining invested capital of unrealized investments, or (2) net asset value, gross assets or as otherwise defined in the respective agreements.

Carried Interest Income from Affiliates—Apollo is entitled to an incentive return that can normally amount to as much as 20% of the total returns on a fund's capital, depending upon performance. Performance-based fees are assessed as a percentage of the investment performance of the funds. The carried interest income from affiliates for any period is based upon an assumed liquidation of the fund's net assets on the reporting date, and distribution of the net proceeds in accordance with the fund's income allocation provisions. Carried interest receivable is presented separately in the condensed consolidated statements of financial condition. The carried interest income from affiliates may be subject to reversal to the extent that the carried interest income recorded exceeds the amount due to the general partner based on a fund's cumulative investment returns. When applicable, the accrual for potential repayment of previously received carried interest income, which is a component of due to affiliates, represents all amounts previously distributed to the general partner that would need to be repaid to the Apollo funds if these funds were to be liquidated based on the current fair value of the underlying funds' investments as of the reporting date. The actual general partner obligation, however, would not become payable or realized until the end of a fund's life.

Deferred Revenue—Apollo earns management fees subject to the Management Fee Offset. When advisory and transaction fees are earned by the management company, the Management Fee Offset reduces the management fee obligation of the fund. When the management company receives cash for advisory and transaction fees, a certain percentage of such advisory and/or transaction fees, as applicable, is allocated as a credit to reduce future management fees, otherwise payable by such fund. Such credit is classified as deferred revenue in the condensed consolidated statements of financial condition. A portion of any excess advisory and transaction fees may be required to be returned to the limited partners of certain funds upon such fund's liquidation. As the management fees earned by the management company are presented on a gross basis, any Management Fee Offsets calculated are presented as a reduction to Advisory and Transaction Fees from Affiliates in the condensed consolidated statements of operations. Additionally, Apollo earns advisory fees pursuant to the terms of the advisory agreements with certain of the portfolio companies that are owned by the funds. When Apollo receives a payment from a portfolio company that exceeds the advisory fees earned at that point in time, the excess payment is classified as deferred revenue in the condensed consolidated statements of financial condition. The advisory agreements with the portfolio companies vary in duration and the associated fees are received monthly, quarterly or annually. Deferred revenue is reversed and recognized as revenue over the period that the agreed upon services are performed.

Under the terms of the funds' partnership agreements, Apollo is normally required to bear organizational expenses over a set dollar amount and placement fees or costs in connection with the offering and sale of interests in the funds to investors. The placement fees are payable to placement agents, who are independent third parties that assist in identifying potential investors, securing commitments to invest from such potential investors, preparing or revising offering and marketing materials, developing strategies for attempting to secure investments by potential investors

and/or providing feedback and insight regarding issues and concerns of potential investors, when a limited partner either commits or funds a commitment to a fund. In certain instances the placement fees are paid over a period of time. Based on the management agreements with the funds, Apollo considers placement fees and organizational costs paid in determining if cash has been received in excess of the management fees earned. Placement fees and organizational costs are normally the obligation of Apollo but can be paid for by the funds. When these costs are paid by the fund, the resulting obligations are included within deferred revenue. The deferred revenue balance will also be reduced during future periods when management fees are earned but not paid.

Investments, at Fair Value—The Company follows U.S. GAAP attributable to fair value measurements which, among other things, requires enhanced disclosures about investments that are measured and reported at fair value.

Investments, at fair

- 17-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

value, represent investments of the consolidated funds, investments of the consolidated VIEs and certain financial instruments for which the fair value option was elected. The unrealized gains and losses resulting from changes in the fair value are reflected as net gains (losses) from investment activities and net gains (losses) from investment activities of the consolidated VIEs, respectively, in the condensed consolidated statements of operations. In accordance with U.S. GAAP, investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I—Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level I include listed equities and listed derivatives. As required by U.S. GAAP, the Company does not adjust the quoted price for these investments, even in situations where the Company holds a large position and the sale of such position would likely deviate from the quoted price.

Level II—Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives where the fair value is based on observable inputs. These investments exhibit higher levels of liquid market observability as compared to Level III investments. The Company subjects broker quotes to various criteria in making the determination as to whether a particular investment would qualify for treatment as a Level II investment. These criteria include, but are not limited to, the number and quality of broker quotes, the standard deviation of obtained broker quotes, and the percentage deviation from independent pricing services.

Level III—Pricing inputs are unobservable for the investment and includes situations where there is little observable market activity for the investment. The inputs into the determination of fair value may require significant management judgment or estimation. Investments that are included in this category generally include general and limited partner interests in corporate private equity and real estate funds, opportunistic credit funds, distressed debt and non-investment grade residual interests in securitizations and CDOs and CLOs where the fair value is based on observable inputs as well as unobservable inputs. When a security is valued based on broker quotes, the Company subjects those quotes to various criteria in making the determination as to whether a particular investment would qualify for treatment as a Level II or Level III investment. These criteria include, but are not limited to, the number and quality of the broker quotes, the standard deviations of the observed broker quotes, and the percentage deviation from independent pricing services.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment when the fair value is based on unobservable inputs.

In cases where an investment or financial instrument that is measured and reported at fair value is transferred between levels of the fair value hierarchy, the Company accounts for the transfer as of the end of the reporting period. On a quarterly basis, Apollo utilizes valuation committees consisting of members from senior management, to review and approve the valuation results related to the investments of the funds it manages. For certain publicly traded vehicles, a review is performed by an independent board of directors. The Company also retains independent valuation firms to provide third-party valuation consulting services to Apollo, which consist of certain limited procedures that management identifies and requests them to perform. The limited procedures provided by the independent valuation firms assist management with validating their valuation results or determining fair value. The Company performs various back-testing procedures to validate their valuation approaches, including comparisons between expected and observed outcomes, forecast evaluations and variance analyses. However, because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been

used had a ready market for the investments existed, and the differences could be material.

Private Equity Investments

The value of liquid investments, where the primary market is an exchange (whether foreign or domestic) is determined using period end market prices. Such prices are generally based on the close price on the date of determination.

- 18-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Valuation approaches used to estimate the fair value of investments that are less liquid include the market approach and the income approach. The market approach provides an indication of fair value based on a comparison of the subject company to comparable publicly traded companies and transactions in the industry. The market approach is driven more by current market conditions, including actual trading levels of similar companies and, to the extent available, actual transaction data of similar companies. Judgment is required by management when assessing which companies are similar to the subject company being valued. Consideration may also be given to such factors as the Company's historical and projected financial data, valuations given to comparable companies, the size and scope of the Company's operations, the Company's strengths, weaknesses, expectations relating to the market's receptivity to an offering of the Company's securities, applicable restrictions on transfer, industry and market information and assumptions, general economic and market conditions and other factors deemed relevant. The income approach provides an indication of fair value based on the present value of cash flows that a business or security is expected to generate in the future. The most widely used methodology in the income approach is a discounted cash flow method. Inherent in the discounted cash flow method are assumptions of expected results and a calculated discount rate.

Credit Investments

The majority of the investments in Apollo's credit funds are valued based on quoted market prices and valuation models. Debt and equity securities that are not publicly traded or whose market prices are not readily available are valued at fair value utilizing recognized pricing services, market participants or other sources. When market quotations are not available, a model based approach is used to determine fair value. The credit funds also enter into foreign currency exchange contracts, total return swap contracts, credit default swap contracts, and other derivative contracts, which may include options, caps, collars and floors. Foreign currency exchange contracts are marked-to-market by recognizing the difference between the contract exchange rate and the current market rate as unrealized appreciation or depreciation. If securities are held at the end of this period, the changes in value are recorded in income as unrealized. Realized gains or losses are recognized when contracts are settled. Total return swap contracts and credit default swap contracts are recorded at fair value as an asset or liability with changes in fair value recorded as unrealized appreciation or depreciation. Realized gains or losses are recognized at the termination of the contract based on the difference between the close-out price of the total return or credit default swap contract and the original contract price.

Forward contracts are valued based on market rates obtained from counterparties or prices obtained from recognized financial data service providers. When determining fair value pricing when no market value exists, the value attributed to an investment is based on the enterprise value at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation approaches used to estimate the fair value of illiquid credit investments also may use the income approach or market approach. The valuation approaches used consider, as applicable, market risks, credit risks, counterparty risks and foreign currency risks.

Real Estate Investments

The estimated fair value of commercial mortgage-backed securities ("CMBS") in Apollo's funds is determined by reference to market prices provided by certain dealers who make a market in these financial instruments. Broker quotes are only indicative of fair value and may not necessarily represent what the funds would receive in an actual trade for the applicable instrument. Additionally, the loans held-for-investment are stated at the principal amount outstanding, net of deferred loan fees and costs for certain investments. The Company evaluates its loans for possible impairment on a quarterly basis. For Apollo's opportunistic and value added real estate funds, valuations of non-marketable underlying investments are determined using methods that include, but are not limited to (i) discounted cash flow estimates or comparable analysis prepared internally, (ii) third party appraisals or valuations by qualified real estate appraisers, and (iii) contractual sales value of investments/properties subject to bona fide

purchase contracts. Methods (i) and (ii) also incorporate consideration of the use of the income, cost, or sales comparison approaches of estimating property values.

Fair Value of Financial Instruments

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Except for the Company's debt obligations (as described in note 9), Apollo's financial instruments are recorded at fair value or at amounts whose carrying values approximate fair value. See "Investments, at Fair Value" above. While Apollo's valuations of portfolio investments are based on assumptions that Apollo believes are reasonable under the circumstances, the actual realized gains or losses will depend on, among other factors, future operating results, the value of the assets and market conditions at the

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

time of disposition, any related transaction costs and the timing and manner of sale, all of which may ultimately differ significantly from the assumptions on which the valuations were based. Financial instruments' carrying values generally approximate fair value because of the short-term nature of those instruments or variable interest rates related to the borrowings.

Fair Value Option—Apollo has elected the fair value option for the Company's investment in Athene Holding Ltd. ("Athene Holding" and together with its subsidiaries, "Athene") and for the assets and liabilities of the consolidated VIEs. Such election is irrevocable and is applied to financial instruments on an individual basis at initial recognition. Apollo has applied the fair value option for certain corporate loans, other investments and debt obligations held by the consolidated VIEs that otherwise would not have been carried at fair value. See notes 3, 4, and 5 for further disclosure on the investments in Athene Holding and financial instruments of the consolidated VIEs for which the fair value option has been elected.

Financial Instruments held by Consolidated VIEs

The Company has adopted the measurement alternative included in the new collateralized financing entity ("CFE") guidance, and has applied the amendments using a modified retrospective approach by recording a cumulative-effect adjustment to shareholders' equity as of January 1, 2015. Amounts presented for the three and six months ended June 30, 2015 in the condensed consolidated statements of operations have reflected the adoption of this accounting guidance as of January 1, 2015. Refer to the condensed consolidated statements of changes in shareholders' equity. Pursuant to the new CFE guidance, the Company measures both the financial assets and financial liabilities of the consolidated collateralized loan obligations ("CLOs") in its condensed consolidated financial statements using the more observable of the fair value of the financial assets and the fair value of the financial liabilities. The Company believes the fair value of the financial assets of the consolidated CLOs are more observable than the fair value of the financial liabilities of the consolidated CLOs. As a result, the financial assets of the consolidated CLOs are measured at fair value and the financial liabilities are measured in consolidation as: (1) the sum of the fair value of the financial assets and the carrying value of any non-financial assets that are incidental to the operations of the CLOs less (2) the sum of the fair value of any beneficial interests retained by the reporting entity (other than those that represent compensation for services) and the Company's carrying value of any beneficial interests that represent compensation for services. The resulting amount is allocated to the individual financial liabilities (other than the beneficial interest retained by the Company) using a reasonable and consistent methodology. Under the measurement alternative, the Company's condensed consolidated net income reflects the Company's own economic interests in the consolidated CLOs including (i) changes in the fair value of the beneficial interests retained by the Company and (ii) beneficial interests that represent compensation for collateral management services.

Prior to the adoption of the new CFE guidance, the Company elected the fair value option for the assets and liabilities of the consolidated CLOs. The Company accounted for the difference between the fair value of the assets and the fair value of the liabilities of the consolidated CLOs in net gains from investment activities of consolidated variable interest entities in the condensed consolidated statements of operations. This amount was attributed to the Company and other beneficial interest holders based on each beneficial holder's residual interest in the consolidated CLOs. The amount attributed to other beneficial interest holders was reflected in the condensed consolidated statements of operations in net income attributable to non-controlling interests and in the condensed consolidated statements of financial condition in appropriated partners' capital within shareholders' equity. The amount was recorded as appropriated partners' capital since the other holders of the CLOs' beneficial interests, not the Company, received the benefits or absorbed the losses associated with their proportionate share of the CLOs' assets and liabilities. The consolidated VIEs hold investments that could be traded over-the-counter. Investments in securities that are traded on a securities exchange or comparable over-the-counter quotation systems are valued based on the last reported sale price at that date. If no sales of such investments are reported on such date, and in the case of over-the-counter securities or other investments for which the last sale date is not available, valuations are based on

independent market quotations obtained from market participants, recognized pricing services or other sources deemed relevant, and the prices are based on the average of the “bid” and “ask” prices, or at ascertainable prices at the close of business on such day. Market quotations are generally based on valuation pricing models or market transactions of similar securities adjusted for security-specific factors such as relative capital structure priority and interest and yield risks, among other factors. When market quotations are not available, a model based approach is used to determine fair value.

The consolidated VIEs also have debt obligations that are recorded at fair value. As previously noted, effective January 1, 2015 with the adoption of the new CFE guidance, the Company measures CLO debt obligations on the basis of the fair value of financial assets of the CLO. Prior to the adoption of the new CFE guidance, the primary valuation methodology used to determine fair value for debt obligations was market quotation. Prices were based on the average of the “bid” and “ask” prices. In the event

- 20-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

that market quotations were not available, a model based approach was used. The model based approach used to estimate the fair values of debt obligations for which market quotations were not available was the discounted cash flow method, which includes consideration of the cash flows of the debt obligation based on projected quarterly interest payments and quarterly amortization. Debt obligations were discounted based on the appropriate yield curve given the loan's respective maturity and credit rating. Management used its discretion and judgment in considering and appraising relevant factors for determining the valuations of the consolidated VIEs' debt obligations.

The adoption of the new accounting guidance resulted in a cumulative effect adjustment to appropriated partners' capital of \$3.5 million as of January 1, 2015, and an adjustment to previously reported net income of \$4.0 million for the three months ended March 31, 2015, all of which was attributable to Non-controlling Interests. The adoption resulted in no impact to net income attributable to Apollo Global Management, LLC.

Goodwill and Intangible Assets

Goodwill and indefinite-life intangible assets must be reviewed annually for impairment or more frequently if circumstances indicate impairment may have occurred. Identifiable finite-life intangible assets, by contrast, are amortized over their estimated useful lives, which are periodically re-evaluated for impairment or when circumstances indicate an impairment may have occurred. Apollo amortizes its identifiable finite-life intangible assets using a method of amortization reflecting the pattern in which the economic benefits of the finite-life intangible asset are consumed or otherwise used up. If that pattern cannot be reliably determined, Apollo uses the straight-line method of amortization. At June 30, 2015 the Company performed its annual impairment testing, and, as the fair value of each of the Company's reporting units was in excess of its carrying value, there was no impairment of goodwill. Additionally, there was no impairment of indefinite-life intangible assets as of June 30, 2015.

Compensation and Benefits

Equity-Based Compensation—Equity-based awards granted to employees as compensation are measured based on the grant date fair value of the award. Equity-based awards that do not require future service (i.e., vested awards) are expensed immediately. Equity-based employee awards that require future service are expensed over the relevant service period. The Company estimates forfeitures for equity-based awards that are not expected to vest. Equity-based awards granted to non-employees for services provided to affiliates are remeasured to fair value at the end of each reporting period and expensed over the relevant service period.

Salaries, Bonus and Benefits—Salaries, bonus and benefits include base salaries, discretionary and non-discretionary bonuses, severance and employee benefits. Bonuses are generally accrued over the related service period.

The Company sponsors a 401(k) savings plan whereby U.S.-based employees are entitled to participate in the plan based upon satisfying certain eligibility requirements. The Company may provide discretionary contributions from time to time. No contributions relating to this plan were made by the Company for the three and six months ended June 30, 2015 and 2014.

Profit Sharing Expense—Profit sharing expense primarily consists of a portion of carried interest recognized in one or more funds allocated to employees and former employees. Profit sharing expense is recognized on an accrued basis as the related carried interest income is earned. Profit sharing expense can be reversed during periods when there is a decline in carried interest income that was previously recognized. Additionally, profit sharing amounts previously distributed may be subject to clawback from employees, former employees and Contributing Partners.

Changes in the fair value of the contingent consideration obligations that were recognized in connection with certain Apollo acquisitions are reflected in the Company's condensed consolidated statements of operations as profit sharing expense.

The Company has a performance based incentive arrangement for certain Apollo partners and employees designed to more closely align compensation on an annual basis with the overall realized performance of the Company. This arrangement enables certain partners and employees to earn discretionary compensation based on carried interest realizations earned by the Company in a given year, which amounts are reflected in profit sharing expense in the

accompanying condensed consolidated financial statements.

- 21-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Other Income (Loss)

Net Gains (Losses) from Investment Activities—Net gains (losses) from investment activities include both realized gains and losses and the change in unrealized gains and losses in the Company's investment portfolio between the opening reporting date and the closing reporting date. The condensed consolidated financial statements include the net realized and unrealized gains (losses) of investments, at fair value. For the year ending December 31, 2014, for the Company's investments held by AAA (see note 3), a portion of the net gains (losses) from investment activities are attributable to Non-Controlling Interests in the condensed consolidated statements of operations.

Net Gains (Losses) from Investment Activities of Consolidated Variable Interest Entities—Changes in the fair value of the consolidated VIEs' assets and liabilities and related interest, dividend and other income and expenses subsequent to consolidation are presented within net gains (losses) from investment activities of consolidated variable interest entities and are attributable to Non-Controlling Interests in the condensed consolidated statements of operations.

Other Income (Loss), Net—Other income (loss), net includes the recognition of gains (losses) arising from the remeasurement of foreign currency denominated assets and liabilities of foreign subsidiaries, reversal of a portion of the tax receivable agreement liability (see note 12), gains (losses) arising from the remeasurement of derivative instruments associated with fees from certain of the Company's affiliates, gains arising from extinguishment of contingent consideration obligations and other miscellaneous non-operating income and expenses.

Net Income (Loss) Per Class A Share—U.S. GAAP requires use of the two-class method of computing earnings per share for all periods presented for each class of common stock and participating security as if all earnings for the period had been distributed. Under the two-class method, during periods of net income, the net income is first reduced for distributions declared on all classes of securities to arrive at undistributed earnings. During periods of net losses, the net loss is reduced for distributions declared on participating securities only if the security has the right to participate in the earnings of the entity and an objectively determinable contractual obligation to share in net losses of the entity.

The remaining earnings are allocated to Class A shares and participating securities to the extent that each security shares in earnings as if all of the earnings for the period had been distributed. Earnings or losses allocated to each class of security are then divided by the applicable number of shares to arrive at basic earnings per share. For the diluted earnings, the denominator includes all outstanding Class A shares and includes the number of additional Class A shares that would have been outstanding if the dilutive potential Class A shares had been issued. The numerator is adjusted for any changes in income or loss that would result from the issuance of these potential Class A shares.

Use of Estimates—The preparation of the condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Apollo's most significant estimates include goodwill, intangible assets, income taxes, carried interest income from affiliates, contingent consideration obligations related to acquisitions, non-cash compensation, and fair value of investments and debt. Actual results could differ materially from those estimates.

Recent Accounting Pronouncements

In April 2014, the FASB issued guidance to improve the definition of discontinued operations and to enhance convergence between the FASB's and International Accounting Standard Board's (IASB) reporting requirements for discontinued operations. The new definition of discontinued operations limits discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity's operations and financial results. The new guidance affects entities that have either of the following: (1) a component of an entity that either is disposed of or meets the criteria under current guidance to be classified as held for sale or (2) a business or nonprofit activity that, on acquisition, meets the criteria under current guidance to be classified as held for sale. The guidance is effective for all disposals (or classifications as held for sale) of components of an entity and

all businesses or nonprofit activities that, on acquisition, are classified as held for sale that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The adoption of this guidance did not have a material impact on the Company's condensed consolidated financial statements.

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

In May 2014, the FASB issued guidance to establish a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions, and geographies. The core principle of the new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer. The new guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. Qualitative and quantitative information is required to be disclosed about: (1) contracts with customers, (2) significant judgments and changes in judgments, and (3) assets recognized from costs to obtain or fulfill a contract. The new guidance will apply to all entities. In July 2015, the FASB voted to approve a one-year deferral of the effective date of the new revenue guidance. The FASB expects to issue its final standard formally amending the effective date by the end of the third quarter 2015. The amended guidance would permit public business entities to apply the new revenue guidance to interim reporting periods within annual reporting periods beginning after December 15, 2017 (i.e., beginning in the first interim period within the year of adoption). Public business entities would be permitted to apply the new revenue guidance early, but not before the original public business entity effective date (i.e., annual periods beginning after December 15, 2016). Public business entities choosing this option will apply the new revenue guidance to all interim reporting periods within the year of adoption. The Company is in the process of evaluating the impact that this guidance will have on its condensed consolidated financial statements, including the timing of the recognition of carried interest income.

In June 2014, the FASB issued guidance to resolve diversity in practice in the accounting for share-based payments where the terms of an award provide that a performance target could be achieved after the requisite service period. The new guidance requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. Accordingly, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has already been rendered. If the performance target becomes probable of being achieved before the end of the requisite service period, the remaining unrecognized compensation cost should be recognized prospectively over the remaining requisite service period. The total amount of compensation cost recognized during and after the requisite service period should reflect the number of awards that ultimately vest. The requisite service period ends when the employee can cease rendering service and still be eligible to vest in the award if the performance target is achieved. The new guidance applies to all reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target that affects vesting could be achieved after the requisite service period. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early application is permitted. The Company is in the process of evaluating the impact that this guidance will have on its condensed consolidated financial statements.

In August 2014, the FASB issued guidance to eliminate diversity in practice in the accounting for measurement differences in both the initial consolidation and subsequent measurement of the financial assets and the financial liabilities of a collateralized financing entity. A reporting entity that consolidates a collateralized financing entity within the scope of the new guidance may elect to measure the financial assets and the financial liabilities of that collateralized financing entity using either the measurement alternative included in the new guidance or the existing

guidance on fair value measurement. When the measurement alternative is not elected for a consolidated collateralized financing entity within the scope of the new guidance, the new guidance clarifies that (1) the fair value of the financial assets and the fair value of the financial liabilities of the consolidated collateralized financing entity should be measured using the requirements of the existing guidance on fair value measurement and (2) any differences in the fair value of the financial assets and the fair value of the financial liabilities of that consolidated collateralized financing entity should be reflected in earnings and attributed to the reporting entity in the consolidated statement of income (loss). When a reporting entity elects the measurement alternative included in the new guidance for a collateralized financing entity, the reporting entity should measure both the financial assets and the financial liabilities of that collateralized financing entity in its consolidated financial statements using the more observable of the fair value of the financial assets and the fair value of the financial liabilities. The guidance applies to a reporting entity that is required to consolidate a collateralized financing entity under the existing variable interest entity guidance when (1) the reporting entity measures all of the financial assets and the financial liabilities of that consolidated collateralized financing entity at fair value in the consolidated financial statements based on other guidance and (2) the changes in the fair values of those financial assets and financial liabilities are reflected in earnings. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015.

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Early adoption is permitted. As noted earlier, the Company adopted this guidance on a modified retrospective basis by recording a cumulative-effect adjustment to shareholders' equity as of January 1, 2015.

In August 2014, the FASB issued guidance regarding management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The new guidance requires that management evaluate each annual and interim reporting period whether conditions exist that give rise to substantial doubt about the entity's ability to continue as a going concern within one year from the financial statement issuance date, and if so, provide related disclosures. Disclosures are only required if conditions give rise to substantial doubt, whether or not the substantial doubt is alleviated by management's plans. No disclosures are required specific to going concern uncertainties if an assessment of the conditions does not give rise to substantial doubt. Substantial doubt exists when conditions and events, considered in the aggregate, indicate that it is probable that a company will be unable to meet its obligations as they become due within one year after the financial statement issuance date. If substantial doubt is alleviated as a result of the consideration of management's plans, a company should disclose information that enables users of financial statements to understand all of the following (or refer to similar information disclosed elsewhere in the footnotes): (1) principal conditions that initially give rise to substantial doubt, (2) management's evaluation of the significance of those conditions in relation to the company's ability to meet its obligations, and (3) management's plans that alleviated substantial doubt. If substantial doubt is not alleviated after considering management's plans, disclosures should enable investors to understand the underlying conditions, and include the following: (1) a statement indicating that there is substantial doubt about the company's ability to continue as a going concern within one year after the issuance date, (2) the principal conditions that give rise to substantial doubt, (3) management's evaluation of the significance of those conditions in relation to the company's ability to meet its obligations, and (4) management plans that are intended to mitigate the adverse conditions. The new guidance applies to all companies. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2016. Early adoption is permitted. This guidance is not expected to have an impact on the condensed consolidated financial statements of the Company.

In November 2014, the FASB issued guidance to clarify how current U.S. GAAP should be interpreted in evaluating the economic characteristics and risks of a host contract in a hybrid financial instrument that is issued in the form of a share. Specifically, the new guidance clarifies that an entity should consider all relevant terms and features-including the embedded derivative feature being evaluated for bifurcation when evaluating the nature of the host contract. Further, the new guidance clarifies that no single term or feature would necessarily determine the economic characteristics and risks of the host contract. Rather, the nature of the host contract depends upon the economic characteristics and risks of the entire hybrid financial instrument. The new guidance applies to all entities that are issuers of, or investors in, hybrid financial instruments that are issued in the form of a share. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted. The Company is in the process of evaluating the impact that this guidance will have on its condensed consolidated financial statements.

In January 2015, the FASB issued guidance to simplify income statement presentation by eliminating the concept of extraordinary items. Existing guidance requires that an entity separately classify, present, and disclose extraordinary events and transactions. If an event or transaction meets the criteria for extraordinary classification, an entity is required to segregate the extraordinary item from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. The entity is also required to disclose applicable income taxes and either present or disclose earnings-per-share data applicable to the extraordinary item. The new guidance eliminates the requirement for reporting entities to consider whether an underlying event or

transaction is extraordinary. However, the presentation and disclosure requirements under existing guidance for items that are unusual in nature or occur infrequently will be retained and will be expanded to include items that are both unusual in nature and infrequently occurring. Under the new guidance, items that are both unusual in nature and infrequently occurring should be presented within income from continuing operations or disclosed in the notes to the financial statements. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. This guidance is not expected to have an impact on the condensed consolidated financial statements of the Company.

In February 2015, the FASB issued new consolidation guidance which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. Existing guidance includes different requirements for performing a consolidation analysis if, among other factors, the entity under evaluation is any one of the following: (1) a legal entity that qualifies for the indefinite deferral under the amended consolidation rules, (2) a legal entity that is within the scope of the amended consolidation rules, or (3) a limited partnership or similar entity that is considered a voting interest entity. Under the new guidance, all reporting entities are within the scope of the new standard, including limited partnerships and similar

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

legal entities, unless a scope exception applies. The presumption that a general partner controls a limited partnership has been eliminated. In addition, fees paid to decision makers that meet certain conditions (e.g., are both customary and commensurate with the level of effort required for the services provided) no longer cause decision makers to consolidate VIEs in certain instances. The new guidance places more emphasis in the consolidation evaluation on variable interests other than the fee arrangements such as principal investment risk (for example, debt or equity interests), guarantees of the value of the assets or liabilities of the VIE, written put options on the assets of the VIE, or similar obligations, including some liquidity commitments or agreements (explicit or implicit). Additionally, the new guidance reduces the extent to which related party arrangements cause an entity to be considered a primary beneficiary. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period, and adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. A reporting entity may apply the new guidance using either a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption or by applying the amendments retrospectively. As noted in the “Summary of Significant Accounting Policies” above the Company has adopted this guidance on a modified retrospective basis. This guidance has resulted in the deconsolidation of certain investment vehicles the Company manages, as further described in note 4.

In April 2015, the FASB issued guidance to simplify the presentation of debt issuance costs. The guidance requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability (i.e., versus being capitalized as an asset and amortized as required under existing guidance), consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the new guidance (i.e., debt issuance costs will continue to be amortized as an increase to interest expense). The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. The Company is in the process of evaluating the impact that this guidance will have on its condensed consolidated financial statements.

In May 2015, the FASB issued guidance to eliminate diversity in practice related to how certain investments measured at net asset value are categorized within the fair value hierarchy. The guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. A reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. The guidance is effective for interim and annual reporting periods in fiscal years beginning after December 15, 2015. Pursuant to the guidance, a reporting entity should apply the amendments retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity’s financial statements. Earlier application is permitted. The Company is in the process of evaluating the impact that this guidance will have on its condensed consolidated financial statements.

3. INVESTMENTS

The following table represents Apollo’s investments:

As of June 30, 2015	As of December 31, 2014
------------------------	----------------------------

Edgar Filing: Apollo Global Management LLC - Form 10-Q

Investments, at fair value	\$444,830	\$2,499,128
Equity method investments	529,005	380,878
Total Investments	\$973,835	\$2,880,006

Investments, at Fair Value

Investments, at fair value, consist of financial instruments held by AAA, the Company's investment in Athene Holding, investments held by the Apollo Credit Senior Loan Fund, L.P. ("Apollo Senior Loan Fund"), and other investments held by the Company at fair value. The following table presents the Company's investments, at fair value as of June 30, 2015 and December 31, 2014:

- 25-

(1) AAA has been deconsolidated effective January 1, 2015 as a result of the Company's adoption of new guidance, as described in note 2.

(2) As of December 31, 2014, the financial instruments held by AAA represented 98.6% of net assets of consolidated funds (excluding VIEs).

Athene Holding

As further described in note 12, during 2014, Athene Holding raised \$1.2 billion of net equity commitments (the "Athene Private Placement"), which was priced at \$26 per common share of Athene Holding. In connection with the Athene Private Placement, both the Athene Services Derivative and the AAA Services Derivative (as defined in note 12) were settled on April 29, 2014 by delivery to Apollo of common shares of Athene Holding, and as a result, such derivatives were terminated. Following settlement of these derivatives, future monitoring fees and management fees paid to Apollo pursuant to the Amended Athene Services Agreement and the Amended AAA Services Agreement, respectively, will be paid on a quarterly basis in arrears by delivery to Apollo of common shares of Athene Holding (unless such payment in shares would violate Section 16(b) of the Exchange Act).

The Company elected the fair value option for its investment in Athene Holding at the time of settlement of the Athene Services Derivative and AAA Services Derivative. The Company has classified this investment as a Level III asset in the fair value hierarchy, as the pricing inputs into the determination of fair value require significant judgment and estimation. The investment is valued based on the price of a common share of Athene Holding, which at June 30, 2015 and December 31, 2014 was determined using the embedded value method based on the present value of the future expected regulatory distributable income generated by the net assets of Athene plus the excess capital (i.e., the capital in excess of what is required to be held against Athene's liabilities). The net assets of Athene consist of the current and projected assets less the current and projected liabilities related to in force insurance contracts. For purposes of the excess capital calculation the assets are valued at fair value using our valuation methodology disclosed in note 2. The approach of using actuarially projected asset and liability income to value an insurance company is widely used by market participants in the insurance industry, particularly in private company acquisitions. The embedded value of the in force insurance contracts incorporates actuarial projections of expected income utilizing most recently available policyholder contract and experience data, industry information and assumptions, general economic and market conditions, and other factors deemed relevant, including the cost of capital. In addition, consideration is also given to comparable company multiples in the determination of fair value. See note 5 for further discussion regarding fair value leveling and note 12 for further information regarding Athene.

Apollo Senior Loan Fund

On December 31, 2011, the Company became the sole investor in the Apollo Senior Loan Fund and therefore consolidated the assets and liabilities of the fund. The fund invests in U.S. denominated senior secured loans, senior secured bonds and other income generating fixed-income investments. The Company has classified the instruments associated with the Apollo Senior Loan Fund investment within the respective level in the fair value hierarchy. See note 5 for further discussion regarding fair value leveling.

Net Gains (Losses) from Investment Activities

Net gains (losses) from investment activities in the condensed consolidated statements of operations include net realized gains (losses) from sales of investments, and the change in net unrealized gains (losses) resulting from changes in fair value or reversal of realization of gains/losses of the consolidated funds' investments and realization of previously unrealized gains/losses. Additionally, net gains from investment activities include changes in the fair value of investments held at fair value. The following tables present Apollo's net gains (losses) from investment activities for the three and six months ended June 30, 2015 and 2014:

	For the Three Months Ended June 30, 2015		
	Private Equity	Credit	Total
Realized gains on sales of investments	\$—	\$137	\$137

(1) Amounts are as of March 31, 2015.

(2) Amounts are as of September 30, 2014.

Investment value includes the fair value of RSUs granted to the Company as of the grant date. These amounts are

(3) not considered in the percentage of ownership until the RSUs are vested and issued to the Company, at which point the RSUs are converted to common stock and delivered to the Company.

(4) The value of the Company's investment in AINV was \$53,842 and \$53,693 based on the quoted market price as of June 30, 2015 and December 31, 2014, respectively.

(5) Certain funds invest across multiple segments. The presentation in the table above is based on the classification of the majority of such funds' investments.

(6) AAA has been deconsolidated effective January 1, 2015 as a result of the Company's adoption of new accounting guidance, as described in note 2. As a result, the Company's investment in AAA no longer eliminates in consolidation.

As of June 30, 2015 and December 31, 2014 and for the three and six months ended June 30, 2015 and 2014, no equity method investment held by Apollo met the significance criteria as defined by the SEC. As such, Apollo is not required to present summarized income statement information for any of its equity method investments.

4. VARIABLE INTEREST ENTITIES

As described in note 2, the Company consolidates entities that are VIEs for which the Company has been designated as the primary beneficiary. The purpose of such VIEs is to provide strategy-specific investment opportunities for investors in exchange for management and performance based fees. The investment strategies of the entities that the Company manages may vary by entity; however, the fundamental risks of such entities have similar characteristics, including loss of invested capital and the return of carried interest income previously distributed to the Company by certain private equity, credit, and real estate entities. The nature of the Company's involvement with VIEs includes direct and indirect investments and fee arrangements. The Company does not provide performance guarantees and has no other financial obligations to provide funding to VIEs other than its own capital commitments. There is no recourse to the Company for the consolidated VIEs' liabilities.

Consolidated Variable Interest Entities

Apollo has consolidated VIEs in accordance with the policy described in note 2. Through its role as investment manager of these VIEs, the Company determined that Apollo has the power to direct the activities that most significantly impact the economic performance of these VIEs. Additionally, Apollo determined that its interests, both directly and indirectly from these VIEs, represent rights to returns that could potentially be significant to such VIEs. As a result, Apollo determined that it is the primary beneficiary and therefore should consolidate the VIEs.

Deconsolidation of CLOs

CLOs are generally determined to be VIEs if they are formed solely to issue collateralized notes in the legal form of debt and therefore do not have sufficient total equity investment at risk to permit the entity to finance its activities without additional subordinated financial support. Prior to adoption of the new consolidation guidance, Apollo was considered to possess a controlling financial interest in, and therefore consolidated, such CLOs as Apollo's role as

collateral manager provided the Company with the power to direct the activities that most significantly impacted the CLO's economic performance and the Company had the right to receive certain benefits from the CLO through incentive fees that could potentially be significant to the CLO. Under the new guidance, the majority of these CLOs have been deconsolidated as the incentive fees received by Apollo from the deconsolidated CLOs are not considered variable interests. Accordingly, the Company deconsolidated approximately \$14.6 billion in assets and \$13.7 billion in liabilities related to these entities reflected as of January 1, 2015. The net impact of the deconsolidation is reflected in the condensed consolidated statement of changes in shareholders' equity for the six months ended June 30, 2015. As a result of the adoption, certain deconsolidation adjustments have been recorded to various line items on the condensed consolidated financial statements have been adjusted to remove the impact of intercompany eliminations. These adjustments impacted multiple line items within total revenues and other income, as well as net income attributable to Non-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

controlling Interests on the condensed consolidated statements of operations, as well as multiple line items within the condensed consolidated statements of financial condition, including goodwill.

Consolidated CLOs

Certain CLOs remain consolidated by Apollo as the Company continues to be considered to hold a controlling financial interest through direct and indirect interests in these CLOs exclusive of management and performance based fees received. Through its role as collateral manager of these VIEs, the Company determined that Apollo had the power to direct the activities that most significantly impact the economic performance of these VIEs. These CLOs were formed for the sole purpose of issuing collateralized notes to investors. The assets of these VIEs are primarily comprised of senior secured loans and the liabilities are primarily comprised of debt.

The assets of these consolidated CLOs are not available to creditors of the Company. In addition, the investors in these consolidated VIEs have no recourse against the assets of the Company. The Company has elected the fair value option for financial instruments held by its consolidated CLOs, which includes investments in loans and corporate bonds, as well as debt obligations and contingent obligations held by such consolidated CLOs. Other assets include amounts due from brokers and interest receivables. Other liabilities include payables for securities purchased, which represent open trades within the consolidated VIEs and primarily relate to corporate loans that are expected to settle within the next 60 days. From time to time, Apollo makes investments into certain consolidated CLOs denominated in foreign currencies. As of June 30, 2015, the Company had invested \$44.1 million in consolidated foreign currency denominated CLOs, which eliminates in consolidation.

Pursuant to the terms of certain bank loan agreements, the consolidated VIEs have unfunded contingent liabilities of \$7.7 million as of June 30, 2015.

Investment in Champ L.P.

On September 30, 2014, the Company, through a wholly-owned subsidiary, acquired a 25.6% ownership interest in Champ L.P. following which a wholly-owned subsidiary of Champ L.P. then acquired a 35% ownership interest in KBC Bank Deutschland AG (“KBC Bank”), the German subsidiary of Belgian KBC Group NV (the “KBC Transaction”). Following the closing of the transaction, KBC Bank was renamed Bremer Kreditbank AG and the bank will operate under the name BKB Bank. As of June 30, 2015, the Company had invested \$16.6 million in Champ L.P. The Company, together with other affiliated investors, in aggregate, own 100% of Champ L.P.

The Company, through its aforementioned wholly-owned subsidiary, is the general partner and primary beneficiary of Champ L.P., which meets the definition of a VIE. Accordingly, the Company has consolidated Champ L.P. in accordance with the policy described in note 2. The Company’s investment in Champ L.P. is eliminated in consolidation.

Net Gains (Losses) from Investment Activities of Consolidated Variable Interest Entities

The following table presents net gains (losses) from investment activities of the consolidated VIEs for the three and six months ended June 30, 2015 and 2014, respectively:

	For the Three Months Ended		For the Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Net unrealized gains (losses) from investment activities	\$ (4,346) \$ 10,449	\$ 6,243	\$ 9,538
Net realized gains (losses) from investment activities	3,305	(192) 3,831	16,822
Net gains (losses) from investment activities	(1,041) 10,257	10,074	26,360

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Senior Secured Notes and Subordinated Notes—Included within debt are amounts due to third-party institutions by the consolidated VIEs. The following table summarizes the principal provisions of the debt of the consolidated VIEs as of June 30, 2015 and December 31, 2014:

	As of June 30, 2015			As of December 31, 2014		
	Principal Outstanding	Weighted Average Interest Rate	Weighted Average Remaining Maturity in Years	Principal Outstanding	Weighted Average Interest Rate	Weighted Average Remaining Maturity in Years
Senior Secured Notes ⁽²⁾⁽³⁾	\$754,699	2.25 %	12.6	\$13,459,387	1.60 %	7.8
Subordinated Notes ⁽²⁾⁽³⁾	84,482	N/A	⁽¹⁾ 15.6	1,183,834	N/A	⁽¹⁾ 9.0
Total	\$839,181			\$14,643,221		

(1) The subordinated notes do not have contractual interest rates, but instead receive distributions from the excess cash flows of the VIEs.

(2) The fair value of Senior Secured Notes and Subordinated Notes as of June 30, 2015 and December 31, 2014 was \$831.5 million and \$14,123.1 million, respectively.

(3) The debt at fair value of the consolidated VIEs is collateralized by assets of the consolidated VIEs and assets of one vehicle may not be used to satisfy the liabilities of another vehicle. As of June 30, 2015 and December 31, 2014, the fair value of the consolidated VIE assets was \$1,088.0 million and \$17,070.8 million, respectively. This collateral consisted of cash and cash equivalents, investments, at fair value, and other assets.

The consolidated VIEs' debt obligations contain various customary loan covenants as described above. As of June 30, 2015, the Company was not aware of any instances of non-compliance with any of these covenants.

Variable Interest Entities Which are Not Consolidated

The Company holds variable interests in certain VIEs which are not consolidated, as it has been determined that Apollo is not the primary beneficiary.

The following tables present the carrying amounts of the assets and liabilities of the VIEs for which Apollo has concluded that it holds a significant variable interest, but that it is not the primary beneficiary as of June 30, 2015 and December 31, 2014. In addition, the tables present the maximum exposure to losses relating to these VIEs. As noted earlier, as a result of the adoption of the FASB's new consolidation guidance, the Company is no longer considered to have a variable interest in many of the entities that it manages where its sole interest in an entity is either through carried interest, performance fees or other indirect interests which are not considered to absorb more than an insignificant amount of expected losses or returns of the entity.

	As of June 30, 2015	
	Total Assets	Total Liabilities
Total	\$4,504,876	\$1,066,911
		Apollo Exposure
		\$171,187

(1) Consists of \$233.3 million in cash, \$4,247.8 million in investments and \$23.7 million in receivables.

(2) Represents \$1,066.9 million in debt and other payables.

Edgar Filing: Apollo Global Management LLC - Form 10-Q

Represents Apollo's direct equity method investment in those entities in which Apollo holds a significant variable interest. Additionally, cumulative carried interest income is subject to reversal in the event of future losses. The (3) maximum amount of future reversal of carried interest income from all of Apollo's funds, including those entities in which Apollo holds a significant variable interest, is \$2,613.3 million as of June 30, 2015 as discussed in note 13.

	As of December 31, 2014		
Total	Total Assets	Total Liabilities	Apollo Exposure
	\$11,676,038	(1) \$729,515	(2) \$30,752 (3)

(1) Consists of \$794.5 million in cash, \$10,456.0 million in investments and \$425.6 million in receivables.

- 31-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

(2) Represents \$362.0 million in debt and other payables, \$359.4 million in securities sold, not purchased, and \$8.2 million in capital withdrawals payable.

(3) Represents Apollo's direct equity method investment in those entities in which Apollo holds a significant variable interest. Additionally, cumulative carried interest income is subject to reversal in the event of future losses. The maximum amount of future reversal of carried interest income from all of Apollo's funds, including those entities in which Apollo holds a significant variable interest, was \$2,892.8 million as of December 31, 2014.

5. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The following tables summarize the valuation of the Company's financial assets and liabilities by the fair value hierarchy as of June 30, 2015 and December 31, 2014, respectively:

	As of June 30, 2015			Total
	Level I ⁽⁶⁾	Level II ⁽⁶⁾	Level III

(1) See note 3 for further disclosure regarding the investment in AAA Investments, investments held by Apollo Senior Loan Fund, and other investments.

(2) See note 12 for further disclosure regarding the investment in Athene Holding and the AAA/Athene Receivable.

(3) See note 13 for further disclosure regarding contingent consideration obligations.

(4) See note 4 for further disclosure regarding VIEs.

As of June 30, 2015, liabilities of VIEs, at fair value includes debt and other liabilities of \$831.5 million and \$11.7 million, respectively. As of December 31, 2014, liabilities of VIEs, at fair value includes debt and other liabilities of \$14,123.1 million and \$13.3 million, respectively. Other liabilities include contingent obligations classified as Level III.

(6) All Level I and Level II investments and liabilities were valued using third party pricing.

Transfers between Level II and III were a result of subjecting the broker quotes on these financial liabilities to

(1) various criteria which include the number and quality of broker quotes, the standard deviation of obtained broker quotes and the percentage deviation from independent pricing services.

- (2) Changes in fair value of contingent consideration obligations are recorded in profit sharing expense in the condensed consolidated statements of operations.

Upon adoption of new accounting guidance (see note 2), the debt obligations of consolidated CLOs are no longer categorized as Level III financial liabilities under the fair value hierarchy. As of June 30, 2015, these financial

(3) liabilities are measured on the basis of the fair value of the financial assets of the consolidated CLOs and are categorized as Level II.

The following tables summarize the quantitative inputs and assumptions used for financial assets and liabilities categorized as Level III under the fair value hierarchy as of June 30, 2015 and December 31, 2014:

The net asset value of the underlying securities held by AAA Investments represents its sole investment in Athene, offset by other net liabilities. The investment in Athene was valued at \$2,244.2 million as of December 31, 2014 using the embedded value method based on the present value of the future expected regulatory distributable income (1) generated by the net assets of Athene plus the excess capital (i.e., the capital in excess of what is required to be held against Athene's liabilities). The unobservable inputs and respective ranges used are the same as noted for the Investment in Athene Holding and the AAA/Athene Receivable in the table above. See note 12 for discussion of the investment in Athene Holding.

(2) These securities are valued primarily using broker quotes.

Balance includes investments in an affiliated fund, which primarily invests in corporate loans, bonds, and CLO (3) notes. Balance at December 31, 2014 includes investments in an affiliated fund in the amount of \$865.9 million, which were valued based on NAV.

Investment in Athene Holding and AAA/Athene Receivable

As of June 30, 2015, the significant unobservable input used in the fair value measurement of the investment in Athene Holding is the discount rate applied in the valuation model. This input in isolation can cause significant increases or decreases in fair value. Specifically, when a discounted cash flow model is used to determine fair value, the significant input used in the valuation model is the discount rate applied to present value the projected cash flows. An increase in the discount rate can significantly lower the fair value of an investment; conversely a decrease in the discount rate can significantly increase the fair value of an investment. The discount rate is determined based on the expected required rate of return based on the risk profile of similar cash flows.

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Consolidated VIEs

Investments

The significant unobservable inputs used in the fair value measurement of the bank debt term loans and equity securities include the discount rate applied and the multiples applied in the valuation models. These unobservable inputs in isolation can cause significant increases or decreases in fair value. Specifically, when a discounted cash flow model is used to determine fair value, the significant input used in the valuation model is the discount rate applied to present value the projected cash flows. Increases in the discount rate can significantly lower the fair value of an investment; conversely decreases in the discount rate can significantly increase the fair value of an investment. The discount rate is determined based on the market rates an investor would expect for a similar investment with similar risks. When a comparable multiple model is used to determine fair value, the comparable multiples are generally multiplied by the underlying companies' earnings before interest, taxes, depreciation and amortization ("EBITDA") to establish the total enterprise value of the company. The comparable multiple is determined based on the implied trading multiple of public industry peers.

Liabilities

The significant unobservable inputs used in the fair value measurement of the subordinated and senior secured notes include the discount rate applied in the valuation models, default and recovery rates applied in the valuation models. These inputs in isolation can cause significant increases or decreases in fair value. Specifically, when a discounted cash flow model is used to determine fair value, the significant input used in the valuation model is the discount rate applied to present value the projected cash flows. Increases in the discount rate can significantly lower the fair value of subordinated and senior secured notes; conversely a decrease in the discount rate can significantly increase the fair value of subordinated and senior secured notes. The discount rate is determined based on the market rates an investor would expect for similar subordinated and senior secured notes with similar risks. As of June 30, 2015, due to the adoption of new accounting guidance (see note 2), the debt obligations of the consolidated CLOs are measured on the basis of the fair value of the financial assets of the CLOs as the financial assets were determined to be more observable and, as a result, categorized as Level II in the fair value hierarchy.

Contingent Consideration Obligations

The significant unobservable input used in the fair value measurement of the contingent consideration obligations is the discount rate applied in the valuation models. This input in isolation can cause significant increases or decreases in fair value. Specifically, when a discounted cash flow model is used to determine fair value, the significant input used in the valuation model is the discount rate applied to present value the projected cash flows. Increases in the discount rate can significantly lower the fair value of the contingent consideration obligations; conversely a decrease in the discount rate can significantly increase the fair value of the contingent consideration obligations. The discount rate was based on the weighted average cost of capital for the Company. See note 13 for further discussion of the contingent consideration obligations.

6. CARRIED INTEREST RECEIVABLE

Carried interest receivable from private equity, credit and real estate funds consisted of the following:

	As of June 30, 2015	As of December 31, 2014
Private Equity	\$583,444	\$672,119
Credit	250,997	226,430
Real Estate	22,172	13,117
Total carried interest receivable	\$856,613	\$911,666

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

The table below provides a roll-forward of the carried interest receivable balance for the six months ended June 30, 2015:

	Private Equity	Credit	Real Estate	Total
Carried interest receivable, January 1, 2015	\$672,119	\$226,430	\$13,117	\$911,666
Change in fair value of funds ⁽¹⁾	145,362	76,933	4,348	226,643
Fund distributions to the Company	(234,037)	(92,724)	(2,329)	(329,090)
Adoption of new accounting guidance	—	40,358	7,036	47,394
Carried interest receivable, June 30, 2015	\$583,444	\$250,997	\$22,172	\$856,613

Included in unrealized carried interest income (loss) from affiliates for the six months ended June 30, 2015 was a reversal of previously realized carried interest income due to the general partner obligation to return previously distributed carried interest income with respect to Fund V, ACLF and certain SIAs within the credit segment of \$9.1 million, \$5.9 million and \$27.1 million, respectively. The fair value gain on investments and income at the fund level needed to reverse the general partner obligations with respect to Fund V, ACLF and certain SIAs within the credit segment was \$60.6 million, \$16.7 million and \$53.2 million, respectively, as of June 30, 2015. The general partner obligation is recognized based upon a hypothetical liquidation of the fund's net assets as of the reporting date. The actual determination and any required payment of any such general partner obligation would not take place until the final disposition of a fund's investments based on the contractual termination of the fund or as otherwise set forth in the respective limited partnership agreement of the fund.

The timing of the payment of carried interest due to the general partner or investment manager varies depending on the terms of the applicable fund agreements. Generally, carried interest with respect to the private equity funds and certain credit and real estate funds is payable and is distributed to the fund's general partner upon realization of an investment if the fund's cumulative returns are in excess of the preferred return. For most credit funds, carried interest is payable based on realizations after the end of the relevant fund's fiscal year or fiscal quarter, subject to high watermark provisions.

7. PROFIT SHARING PAYABLE

Profit sharing payable from private equity, credit and real estate funds consisted of the following:

	As of June 30, 2015	As of December 31, 2014
Private Equity	\$246,348	\$240,595
Credit	176,250	186,307
Real Estate	9,575	7,950
Total profit sharing payable	\$432,173	\$434,852

The table below provides a roll-forward of the profit sharing payable balance for the six months ended June 30, 2015:

	Private Equity	Credit	Real Estate	Total
Profit sharing payable, January 1, 2015	\$240,595	\$186,307	\$7,950	\$434,852
Profit sharing expense ⁽¹⁾	91,007	22,916	2,750	116,673
Payments/other	(85,254)	(32,973)	(1,125)	(119,352)
Profit sharing payable, June 30, 2015	\$246,348	\$176,250	\$9,575	\$432,173

Includes both of the following: (i) changes in amounts payable to employees and former employees entitled to a (1) share of carried interest income in Apollo's funds and (ii) changes to the fair value of the contingent consideration obligations (see notes 5 and 13) recognized in connection with certain Apollo acquisitions.

8. INCOME TAXES

The Company is treated as a partnership for income tax purposes and is therefore not subject to U.S. federal, state and local income taxes. APO Corp., a wholly-owned subsidiary of the Company, is subject to U.S. federal, state and local corporate

- 40-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

income taxes. Certain other subsidiaries of the Company are subject to New York City Unincorporated Business Tax (“NYC UBT”) attributable to the Company’s operations apportioned to New York City. In addition, certain non-U.S. subsidiaries of the Company are subject to income taxes in their local jurisdictions.

The Company’s provision for income taxes totaled \$9.1 million and \$35.0 million for the three months ended June 30, 2015 and 2014, respectively, and \$14.6 million and \$67.6 million for the six months ended June 30, 2015 and 2014, respectively. The Company’s effective tax rate was approximately 5.8% and 12.2% for the three months ended June 30, 2015 and 2014, respectively, and 6.0% and 8.7% for the six months ended June 30, 2015 and 2014, respectively. Under U.S. GAAP, a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits of the position. Based upon the Company’s review of its federal, state, local and foreign income tax returns and tax filing positions, the Company determined that no unrecognized tax benefits for uncertain tax positions were required to be recorded. In addition, the Company does not believe that it has any tax positions for which it is reasonably possible that it will be required to record significant amounts of unrecognized tax benefits within the next twelve months.

The Company’s primary jurisdictions in which it operates are the United States, New York State, New York City, California and the United Kingdom. In the normal course of business, the Company is subject to examination by federal and certain state, local and foreign tax authorities. With a few exceptions, as of June 30, 2015, the Company’s U.S. federal, state, local and foreign income tax returns for the years 2011 through 2014 are open under the general statute of limitations provisions and therefore subject to examination. Currently, the Internal Revenue Service is examining the tax return of a subsidiary for the 2012 tax year. The State and City of New York is examining certain subsidiaries’ tax returns for tax years 2011 and 2013, and the City of Los Angeles is examining certain subsidiaries’ tax returns for the years 2011 to 2013. Additionally, the Company completed the Internal Revenue Service examination of the tax return for 2011 for Apollo Global Management, LLC with no change.

The Company has recorded a deferred tax asset for the future amortization of tax basis intangibles as a result of the 2007 Reorganization. The Company recognized an additional step-up in tax basis of intangibles as a result of subsequent exchanges of AOG Units for Class A shares in 2014 and 2015. As a result of these exchanges of AOG Units for Class A shares, there were increases in the deferred tax asset established from the 2007 Reorganization which were recorded in deferred tax assets in the condensed consolidated statements of financial condition for the expected tax benefit associated with these increases. A related tax receivable agreement liability was recorded in due to affiliates in the condensed consolidated statements of financial condition for the expected payments under the tax receivable agreement entered into by and among APO Corp., the Managing Partners, the Contributing Partners, and other parties thereto (as amended, the “tax receivable agreement”) (see note 12). The increases in the deferred tax asset less the related liability resulted in increases to additional paid-in capital which were recorded in the condensed consolidated statements of changes in shareholders’ equity for the six months ended June 30, 2015 and 2014. The amortization period for these tax basis intangibles is 15 years. Accordingly, the related deferred tax assets will reverse over the same period.

The tables below present the transactions related to the exchange of AOG Units for Class A shares during the six months ended June 30, 2015 and 2014 and the resulting impact to the deferred tax asset, tax receivable agreement liability and additional paid-in capital.

	For the Six Months Ended June 30, 2015		
	Increase in Deferred Tax Asset	Increase in Tax Receivable Agreement Liability	Increase to Additional Paid In Capital
Exchange of AOG Units for Class A shares			
For the Six Months Ended June 30, 2015	\$13,978	\$11,478	\$2,500

Edgar Filing: Apollo Global Management LLC - Form 10-Q

	For the Six Months Ended June 30, 2014		
Exchange of AOG Units for Class A shares	Increase in Deferred Tax Asset	Increase in Tax Receivable Agreement Liability	Increase to Additional Paid In Capital
For the Six Months Ended June 30, 2014	\$58,696	\$47,878	\$10,818

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

9. DEBT

Debt consisted of the following:

	As of June 30, 2015		As of December 31, 2014	
	Outstanding Balance	Annualized Weighted Average Interest Rate	Outstanding Balance	Annualized Weighted Average Interest Rate
2013 AMH Credit Facilities - Term Facility	\$500,000	1.38 %	\$500,000	1.36 %
2024 Senior Notes ⁽¹⁾	499,108	4.00	499,058	4.00
2014 AMI Term Facility I ⁽²⁾	14,917	2.18	16,204	2.34
2014 AMI Term Facility II ⁽³⁾	17,263	1.91	18,752	1.93
Total Debt	\$1,031,288		\$1,034,014	

(1)Includes impact of any amortization of note discount.

On July 3, 2014, Apollo Management International LLP (“AMI”), a subsidiary of the Company, entered into a €13.4 (2) million five year credit agreement (the “2014 AMI Term Facility I”). Proceeds from the borrowing were used to fund the Company’s investment in a European CLO it manages.

On December 9, 2014, AMI entered into a €15.5 million five year credit agreement (the “2014 AMI Term Facility (3) II”). Proceeds from the borrowing were used to fund the Company’s investment in a European CLO it manages.

2013 AMH Credit Facilities—On December 18, 2013, AMH and its subsidiaries and certain other subsidiaries of the Company (collectively, the “Borrowers”) entered into new credit facilities (the “2013 AMH Credit Facilities”) with JPMorgan Chase Bank, N.A. The 2013 AMH Credit Facilities provide for (i) a term loan facility to AMH (the “Term Facility”) that includes \$750 million of the term loan from third-party lenders and \$271.7 million of the term loan held by a subsidiary of the Company and (ii) a \$500 million revolving credit facility (the “Revolver Facility”), in each case, with a final maturity date of January 18, 2019.

Interest on the borrowings is based on an adjusted LIBOR rate or alternate base rate, in each case plus an applicable margin, and undrawn revolving commitments bear a commitment fee. Under the terms of the 2013 AMH Credit Facilities, the applicable margin ranges from 1.125% to 1.75% for LIBOR loans and 0.125% to 0.75% for alternate base rate loans, and the undrawn revolving commitment fee ranges from 0.125% to 0.25%, in each case depending on the Company’s corporate rating assigned by Standard & Poor’s Ratings Group, Inc. The 2013 AMH Credit Facilities do not require any scheduled amortization payments or other mandatory prepayments (except with respect to overadvances on the Revolver Facility) prior to the final maturity date, and the Borrowers may prepay the loans and/or terminate or reduce the revolving commitments under the 2013 AMH Credit Facilities at any time without penalty. In connection with the issuance of the 2024 Senior Notes (as defined below), \$250 million of the proceeds were used to repay a portion of the Term Facility outstanding with third party lenders at par. The interest rate on the \$500 million Term Facility as of June 30, 2015 was 1.41% and the commitment fee as of June 30, 2015 on the \$500 million undrawn Revolver Facility was 0.125%. Interest expense incurred by the Company related to the 2013 AMH Credit Facilities was \$1.9 million and \$2.4 million for the three months ended June 30, 2015 and 2014, respectively, and \$3.8 million and \$5.2 million for the six months ended June 30, 2015 and 2014, respectively. Debt issuance cost amortization expense related to the 2013 AMH Credit Facilities was \$0.2 million and 0.3 million for the three months ended June 30, 2015 and 2014, respectively, and \$0.4 million and \$0.6 million for the six months ended June 30, 2015 and 2014, respectively.

The estimated fair value of the Company's long-term debt obligation related to the 2013 AMH Credit Facilities is approximately \$501.3 million based on obtained broker quotes as of June 30, 2015. The \$500.0 million carrying value of debt that is recorded on the condensed consolidated statements of financial condition at June 30, 2015 is the amount for which the Company expects to settle the 2013 AMH Credit Facilities. The Company has determined that the long-term debt obligation related to the 2013 AMH Credit Facilities would be categorized as a Level III liability in the fair value hierarchy based on the number and quality of broker quotes obtained, the standard deviations of the observed broker quotes and the percentage deviation from independent pricing services.

The 2013 AMH Credit Facilities are guaranteed and collateralized by AMH and its subsidiaries, Apollo Management, L.P., Apollo Capital Management, L.P., Apollo International Management, L.P., AAA Holdings, L.P., Apollo Principal Holdings I, L.P., Apollo Principal Holdings II, L.P., Apollo Principal Holdings III, L.P., Apollo Principal Holdings IV, L.P., Apollo Principal

Table of Contents

Holdings V, L.P., Apollo Principal Holdings VI, L.P., Apollo Principal Holdings VII, L.P., Apollo Principal Holdings VIII, L.P., Apollo Principal Holdings IX L.P., Apollo Principal Holdings X L.P., ST Holdings GP, LLC and ST Management Holdings, LLC. The 2013 AMH Credit Facilities contain affirmative and negative covenants which limit the ability of the Borrowers, the guarantors and certain of their subsidiaries to, among other things, incur indebtedness and create liens. Additionally, the 2013 AMH Credit Facilities contain financial covenants which require the Borrowers and their subsidiaries to maintain (1) at least \$40 billion of Fee-Generating Assets Under Management and (2) a maximum total net leverage ratio of not more than 4.00 to 1.00 (subject to customary equity cure rights). The 2013 AMH Credit Facilities also contain customary events of default, including events of default arising from non-payment, material misrepresentations, breaches of covenants, cross default to material indebtedness, bankruptcy and changes in control of the Company.

Borrowings under the Revolver Facility may be used for working capital and general corporate purposes, including, without limitation, permitted acquisitions. In addition, the Borrowers may incur incremental facilities in respect of the Revolver Facility and the Term Facility in an aggregate amount not to exceed \$500 million plus additional amounts so long as the Borrowers are in compliance with a net leverage ratio not to exceed 3.75 to 1.00. As of June 30, 2015 and December 31, 2014, the Revolver Facility was undrawn.

2024 Senior Notes—On May 30, 2014, AMH issued \$500 million in aggregate principal amount of its 4.000% Senior Notes due 2024 (the “2024 Senior Notes”), at an issue price of 99.722% of par. Interest on the 2024 Senior Notes is payable semi-annually in arrears on May 30 and November 30 of each year. The 2024 Senior Notes will mature on May 30, 2024. The discount will be amortized into interest expense on the condensed consolidated statements of operations over the term of the 2024 Senior Notes. Interest expense incurred by the Company related to the 2024 Senior Notes was \$5.0 million and \$1.7 million for the three months ended June 30, 2015 and 2014, respectively, and \$10.0 million and \$1.7 million for the six months ended June 30, 2015 and 2014, respectively.

The Company capitalized debt issuance costs of \$5.5 million incurred in connection with the issuance of the 2024 Senior Notes, which was recorded in other assets in the condensed consolidated statements of financial condition as of June 30, 2015, to be amortized over the term of the notes. Debt issuance cost amortization expense related to the issuance of the 2024 Senior Notes was \$0.1 million and \$0.1 million for the three months ended June 30, 2015 and 2014, respectively, and \$0.3 million and \$0.1 million for the six months ended June 30, 2015 and 2014, respectively.

The 2024 Senior Notes are guaranteed by Apollo Principal Holdings I, L.P., Apollo Principal Holdings II, L.P., Apollo Principal Holdings III, L.P., Apollo Principal Holdings IV, L.P., Apollo Principal Holdings V, L.P., Apollo Principal Holdings VI, L.P., Apollo Principal Holdings VII, L.P., Apollo Principal Holdings VIII, L.P., Apollo Principal Holdings IX, L.P., Apollo Principal Holdings X, L.P., AMH Holdings (Cayman), L.P. and any other entity that is required to become a guarantor of the notes under the terms of the indenture governing the 2024 Senior Notes (the “2024 Senior Notes Indenture”). The 2024 Senior Notes Indenture includes covenants that restrict the ability of AMH and, as applicable, the guarantors to incur indebtedness secured by liens on voting stock or profit participating equity interests of their respective subsidiaries or merge, consolidate or sell, transfer or lease assets. The 2024 Senior Notes Indenture also provides for customary events of default.

The estimated fair value of the Company’s long-term debt obligation related to the 2024 Senior Notes is approximately \$497.9 million based on obtained broker quotes as of June 30, 2015. The face amount of \$500.0 million related to the 2024 Senior Notes is the amount for which the Company is obligated to settle the 2024 Senior Notes. The Company has determined that the long-term debt obligation related to the 2024 Senior Notes would be categorized as a Level II liability in the fair value hierarchy based on the number and quality of broker quotes obtained, the standard deviations

of the observed broker quotes and the percentage deviation from independent pricing services.

10. NET INCOME (LOSS) PER CLASS A SHARE

U.S. GAAP requires use of the two-class method of computing earnings per share for all periods presented for each class of common stock and participating security as if all earnings for the period had been distributed. Under the two-class method, during periods of net income, the net income is first reduced for distributions declared on all classes of securities to arrive at undistributed earnings. During periods of undistributed losses, the undistributed loss is allocated to participating securities only if the security has the right to participate in the earnings of the entity and an objectively determinable contractual obligation to share in net losses of the entity.

- 43-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

The remaining undistributed earnings are allocated to Class A shares and participating securities to the extent that each security shares in earnings as if all of the earnings for the period had been distributed. Earnings or losses allocated to each class of security are then divided by the applicable number of shares to arrive at basic earnings per share. For the diluted earnings, the denominator includes all outstanding Class A shares and includes the number of additional Class A shares that would have been outstanding if the dilutive potential Class A shares had been issued. The numerator is adjusted for any changes in income or loss that would result from the issuance of these potential Class A shares.

The table below presents basic and diluted net income per Class A share using the two-class method for the three and six months ended June 30, 2015 and 2014:

	Basic and Diluted		For the Six Months Ended	
	For the Three Months		June 30,	
	Ended		June 30,	
	June 30,		June 30,	
	2015	2014	2015	2014

(1) The Company declared an \$0.86 and \$0.33 distribution on Class A shares on February 5, 2015 and May 7, 2015, respectively.

(2) The Company declared a \$1.08 and \$0.84 distribution on Class A shares on February 7, 2014 and May 8, 2014, respectively.

(3) No allocation of undistributed losses was made to the participating securities as the holders do not have a contractual obligation to share in the losses of the Company with Class A shareholders.

(4) For the three and six months ended June 30, 2015 and 2014, the Company had an undistributed loss attributable to Class A shareholders and none of the classes of securities resulted in dilution.

(5) Participating securities consist of vested and unvested RSUs and unvested restricted shares that have rights to distribution equivalents.

On October 24, 2007, the Company commenced the granting of RSUs that provide the right to receive, subject to vesting, Class A shares of Apollo Global Management, LLC, pursuant to the Company's 2007 Omnibus Equity Incentive Plan. Certain RSU grants to employees provide the right to receive distribution equivalents on vested RSUs on an equal basis any time a distribution is declared. The Company refers to these RSU grants as "Plan Grants." For certain Plan Grants, distribution equivalents are paid in January of the calendar year next following the calendar year

in which a distribution on Class A shares was declared. In addition, certain RSU grants to employees provide that both vested and unvested RSUs participate in distribution equivalents on an equal basis with the Class A shareholders any time a distribution is declared. The Company refers to these as “Bonus Grants.” The weighted average vested RSUs were 11.7 million and 21.1 million for the three months ended June 30, 2015 and 2014, respectively, and 13.2 million and 21.3 million for the six months ended June 30, 2015 and 2014, respectively. The weighted average unvested RSUs that participated in distributions were 4.8 million and 4.0 million for the three months ended June 30, 2015 and 2014, respectively, and 4.8 million and 3.7 million for the six months ended June 30, 2015 and 2014, respectively. Any distribution equivalent paid to an employee will not be returned to the Company upon forfeiture of the award by the employee. Vested and unvested RSUs that are entitled to non-forfeitable distribution equivalents qualify as participating securities and are included in the Company’s basic and diluted earnings per share computations using the two-class method. The holder of an RSU participating security would have a contractual obligation to share in the losses of the entity if the holder is obligated to fund the losses of the issuing entity or if the contractual principal or mandatory redemption amount of the participating security is reduced as a result of losses incurred by the issuing entity. Because the RSU participating securities do not have a mandatory redemption amount and the holders of the participating securities are not obligated to fund losses, neither the vested RSUs nor the unvested RSUs are subject to any contractual obligation to share in losses of the Company.

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

In addition, certain share options have been granted to employees under the Company's 2007 Omnibus Equity Incentive Plan. Weighted average unexercised options were 0.2 million and 0.2 million for the three months ended June 30, 2015 and 2014, respectively, and 0.2 million and 0.9 million for the six months ended June 30, 2015 and 2014, respectively.

Holders of AOG Units are subject to the vesting requirements and transfer restrictions set forth in the agreements with the respective holders, and may a limited number of times each year, upon notice (subject to the terms of the Exchange Agreement), exchange their AOG Units for Class A shares on a one-for-one basis. A limited partner must exchange one partnership unit in each of the Apollo Operating Group partnerships to effectuate an exchange for one Class A share.

If all of the outstanding AOG Units were exchanged for Class A shares, the result would be an additional 220.6 million and 222.7 million Class A shares added to the basic earnings per share calculations at June 30, 2015 and 2014, respectively. The weighted average AOG Units outstanding were 221.4 million and 225.7 million for the three months ended June 30, 2015 and 2014, respectively, and 222.0 million and 227.3 million for the six months ended June 30, 2015 and 2014, respectively.

Apollo Global Management, LLC has one Class B share outstanding, which is held by BRH Holdings GP, Ltd. ("BRH"). The voting power of the Class B share is reduced on a one vote per one AOG Unit basis in the event of an exchange of AOG Units for Class A shares, as discussed above. The Class B share has no net income (loss) per share as it does not participate in Apollo's earnings (losses) or distributions. The Class B share has no distribution or liquidation rights. The Class B share has voting rights on a pari passu basis with the Class A shares. The Class B share represented 63.4% and 66.6% of the total voting power of the Company's shares entitled to vote as of June 30, 2015 and 2014, respectively.

The table below presents transactions in Class A shares each quarter during the six months ended June 30, 2015 and the year ended December 31, 2014, and the resulting impact on the Company's and Holdings' ownership interests in the Apollo Operating Group:

Date	Type of Class A Shares Transaction	Number of Shares Issued in Class A Shares Transaction (in thousands)	Apollo Global Management, LLC ownership% in Apollo Operating Group before Class A Shares Transaction	Apollo Global Management, LLC ownership% in Apollo Operating Group after Class A Shares Transaction	Holdings ownership% in Apollo Operating Group before Class A Shares Transaction	Holdings ownership% in Apollo Operating Group after Class A Shares Transaction
Quarter Ended March 31, 2014	Issuance	2,672	39.0%	39.4%	61.0%	60.6%
Quarter Ended June 30, 2014	Issuance/Exchange	7,344	(1) 39.4%	41.2%	60.6%	58.8%
Quarter Ended September 30, 2014	Issuance	3,660	41.2%	41.8%	58.8%	58.2%
Quarter Ended December 31, 2014	Issuance/Exchange	3,090	(1) 41.8%	42.3%	58.2%	57.7%

Edgar Filing: Apollo Global Management LLC - Form 10-Q

Quarter Ended March 31, 2015	Issuance/Exchange	4,866	(1) 42.3%	43.0%	57.7%	57.0%
Quarter Ended June 30, 2015	Issuance/Exchange	4,275	(1) 43.0%	43.8%	57.0%	56.2%

(1) In May 2014, October 2014, February 2015 and May 2015, certain holders of AOG Units exchanged their AOG Units for Class A shares and approximately 6.2 million, 0.1 million, 0.2 million and 1.8 million Class A shares, respectively, were issued by the Company in the exchanges.

11. EQUITY-BASED COMPENSATION

RSUs

On October 24, 2007, the Company commenced the granting of RSUs under the Company's 2007 Omnibus Equity Incentive Plan. These grants are accounted for as a grant of equity awards in accordance with U.S. GAAP. The fair value of all grants after March 29, 2011 is based on the grant date fair value, which considers the public share price of the Company. For Plan

NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Grants, the fair value is based on grant date fair value, and is discounted primarily for transfer restrictions and lack of distributions until vested. For Bonus Grants, the fair value is discounted primarily for transfer restrictions and in certain cases timing of distributions. For Plan Grants that are not eligible for distributions on unvested shares, the discount for the lack of distributions until vested based on the present value of a growing annuity calculation had a weighted average of 26.4% and 42.9% for the three months ended June 30, 2015 and 2014, respectively, and 26.7% and 40.0% for the six months ended June 30, 2015 and 2014, respectively. Additionally, for Plan Grants, the marketability discount for transfer restrictions based on the Finnerty Model calculation, after considering the discount for lack of pre-vesting distributions, had a weighted average of 4.4% and 5.0% for the three months ended June 30, 2015 and 2014, respectively, and 4.4% and 5.0% for the six months ended June 30, 2015 and 2014, respectively. For Bonus Grants, the marketability discount for transfer restrictions based on the Finnerty Model calculation had a weighted average of 2.2% and 3.0% for the three months ended June 30, 2015 and 2014, respectively, and 2.2% and 3.0% for the six months ended June 30, 2015 and 2014, respectively. The estimated total fair value is charged to compensation expense on a straight-line basis over the vesting period, which for Plan Grants is generally up to six years, with the first installment vesting one year after grant and quarterly vesting thereafter, and for Bonus Grants is annual vesting over three years. The fair value of grants made during the six months ended June 30, 2015 and 2014 is \$8.4 million and \$69.9 million, respectively. The actual forfeiture rate was 0.4% and 0.6% for the three months ended June 30, 2015 and 2014, respectively, and 0.5% and 7.2% for the six months ended June 30, 2015 and 2014, respectively. Compensation expense recognized for the three months ended June 30, 2015 and 2014 was \$16.2 million and \$13.4 million, respectively, and \$33.5 million and \$44.5 million for the six months ended June 30, 2015 and 2014, respectively.

In addition, during 2014, the Company entered into an agreement with an executive officer providing for the grant of RSUs when certain metrics have been achieved. In accordance with U.S. GAAP, equity-based compensation expense is recognized only when certain metrics are met or deemed probable. Accordingly, for the three and six months ended June 30, 2015 and 2014, no equity-based compensation expense was recognized relating to these RSUs.

The following table summarizes RSU activity for the six months ended June 30, 2015:

	Unvested	Weighted Average Grant Date Fair Value	Vested	Total Number of RSUs Outstanding	
Balance at January 1, 2015	10,717,635	\$18.11	17,354,242	28,071,877	
Granted	438,043	19.17	—	438,043	
Forfeited	(58,036)) 21.28	—	(58,036))
Delivered	—	14.10	(8,058,322)	(8,058,322))
Vested	(1,672,929)) 17.44	1,672,929	—)
Balance at June 30, 2015	9,424,713	\$18.26	10,968,849	20,393,562	(1)

(1) Amount excludes RSUs which have vested and have been issued in the form of Class A shares.

Units Expected to Vest—As of June 30, 2015, approximately 8,900,000 RSUs were expected to vest over the next 3.3 years.

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Restricted Share Awards

In connection with the Venator Acquisition (see note 1 to the condensed consolidated financial statements), the Company issued \$5.0 million of restricted Class A shares. Based on the terms of the Class A shares, equity-based compensation will be expensed over two years. For the three and six months ended June 30, 2015, 222,546 restricted shares were granted, respectively. Compensation expense recognized for the three and six months ended June 30, 2015 was \$0.4 million.

Share Options

The Company has granted options under the 2007 Omnibus Equity Incentive Plan. For the three months ended June 30, 2015 and 2014, \$0.0 million of compensation expense was recognized as a result of these grants. For the six months ended June 30, 2015 and 2014, \$0.1 million and \$28.1 million of compensation expense was recognized as a result of these grants, respectively. In connection with the departure of an employee from the Company, such employee vested in 1,250,000 share options that were previously granted to him and forfeited 1,250,000 share options that were previously granted to him. As a result of the additional vesting, the Company recorded an incremental compensation expense of \$28.1 million related to the relevant option award agreement for the six months ended June 30, 2014.

There were no share options granted during the six months ended June 30, 2015 or 2014. Apollo measures the fair value of each option award on the date of grant using the Black-Scholes option-pricing model.

The expected life of the options granted represents the period of time that options are expected to be outstanding and is based on the contractual term of the option. Unamortized compensation cost related to unvested share options at June 30, 2015 was \$0.4 million and is expected to be recognized over a weighted average period of 3.0 years.

Delivery of Class A Shares - RSUs and Share Options

During the six months ended June 30, 2015, the Company delivered Class A shares in settlement of vested RSUs and exercised share options. The Company has generally allowed holders of vested RSUs and exercised share options to settle their tax liabilities by reducing the number of Class A shares delivered to them, which the Company refers to as "net share settlement." Additionally, the Company has generally allowed holders of share options to settle their exercise price by reducing the number of Class A shares delivered to them at the time of exercise by an amount sufficient to cover the exercise price. The net share settlement results in a tax liability for the Company and a corresponding accumulated deficit adjustment. This adjustment for the six months ended June 30, 2015 was \$25.5 million.

The delivery of Class A shares in settlement of vested RSUs and exercised share options does not cause a transfer of amounts in the condensed consolidated statements of changes in shareholders' equity to the Class A shareholders. The delivery of Class A shares in settlement of vested RSUs and exercised share options causes the income allocated to the Non-Controlling Interests to shift to the Class A shareholders from the date of delivery forward. During the six months ended June 30, 2015, the Company delivered 6,876,568 Class A shares in settlement of vested RSUs and exercised share options, which caused the Company's ownership interest in the Apollo Operating Group to increase to 43.8% from 42.3%. The gross value of the settlement of these shares was \$184.5 million based on Apollo's share price at the time of the delivery. During the six months ended June 30, 2014, the Company delivered 3,797,843 Class A shares in settlement of vested RSUs and exercised share options, which caused the Company's ownership interest in the Apollo Operating Group to increase to 39.6% from 39.0%. The gross value of the settlement of these shares was \$128.3 million, based on Apollo's share price at the time of the delivery.

Restricted Share Awards—Athene Holding

Athene Holding has granted restricted share awards ("AHL Awards") to certain employees of Apollo. Certain of the awards granted are subject to time-based vesting conditions that generally vest over five years and certain of the awards vest once certain metrics have been achieved. During 2014, the vesting terms of some of the AHL Awards were modified such that the portion of AHL Awards related to services provided from the date of grant were deemed vested.

The AHL Awards granted to employees of Athene Asset Management, L.P. (“Athene Asset Management”), a consolidated subsidiary of Apollo, are accounted for as a prepaid compensation asset within other assets and deferred revenue in the condensed consolidated statements of financial condition. From the date of grant, the deferred revenue is recognized as management fees and the prepaid compensation asset is recognized as compensation expense over the vesting period. The fair value of the awards to employees is based on the grant date fair value, which utilizes the share price of Athene Holding, less

- 47-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

discounts for transfer restrictions. Shares granted as part of the AHL Awards were valued using a multiple-scenario model, which considers the price volatility of the underlying stock price of Athene Holding, time to expiration and the risk-free rate. The awards granted are recognized as liability awards and are remeasured each period to reflect the fair value of the prepaid compensation asset and deferred revenue. Any changes in fair value are recorded in management fees and equity-based compensation expense in the condensed consolidated statements of operations. There were no material grants of AHL Awards during the three and six months ended June 30, 2015.

For the three months ended June 30, 2015 and 2014, \$4.5 million and \$14.9 million of equity-based compensation expense was recognized in the condensed consolidated statements of operations, respectively, related to AHL Awards granted to employees of Athene Asset Management. For the six months ended June 30, 2015 and 2014, \$6.3 million and \$14.9 million of equity-based compensation expense was recognized in the condensed consolidated statements of operations, respectively, related to AHL Awards granted to employees of Athene Asset Management.

Equity-Based Compensation Allocation

Equity-based compensation is allocated based on ownership interests. Therefore, the amortization of the AOG Units is allocated to shareholders' equity attributable to Apollo Global Management, LLC and the Non-Controlling Interests, which results in a difference in the amounts charged to equity-based compensation expense and the amounts credited to shareholders' equity attributable to Apollo Global Management, LLC in the Company's condensed consolidated financial statements.

Below is a reconciliation of the equity-based compensation allocated to Apollo Global Management, LLC for the three months ended June 30, 2015:

	Total Amount	Non- Controlling Interest % in Apollo Operating Group	Allocated to Non- Controlling Interest in Apollo Operating Group ⁽¹⁾	Allocated to Apollo Global Management, LLC
RSUs and Share Options	\$16,410	—	% \$—	\$16,410

(1) As of December 31, 2014, includes unsettled monitoring fee receivable and management fee receivable from AAA and Athene as discussed in "Athene" below.

Tax Receivable Agreement and Other

Subject to certain restrictions, each of the Managing Partners and Contributing Partners has the right to exchange their vested AOG Units for the Company's Class A shares. Certain Apollo Operating Group entities have made an election under Section 754 of the U.S. Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), which will result in an adjustment to the tax basis of the assets owned by the Apollo Operating Group at the time of the exchange. These exchanges will result in increases in tax deductions that will reduce the amount of tax that APO Corp. will otherwise be required to pay in the future.

The tax receivable agreement provides for the payment to the Managing Partners and Contributing Partners of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income taxes that APO Corp. would realize as a result of the increases in tax basis of assets that resulted from the 2007 Reorganization and exchanges of AOG Units for Class A shares. If the Company does not make the required annual payment on a timely basis as outlined in the tax receivable agreement, interest is accrued on the balance until the payment date. These payments are expected to occur approximately over the next 20 years. In connection with the amendment of the AMH partnership agreement in April 2010, the tax receivable agreement was revised to reflect the Managing Partners' agreement to defer 25%, or \$12.1 million, of the required payments pursuant to the tax receivable agreement that are attributable to the 2010 fiscal year for a period of four years until 2015.

In April 2014, Apollo made a \$32.0 million cash payment pursuant to the tax receivable agreement resulting from the realized tax benefit for the 2013 tax year. Included in the payment was approximately \$8.3 million and approximately \$0.5 million of interest paid to the Managing Partners and Contributing Partners, respectively.

In April 2015, Apollo made a \$48.4 million cash payment pursuant to the tax receivable agreement resulting from the realized tax benefit for the 2014 tax year. Included in the payment was approximately \$13.1 million and approximately \$0.6 million of interest paid to the Managing Partners and Contributing Partners, respectively. During the six months ended June 30, 2015 and the year ended December 31, 2014, the Intermediate Holding Companies acquired approximately 2.1 million and 6.3 million Class A shares of Apollo Global Management, LLC,

respectively, which were used to acquire an equal number of AOG Units from certain Managing Partners and Contributing Partners in connection with exchanges of AOG Units for Class A shares. These exchanges were taxable for U.S. federal income tax purposes, and resulted in APO Corp. recording a U.S. federal income tax basis adjustment of approximately \$24.5 million and \$97.6 million in the intangible

- 50-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

assets of certain Apollo Operating Group entities during the six months ended June 30, 2015 and the year ended December 31, 2014, respectively.

Pursuant to the tax receivable agreement, the Managing Partners and Contributing Partners who exchanged AOG Units for Class A shares will receive payment from APO Corp. of 85% of the amount of the actual cash tax savings, if any, in U.S. Federal, state, local and foreign income tax that APO Corp. realizes as a result of these increases in tax deductions and tax basis, and certain other tax benefits, including imputed interest expense. APO Corp. retains the benefit from the remaining 15% of actual cash tax savings. As a result of the exchanges during the six months ended June 30, 2015 and 2014, an \$11.5 million and a \$47.9 million liability was recorded, respectively, to estimate the amount of these future expected payments to be made by APO Corp. to the Managing Partners and Contributing Partners pursuant to the tax receivable agreement.

Due from Contributing Partners, Employees and Former Employees

As of June 30, 2015 and December 31, 2014, due from Contributing Partners, Employees and Former Employee balances include various amounts due to the Company including director fee receivables. In addition, as of June 30, 2015, the balance included employee loans receivable of \$25.0 million. The outstanding principal amount of the loans as well as all accrued and unpaid interest is required to be repaid at the earlier of the eighth anniversary of the date of the relevant loan or at the date of the relevant employee's resignation from the Company.

Distributions

In addition to other distributions such as payments pursuant to the tax receivable agreement, the table below presents information regarding the quarterly distributions which were made at the sole discretion of the manager of the Company during 2014 and 2015 (in millions, except per share data):

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Indemnity

Carried interest income from certain funds that the Company manages can be distributed to the Company on a current basis, but is subject to repayment by the subsidiary of the Apollo Operating Group that acts as general partner of the fund in the event that certain specified return thresholds are not ultimately achieved. The Managing Partners, Contributing Partners and certain other investment professionals have personally guaranteed, subject to certain limitations, the obligation of these subsidiaries in respect of this general partner obligation. Such guarantees are several and not joint and are limited to a particular Managing Partner's or Contributing Partner's distributions. An existing shareholders agreement includes clauses that indemnify each of the Company's Managing Partners and certain Contributing Partners against all amounts that they pay pursuant to any of these personal guarantees in favor of certain funds that the Company manages (including costs and expenses related to investigating the basis for or objecting to any claims made in respect of the guarantees) for all interests that the Company's Managing Partners and Contributing Partners have contributed or sold to the Apollo Operating Group.

Accordingly, in the event that the Company's Managing Partners, Contributing Partners and certain investment professionals are required to pay amounts in connection with a general partner obligation for the return of previously made distributions, the Company will be obligated to reimburse the Company's Managing Partners and certain Contributing Partners for the indemnifiable percentage of amounts that they are required to pay even though the Company did not receive the certain distribution to which that general partner obligation related. The Company recorded an indemnification liability of \$3.9 million as of June 30, 2015. There was no indemnification liability recorded as of December 31, 2014.

Due to Private Equity Funds

Based upon a hypothetical liquidation of Fund V, as of June 30, 2015, the Company has recorded a general partner obligation to return previously distributed carried interest income, which represents amounts due to this fund. As such, there was a general partner obligation to return previously distributed carried interest income of \$9.1 million accrued as of June 30, 2015. The actual determination and any required payment of a general partner obligation would not take place until the final disposition of the fund's investments based on contractual termination of the fund or as otherwise set forth in the respective limited partnership agreement of the fund.

Due to Credit Funds

Based upon a hypothetical liquidation of ACLF and certain SIAs within the credit segment, as of June 30, 2015 and December 31, 2014, the Company has recorded a general partner obligation to return previously distributed carried interest income, which represents amounts due to these funds. As such, there was a general partner obligation to return previously distributed carried interest income with respect to ACLF and certain SIAs within the credit segment of \$5.9 million and \$27.1 million accrued as of June 30, 2015, respectively. As of December 31, 2014, there was a general partner obligation to return previously distributed carried interest income with respect to certain of our credit funds of \$3.4 million. The actual determination and any required payment of a general partner obligation would not take place until the final disposition of the fund's investments based on contractual termination of the fund or as otherwise set forth in the respective limited partnership agreement or other governing document of the fund.

Athene

Athene Holding is the ultimate parent of various insurance company operating subsidiaries. Through its subsidiaries, Athene Holding provides insurance products focused primarily on the retirement market and its business centers primarily on issuing or reinsuring fixed indexed annuities.

Athene Asset Management receives a management fee equal to 0.40% per annum on all assets under management in accounts owned by or related to Athene (the "Athene Accounts"), with certain limited exceptions. In addition, the Company receives sub-advisory management fees and carried interest income with respect to a portion of the assets in the Athene Accounts. With respect to capital invested in an Apollo fund, Apollo receives management fees directly from the relevant funds under the investment management agreements with such funds. Athene Asset Management

and other Apollo subsidiaries incur all expenses associated with their provision of services to Athene, including but not limited to, asset allocation services, direct asset management services, risk management, asset and liability matching management, mergers and acquisitions asset diligence, hedging and other services.

Under a transaction advisory services agreement with Athene (the "Athene Services Agreement"), effective February 5, 2013 through December 31, 2014, Apollo earned a quarterly monitoring fee of 0.50% of Athene's capital and surplus as of the end of the applicable quarter multiplied by 2.5, excluding the shares of Athene Holding that were newly acquired (and not in

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

satisfaction of prior commitments to buy such shares) by AAA Investments in the contribution of certain assets by AAA to Athene in October 2012 (the “Excluded Athene Shares”). The Athene Services Agreement was amended in connection with the Athene Private Placement described below (the “Amended Athene Services Agreement”). The Amended Athene Services Agreement adjusted the calculation of Athene Holding’s capital and surplus downward by an amount equal to (x) the equity capital raised in the Athene Private Placement and (y) certain disproportionate increases to the statutory capital and surplus of Athene, as compared to the stockholders’ equity of Athene calculated on a U.S. GAAP basis, as a result of certain future acquisitions by Athene. Prior to the consummation of the Athene Private Placement, all such monitoring fees were paid pursuant to a derivative contract between Athene and Apollo (the “Athene Services Derivative”). In connection with the Athene Private Placement, the Athene Services Derivative was settled on April 29, 2014 by delivery to Apollo of common shares of Athene Holding, and as a result, such derivative was terminated. Following settlement of the Athene Services Derivative, future monitoring fees paid to Apollo pursuant to the Amended Athene Services Agreement, were paid on a quarterly basis in arrears by delivery to Apollo of common shares of Athene Holding (unless such payment in shares would violate Section 16(b) of the U.S. Securities Exchange Act of 1934, as amended). Unsettled monitoring fees pursuant to the Amended Athene Services Agreement are recorded as due from affiliates in the condensed consolidated statements of financial condition. For the three and six months ended June 30, 2014, Apollo earned \$51.4 million and \$110.1 million, respectively related to this monitoring fee. The monitoring fee is recorded in advisory and transaction fees from affiliates, net, in the condensed consolidated statements of operations. As of December 31, 2014, Apollo had a \$58.2 million receivable recorded in due from affiliates on the condensed consolidated statements of financial condition, respectively.

In accordance with the services agreement among AAA, AAA Investments and the other service recipients party thereto and Apollo (the “AAA Services Agreement”), Apollo receives a management fee for managing the assets of AAA Investments. In connection with each of the contribution of certain assets by AAA to Athene in October 2012, and the initial closing of the Athene Private Placement on April 4, 2014, the AAA Services Agreement was amended (the “Amended AAA Services Agreement”). Pursuant to the Amended AAA Services Agreement, the parties agreed that there will be no management fees payable by AAA Investments with respect to the Excluded Athene Shares. AAA Investments agreed to continue to pay Apollo the same management fee on its investment in Athene (other than with respect to the Excluded Athene Shares), except that Apollo agreed that the obligation to pay the existing management fee terminated on December 31, 2014 (although services will continue through December 31, 2020). Prior to the consummation of the Athene Private Placement, all such management fees were accrued pursuant to a derivative contract between AAA Investments and Apollo (the “AAA Services Derivative”). In connection with the Athene Private Placement, the AAA Services Derivative was settled on April 29, 2014 by delivery to Apollo of common shares of Athene Holding, and as a result, such derivative was terminated. Following settlement of the AAA Services Derivative, future management fees paid to Apollo pursuant to the Amended AAA Services Agreement were paid on a quarterly basis in arrears by delivery to Apollo of common shares of Athene Holding (unless such payment in shares would violate Section 16(b) of the Exchange Act). Unsettled management fees pursuant to the Amended AAA Services Agreement are recorded as due from affiliates in the condensed consolidated statements of financial condition. There were no management fees receivable as of June 30, 2015 as AAA Investments’ obligation to pay the existing management fee terminated on December 31, 2014. As of December 31, 2014, Apollo had a \$3.1 million receivable recorded in due from affiliates related to this management fee on the condensed consolidated statements of financial condition. The total management fees earned by Apollo related to the Amended AAA Services Agreement for the three and six months ended June 30, 2015 were \$0.8 million and \$1.6 million, respectively, and \$0.4 million and \$0.8 million for the three and six months ended June 30, 2014, respectively. These management fees are recorded in management fees from affiliates in the condensed consolidated statements of operations.

Prior to the settlement of the Athene Services Derivative and the AAA Services Derivative, the change in unrealized market value of the derivatives was reflected in other income, net in the condensed consolidated statements of

operations. For the six months ended June 30, 2014, there were \$14.0 million of changes in market value recognized related to these derivatives.

In addition, Apollo, as general partner of AAA Investments, is generally entitled to a carried interest that allocates to it 20% of the realized returns (net of related expenses, including borrowing costs) on the investments of AAA Investments, except that Apollo will not be entitled to receive any carried interest in respect of the Excluded Athene Shares. Carried interest receivable from AAA Investments will be paid in common shares of Athene Holding (valued at the then fair market value) if there is a distribution in kind of shares of Athene Holding (unless such payment in shares would violate Section 16(b) of the Exchange Act) or paid in cash if AAA sells the shares of Athene Holding. For the three and six months ended June 30, 2015, the Company recorded carried interest income less the related profit sharing expense of \$3.6 million from AAA Investments, which is recorded in the condensed consolidated statements of operations. For the three and six months ended June 30, 2014, the Company recorded carried interest income less the related profit sharing expense of \$0.0 million and \$14.6 million, respectively, from AAA Investments, which is recorded in the condensed consolidated statements of operations. As of June 30, 2015 and December 31, 2014, the Company had a \$135.6 million and a \$121.5 million carried interest receivable, respectively, related to AAA Investments. As of

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

June 30, 2015 and December 31, 2014, the Company had a related profit sharing payable of \$45.4 million and \$34.9 million, respectively, recorded in profit sharing payable in the condensed consolidated statements of financial condition.

For the three and six months ended June 30, 2015, Apollo earned revenues in the aggregate totaling \$112.1 million and \$206.5 million, respectively, consisting of management fees, sub-advisory and monitoring fees and carried interest income from Athene after considering the related profit sharing expense and changes in the market value of the Athene Holding shares owned directly by Apollo, which is recorded in the condensed consolidated statements of operations. For the three and six months ended June 30, 2014, Apollo earned revenues in the aggregate totaling \$112.5 million and \$267.1 million, respectively, consisting of management fees, sub-advisory and monitoring fees and carried interest income from Athene after considering the related profit sharing expense and changes in the market value of the Athene Holding shares owned directly by Apollo, which is recorded in the condensed consolidated statements of operations.

On April 4, 2014, Athene Holding completed an initial closing of a private placement offering of common equity in which it raised \$1.048 billion of primary commitments from third-party institutional and certain existing investors in Athene Holding (the "Athene Private Placement"). Shares in the Athene Private Placement were offered at a price per common share of Athene Holding of \$26. In connection with the Athene Private Placement, Athene raised an additional \$80 million of third party capital at \$26 per share, all of which was used to buy back a portion of the shares of one of its existing investors at a price of \$26 per share in a transaction that was consummated on April 29, 2014. As announced by AAA on June 24, 2014, a second closing of the Athene Private Placement occurred in which Athene Holding raised \$170 million of commitments primarily from employees of Athene and its affiliates at a price per common share of Athene Holding of \$26. The Athene Private Placement offering was concluded in the first quarter of 2015 with a final closing of \$60 million of additional capital commitments from affiliates of Athene. The Investment Partnership did not purchase any additional common shares of Athene Holding as part of the Athene Private Placement.

The Company had an approximate 9.2% economic ownership interest in Athene Holding as of June 30, 2015, which comprises Apollo's direct ownership of 8.0% of the economic equity of Athene Holding plus an additional 1.2% economic ownership interest, which is calculated as the Company's approximate 2.4% economic ownership interest in AAA plus the Company's approximate 0.06% economic ownership interest in AAA Investments multiplied by AAA Investments' approximate 46.4% economic ownership interest in Athene, calculated without giving effect to restricted common shares issued under Athene's management equity plan as of June 30, 2015. As disclosed in note 2, as a result of the adoption of new accounting guidance, AAA was deconsolidated as of January 1, 2015.

As of December 31, 2014, the Company, through its consolidation of AAA, had an approximate 47.7% economic ownership interest in Athene through its investment in AAA Investments, (calculated as if the commitments on the Athene Private Placement closed through December 31, 2014 were fully drawn down but without giving effect to (i) restricted common shares issued under Athene's management equity plan, or (ii) common shares to be issued under the Amended Athene Services Agreement subsequent to December 31, 2014 or (iii) the common shares to be issued under the Amended AAA Services Agreement subsequent to December 31, 2014). The Company effectively held 45% of the voting power of Athene as of December 31, 2014.

The Company had an approximate 8.1% economic ownership interest in Athene Holding as of December 31, 2014, which comprises Apollo's direct ownership of 6.9% of the economic equity of Athene Holding plus an additional 1.2% economic ownership interest, which is calculated as the Company's approximate 2.5% economic ownership interest in AAA plus the Company's approximate 0.06% economic ownership interest in AAA Investments multiplied by AAA Investments' approximate 47.7% economic ownership interest in Athene as of December 31, 2014. During 2014, the remaining ownership interest in AAA is recognized in the Company's condensed consolidated statements of operations as non-controlling interest in consolidated entities.

MidCap

During the six months ended June 30, 2015, Apollo, through its subsidiary Apollo MidCap Holdings (Cayman), L.P., entered into a subscription agreement providing for an aggregate commitment of \$50.0 million to subscribe for (i) Class A Variable Funding Subordinated Notes due 2114 (“Class A Notes”) of MidCap FinCo Limited (“MidCap”), a private limited company domiciled in Ireland focused on direct lending opportunities in the senior secured credit market across a diverse range of industries and asset classes that includes the former operations and assets of MidCap Financial Holdings, LLC, a leading specialty finance firm focused on senior secured direct origination in the healthcare sector, and (ii) ordinary shares of nominal value in MidCap’s holding company, MidCap FinCo Holdings Limited (“Ordinary Shares”). The subscription agreement has a commitment period of three years (subject to extension under certain circumstances), and approximately \$20.6 million of the commitment was drawn as of June 30, 2015. Pursuant to an investment management agreement, Apollo, through its subsidiary Apollo Capital Management,

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

L.P., is acting as the investment manager of MidCap's credit business. Certain third parties have also entered into subscription agreements for direct or indirect ownership of Class A Notes and Ordinary Shares.

Additionally, during the six months ended June 30, 2015, AAA Investments (Co-Invest VII), L.P. ("Co-Invest VII") contributed all of its ownership interest in MidCap Financial Holdings, LLC to MidCap in exchange for Class A Notes pursuant to a transfer agreement dated January 21, 2015. As a result of this contribution, Apollo, through its subsidiary AAA Associates (Co-Invest VII), L.P., the general partner of Co-Invest VII, realized \$29.9 million of carried interest from Co-Invest VII, which Co-Invest VII settled with a payment of Class A Notes to AAA Associates (Co-Invest VII), L.P.

Apollo has recorded a \$50.2 million equity method investment in MidCap as of June 30, 2015, which is reflected in Investments in the condensed consolidated statement of financial condition.

Regulated Entities

Apollo Global Securities, LLC ("AGS") is a registered broker dealer with the SEC and is a member of the Financial Industry Regulatory Authority, subject to the minimum net capital requirements of the SEC. AGS was in compliance with these requirements at June 30, 2015. From time to time, this entity is involved in transactions with affiliates of Apollo, including portfolio companies of the funds Apollo manages, whereby AGS earns underwriting and transaction fees for its services.

Apollo Management International LLP, is authorized and regulated by the U.K. Financial Conduct Authority and as such is subject to the capital requirements of the U.K. Financial Conduct Authority. This entity has continuously operated in excess of these regulatory capital requirements.

Certain other of the Company's U.S. and non-U.S. subsidiaries are subject to various regulations, including a number of U.S. entities that are registered as investment advisors with the SEC. To the extent applicable, these entities have continuously operated in excess of any minimum regulatory capital requirements.

Interests in Consolidated Entities

The table below presents equity interests in Apollo's consolidated, but not wholly-owned, subsidiaries and funds. Net income attributable to Non-Controlling Interests consisted of the following:

	For the Three Months Ended		For the Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
AAA ⁽¹⁾	\$—	\$932	\$—	\$(198,337)
Interest in management companies and a co-investment vehicle ⁽²⁾	(3,724)	(4,909)	(6,606)	(8,494)
Other consolidated entities	187	9,806	(1,896)	5,108
Net (income) loss attributable to Non-Controlling Interests in consolidated entities	(3,537)	5,829	(8,502)	(201,723)
Net income attributable to Appropriated Partners' Capital ⁽³⁾	(4,960)	(34,468)	(2,555)	(59,291)
Net income attributable to Non-Controlling Interests in the Apollo Operating Group	(83,149)	(151,995)	(131,160)	(307,095)
Net Income attributable to Non-Controlling Interests	\$(91,646)	\$(180,634)	\$(142,217)	\$(568,109)
Net income attributable to Appropriated Partners' Capital ⁽⁴⁾	4,960	34,468	2,555	59,291
Other comprehensive (income) loss attributable to Non-Controlling Interests	(1,832)	—	5,750	—
Comprehensive Income Attributable to Non-Controlling Interests	\$(88,518)	\$(146,166)	\$(133,912)	\$(508,818)

Reflects the Non-Controlling Interests in the net (income) loss of AAA and is calculated based on the Non-Controlling Interests ownership percentage in AAA as of June 30, 2014, which was approximately 97.5%. As of June 30, 2014, Apollo owned approximately 2.5% of AAA. AAA has been deconsolidated effective January 1, 2015 as a result of the Company's adoption of new accounting guidance, as described in note 2.

(1) Reflects the remaining interest held by certain individuals who receive an allocation of income from certain of our credit funds.

(2) Reflects net income of the consolidated CLOs classified as VIEs.

Appropriated Partners' Capital is included in total Apollo Global Management, LLC shareholders' equity and is therefore not a component of comprehensive income attributable to Non-Controlling Interests on the condensed consolidated statements of comprehensive income.

13. COMMITMENTS AND CONTINGENCIES

Financial Guarantees—Apollo has provided financial guarantees on behalf of certain employees for the benefit of unrelated third-party lenders in connection with their capital commitments to certain funds managed by the Company. As of June 30, 2015, the maximum exposure relating to these financial guarantees approximated \$0.2 million. Apollo has historically not incurred any liabilities as a result of these agreements and does not expect to in the future. Accordingly, no liability has been recorded in the accompanying condensed consolidated financial statements.

Investment Commitments—As a limited partner, general partner and manager of the Apollo private equity, credit and real estate funds, Apollo has unfunded capital commitments as of June 30, 2015, and December 31, 2014 of \$644.8 million and \$646.6 million, respectively.

Apollo has an ongoing obligation to acquire additional common units of AAA in an amount equal to 25% of the aggregate after-tax cash distributions, if any, that are made by AAA to Apollo's affiliates pursuant to the carried

interest distribution rights that are applicable to investments made through AAA Investments. In addition, on April 30, 2015, Apollo has entered into a revolving credit agreement with AAA Investments (“AAA Investments Credit Agreement”). Under the terms of the AAA Investments Credit Agreement, the Company shall make available to AAA Investments one or more advances at the discretion of AAA Investments in the aggregate amount not to exceed a balance of \$10.0 million at an applicable rate of LIBOR + 1.5% and subject to an annual commitment fee of 0.125% on the unused portion of the loan. As of June 30, 2015 no advance on the AAA Investments Credit Agreement has been made by the Company.

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Debt Covenants—Apollo’s debt obligations contain various customary loan covenants. As of June 30, 2015, the Company was not aware of any instances of non-compliance with the financial covenants contained in the documents governing the Company’s debt obligations.

Litigation and Contingencies—Apollo is, from time to time, party to various legal actions arising in the ordinary course of business including claims and lawsuits, reviews, investigations or proceedings by governmental and self regulatory agencies regarding its business.

In March 2012, plaintiffs filed two putative class actions, captioned *Kelm v. Chase Bank* (No. 12-cv-332) and *Miller v. 1-800-Flowers.com, Inc.* (No. 12-cv-396), in the District of Connecticut on behalf of a class of consumers alleging online fraud. The defendants included, among others, Trilegiant Corporation, Inc. (“Trilegiant”), its parent company, Affinion Group, LLC (“Affinion”), and Apollo Global Management, LLC (“AGM”), which is affiliated with funds that are the beneficial owners of 68% of Affinion’s common stock. In both cases, plaintiffs allege that Trilegiant, aided by its business partners, who include e-merchants and credit card companies, developed a set of business practices intended to create consumer confusion and ultimately defraud consumers into unknowingly paying fees to clubs for unwanted services. Plaintiffs allege that AGM is a proper defendant because of its indirect stock ownership and ability to appoint the majority of Affinion’s board. The complaints assert claims under the Racketeer Influenced Corrupt Organizations Act; the Electronic Communications Privacy Act; the Connecticut Unfair Trade Practices Act; and the California Business and Professional Code, and seek, among other things, restitution or disgorgement, injunctive relief, compensatory, treble and punitive damages, and attorneys’ fees. The allegations in *Kelm* and *Miller* are substantially similar to those in *Schnabel v. Trilegiant Corp.* (No. 3:10-cv-957), a putative class action filed in the District of Connecticut in 2010 that names only Trilegiant and Affinion as defendants. The court has consolidated the *Kelm*, *Miller*, and *Schnabel* cases under the caption *In re: Trilegiant Corporation, Inc.* and ordered that they proceed on the same schedule. On June 18, 2012, the court appointed lead plaintiffs’ counsel, and on September 7, 2012, plaintiffs filed their consolidated amended complaint (“CAC”), which alleges the same causes of action against AGM as did the complaints in the *Kelm* and *Miller* cases. Defendants filed motions to dismiss on December 7, 2012, plaintiffs filed opposition papers on February 7, 2013, and defendants filed replies on April 5, 2013. On December 5, 2012, plaintiffs filed another putative class action, captioned *Frank v. Trilegiant Corp.* (No. 12- cv-1721), in the District of Connecticut, naming the same defendants and containing allegations substantially similar to those in the CAC. On January 23, 2013, plaintiffs moved to transfer and consolidate *Frank* into *In re: Trilegiant*. On July 24, 2013 the *Frank* court transferred the case to Judge Bryant, who is presiding over *In re: Trilegiant*, and on March 28, 2014, Judge Bryant granted the motion to consolidate. On September 25, 2013, the court held oral argument on defendants’ motions to dismiss. On March 28, 2014, the court granted in part and denied in part motions to dismiss filed by Affinion and Trilegiant on behalf of all defendants, and also granted separate motions to dismiss filed by certain defendants, including AGM. On that same day, the court directed the clerk to terminate AGM as a defendant in the consolidated action. On April 28, 2014, plaintiffs moved for interlocutory review of certain of the court’s motion-to-dismiss rulings, not including its order granting AGM’s separate dismissal motion. Defendants filed a response on May 23, 2014, and plaintiffs replied on June 5, 2014. On November 13, 2014, plaintiffs and the remaining defendants filed a Joint Status Report Regarding Discovery stating that no discovery had taken place since plaintiffs filed their interlocutory-review motion. On March 26, 2015, the court denied plaintiffs’ motion for interlocutory review. On April 30, 2015, plaintiffs and the remaining defendants filed a joint report under Federal Rule of Civil Procedure 26(f) that, among other things, requested that the Court extend the deadlines in its standing order for (i) plaintiffs to file an amended complaint until May 29, 2015; (ii) the close of fact discovery until January 15, 2016; and (iii) full briefing of class certification until June 1, 2016. On May 29, 2015, the Court denied plaintiffs’ request to file an amended complaint and set (i) a December 31, 2015 discovery cutoff, (ii) a February 29, 2016 deadline for dispositive motions, and (iii) jury selection for November 1, 2016 (if dispositive motions are filed, or May 3, 2016, if they are not). On June 15, 2015, the court

held a pre-motion hearing on class certification, and on June 16, 2015, the Court ordered class certification to be fully briefed by November 30, 2015.

Various state attorneys general and federal and state agencies have initiated industry-wide investigations into the use of placement agents in connection with the solicitation of investments, particularly with respect to investments by public pension funds. Certain affiliates of Apollo have received subpoenas and other requests for information from various government regulatory agencies and investors in Apollo's funds, seeking information regarding the use of placement agents. California Public Employees' Retirement System ("CalPERS"), one of our Strategic Investors, announced on October 14, 2009, that it had initiated a special review of placement agents and related issues. The report of the CalPERS' Special Review was issued on March 14, 2011. That report does not allege any wrongdoing on the part of Apollo or its affiliates. Apollo is continuing to cooperate with all such investigations and other reviews. In addition, on May 6, 2010, the California Attorney General filed a civil complaint against Alfred Villalobos and his company, Arvco Capital Research, LLC ("Arvco") (a placement agent that Apollo has used) and Federico Buenrostro Jr., the former CEO of CalPERS, alleging conduct in violation of certain California laws in connection with CalPERS's purchase of securities in various funds managed by Apollo and another asset manager. Apollo is not a party to the civil lawsuit

- 57-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

and the lawsuit does not allege any misconduct on the part of Apollo. Likewise, on April 23, 2012, the SEC filed a lawsuit alleging securities fraud on the part of Arvco, as well as Messrs. Buenrostro and Villalobos, in connection with their activities concerning certain CalPERS investments in funds managed by Apollo. This lawsuit also does not allege wrongdoing on the part of Apollo, and alleges that Apollo was defrauded by Arvco, Villalobos, and Buenrostro. On March 14, 2013, the United States Department of Justice unsealed an indictment against Messrs. Villalobos and Buenrostro alleging, among other crimes, fraud in connection with those same activities; again, Apollo is not accused of any wrongdoing and in fact is alleged to have been defrauded by the defendants. The criminal action was set for trial in a San Francisco federal court in July 2014, but was put on hold after Mr. Buenrostro pleaded guilty on July 11, 2014. As part of Mr. Buenrostro's plea agreement, he admitted to taking cash and other bribes from Mr. Villalobos in exchange for several improprieties, including attempting to influence CalPERS' investing decisions and improperly preparing disclosure letters to satisfy Apollo's requirements. There is no suggestion that Apollo was aware that Mr. Buenrostro had signed the letters with a corrupt motive. The government has indicated that they will file new charges against Mr. Villalobos incorporating Mr. Buenrostro's admissions. On August 7, 2014, the government filed a superseding indictment against Mr. Villalobos asserting additional charges. Trial had been scheduled for February 23, 2015, but Mr. Villalobos passed away on January 13, 2015. Additionally, on April 15, 2013, Mr. Villalobos, Arvco and related entities (the "Arvco Debtors") brought a civil action in the United States Bankruptcy Court for the District of Nevada (the "Bankruptcy Court") against Apollo. The action is related to the ongoing bankruptcy proceedings of the Arvco Debtors. This action alleges that Arvco served as a placement agent for Apollo in connection with several funds associated with Apollo, and seeks to recover purported fees the Arvco Debtors claim Apollo has not paid them for a portion of Arvco's placement agent services. In addition, the Arvco Debtors allege that Apollo has interfered with the Arvco Debtors' commercial relationships with third parties, purportedly causing the Arvco Debtors to lose business and to incur fees and expenses in the defense of various investigations and litigations. The Arvco Debtors also seek compensation from Apollo for these alleged lost profits and fees and expenses. The Arvco Debtors' complaint asserts various theories of recovery under the Bankruptcy Code and common law. Apollo denies the merit of all of the Arvco Debtors' claims and will vigorously contest them. The Bankruptcy Court had stayed this action pending the result in the criminal case against Mr. Villalobos but lifted the stay on May 1, 2015; in light of Mr. Villalobos's death, it is expected that the criminal case will be dismissed. For these reasons, no estimate of possible loss, if any, can be made at this time.

On June 18, 2014, BOKF N.A. (the "First Lien Trustee"), the successor indenture trustee under the indenture governing the First Lien Notes issued by Momentive Performance Materials, Inc. ("Momentive"), commenced a lawsuit in the Supreme Court for the State of New York, New York County against AGM and members of an ad hoc group of Second Lien Noteholders (including, but not limited to, Euro VI (BC) S.a.r.l.). The First Lien Trustee amended its complaint on July 2, 2014 (the "First Lien Intercreditor Action"). In the First Lien Intercreditor Action, the First Lien Trustee seeks, among other things, a declaration that the defendants violated an intercreditor agreement entered into between holders of the First Lien Notes and holders of the second lien notes. On July 16, 2014, the successor indenture trustee under the indenture governing the 1.5 Lien Notes (the "1.5 Lien Trustee," and, together with the First Lien Trustee, the "Indenture Trustees") filed an action in the Supreme Court of the State of New York, New York County that is substantially similar to the First Lien Intercreditor Action (the "1.5 Lien Intercreditor Action," and, together with the First Lien Intercreditor Action, the "Intercreditor Actions"). AGM subsequently removed the Intercreditor Actions to federal district court, and the Intercreditor Actions were automatically referred to the Bankruptcy Court adjudicating the Momentive chapter 11 bankruptcy cases. The Indenture Trustees then filed motions with the Bankruptcy Court to remand the Intercreditor Actions back to the state court (the "Remand Motions"). On September 9, 2014, the Bankruptcy Court denied the Remand Motions. On August 15, 2014, the defendants in the Intercreditor Actions (including AGM) filed a motion to dismiss the 1.5 Lien Intercreditor Action and a motion for

judgment on the pleadings in the First Lien Intercreditor Action (the “Dismissal Motions”). On September 30, 2014, the Bankruptcy Court granted the Dismissal Motions. In its order granting the Dismissal Motions, the Bankruptcy Court gave the Indenture Trustees until mid-November 2014 to move to amend some, but not all, of the claims alleged in their respective complaints. On November 14, 2014, the Indenture Trustees moved to amend their respective complaints pursuant to the Bankruptcy Court’s order (the “Motions to Amend”). On January 9, 2015, the defendants filed their oppositions to the Motions to Amend. On January 16, 2015, the Bankruptcy Court denied the Motions to Amend (the “Dismissal Order”), but gave the Indenture Trustees until March 2, 2015 to seek to amend their respective complaints. On March 2, 2015, the First Lien Trustee filed a motion seeking to amend its complaint. On April 10, 2015, the defendants, including AGM and Euro VI (BC) S.a.r.l., filed an opposition to the First Lien Trustee’s motion to amend. Instead of moving again to amend its complaint, the 1.5 Lien Trustee chose to appeal the Dismissal Order (the “1.5 Lien Appeal”). On March 30, 2015, the 1.5 Lien Trustee filed its Statement of Issues and Designation of Record on Appeal. On March 31, 2015, because the legal issues presented in the 1.5 Lien Appeal are substantially similar to those presented in the First Lien Intercreditor Action, the parties in the 1.5 Lien Appeal submitted a joint stipulation and proposed order to the District Court staying the briefing schedule on the 1.5 Lien Appeal pending the outcome of the First Lien Trustee’s most recent motion to amend. On April 13, 2015, the Defendants filed their Counter-Designation of the Record on Appeal in the 1.5 Lien Appeal. On May 8, 2015, the Bankruptcy Court denied the motion to amend

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

filed on March 2, 2015 by the First Lien Trustee. On May 27, 2015, the First Lien Trustee filed a notice of appeal from the orders of the Bankruptcy Court dismissing the First Lien Intercreditor Action and denying the First Lien Trustee's motions to amend (the "First Lien Appeal"). On June 2, 2015, the First Lien Trustee filed its Statement of Issues and Designation of Record on Appeal. On June 24, 2015, the defendants filed their Counter-Designation of the Record on Appeal in the First Lien Appeal. We are unable at this time to assess a potential risk of loss because the parties to the First Lien Appeal and 1.5 Lien Appeal have yet to file any briefs with the court. In addition, we do not believe that AGM is a proper defendant in these actions.

On June 13, 2014, plaintiffs Stark Master Fund Ltd and Stark Global Opportunities Master Fund Ltd filed a lawsuit in the United States District Court for the Eastern District of Wisconsin against AGM and Apollo Management Holdings, (the "Apollo Defendants"), as well as Credit Suisse Securities (USA) LLC and Deutsche Bank Securities (USA) LLC (the "Bank Defendants"). The complaint alleges that the Apollo Defendants and the other defendants entered into an undisclosed and improper agreement concerning the financing of a potential acquisition of Hexion Specialty Chemicals Inc., and on this basis alleges a variety of common law misrepresentation claims, both intentional and negligent. The Apollo Defendants and Bank Defendants filed motions to dismiss the complaint on October 15, 2014. Rather than respond to the motions, plaintiffs filed an Amended Complaint on November 5, 2014. The Apollo Defendants and Bank Defendants filed motions to dismiss the Amended Complaint on December 23, 2014. Plaintiffs filed a motion for leave to conduct jurisdictional discovery on February 2, 2015. On April 9, 2015, the Court issued an order granting plaintiffs' motion for leave to conduct limited jurisdictional discovery. Pursuant to the parties' stipulation approved by the Court, Plaintiffs must file their opposition to Defendants' motion to dismiss the Amended Complaint on or before 30 days following the close of jurisdictional discovery. Because the claims against the Apollo Defendants are in their early stages, no reasonable estimate of possible loss, if any, can be made at this time.

There are several pending actions concerning transactions related to Caesars Entertainment Operating Company, Inc.'s ("CEOC") restructuring efforts. Apollo is not a defendant in these matters.

In re: Caesars Entertainment Operating Company, Inc. bankruptcy proceedings, No. 15-10047 (Del. Bankr.) (the "Delaware Bankruptcy Action") and No. 15-01145 (N.D. Ill. Bankr.) (the "Illinois Bankruptcy Action"). On January 12, 2015, three holders of CEOC second lien notes filed an involuntary bankruptcy petition against CEOC in the United States Bankruptcy Court for the District of Delaware. On January 15, 2015, CEOC and certain of its affiliates (collectively "CEOC") filed for Chapter 11 bankruptcy in the Northern District of Illinois. On February 2, 2015, the court in the Delaware Bankruptcy Action ordered that all CEOC bankruptcy proceedings should take place in the Illinois Bankruptcy Action. On March 11, 2015, CEOC filed an adversary complaint in the Illinois Bankruptcy Action to stay, pending resolution of the bankruptcy, the Trustee, Meehancombs, Danner, and BOKF Actions described below. On June 3-4, 2015, the court held an evidentiary hearing on CEOC's stay request. On July 22, 2015, the court denied CEOC's stay request (the "Stay Denial"). CEOC then filed a motion requesting that the bankruptcy court certify an appeal of the Stay Denial directly to the United States Court of Appeals for the Seventh Circuit. On July 29, 2015, the bankruptcy court denied CEOC's request to certify an appeal of the Stay Denial directly to the Seventh Circuit. The court has scheduled an evidentiary hearing for October 5, 2015 to determine whether CEOC's petition date was January 12, 2015 or January 15, 2015. Certain creditors of CEOC have indicated in filings with the Illinois bankruptcy court that an investigation into certain acts and transactions that predated CEOC's bankruptcy filing could lead to claims against a number of parties, including Apollo. To date, no such claims have been brought against Apollo.

Wilmington Savings Fund Society, FSB v. Caesars Entertainment Corp. et al., No. 10004-CVG (Del. Ch.) (the "Trustee Action"). On August 4, 2014, Wilmington Savings Fund Society, FSB ("WSFS"), as trustee for certain CEOC

second-lien notes, sued Caesars Entertainment Corporation (“Caesars Entertainment”), Caesars Entertainment’s subsidiary, CEOC, other Caesars Entertainment-affiliated entities, and certain of Caesars Entertainment’s directors, including Marc Rowan, Eric Press, David Sambur (each an Apollo Partner) and Jeff Benjamin (an Apollo consultant), in Delaware’s Court of Chancery. WSFS (i) asserts claims (against some or all of the defendants) for fraudulent conveyance, breach of fiduciary duty, breach of contract, corporate waste and aiding and abetting related to certain transactions among CEOC and other Caesars Entertainment affiliates, and (ii) requests (among other things) that the court unwind the challenged transactions and award damages. WSFS served a subpoena for documents on Apollo on September 11, 2014, but Apollo’s response was stayed during

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

the pendency of motions to dismiss under a September 23, 2014 stipulated order. On March 18, 2015, the Court denied Defendants' motion to dismiss. Apollo served responses and objections to the Trustee's subpoena on March 25, 2015. Caesars Entertainment answered the complaint on April 1, 2015. During the pendency of CEOC's bankruptcy proceedings, the Trustee Action has been automatically stayed with respect to CEOC. WSFS additionally advised the bankruptcy court that, during CEOC's bankruptcy proceedings, WSFS would only pursue claims in the Trustee Action relating to whether Caesars Entertainment remains liable on a guarantee of certain of CEOC's second priority notes. On July 17, 2015, WSFS served supplemental subpoenas to several entities affiliated with Apollo. On July 30, 2015, Apollo served its responses and objections to WSFS's supplemental subpoenas. Apollo is currently meeting and conferring with WSFS respecting its responses and objections to WSFS's supplemental subpoenas.

Caesars Entertainment Operating Co., et al. v. Appaloosa Investment Ltd. P'ship et al., No. 652392/2014 (N.Y. Sup. Ct.) (the "Caesars Action"). On August 5, 2014, Caesars Entertainment Corporation and CEOC sued certain CEOC second-lien noteholders and CEOC first-lien noteholder Elliott Management Corporation ("EMC"). On September 15, 2014, an amended complaint was filed adding WSFS as a defendant. The amended complaint asserted claims for (among other things) tortious interference with prospective economic advantage (the "Tortious Interference Claim"), a declaratory judgment that certain transactions related to CEOC's restructuring are valid and appropriate and that there has not been a default under the indentures governing the notes. On October 15, 2014, defendants moved to dismiss the complaint, and the motion was fully briefed on December 1, 2014. On January 15, 2015, Caesars Entertainment and CEOC agreed to voluntarily dismiss their claims against EMC without prejudice, and EMC agreed to withdraw its motion to dismiss without prejudice. On July 20, 2015, the court dismissed with prejudice the Tortious Interference Claim. As a result of that dismissal, the court closed the case because there are currently no pending causes of action against any defendant.

Meehancombs Global Credit Opportunities Master Fund, L.P., et al. v. Caesars Entertainment Corp., et al., No. 14-cv-7091 (S.D.N.Y.) (the "Meehancombs Action"). On September 3, 2014, institutional investors allegedly holding approximately \$137 million in CEOC unsecured senior notes sued CEOC and Caesars Entertainment for breach of contract and the implied covenant of good faith, Trust Indenture Act violations and a declaratory judgment challenging the August 2014 private financing transaction in which a portion of outstanding senior unsecured notes were purchased by Caesars Entertainment, and a majority of the noteholders agreed to amend the indenture to terminate Caesars Entertainment's guarantee of the notes and modify certain restrictions on CEOC's ability to sell assets. Caesars Entertainment and CEOC filed a motion to dismiss on November 12, 2014. On January 15, 2015, the court granted the motion with respect to a Trust Indenture Act claim by Meehancombs but otherwise denied the motion. On January 30, 2015, plaintiffs filed an amended complaint seeking relief against Caesars Entertainment only, and Caesars Entertainment answered on February 12, 2015. On October 2, 2014, a related putative class action complaint was filed on behalf of the holders of these notes captioned Danner v. Caesars Entertainment Corp., et al., No. 14-cv-7973 (S.D.N.Y.) (the "Danner Action"), against Caesars Entertainment alleging claims similar to those in the Meehancombs Action. On February 19, 2015, plaintiffs filed an amended complaint, and Caesars Entertainment answered the amended complaint on February 25, 2015. On March 12, 2015, Meehancombs served a subpoena for documents on Apollo. Apollo served responses and objections to Meehancombs' subpoena on March 26, 2015. On March 16, 2015, Danner served a subpoena for documents on Apollo. Apollo served responses and objections to Danner's subpoena on March 30, 2015. Apollo has produced and will continue to produce non-privileged documents responsive to those subpoenas consistent with Apollo's responses and objections. The court has ordered that discovery in these actions be completed by September 30, 2015.

Edgar Filing: Apollo Global Management LLC - Form 10-Q

UMB Bank v. Caesars Entertainment Corporation, et al., No. 10393 (Del. Ch.) (the “UMB Action.”). On November 25, 2014, UMB Bank, as trustee for certain CEOC notes, sued Caesars Entertainment, CEOC, other Caesars Entertainment-affiliated entities, and certain of Caesars Entertainment’s directors, including Marc Rowan, Eric Press, David Sambur (each an Apollo Partner) and Jeffrey

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Benjamin (an Apollo consultant), in Delaware Chancery Court. The lawsuit alleges claims for actual and constructive fraudulent conveyance and transfer, insider preferences, illegal dividends, breach of contract, intentional interference with contractual relations, breach of fiduciary duty, aiding and abetting breach of fiduciary duty, usurpation of corporate opportunities, and unjust enrichment. The UMB Action seeks appointment of a receiver for CEOC, a constructive trust, and other relief. The UMB Action has been assigned to the same judge overseeing the Trustee Action. Upon filing the complaint, UMB Bank moved to expedite its claim seeking a receiver, on which the court held oral argument on December 17, 2014. On January 15, 2015, the court entered a stipulated order staying the UMB Action as to all parties due to CEOC's bankruptcy filing.

Koskie v. Caesars Acquisition Company, et al., No. A-14-711712-C (Clark Cnty Nev. Dist. Ct.) (the "Koskie Action"). On December 30, 2014, Nicholas Koskie brought a shareholder class action on behalf of shareholders of Caesars Acquisition Company ("CAC") against CAC, Caesars Entertainment, and members of CAC's Board of Directors, including Marc Rowan and David Sambur (each an Apollo partner). The lawsuit challenges CAC and Caesars Entertainment's plan to merge, alleging that the proposed transaction will not give CAC shareholders fair value. Koskie asserts claims for breach of fiduciary duty relating to the director defendants' interrelationships with the entities involved in the proposed transaction. The deadline for CAC to respond to this lawsuit has been adjourned indefinitely by agreement of the parties.

BOKF, N.A. v. Caesars Entertainment Corporation, No. 15-156 (S.D.N.Y.) (the "BOKF Action"). On March 3, 2015, BOKF, N.A., as trustee for certain CEOC notes, sued Caesars Entertainment in the Southern District of New York. The lawsuit alleges claims for breach of contract, intentional interference with contractual relations and a declaratory judgment, and seeks to enforce Caesars Entertainment's guarantee of certain CEOC notes. The BOKF Action has been assigned to the same judge as the Meehancombs and Danner Actions. On March 25, 2015, Caesars Entertainment filed an answer to the complaint. On May 19, 2015, BOKF sent the court a letter requesting permission to file a partial summary judgment motion on Counts II and V of its complaint, related to the validity and enforceability of Caesars Entertainment's guarantee of certain notes issued by CEOC and alleged violations of the Trust Indenture Act, 15 U.S.C. §§ 76aaa, et seq. The Meehancombs and Danner plaintiffs did not join BOKF's request to file for partial summary judgment. On May 28, 2015, the court granted BOKF permission to move for partial summary judgment. On June 15, 2015, another related complaint captioned UMB Bank, N.A. v. Caesars Entertainment Corp., et al., No. 15-cv-4634 (S.D.N.Y.) (the "UMB SDNY Action") was filed by UMB Bank, N.A., solely in its capacity as Indenture Trustee of certain first lien notes ("UMB"), against Caesars Entertainment alleging claims similar to those alleged in the BOKF, Meehancombs, and Danner Actions. Caesars Entertainment's deadline to respond to the complaint filed in the UMB SDNY Action is currently August 10, 2015. On June 16, 2015, UMB sent a letter to the court requesting permission to file a partial summary judgment motion on the same schedule with BOKF. On June 26, 2015, BOKF and UMB filed partial summary judgment motions. On July 24, 2015, Caesars Entertainment filed its opposition to the summary judgment motions filed by BOKF and UMB.

Apollo believes that the claims in the Trustee Action, the UMB Action, the Meehancombs Action, the Danner Action, the Koskie Action, the BOKF Action, and the UMB SDNY Action are without merit. For this reason, and because the claims are in their early stages, and because of pending bankruptcy proceedings involving CEOC, no reasonable estimate of possible loss, if any, can be made at this time.

Following the January 16, 2014 announcement that CEC Entertainment, Inc. ("CEC") had entered into a merger agreement with certain entities affiliated with Apollo (the "Merger Agreement"), four putative shareholder class actions were filed in the District Court of Shawnee County, Kansas on behalf of purported stockholders of CEC against,

among others, CEC, its directors and Apollo and certain of its affiliates, which include Queso Holdings Inc., Q Merger Sub Inc., Apollo Management VIII, L.P., and AP VIII Queso Holdings, L.P. The first purported class action, which is captioned Hilary Coyne v. Richard M. Frank et al., Case No. 14C57, was filed on January 21, 2014 (the “Coyne Action”). The second purported class action, which was captioned

- 61-

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

John Solak v. CEC Entertainment, Inc. et al., Civil Action No. 14C55, was filed on January 22, 2014 (the “Solak Action”). The Solak Action was dismissed for lack of prosecution on October 14, 2014. The third purported class action, which is captioned Irene Dixon v. CEC Entertainment, Inc. et al., Case No. 14C81, was filed on January 24, 2014 and additionally names as defendants Apollo Management VIII, L.P. and AP VIII Queso Holdings, L.P. (the “Dixon Action”). The fourth purported class action, which is captioned Louisiana Municipal Public Employees’ Retirement System v. Frank, et al., Case No. 14C97, was filed on January 31, 2014 (the “LMPERS Action”) (together with the Coyne and Dixon Actions, the “Shareholder Actions”). A fifth purported class action, which was captioned McCullough v. Frank, et al., Case No. CC-14-00622-B, was filed in the County Court of Dallas County, Texas on February 7, 2014. This action was dismissed for want of prosecution on May 21, 2014. Each of the Shareholder Actions alleges, among other things, that CEC’s directors breached their fiduciary duties to CEC’s stockholders in connection with their consideration and approval of the Merger Agreement, including by agreeing to an inadequate price, agreeing to impermissible deal protection devices, and filing materially deficient disclosures regarding the transaction. Each of the Shareholder Actions further alleges that Apollo and certain of its affiliates aided and abetted those alleged breaches. As filed, the Shareholder Actions seek, among other things, rescission of the various transactions associated with the merger, damages and attorneys’ and experts’ fees and costs. On February 7, 2014 and February 11, 2014, the plaintiffs in the Shareholder Actions pursued a consolidated action for damages after the transaction closed. Thereafter, the Shareholder Actions were consolidated under the caption In re CEC Entertainment, Inc. Stockholder Litigation, Case No. 14C57, and the parties engaged in limited discovery. On July 21, 2015, a consolidated class action complaint was brought by Twin City Pipe Trades Pension Trust in the Shareholder Actions that did not name as defendants Apollo, Queso Holdings Inc., Q Merger Sub Inc., Apollo Management VIII, L.P., or AP VIII Queso Holdings, L.P., continued to assert claims against CEC and its former directors, and added The Goldman Sachs Group Inc. (“Goldman Sachs”) as a defendant. The consolidated complaint alleges, among other things, that CEC’s former directors breached their fiduciary duties to CEC’s stockholders by conducting a deficient sales process, agreeing to impermissible deal protection devices, and filing materially deficient disclosures regarding the transaction. It further alleges that two members of the board who also served as the senior managers of the company had material conflicts of interest and that Goldman Sachs aided and abetted the board’s breaches as a result of various conflicts of interest facing the bank. The consolidated complaint seeks, among other things, to recover damages, attorneys’ fees and costs. Although Apollo cannot predict the ultimate outcome of the above actions, and therefore no reasonable estimate of possible loss, if any, can be made at this time, Apollo believes that such actions are without merit.

On June 10, 2014, Magnetar Global Event Driven Fund Ltd., Spectrum Opportunities Master Fund, Ltd., Magnetar Capital Master Fund, Ltd., and Blackwell Partners LLC, as the purported beneficial owners of shares held as of record by the nominal petitioner Cede & Co., (the “Appraisal Petitioners”), filed an action for statutory appraisal under Kansas state law against CEC in the U.S. District Court for the District of Kansas, captioned Magnetar Global Event Driven Master Fund Ltd, et al. v. CEC Entertainment, Inc., 2:14-cv-02279-RDR-KGS. The Appraisal Petitioners seek appraisal of 750,000 shares of common stock. CEC has answered the complaint and filed a verified list of stockholders, as required under Kansas law. On September 3, 2014, the court entered a scheduling order that contemplated that discovery would commence in the fall of 2014 and would be substantially completed by May 2015. On January 13, 2015, the court entered a revised scheduling order that contemplated that fact discovery would be completed by March 13, 2015, expert discovery would be completed by June 15, 2015. On June 25, 2015, the court entered an order requiring the Appraisal Petitioners to produce additional documents to CEC. On June 29, 2015, the court held a pretrial conference. Following this conference, on June 30, 2015, the court entered a pretrial order. No trial date has yet been set. Although Apollo cannot predict the ultimate outcome of the above action, Apollo believes that such action is without merit.

On June 12, 2015, a putative class action was commenced in the United States District Court for the Northern District of California by Rachel Silva and Don Hudson, on behalf of themselves and all others similarly situated, against Aviva plc; Athene Annuity and Life Company f/k/a Aviva Life and Annuity Company (“Aviva”); Athene USA Corporation f/k/a Aviva USA Corporation; Athene Holding; Athene Life Re Ltd.; Athene Asset Management; and AGM. The defendants’ time to answer, move or otherwise respond to the complaint has been extended and thus no answer, motion, etc. addressed to the complaint has been served or filed. Additionally, no party has served any discovery request in this case and thus no discovery has been taken or given yet. The complaint in this action alleges violations of the Racketeer Influenced and Corrupt Organizations Act, 18 U.S.C. Sections 1962(c) and (d). The plaintiffs basically allege that commencing in 2007 and continuing thereafter Aviva and its then management engaged in a scheme to, among other things, falsely represent the financial strength of and hide the true financial condition of Aviva by, among other things, allegedly ceding risky liabilities to Aviva’s undercapitalized subsidiaries and affiliates and misvaluing assets, and that after Athene Holding purchased all of the outstanding stock of Aviva’s parent effective October 2, 2013 the scheme was unwound and rewound so as to continue, and that as a result thereof some of the purchasers of annuity products issued by Aviva were charged an excessive price and were damaged as a result thereof. The defendants will deny the material allegations of the complaint and will vigorously defend themselves against these claims. Although Apollo cannot predict the ultimate outcome

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

of this case, it believes that it is without merit, and because the case is in its early stages, no reasonable estimate of possible loss, if any, can be made at this time.

Following the June 1, 2015 announcement that OM Group, Inc. (“OM Group”) had entered into a merger agreement (the “OM Group Merger Agreement”) with certain entities affiliated with AGM and an entity affiliated with Platform Specialty Products Corporation (“PSP”), six putative class actions were filed in the Court of Chancery of the State of Delaware on behalf of purported OM Group stockholders against certain current and former OM Group directors, the merger entities affiliated with AGM, which include Duke Acquisition Holdings, LLC and Duke Acquisition, Inc. (together with AGM, the “Apollo Parties”), and, except in one action, the merger entity affiliated with PSP, MacDermid Americas Acquisitions Inc. (together with PSP, the “PSP Parties”). AGM, PSP, and OM Group were also named as defendants in some of these putative class actions. On July 16, 2015, these six actions were consolidated into a putative class action captioned In re OM Group Inc. Stockholders Litigation, Consol. Case No. 11216-VCN (the “Consolidated Action”). The plaintiffs in the Consolidated Action subsequently designated the complaint previously filed in the action captioned City of Sarasota Firefighters’ Pension Fund v. Apollo Global Management, LLC, Case No. 11249-VCN as the Consolidated Action’s operative complaint. That complaint challenges, among other things, the OM Group Merger Agreement and the transactions contemplated thereby, alleging, among other things, that OM Group’s directors breached their fiduciary duties to OM Group stockholders by engaging in a flawed sales process, agreeing to a price that does not adequately compensate OM Group stockholders, agreeing to certain unfair deal protection terms in the OM Group Merger Agreement and by failing to disclose material information to OM Group stockholders. The complaint also alleges that the Apollo Parties and the PSP Parties aided and abetted these alleged breaches of fiduciary duty. The complaint seeks various remedies, including declaratory relief and preliminary and permanent injunctive relief. While plaintiffs had declared their intent to pursue preliminary injunctive relief, and a hearing had been scheduled for August 6, plaintiffs dropped that request on August 2, 2015. The court has not yet set a schedule for resolving the case on the merits. Because this action is in its early stages, no reasonable estimate of possible loss, if any, can be made. Apollo believes that the allegations in the complaint are without merit and intends to vigorously defend the Consolidated Action.

Although the ultimate outcome of these matters cannot be ascertained at this time, Apollo is of the opinion, after consultation with counsel, that the resolution of any such matters to which it is a party at this time will not have a material adverse effect on the condensed consolidated financial statements. Legal actions material to Apollo could, however, arise in the future.

Commitments—Apollo leases office space and certain office equipment under various lease and sublease arrangements, which expire on various dates through 2024. As these leases expire, it can be expected that in the normal course of business, they will be renewed or replaced. Certain lease agreements contain renewal options, rent escalation provisions based on certain costs incurred by the landlord or other inducements provided by the landlord. Rent expense is accrued to recognize lease escalation provisions and inducements provided by the landlord, if any, on a straight-line basis over the lease term and renewal periods where applicable. Apollo has entered into various operating lease service agreements in respect of certain assets.

As of June 30, 2015, the approximate aggregate minimum future payments required for operating leases were as follows:

	Remaining 2015	2016	2017	2018	2019	Thereafter	Total
Aggregate minimum future payments	\$19,170	\$37,961	\$36,021	\$31,445	\$30,848	\$24,638	\$180,083

Edgar Filing: Apollo Global Management LLC - Form 10-Q

Expenses related to non-cancellable contractual obligations for premises, equipment, auto and other assets were \$10.5 million and \$10.9 million for the three months ended June 30, 2015 and 2014, respectively, and \$21.0 million and \$21.5 million for the six months ended June 30, 2015 and 2014, respectively.

Other Long-term Obligations—These obligations relate to payments with respect to certain consulting agreements entered into by Apollo Investment Consulting LLC, a subsidiary of Apollo. A significant portion of these costs are reimbursable by funds or portfolio companies. These obligations also include long-term service contracts. As of June 30, 2015, fixed and determinable payments due in connection with these obligations were as follows:

	Remaining 2015	2016	2017	2018	2019	Thereafter	Total
Other long-term obligations	\$8,302	\$7,105	\$5,308	\$4,889	\$2,329	\$—	\$27,933

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Contingent Obligations—Carried interest income with respect to private equity funds and certain credit and real estate funds is subject to reversal in the event of future losses to the extent of the cumulative carried interest recognized in income to date. If all of the existing investments became worthless, the amount of cumulative revenues that have been recognized by Apollo through June 30, 2015 and that would be reversed approximates \$2.6 billion. Management views the possibility of all of the investments becoming worthless as remote. Carried interest income is affected by changes in the fair values of the underlying investments in the funds that Apollo manages. Valuations, on an unrealized basis, can be significantly affected by a variety of external factors including, but not limited to, bond yields and industry trading multiples. Movements in these items can affect valuations quarter to quarter even if the underlying business fundamentals remain stable.

Additionally, at the end of the life of certain funds that the Company manages, there could be a payment due to a fund by the Company if the Company, as general partner, has received more carried interest income than was ultimately earned. The general partner obligation amount, if any, will depend on final realized values of investments at the end of the life of each fund or as otherwise set forth in the respective limited partnership agreement of the fund. As of June 30, 2015, the Company has recorded a general partner obligation to return previously distributed carried interest income related to Fund V, ACLF and certain SIAs within the credit segment of \$9.1 million, \$5.9 million and \$27.1 million, respectively.

Certain funds may not generate carried interest income as a result of unrealized and realized losses that are recognized in the current and prior reporting period. In certain cases, carried interest income will not be generated until additional unrealized and realized gains occur. Any appreciation would first cover the deductions for invested capital, unreturned organizational expenses, operating expenses, management fees and priority returns based on the terms of the respective fund agreements.

One of the Company's subsidiaries, AGS, provides underwriting commitments in connection with securities offerings to the portfolio companies of the funds Apollo manages. As of June 30, 2015, there were no underwriting commitments outstanding related to such offerings.

Contingent Consideration

In connection with the acquisition of Stone Tower in April 2012, the Company agreed to pay the former owners of Stone Tower a specified percentage of any future carried interest income earned from certain of the Stone Tower funds, CLOs, and strategic investment accounts. This contingent consideration liability had an acquisition date fair value of \$117.7 million, which was determined based on the present value of estimated future carried interest payments, and is recorded in profit sharing payable in the condensed consolidated statements of financial condition. The fair value of the remaining contingent obligation was \$83.2 million and \$84.5 million as of June 30, 2015 and December 31, 2014, respectively.

In connection with the Gulf Stream acquisition, the Company agreed to make payments to the former owners of Gulf Stream under a contingent consideration obligation which required the Company to transfer cash to the former owners of Gulf Stream based on a specified percentage of carried interest income. The contingent liability had a fair value of \$9.7 million and \$11.6 million as of June 30, 2015 and December 31, 2014, respectively, which was recorded in profit sharing payable in the condensed consolidated statements of financial condition.

The contingent consideration obligations will be remeasured to fair value at each reporting period until the obligations are satisfied. The changes in the fair value of the contingent consideration obligations will be reflected in profit sharing expense in the condensed consolidated statements of operations.

The contingent consideration obligations are measured at fair value and are characterized as Level III liabilities. See note 5 for further information regarding fair value measurements.

14. MARKET AND CREDIT RISK

In the normal course of business, Apollo encounters market and credit risk concentrations. Market risk reflects changes in the value of investments due to changes in interest rates, credit spreads or other market factors. Credit risk includes the risk of default on Apollo's investments, where the counterparty is unable or unwilling to make required or expected payments.

The Company is subject to a concentration risk related to the investors in its funds. As of June 30, 2015, there were more than 1,000 investors in Apollo's active private equity, credit and real estate funds, and no individual investor accounted for more than 10% of the total committed capital to Apollo's active funds.

- 64-

Table of Contents

APOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

Apollo's derivative financial instruments contain credit risk to the extent that its counterparties may be unable to meet the terms of the agreements. Apollo seeks to minimize this risk by limiting its counterparties to highly rated major financial institutions with good credit ratings. Management does not expect any material losses as a result of default by other parties.

Substantially all amounts on deposit with major financial institutions that exceed insured limits are invested in interest-bearing accounts with U.S. money center banks.

Apollo is exposed to economic risk concentrations insofar as Apollo is dependent on the ability of the funds that it manages to compensate it for the services it provides to these funds. Further, the incentive income component of this compensation is based on the ability of such funds to generate returns above certain specified thresholds.

Additionally, Apollo is exposed to interest rate risk. Apollo has debt obligations that have variable rates. Interest rate changes may therefore affect the amount of interest payments, future earnings and cash flows. At June 30, 2015 and December 31, 2014, \$532.2 million and \$535.0 million of Apollo's debt balance (excluding debt of the consolidated VIEs) had a variable interest rate, respectively.

15. SEGMENT REPORTING

Apollo conducts its management and incentive businesses primarily in the United States and substantially all of its revenues are generated domestically. These businesses are conducted through the following three reportable segments:

• **Private Equity**—primarily invests in control equity and related debt instruments, convertible securities and distressed debt investments;

• **Credit**—primarily invests in non-control corporate and structured debt instruments; and

• **Real Estate**—primarily invests in real estate equity for the acquisition and recapitalization of real estate assets, portfolios, platforms and operating companies, and real estate debt including first mortgage and mezzanine loans, preferred equity and commercial mortgage backed securities.

These business segments are differentiated based on the varying investment strategies. The performance is measured by management on an unconsolidated basis because management makes operating decisions and assesses the performance of each of Apollo's business segments based on financial and operating metrics and data that exclude the effects of consolidation of any of the affiliated funds.

The Company's financial results vary since carried interest, which generally constitutes a large portion of the income from the funds that Apollo manages, as well as the transaction and advisory fees that the Company receives, can vary significantly from quarter to quarter and year to year. As a result, the Company emphasizes long-term financial growth and profitability to manage its business.

The tables below present the financial data for Apollo's reportable segments further separated between the management business and incentive business as of June 30, 2015 and 2014, and for the three and six months ended June 30, 2015 and 2014, which management believes is useful to the reader. The Company's management business has fairly stable revenues and expenses except for transaction fees, while its incentive business is more volatile and can have significant fluctuations as it is affected by changes in the fair value of investments due to market performance. The financial results of the management entities, as reflected in the "management" business section of the segment tables that follow, generally include management fee revenues, advisory and transaction fees and expenses exclusive of profit sharing expense. The financial results of the advisory entities, as reflected in the "incentive" business sections of the segment tables that follow, generally include carried interest income, investment income and profit sharing expense.

During the first quarter of 2015 the Company renamed Economic Net Income to Economic Income ("EI"). Additionally, the definition of EI was changed to exclude transaction-related charges related to contingent consideration associated with acquisitions. The impact of this change on EI is reflected in the table below for Apollo's three reportable segments for the three and six months ended June 30, 2014. The exclusion of transaction-related charges relating to

contingent consideration associated with acquisitions only impacted the credit segment.

- 65-

Table of ContentsAPOLLO GLOBAL MANAGEMENT, LLC
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

	Impact of Revised Definition on Economic Income (Loss)		
	Total EI as Previously Reported	Impact of Revised Definition	Total EI After Revised Definition
For the Three Months Ended June 30, 2014	\$267,062	\$(727) \$266,335
For the Six Months Ended June 30, 2014	536,313	4,794	541,107

Also during the first quarter of 2015, interest expense, net of interest income (“net interest expense”) was reallocated from the management business to the incentive business to align with the earnings from our investments which are principally funded by our outstanding debt. The impact of this reallocation on management business EI and incentive business EI is reflected in the tables below for Apollo’s three reportable segments for the three and six months ended June 30, 2014.

	Impact of Net Interest Expense Reclassification on Management Business Economic Income (Loss)			
	Private Equity Segment	Credit Segment	Real Estate Segment	Total Combined Segments
For the Three Months Ended June 30, 2014	\$1,601	\$1,397	\$418	\$3,416
For the Six Months Ended June 30, 2014	2,725	1,968	707	5,400

	Impact of Net Interest Expense Reclassification on Incentive Business Economic Income (Loss)			
	Private Equity Segment	Credit Segment	Real Estate Segment	Total Combined Segments
For the Three Months Ended June 30, 2014	\$(1,601) \$(1,397) \$(418) \$(3,416
For the Six Months Ended June 30, 2014	(2,725) (1,968) (707) (5,400

As it relates to the reclassification described above, the impact to the combined segments total Economic Income (Loss) for all periods presented was zero.

These changes have been made to prior period financial data reportable segments to conform to the current period presentation.

Economic Income (Loss)

EI is a key performance measure used by management in evaluating the performance of Apollo’s private equity, credit and real estate segments. Management believes the components of EI, such as the amount of management fees, advisory and transaction fees and carried interest income, are indicative of the Company’s performance. Management also uses EI in making key operating decisions such as the following:

- Decisions related to the allocation of resources such as staffing decisions including hiring and locations for deployment of the new hires;

- Decisions related to capital deployment such as providing capital to facilitate growth for the business and/or to facilitate expansion into new businesses; and

- Decisions relating to expenses, such as determining annual discretionary bonuses and equity-based compensation awards to its employees. With respect to compensation, management seeks to align the interests of certain professionals and selected other individuals with those of the investors in such funds and those of the Company’s shareholders by providing such individuals a profit sharing interest in the carried interest income earned in relation to the funds. To achieve that objective, a certain amount of compensation is based on the Company’s performance and growth for the year.

EI is a measure of profitability and has certain limitations in that it does not take into account certain items included under U.S. GAAP. EI represents segment income (loss) before income tax provision excluding transaction-related

charges arising from the 2007 private placement, and any acquisitions. Transaction-related charges include equity-based compensation charges, the amortization of intangible assets, contingent consideration and certain other charges associated with acquisitions. In addition,

- 66-

(dollars in thousands, except share data, except where noted)

The following table reconciles the total segments to Apollo Global Management, LLC's condensed consolidated financial statements as of and for the three months ended June 30, 2015:

	As of and for the Three Months Ended June 30, 2015		
	Total Reportable Segments	Consolidation Adjustments and Other	Consolidated
Revenues	\$348,415	\$3,312	(1) \$351,727
Expenses	222,581	21,958	(2) 244,539
Other income (loss)	34,922	15,056	(3) 49,978
Non-Controlling Interests	(3,223)	(88,423)	(91,646)
Economic Income	\$157,533	(4) N/A	N/A
Total Assets	\$3,871,718	\$1,029,982	(5) \$4,901,700

Represents advisory fees, management fees and carried interest income earned from consolidated VIEs which are (1) eliminated in consolidation. Includes non-cash revenues related to equity awards granted by unconsolidated affiliates to employees of the Company.

Represents the addition of expenses of consolidated funds and the consolidated VIEs and transaction-related (2) charges. Transaction-related charges includes equity-based compensation charges, the amortization of intangible assets, contingent consideration and certain other charges associated with acquisitions.

(3) Results from the following:

	For the Three Months Ended June 30, 2015
Net gains from investment activities	\$142
Net gains from investment activities of consolidated variable interest entities	5,800
Income from equity method investments	729
Other income, net	8,385
Total Consolidation Adjustments	\$15,056

(4) The reconciliation of Economic Income to Net Income Attributable to Apollo Global Management, LLC reported in the condensed consolidated statements of operations consists of the following:

	For the Three Months Ended June 30, 2015
Economic Income	\$157,533
Income tax provision	(9,092)
Net income attributable to Non-Controlling Interests in Apollo Operating Group	(83,148)
Transaction-related charges and equity-based compensation ⁽⁶⁾	(8,865)
Net Income Attributable to Apollo Global Management, LLC	\$56,428

(5) Represents the addition of assets of consolidated funds and the consolidated VIEs.

Transaction-related charges include equity-based compensation charges, the amortization of intangible assets, (6) contingent consideration and certain other charges associated with acquisitions. Equity-based compensation adjustment includes non-cash revenues and expenses related to equity awards granted by unconsolidated affiliates to employees of the Company.

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

The following tables present additional financial data for Apollo's reportable segments for the three months ended June 30, 2015:

	For the Three Months Ended June 30, 2015			Credit		
	Private Equity Management	Incentive	Total	Management	Incentive	Total
Revenues:						
Advisory and transaction fees from affiliates, net	\$8,913	\$—	\$8,913	\$4,420	\$—	\$4,420
Management fees from affiliates	74,269	—	74,269	140,632	—	140,632
Carried interest income from affiliates:						
Unrealized losses ⁽¹⁾	—	(76,674)	(76,674)	—	(6,922)	(6,922)
Realized gains	—	158,002	158,002	10,815	18,556	29,371
Total Revenues	83,182	81,328	164,510	155,867	11,634	167,501
Compensation and benefits ⁽²⁾	35,116	58,041	93,157	58,136	3,897	62,033
Other expenses	16,462	—	16,462	32,061	—	32,061
Total Expenses	51,578	58,041	109,619	90,197	3,897	94,094
Other Income (Loss)	327	7,811	8,138	546	25,077	25,623
Non-Controlling Interests	—	—	—	(3,223)	—	(3,223)
Economic Income (Loss)	\$31,931	\$31,098	\$63,029	\$62,993	\$32,814	\$95,807

Included in unrealized carried interest income (loss) from affiliates for the three months ended June 30, 2015 was a reversal of previously realized carried interest income due to the general partner obligation to return previously distributed carried interest income with respect to Fund V, ACLF and certain SIAs within the credit segment of \$4.9 million, \$1.5 million and \$0.2 million, respectively. The fair value gain on investments and income at the fund level needed to reverse the general partner obligations with respect to Fund V, ACLF and certain SIAs within the credit segment was \$60.6 million, \$16.7 million and \$53.2 million, respectively, as of June 30, 2015. The general partner obligation is recognized based upon a hypothetical liquidation of the fund's net assets as of the reporting date. The actual determination and any required payment of any such general partner obligation would not take place until the final disposition of a fund's investments based on the contractual termination of the fund or as otherwise set forth in the respective limited partnership agreement of the fund.

Compensation and benefits includes equity-based compensation expense related to the management business for (2)RSUs (excluding transaction-related charges arising from the 2007 private placement, and any acquisitions) and share options.

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

The following table reconciles the total segments to Apollo Global Management, LLC's condensed consolidated financial statements as of and for the six months ended June 30, 2015:

	As of and for the Six Months Ended June 30, 2015		
	Total Reportable Segments	Consolidation Adjustments and Other	Consolidated
Revenues	\$651,264	\$3,487	(1) \$654,751
Expenses	418,730	49,805	(2) 468,535
Other income (loss)	33,137	24,825	(3) 57,962
Non-Controlling Interests	(6,069)	(136,148)	(142,217)
Economic Income	\$259,602	(4) N/A	N/A
Total Assets	\$3,871,718	\$1,029,982	(5) \$4,901,700

Represents advisory fees, management fees and carried interest income earned from consolidated VIEs which are (1) eliminated in consolidation. Includes non-cash revenues related to equity awards granted by unconsolidated affiliates to employees of the Company.

Represents the addition of expenses of consolidated funds and the consolidated VIEs and transaction-related (2) charges. Transaction-related charges includes equity-based compensation charges, the amortization of intangible assets, contingent consideration and certain other charges associated with acquisitions.

(3) Results from the following:

	For the Six Months Ended June 30, 2015
Net gains from investment activities	\$497
Net gains from investment activities of consolidated variable interest entities	7,128
Income from equity method investments	866
Other income, net	16,334
Total Consolidation Adjustments	\$24,825

(4) The reconciliation of Economic Income to Net Income Attributable to Apollo Global Management, LLC reported in the condensed consolidated statements of operations consists of the following:

	For the Six Months Ended June 30, 2015
Economic Income	\$259,602
Income tax provision	(14,606)
Net income attributable to Non-Controlling Interests in Apollo Operating Group	(131,160)
Transaction-related charges and equity-based compensation ⁽⁶⁾	(26,481)
Net Income Attributable to Apollo Global Management, LLC	\$87,355

(5) Represents the addition of assets of consolidated funds and the consolidated VIEs.

Transaction-related charges include equity-based compensation charges, the amortization of intangible assets, (6) contingent consideration and certain other charges associated with acquisitions. Equity-based compensation adjustment includes non-cash revenues and expenses related to equity awards granted by unconsolidated affiliates to employees of the Company.

Economic Income	\$61,787	\$60,321	\$122,108	\$126,974	\$13,981	\$140,955

Included in unrealized carried interest income (loss) from affiliates for the six months ended June 30, 2015 was a reversal of previously realized carried interest income due to the general partner obligation to return previously distributed carried interest income with respect to Fund V, ACLF and certain SIAs within the credit segment of \$9.1 million, \$5.9 million and \$27.1 million, respectively. The fair value gain on investments and income at the fund level needed to reverse the general partner obligations with respect to Fund V, ACLF and certain SIAs within the credit segment was \$60.6 million, \$16.7 million and \$53.2 million, respectively, as of June 30, 2015. The general partner obligation is recognized based upon a hypothetical liquidation of the fund's net assets as of the reporting date. The actual determination and any required payment of any such general partner obligation would not take place until the final disposition of a fund's investments based on the contractual termination of the fund or as otherwise set forth in the respective limited partnership agreement of the fund.

Compensation and benefits includes equity-based compensation expense related to the management business for RSUs (excluding transaction-related charges arising from the 2007 private placement, and any acquisitions) and share options.

FINANCIAL STATEMENTS

(dollars in thousands, except share data, except where noted)

16. SUBSEQUENT EVENTS

On July 10, 2015, the Company issued 497,918 Class A shares in settlement of vested RSUs. These issuances caused the Company's ownership interest in the Apollo Operating Group to increase from 43.8% to 43.9%.

On July 29, 2015 the Company declared a cash distribution of \$0.42 per Class A share, which will be paid on August 31, 2015 to holders of record on August 18, 2015.

On July 31, 2015, the Company issued 1,876,106 Class A shares in settlement of vested RSUs. These issuances caused the Company's ownership interest in the Apollo Operating Group to increase from 43.9% to 44.2%.

On August 6, 2015, Apollo announced that it has agreed to acquire a majority interest in a new company, AR Global Investments, LLC, that will own a majority of the ongoing asset management business of AR Capital, a leading asset management firm focused on providing income solutions for retail investors. Apollo also announced that it has agreed to acquire RCS Capital Corporation's wholesale distribution business and that it has entered into a strategic relationship with RCS Capital's retail wealth management business, Cetera Financial Group. These transactions are expected to close in the fourth quarter of 2015, subject to regulatory and other customary closing conditions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with Apollo Global Management, LLC's condensed consolidated financial statements and the related notes included within this Quarterly Report on Form 10-Q. This discussion contains forward-looking statements that are subject to known and unknown risks and uncertainties. Actual results and the timing of events may differ significantly from those expressed or implied in such forward-looking statements due to a number of factors, including those included in the section entitled "Risk Factors" in our Form 10-K for the year ended December 31, 2014 filed with the SEC on February 27, 2015 (the "2014 Annual Report"). The highlights listed below have had significant effects on many items within our condensed consolidated financial statements and affect the comparison of the current period's activity with those of prior periods.

General

Our Businesses

Founded in 1990, Apollo is a leading global alternative investment manager. We are a contrarian, value-oriented investment manager in private equity, credit and real estate with significant distressed expertise and a flexible mandate in the majority of our funds which enables our funds to invest opportunistically across a company's capital structure. We raise, invest and manage funds on behalf of some of the world's most prominent pension, endowment and sovereign wealth funds as well as other institutional and individual investors. Apollo is led by our Managing Partners, Leon Black, Joshua Harris and Marc Rowan, who have worked together for more than 25 years and lead a team of 886 employees, including 331 investment professionals, as of June 30, 2015.

Apollo conducts its management and incentive businesses primarily in the United States and substantially all of its revenues are generated domestically. These businesses are conducted through the following three reportable segments:

- (i) Private equity—primarily invests in control equity and related debt instruments, convertible securities and distressed debt instruments;
- (ii) Credit—primarily invests in non-control corporate and structured debt instruments; and
- (iii) Real estate—primarily invests in real estate equity for the acquisition and recapitalization of real estate assets, portfolios, platforms and operating companies, and real estate debt including first mortgage and mezzanine loans, preferred equity and commercial mortgage backed securities.

These business segments are differentiated based on the varying investment strategies. The performance is measured by management on an unconsolidated basis because management makes operating decisions and assesses the performance of each of Apollo's business segments based on financial and operating metrics and data that exclude the effects of consolidation of any of the managed funds.

Our financial results vary since carried interest, which generally constitutes a large portion of the income we receive from the funds that we manage, as well as the transaction and advisory fees that we receive, can vary significantly from quarter to quarter and year to year. As a result, we emphasize long-term financial growth and profitability to manage our business.

In addition, the growth in our Fee-Generating AUM during the last year has primarily been in our credit segment. The average management fee rate for these new credit products is at market rates for such products and in certain cases is below our historical rates. Also, due to the complexity of these new product offerings, the Company has incurred and will continue to incur additional costs associated with managing these products. To date, these additional costs have been offset by realized economies of scale and ongoing cost management.

As of June 30, 2015, we had total AUM of \$162.5 billion across all of our businesses. As of June 30, 2015, 46% of our total AUM was in Permanent Capital Vehicles. On December 31, 2013, Apollo Investment Fund VIII, L.P. ("Fund VIII") held a final closing raising a total of \$17.5 billion in third-party capital and approximately \$880 million of additional capital from Apollo and affiliated investors, and as of June 30, 2015, Fund VIII had \$14.5 billion of uncalled commitments remaining. Additionally, Apollo Investment Fund VII, L.P. ("Fund VII") held a final closing in December 2008, raising a total of \$14.7 billion, and as of June 30, 2015, Fund VII had \$3.1 billion of uncalled commitments remaining. We have consistently produced attractive long-term investment returns in our traditional

private equity funds, generating a 39% gross IRR and a 25% net IRR on a compound annual basis from inception through June 30, 2015. Apollo's traditional private equity funds' appreciation was 2.7% and 5.2% for the three and six months ended June 30, 2015, respectively.

Table of Contents

For our credit segment, total gross and net return, excluding assets managed by Athene Asset Management (“AAM”) that are not directly invested in Apollo funds and investment vehicles or sub-advised by Apollo, was 1.2% and 0.8%, respectively, for the three months ended June 30, 2015 and 3.2% and 2.6%, respectively, for the six months ended June 30, 2015.

For our real estate segment, total gross and net returns for U.S. Real Estate Fund I including co-investment capital were 4.6% and 3.8%, respectively, for the three months ended June 30, 2015 and 6.2% and 5.2%, respectively, for the six months ended June 30, 2015.

For further detail related to fund performance metrics across all of our businesses, see “—The Historical Investment Performance of Our Funds.”

Holding Company Structure

The diagram below depicts our current organizational structure:

Note: The organizational structure chart above depicts a simplified version of the Apollo structure. It does not include all legal entities in the structure. Ownership percentages are as of the date of the filing of this Quarterly Report on Form 10-Q.

The Strategic Investors hold 25.78% of the Class A shares outstanding and 11.39% of the economic interests in the Apollo Operating Group. The Class A shares held by investors other than the Strategic Investors represent 37.00% of the total voting power of our shares entitled to vote and 32.80% of the economic interests in the Apollo Operating Group. Class A shares held by the Strategic Investors do not have voting rights. However, such Class A shares will become entitled to vote upon transfers by a Strategic Investor in accordance with the agreements entered into in connection with the investments made by the Strategic Investors.

Our Managing Partners own BRH Holdings GP, Ltd., which in turn holds our only outstanding Class B share. The Class B share represents 63.00% of the total voting power of our shares entitled to vote but no economic interest in Apollo Global Management, LLC. Our Managing Partners’ economic interests are instead represented by their indirect beneficial ownership, through AP Professional Holdings L.P. (“Holdings”), of 49.80% of the limited partner interests in the Apollo Operating Group.

Through BRH Holdings, L.P., our Managing Partners indirectly beneficially own through estate planning vehicles, limited partner interests in Holdings.

Table of Contents

Holdings owns 55.83% of the limited partner interests in each Apollo Operating Group entity (“AOG Units”). The AOG Units held by Holdings are exchangeable for Class A shares. Our Managing Partners, through their interests in BRH and Holdings, beneficially own 49.80% of the AOG Units. Our Contributing Partners, through their ownership interests in Holdings, beneficially own 6.03% of the AOG Units.

BRH Holdings GP, Ltd. is the sole member of AGM Management, LLC, our manager. The management of Apollo Global Management, LLC is vested in our manager as provided in our operating agreement.

Represents 44.17% of the limited partner interests in each Apollo Operating Group entity, held through intermediate holding companies. Apollo Global Management, LLC, also indirectly owns 100% of the general partner interests in each Apollo Operating Group entity.

Each of the Apollo Operating Group partnerships holds interests in different businesses or entities organized in different jurisdictions.

Our structure is designed to accomplish a number of objectives, the most important of which are as follows:

We are a holding company that is qualified as a partnership for U.S. federal income tax purposes. Our intermediate holding companies enable us to maintain our partnership status and to meet the qualifying income exception.

We have historically used multiple management companies to segregate operations for business, financial and other reasons. Going forward, we may increase or decrease the number of our management companies or partnerships within the Apollo Operating Group based on our views regarding the appropriate balance between (a) administrative convenience and (b) continued business, financial, tax and other optimization.

Business Environment

As a global investment manager, we are affected by numerous factors, including the condition of financial markets and the economy. Fluctuations in equity prices, which may be volatile and mixed across geographies, can significantly impact the valuation of our funds’ portfolio companies and related income we may recognize. In the U.S., the S&P 500 Index declined by a modest 0.2% in the second quarter of 2015, following a modest 0.4% rise in the first quarter of 2015. Outside the U.S., global equity markets were also down slightly during the second quarter of 2015. The MSCI All Country World ex USA Index declined 0.5% following a 3.2% rise in the first quarter of 2015.

Conditions in the credit markets also have a significant impact on our business. Credit markets were mixed during in the second quarter of 2015, with the BofAML HY Master II Index down slightly at 0.1%, though up 2.5% year to date, while the S&P/LSTA Leveraged Loan Index was up 0.7% in the quarter and 2.8% year to date. Benchmark interest rates reversed the downward trajectory observed during 2014 and the first quarter of 2015, with the U.S. 10-year Treasury yield rising approximately 40 basis points to 2.3%. Commodities generally rose during the second quarter of 2015, driven by a rebound in oil prices. After a 4% decline in the first quarter of 2015, Brent crude oil rose 15% during the second quarter of 2015.

In terms of economic conditions in the U.S., the Bureau of Economic Analysis reported that real GDP increased at an annual rate of 2.3% in the second quarter of 2015, driven by an upturn in exports, increased consumer spending, a deceleration in imports, and increased state and local government spending. As of July 2015, the International Monetary Fund estimated that the U.S. economy will expand by 2.5% in 2015, a decline from the 3.1% growth estimate forecasted in April 2015. Additionally, the U.S. unemployment rate continued to decline and stood at 5.3% as of June 30, 2015, compared to 5.5% as of March 31, 2015, making it the lowest level since April 2008.

Amid the generally favorable backdrop of elevated asset prices and positive equity market momentum, Apollo continued to generate realizations for fund investors. Apollo returned \$3.4 billion and \$15.1 billion of capital and realized gains to the limited partners of the funds it manages during the second quarter of 2015 and for the past 12 months ended June 30, 2015, respectively. In general, institutional investors continue to allocate capital towards alternative investment managers for more attractive risk-adjusted returns in a low interest rate environment. Apollo had reported \$3.2 billion and \$14.9 billion of inflows for the second quarter of 2015 and over the past 12 months ended June 30, 2015, respectively. Inflows during the second quarter of 2015 were primarily driven by \$1.0 billion from a strategic managed account, \$0.7 billion from credit drawdown funds, and \$0.6 billion from the acquisition of an Asia-focused real estate investment manager.

Regardless of the market or economic environment at any given time, Apollo relies on its contrarian, value-oriented approach to consistently invest capital on behalf of its investors by focusing on opportunities that management believes are often overlooked by other investors. We believe Apollo's expertise in credit and its focus on nine core industry sectors, combined with more than 20 years of investment experience, has allowed Apollo to respond quickly to changing environments. Apollo's core

- 84-

Table of Contents

industry sectors cover chemicals, natural resources, consumer and retail, distribution and transportation, financial and business services, manufacturing and industrial, media and cable and leisure, packaging and materials and the satellite and wireless industries. Apollo believes that these attributes have contributed to the success of its private equity funds investing in buyouts and credit opportunities during both expansionary and recessionary economic periods.

Managing Business Performance

We believe that the presentation of Economic Income (Loss) supplements a reader's understanding of the economic operating performance of each of our segments.

Economic Income (Loss)

Economic Income (previously referred to as Economic Net Income) or EI, is a key performance measure used by management in evaluating the performance of Apollo's private equity, credit and real estate segments. Management also believes the components of EI such as the amount of management fees, advisory and transaction fees and carried interest income are indicative of Apollo's performance. Management uses these performance measures in making key operating decisions such as the following:

- Decisions related to the allocation of resources such as staffing decisions including hiring and locations for deployment of the new hires;
- Decisions related to capital deployment such as providing capital to facilitate growth for the business and/or to facilitate expansion into new businesses; and
- Decisions related to expenses, such as determining annual discretionary bonuses and equity-based compensation awards to our employees. With respect to compensation, management seeks to align the interests of certain professionals and selected other individuals with those of the investors in the funds and those of Apollo's shareholders by providing such individuals a profit sharing interest in the carried interest income earned in relation to the funds. To achieve that objective, a certain amount of compensation is based on Apollo's performance and growth for the year.

EI has certain limitations in that it does not take into account certain items included under U.S. GAAP. EI represents segment income (loss) before income tax provision excluding transaction-related charges arising from the 2007 private placement, and any acquisitions. Transaction-related charges include equity-based compensation charges, the amortization of intangible assets, contingent consideration and certain other charges associated with acquisitions. In addition, segment data excludes non-cash revenue and expense related to equity awards granted by unconsolidated affiliates to employees of the Company, as well as the assets, liabilities and operating results of the funds and variable interest entities ("VIEs") that are included in the condensed consolidated financial statements. We believe the exclusion of the non-cash charges related to the 2007 Reorganization for equity-based compensation provides investors with a meaningful indication of our performance because these charges relate to the equity portion of our capital structure and not our core operating performance.

We believe that EI is helpful for an understanding of our business and that investors should review the same supplemental financial measure that management uses to analyze our segment performance. This measure supplements and should be considered in addition to and not in lieu of the results of operations discussed below in "—Overview of Results of Operations" that have been prepared in accordance with U.S. GAAP.

EI may not be comparable to similarly titled measures used by other companies and is not a measure of performance calculated in accordance with U.S. GAAP. We use EI as a measure of operating performance, not as a measure of liquidity. EI should not be considered in isolation or as a substitute for operating income, net income, operating cash flows, investing and financing activities, or other income or cash flow statement data prepared in accordance with U.S. GAAP. The use of EI without consideration of related U.S. GAAP measures is not adequate due to the adjustments described above. Management compensates for these limitations by using EI as a supplemental measure to U.S. GAAP results, to provide a more complete understanding of our performance as management measures it. A reconciliation of EI to our U.S. GAAP net income (loss) attributable to Apollo Global Management, LLC can be found in the notes to our condensed consolidated financial statements.

During the first quarter of 2015 the Company renamed Economic Net Income to Economic Income. Additionally, the definition of EI was changed to exclude transaction-related charges related to contingent consideration associated with

Table of Contents

acquisitions. The impact of this change on EI is reflected in note 15 to the condensed consolidated financial statements. These changes have been made to prior period financial data reportable segments to conform to the current period presentation.

Operating Metrics

We monitor certain operating metrics that are common to the alternative investment management industry. These operating metrics include Assets Under Management, capital deployed and uncalled commitments.

Assets Under Management

Assets Under Management, or AUM, refers to the assets we manage for the funds, partnerships and accounts to which we provide investment management services, including, without limitation, capital that such funds, partnerships and accounts have the right to call from investors pursuant to capital commitments. Our AUM equals the sum of:

- (i) the fair value of the investments of the private equity funds, partnerships and accounts we manage plus the capital which such funds, partnerships and accounts are entitled to call from investors pursuant to capital commitments; the net asset value (“NAV”) of the credit funds, partnerships and accounts for which we provide investment management services, other than certain collateralized loan obligations (“CLOs”) and collateralized debt obligations (“CDOs”), which have a fee-generating basis other than the mark-to-market value of the underlying assets, plus used or available leverage and/or capital which such funds, partnerships and accounts are entitled to call from investors pursuant to capital commitments;
- (ii) the gross asset value or net asset value of the real estate funds, partnerships and accounts we manage, and
- (iii) the structured portfolio company investments of the funds, partnerships and accounts we manage, which includes the leverage used by such structured portfolio company investments;
- (iv) the incremental value associated with the reinsurance investments of the portfolio company assets we manage; and the fair value of any other assets that we manage for the funds, partnerships and accounts to which we provide investment management services, plus unused credit facilities, including capital commitments to such funds,
- (v) partnerships and accounts for investments that may require pre-qualification before investment plus any other capital commitments to such funds, partnerships and accounts available for investment that are not otherwise included in the clauses above.

Our AUM measure includes Assets Under Management for which we charge either no or nominal fees. Our definition of AUM is not based on any definition of Assets Under Management contained in our operating agreement or in any of our Apollo fund management agreements. We consider multiple factors for determining what should be included in our definition of AUM. Such factors include but are not limited to (1) our ability to influence the investment decisions for existing and available assets; (2) our ability to generate income from the underlying assets in our funds; and (3) the AUM measures that we believe are used by other investment managers. Given the differences in the investment strategies and structures among other alternative investment managers, our calculation of AUM may differ from the calculations employed by other investment managers and, as a result, this measure may not be directly comparable to similar measures presented by other investment managers.

We use AUM as a performance measure of our investment activities, as well as to monitor fund size in relation to professional resource and infrastructure needs.

AUM that had previously not been reported within Apollo’s three reporting segments have been allocated to each respective segment based on expected deployment. Prior period amounts were recast to conform to the current presentation.

Assets Under Management—Fee-Generating/Non-Fee-Generating

Fee-Generating AUM consists of assets we manage for the funds, partnerships and accounts to which we provide investment management services and on which we earn management fees or, monitoring fees pursuant to management or other fee agreements on a basis that varies among the Apollo funds, partnerships and accounts we manage.

Management fees are normally based on “net asset value,” “gross assets,” “adjusted par asset value,” “adjusted cost of all unrealized portfolio investments,”

Table of Contents

“capital commitments,” “adjusted assets,” “stockholders’ equity,” “invested capital” or “capital contributions,” each as defined in the applicable management agreement. Monitoring fees, also referred to as advisory fees, with respect to the structured portfolio company investments of the funds, partnerships and accounts we manage, are generally based on the total value of such structured portfolio company investments, which normally includes leverage, less any portion of such total value that is already considered in Fee-Generating AUM.

Non-Fee-Generating AUM consists of assets that do not produce management fees or monitoring fees. These assets generally consist of the following: (a) fair value above invested capital for those funds that earn management fees based on invested capital, (b) net asset values related to general partner and co-investment ownership, (c) unused credit facilities, (d) available commitments on those funds that generate management fees on invested capital, (e) structured portfolio company investments that do not generate monitoring fees and (f) the difference between gross asset and net asset value for those funds that earn management fees based on net asset value.

Carry-Eligible AUM refers to the AUM that may eventually produce carried interest income. All funds for which we are entitled to receive a carried interest income allocation are included in Carry-Eligible AUM, which consists of the following:

- Carry-Generating AUM, which refers to funds’ invested capital that is currently above its hurdle rate or preferred (i) return, and the funds’ profit is allocated to the general partner in accordance with the applicable limited partnership agreements or other governing agreements;
- (ii) AUM Not Currently Generating Carry, which refers to funds’ invested capital that is currently below its hurdle rate or preferred return; and
- (iii) Uninvested Carry-Eligible AUM, which refers to available capital for investment or reinvestment subject to the provisions of applicable limited partnership agreements or other governing agreements that are not currently part of the NAV or fair value of investments that may eventually produce carried interest income, which would be allocated to the general partner.

AUM with Future Management Fee Potential refers to the committed uninvested capital portion of total AUM not currently earning management fees. The amount depends on the specific terms and conditions of each fund.

We use Non-Fee-Generating AUM combined with Fee-Generating AUM as a performance measure of our funds’ investment activities, as well as to monitor fund size in relation to professional resource and infrastructure needs.

Non-Fee-Generating AUM includes assets on which we could earn carried interest income.

Table of Contents

The table below presents Fee-Generating and Non-Fee-Generating AUM by segment as of June 30, 2015 and 2014 and December 31, 2014. Changes in market conditions and additional funds raised have had significant impacts to Apollo's AUM:

	As of June 30, 2015 (in millions)	2014	As of December 31, 2014
Total Assets Under Management	\$162,498	\$167,495	\$159,797
Fee-Generating	128,289	130,330	128,714
Non-Fee-Generating	34,209	37,165	31,083
Private Equity ⁽¹⁾	39,264	51,836	41,299
Fee-Generating	28,468	33,554	30,285
Non-Fee-Generating	10,796	18,282	11,014
Credit ⁽¹⁾	112,680	106,454	108,960
Fee-Generating	92,667	90,780	92,192
Non-Fee-Generating	20,013	15,674	16,768
Real Estate ⁽¹⁾	10,554	9,205	9,538
Fee-Generating	7,154	5,996	6,237
Non-Fee-Generating	3,400	3,209	3,301

(1) Prior period amounts were recast for individual segments to conform to the current presentation.

The table below sets forth AUM with Future Management Fee Potential, which is a component of Non-Fee-Generating AUM, for each of Apollo's three segments as of June 30, 2015 and 2014 and December 31, 2014.

	As of June 30, 2015 (in millions)	2014	As of December 31, 2014
Private Equity ⁽¹⁾	\$2,037	\$2,310	\$2,265
Credit ⁽¹⁾	6,853	4,152	5,118
Real Estate ⁽¹⁾	878	564	729
Total AUM with Future Management Fee Potential	\$9,768	\$7,026	\$8,112

(1) Prior period amounts were recast for individual segments to conform to the current presentation.

Table of Contents

The following table presents Carry-Eligible AUM and Carry-Generating AUM for each of Apollo's three segments as of June 30, 2015 and 2014 and December 31, 2014:

	Carry-Eligible AUM ⁽²⁾		As of December 31, 2014	Carry-Generating AUM ⁽²⁾		As of December 31, 2014
	As of June 30, 2015 (in millions)	2014		As of June 30, 2015	2014	
Private equity ⁽³⁾	\$34,211	\$44,791	\$36,376	\$12,487	\$24,381	\$14,463
Credit ⁽³⁾	44,262	38,947	39,013	23,257	28,036	16,218
Real estate ⁽³⁾	2,511	2,674	2,614	697	821	828
Total ⁽¹⁾⁽²⁾	\$80,984	\$86,412	\$78,003	\$36,441	\$53,238	\$31,509

As of June 30, 2015 and 2014 and December 31, 2014, Carry-Eligible AUM included \$28.3 billion, \$27.7 billion (1) and \$28.8 billion of Uninvested Carry-Eligible AUM, respectively, and \$16.2 billion, \$5.5 billion and \$17.7 billion of AUM Not Currently Generating Carry, respectively.

As of June 30, 2015, total Uninvested Carry-Eligible AUM of \$28.3 billion consisted of \$17.5 billion, \$9.7 billion and \$1.1 billion for the private equity, credit and real estate segments, respectively. Total AUM Not Currently (2) Generating Carry of \$16.2 billion consisted of \$4.2 billion, \$11.3 billion and \$0.7 billion for the private equity, credit and real estate segments, respectively.

(3) Prior period amounts were recast for individual segments to conform to the current presentation.

The following table presents AUM Not Currently Generating Carry and the appreciation required to reach the preferred return or high watermark and generate carried interest for funds whose investment period is greater than 24 months:

Category / Fund	AUM Not Currently Generating Carry	Investment Period Active > 24 Months (1)	Appreciation Required to Achieve Carry (2)
Private Equity:	(in millions)		
Fund VIII	\$3,601	\$—	NM
