Beneficial ownership is determined in accordance with the rules of the SEC. These rules generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities and include shares of our Common Stock issuable upon the exercise of stock options or warrants that are immediately exercisable or exercisable within 60 days after the Record Date. Except as otherwise indicated, all of the shares reflected in the table are shares of Common Stock and all persons listed below have sole voting and investment power with respect to the shares beneficially owned by them, subject to applicable community property laws. The information is not necessarily indicative of beneficial ownership for any other purpose.

Percentage ownership calculations for beneficial ownership are based on 7,620,952 shares of Common Stock outstanding as of the Record Date. In computing the number of shares of Common Stock beneficially owned by a person and the percentage ownership of that person, we deemed to be outstanding shares of Common Stock subject to options and warrants held by that person that are currently exercisable or exercisable within 60 days of the Record Date. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

Except as otherwise indicated in the footnotes to the table below, addresses of named beneficial owners are in care of VistaGen Therapeutics, Inc., 384 Oyster Point Blvd., No. 8, South San Francisco, California 94080.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

Cato BioVentures

Cato Holding Company (doing business as Cato BioVentures) (“Cato BioVentures”) is our largest stockholder. Cato BioVentures is the venture capital affiliate of Cato Research Ltd. (“Cato Research”), a global contract research and development organization (“CRO”). Pursuant to a loan agreement, dated as of February 3, 2004 (the “2004 Cato Loan Agreement”), by and between Cato BioVentures and VistaGen, as amended, Cato BioVentures extended to VistaGen a \$400,000 revolving line of credit. As of April 29, 2011, the outstanding balance under the 2004 Cato Loan Agreement was \$247,273. On April 29, 2011, the 2004 Cato Loan Agreement was terminated and VistaGen issued to Cato BioVentures an unsecured promissory note in the principal amount of \$352,273 (the “2011 Cato Note”), which principal amount included the \$247,273 outstanding balance on the terminated 2004 Cato Loan Agreement, as of April 29, 2011, and \$105,000 of indebtedness owed by VistaGen to Cato BioVentures under the 2010 Cato Note (described below). The 2011 Cato Note bears interest at the rate of 7.0% per annum, is payable in installments as follows: ten thousand dollars (\$10,000) each month, beginning June 1, 2011 and ending on November 1, 2011; twelve thousand five hundred dollars (\$12,500) each month, beginning December 1, 2011, and each month thereafter until the balance under the 2011 Cato Note is paid in full, with the final monthly payment to be made in the amount equal to the then current outstanding balance of principal and interest due under the 2011 Cato Note.

During VistaGen’s fiscal year ended March 31, 2007, VistaGen entered into a strategic CRO services agreement (the “Cato Agreement”) with Cato Research related to contract research and project management services for the development of AV-101, VistaGen’s small molecule drug candidate in Phase 1 clinical development in the U.S. for treatment of neuropathic pain. Pursuant to the Cato Agreement, VistaGen submits work orders to Cato Research for CRO services for AV-101 development activities from time to time. Under the Cato Agreement, VistaGen incurred expenses of \$567,582, \$558,302 and \$820,921 for the fiscal years ended March 31, 2010, 2009 and 2008, respectively, and \$338,078 and \$436,298 for the nine-month periods ended December 31, 2010 and 2009, respectively. As of the date of this report, VistaGen has authorized work orders for approximately \$1,325,516 of future CRO services by Cato Research under the Cato Agreement. An aggregate of \$275,000 of such amount for future CRO services by Cato Research relating to our AV-101 program have been paid through the issuance to Cato BioVentures of an aggregate of 78,571 shares of Common Stock in April 2011 at a purchase price of \$3.50 per share. We anticipate that substantially all of the remaining \$1,050,516 relating to such authorized work orders will be funded by our AV-101 clinical development grant from the U.S. National Institutes of Health (“NIH”).

In February 2007, Cato BioVentures agreed to convert \$250,000 of VistaGen’s accounts payable for CRO services rendered by Cato Research into convertible promissory notes. In December 2007, VistaGen issued and sold to Cato BioVentures \$562,368 of convertible promissory in exchange for cancellation of \$562,368 of VistaGen’s accounts payable and accrued interest payable to Cato Research for all outstanding accounts payable related to CRO services rendered to VistaGen by Cato Research.

Section 16(a) of the Exchange Act requires our directors, executive officers, and stockholders holding more than 10% of our outstanding Common Stock to file with the SEC initial reports of ownership and reports of changes in beneficial ownership of our Common Stock. Executive officers, directors, and persons who own more than 10% of our Common Stock are required by SEC regulations to furnish us with copies of all Section 16(a) reports they file.

Based solely upon a review of Forms 3, 4, and 5 delivered to us as filed with the SEC during our most recent fiscal year, none of our executive officers and directors, and persons who own more than 10% of our Common Stock have failed to timely file the reports required pursuant to Section 16(a) of the Exchange Act.

COMMITTEES OF THE BOARD OF DIRECTORS

We currently do not have a standing Audit Committee, Compensation Committee or a Corporate Governance and Nominating Committee. Currently, our entire Board of Directors is responsible for the functions that would otherwise be handled by these committees. We intend, however, to establish an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee of our Board of Directors on or about July 1, 2011. We envision that the Audit Committee will be primarily responsible for reviewing the services performed by our independent auditors, evaluating our accounting policies and our system of internal controls. The Compensation Committee will be primarily responsible for reviewing and approving our salary and benefits policies (including stock options) and other compensation of our executive officers. The Corporate Governance and Nominating Committee will be responsible for identifying and recommending nominees to our Board of Directors and overseeing compliance with our corporate governance guidelines.

Our Board of Directors has not made a determination as to whether any member of our Board of Directors is an audit committee financial expert. Upon the establishment of an Audit Committee, the Board of Directors will determine whether any of the directors qualify as an audit committee financial expert.

BOARD LEADERSHIP STRUCTURE AND ROLE ON RISK OVERSIGHT

The leadership structure of the Company's Board of Directors currently consists of a non-executive Chairman of the Board, Jon S. Saxe, who oversees Board of Directors meetings and works with the Chief Executive Officer to establish meeting agendas. The Company believes that this structure enhances the independence of the Board of Directors and its ability to provide oversight of the Company and its management. As described above in the section entitled "Committees of the Board of Directors," the Board of Directors intends to establish standing committees composed of independent directors to provide oversight of specific aspects of business operations and corporate governance. The chairperson of each of these committees will regularly report to the Board of Directors on such committee's activities and decisions. The Company believes this leadership structure will help facilitate efficient decision-making and communication among the directors and foster efficient Board of Directors function.

Management is primarily responsible for managing risks that the Company may face in the ordinary course of operating its business. The Board of Directors actively oversees potential risks and the Company's risk management activities by receiving operational and strategic presentations from management which include discussions of key risks to the business. In addition, the Board of Directors plans to delegate risk oversight to each of its key committees within their areas of responsibility.

The Company believes that the leadership structure of its Board of Directors, once standing committees are established, will facilitate the division of risk management oversight responsibilities and enhance the Board of Directors' efficiency in fulfilling its oversight function with respect to different areas of the Company's business risks and risk mitigation practices.

DIRECTOR INDEPENDENCE

Our securities are not listed on a national securities exchange or on any inter-dealer quotation system which has a requirement that directors be independent. However, we evaluate independence by the standards for director independence established by applicable laws, rules, and listing standards, including, without limitation, the standards for independent directors established by the New York Stock Exchange, Inc., the Nasdaq National Market, and the SEC.

Subject to some exceptions, these standards generally provide that a director will not be independent if (a) the director is, or in the past three years has been, an employee of ours; (b) a member of the director's immediate family is, or in the past three years has been, an executive officer of ours; (c) the director or a member of the director's immediate family has received more than \$120,000 per year in direct compensation from us other than for service as a director (or for a family member, as a non-executive employee); (d) the director or a member of the director's immediate family is, or in the past three years has been, employed in a professional capacity by our independent public accountants, or has worked for such firm in any capacity on our audit; (e) the director or a member of the director's immediate family is, or in the past three years has been, employed as an executive officer of a company where one of our executive officers serves on the compensation committee; or (f) the director or a member of the director's immediate family is an executive officer of a company that makes payments to, or receives payments from, us in an amount which, in any twelve-month period during the past three years, exceeds the greater of \$1,000,000 or two percent of that other company's consolidated gross revenues.

Jon S. Saxe qualifies as an independent director. We anticipate that Brian J. Underdown and Gregory A. Bonfiglio, after the 10th day following the filing of this Information Statement, will qualify as independent directors.

BOARD AND COMMITTEE MEETINGS

During the fiscal year ended December 31, 2010, the Board of Directors of Excaliber conducted all of its business by written consent without a meeting. During the fiscal year ended December 31, 2010, Excaliber had no standing committees of its Board of Directors.

ANNUAL MEETING ATTENDANCE

During the fiscal year ended December 31, 2010, Excaliber did not hold an annual meeting and instead conducted all stockholder business by written consent. The Company has not yet established a policy with respect to Board members' attendance at the annual meetings of stockholders.

NOMINATIONS TO THE BOARD OF DIRECTORS

The Board of Directors does not yet have a standing Corporate Governance and Nominating Committee, but intends to establish one by July 1, 2011. We believe it is currently appropriate to not have a Corporate Governance and Nominating Committee because our full Board of Directors will not be appointed until the 10th day following the filing of this Information Statement.

The Board of Directors has not yet established a charter for the planned Corporate Governance and Nominating Committee, but intends to do so by July 1, 2011.

The Board of Directors has not yet established a procedure for considering nominees for director nominated by the Company's stockholders. The Board of Directors believes that our Board of Directors can currently identify appropriate candidates to our Board of Directors. Stockholders may nominate candidates for director in accordance with the advance notice and other procedures contained in our bylaws.

The Board of Directors requires of itself and selects as candidates to the Board of Directors for appointment or nomination individuals of high personal and professional integrity and ability who can contribute to the Board of Directors' effectiveness in serving the interests of the Company's stockholders. The Board of Directors also reviews the appropriate skills and characteristics required of board members, including factors that it seeks in board members such as diversity of business experience, diversity of viewpoints and personal background, and diversity of skills in biotechnology, finance, business development, financial reporting and other areas that are expected to contribute to an effective Board of Directors. While the Company does not have a formal policy relating to Board of Directors diversity, the Board of Directors considers each of these factors with a goal of maintaining a diverse Board of Directors in the light of the specific needs of the Board of Directors at that time and without assigning any particular weighting or priority to any one of these factors.

The Board of Directors evaluates all proposed director nominees and incumbent directors before nomination, including the slate of director nominees proposed by the Board of Directors to our stockholders for election and any director nominees to be elected or appointed by the Board of Directors to fill interim director vacancies on the Board of Directors. All of the Company's members of the Board of Directors may participate in the consideration of director candidates.

EXECUTIVE COMPENSATION

The following discussion describes the significant elements of our executive compensation program, with particular emphasis on the process for determining compensation payable to our Chief Executive Officer, Chief Operating Officer, Chief Financial Officer and, other than the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, each of the three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity (collectively, the "Named Executive Officers" or "NEOs"). We do not currently have a Chief Operating Officer and have only three NEOs. Our NEOs are:

- Shawn K. Singh, J.D., Chief Executive Officer;
- H. Ralph Snodgrass, Ph.D., President and Chief Scientific Officer; and
- A. Franklin Rice, MBA, Chief Financial Officer.

Compensation Discussion and Analysis

Our Compensation Objectives

Our compensation practices are designed to attract key employees and to retain, motivate and reward our executive officers for their performance and contribution to our long-term success. Our Board of Directors seeks to compensate our executive officers by combining short and long-term cash and equity incentives. It also seeks to reward the achievement of corporate and individual performance objectives, and to align executive officers' incentives with stockholder value creation. Our Board of Directors seeks to tie individual goals to the area of the executive officer's primary responsibility. These goals may include the achievement of specific financial or business development goals. The Board of Directors seeks to set our performance goals that reach across all business areas and include achievements in finance/business development and corporate development.

Our Board of Directors makes decisions regarding salaries, annual bonuses and equity incentive compensation for our executive officers, approves corporate goals and objectives relevant to the compensation of the Chief Executive Officer and our other executive officers. Our Board of Directors solicits input from our Chief Executive Officer regarding the performance of Excaliber's other executive officers. Finally, the Board of Directors also administers our incentive compensation and benefit plans.

Although we have no formal policy for a specific allocation between current and long-term compensation, or cash and non-cash compensation, we have established a pay mix for NEOs with a relatively equal balance of both, providing a competitive set salary with a significant portion of compensation awarded on both corporate and personal performance.

Compensation Components

Our compensation going forward will consist primarily of three elements: base salary, annual bonus and long-term equity incentives. We describe each element of compensation in more detail below.

Base Salary

Base salaries for our executive officers are established based on the scope of their responsibilities and their prior relevant experience, taking into account competitive market compensation paid by other companies in our industry for similar positions and the overall market demand for such executives at the time of hire. An executive officer's base salary is also determined by reviewing the executive officer's other compensation to ensure that the executive officer's total compensation is in line with our overall compensation philosophy.

Base salaries are reviewed annually and increased for merit reasons, based on the executive officers' success in meeting or exceeding individual objectives. Additionally, we adjust base salaries as warranted throughout the year for promotions or other changes in the scope or breadth of an executive officer's role or responsibilities.

Annual Bonus

The Board of Directors assesses the level of the executive officer's achievement of meeting individual goals, as well as that executive officer's contribution towards our corporate-wide goals. The amount of the cash bonus depends on the level of achievement of the individual performance goals, with a target bonus generally set as a percentage of base salary and based on the achievement of pre-determined milestones.

Long-Term Equity Incentives

The Board of Directors believes that in order to:

- assist Excaliber in attracting and retaining management, key employees and non-management directors and providing such employees and directors with incentives to continue to serve Excaliber;

• create a greater commonality of interests between such employees, directors and the stockholders of Excaliber through incentive compensation based on the value of shares of our Common Stock; and

• where appropriate, provide such employees and directors an incentive to create or realize value for stockholders of Excaliber through potential partnership opportunities or alternative strategies,

the compensation of executive officers, other key employees and non-management directors should include, in addition to base salary and the annual cash incentive payable to executive officers, equity based compensation that is competitive with peer companies. The Board of Directors determines the number and terms of equity based compensation granted under the 2008 Plan (as hereinafter defined); however, the executive officers of Excaliber, including the NEOs, are not entitled to any minimum annual number of stock options. Previous grants of stock options are not taken into account by the Board of Directors when considering new stock option grants.

Comparator Group(s)

The Board of Directors intends to establish an appropriate comparator group, for purposes of setting the future compensation of the NEOs.

Benefit Plans

401(k) Plan

We maintain a retirement and deferred savings plan for our employees. This plan is intended to qualify as a tax-qualified plan under Section 401(k) of the Internal Revenue Code of 1986, as amended. The retirement and deferred savings plan provides that each participant may contribute a portion of his or her pre-tax compensation,

subject to statutory limits. Under the plan, each employee is fully vested in his or her deferred salary contributions. Employee contributions are held and invested by the plan's trustee. The retirement and deferred savings plan also permits us to make discretionary contributions subject to established limits and a vesting schedule.

To date, we have not made any discretionary contributions to the retirement and deferred savings plan on behalf of participating employees.

Under the Singh Agreement, Mr. Singh’s base salary is \$347,500 per year. However, in VistaGen’s fiscal year ended March 31, 2011, Mr. Singh voluntarily reduced his annual salary to \$168,274 to conserve cash for its operations. Mr. Singh is eligible to receive an annual incentive bonus of up to 50% of his base salary. Payment of his annual incentive bonus is at the discretion of our Board of Directors. In the event we terminate Mr. Singh’s employment without cause, he is entitled to receive severance in an amount equal to:

- a pro-rated portion of the incentive bonus that the Board of Directors determines in good faith that Mr. Singh earned prior to his termination; and
- such amounts required to reimburse him for Consolidated Omnibus Budget Reconciliation Act (“COBRA”) payments for continuation of his medical health benefits for such twelve-month period.

In addition, in the event Mr. Singh terminates his employment with good reason following a change of control, he is entitled to twelve months of his then-current base salary payable in the form of salary continuation.

In addition, the Singh Agreement provides that all our outstanding stock option agreements with Mr. Singh will be amended to provide for:

- acceleration of vesting of 50% of his then unvested options, if any, pursuant to each such stock option agreement in the event we terminate Mr. Singh’s employment without cause; and
- full acceleration of vesting of all of his remaining unvested shares, if any, pursuant to each such stock option agreement in the event that we terminate Mr. Singh’s employment without cause within twelve months of a “change of control” (as defined below under “ — Change of Control Provisions”).

Finally, pursuant to the Singh Agreement, the principal and accrued interest owed by Mr. Singh pursuant to that certain full recourse promissory note, dated December 21, 2006, was forgiven and cancelled by VistaGen on May 11, 2011. Within twelve months, Mr. Singh will receive a tax gross-up cash bonus in an amount equal to his U.S. and California income tax liability related to the forgiveness and cancellation of his note.

Snodgrass Agreement

Dr. Snodgrass entered into an employment agreement with VistaGen, dated as of April 28, 2010 (as amended on May 9, 2011, the “Snodgrass Agreement”). However, in VistaGen’s fiscal year ended March 31, 2011, Dr. Snodgrass voluntarily reduced his annual salary to \$141,486 to conserve cash for its operations. In the event we terminate Dr. Snodgrass’s employment without cause, he is entitled to receive severance in an amount equal to:

- twelve months of his then-current base salary payable in the form of salary continuation;

a pro-rated portion of the incentive bonus that the Board of Directors determines in good faith that Dr. Snodgrass earned prior to his termination; and

such amounts required to reimburse him for COBRA payments for continuation of his medical health benefits for such twelve-month period.

In addition, in the event Dr. Snodgrass terminates his employment with good reason, he is entitled to twelve months of his then-current base salary payable in the form of salary continuation.

In addition, the Snodgrass Agreement provides that all our outstanding stock option agreements with Dr. Snodgrass will be amended to provide for:

acceleration of vesting of 50% of his then unvested options, if any, pursuant to each such stock option agreement in the event we terminate Dr. Snodgrass's employment without cause; and

full acceleration of vesting of all of his remaining unvested shares, if any, pursuant to each such stock option agreement in the event that we terminate Dr. Snodgrass's employment without cause within twelve months of a "change of control" (as defined below under "— Change of Control Provisions").

Rice Agreement

Mr. Rice entered into an employment agreement with VistaGen, dated as of April 28, 2010 (as amended on May 9, 2011, the "Rice Agreement"). Under the Rice Agreement, Mr. Rice's base salary is \$260,000 per year. However, in VistaGen's fiscal year ended 2011, Mr. Rice voluntarily reduced his annual salary to \$131,802 to conserve cash for its operations. Mr. Rice will be eligible to receive an annual incentive bonus of up to 40% of his base salary. Payment of his annual incentive bonus is at the discretion of the Board of Directors. In the event we terminate Mr. Rice's employment without cause, he is entitled to receive severance in an amount equal to:

- twelve months of his then-current base salary payable in the form of salary continuation;

a pro-rated portion of the incentive bonus that the Board of Directors determines in good faith that Mr. Rice earned prior to his termination; and

such amounts required to reimburse him for COBRA payments for continuation of his medical health benefits for such twelve-month period.

In addition, in the event Mr. Rice terminates his employment with good reason following a change of control, he is entitled to twelve months of his then current base salary payable in the form of salary continuation.

In addition, the Rice Agreement provides that all our outstanding stock option agreements with Mr. Rice will be amended to provide for:

acceleration of vesting of 50% of his then unvested options, if any, pursuant to each such stock option agreement in the event we terminate Mr. Rice's employment without cause; and

full acceleration of vesting of all of his remaining unvested shares, if any, pursuant to each such stock option agreement in the event that we terminate Mr. Rice's employment without cause within twelve months of a "change of

control” (as defined below under “— Change of Control Provisions”).

-17-

Finally, pursuant to the Rice Agreement, the principal and accrued interest owed by Mr. Rice pursuant to that certain full recourse promissory note, dated March 12, 2007, was forgiven and cancelled by VistaGen on May 11, 2011. Within twelve months thereafter, Mr. Rice shall receive a tax gross-up cash bonus in an amount equal to his U.S. and California income tax liability related to the forgiveness and cancellation of his note.

Change of Control Provisions

Pursuant to each of their respective employment agreements, Dr. Snodgrass is entitled to severance if he terminates his employment at any time for “good reason,” (as defined below) while Mr. Singh and Mr. Rice are entitled to severance if either of them terminates his employment for good reason only after a change of control. Under their respective agreements, “good reason” means any of the following events if the event is effected by Excaliber without the executive’s consent (subject to Excaliber’s right to cure):

- a material reduction in the executive’s responsibility; or

a material reduction in the executive’s base salary following the Merger except for reductions that are comparable to reductions generally applicable to similarly situated executives of Excaliber.

Furthermore, pursuant to their respective employment agreements and their stock option award agreements as amended, in the event we terminate the executive without cause within twelve months of a change of control, the executive’s remaining unvested shares become fully vested and exercisable. Upon a change of control in which the successor corporation does not assume the executive’s stock options, the stock options granted to the executive under the 1999 Plan become fully vested and exercisable.

Pursuant to their respective employment agreements, a change of control occurs when: (i) any “person” as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended (other than Excaliber, a subsidiary, an affiliate, or an Excaliber employee benefit plan, including any trustee of such plan acting as trustee) becoming the “beneficial owner” (as defined in Rule 13d-3 under the U.S. Securities Exchange Act of 1934, as amended), directly or indirectly, of securities of Excaliber representing 50% or more of the combined voting power of Excaliber’s then outstanding securities; (ii) a sale of substantially all of Excaliber’s assets; or (iii) any merger or reorganization of Excaliber whether or not another entity is the survivor, pursuant to which the holders of all the shares of capital stock of Excaliber outstanding prior to the transaction hold, as a group, fewer than 50% of the shares of capital stock of Excaliber outstanding after the transaction.

In the event that following termination of employment amounts are payable to an executive pursuant to his employment agreement, the executive’s eligibility for severance is conditioned on executive having first signed a release agreement.

Pursuant to their respective employment agreements, the estimated amount that could be paid by Excaliber assuming that a change of control occurred on the last business day of Excaliber’s current fiscal year, is \$347,500 for Mr. Singh, \$305,000 for Dr. Snodgrass, and \$260,000 for Mr. Rice, excluding the imputed value of accelerated vesting of incentive stock options.
