PART I

ITEM 1. BUSINESS

Background

We are a Florida corporation formed on April 8, 2001. We were organized to be a blank check company.

On December 16, 2003, Rosehill Investments Limited, a Seychelles corporation ("Rosehill"), acquired 11,937,200 shares of New England Acquisitions, Inc.'s ("Company") Common Stock ("Shares") pursuant to a Stock Purchase Agreement among Rosehill, the Company, Mr. Jonathan B. Reisman and Mr. Gary Cella (the "Agreement"). The Agreement provided for the Shares to be sold as follows: 9,234,520 shares from the Company; 1,379,600 shares from Mr. Reisman; and 1,323,100 shares from Mr. Cella. As a result of the stock sale, the Directors of the Company resigned and ultimately Mr. Harry Chauhan was appointed as the sole officer and director.

At that time there were 12,552,395 shares of common stock issued and outstanding.

On January 13, 2004, the Company amended its Articles of Incorporation to change its name from New England Acquisitions, Inc. to Atlantic Wine Agencies Inc.

On February 9, 2004, the Company's directors resigned and Mr. Harry Chauhan was appointed as the Company's sole Director and its President.

On March 1, 2004 the Company completed a 1-for-200 reverse capitalization without affecting the par value or authorized number of shares.

On May 4, 2004 the Company acquired all of the issued and outstanding shares of New Heights 560 Holdings LLC, a Cayman Islands limited liability corporation ("New Heights"), in exchange for One Hundred Million shares of its restricted common stock which is equal to 99.9% of the total outstanding shares of the Company's common stock (this transaction shall be referred to as the "Share Exchange"). New Heights owned the property in South Africa on which our vineyard operations are located.

Prior to the Share Exchange, the Company was engaged in the business of manufacturing and distributing various skin creams and generated minimal revenues as a result.

As a result of the Share Exchange, the Company had two wholly owned subsidiaries, Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited. Such companies owned a world class vineyard in the Stellenbosch region of Western Cape, South Africa. The vineyard and surrounding properties consisted of 80.9 hectares of arable land for viticultural as well as residential and commercial purposes. In the opinion of the management the site was a world class in terms of location, soil composition and future development potential.

Mount Rozier Estates (Pty) Limited and Mount Rozier Properties (Pty) Limited produced super premium quality wines on a boutique vineyard basis. We became a notable producer of quality wines from South Africa by further: (i) developing and expanding our wine cellar tasting facilities and upgrading vineyards through better crop management; (ii) enhancing our strategic distribution channels with various international agents and direct route to market channels; and (iii) brand development efforts.

The launch of the wines under new patent branded labeling and marketing occurred in the fourth fiscal quarter of 2004 in South Africa and the United Kingdom.

Our wines were initially issued in three tiers: Mount Rozier a top quality super premium single vineyard brand; Rozier Bay a mid price range wine; Rozier Reef and a mainstream market product. Such wines received several significant awards recently and we have built a significant regional route to market for sales which is on target with our early internal projections.

In September 2004, Mr. Adam Mauerberger became President of the Company and Chairman of the Board. Also in September the Company hired Mr. Andy Bayley to be the Senior Vice President of Sales and Marketing.

As an effort to reduce costs and centralize our operations due to securing an exclusive agency agreement with HBJ wines within the UK AWA INC. relocated all operations to South Africa as the main profit centre. This move resulted in substantial cost savings. At that time, however, the Company began contemplating a sale of some or all of its assets.

On October 13, 2006, we entered into an agreement with Auction Alliance, the South African auction firm, to sell its Myrtle Grove Property and Estates. Assets including land, vineyards, winery equipment and stock will be included in the auction sale. Our management has concluded that (i) after expending considerable resources and efforts in developing its business and building world class wine brands from South Africa, significantly more capital is necessary to further grow the business which the Company is unable to procure on commercially acceptable terms, (ii) The ZAR (South African Rand) has shown considerable volatility related to uncertainty regarding future political situation and (iii) the best time to maximize our South African property and operations is by selling through the public auction process locally in South Africa prior to the growing season in the southern hemisphere. The Company was unable to sell its business to any auction bidders because it could not agree on terms.

In anticipation of the sale of our assets, on January 11, 2008, we entered into an agreement with Sapphire Developments Limited (“Sapphire”) and Fairhurst Properties S.A. (“Fairhurst”) to restructure certain debt held by Sapphire (the “Debt Restructuring Agreement”). The Debt Restructuring Agreement was executed to address a November 16, 2005 loan to the Company by Sapphire of One Million Two Hundred Fifty-Nine Thousand Eight Hundred Sixty-Three U.S. Dollars (US\$1,259,863) with Five Percent (5%) interest calculated on an annualized basis pursuant a promissory note (“Promissory Note”). As of January 11, 2008, the balance due was One Million Three Hundred Eighty Eight Thousand Nine Hundred and Ninety Nine U.S. Dollars (US\$1,388,999). Sapphire agreed to terminate the Promissory Note and restructure its debt in exchange for the following consideration articulated in the Debt Restructuring Agreement:

- The Company agreed to pay Three Million Two Hundred Thousand South African Rand (R\$3,200,000) to Sapphire, an amount approximately equal to Four Hundred Sixty-Eight Thousand and Ninety Two U.S. Dollars (US\$468,092), in two installments. The first installment of One Million Two Hundred Thousand South African Rand (R\$1,200,000) was paid by the Company on January 11, 2008. The second installment of Two Million South African Rand (R\$2,000,000) was to be paid on or before January 31, 2008 but was extended pursuant to an agreement between the Company and Sapphire.
- The Company issued 26,699,950 restricted shares of the Company’s common stock (the “Shares”) to Sapphire in exchange for relief from \$533,999 of the debt underlying the Promissory Note.
- The Company, Sapphire and Fairhurst entered into a voting agreement concurrent with the Debt Restructuring Agreement (“Voting Agreement”).
- The Company issued a promissory note to Fairhurst for approximately \$400,000 without interest to mature on January 11, 2009.

Edgar Filing: Novo Energies Corp - Form 10-K

- Each of Sapphire and Fairhurst executed mutual releases.
- Fairhurst will ensure that Adam Mauerberger remain as the Chief Executive Officer of the Company until such time that a material merger or share exchange occurs (“Atlantic Corporate Event”).
- 19,960,000 shares of the Company’s common stock owned by Fairhurst (“Fairhurst Shares”) shall be transferred to Sapphire upon the earlier of the six-month anniversary date of the Debt Restructuring Agreement or the completion of an Atlantic Corporate Event.

On April 8, 2008, we issued a press release announcing that we had executed a letter of intent ("Letter of Intent") with Independence Energy Corporation, a privately held company located in Alberta, Canada (“IEC”), that set forth an agreement in principal for Atlantic to acquire all of IEC’s issued and outstanding common shares (“Acquisition”).

On May 5, 2008, the Board of Directors approved a 25:1 reverse stock split, which became effective May 19, 2008 due to IEC's inability to satisfy our due diligence concerns.

On July 8, 2008, we terminated the share exchange agreement that we had entered with IEC on May 16, 2008.

As described in the Company's notice mailed to its record shareholders on or about September 22, 2008, and as described in a current report filed with the U.S. Securities and Exchange Commission on September 22, 2008, holders of a majority of the Company's outstanding common stock executed a written consent in lieu of an Annual Meeting (the "Written Consent"), effecting an action to approve a material definitive agreement with Fairhurst Properties, S.A, known as the Split-Off Agreement, providing for the "Split-Off" of all of our interests in two wholly-owned subsidiaries, Mount Rozier Properties (Pty) Ltd. and Mount Rozier Estates (Pty) Ltd. These two former subsidiaries owned and operated all the assets of our now former business including a vineyard in the Stellenbosch region of Western Cape, South Africa consisting of 70.9 hectares of arable land for viticultural as well as residential and commercial purposes.

In exchange for our interests in these two subsidiaries, with assets of approximately \$2,123,688, as of June 30, 2008, Fairhurst Properties forgave debt of approximately \$350,000 and assume liabilities of approximately \$1,520,276, as of June 30, 2008. As part of the Split-Off and the assumption of the subsidiaries' liabilities, we transferred to Fairhurst our interest in intercompany loans and all amounts owed by the subsidiaries to us including, but not limited to, loans in the amount of approximately R12,521,900, or \$1,615,729, (as of March 31, 2008) to Mount Rozier Properties (Pty) Limited and approximately R8,500,431, or \$ 1,096,829, (as of March 31, 2008) to Mount Rozier Estates (Pty) Limited (the "Loans"). The Split-Off contemplated by the Split-Off Agreement occurred on the date of the Split-Off Agreement.

Also on September 22, 2008, Lusierna Asset Management Ltd. ("Lusierna") obtained a controlling interest in our common shares. Lusierna is an affiliate of Antonio Treminio who, as described below, has become our sole director, Chief Financial Officer and Chief Executive Officer.

Lusierna obtained an interest in approximately 50% of our common stock pursuant to a Stock Purchase Agreement between Lusierna, and Sapphire Development Ltd., Crayson Properties Ltd. and Fairhurst Properties S.A (the "Sellers"). Under the Share Purchase Agreement, the Sellers sold 2,310,086 shares of our common stock in exchange for \$200,000.

Effective October 6, 2008, Adam Mauerberger resigned as a member of our Board of Directors and as our President, Chief Executive Officer and Chief Financial Officer. The resignations of Mr. Mauerberger were not the result of any disagreement with us on any matter relating to our operations, policies or practices.

Effective October 6, 2008, our Board of Directors appointed Antonio Treminio as director and as our President, Chief Executive Officer and Chief Financial Officer, filling the vacancies that existed as a result of Mr. Mauerberger's resignation. The appointments of Mr. Treminio were not pursuant to any agreement or understanding between Mr. Treminio and any third party. Mr. Treminio is an affiliate of Lusierna Asset Management Ltd that, as described above, has gained control of our company.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

It should be noted that this Management's Discussion and Analysis of Financial Condition and Results of Operations may contain "forward-looking statements." The terms "believe," "anticipate," "intend," "goal," "expect," and similar expressions may identify forward-looking statements. These forward-looking statements represent the Company's current expectations or beliefs concerning future events. The matters covered by these statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those set forth in the forward-looking statements, including the Company's dependence on weather-related factors, introduction and customer acceptance of new products, the impact of competition and price erosion, as well as supply and manufacturing restraints and other risks and uncertainties. The foregoing list should not be construed as exhaustive, and the Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements, or to reflect the occurrence of anticipated or unanticipated events. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation that the strategy, objectives or other plans of the Company will be achieved. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$8,846,157 since inception and has negative working capital of \$111,754. Management's plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon its financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to bad debts, income taxes and contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Recent Accounting Pronouncements Affecting the Company:

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 157 establishes a common definition for fair value to be applied to US GAAP guidance requiring the use of fair value, establishes a framework for measuring fair value, and expands the disclosure about such fair value measurements. The application of SFAS No. 157 as it relates to financial assets and financial liabilities is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. On February 12, 2008, the FASB issued FSP FAS 157-2,

"Effective Date of FASB Statement No. 157," which delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on at least an annual basis, to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The Company's adoption of SFAS No. 157 on February 3, 2008 for all financial assets and liabilities and any other assets and liabilities that are recognized or disclosed at fair value on a recurring basis did not impact the Company's consolidated financial statements. The provisions of SFAS No. 157 are to be applied prospectively as of the beginning of the fiscal year in which it is applied, with any transition adjustment recognized as a cumulative effect adjustment to the opening balance of retained earnings. The Company does not anticipate that the adoption of SFAS No. 157 for nonfinancial assets and liabilities measured at fair value on a non-recurring basis will have a material impact on its financial position and results of operations.

In February, 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (“SFAS 159”). SFAS 159 allows entities to measure at fair value many financial instruments and certain other assets and liabilities that are not otherwise required to be measured at fair value. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company adopted SFAS 159 on January 1, 2008. Adoption of SFAS 157 did not have a material impact on the Company results of operations, cash flows or financial position.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations. This standard establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and non-controlling interest in the acquiree and the goodwill acquired. This statement also establishes disclosure requirements which will enable users to evaluate the nature

and financial effects of the business combination. SFAS No. 141R is effective for acquisitions made after November 30, 2009. The Company is currently evaluating the potential impact, if any, that the adoption of SFAS No. 141R will have on its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. This standard outlines the accounting and reporting for ownership interest in a subsidiary held by parties other than the parent. SFAS No. 160 is effective for the first quarter of 2010. The Company is currently evaluating the potential impact, if any, the adoption of SFAS No. 160 will have on its consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles. SFAS No. 162 became effective in November 2008. Its adoption is not expected to have a material impact on the Company's consolidated financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors
Novo Energies Corporation
Montreal, Canada

We have audited the accompanying balance sheets of Novo Energies Corporation as of March 31, 2009 and 2008 and the related statements of operations, stockholders' deficit, and cash flows for each of the years in the two-year period ended March 31, 2009. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Novo Energies Corporation as of March 31, 2009 and 2008, and the results of its operations and its cash flows for each of the years in the two-year period ended March 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note A to the financial statements, the Company incurred a net loss from continuing operations of \$513,587 in 2009 and had an accumulated deficit of \$8,846,157 at March 31, 2009, and there are existing uncertain conditions the Company faces relative to its' ability to obtain capital and operate successfully. These conditions raise substantial doubt about its' ability to continue as a going concern. Management's plans regarding these matters are also described in Note A. The financial statements do not include any adjustments that may result from the outcome of this uncertainty.

NOVO ENERGIES CORPORATION
(FORMERLY AUSTRALIAN FOREST INDUSTRIES, INC. AND SUBSIDIARIES)

NOTES TO FINANCIAL STATEMENTS
March 31, 2009

NOTE A – NATURE OF BUSINESS AND GOING CONCERN

Nature of Business

Novo Energies Corporation (“Novo”) formerly known as Atlantic Wine Agencies, Inc. (“Atlantic”) is organized under the laws of the State of Florida. Novo is commencing to develop a new process to transform plastic and tire waste products into liquid fuels such as diesel, gasoline and fuel additives combining thermolysis and gasification among other processes. Atlantic had vineyards and a winery in South Africa. The operations of Atlantic were spun-out to the stockholders in September 2008 and a change of control occurred on October 7, 2008.

Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$8,846,157 since inception and has negative working capital of \$111,754. Management’s plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company’s ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE B – CHANGE OF CONTROL

Lusierna Asset Management Ltd. (“Lusierna”) has obtained a controlling interest in the Company’s common shares. Lusierna is an affiliate of Antonio Treminio who became the Company’s new sole Director, President, Chief Executive Officer and Chief Financial Officer on October 7, 2008. Lusierna obtained an interest in approximately 50% of the Company’s common stock pursuant to a stock purchase agreement between Lusierna and Sapphire Development Ltd., Crazson Properties, Ltd. and Fairhurst Properties S.A. (“the Sellers”). Under the Share Purchase Agreement, the Sellers sold 2,310,086 shares of the Company’s common stock in exchange for \$200,000.

NOTE C – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

March 31, 2009

NOTE C – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign Currency Translation

For 2008 and prior to the spin-out of its wholly owned foreign subsidiaries, the Company considered the South African Rand to be its functional currency. Assets and liabilities were translated into US dollars at year-end exchange rates. Statement of operations amounts were translated using the average rate during the year. Gains and losses resulting from translating foreign currency financial statements were included in accumulated other comprehensive gain or loss, a separate component of stockholders' deficit.

Cash Equivalents

For purposes of reporting cash flows, cash equivalents include investment instruments purchased with an original maturity of three months or less. There were no cash equivalents in 2009 or 2008.

Equipment and Depreciation

Equipment is stated at cost and is depreciated using the straight line method over the estimated useful lives of the respective assets. Routine maintenance, repairs and replacement costs are expensed as incurred and improvements that extend the useful life of the assets are capitalized. When equipment is sold or otherwise disposed of, the cost and related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is recognized in operations. The Company disposed all of its property and equipment during 2008.

Consolidated Financial Statements

The financial statements previously included its wholly owned subsidiaries where all significant intercompany transactions and balances were eliminated in consolidation. As mentioned in Note A, the company spun-out the operations of Atlantic to the principal shareholders and Directors, personally. Subsequent to this transfer, the Company did not have any subsidiaries.

Net Loss Per Common Share

The Company computes per share amounts in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share". SFAS No. 128 requires presentation of basic and diluted EPS. Basic EPS is computed by dividing the income (loss) available to Common Stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of Common Stock and Common Stock equivalents outstanding during the periods. A fully diluted calculation was not presented since the results would be anti-dilutive.

Stock Based Compensation

The Company accounts for stock issued for services using the fair value method. In accordance with the Emergency Issues Task Force (“EITF”) 96-18, the measurement date of shares issued for service is the date at which the counterpart’s performance is complete.

NOTES TO FINANCIAL STATEMENTS

NOTE C – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Values of Financial Instruments

The Company uses financial instruments in the normal course of business. The carrying values of accrued expenses approximate their fair value due to the short-term maturities of these liabilities.

Revenue Recognition

The Company's former business activities were in the production and sale of premium wines. Revenue was recognized when pervasive evidence of an arrangement existed, delivery had occurred, fee was determinable and collectability was probable.

Income Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"). SFAS 109 requires the determination of deferred tax assets and liabilities based on the differences between the financial statement and income tax bases of assets and liabilities, and using estimated tax rates in effect for the year in which the differences are expected to reverse. The measurement of a deferred tax asset is adjusted by a valuation allowance, if necessary, to recognize tax benefits only to the extent that, based on available evidence, it is more likely than not that they will be realized. In determining the valuation allowance, the Company considers factors such as the reversal of deferred income tax liabilities, projected taxable income and the character of income tax assets and tax planning strategies. A change to these factors could impact the estimated valuation allowance and income tax expense.

Effective January 1, 2007, the Company adopted the provisions of FIN 48, which clarifies the accounting for income tax positions by prescribing a minimum recognition threshold that a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on the derecognition of previously recognized deferred tax items, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. Under FIN 48, the Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the tax position. The tax benefits recognized in the consolidated financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate resolution. Adoption of FIN 48 did not have a material impact on the Company's operations or financial condition.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). SFAS No. 157 establishes a common definition for fair value to be applied to US GAAP guidance requiring the use of fair value, establishes a framework for measuring fair value, and expands the disclosure about such fair value measurements. The application of SFAS No. 157 as it relates to financial assets and financial liabilities is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. On February 12, 2008, the FASB issued FSP FAS 157-2,

"Effective Date of FASB Statement No. 157," which delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on at least an annual basis, to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The Company's adoption of SFAS No. 157 on February 3, 2008 for all financial assets and liabilities and any other assets and liabilities that are recognized or disclosed at fair value on a recurring basis did not impact the Company's consolidated financial statements. The provisions of SFAS No. 157 are to be applied prospectively as of the beginning of the fiscal year in which it is applied, with any transition adjustment recognized as a cumulative effect adjustment to the opening balance of retained earnings. The Company does not anticipate that the adoption of SFAS No. 157 for nonfinancial assets and liabilities measured at fair value on a non-recurring basis will have a material impact on its financial position and results of operations.

In February, 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ("SFAS 159"). SFAS 159 allows entities to measure at fair value many financial instruments and certain other assets and liabilities that are not otherwise required to be measured at fair value. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company adopted SFAS 159 on January 1, 2008. Adoption of SFAS 157 did not have a material impact on the Company results of operations, cash flows or financial position.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations. This standard establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and non-controlling interest in the acquiree and the goodwill acquired. This statement also establishes disclosure requirements which will enable users to evaluate the nature and financial effects of the business combination. SFAS No. 141R is effective for acquisitions made after November 30, 2009. The Company is currently evaluating the potential impact, if any, that the adoption of SFAS No. 141R will have on its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. This standard outlines the accounting and reporting for ownership interest in a subsidiary held by parties other than the parent. SFAS No. 160 is effective for the first quarter of 2010. The Company is currently evaluating the potential impact, if any, the adoption of SFAS No. 160 will have on its consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles. SFAS No. 162 became effective in November 2008. Its adoption is not expected to have a material impact on the Company's consolidated financial statements.

Responsibility for Internal Controls — Management is also responsible for establishing and maintaining adequate internal controls over financial reporting. These internal controls consist of policies and procedures that are designed to assess and monitor the effectiveness of the control environment including: risk identification, governance structure, delegations of authority, information flow, communications and control activities. While no system of internal controls can ensure elimination of all errors and irregularities, Novo Energies Corporation's internal controls, which are reviewed and modified in response to changing conditions, have been designed to provide reasonable assurance that assets are safeguarded, policies and procedures are followed, transactions are properly executed and reported, and appropriate disclosures are made. The concept of reasonable assurance is based on the recognition that there are limitations in all systems of internal control and that the costs of such systems should be balanced with their benefits.

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting.
