NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## NOTE 1 –BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of CMG Holdings, Inc. (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes contained in its 2009 annual report on Form 10-K. In the opinion of management, these interim financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Our future results of operations may change materially from the historical results of operations reflected in our historical financial statements. The unaudited consolidated financial statements should be read in conjunction with the historical audited consolidated financial statements and footnotes of the Company and management’s discussion and analysis of financial condition and results of operations included in the Company’s Annual Report for the year ended December 31, 2009 as filed with the Securities and Exchange Commission on Form 10-K. Notes to the financial statements that would substantially duplicate the disclosure contained in the audited financial statements for fiscal year 2009, as reported in the Form 10-K, have been omitted.

## Principles of consolidation

The consolidated financial statements include the accounts of CMG Holdings, Inc., CMG Acquisition, Inc., CMGO Capital, Inc., The Experiential Agency, Inc, Audio Eye, Inc., CMGO Logistics, Inc. and Creative Management Group, Inc. after elimination of all significant inter-company accounts and transactions.

## Earnings per share

Basic earnings per share is calculated by dividing net income available to common stockholders by the weighted average number of shares of the Company’s common stock outstanding during the period. Diluted earnings per share reflect the potential dilution that could occur if the Company’s share-based awards were exercised into common stock. The dilutive effect of our share-based awards is computed using the treasury stock method, which assumes all share-based awards are exercised and the hypothetical proceeds from exercise are used to purchase common stock at the average market price during the period. The incremental shares (difference between shares assumed to be issued versus purchased), to the extent they would have been dilutive, are included in the denominator of the diluted EPS calculation. The following represents a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations:

	Six Months Ended June 30, 2010			Six Months Ended June 30, 2009

Restatement of Prior Period

In the third quarter of fiscal 2009, the Company's management determined that \$100,000 of notes payable with 1 million warrants attached to the notes were not recorded during the six months ended June 30, 2009. The note matured on June 15, 2009 and additional \$50,000 in fees and 400,000 warrants were issued to the note holder as of June 30, 2009 but not timely recorded as originally filed. The adjustment to correct the above resulted in an increase in liability of \$150,000 to record the notes and fees, \$57,500 in additional paid-in-capital to record the fair value of the 1.4 million warrants and \$107,500 in interest expense.

In the fourth quarter of fiscal 2009, the Company's management determined that there were errors in the accounting for the acquisition of The Experiential Agency, Inc, which resulted in the overstatement of intangibles, accounts receivable and the bargain purchase gain and an understatement in revenue for the six months ended June 30, 2009. The adjustment to correct the above resulted in an increase to revenue of \$771,245 and a decrease in assets and bargain purchase gain of \$85,872 and \$957,117 respectively.

Therefore, the Company is adjusting its previously reported June 30, 2009 consolidated statements of operations and cash flows in this June 30, 2010 quarterly filing. The following tables reflect the impact of the above errors to the consolidated statements of operations for the three and six months ended June 30, 2009:

## NOTE 2: GOING CONCERN

As shown in the accompanying financial statements, the Company has an accumulated deficit and a working capital deficit as of June 30, 2010. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. In response to these conditions, the Company has raised additional capital through the sale of equity securities, through an offering of debt securities or through borrowings from financial institutions or individuals. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

## NOTE 3: ACQUISITIONS

On March 31, 2010, the Company acquired all outstanding shares of Audio Eye, Inc. in exchange for \$30,000 cash, 1.5 million shares, warrants to purchase 250,000 shares at an exercise price of \$0.07 per share and a term of 5 years plus other contingent consideration. Audio Eye develops patented internet content publication and distribution software enabling conversion of any media into accessible formats and allowing for real time distribution to end users on any internet connected device. With this acquisition, the Company expects to be a leading provider in the Internet content publication and distribution software enabling the conversion of any media into accessible formats and allows for real time distribution to end users on any network connected device.

The fair value of consideration transferred in the acquisition, the assets acquired and the liabilities assumed are set forth in the following table:

Consideration:	
Cash (1)	\$ 30,000
Common stock (2)	60,000
Warrants to purchase common stock (3)	10,000
Contingent consideration (4)	-
Total consideration	\$ 100,000

Recognized amount of identifiable assets acquired and liabilities assumed :	
Cash	\$ 3,217
Accounts receivable	196,119
Property and equipment	294,387
Other assets	32,500
Accounts payable	(18,500 )
Accrued liabilities	(1,964 )
Total identifiable net assets and liabilities assumed	\$ 505,759
Bargain purchase gain (5)	\$ 405,579

- (1) This was paid on April 1, 2010 and as such as of March 31, 2010, the Company recognized this as a liability which is reported as "Due to sellers" in the consolidated balance sheets.
- (2) The fair value of the 1.5 million shares was determined based on the closing price at the acquisition date.
- (3) The fair value of the 250,000 warrants were determined using a Black-Scholes option valuation model using the following key assumptions: exercise price of \$0.07 per share, stock price of \$0.04, term of 5 years, expected volatility of 343% and a discount rate of 2.55%
- (4) The contingent consideration is based on the average net income of Audio Eye over a period of 4 years starting in 2010 after applying a multiple based on the average growth rate less any amounts of working capital contributions made by the Company to Audio Eye. The amount of working capital contribution to be made by the Company is a combination of a fixed amount of \$470,000 plus a deferred working capital contribution payable within a period of 3 years and is based on the greater of Audio Eye's achievement of certain sales targets or \$1,000,000. The fair value of the contingent consideration was determined based on Audio Eye's projected net

income from 2010 and 2013 and the application of a discount rate to the future payment to be made. After deducting the amount of working capital contribution, the amount of contingent consideration was deemed to be zero. At the end of each reporting period after the acquisition date, the contingent payment will be remeasured to its fair value, with changes in fair value recorded in earnings.

- (5) The amount of bargain purchase gain recognized is provisional pending receipt of the final valuation of all identifiable assets acquired.

---

On March 6, 2009, the Company, through a newly formed wholly owned subsidiary CMGO Capital, Inc., a Nevada corporation, completed a Note Purchase Agreement with Bank of America to purchase the senior secured debt obligations of The Experiential Agency, Inc. The purchase price of the Note Purchase Agreement with Bank of America to purchase the senior secured debt obligations of The Experiential Agency, Inc. was a total of \$150,000. CMG also loaned The Experiential Agency, Inc. \$100,000 in March 2009 which has been accounted for as part of the purchase price. On April 1, 2009, CMG Holdings, Inc. foreclosed on the note and completed the acquisition of the assets of The Experiential Agency, Inc.

Unaudited pro forma operation results for the six months ended June 30, 2010 and 2009, as though the Company had acquired Audio Eye and The Experiential Agency, Inc. on the first day of fiscal year 2009, are set forth below. The unaudited pro forma operating results are not necessarily indicative of what would have occurred had the transaction take place on the first day of fiscal year 2009.

	Pro Forma	
	Six months ended June 30	
	2010	2009
Revenues	\$ 2,923,955	\$ 2,689,489
Cost of revenues	(1,438,301)	(924,737)
Operating expenses	(2,256,902)	(2,269,536)
Other income	315,608	78,304
Net loss	\$ (455,640)	\$ (426,480)

#### NOTE 4: DEBT

During three months ended June 30, 2010, the Company borrowed \$1,075,000 under five 13% Senior Secured Convertible Extendible Notes from third parties that will mature on July 1, 2011. Provided that the Company is not in default, the Company has the option to extend the maturity date of the notes for three months by paying an extension fee of 5% of the principal amounts. In the event of default, the annual interest rate increases to 18%. The notes are convertible into common shares at any time after the maturity date at \$0.10 per share. In connection with the issuance of the notes, the Company issued warrants to purchase 5,375,000 common shares. The warrants have an exercise price of \$0.10 per share and a term of 7 years. The conversion price of the notes and the exercise price of the warrants contain reset provisions. If the closing market price of the stock is less than the conversion and exercise price for a period of 90 consecutive trading days, then the conversion and exercise price in effect shall be reduced to the closing market price on such 90th trading days but both conversion and exercise price shall not be reduced to less than \$0.07 per share. The notes are secured by a security interest in all of the assets of the Company and its subsidiaries. The relative fair value of these warrants was calculated using Black-Scholes Model using these assumptions (1) 2.4% to 3.3% discount rate, (2) warrant life of seven years (3) expected volatility of 343% to 347% and (4) zero expected dividend. The relative fair value of the warrants was determined to be \$142,931 and was recorded as a debt discount. The debt discount is being amortized and recorded as interest expense over the term of the notes using the effective interest method. Amortization for the six months ended June 30, 2010 was \$19,384.

In connection with the above transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 1,397,000 common shares. The fair value of these warrants was calculated using Black-Scholes Model using these assumptions (1) 2.4% to 3.3% discount rate, (2) warrant life of seven years (3) expected volatility of 343% to 347% (4) zero expected dividend. The fair value of the warrants was determined to be \$43,127 and was recorded as a deferred financing cost. The total deferred financing cost which includes the \$107,500 of placement agent fees is being amortized and recorded as interest expense over the term of the note using the effective interest method. Amortization for the six months ended June 30, 2010 was \$21,631.

We analyzed the convertible note and warrants issued for derivative accounting consideration and determined that derivative accounting is not applicable for these instruments.

On April 1, 2010, the Company fully paid its \$125,000 loan to JT Ventures, LLC.

Exercised	-	-
Forfeited	-	-
June 30, 2010	9,442,500	\$ 0.08

The warrants have a weighted average remaining life of 6.4 years and an aggregate intrinsic value of \$86,400.

## NOTE 6: COMMITMENTS AND CONTINGENCIES

On January 1, 2010, the Company and its executive management entered into employment agreements, effective up to 2016, regarding base salary compensation, incentive bonus consideration and expense reimbursement. The agreements provide for the deferral of payment of a portion of the annual base salary until such time that the Company has sufficient working capital, but in no case later than December 31, 2012. The agreements also provide that the bonus consideration and expense reimbursement shall be earned upon achievement of certain performance conditions. The executives have the option to convert the deferred base salary and any incentive bonuses and expense reimbursements earned to common stock at a conversion price that is based on the one hundred eighty (180) day average closing price of the Company's stock prior to the conversion.

On May 19, 2010, the above agreements were amended to reflect a conversion price that will be based on the one hundred and eighty (180) day average closing price of the Company stock prior to the conversion but not to exceed \$1.00 or below \$0.10.

## NOTE 7: SEGMENTS

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2010 AND 2009

Gross revenues decreased from \$1,845,357 for the three months ended June 30, 2009 to \$1,567,654 for the three months ended June 30, 2010. The decrease in revenues is mainly due to the delay in the generation of new business related to Creative Management Group and the implementation activity of new business associated with the purchase of Audio Eye, Inc. The new business for Audio Eye is forecasted to be reflective into the remainder of the calendar year. The decrease in revenues generated is offset from the event marketing, public relations, consulting business of, The Experiential Agency, Inc. ("XA"), a wholly-owned subsidiary acquired in the second quarter of 2009 that has build up new business pipeline of new clients.

Cost of revenues increased from \$454,400 for the three months ended June 30, 2009 to \$729,295 for the three months ended June 30, 2010. The increase is mainly due to the new business generated from the event marketing, public relations, consulting business of The Experiential Agency, Inc. ("XA"), a wholly-owned subsidiary acquired in the second quarter of 2009 that has build up new business pipeline of new clients. The increase in cost of revenue also includes three months of activity of new business generation regarding the purchase of Audio Eye, Inc forecasted to generate revenues into the remainder of the calendar year.

Operating expenses decreased from \$1,226,602 for the three months ended June 30, 2009 to \$1,223,270 for the three months ended June 30, 2010. The decrease in operating expenses is mainly due to decreased personnel for Creative Management Group and reduced marketing, professional fees at public relations, consulting business of XA. This decrease in operating expenses are offset by the inclusion of additional personnel from the purchase of Audio Eye, Inc.

The net income decreased from \$189,300 for the three months ended June 30, 2009 to a net loss of \$459,662 for the three months ended June 30, 2010. This is mainly due to the decrease in revenues due to delay in implementation activity of new business associated with the purchase of Audio Eye, Inc. and the delay in the generation of new business related to Creative Management Group. The new business for Audio Eye and Creative Management is forecasted to be reflected in the remainder of the calendar year. The decrease in net income generated is offset by the event marketing, public relations, consulting business of, The Experiential Agency, Inc. ("XA"), a wholly-owned subsidiary acquired in the second quarter of 2009 that has build up new business pipeline of new clients.

#### SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth as of August 20, 2010, information with respect to the beneficial ownership of the Company's Common Stock by (i) each person known by the Company to own beneficially 5% or more of such stock, (ii) each Director of the Company who owns any Common Stock, and (iii) all Directors and Officers as a group, together with their percentage of beneficial holdings of the outstanding shares. The information presented below regarding beneficial ownership of our voting securities has been presented in accordance with the rules of the Securities and Exchange Commission and is not necessarily indicative of ownership for any other purpose. Under these rules, a person is deemed to be a "beneficial owner" of a security if that person has or shares the power to vote or direct the voting of the security or the power to dispose or direct the disposition of the security. A person is deemed to own beneficially any security as to which such person has the right to acquire sole or shared voting or investment power within 60 days through the conversion or exercise of any convertible security, warrant, option or other right. More than one person may be deemed to be a beneficial owner of the same securities. The percentage of beneficial ownership by any person as of a particular date is calculated by dividing the number of shares beneficially owned by such person, which includes the number of shares as to which such person has the right to acquire voting or investment power within 60 days, by the sum of the number of shares outstanding as of such date plus the number of shares as to which such person has the right to acquire voting or investment power within 60 days. Consequently, the denominator used for calculating such percentage may be different for each beneficial owner. Except as otherwise indicated below and under applicable community property laws, we believe that the beneficial owners of our common stock listed below have sole voting and investment power with respect to the shares shown.

## ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK FACTORS

## RISKS RELATED TO OUR BUSINESS

## CURRENT ECONOMIC CONDITIONS AND THE GLOBAL FINANCIAL CRISIS MAY HAVE AN IMPACT ON OUR BUSINESS AND FINANCIAL CONDITION IN WAYS THAT WE CURRENTLY CANNOT PREDICT

The global economy has experienced a significant contraction, with an unprecedented lack of consumer credit within the credit markets and the shift away from discretionary spending within the marketing, communications. The decrease in the economic activity in the United States and in the commercial sectors in which we conduct business could adversely affect our financial condition and results of operations. Continued tightness within the credit markets, volatility, instability and economic weakness of our clients marketing budgets and decrease in discretionary consumer spending associated with our clients business spending may result in a reduction in our revenues.

## BUSINESS COULD BE ADVERSELY AFFECTED IF IT LOSES KEY CLIENTS AND KEY MANAGEMENT

The Company's loss of one or more significant clients could materially affect results of the Company on a consolidated basis. Our Management is critically important to ongoing results of the Company because, as in any service business, success of the Company is mainly dependent upon the leadership of key executives and management. If key executives were to leave any of our operating divisions, the relationships that the Company has with its clients could be adversely affected.

#### COMPETITION FOR CLIENTS IN HIGHLY COMPETITIVE INDUSTRIES

The Company operates in a very competitive industry characterized by numerous firms of varying sizes, with no group of firms having dominant positions in the marketplace. Competitive factors include creative expertise, executive management's, personal relationships, quality and reliability of service and expertise in particular niche areas of the marketplace. In addition, our company's principal asset is its people, barriers to entry are minimal, and relatively small firms may be on occasion able to take some portion of a client's business from a larger competitor. While many of the Company's client relationships are long-standing, clients may at times place their marketing services businesses up for competitive review from time to time, including at times when clients enter into strategic transactions. To the extent that the Company fails to maintain existing clients or attract new clients, the Company's business, financial condition and operating results may be affected in a materially adverse manner.

#### ABILITY TO GENERATE NEW BUSINESS FROM NEW AND EXISTING CLIENTS MAY BE LIMITED

To increase revenues, the Company needs to obtain additional clients, generate demand for additional services from existing clients and partner with external marketing firms to mutually service as single or multiple of clients. The company's ability to generate demand for its services from new clients, additional demand from existing clients partner with external marketing firms to mutually service as single or multiple of clients is subject to clients' requirements, pre-existing vendor relationships, financial condition, strategic plans and internal resources, as well as the quality of the Company's employees, services and reputation and the breadth of its services. To the extent the Company cannot generate new business from new and existing clients due to these limitations; it will limit the Company's ability to grow its business and to increase its revenues.

#### REVENUES ARE SUSCEPTIBLE TO DECLINES AS A RESULT OF GENERAL ADVERSE ECONOMIC DEVELOPMENTS

The marketing communications services industry is cyclical and is subject to the negative effects of economic downturns. The Company's marketing services operations are also exposed to the risk of clients changing their business plans and/or reducing their marketing budgets. As a result, if the U.S. markets and economies continue to weaken, our businesses, financial condition and gross revenues are likely to be negatively affected may be suspect to declines from quarter to quarter or from year to year.

#### BENEFITS EXPECTED FROM CURRENT ACQUISITION OR PRIOR ACQUISITIONS MADE IN THE FUTURE MAY NOT BE REALIZED

The Company's business strategy includes ongoing efforts to engage in material acquisitions of ownership interests in entities in the marketing communications services industry. The Company intends to finance these acquisitions by using any available cash from operations, through incurrence of debt or bridge financing or by issuing equity, which may have a dilutive impact on its existing shareholders. At any given time the Company may be engaged in a number of discussions that may result in one or more material acquisitions. These opportunities require confidentiality and may involve negotiations that require quick responses by the Company. Although there is uncertainty that any of these discussions will result in definitive agreements or the completion of any transactions, the announcement of any such transaction may lead to increased volatility in the trading price of its securities.

The success of acquisitions or strategic investments depends on the effective integration of newly acquired businesses into the Company's current operations. Such integration is subject to risks and uncertainties, including realization of anticipated synergies and cost savings, the ability to retain and attract personnel and clients, the diversion of management's attention from other business concerns, and undisclosed or potential legal liabilities of the acquired company. The Company may not realize the strategic and financial benefits that it expects from any of its past acquisitions, or any future acquisitions.

-6-

---

#### BUSINESS COULD BE ADVERSELY AFFECTED IF IT LOSES OR FAILS TO ATTRACT KEY EMPLOYEES

Our executive management and our employees, including creative, research, media, account and their skills and relationships with clients, are among the Company's most critically important assets. An important aspect of the Company's competitiveness is its ability to retain key employee and executive management. The compensation for these key employees is an essential factor in attracting and retaining them and the Company may not offer a level of compensation sufficient to attract and retain these key employees. If the Company fails to hire and retain a sufficient number of these key employees, it may not be able to compete effectively.

#### BUSINESS EXPOSED TO THE RISK OF CLIENT MEDIA ACCOUNT DEFAULTS

The Company often incurs expenses on behalf of its clients in order to secure a variety of opportunities in exchange for which it receives a fee. While the Company acts to prevent against default on payment for these services and have historically had a very low incidence of default, the Company is still exposed to the risk of significant uncollectible receivables from our clients.

#### SUBJECT TO REGULATIONS THAT COULD RESTRICT ITS ACTIVITIES OR NEGATIVELY IMPACT ITS REVENUES

Marketing communications businesses are subject to government regulation, both domestic and foreign. There has been an increasing tendency in the United States on the part of advertisers to resort to litigation and self-regulatory bodies to challenge comparative advertising on the grounds that the advertising is false and deceptive. Moreover, there has recently been an expansion of specific rules, prohibitions, media restrictions, labeling disclosures and warning requirements with respect to advertising for certain products. Representatives within government bodies, both domestic and foreign, continue to initiate proposals to ban the advertising of specific products and to impose taxes on or deny deductions for advertising which, if successful, may have an adverse effect on advertising expenditures and consequently the Company's revenues.

#### COMPANY DIRECTORS AND EXECUTIVE OFFICERS BENEFICIALLY OWN A SUBSTANTIAL PERCENTAGE OF THE COMPANY'S OUTSTANDING COMMON STOCK, WHICH GIVES THEM CONTROL OVER CERTAIN MAJOR DECISIONS ON WHICH STOCKHOLDERS MAY VOTE, WHICH MAY DISCOURAGE AN ACQUISITION OF THE COMPANY

In the aggregate, the directors and executive officers as a group collectively own approximately 35% of the Company's outstanding shares. The interests of the Company's management may differ from the interests of other stockholders and as a result, the Company's executive management may have the ability to control virtually all corporate actions requiring stockholder approval, irrespective of how the Company's other stockholders may vote, including electing or defeating the election of directors; amending or preventing amendment of the Company's certificate of incorporation or bylaws; effecting or preventing a merger, sale of assets or other corporate transaction; and controlling the outcome of any other matter submitted to the stockholders for vote. The Company's management's stock ownership may discourage a potential acquirer from seeking to acquire shares of the Company's common stock or otherwise attempting to obtain control of the Company, which in turn could reduce the Company's stock price or prevent the Company's stockholders from realizing a premium over the Company's stock price.

#### OUTSTANDING INDEBTEDNESS; SECURITY INTEREST AND UNREGISTERED SALES OF EQUITY SECURITIES

On April 1, 2010, the Company entered into a Note Purchase Agreement with CMGO Investors, LLC, a Delaware limited liability company, providing for the sale and issuance of (i) \$725,000 of its 13% Senior Secured Convertible Extendible Notes due 2011 and (ii) warrants to purchase 3,625,000 shares of the Company's Common

The warrants are exercisable for seven years at an exercise price of \$0.10 per share. The conversion price of the Notes and the exercise price of the warrants will be adjusted in connection with stock splits, dividends, mergers, reclassifications and similar transactions. In addition, if at any time the closing market price of the Common Stock is less than the conversion price or exercise price for a period of 90 consecutive trading days, then the conversion price or exercise price in effect shall be reduced to the closing market price of the Common Stock on such 90th trading day; provided that in no event shall the conversion price or exercise price be reduced to less than \$0.07 per share pursuant to this provision. The investors also received certain registration rights pursuant to a Registration Rights Agreement. In connection with this transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 195,500 shares of Common Stock. The sale of securities discussed above was made solely to accredited investors and was exempt from registration under Section 4(2) and/or Rule 506 of Regulation D of the Securities Act of 1933, as amended.

On June 18, 2010, the Company entered into a Note Purchase Agreement with CMGO Investors, LLC, a Delaware limited liability company, providing for the sale and issuance of (i) \$50,000 of its 13% Senior Secured Convertible

Extendible Notes due 2011 and (ii) warrants to purchase 250,000 shares of the Company's Common Stock. The Note bears interest at a rate of 13% per annum payable quarterly. The entire amount of the Note, together with all accrued but unpaid interest thereon, is due and payable in full on September 18, 2011; provided that, so long as there is no continuing Event of Default, the Company may in its sole discretion extend the Maturity Date for a period of three months by paying an extension fee equal to 5% of the principal amount of the outstanding Notes. In the event of Default on the Note, the Note shall bear interest at the rate per annum equal to 18%. The Notes rank senior in right of payment with all indebtedness of the Company, whether currently existing or issued in the future. The Notes are secured by a security interest in all of the assets of the Company and the Company's subsidiaries pursuant to a Security Agreement and Subsidiary Guarantee. The Notes are convertible into shares of Common Stock of the Company at any time after the Maturity Date at an initial conversion price of \$0.10 per share. The warrants are exercisable for seven years at an exercise price of \$0.10 per share. The conversion price of the Notes and the exercise price of the warrants will be adjusted in connection with stock splits, dividends, mergers, reclassifications and similar transactions. In addition, if at any time the closing market price of the Common Stock is less than the conversion price or exercise price for a period of 90 consecutive trading days, then the conversion price or exercise price in effect shall be reduced to the closing market price of the Common Stock on such 90th trading day; provided that in no event shall the conversion price or exercise price be reduced to less than \$0.07 per share pursuant to this provision. The investors also received certain registration rights pursuant to a Registration Rights Agreement. In connection with this transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 65,000 shares of Common Stock. The sale of securities discussed above was made solely to accredited investors and was exempt from registration under Section 4(2) and/or Rule 506 of Regulation D of the Securities Act of 1933, as amended.

On June 30, 2010, the Company entered into a Note Purchase Agreement with CMGO Investors, LLC, a Delaware limited liability company, providing for the sale and issuance of (i) \$20,000 of its 13% Senior Secured Convertible Extendible Notes due 2011 and (ii) warrants to purchase 125,000 shares of the Company's Common Stock. The Note bears interest at a rate of 13% per annum payable quarterly. The entire amount of the Note, together with all accrued but unpaid interest thereon, is due and payable in full on September 30, 2011; provided that, so long as there is no continuing Event of Default, the Company may in its sole discretion extend the Maturity Date for a period of three months by paying an extension fee equal to 5% of the principal amount of the outstanding Notes. In the event of Default on the Note, the Note shall bear interest at the rate per annum equal to 18%. The Notes rank senior in right of payment with all indebtedness of the Company, whether currently existing or issued in the future. The Notes are secured by a security interest in all of the assets of the Company and the Company's subsidiaries pursuant to a Security Agreement and Subsidiary Guarantee. The Notes are convertible into shares of Common Stock of the Company at any time after the Maturity Date at an initial conversion price of \$0.10 per share. The warrants are exercisable for seven years at an exercise price of \$0.10 per share. The conversion price of the Notes and the exercise price of the warrants will be adjusted in connection with stock splits, dividends, mergers, reclassifications and similar transactions. The investors also received certain registration rights pursuant to a Registration Rights Agreement. In connection with this transaction, the Company paid the placement agent 10% of the gross proceeds and warrants to purchase 32,500 shares of Common Stock. The sale of securities discussed above was made solely to accredited investors and was exempt from registration under Section 4(2) and/or Rule 506 of Regulation D of the Securities Act of 1933, as amended

#### **PUBLIC COMPANY COMPLIANCE MAY MAKE IT MORE DIFFICULT TO ATTRACT AND RETAIN OFFICERS AND DIRECTORS**

The Sarbanes-Oxley Act of 2002 and new rules subsequently implemented by the SEC have required changes in corporate governance practices of public companies. As a public entity, the Company expects these new rules and regulations to increase compliance costs in 2009 and beyond and to make certain activities more time consuming and costly. As a public entity, the Company also expects that these new rules and regulations may make it more difficult and expensive for the Company to obtain director and officer liability insurance in the future and it may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for the Company to attract and retain qualified persons to serve as directors or as executive officers.

#### **THERE IS CURRENTLY NO LIQUID TRADING MARKET FOR THE COMPANY'S COMMON STOCK AND THE COMPANY CANNOT ENSURE THAT ONE WILL EVER DEVELOP OR BE SUSTAINED**

The Company's common stock is currently approved for quotation on the OTC Bulletin Board trading under the symbol CMGO.OB. However, there is limited trading activity and not currently a liquid trading market. There is no assurance as to when or whether a liquid trading market will develop, and if such a market does develop, there is no assurance that it will be maintained. Furthermore, for companies whose securities are quoted on the Over-The-Counter Bulletin Board maintained by the National Association of Securities Dealers, Inc. (the "OTCBB"), it is more difficult (1) to obtain accurate quotations, (2) to obtain coverage for significant news events because major wire services generally do not publish press releases about such companies, and (3) to obtain needed capital. As a result, purchasers of the Company's common stock may have difficulty selling their shares in the public market, and the market price may be subject to significant volatility.

#### THE COMPANY'S STOCK PRICE MAY BE VOLATILE

The market price of the Company's common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond the Company's control, including the following: technological innovations or new products and services by the Company or its competitors; additions or departures of key personnel; limited "public float" following the Reorganization, in the hands of a small number of persons whose sales or lack of sales could result in positive or negative pricing pressure on the market price for the common stock; the Company's ability to execute its business plan; operating results that fall below expectations; loss of any strategic relationship; industry developments; economic and other external factors; and period-to-period fluctuations in the Company's financial results. In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of the Company's common stock.

#### OFFERS OR AVAILABILITY FOR SALE OF A SUBSTANTIAL NUMBER OF SHARES OF THE COMPANY'S COMMON STOCK MAY CAUSE THE PRICE OF THE COMPANY'S COMMON STOCK TO DECLINE OR COULD AFFECT THE COMPANY'S ABILITY TO RAISE ADDITIONAL WORKING CAPITAL

If the Company's current stockholders seek to sell substantial amounts of common stock in the public market either upon expiration of any required holding period under Rule 144 or pursuant to an effective registration statement, it could create a circumstance commonly referred to as "overhang," in anticipation of which the market price of the Company's common stock could fall substantially. The existence of an overhang, whether or not sales have occurred or are occurring, also could make it more difficult for the Company to raise additional financing in the future through sale of securities at a time and price that the Company deems acceptable.

#### THE COMPANY'S COMMON STOCK IS CURRENTLY DEEMED TO BE "PENNY STOCK", WHICH MAKES IT MORE DIFFICULT FOR INVESTORS TO SELL THEIR SHARES

The Company's common stock is currently subject to the "penny stock" rules adopted under section 15(g) of the Exchange Act. The penny stock rules apply to companies whose common stock is not listed on the NASDAQ Stock Market or other national securities exchange and trades at less than \$5.00 per share or that have tangible net worth of less than \$5,000,000 (\$2,000,000 if the company has been operating for three or more years). These rules require, among other things, that brokers who trade penny stock to persons other than "established customers" complete certain documentation, make suitability inquiries of investors and provide investors with certain information concerning trading in the security, including a risk disclosure document and quote information under certain circumstances. Many brokers have decided not to trade penny stocks because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. If the Company remains subject to the penny stock rules for any significant period, it could have an adverse effect on the market, if any, for the Company's securities. If the Company's securities are subject to the penny stock rules, investors will find it more difficult to dispose of the Company's securities.

THE ELIMINATION OF MONETARY LIABILITY AGAINST THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES UNDER NEVADA LAW AND THE EXISTENCE OF INDEMNIFICATION RIGHTS TO THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES MAY RESULT IN SUBSTANTIAL EXPENDITURES BY THE COMPANY AND MAY DISCOURAGE LAWSUITS AGAINST THE COMPANY'S DIRECTORS, OFFICERS AND EMPLOYEES

The Company's certificate of incorporation does not contain any specific provisions that eliminate the liability of directors for monetary damages to the Company and the Company's stockholders; however, the Company is prepared to give such indemnification to its directors and officers to the extent provided by Nevada law. The Company may also have contractual indemnification obligations under its employment agreements with its executive officers. The foregoing indemnification obligations could result in the Company incurring substantial expenditures to cover the cost of settlement or damage awards against directors and officers, which the Company may be unable to recoup.

These provisions and resultant costs may also discourage the Company from bringing a lawsuit against directors and officers for breaches of their fiduciary duties and may similarly discourage the filing of derivative litigation by the Company's stockholders against the Company's directors and officers even though such actions, if successful, might otherwise benefit the Company and its stockholders.

#### ITEM 4: CONTROLS AND PROCEDURES

##### EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) as of the end of the period covered by this report and concluded that our disclosure controls and procedures were not effective to ensure that all material information required to be disclosed in this Quarterly Report on Form 10-Q has been made known to them in a timely fashion. We are in the process of improving our internal control over financial reporting in an effort to remediate these deficiencies through improved supervision and training of our accounting staff. These deficiencies have been disclosed to our Board of Directors. We believe that this effort is sufficient to fully remedy these deficiencies and we are continuing our efforts to improve and strengthen our control processes and procedures. Our Chief Executive Officer, Chief Financial Officer and directors will continue to work with our auditors and other outside advisors to ensure that our controls and procedures are adequate and effective.

##### CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

No change in the Company's internal control over financial reporting occurred during the six months ended June 30, 2010, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II

#### ITEM 1 – LEGAL PROCEEDINGS

We are subject to certain claims and litigation in the ordinary course of business. It is the opinion of management that the outcome of such matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows. On April 30, 2010, the Company became aware that a former employee had filed a lawsuit against the Company, which was filed in the United States District Court for the Southern District of New York. The suit has been dismissed by the United States District Court for the Southern District of New York by Order dated June 29, 2010 and the case has been closed.

ITEM 1A – RISK FACTORS
