Item 2.02. Results of Operations and Financial Condition.

On April 8, 2014, Brunswick Corporation (“Brunswick”) announced certain preliminary financial results for the first quarter of 2014. The news release issued by Brunswick announcing such preliminary financial results for the first quarter of 2014 is incorporated herein by reference and is included as Exhibit 99.1 to this Current Report on Form 8-K.

In the news release, Brunswick uses non-GAAP financial measures. For purposes of SEC Regulation G, a “non-GAAP financial measure” is a numerical measure of a registrant’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States.

Brunswick has used certain of the financial measures that are included in the news release for several years, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Brunswick’s management believes that these measures (including those that are non-GAAP financial measures) and the information they provide are useful to investors because they permit investors to view Brunswick’s performance using the same tools that Brunswick uses and to better evaluate Brunswick’s ongoing business performance. Brunswick’s management believes that the non-GAAP financial measure “diluted earnings per common share, as adjusted” is useful to investors because it represents a measure of Brunswick’s earnings, without the impact of restructuring, exit and impairment charges, loss on early extinguishment of debt and special tax items. Brunswick defines diluted earnings per common share, as adjusted, as diluted earnings per common share, excluding the earnings per share impact of restructuring, exit and impairment charges, as well as the loss on early extinguishment of debt and special tax items.

The information in this report and the exhibit attached hereto shall not be deemed to be “filed” for purposes of Section 18 of the Securities and Exchange Act of 1934, or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
