NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Registrant did not timely file its Quarterly Report on Form 10-Q for the quarter ended September 30, 2014 (the "Form 10-Q"). The delays could not be eliminated without unreasonable effort or expense. The delay in filing the Form 10-Q resulted from management's identification of a deficiency in its internal controls over financial reporting related to fair value hedge accounting, which management assessed as a "material weakness" within the meaning of Auditing Standard No. 5, as established by the Public Company Accounting Oversight Board, or "PCAOB." The Registrant has not restated, and does not expect to restate, prior period financial statements in response to this deficiency, as the amount of the misstatements in its prior financial statements, individually and in the aggregate, are immaterial to the Registrant's financial condition, results of operations and cash flows. The Registrant expects to take certain steps during its fourth fiscal quarter to modify its internal control over financial reporting in order to correct the deficiency.

This notice contains certain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) and information relating to the Registrant that are based on the beliefs of the management of the Registrant. These forward-looking statements include statements about the timing and effectiveness of the remedial measures for the material weaknesses identified by management. These statements are subject to risks and uncertainties, including the possibility that other deficiencies in disclosure controls and procedures may be discovered, that the disclosure of this defect may result in volatility in our stock price or a loss of confidence in our management team, and that the remedial measures we identify cannot be fully implemented within the intended timeframe or that they will not be fully effective in resolving the identified deficiency. Should one of these risks or uncertainties materialize, actual results or outcomes may vary materially from those described as anticipated, believed, estimated, intended, or planned.
