NOTICE OF ANNUAL MEETING OF STOCKHOLDERS AND PROXY STATEMENT

Table of Contents

G-III APPAREL GROUP, LTD.

512 SEVENTH AVENUE

NEW YORK, NEW YORK 10018

Dear Stockholder:

You are cordially invited to attend the Annual Meeting of Stockholders of G-III Apparel Group, Ltd. to be held on Thursday, June 13, 2019 at 10:00 a.m., New York time, at the offices of Norton Rose Fulbright US LLP, 1301 Avenue of the Americas, 30th Floor, New York, New York 10019.

The formal Notice of Meeting and the accompanying Proxy Statement set forth proposals for your consideration this year. You are being asked:

- 1 To elect eleven directors to serve on our Board of Directors for the ensuing year,
- 2 For an advisory and non-binding vote on the compensation of our named executive officers,
- 3 To approve the amendment to our 2015 Long-Term Incentive Plan, as amended, to increase the number of shares of common stock authorized for grant and issuance pursuant to awards under the Plan by 2,500,000 shares and
- 4 To ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 31, 2020.

At the meeting, we will also report on the affairs of G-III, and a discussion period will be provided for questions and comments of general interest to stockholders.

We look forward to greeting personally those of you who are able to be present at the meeting. However, whether or not you are able to be with us at the meeting, it is important that your shares be represented. Accordingly, you are requested to sign, date and mail, at your earliest convenience, the enclosed proxy in the envelope provided for your use, or vote your shares by calling the telephone number or visiting the website specified on your proxy card or voting instruction form.

Thank you for your cooperation.

Very truly yours,

Morris Goldfarb
Chief Executive Officer

NOTICE OF ANNUAL MEETING OF STOCKHOLDERS AND NOTICE OF INTERNET AVAILABILITY OF PROXY MATERIALS

NOTICE IS HEREBY GIVEN that the Annual Meeting of Stockholders (the “Annual Meeting”) of G-III Apparel Group, Ltd. will be held on:

Thursday, June 13, 2019	10:00 a.m., New York time	The offices of Norton Rose Fulbright US LLP 1301 Avenue of the Americas 30th Floor New York, New York 10019
----------------------------	---------------------------	--

For the following purposes:

- 1 To elect eleven directors to serve on our Board of Directors for the ensuing year,
- 2 To hold an advisory and non-binding vote on the compensation of our named executive officers,
- 3 To approve the amendment to our 2015 Long-Term Incentive Plan, as amended, to increase the number of shares of common stock authorized for grant and issuance pursuant to awards under the Plan by 2,500,000 shares,
- 4 To ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 31, 2020 and
- 5 To transact such other business as may properly come before the Annual Meeting or any adjournment thereof.

Only stockholders of record at the close of business on April 22, 2019 will be entitled to notice of and to vote at the Annual Meeting or any adjournment thereof.

All stockholders are cordially invited to attend the Annual Meeting in person. However, whether or not you plan to attend the Annual Meeting in person, each stockholder is urged to complete, date and sign the enclosed form of proxy and return it promptly in the envelope provided, or vote your shares by calling the telephone number or visiting the

website specified on your proxy card or voting instruction form. No postage is required if the proxy is mailed in the United States. If you vote by telephone or internet, you do not need to mail back your proxy. Stockholders who attend the Annual Meeting may revoke their proxies and vote their shares in person.

Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting of Stockholders to be Held on June 13, 2019

The Proxy Statement and our 2018 Annual Report to Stockholders are available in the “Investors” section of our website at <http://www.giii.com>.

By Order of the Board of Directors

Wayne S. Miller
Secretary

By telephone – You can vote your shares by calling the number on your proxy card or voting instruction form

By Internet – You can vote your shares online at the website shown on your proxy card or voting instruction form

By mail – Complete, sign, date and return your proxy card or voting instruction form in the postage-paid envelope provided

2019 PROXY STATEMENT / i

Table of Contents

G-III APPAREL GROUP, LTD.

512 SEVENTH AVENUE

NEW YORK, NEW YORK 10018

PROXY STATEMENT

General Information

This Proxy Statement (first mailed to stockholders on or about May 3, 2019) is furnished to the holders of common stock, par value \$0.01 per share (“Common Stock”), of G-III Apparel Group, Ltd. (“G-III”) in connection with the solicitation by our Board of Directors of proxies for use at the Annual Meeting of Stockholders (the “Annual Meeting”), or at any adjournment thereof, pursuant to the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held on:

Thursday, June 13, 2019	10:00 a.m., New York time	The offices of Norton Rose Fulbright US LLP 1301 Avenue of the Americas 30th Floor New York, New York 10019
----------------------------	---------------------------	--

It is proposed that, at the Annual Meeting, we:

- 1 Elect eleven directors to serve on our Board of Directors for the ensuing year,
- 2 Hold an advisory and non-binding vote on the compensation of our named executive officers (“Named Executive Officers” or “NEOs”),
- 3 Approve the amendment to our 2015 Long-Term Incentive Plan, as amended (the “2015 Plan”), to increase the number of shares of Common Stock authorized for grant and issuance pursuant to awards under the Plan by 2,500,000 shares and
- 4 Ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 31, 2020.

Management currently is not aware of any other matters that will come before the Annual Meeting. If any other matters properly come before the Annual Meeting, the persons designated as proxies intend to vote in accordance with their best judgment on such matters. Proxies for use at the Annual Meeting are being solicited by our Board of

Directors. Proxies will be solicited chiefly by mail; however, certain of our officers, directors, employees and agents, none of whom will receive additional compensation therefor, may solicit proxies by telephone or other personal contact. We will bear the cost of the solicitation of the proxies, including postage, printing and handling, and will reimburse the reasonable expenses of brokerage firms and others for forwarding material to beneficial owners of shares of Common Stock.

REVOCABILITY AND VOTING OF PROXY

A form of proxy for use at the Annual Meeting and a return envelope for the proxy are enclosed, or you may vote your shares by calling the telephone number or visiting the website specified on your proxy card or voting instruction form. If you vote by telephone or internet, you do not need to mail back your proxy. Stockholders may revoke the authority granted by their execution of a proxy at any time prior to the effective exercise of the powers conferred by that proxy, by filing with the Secretary of G-III a written notice of revocation or a duly executed proxy bearing a later date, or by voting in person at the Annual Meeting. Beneficial owners of our Common Stock should contact their bank, brokerage firm or other custodian, nominee, or fiduciary if they wish to revoke their proxy.

2019 PROXY STATEMENT / 1

Table of Contents

Proxy Statement

Shares of Common Stock represented by executed and unrevoked proxies will be voted in accordance with the instructions specified in such proxies. If no instructions are given, the proxies intend to vote the shares represented thereby:

- (i) “FOR” the election of each of the eleven nominees for director as shown on the form of proxy,
- (ii) “FOR” approval of the compensation of our Named Executive Officers,
- (iii) “FOR” approval of the amendment to our 2015 Plan to increase the number of shares of Common Stock authorized for grant and issuance pursuant to awards under the Plan by 2,500,000 shares,
- (iv) “FOR” the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 31, 2020 and
- (v) in accordance with their best judgment on any other matters which may properly come before the meeting.

RECORD DATE AND VOTING RIGHTS

On April 22, 2019, there were 48,921,735 shares of Common Stock outstanding (excluding shares held in treasury). Each of these shares is entitled to one vote upon each of the matters to be presented at the Annual Meeting. Only stockholders of record at the close of business on April 22, 2019 are entitled to notice of and to vote at the Annual Meeting or any adjournment thereof.

The quorum requirement for holding the Annual Meeting and transacting business is a majority of the outstanding shares entitled to be voted at the Annual Meeting. The shares may be present in person or represented by proxy at the Annual Meeting. Abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

A “broker non-vote” occurs when shares held by a broker, bank, or other nominee in “street name” for a beneficial owner are not voted with respect to a particular proposal because the broker, bank, or other nominee (1) has not received voting instructions from the beneficial owner and (2) lacks discretionary voting power to vote those shares with respect to that particular proposal. Under current New York Stock Exchange rules, brokers have discretionary voting power with respect to the proposal to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 31, 2020, but will not be authorized to vote with respect to the (i) election of our eleven nominees for director, (ii) advisory vote on the compensation of our Named Executive Officers or (iii) the approval of an amendment to our 2015 Plan, unless you provide voting instructions to your broker.

The affirmative vote of the holders of a plurality of the shares of Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting is required for the election of directors. The eleven nominees receiving the highest number of affirmative votes of the shares present in person or represented by proxy and entitled to vote for them shall be elected as directors; provided, however, that pursuant to our Director Selection and Qualification Standards and Resignation Policy, any nominee for director in this uncontested election who receives a greater number of votes “withheld” from his or her election than votes “for” his or her election must tender a written resignation to the Board. The Nominating and Corporate Governance Committee and the Board of Directors will consider the resignation and determine whether or not to accept the resignation.

See “Corporate Governance—Additional Corporate Governance Policies—Director Selection and Qualification Standards and Resignation Policy” for a more complete description of the application of this Policy.

The affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting is required to decide the other matters to be voted on at the Annual Meeting.

You may vote “FOR” or “VOTE WITHHELD” with respect to each or all of the director nominees. If you elect not to vote on the election of directors, this will not have any effect on the election of directors. In tabulating the voting results for the election of directors, only “FOR” and “VOTE WITHHELD” votes are counted.

You may vote “FOR,” “AGAINST,” or “ABSTAIN” with respect to the proposal to approve, on an advisory basis, the compensation of our Named Executive Officers, the proposal to approve the amendment to our 2015 Plan to increase the number of shares of Common Stock authorized for grant and issuance pursuant to awards under the 2015 Plan by 2,500,000

Table of Contents

Proxy Statement

shares and the proposal to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm. If you elect to abstain from voting on any of these proposals, the abstention will have the same effect as an “AGAINST” vote with respect to such proposal.

If you sign and return your accompanying proxy card without giving specific voting instructions, your shares will be voted as recommended by our Board and in accordance with the discretion of the persons named on the accompanying proxy card with respect to any other matters to be voted upon at the Annual Meeting. If you are a beneficial holder and do not return a voting instruction form, your broker may not vote on any of the matters to be presented at the Annual Meeting.

STOCK SPLIT

On April 1, 2015, our Board of Directors approved a two-for-one stock split in the form of a 100% stock dividend effective for stockholders of record on April 20, 2015 that was distributed on May 1, 2015. All share and per share amounts in this Proxy Statement for periods prior to May 1, 2015 have been retroactively adjusted to reflect this stock split.

Table of Contents

PROXY SUMMARY

This summary highlights information on the proposals that require your vote at the Annual Meeting, as well as information on our business, our Board of Directors and our corporate governance structure. This summary does not contain all of the information that you should consider before voting and we ask that you read the entire Proxy Statement carefully. As used in the Proxy Statement, “G-III,” “our company” and “we” refer to G-III Apparel Group, Ltd. and its subsidiaries.

We are not only licensees, but also brand owners, and we distribute our products through multiple channels of distribution, including brick and mortar and online channels. These brands are complementary, and we expect continued growth from our largest brand, Calvin Klein, as well as more significant growth from our other brands including DKNY, Donna Karan, Tommy Hilfiger and Karl Lagerfeld Paris.

4 \

Table of Contents

Proxy Summary

Our Business Performance in Fiscal 2019

Fiscal 2019 stands out as G-III's best year ever.

We closed our fiscal year with record-breaking results for:

- Net sales
- Net income
- Pre-tax income
- Earnings per share

Our pre-tax income for fiscal 2019 was 67% greater than in fiscal 2018 and exceeded our forecast for fiscal 2019 by 35%. Our performance and the momentum we are carrying into the year in front of us reflect continued growth across our portfolio of brands.

Strategic Initiatives

We are focused on the following strategic initiatives, which we believe are critical to our long-term success:

- **Owning Brands.** We now own a portfolio of proprietary brands, including DKNY, Donna Karan, Vilebrequin, Eliza J, G.H. Bass and Andrew Marc. Owning our own brands is advantageous to us for several reasons:
We can realize significantly higher operating margins because we are not required to pay licensing fees on sales by us of our proprietary products.

Table of Contents

Proxy Summary

We are able to license our proprietary brands in new categories and geographies to best in class licensees that enables us to generate licensing revenues (which have no related cost of goods sold) for classes of products not manufactured by us.

We are able to build equity in these brands to benefit the long-term interests of our stockholders.

There are no channel restrictions, permitting us to market our products internationally, and to utilize a variety of different distribution channels, including online and off-price channels.

- **Focusing on Our Five Global Power Brands.** While we sell products under more than 30 licensed and proprietary brands, five global power brands anchor our business: DKNY, Donna Karan, Calvin Klein, Tommy Hilfiger and Karl Lagerfeld Paris. Each of these brands has substantial name recognition and is well-known in the marketplace. We believe each brand also provides us with significant growth opportunities.
- **Expanding Our International Business.** We continue to expand our international business and enter into new markets worldwide. We believe that the international sales and profit opportunity is quite significant for our DKNY and Donna Karan businesses.

Severance and related charges	58	180		(238)	
	<u>\$ 3,476</u>	<u>\$ 180</u>	<u>\$ (173)</u>	<u>\$ (1,052)</u>	<u>\$ 2,431</u>
	Accrued at				Accrued at

Lease cancellations/idle facility	\$ 458	\$ 3,335	\$	\$ (375)	\$ 3,418
Severance and related charges	18	3,028	(128)	(2,860)	58
	<u>\$ 476</u>	<u>\$ 6,363</u>	<u>\$ (128)</u>	<u>\$ (3,235)</u>	<u>\$ 3,476</u>

Interest Income and Other, Net

Interest income and other, net consists of interest income from cash, cash equivalents and short-term investments partially offset by interest expense associated with capital leases and foreign currency transaction gains and losses. Interest income and other, net was \$1.2 million, \$2.4 million and \$6.4 million in 2003, 2002 and 2001, respectively. The decline in interest income in the three years from 2001 to 2003 was primarily due to lower interest rates and the decline in balances of cash, cash equivalents and short-term investments. Foreign currency transaction losses were immaterial in 2003 and 2002 and approximately \$300,000 in 2001. We expect interest income to decrease as the amount of cash and cash equivalents available for investment decreases as cash is used in operations and as prevailing interest rates remain low.

Income Taxes

From inception to December 31, 2003, we incurred net losses for federal and state tax purposes and have not recognized any tax provision or benefit. As of December 31, 2003, we had approximately \$129 million of federal and \$75 million of California state net operating loss carryforwards to offset future taxable income. The federal net operating loss carryforwards will expire in 2019 through 2023. The California net operating loss carryforwards will expire in 2007 through 2013. Because of our limited operating history, our losses incurred to date and the difficulty in forecasting our future results, management does not believe that the realization of the related deferred income tax asset is more likely than not. Therefore, we have recorded a valuation allowance against the net deferred income tax assets.

Table of Contents**Quarterly Results of Operations**

The following tables set forth consolidated statement of operations data for each of the quarters in the two-year period ended December 31, 2003 (in thousands, except per share data).

	Three Months Ended

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

The above quarterly information has been derived from our unaudited quarterly consolidated financial statements that, in the opinion of our management, include all adjustments necessary for a fair presentation of this information. We have experienced and expect to continue to experience fluctuations in operating results from quarter to quarter. We incurred net losses in each quarter since inception and may continue to incur losses in the foreseeable future. No conclusions about our future results should be drawn based on the results of our operations for any quarter, as quarterly results are not indicative of the results for a full fiscal year or any other period.

Table of Contents**Liquidity and Capital Resources**

<u>(in thousands)</u>	<u>2003</u>	<u>2002</u>	<u>2001</u>
Cash and cash equivalents and short term investments	\$ 46,188	\$ 60,750	\$ 97,499
Working capital	37,585	52,035	85,468
Stockholders' equity	36,719	51,105	102,462

As of December 31, 2003, we had cash, cash equivalents and short-term investments of \$46.2 million, down from \$60.8 million as of December 31, 2002. Our cash and cash equivalents consist primarily of money market funds, commercial paper and U.S. treasury and government agency securities. All of our investments are classified as available-for-sale and carried at fair value based on quoted market prices in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*.

During 2003, net cash used in operating activities was \$15.9 million compared to \$35.6 million in 2002 and \$51.7 million in 2001. The decreases in net cash used in operating activities in 2003 from 2002 and in 2002 from 2001 were due primarily to the decrease in our net losses in each of the years resulting from extensive headcount reductions and other cost saving actions. These reductions in net losses were partially offset by the reduction of non-cash charges such as depreciation, amortization of deferred stock compensation, restructuring and impairment of long-lived assets and goodwill. Our accounts receivables decreased in 2003 as we proactively managed collections of outstanding balances. Our days sales outstanding in 2003, 2002 and 2001 were 42, 63 and 34 days, respectively, reflecting our efforts.

Net cash provided by investing activities were \$21.4 million in 2003 and \$31.1 million in 2002, principally related to the net sale of short-term investments partially offset by fixed asset purchases. Net cash provided by investing activities was \$21.3 million in 2001, related to the net sale of short-term investments, partially offset by purchase of property and equipment and intangible assets. We do not expect any major capital expenditures in the near future.

Net cash provided by financing activities was \$2.9 million in 2003, resulting from proceeds from the issuance of common stock under our employee stock option and stock purchase plans. In 2002, net cash used in financing activities was \$394,000 consisting of repayments of debt and capital lease obligations offset by proceeds from the issuance of common stock. Most of the proceeds from the 2003 stock options exercises were related to options from the stock option exchange program instituted in December 2002 that expired in September 2003. (See discussion in Note 10 of the Consolidated Financial Statements included elsewhere herein.) Cash provided by financing activities was \$3.2 million in 2001 and principally related to the net proceeds received from the issuance of common stock under our employee stock purchase plan. Depending on the level of employee stock option and purchase activity and the prevailing market price for our stock, net cash provided by or used in financing activities may vary in the near term.

In June 2002, our board of directors authorized the repurchase of up to 5% of our outstanding common stock. As of December 31, 2002, we had repurchased and retired approximately 91,000 shares of our common stock in open market transactions at prevailing market prices for a total cost of approximately \$558,000, including commissions. If we repurchase our outstanding common stock, additional cash will be used. Based on current conditions, we do not anticipate repurchasing additional shares under this program in the near term.

We expect that for the foreseeable future, our operating costs and expenses will continue to constitute a significant use of our cash resources. In addition, we may use our cash resources to fund acquisitions or invest in other businesses, technologies or product lines. We currently anticipate that our existing cash resources will be sufficient to meet our presently anticipated operating requirements for at least the next 12 months. We may seek to raise additional funds through public or private debt or equity financing. There can be no assurance that this additional financing

will be available, or if available, will be on reasonable terms and not dilutive to our stockholders. If adequate funds are not available on acceptable terms, we could have to accept financing on terms we viewed as unreasonable or that were dilutive to our stockholders, or to pursue alternative options, such as seeking a merger or acquisition, or in the worst case, winding down our operations. If we were to seek additional financing today, we do not believe it would be available on reasonable terms.

Table of Contents

The existence or even the anticipation of an uncertain economic environment by potential customers in the markets in which we operate has affected the demand for our applications, caused pricing pressures for our products, increased customer requests for extended payment terms, and impacted our sales activity during 2003, 2002 and 2001, and may continue to do so in future periods, which could in turn affect our liquidity.

Commitments

Our principal commitments as of December 31, 2003 consisted of obligations under operating leases, letter of credit agreements, and royalty agreements. We expect to fulfill our commitments through our working capital.

Letters of Credit. At December 31, 2003, \$962,000 of cash equivalents is held in trust as security for a letter of credit for guarantee of lease payments for leased office space. Such cash equivalents will be restricted until the expiration of the lease term in 2006.

Royalties. We license and incorporate into our products technologies from third party software providers. Under the terms of these license agreements, which expire at various dates up to June 2007, we pay royalties at various rates and amounts, generally based on unit sales or revenues. Royalty expense was \$1.1 million, \$1.5 million and \$4.3 million for 2003, 2002 and 2001, respectively.

Aggregate Contractual Obligations. The Company leases certain facilities, including its corporate headquarters, under non-cancelable operating leases. Rent expense for 2003, 2002 and 2001 was \$3.2 million, \$4.2 million and \$7 million, respectively. Future minimum lease payments under operating lease with non-cancelable terms of more than one year as of December 31, 2003 are as follows (including lease commitments reflected in accrued restructuring liabilities on the consolidated balance sheet):

(in thousands)	Payments Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating leases	\$ 8,567	\$ 3,448	\$ 5,119	\$	\$
Total contractual obligations	\$ 8,567	\$ 3,448	\$ 5,119	\$	\$

Use of Estimates and Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States, or GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures. We evaluate our estimates on an ongoing basis, including those related to revenue recognition, allowances for doubtful accounts and accrued liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Our accounting policies are described in the notes to our financial statements. We have identified the following as critical estimates employed in applying critical

accounting policies:

Revenue Recognition. We recognize revenue in accordance with Statement of Position (SOP) 97-2, *Software Revenue Recognition*, as amended, and recognize revenue when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred, (3) the fee is fixed or determinable and (4) collectibility is probable. We allocate revenue on software arrangements involving multiple elements to each element based on the residual method prescribed by SOP 98-9, *Modification of SOP 97-2, Software Revenue Recognition, With Respect to Certain Transactions*. Our determination of fair value of each element in multiple-element arrangements is based on vendor-specific objective evidence (VSOE) for all undelivered elements in the arrangement and the residual value is allocated to the license. We limit our assessment of VSOE for each element, including maintenance, to the price charged when the same element is sold separately. VSOE for maintenance is determined based upon the customer's annual renewal rates.

Table of Contents

We identified two critical accounting estimates with respect to applying our revenue recognition policy in 2003 and in the near future. The first critical accounting estimate relate to determining whether an option provided to the customer to purchase specified software products in the future represents an element of the present arrangement or is a separate arrangement. We evaluate whether these options provide the customer with significant incremental discounts to the optional software. We primarily consider the discount of the optional products relative to the discount of the delivered software products and the price paid by other customers for the same software in similar configurations; however, there is judgment involved in determining whether discounted prices on the optional software are incremental and significant. In cases where the optional software is discounted at a higher rate than the delivered element, we defer some of the revenue related to the delivered element and recognize the deferred revenue when the optional software is delivered or when the option expires. To date, we did not have to defer any such revenues.

The second critical accounting estimate with respect to our revenue recognition policy related to estimating percentage of completion for certain services transactions that require such estimation. We review each transaction at quarter-end and apply an estimate of percentage of completion to the contract amount to determine the appropriate revenue recognition. We calculate the percentage based on contractual milestones met or, when the contract does not involve milestones, on hours incurred relative to total estimated hours to complete a project. We evaluate the reasonableness of our estimates based on the type of services we render and our overall role in a project. In cases where the percentage of completion method is appropriate, the license revenue will be deferred and recognized based on the percentage completion of the project.

Allowance for Doubtful Accounts Receivable. Accounts receivable is recorded net of allowance for doubtful accounts and sales return reserve. We regularly review the adequacy of our accounts receivable allowance and sales return reserve by considering the accounts receivable aging, customer concentrations, the customer's expected ability to pay, our collection history with each customer, available information regarding customer satisfaction and current economic trends. We review any outstanding past due balances to determine if an allowance is appropriate based on the risk category using the factors discussed above. In addition, we maintain a general allowance for doubtful accounts for all invoices by applying a percentage based on the age category. The allowance for doubtful accounts and the realization reserve represent our best estimate, but changes in circumstances relating to accounts receivable may result in a requirement for additional allowance or reserve in the future.

Accrued Liabilities. The idle facility lease losses were based on our lease commitments offset by our best estimate expected sublease income and related costs. These estimates are based upon management's estimate of the time required to sublet the facility and the amount of sublease income that will be generated once the facility is sublet. Should there be changes in real estate market conditions or should it take longer than expected to find a suitable tenant to sublease the remaining vacant facilities, adjustments to the idle facilities lease losses reserve may be necessary in future periods.

Recent Accounting Pronouncements

In April 2003, the FASB issued SFAS No. 149, *Amendments of Statement 133 on Derivative Instruments and Hedging Activities*, which amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS No. 133. SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. We adopted the provision of SFAS No. 149 as of July 1, 2003. The adoption of SFAS No. 149 did not have a material impact on our financial condition or results of operations.

In December 2003, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 104 *Revenue Recognition*, which codifies, revises and rescinds certain sections of SAB No. 101, *Revenue Recognition*, in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The changes noted in SAB No. 104 did not have an impact on the Company's financial position or results of operations.

Table of Contents

Factors That May Impact Future Operating Results

Risks Related To Our Financial Condition

We have incurred losses throughout our operating history. These losses may continue for the foreseeable future, and we may not achieve profitability. In 2003, we incurred net losses of \$17.6 million; as of December 31, 2003, we had an accumulated deficit of \$220.6 million. We expect to continue to incur losses on both a quarterly and annual basis, and may continue to do so for the foreseeable future. Moreover, we expect to continue to incur significant costs of services and substantial operating expenses. Therefore, we will need to significantly increase our revenues to achieve and maintain profitability and a positive cash flow. We may not be able to generate sufficient revenues to achieve profitability.

Our declining cash balance and volatile stock price have affected our potential and current customers and partners perception of our viability, which in turn could affect our ability to close sales and partnership transactions. Concerns about our perceived financial viability were a factor in multiple potential and actual customer transactions and partner relationships during 2002 and 2001 and to a lesser extent in 2003. We attribute these concerns primarily to the following: we are not yet profitable and thus must use our cash balance (offset by revenues) to fund our operations; our stock price experienced a dramatic decline from 2001 to 2002; our stock price has been, and continues to be, volatile; and many of our competitors are better funded, more established, or significantly larger than we are. We will continue to use our cash balance (offset by revenues) to fund our operations until we achieve profitability (which may not occur); thus, we expect our cash balance will continue to decline during 2004. Therefore, if these conditions do not improve significantly in the next year, we expect these concerns about our perceived viability to continue.

Risks Related To Our Products

If we fail to keep pace with technological innovation, improve our existing products, or develop new products, our application suite could become obsolete and our revenues would decline. The market for our application suite is marked by rapid technological change, frequent new product introductions, Internet-related technology enhancements, uncertain product life cycles, changes in client demands and evolving industry standards. New products based on new technologies or new industry standards can render existing products obsolete and unmarketable. To succeed, we will need to enhance our current application suite and develop new products on a timely basis to keep pace with developments related to Internet technology and to satisfy the increasingly sophisticated requirements of our clients.

Enterprise application software technology is complex, and new products and product enhancements can require long development and testing periods; we cannot be certain that we will successfully develop and market new products, new product enhancements or new products compliant with present or emerging Internet technology standards. Our future revenues will depend, in significant part, on our ability to successfully develop and license new and enhanced versions of our application suite, and our ability to continue diversifying our offerings by developing and licensing new products. If we are not able to successfully improve our existing products and develop new products, or if we develop new products and they do not achieve market acceptance, or if we were to experience delays in either, our revenues are likely to decline.

If we fail to release new versions and upgrades of our application suite in a timely manner, customers may license competing products and our revenues may decline. We may fail to introduce or deliver new products on a timely basis, if at all. In the past, we have experienced delays in the commencement of commercial shipments of enhancements to our application suite. To date, these delays have not had a material impact on our revenues. If we are unable to ship or implement new products or enhancements to our application suite when planned or at all, or fail to achieve timely market acceptance of these new products or enhancements, we may suffer lost sales and thus reduce our revenues. Our future

operating results will depend on demand for our application suite, including new and enhanced releases that are subsequently introduced.

If our application suite does not successfully function for customers with large numbers of transactions, customers or product offerings, we may lose sales and suffer decreased revenues. Our application suite must be

Table of Contents

able to accommodate a large number of transactions, customers and product offerings. Large-scale usage presents significant technical challenges that are difficult or impossible to predict. To date, our application suite has been deployed on a large scale by only a limited number of customers and, therefore, we can make no assurances that our application suite is able to meet our customers' demands for large-scale usage. If our customers experience difficulty with our application suite during periods of high traffic or usage, the reputation of our products would suffer and our revenues would be likely to decline accordingly.

Our interactive selling application may not be capable of handling our customers' needs. Our interactive selling system is based on a powerful configuration engine that has proven successful for a number of customers. Nonetheless, it is possible that our system could fail to successfully meet a customer's needs if the customer's configuration requirements are extremely complex, exceptionally broad in scope, or not fully understood by us.

Loss or inability of key technologies licensed to us by third parties could affect our ability to license our product. Our products incorporate technologies licensed from third-party software providers. In particular, we license array database modeling and configuration technology from Array Technology A/S, and we license a rules engine from Blaze Software Inc. that automates the execution of business processes according to criteria set by our customers. We may not be able to maintain or renew our license agreements for these technologies on terms that are acceptable to us (or at all). The loss of these technologies could harm our ability to license our products and increase our costs until we identify or develop substitute technologies, license them, and integrate them into our product; even if substitute technologies are available, we may not be able to license those technologies on terms that are acceptable to us (or at all).

If our product does not operate with the wide variety of hardware, software and operating systems used by our current and potential customers, our revenues would be harmed. We currently serve a customer base that uses a wide variety of constantly changing hardware, software applications and operating systems. Our application suite will gain broad market acceptance only if it can support a wide variety of hardware, software applications, systems, and standards, including those developed in the future.

Defects in our application suite could diminish demand for our application suite and result in loss of revenues, decreased market acceptance, injury to our reputation and product liability claims. As is not unusual for software companies, we have in the past discovered software errors and performance problems with various versions of our application suite after release, and, as a result, have experienced injury to our reputation, increased expenses, delays in the shipment of our application suite and our customers have experienced difficulty in deploying and operating our application suite.

Errors in our application suite may be caused by defects in third-party software incorporated into our application suite. If so, we may not be able to fix these defects without the cooperation of these software providers. Since these defects may not be as significant to our software providers as they are to us, we may not receive the rapid cooperation that we may require. We may not have the contractual right to access the source code of third-party software and, even if we access the source code, we may not be able to fix the defect.

Since our customers use our application suite for critical business applications such as e-commerce, any errors, defects or other performance problems of our application suite could damage our customers' businesses. Consequently, these customers could delay or withhold payment to us for our software and services, which could result in an increase in our provision for doubtful accounts or an increase in collection cycles for accounts receivable. In addition, these customers could seek significant compensation from us for their losses. Even if unsuccessful, a product liability claim brought against us would likely be time consuming and costly and harm our reputation, and thus our ability to license to new customers. Even if a suit is not brought, correcting errors in our application suite could increase our expenses. A customer suit is pending against us alleging that our products failed to perform as represented. The Company believes that it has meritorious defenses against these allegations and intends to defend itself vigorously. See Part I, Item 3, Legal Proceedings.

If we are unable to protect our intellectual property or become subject to intellectual property infringement claims, we may lose a valuable asset or incur costly and time-consuming litigation. Our success depends in part on the development and protection of the proprietary aspects of our technology as well as our ability to operate without infringing on the proprietary rights of others. To protect our proprietary technology, we rely primarily on a

Table of Contents

combination of trade secret, copyright, trademark, and patent laws, as well as confidentiality procedures and contractual restrictions. Despite our efforts to protect our proprietary rights and technology, unauthorized parties may attempt to copy aspects of our products or obtain the source code to our software or use other information that we regard as proprietary or could develop software competitive to ours. Our means of protecting our proprietary rights may not be adequate, and our competitors may independently develop similar technology or duplicate our product. Litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others, or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and diversion of resources that could have a material adverse effect on our business, operating results, and financial condition.

We have one issued patent and several pending patent applications. It is possible that some of the patents that we have applied for will not be issued, and even if issued, that some or all may be successfully challenged. It is also possible that we may not develop additional proprietary products or technologies that are patentable, that any patent issued to us may fail to provide us with competitive advantage, and that the patents of others may materially harm our ability to do business.

In the future, a third party may bring suit claiming that our current or future products infringe its patents, trade secrets or copyrights. Any claims, with or without merit, could be costly and time-consuming to defend, divert our management's attention, or cause product delays. We have only one currently issued patent that we could use defensively against any company bringing such a claim. If our product was found to infringe a third party's proprietary rights, we could be required to enter into royalty or licensing agreements to be able to sell our product. Royalty and licensing agreements, if required, may not be available on terms that are acceptable to us (or at all), which could materially harm our business.

Risks Related to Our Market and Our Ability to Sell

The current economic downturn has significantly affected demand for our products and services and may continue to adversely impact future revenues. The existence of economic downturns in the markets in which we operate has decreased the demand for our applications, caused pricing pressures for our products, and affected our sales activity during 2001, 2002 and 2003. In 2001, we signed 29 new license contracts, a decrease from 67 new license contracts signed in 2000; in 2002, we signed 21 new license contracts, a further decrease from 2001; and in 2003, we signed 20 new license contracts, comparable to 2002. Due in part to the macroeconomic conditions during 2001, 2002 and 2003, customers reduced their information technology budgets and postponed or cancelled planned projects, including the evaluation and purchase of new applications, upgrades to existing applications, and purchase of related services. As a result, our revenues have been negatively impacted, and may continue to be in the future.

The existence or even the anticipation of an uncertain economic environment by potential customers in the markets in which we operate affected the demand for our applications, caused pricing pressures for our products, increased customer request for extended payment terms, substantially reduced our sales activity during 2001 and 2002, and continued to affect sales in 2003. We expect it will continue to do so in future periods, which could in turn materially reduce our liquidity. In addition, ongoing financial, political, economic, and other uncertainties have further weakened the global economy. Additional terrorist attacks, continued war or increased outsourcing of technology projects overseas could adversely affect our business, including revenues, financial condition, and results of operations.

Our budgeting and forecasting depend on estimates of revenue growth in our target markets. Thus, the prevailing economic and political uncertainty makes it difficult to estimate anticipated license contract signings and future revenues. The future performance of the overall domestic and global economies and the resolution of current international tension involving the United States will likely have a significant impact on our overall performance. To the extent that the current downturn continues or increases in severity or scope, we believe demand for our products and services, and therefore future revenues, could be further reduced.

We may not be able to compete effectively with current and potential competitors. We compete in the highly competitive CRM market, which is subject to rapid technological change. We believe that our products, which are externally focused on increasing our customers' sales to their own customers, are fundamentally different from traditional CRM offerings, which focus internally on managing and reporting a customer's sales efforts and

Table of Contents

opportunities. We may not be able to articulate the value we believe we offer with sufficient clarity and distinctiveness to generate interest in our target markets. A principal source of competition is the internal information technology departments at potential customers, which may develop systems that provide for some or all of the functionality of our applications. Our products also compete with products, components, or solutions offered by Art Technology Group, Inc., BroadVision, Inc., E. Philipany, Inc., Firepond, Inc., Microsoft Corporation, Oracle Corp., PeopleSoft, Inc., SAP AG, Selectica, Inc., Siebel Systems, Inc., Trilogy Software, Inc., Unica Corporation and Vignette Corporation.

Compared to us, many of these competitors have longer operating histories, greater name recognition, larger customer bases and significantly greater financial resources. This may place us at a disadvantage in responding to our competitors' pricing strategies, technological advances, advertising campaigns, strategic partnerships and other initiatives. Competitive pressures and our perceived viability in this market may make it difficult for us to acquire and retain customers, and may require us to reduce the price of our products which could reduce our revenues and result in increased operating losses.

The sales cycle for our products is long and variable, which makes it difficult to predict our future revenues and may cause our operating results to vary significantly. Our revenues and results of operations are difficult to predict and may fluctuate substantially from quarter to quarter. For example, certain indicators that we relied upon in developing our license revenue forecasts, such as our historical pattern of transaction timing and anticipated sales cycles, did not prove reliable during 2001, 2002 or 2003. During these periods, we continued to see extended sales cycles; our average sales period was six to twelve months in 2001, 2002, and 2003.

The period between initial contact with a prospective customer and the licensing of our application suite varies and can range from three to more than twelve months. Because of this variable sales cycle, the timing of revenues from the licensing of our application suite is difficult to forecast. Factors affecting our sales cycle, many of which are beyond our control, include:

Many of our license agreements close within the last few weeks of each quarter;

Customers consider a number of factors related to our products and services, as well as our financial condition, before committing to purchase our application suite. As a result, we spend significant time and resources informing prospective customers about our company, application suite, and other offerings, which may not result in a completed transaction but may nonetheless impact our operating margins;

The licensing of our application suite is often an enterprise-wide decision by our customers that involves many factors and decision-makers; thus, if our customer's management, budget, or strategy changes, our ability to conclude license agreements may be affected;

Because a substantial portion of our quarterly revenues are derived from a small number of customers, delays in the signing of one or more large license agreements or the loss of a significant customer order may materially affect revenues and our operating results;

Due in part to macroeconomic conditions, customers remain cautious about spending, and have increased requests for contract terms that affect our ability to recognize revenue. These conditions may persist in the future;

Customer approval processes are unpredictable; delays in approvals, even after selection of a vendor, could impact the timing and amount of revenues recognized in a quarterly period;

We have recently changed several aspects of our sales leadership, strategy and process with the intention of improving our sales pipeline and results, including changes in the way we generate leads, hiring of additional salespeople and changes in the way we target and approach

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

accounts. We expect that it may take up to twelve months to see positive results from these changes, although these changes may not show positive results during that period or at all. As a result of these changes, our ability to market and license our software may be limited accordingly; and

The number, timing and significance of enhancements to our application suite, and the introduction by us or our competitors, of new software may affect customers purchasing decisions.

Because of this variation in sales cycle length, it is difficult for us to predict revenues and thus our operating results could be hard to estimate. For example, if our license results do not meet our internal expectations, our service offerings would be affected (since service revenues lag licenses) and our services revenues would be reduced, which would harm our overall results since service expenses are relatively fixed in the short term.

Table of Contents

A small number of customers have accounted for a substantial portion of our revenues, and this pattern is likely to continue for the foreseeable future; as a result, our revenues could decline due to the loss or delay of a single customer order, the delay in recognizing revenue associated with a single customer order, or the failure to collect revenue associated with a single customer. Each quarter during our operating history, a relatively small number of customers has accounted for a significant portion of that quarter's total revenues. We expect this to continue in the future. Thus, the loss or delay of individual orders could have a significant impact on revenues and operating results.

The timing of recognition of customer revenue may also affect our results. Customer payments that do not meet our revenue recognition policy requirements are recorded as deferred revenue. Although new agreements may not result in revenues in the quarter in which the agreement was signed, commissions and royalties may nonetheless become payable on such agreements during that quarter, which would impact our operating results.

We may not successfully establish ourselves in international markets or generate significant revenues abroad, which could result in slower revenue growth and harm our business. In 2003, we generated approximately 23% of our total revenues from sales outside the United States. We have sales offices in, France, Japan, Netherlands, and the United Kingdom, and have also generated sales in other countries. We may add others in the future. If we are not successful in continuing to license our application suite in international markets, or if we do not increase sales from outside the United States, we could experience slower revenue growth and our business could be harmed. We anticipate devoting additional resources and management attention to expanding international opportunities. Our international expansion carries with it a number of additional challenges, including:

greater difficulty in staffing and managing foreign operations;

expenses associated with foreign operations and compliance with applicable laws;

difficulty and costs of managing a global technical support service that provides around the clock support;

political or economic changes or instability in a specific country or region;

expenses associated with localizing our product for foreign countries;

differing intellectual property rights and the enforcement of such rights;

protectionist laws and business practices that favor local competitors;

different sales cycles and collection periods or seasonal reductions in business activity;

multiple, conflicting and changing governmental laws and regulations; and

foreign currency restrictions and exchange rate fluctuations.

Increasing government regulation of personal data, the Internet, imposition of sales and other taxes on products sold by our customers over the Internet and privacy concerns could reduce the license of our application suite and harm our business. Federal, state or foreign agencies may adopt laws or regulations affecting personal data or the use of the Internet as a commercial medium. We expect that laws and regulations relating to user privacy, pricing, content and quality of products and services could indirectly affect our business.

Current federal legislation limits the imposition of state and local taxes on Internet-related sales at this time. Congress may choose not to renew this legislation, in which case state and local governments would be free to impose taxes on electronically purchased goods. The imposition of new sales or other taxes could limit the growth of Internet commerce in general and, as a result, the demand for our application suite and services.

Businesses use our application suite to capture information regarding their customers when those customers contact them on-line with customer service inquiries. Privacy concerns may cause visitors to withhold personal data, which would limit the effectiveness of our application suite. More importantly, even the perception of privacy concerns, whether or not valid, may indirectly inhibit market acceptance of our application suite.

Risks Related To System Integrators

Our failure to develop and maintain strong relationships with consulting and system integrator firms (CSIs) would harm our ability to market our application suite, which could reduce future revenues and increase our expenses. An increasing portion of our sales are influenced by the recommendation of our application suite by systems integrators, consulting firms and other third parties that help deploy our application suite for our customers.

Table of Contents

Losing the support of these third parties may limit our ability to penetrate our existing or potential markets. These third parties are under no obligation to recommend or support our application suite and could recommend or give higher priority to their own products and services or those of other companies. Our inability to gain the support of CSIs or a shift by these companies toward favoring competing products could negatively affect our software license and service revenues.

Some CSIs also engage in joint marketing and sales efforts with us. If our relationships with these CSIs fail, we will have to devote substantially more resources to the sales and marketing of our application suite. In many cases, these parties have extensive relationships with our existing and potential customers and influence the decisions of these customers. A number of our competitors have longer and more established relationships with these CSIs than we do, and as a result those CSIs may be more likely to recommend competitors' products and services and increase our expenses.

Our failure to develop and maintain strong relationships with systems integrators would harm our ability to implement our application suite. Systems integrators assist our customers with the installation and deployment of our application suite, in addition to those products of our competitors, and perform custom integration of computer systems and software. If we are unable to develop and maintain relationships with systems integrators, we would be required to hire additional personnel to install and maintain our application suite, which would result in higher expenses and delays in our ability to recognize revenue.

Other Risks

Changes in accounting policies created and interpreted by authoritative agencies can have a significant effect on our reported results and may even affect the reporting of transactions completed before a change is announced. We prepare our financial statements in conformity with accounting principles generally accepted in the United States of America or GAAP. These principles are subject to interpretation by the Securities and Exchange Commission and various bodies formed to interpret and create accounting policies. A change in these policies can have a significant effect on our reported results and may even affect the reporting of transactions completed before a change is announced. Our accounting policies that may be affected by changes in the accounting rules are as follows:

revenue recognition

accounting for business combinations

stock-based compensation

goodwill and other intangible assets accounting

Changes to these or other rules or the questioning of current practices may have a significant adverse effect on our reported financial results or in the way in which we conduct our business. See the discussion under "Use of Estimates and Critical Accounting Policies" in this Annual Report for additional information about our critical accounting policies and some risks associated with these policies.

We may have difficulty retaining or recruiting qualified personnel, which could impact the development and license of our application suite. Difficulty in hiring or retaining qualified personnel, or failure by newly hired personnel to develop necessary skills or reach expected levels of

productivity, may weaken our ability to develop and market our application suite. Our success also depends on the continued contributions of key engineering, sales and marketing, management, and professional services personnel. In particular, losing the services of Monte Zweben, our Chairman and Chief Executive Officer, would be difficult to replace.

Our ability to increase our sales will depend on our ability to recruit, train and retain top-quality sales people who can target prospective customers senior management and generate and service large accounts. In our industry, competition for qualified sales personnel is intense.

Our Chairman and CEO maintains significant control over Blue Martini Software, which may lead to conflicts with other stockholders over corporate strategy and other issues. Our directors, executive officers, and holders of 5% or more of our outstanding common stock owned approximately 41% of our outstanding common stock as of December 31, 2003. Monte Zweben, our Chairman and Chief Executive Officer, together with related entities, owned approximately 32% of our common stock as of this date. These stockholders, acting together, and Mr. Zweben,

Table of Contents

individually, will be able to significantly influence all matters requiring approval by our stockholders, including the election of directors and significant corporate transactions such as mergers or other business combination transactions. This control may delay or prevent a third party from acquiring or merging with us.

We have implemented anti-takeover provisions that could discourage or prevent a takeover. Provisions of our amended and restated certificate of incorporation and bylaws, as well as provisions of Delaware law, could make it more difficult for a third party to acquire us. These provisions include:

establishment of a classified board of directors such that not all members of the board may be elected at one time;

authorizing the issuance of blank check preferred stock that could be issued by our board of directors to increase the number of outstanding shares and thwart a takeover attempt;

prohibiting cumulative voting in the election of directors, which would otherwise allow less than a majority of stockholders to elect director candidates;

limitations on the ability of stockholders to call special meetings of stockholders;

prohibiting stockholder action by written consent and requiring all stockholder actions to be taken at a meeting of our stockholders; and

establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted upon by stockholders at stockholder meetings.

In addition, Section 203 of the Delaware General Corporations Law and the terms of our stock option plans may discourage, delay or prevent a change in control of the Company.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange

Through December 31, 2003, approximately 77% of our revenues were denominated in United States dollars and were primarily from customers in the United States and Canada, and approximately 23% of our revenues were in various international currencies from various international customers. Our exposure to foreign currency exchange rate changes has not been material. We expect that future license and service revenues will continue to be derived from international markets and may be denominated in the currency of the applicable market. Through December 31, 2003, we have maintained our international operations and have hired personnel in Europe and Asia Pacific. We have incurred limited operating expenses denominated in foreign currencies. Our future operating results may become subject to significant fluctuations based upon changes in the exchange rates of foreign currencies in relation to the United States dollar. In the future, we expect to engage in international sales denominated in both the United States dollar and in foreign currencies. An increase in the value of the United States dollar relative to foreign currencies could make our products less competitive in international markets. Although we will continue to monitor our exposure to currency fluctuations and, when appropriate, may use economic hedging techniques in the future to minimize the effect of these fluctuations, we can make no assurances that exchange rate fluctuations will not adversely affect our financial results in the future. Through December 31, 2003, the Company had not engaged in foreign currency hedging activities.

Fixed Income Securities

At December 31, 2003, we had an investment portfolio of fixed income securities, including those classified as cash equivalents, of \$46.2 million compared to \$60.8 million at December 31, 2002. Our exposure to financial market risk, including changes in interest rates, relates primarily to our investment portfolio. Our general policy is to limit the risk of principal loss and ensure the safety of invested funds by limiting market and credit risk. This exposure is limited by the establishment and strict monitoring of compliance with our investment policy which provides for investments in fixed income securities with maturities not exceeding 18 months. This policy also establishes credit quality standards and limits investment exposure to any one issuer. We do not invest in any derivative instruments. Due mainly to the relatively short-term nature of our available-for-sale investment portfolio, the fair value of our investment portfolio or related income would not be significantly impacted by a 100 basis point increase or decrease in interest rates.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements required by this item are submitted as a separate section of this annual report on Form 10-K. See Item 15.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Quarterly Evaluation of Our Disclosure Controls and Internal Controls: As of December 31, 2003 (the Evaluation Date), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (the Disclosure Controls), as such term is defined in Rules

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended, and our internal controls and procedures for financial reporting (the Internal Controls). This evaluation (the Controls Evaluation) was done under the supervision and with the participation of management, including our CEO and CFO. Rules adopted by the SEC require that we present the conclusions of the CEO and the CFO about the effectiveness of our Disclosure Controls and Internal Controls based on and as of the date of the Controls Evaluation.

Table of Contents

Certifications: Attached as Exhibits 31.1, 31.2 and 32.1 are two separate forms of certifications of the CEO and the CFO. The certifications attached as Exhibits 31.1 and 31.2 are required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 (the Section 302 Certifications). The information contained in this Item 9A relates to the Controls Evaluation referred to in the Section 302 Certifications, and should be read with the Section 302 Certifications for a more complete understanding of the topics presented.

Disclosure Controls and Internal Controls over Financial Reporting: Our management, including the CEO and the CFO, and has responsibility for establishing and maintaining adequate disclosure and internal controls over our financial reporting. Disclosure Controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, such as this Annual Report on Form 10-K, is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms. Disclosure Controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the CEO and the CFO, as appropriate to allow timely decisions regarding required disclosure. Internal Controls are procedures that are designed with the objective of providing reasonable assurance regarding the reliability of financial reporting and include those policies and procedures that provide reasonable assurances that our transactions are properly authorized, our assets are safeguarded against unauthorized or improper use, and our transactions and dispositions of assets are properly recorded and reported, all to permit the preparation of our financial statements in conformity with GAAP.

Limitations on the Effectiveness of Controls: Our management, including the CEO and CFO, does not expect that our Disclosure Controls or our Internal Controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. In addition, over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Scope of the Controls Evaluation: The CEO and CFO evaluation of our Disclosure Controls and our Internal Controls included a review of the controls objectives and design, our controls implementation and the effect of the controls on the information generated for use in this Annual Report on Form 10-K. In the course of the Controls Evaluation, we sought to identify data errors, control problems or acts of fraud and to confirm that appropriate corrective actions, including process improvements, were being undertaken. We will perform this type of evaluation on a quarterly basis so that the conclusions concerning controls effectiveness can be reported in our Quarterly Reports on Form 10-Q and Annual Report on Form 10-K. The overall goals of these various evaluation activities are to monitor our Disclosure Controls and our Internal Controls and to make modifications as necessary. Our intent in this regard is that the Disclosure Controls and the Internal Controls will be maintained as dynamic systems that change (including with improvements and corrections) as conditions warrant.

Among other matters, we sought in our evaluation to determine whether there were any significant deficiencies or material weaknesses in our Internal Controls, or whether we have identified any acts of fraud involving personnel who have a significant role in our Internal Controls. This information was important both for the Controls Evaluation generally and because item 5 in the Section 302 Certifications require that the CEO and CFO disclose such information to the Audit Committee of our Board of Directors and to our independent auditors and to report on related matters in this section of the Annual Report on Form 10-K. In the professional auditing literature, significant deficiencies are referred to as reportable conditions, which are control issues that could have a significant adverse effect on the ability to record, process, summarize and report financial data in the financial statements. A material weakness is defined in the auditing literature as a particularly serious reportable condition where the internal control does not reduce to a relatively low level the risk that misstatements caused by error or

Table of Contents

fraud may occur in amounts that would be material in relation to the financial statements and not be detected within a timely period by employees in the normal course of performing their assigned functions. We also sought to deal with other controls matters in the Controls Evaluation, and in each case if a problem was identified, we considered what revision, improvement or correction to make in accordance with our on-going procedures.

Conclusions: Based upon the Controls Evaluation, our CEO and our CFO have concluded that, subject to the limitations noted above, our Disclosure Controls and Internal Controls and procedures are effective in alerting them on a timely basis to material information related to us (including our consolidated subsidiaries) that is required to be included in our reports filed or submitted under the Securities and Exchange Act of 1934, as amended.

Changes in Internal Controls over Financial Reporting: In accordance with SEC requirements, our CEO and CFO note that, during the the quarter ended December 31, 2003, there have been no changes in Internal Controls or in other factors that could materially affect or are reasonably likely to materially affect such controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

Table of Contents**PART III**

Certain information required by Part III is omitted from this Report on Form 10-K since we will file a definitive Proxy Statement for our Annual Meeting of Stockholders to be held on June 4, 2004, pursuant to Regulation 14A of the Securities Exchange Act of 1934, as amended (the Proxy Statement), not later than 120 days after the end of the fiscal year covered by this Report, and certain information included in the Proxy Statement is incorporated herein by reference.

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT**(a) Executive Officers**

The following table sets forth certain information regarding our executive officers as of March 11, 2004:

<u>Name</u>	<u>Age</u>	<u>Office(s)</u>
Monte Zweben	40	Chairman and Chief Executive Officer
Eran Pilovsky	43	Chief Financial Officer
Mary Hamershock	41	Vice President, Human Resources
Claire Hough	44	Vice President, Product Development

Monte Zweben has served as our Chairman and Chief Executive Officer since June 1998. From November 1997 to June 1998, Mr. Zweben was an Entrepreneur in Residence at Matrix Partners and Institutional Venture Partners, two venture capital firms. From October 1996 to November 1997, Mr. Zweben was Vice President and General Manager at PeopleSoft, Inc., a provider of enterprise applications. From 1992 to December 1996, Mr. Zweben was Chairman, President and Chief Executive Officer of Red Pepper Software Company. From September 1986 to December 1992, Mr. Zweben was the Deputy Branch Chief of the NASA Ames Research Center's Artificial Intelligence Branch. Mr. Zweben serves on the board of directors of Advent Software, Inc. and the School of Computer Science at Carnegie-Mellon University. Mr. Zweben has a master's degree in computer science from Stanford University and a bachelor's degree in computer science and industrial management from Carnegie-Mellon University.

Eran Pilovsky has served as our Chief Financial Officer since August 2003, having joined the Company as Vice President of Finance in March 2002. Prior to joining Blue Martini Software, from January 2000 to October 2001, Mr. Pilovsky served as Chief Financial Officer of Vvyo, Inc., a NASDAQ-listed supplier of broadband wireless systems. From October 1997 to January 2000, he was a partner with Ernst & Young LLP, having joined Ernst & Young's audit practice in September 1985. Mr. Pilovsky is a cum laude graduate of the University of San Francisco with a B.S. in Business Administration, and is also a Certified Public Accountant in California.

Mary Hamershock has served as our Vice President, Human Resources since May 2001, having joined the Company as Director, Human Resources in February 2000. Before joining Blue Martini, Ms. Hamershock served as an independent consultant and Human Resources Director for Calico Commerce from March 1999 to February 2000. Prior to Calico Commerce, Ms. Hamershock served in recruiting and human resources roles for Netscape Communications from March 1996 to June 1998. Ms. Hamershock has a bachelor's degree of arts in history from Mills College.

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

Claire Hough joined the Company in November 2002. From September 2001 to September 2002, Ms. Hough served as Vice President of Engineering for Napster Inc. From April 2000 to July 2001, Ms. Hough was Executive Vice President of Products at eTime Capital. From September 1995 to April 2000, Ms. Hough was Vice President and General Manager of the Directory and Security Division at Netscape Communications Inc. Ms. Hough holds bachelor's and master's degrees of science in operations research from the University of California at Berkeley.

Table of Contents**(b) Directors**

The following table sets forth certain information regarding our Board of Directors as of March 11, 2004, and their ages as of such date:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Monte Zweben (1)	40	Chairman
Dennis Carey (1)	57	Director
Mel Friedman (1)(2)(3)(4)(5)	65	Director
Dominic Gallelo (3)(4)(5)	49	Director
Amal Johnson (2)	51	Director
Andrew Verhalen (2)	46	Director
Gary A. Wetsel	58	Director
William Zuendt (1)(3)(5)	56	Director

- (1) Member of the Audit Committee of the Board of Directors.
- (2) Member of the Compensation Committee of the Board of Directors.
- (3) Member of the Nominating Committee of the Board of Directors.
- (4) Member of the Litigation Committee of the Board of Directors.
- (5) Member of the Governance Committee of the Board of Directors.

Set forth below is biographical information of the Company's board of directors, other than Mr. Zweben who is an officer of Blue Martini as well as a director and whose biographical information may be found in the section entitled "Executive Officers" above:

Dennis Carey has served as a director since July 2002. Mr. Carey is executive vice president of Motorola, Inc. and president and chief executive officer of Motorola's Integrated Electronic Systems Sector. Previously, Mr. Carey served as executive vice president of business development, strategy and corporate operations for The Home Depot, Inc. ("Home Depot") from May 2001 to March 2002. He joined Home Depot in May 1998 as executive vice president and chief financial officer and served in that capacity until May 2001. From 1994 to 1998, Mr. Carey was employed by AT&T Corp. ("AT&T") in several roles, most recently as vice president and general manager, corporate productivity and mergers and acquisitions from December 1996 to May 1998 and, prior to that, as vice president and chief financial officer for international operations from January 1996 to December 1996.

Mel Friedman has served as a director since May 2002. Mr. Friedman retired in 2002 from Sun Microsystems Inc. ("Sun"), where his most recent position was senior vice president of customer advocacy. Mr. Friedman has served in several other high-level roles for Sun, including president of Sun's Microelectronics division, vice president of worldwide operations for Sun's systems operation, vice president of west coast operations, and vice president of supply management, since joining the company in 1989. Mr. Friedman is also currently a director of Electrogas, Inc.

Dominic Gallelo has served as a director since April 2003. Since September 2003, Mr. Gallelo has served as chief executive officer of Graphisoft. From October 2002 to April 2003, Mr. Gallelo served as executive vice president, Corporate Development for Macromedia, Inc. Mr. Gallelo joined Macromedia in October 2001, initially responsible for Macromedia's Rich Media Division and serving as executive vice president, Products from June 2002 until October 2002. Before joining Macromedia, Mr. Gallelo served as chief executive officer of RedSpark, Inc., a provider of enterprise supply chain software, from its May 2000 inception as a spinoff of Autodesk Inc. to October 2001. Mr. Gallelo joined Autodesk in 1992 and served in a number of executive positions there, including vice president of Asia-Pacific, vice president of the Manufacturing Solutions Group, and executive vice president of the Design Solutions Group.

Amal Johnson has served as a director since January 2004. Ms. Johnson is currently a venture partner of Lightspeed Venture Partners, focusing on enterprise software and infrastructure, having joined as a general partner in 1999. Previously, Ms. Johnson was president of Baan Supply Chain Solutions from January 1998 to December 1998, president of Baan Affiliates from January 1997 to December 1997, and president of Baan Americas from October 1994 to December 1996. Prior to that, Ms. Johnson served as president of ASK Manufacturing Systems August 1993 to July 1994 and held executive positions at IBM 1987 to June 1993. Ms. Johnson serves on the boards of MAE Software, Inc. and Alibris.

Table of Contents

Andrew Verhalen has served as a director since January 1999. Mr. Verhalen has been a general partner of entities associated with Matrix Partners since April 1992. From 1986 to 1991, Mr. Verhalen served as a divisional vice president and general manager at 3Com Corporation. Mr. Verhalen currently serves on the board of directors of Digital Fountain, Inc. and Onetta, Inc.

Gary A. Wetsel has served as a director since March 2004. Since April 2002, Mr. Wetsel has served as executive vice president, chief financial officer and chief administrative officer of Aspect Communications Corp. From February 2000 to April 2002, Mr. Wetsel served as vice president and chief financial officer for Zhone Technologies, Inc. From 1998 to February 2000, Mr. Wetsel served as president and chief executive officer of Warpspeed Communication Corp. Before Warpspeed, Mr. Wetsel held senior executive positions with several high tech companies, including Wyse Technologies, Inc., Borland International, Inc., Octel Communications Corporation, Ungermann-Bass, Inc., and Rolm Corporation.

William Zuendt has served as a director of the Company since August 1998. Mr. Zuendt retired as president and chief operating officer of Wells Fargo & Company, a bank holding company, and its principal subsidiary, Wells Fargo Bank in 1997 after serving in that position since 1994. Mr. Zuendt currently serves on the board of directors of Advent Software, Inc.

INDEPENDENT AUDITORS REPORT

The Stockholders and Board of Directors

Blue Martini Software, Inc.:

We have audited the accompanying consolidated balance sheets of Blue Martini Software, Inc. and subsidiaries as of December 31, 2003 and 2002 and the related consolidated statements of operations, stockholders' equity and comprehensive loss and cash flows for each of the years in the three-year period ended December 31, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Blue Martini Software, Inc. and subsidiaries as of December 31, 2003 and 2002, and the results of their operations and their cash flows for each of the years in the three-year-period ended December 31, 2003, in conformity with accounting principles generally accepted in the United States of America.

BLUE MARTINI SOFTWARE, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

The Company: Blue Martini Software, Inc. (the Company) provides software designed to enable companies to sell more, by proactively guiding salespeople, partners, and customers through selling interactions, as well as services related to the implementation and maintenance of the software.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates: The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition: The Company derives its revenues from licenses of its software products and the related professional services and customer support (maintenance) services. The Company's standard license agreements provide for an initial fee for use of the Company's products in perpetuity, typically limited to a number of servers (CPUs), business units, geographies, brands or other similar limitations. The Company sells its suite of applications through a direct sales force. The Company licenses its software in multiple element arrangements in which typically the customer purchases a combination of software and maintenance. In a typical arrangement, professional services are sold separately and are not considered essential to the functionality of the software.

The Company recognizes revenue in accordance with SOP 97-2, *Software Revenue Recognition*, as amended, and recognizes revenue when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred, (3) the fee is fixed or determinable and (4) collectibility is probable. The Company defines each of these four criteria as follows:

Persuasive evidence of an arrangement exists. It is the Company's policy to have a written contract signed by both the customer and the Company.

Delivery has occurred. The Company's software is electronically delivered to the customer. Delivery is deemed to have occurred upon notification to the customer of a user ID and password for download of the software from a secure server.

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

The fee is fixed or determinable. The Company's policy is not to provide customers the right to a refund of any portion of its license fees. If an arrangement fee is not considered fixed or determinable, revenue is recognized as payments become due.

Collectibility is probable. Collectibility is assessed on a customer-by-customer basis and the Company's experience in certain geographies. Customers are subjected to a credit review process, which evaluates the customers' financial positions and ultimately their ability to pay. If it is determined from the outset of an arrangement that collectibility is not probable based upon the Company's credit review process, revenue is recognized on a cash-collected basis. Based on the Company's limited experience in certain geographies and where creditworthiness may be difficult to ascertain, the Company recognizes revenue from these geographies upon cash collection.

The Company allocates revenue on software arrangements involving multiple elements to each element based on the residual value method prescribed by SOP 89-9. Under the residual method, if VSOE of fair value exists for all undelivered elements, but does not exist for the delivered element, revenue is allocated to the undelivered elements based on VSOE of fair market value and the residual is allocated to the delivered element. The Company limits its assessment of VSOE for each element to the price charged when the same

Table of Contents

element is sold separately. The Company has analyzed all of the elements included in its multiple-element arrangements and determined that it has sufficient VSOE to allocate revenue to maintenance and technical support services, professional services and training components of its perpetual license arrangements. The Company sells its professional services and training separately, and has established VSOE on this basis. VSOE for maintenance is determined based upon the customer's annual renewal rates. Accordingly, assuming all other revenue recognition criteria are met, revenue from perpetual licenses is recognized upon delivery using the residual method. Fees for maintenance are deferred and recognized ratably over the term of the support period.

The Company's professional services generally are not essential to the functionality of the software. The Company's suite of applications is fully functional upon delivery and implementation and does not require any significant modification or alteration. Customers purchase the Company's professional services to facilitate the implementation of the Company's technology but they may also decide to use their own resources or appoint other professional service organizations to provide these services. Software products are negotiated independently from professional services, which may be based on a time-and-materials, milestone-achieved or fixed fee basis. The Company generally recognizes revenue from professional services as the services are performed. For fixed-fee and milestone-based projects, the Company makes ongoing assessments throughout the duration of each engagement as to whether a loss will be incurred on a project. Losses on projects are recognized in the period identified.

After the completion of its acquisition of Cybrant in April 2002, the Company began offering Cybrant's software products for sale. Because the Company's professional services related to these arrangements were deemed essential to the functionality of the software, the Company initially accounted for license revenues from the Cybrant software products using the percentage of completion method under SOP No. 81-1, *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*. In the fourth quarter of 2002, upon repeated successful implementations of the Cybrant application, it was determined that the Company's professional services were not essential to the functionality of the software. Therefore, the Company began to recognize license transactions closed in the fourth quarter of 2002 relating to the Cybrant software products upon delivery instead of using the percentage of completion method, subject to all other revenue recognition criteria.

Cost of license revenue consists primarily of royalties paid to third parties for licensing of technology and amortization of purchased technology.

Cost of service revenues consist primarily of salaries and other personnel-related expenses, costs of services provided by third party consultants engaged by the Company, and allocated overhead costs (including facilities, equipment depreciation, information systems, and other corporate infrastructure costs.)

Deferred revenues generally result from the following: deferred maintenance, cash received for professional services not yet rendered and license revenues relating to arrangements where the Company has received cash and the revenue is not yet recognizable.

Cash, Cash Equivalents and Short-Term Investments: The Company considers all highly liquid investments with remaining maturities of three months or less at the date of purchase to be cash equivalents. Cash and cash equivalents include money market funds, commercial paper and various deposit accounts. Cash equivalents are recorded at cost, which approximates fair value. The objective of the Company's investment policy is preservation of the value of its investment portfolio while maintaining adequate financial liquidity. The Company invests in high-quality fixed-income investment securities with maturities of 18 months or less.

The Company's investments are classified as available-for-sale and are carried at fair value based on quoted market prices. The Company has the intent to maintain a liquid portfolio and has the ability to redeem its investments at their carrying amounts. Therefore, all investments are classified as short-term. These investments consist of fixed-income securities that include commercial paper, corporate bonds and notes, U.S.

treasury securities, US government agency securities and asset-backed securities. Unrealized holding gains and losses are excluded from earnings and are reported as a separate component of other comprehensive income until realized. Realized gains and losses from the sale of available-for-sale securities are determined on the specific identification basis. The Company reviews its investments in

Table of Contents

marketable securities on a regular basis to determine whether or not each security has experienced an other-than-temporary decline in fair value. The Company considers the security issuer's cash position, earnings/revenue outlook, liquidity and management/ownership, among other things, in its review. If the Company concludes that an other-than-temporary decline exists in its marketable equity securities, the Company writes down the investment to the market value and records the related write-down as an investment loss on its consolidated statement of operations. To date the Company has not recorded any such investment losses.

Concentration of Credit Risk: The Company places its cash, cash equivalents and investments with financial institutions with high credit ratings. The Company's accounts receivable are derived from licenses and services provided to customers principally in North America, Europe and Asia. The Company performs ongoing evaluations of its customers' financial condition and generally requires no collateral from its customers on accounts receivable. The Company maintains allowances for estimated credit losses based on management's assessment of the likelihood of collection.

Property and Equipment: Property and equipment are recorded at cost. Depreciation of property and equipment is computed using the straight-line method over the estimated useful lives of the respective assets. Depreciation of computer equipment is provided for over estimated useful lives ranging from 18 to 36 months, while furniture and office equipment are depreciated over estimated useful lives of 60 months. Leasehold improvements and assets recorded under capital leases are amortized over the estimated useful lives of the assets or the lease term, whichever is shorter, and range from 36 to 60 months.

Software Development Costs: Development costs incurred in the research and development of new software products are expensed as incurred until technological feasibility has been established, at which time such costs are capitalized, subject to recoverability. Technological feasibility is established upon the completion of an integrated working model. Costs incurred by the Company between completion of the working model and the point at which the product is ready for general release have not been significant. Accordingly, the Company has charged all costs to research and development expense in the period incurred.

Long-lived Assets and Other Intangible Assets: In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company reviews long-lived assets, including intangible assets other than goodwill, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable based on expected undiscounted cash flows attributable to that asset. The amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset.

Restructuring: The Company's restructuring charges are comprised primarily of: (1) severance and associated employee termination costs resulting from the Company's reduction of workforce; and (2) lease termination costs and other costs related to excess facilities. These charges were incurred pursuant to formal plans developed by management and accounted for in accordance with SEC SAB No.100 *Restructuring and Impairment Charges* and SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which supercedes Emerging Issues Task Force (EITF) Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)*. The recognition of restructuring charges requires the Company's management to make judgments and estimates regarding the nature, timing, and amount of costs associated with the planned restructuring activity, including estimating the time it will take to sublease excess facilities and determining sublease terms and rates. The Company evaluates the remaining accrued balances to ensure their adequacy and the utilization of the provisions are for their intended purposes in accordance with developed restructuring plans.

Advertising: The Company expenses advertising costs as incurred. Advertising costs included in sales and marketing expense in the accompanying consolidated statements of operations for 2003, 2002, and 2001 were \$71,000, \$70,000 and \$2.2 million, respectively. In 2001, advertising agency fees and production costs in the amounts of \$560,000 were paid to a firm whose chairman and chief creative officer was also a member of the Company's board of directors. In 2001, the Company reimbursed this firm for third-party direct advertising placement fees of

approximately \$4.5 million. The Company did not have any such transactions in 2003 and 2002.

Table of Contents

Product Warranty: The Company provides its customers with a limited warranty on its software products. Such warranties are accounted for in accordance with SFAS No. 5, *Accounting for Contingencies*. To date the Company has not incurred any costs related to warranty obligations. The Company's software license agreements generally include an indemnification provision for claims from third parties relating to the company's intellectual property. Such indemnification provisions are accounted for in accordance with SFAS No. 5. The indemnification may be limited to a portion of the amount paid by the customer. To date, claims under such indemnification provisions have not been significant.

Income Taxes: The Company uses the asset and liability method to account for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in income in the period the change is enacted. A valuation allowance is established to reduce deferred tax assets to an amount whose realization is more likely than not.

Stock-Based Compensation: The Company has employee stock benefit plans, which are described more fully in Note 10: Stockholders' Equity. The Company has adopted the disclosure-only provisions of SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure*, which amended SFAS 123, *Accounting for Stock-Based Compensation*. As permitted by SFAS No. 148, the Company accounted for stock option plans under the intrinsic value recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, FASB Interpretation No. 28, *Accounting for Stock Appreciation Rights and Other Variable Stock Option or Award Plans* and FASB Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25*.

Under APB Opinion No. 25, compensation expense for stock options is based on the difference, if any, on the date of the grant, between the fair value of the Company's stock and the exercise price. SFAS No. 148 defines a fair value method of accounting for an employee stock option or similar equity investment. The Company discloses the pro forma net loss as if the fair value method had been adopted.

With the Company's adoption of the disclosure-only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, the estimated fair value of the options is assumed to be amortized to expense over the options' vesting periods.

Foreign Currency: The financial statements of foreign subsidiaries are measured using the local currency of the subsidiary as the functional currency. Accordingly, assets and liabilities of the subsidiaries are translated at current rates of exchange at the balance sheet date and all revenue and expense items are translated using average exchange rates. The resultant losses from translation at December 31, 2003 and 2002 were (\$754,000) and (\$293,000), respectively.

Foreign transaction gains and losses are included in interest income and other, net, and, were not material for the years ended December 2003, 2002 and 2001. In addition, the Company did not hold any foreign currency derivative instruments at December 31, 2003, 2002 and 2001.

Accumulated Other Comprehensive Income (Loss): Other comprehensive income (loss) includes unrealized gains and losses on available-for-sale investments and foreign currency translation adjustment gains (losses).

Net Loss Per Common Share: Basic net loss per common share is computed using the weighted-average number of outstanding shares of common stock during the period, excluding shares of restricted stock subject to repurchase. Dilutive net loss per common share is computed using the weighted-average number of common shares outstanding during the period and, when dilutive, potential common shares from options and warrants to purchase common stock and common stock subject to repurchase, using the treasury stock method. Potential common shares consist of unvested restricted common stock, stock options and warrants.

Table of Contents

The Company has adopted the disclosure-only provisions of SFAS 148 (enter title of SFAS), which amended SFAS No. 123, *Accounting for Stock-Based Compensation*. The following table shows the Company's net loss for 2003, 2002 and 2001 had the Company applied the fair value recognition provisions of SFAS No. 148 (in thousands, except per share amounts):

	Year Ended December 31,		
	2003	2002	2001
Net loss, as reported	\$ (17,587)	\$ (58,852)	\$ (69,604)
Add (Deduct): Stock-based employee compensation included in reported net loss	1,336	(794)	12,014
Deduct: Total stock-based employee compensation expense determined under fair value method for all awards	(5,790)	(6,968)	(26,588)
Pro forma net loss	\$ (22,041)	\$ (66,614)	\$ (84,178)
Earnings per share:			
Basic and diluted - as reported	\$ (1.61)	\$ (5.80)	\$ (7.62)
Basic and diluted - as pro forma	\$ (2.01)	\$ (6.57)	\$ (9.21)

The fair value of each option granted was estimated on the date of grant using the Black-Scholes option-pricing model with no expected dividends and using the following assumptions: expected four-year lives for all options issued in 2001, expected lives ranging from five months to four years for options granted in 2002 and expected lives of 3.7 years for options granted in 2003; 46%, 95% and 100% expected volatility for 2003, 2002 and 2001, respectively; and average risk-free interest rate of 3.2%, 2.7%, and 4.4% for the years 2003, 2002, and 2001, respectively. Under SFAS No. 123, the weighted-average fair values of options granted were \$1.76, \$1.98, and \$2.70, for 2003, 2002, and 2001, respectively.

Under SFAS No. 123, the weighted-average fair values of common stock purchase rights (per-share) granted under the 2000 Employee Stock Purchase Plan were \$1.09, \$2.44 and \$0.15 for 2003, 2002 and 2001, respectively. The fair value of stock purchased under the Employee Stock Purchase Plan was estimated on the dates of grant using the Black-Scholes option-pricing model with no expected dividends and using the following assumptions: expected lives of six months to two years; 65% expected volatility for 2003, 95% for 2002 and 100% for 2001; and average risk-free interest rate of 2.64%, 2% and 2.54% for the years 2003, 2002 and 2001, respectively.

The weighted-average number of shares of restricted stock subject to repurchase for 2003, 2002, and 2001 were approximately 20,000, 87,000, and 347,000, respectively.

The following potential common shares outstanding have been excluded from the calculation of diluted net loss per share for all periods presented because the effect would have been anti-dilutive (in thousands):

December 31,

	<u>2003</u>	<u>2002</u>	<u>2001</u>
Shares issuable under stock options	3,300	3,807	2,030
Shares of restricted stock subject to repurchase	20	87	347
Shares issuable pursuant to warrants	477	442	153

The weighted-average exercise prices of stock options were \$5.14, \$6.25 and \$33.67 at December 31, 2003, 2002, and 2001, respectively. The weighted-average purchase prices of restricted stock were \$16.92, \$7.21 and \$3.52 at December 31, 2003, 2002 and 2001, respectively. The average exercise prices of outstanding warrants were \$8.45 at December 31, 2003 and 2002 and \$9.13 at December 31, 2001.

Table of Contents

Common Stock Split: On November 13, 2002, the Company completed a one-for-seven reverse stock split of the common stock affecting all outstanding shares of common stock, stock options and warrants of the Company. All references in the accompanying consolidated financial statements and notes thereto to earnings per share and the number of common shares have been retroactively adjusted to reflect the reverse stock split.

Recent Accounting Pronouncements: In April 2003, the FASB issued SFAS No. 149, *Amendments of Statement 133 on Derivative Instruments and Hedging Activities*, which amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS No. 133. SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. The Company adopted the provision of SFAS No. 149 as of July 1, 2003. The adoption of SFAS No. 149 did not have a material impact on our financial condition or results of operations.

In December 2003, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 104 *Revenue Recognition* , which codifies, revises and rescinds certain sections of SAB No. 101, *Revenue Recognition* , in order to make this interpretive guidance consistent with current authoritative accounting and auditing guidance and SEC rules and regulations. The changes noted in SAB No. 104 did not have an impact on the Company s financial position or results of operations.

2. Cybrant Acquisition

In April 2002, Blue Martini completed its acquisition of The Cybrant Corp. (Cybrant). Cybrant s products enabled its customers to automate complex selling processes and solve complex business problems internally through the use of the software s solutions architecture. Through the acquisition, the Company fortified its manufacturing and retail industry solutions by adding Cybrant s interactive selling suite to its existing applications. The operating results of Cybrant have been included with the Company s results beginning with the date of acquisition.

The purchase price was approximately \$7.6 million, comprised of (1) approximately 575,000 shares of common stock valued at \$1.58 per share based on the average market price of Blue Martini s common stock over a five-day period including the two days before and the two days after the day the terms of the acquisition were agreed to and announced, (2) warrants exchanged for the purchase of approximately 73,000 shares of common stock at a price of \$6.44 per share, expiring in January and March 2007, and (3) \$552,000 in costs related to the transaction and exit activities. The amounts and components of the purchase price are presented below (in thousands):

Fair value of common stock issued	\$ 6,363
Fair value of warrants exchanged	672
Restructuring and exit costs	352
Acquisition-related costs	200
	<u>\$ 7,587</u>

The purchase price was allocated to assets and liabilities acquired, based on a valuation analysis. Approximately 20% of the shares issued in the Merger were set aside in an escrow arrangement pending resolution of general representations and warranties.

Approximately \$800,000 of the purchase price represented the estimated fair value of acquired in-process research and development projects that had not yet reached technological feasibility and had no alternative future use. Accordingly, this amount was immediately charged to expense upon the acquisition date and was included in the accompanying statements of operations for the year ended December 31, 2002. The value assigned to purchased in-process research and development was comprised of development projects that were labeled at the acquisition time as Versions 4.2 and 5.0 of the Cybrant product. The estimated fair value of these projects was determined by employment of a discounted cash flow model using a discount rate of 35%. The discount rates used take into consideration the stage of completion and the risks surrounding the successful development and commercialization of each of the purchased in-process research and development projects that were valued. The acquired in-process technology Version 4.2 was commercialized in 2002. The acquired in-process technology Version 5.0 was commercialized in 2003.

Table of Contents

The purchased technology and other intangible assets were being amortized to expense over two years assuming no residual value. Goodwill arising from the acquisition was attributable to the expected synergies in combining product lines. The amount assigned to goodwill was not subject to amortization. See Note 6 for a discussion of the subsequent write-off of goodwill and the majority of the intangible assets due to impairment.

The following condensed balance sheet discloses the amounts assigned to the acquired assets and liabilities as of the acquisition date (in thousands):

ASSETS	
Cash	\$ 152
Accounts receivable, net	425
Prepaid expenses and other current assets	325
Property and equipment, net	138
Purchased technology	2,400
In-process research and development	800
Other intangible assets	300
Goodwill	5,608
	<hr/>
Total assets	\$ 10,148
	<hr/>
LIABILITIES:	
Accounts payable	\$ 81
Accrued employee compensation	331
Lease and debt obligations	1,580
Other current liabilities	412
Deferred revenues	157
	<hr/>
Total liabilities	\$ 2,561
	<hr/>
Net assets (purchase price)	\$ 7,587
	<hr/>

In September 2003, the Company recorded a benefit of \$673,000 representing purchase price adjustments resulting from the final resolution of acquisition related costs, acquired liabilities, and the retirement of shares held in escrow.

3. Short-Term Investments

The following is a summary of short-term investments (in thousands):

December 31, 2003			
<u>Cost</u>	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value

Short-term Investments:				
Corporate obligations	\$ 8,164	\$ 4	\$	\$ 8,168
US treasury and government agency securities	22,608	17	(2)	22,623
Asset-back securities	74			74
	<u>\$ 30,846</u>	<u>\$ 21</u>	<u>\$ (2)</u>	<u>\$ 30,865</u>

Table of Contents

	December 31, 2002			Estimated Fair Value
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	
Short-term Investments:				
Corporate obligations	\$ 34,280	\$ 129	\$ (5)	\$ 34,404
US treasury and government agency securities	16,592	84		16,676
Asset-back securities	1,920	21		1,941
	<u>\$ 52,792</u>	<u>\$ 234</u>	<u>\$ (5)</u>	<u>\$ 53,021</u>

Realized gains and losses from the sales of short-term and long-term investments for the years 2003, 2002, and 2001 were not material.

4. Accounts Receivable

Accounts receivable consisted of the following (in thousands):

	December 31,	
	2003	2002
Accounts receivable	\$ 4,221	\$ 5,704
Unbilled receivables	170	763
	<u>4,391</u>	<u>6,467</u>
Allowance for doubtful accounts	(604)	(701)
	<u>\$ 3,787</u>	<u>\$ 5,766</u>

Additions to the allowance of doubtful accounts in 2003, 2002 and 2001 were \$100,000, \$200,000 and \$1.4 million, respectively. Write-offs of accounts receivable in 2003, 2002 and 2001 were \$197,000, \$10,000, and \$1.8 million, respectively.

5. Property and Equipment

Property and equipment, excluding fully depreciated items, consisted of the following (in thousands):

	December 31,	
	2003	2002
	-----	-----
Computer equipment	\$ 1,255	\$ 543
Furniture and office equipment		126
	-----	-----
	1,255	669
Less: accumulated depreciation and amortization	(786)	(70)
	-----	-----
	\$ 469	\$ 599
	-----	-----

During 2001, the Company evaluated the future usage of its computer network infrastructure in light of the operating activities. Management committed to plans of disposal for certain of these assets, and accordingly, classified these assets as held-for-disposal and recorded an impairment loss of \$638,000 in 2001. This amount is not included in the restructuring charges in 2001, but has been allocated to the expense categories in the consolidated statement of operations according to the functional department of the underlying asset. Depreciation of these assets ceased and the assets were disposed of in 2002.

In 2002, the Company performed an impairment analysis of its property and equipment and determined the carrying amount exceeded its fair value. As a result of this analysis, the Company wrote off \$1.5 million of property and equipment in fiscal 2002. See Note 6 for further discussion.

Table of Contents**6. Long-lived Assets and Other Intangibles, Net**

Intangible assets and other, net consisted of the following (in thousands):

	December 31,	
	2003	2002
Purchased software licenses and patents	\$ 600	\$ 600
Other	302	422
	<u>902</u>	<u>1,022</u>
Less accumulated amortization	(600)	(120)
	<u>\$ 302</u>	<u>\$ 902</u>

In September 2002, a sharp decline in the Company's stock price resulted in the Company's market capitalization being significantly below its net asset value. The Company determined that this condition triggered a review of its long-lived assets in accordance with SFAS No. 144. Accordingly, the Company performed an impairment analysis of its property and equipment, intangible assets and other long-lived assets, other than goodwill, as of September 30, 2002 and determined that the carrying amount of its property and equipment, intangible assets and other long-lived assets exceeded their respective fair values. As a result, the Company recorded an impairment charge of approximately \$11.1 million.

SFAS 142, "Goodwill and Other Intangible Assets" requires that goodwill be tested for impairment if a SFAS No. 144 triggering event has occurred. Accordingly, the Company performed an impairment analysis of its goodwill arising from the Cybrant acquisition. As the Company has determined that it operates in a single segment with one reporting unit, the fair value of its reporting unit was determined based on the Company's market capitalization on the date of the impairment testing. As a result of this analysis, the Company wrote off all \$5.6 million of goodwill at September 30, 2002.

The Company estimated the fair value of its long-lived assets based on a combination of the market, income and replacement cost approaches. In the application of the impairment testing, the Company was required to make estimates of future operating trends and resulting cash flows and judgments on discount rates and other variables. Actual future results and other assumed variables could differ from these estimates.

The impairment charge to goodwill, other intangible assets and other long-lived assets from the impairment review resulted in a write-off of the net book value as follows:

Goodwill	\$ 5,608
Acquisition-related technology	1,350
Other intangible assets	8,220
Property and equipment	1,500
	<u> </u>

Total	\$ 16,678
-------	-----------

The remaining balances in property and equipment and acquisition-related technology and intangibles are being depreciated and amortized, respectively, over their remaining estimated lives.

In addition to the above adjustments to long-lived assets, goodwill and other intangible assets, the Company also accelerated the amortization of \$638,000 relating to technology rights in the form of prepaid royalties based on a reduced estimate of useful lives for these assets in 2002.

Table of Contents**7. Accrued Employee Compensation**

In December 2001, in connection with the employment agreement for one executive officer of the Company, a contingent liability to the executive's former employer related to the reimbursement of deferred compensation amounting to \$2.1 million was included in accrued employee compensation as of December 31, 2002 and 2001. The executive officer's employment with the Company terminated in 2002, and the executive officer resumed employment with his former employer. As of December 31, 2003, the Company's potential obligation relating to the employment agreement had expired, and the \$2.1 million accrual, which was allocated between cost of service revenue and operating expenses, was reversed in the accompanying Statement of Operations for the year ended December 31, 2003.

8. Restructuring Charges

The Company implemented restructuring plans in 2001, 2002 and 2003, intended to strengthen the Company's future operating performance and competitive position by preserving cash and reducing costs. As part of these restructurings, the Company reduced its employee force. The restructuring actions in 2003 and 2002 also included vacating excess facilities. These actions resulted in a net restructuring charge of \$180,000 in 2003 \$6.4 million in 2002, and \$6.3 million in 2001.

As of December 31, 2003, the Company has accrued restructuring charges of \$2.4 million related to excess facilities, which will be paid through 2006. These accrued charges reflect estimates with respect to the time it will take to sublease the facilities, sublease terms, and sublease rates. Should there be changes in real estate market conditions or should it take longer than expected to find a suitable tenant to sublease the remaining vacant facilities, adjustments to the idle facilities lease losses reserve may be necessary in future periods based upon then current actual events and circumstances. The following tables summarize the activity related to restructuring activities in 2003 and 2002 (in thousands):

	Accrued at				Accrued at
	December 31,	Total	Non-cash	Cash	December 31,
	2002	Expense	Charges	Payments	2003
Lease cancellations/idle facility	\$ 3,418	\$	\$ (173)	\$ (814)	\$ 2,431
Severance and related charges	58	180		(238)	
	<u>\$ 3,476</u>	<u>\$ 180</u>	<u>\$ (173)</u>	<u>\$ (1,052)</u>	<u>\$ 2,431</u>
	Accrued at				Accrued at
	December 31,	Total	Non-cash	Cash	December 31,
	2001	Expense	Charges	Payments	2002
Lease cancellations/idle facility	\$ 458	\$ 3,335	\$	\$ (375)	\$ 3,418
Severance and related charges	18	3,028	(128)	(2,860)	58
	<u>\$ 476</u>	<u>\$ 6,363</u>	<u>\$ (128)</u>	<u>\$ (3,235)</u>	<u>\$ 3,476</u>

Table of Contents**9. Commitments and Contingencies**

Lease Commitments: The Company leases certain facilities, including its corporate headquarters, under non-cancelable operating leases. Rent expense for 2003, 2002 and 2001 was \$3.2 million, \$4.2 million and \$7 million, respectively. Future minimum lease payments under operating lease with non-cancelable terms of more than one year as of December 31, 2003 are as follows (excluding lease commitments reflected in accrued restructuring liabilities on the balance sheet) (in thousands):

<u>Year Ending December 31,</u>	
2004	\$ 2,509
2005	2,348
2006	840
Total	\$ 5,697

Letters of Credit: The Company maintains a letter of credit from a financial institution totaling \$866,000 at December 31, 2003 in lieu of security deposits to secure facility lease obligations. No amounts have been drawn against the letter of credit. The Company pledged \$962,000 and \$1.4 million as of December 31, 2003 and 2002, respectively, of cash equivalents held in trust as security for the letters of credit.

Royalties: The Company licenses technologies from third party software providers that are incorporated into the Company's product. Under the terms of these license agreements, which expire at various dates up to June 2007, the Company pays royalties at various rates and amounts, generally based on revenues. Royalty expense was \$1.1 million, \$1.5 million and \$4.3 million for 2003, 2002 and 2001, respectively. Such costs are included in the cost of license revenues (for new licenses sold) and in cost of service revenues (for maintenance contracts sold).

Legal Actions: The Company is subject to legal proceedings and claims, asserted or unasserted, that are in the ordinary course of business. The Company cannot predict the outcome of these proceedings and claims or the possible impact on the Company.

10. Stockholders' Equity

Common Stock: Each share of common stock has the right to one vote. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the board of directors subject to the rights of holders of all classes of stock having priority rights as to dividends. No cash dividends have been declared or paid through December 31, 2003.

Common Stock Repurchase Program: In June 2002, the Company's board of directors authorized the repurchase of up to 5% of the Company's outstanding common stock. As of December 31, 2002, the Company had repurchased and retired 91,000 shares of its common stock under this repurchase program in open market transactions at prevailing market prices for a total cost of approximately \$558,000, including commissions. The company did not repurchase shares under this program in 2003.

Table of Contents

Warrants: The Company issued warrants in 1999 thru 2002 in connection with marketing arrangements, leases, alliance agreement, executive searches and the Cybrant acquisition. The following table lists details relating to the warrants.

<u>Agreements with Warrants</u>	<u>Issue Date</u>	<u>Expiration Date</u>	<u>Shares</u>	<u>Price</u>
Lease	12/1/99	1/1/10	6,400	\$ 10.50
Marketing and business development	4/17/00	4/17/08	43,000	\$ 35.00
Marketing and business development	9/28/01	4/17/08	300,000	\$ 5.46
Executive search firm	10/25/01	10/25/06	12,000	\$ 7.70
Strategic alliance	6/30/02	6/30/10	43,000	\$ 6.16
Landlord - Cybrant acquisition	3/10/02	3/20/07	53,000	\$ 6.44
Financial institution - Cybrant acquisition	1/23/00	1/23/07	20,000	\$ 6.44
			<u>477,400</u>	

The fair value of the warrants was calculated based upon the Black-Scholes option pricing model using the fair value of the underlying common stock and assumptions on dividends, contractual life, risk free interest rate and expected volatility.

Stock Plans

2000 Equity Incentive Plan: The Company was initially authorized to issue up to 4.3 million shares in connection with the Equity Incentive Plan (Incentive Plan) to employees and consultants. For a period of ten years commencing on January 1, 2001, the share reserve will increase automatically each January 1st by the greater of 5% of the Company's diluted shares outstanding (as defined by the plan), or the number of shares granted under the Incentive Plan during the prior twelve-month period. The Incentive Plan provides for the issuance of stock purchase rights, common stock, incentive stock options or non-statutory stock options. At December 31, 2003, a total of 5.4 million shares were available for future issuance under the Incentive Plan.

The stock purchase rights are subject to a restricted stock purchase agreement whereby the Company has the right to repurchase the stock upon the voluntary or involuntary termination of the purchaser's employment from the Company at the original issuance price. The Company's repurchase right lapses at a rate determined by the board of directors, but at a minimum rate of 25% per year. As of December 31, 2003, approximately 20,000 shares of common stock, which have been issued to employees upon the exercise of unvested options, are subject to repurchase, at a weighted-average repurchase price of \$16.92 per share.

Under the Incentive Plan, the exercise price for incentive stock options is at least 100% of the stock's fair market value on the date of grant for employees owning 10% or less of the voting power of all classes of stock, and at least 110% of the fair market value on the date of grant for employees owning more than 10% of the voting power of all classes of stock. For nonstatutory stock options, the exercise price is at least 85% of the stock's fair market value on the date of grant for employees owning 10% or less of the voting power of all classes of stock, and at least 110% of the fair market value on the date of grant for employees owning more than 10% of the voting power of all classes of stock.

The Incentive Plan is administered by the board of directors, which has the authority to designate participants and to determine the number and type of options to be granted, the time at which options are exercisable, the method of payment, and any other terms or conditions of the options. Options generally have a term of up to 10 years and vest over up to four years.

Table of Contents

2000 Non-Employee Directors Stock Option Plan: Under the 2000 Non-Employee Directors Stock Option Plan (Directors Plan) approximately 43,000 common shares were originally reserved for issuance. For a period of ten years commencing on January 1, 2001, the share reserve will increase automatically each January 1st by the greater of 0.25% of the Company s diluted shares outstanding (as defined by the plan) or the number of shares granted under the Directors Plan during the prior twelve-month period. In March 2003, the Company s board of directors authorized the submission of proposed amendments including increasing the shares reserved for the plan by 300,000. In June 2003, the Company s stockholders approved the amendments by a majority vote. As of December 31, 2003, a total of 291,000 shares were available for future issuance under the Directors Plan.

The following table summarizes plan activity for all plans (in thousands, except for per share amounts):

	Year Ended December 31,					
	2003		2002		2001	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price	Number of shares	Weighted Average Exercise Price
Outstanding, beginning of year	3,807	\$ 6.25	2,030	\$ 33.69	1,239	\$ 62.02

	3,300	7.01	\$ 5.14	1,544	\$ 7.20

Stock Options Exchange Program: On December 4, 2002, the Company completed a stock option exchange program. Under the program, all outstanding employee stock options with exercise prices at or above \$12.39 per share were eligible to be exchanged on a one-for-one basis for stock options to purchase common stock with an exercise price set at the fair market value of the Company's common stock at the end of the offer period, which was \$3.60. The Company's Chief Executive Officer, Chief Financial Officer and directors were not eligible to participate in the program. Pursuant to this program, options for 602,000 shares were exchanged and reflected in the above table as both cancellations and grants. These replacement stock options vested in equal monthly installments over a five-month period ending in May 2003 and expired in September 2003. Approximately 92% of the total eligible options were exchanged for replacement stock options; the balance was not exchanged. The Company accounted for the replacement options as well as any eligible stock options that were not replaced under the variable plan accounting method in accordance with Accounting Principles Bulletin (APB) No. 25. Under variable plan accounting, the Company recorded compensation expense during the term of the stock options to the extent there was a net increase in the Company's stock market price above \$3.60, fair market value exercise price of the replacement stock options. As of September 2003, variable accounting for these stock options resulted in a \$319,000 compensation expense reflecting the net increase in the Company's stock market price above the option exercise price through the date the underlying options were exercised or expired. As of December 31, 2003, there were no variable stock awards outstanding.

2000 Employee Stock Purchase Plan: Under the 2000 Employee Stock Purchase Plan approximately 571,000 shares were initially reserved for issuance. For a period of ten years commencing on January 1, 2001, the share reserve will increase automatically each January 1st by the greater of 2.5% of the Company's diluted shares outstanding (as defined by the plan) or the number of shares granted under the Employee Stock Purchase Plan during the prior twelve-month period. The 2000 Employee Stock Purchase Plan contains successive six-month offering periods and the share price of stock purchased under the plan is 85% of the lower of the fair value of the common stock either at the beginning or the end of the period. Shares of common stock issued under the Purchase Plan totaled 239,000 in 2003, 254,000 in 2002 and 127,000 in 2001.

Stock-Based Compensation: During 2002, the Company issued options to certain employees under the Incentive Plan with exercise prices below the fair value of the common stock at the date of grant. No options with exercise prices below the fair values of the common stock were issued in 2003 and 2001. In accordance with the requirements of APB No. 25, the Company has recorded deferred stock compensation for the differences between the exercise price of the options and the fair value of the Company's stock at the date of grant. The Company recorded

deferred stock compensation of \$590,000 for 2002. The deferred stock compensation was amortized to expense over the period during which the options vest, generally four

Table of Contents

years using a method consistent with FASB Interpretation No. 28 (FIN 28). Under the FIN 28 method, each vested tranche of options is accounted for as a separate option grant awarded. Accordingly, the compensation expense is recognized over the period during which the services have been provided. During 2003, 2002 and 2001, the Company also recorded approximately \$294,000, \$8.1 million and \$11 million against deferred stock compensation related to the forfeiture of unvested stock options of terminated employees. The balance of deferred stock compensation was fully amortized as of December 31, 2003.

In November 2001, the Company issued approximately 35,000 shares of unrestricted common stock to an executive officer under the Incentive Plan. At the date of issuance, the Company recorded deferred stock compensation of \$271,000, which was fully amortized by December 31, 2002. Amortization for 2002 and 2001 were \$171,000 and \$100,000, respectively. In October 2002, 59,509 shares of unrestricted common stock were issued to the same executive officer as part of a termination agreement.

In 2001, the Company granted approximately 3,000 immediately vested and exercisable common stock options to non-employees and recorded related stock-based compensation of \$56,000. The recorded amounts reflect the fair value of these stock options at their respective grant dates, calculated based upon the Black-Scholes option pricing model using the fair values of the underlying common stock on the grant dates and the following weighted-average assumptions: no dividends; contractual life of 10 years; risk-free interest rate of 5.0%, for 2001 and, expected volatility of 100% for 2001. There were no grants of stock options to non-employees in 2002.

11. Income Taxes

For financial reporting purposes, net loss includes the following components for the years ended December 31, 2001, 2002 and 2003 (in thousands):

	Year Ended December 31,		
	2003	2002	2001
Domestic	\$ (16,746)	\$ (55,627)	\$ (56,755)
Foreign	(841)	(3,225)	(12,849)
	<u>\$ (17,587)</u>	<u>\$ (58,852)</u>	<u>\$ (69,604)</u>

As of December 31, 2003, the Company has net operating loss carryforwards for federal and California income tax purposes of approximately \$129 million and \$75 million, respectively, available to reduce future income subject to income taxes. The federal net operating loss carryforwards will expire in 2019 through 2023. The California net operating loss carryforwards will expire 2007 through 2013.

The 2003 income tax expense differed from the amounts computed by applying the U.S. federal income tax rate of 35% to pretax income as a result of the following (in thousands):

	Year Ended December 31,		
	2003	2002	2001
Federal tax at statutory rate	\$ (6,157)	\$ (20,599)	\$ (24,362)
Net operating losses not benefited	6,104	14,906	18,461
Deferred compensation			5,376
Impairment of intangibles		5,350	
Other	53	343	525
	\$	\$	\$

The types of temporary differences that give rise to significant portion of the Company's deferred tax assets and liabilities are set out below (in thousands):

	Year Ended December 31,	
	2003	2002
Deferred tax assets:		
Accruals and reserves	\$ 4,016	\$ 2,635
Plant and equipment	1,477	2,143
Net operating loss carryforwards	49,513	40,910
Other capitalized costs	2,003	2,105
Capitalized R&D Expenditure	1,110	
Credit carryforwards	4,924	3,844
	<hr/>	<hr/>
Total deferred tax assets	63,043	51,637
Less: valuation allowance	(63,043)	(51,637)
	<hr/>	<hr/>
Net deferred tax assets	\$	\$
	<hr/>	<hr/>

Management has established a valuation allowance for the portion of deferred tax assets for which realization is uncertain. The change in the total valuation allowance for 2003, 2002, and 2001 were increases of \$11.4 million, \$13.9 million and \$22.3 million, respectively.

The valuation allowance of approximately \$63 million attributable to total deferred tax assets as of December 31, 2003 includes approximately \$984,000 related to the exercise of stock options. Upon reversal of this portion of the valuation allowance, the tax benefit thus realized will be credited to stockholders' equity.

As of December 31, 2003, the Company has available for carryover research and experimental credits for federal and California income tax purposes of approximately \$3.3 million and \$2.6 million respectively, available to reduce future income taxes. The federal research and experimental tax credits will expire, if not utilized, beginning in the year 2019. California research and experimental tax credits carry forward indefinitely until utilized.

The Tax Reform Act of 1986 imposes restrictions on the utilization of net operating loss and tax credit carryforwards in the event of an ownership change as defined by the Internal Revenue Code. The Company's ability to utilize its net operating loss and credits carryforwards is subject to restriction pursuant to these provisions.

12. Geographic, Segment Reporting, and Significant Customer Information

SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, establishes standards for the manner in which public companies report information about operating segments in annual and interim financial statements. It also establishes standards for related

Edgar Filing: G III APPAREL GROUP LTD /DE/ - Form DEF 14A

disclosures about products and services, geographic areas and major customers. The method for determining what information to report is based on the way management organizes the operating segments within the Company for making operating decisions and assessing financial performance.

The Company's chief operating decision-maker is considered to be the chief executive officer (CEO). The CEO reviews financial information presented on a consolidated basis accompanied by disaggregated information about revenues by geographic region and sales teams for purposes of making operating decisions and assessing financial performance. On this basis, the Company is organized and operates in a single segment: the design, development and marketing of software solutions.

Table of Contents

The Company markets its products primarily from its operations in the United States. International sales are primarily to customers in Europe and Asia Pacific. Information regarding the Company's revenues in different geographic regions is as follows:

	Year Ended		
	December 31,		
	2003	2002	2001
Revenues:			
North America	77%	77%	76%
Europe	20%	16%	22%
Asia	3%	7%	2%
	100%	100%	100%

Significant customer information is as follows: For 2003, two customers each accounted for \$4.3 million and \$4.2 million of total consolidated revenues or more than 10% of consolidated revenues; and in 2002 and 2001, no individual customer accounted for more than 10% of consolidated revenues. At December 31, 2003 and 2002, two and three customers each, respectively, accounted for more than 10% of net accounts receivable outstanding. At December 31, 2001, no individual customer accounted for more than 10% of net accounts receivable outstanding.

During 2001, one of the Company's directors was also on the board of directors of one of the Company's customers. This customer accounted for less than 1% of Company revenues and 2001. The director resigned from the Company in 2001.

During 2002 and 2001, a customer for which another of the Company's directors served as an executive officer accounted for approximately 1% of revenues in 2001 and less than 1% of revenues in 2002. The Company director resigned from the board in October 2002.
