Item 2.05 Costs Associated with Exit or Disposal Activities.

On January 24, 2018, Marin Software Incorporated (the “Company”) announced a restructuring plan (the “Restructuring”) designed to reduce operating expenses to address its declines in revenues and better align the Company’s efforts to return to growth.

The Company expects the Restructuring to impact 48 employees, or approximately 11% of the Company’s global workforce as of December 31, 2017. In addition, separate from the Restructuring, the Company’s headcount has been reduced through the attrition of six employees for a total headcount reduction of 54 employees, or approximately 12% of the Company’s global workforce as of December 31, 2017. The Company currently estimates that it will incur pre-tax charges and costs of approximately \$1.0 to \$1.5 million, primarily related to severance, other one-time termination benefits, and reduction of office space. Of these charges, the Company expects a majority to be cash-based primarily related to severance and one-time termination benefits. These costs are primarily expected to be incurred during the first quarter of 2018 and the Company expects to record the majority of the charges in the first quarter of 2018. The Company expects the majority of the Restructuring activities to be completed by the first half of 2018. The annualized cost savings are estimated to be approximately \$6.0 to \$7.0 million for 2018.
