2017 BUSINESS HIGHLIGHTS

We believe 2017 was a year of substantial progress in positioning the Company for future long-term growth in a challenging retail environment.

Among our accomplishments we:

Continued to invest in innovation and sought to expand our total addressable market

Mid-year 2017, we delivered an entirely new, cloud-native architecture platform and full suite of Manhattan Active™ solutions.

Manhattan Active Solutions should provide meaningfully differentiated innovation and opportunity for Manhattan in new markets including Omnichannel, Point of Sale, and Customer Relationship Management.

We invested \$58 million in R&D, up 5%, and plan to continue to increase investment in 2018.

Over the last decade, we have invested cumulatively approximately \$470 million in R&D, delivering differentiated innovation and expanding our addressable market.

Executed in a business transition and challenging retail macro environment

Total revenue was \$595 million, down 2%, reflecting a weak retail macro environment and our transition to cloud; EPS of \$1.87 was flat versus 2016.

Customer retention rates were well above 90%+ and 40% of Software sales were with net new customers.

With our mid-year Manhattan Active Omni Cloud launch, cloud revenue increased from 7% of total software revenue in 2016 to 12% in 2017.

Recurring revenue as a percentage of total revenue, excluding hardware, rose from 24% in 2016 to 28% in 2017.

2017 GAAP operating margin of 31% ranked 2nd best across our relative peer comparison group.

Maintained capital discipline and financial capacity

We closed 2017 with \$126 million in cash and cash equivalents and zero debt; we have never borrowed in the history of the Company.

Operating cash flow was a record \$164 million, up 18% versus 2016.

We invested \$125 million in share repurchases, lowering our common shares outstanding (“CSO”) 4% over the prior year; over the last decade we have invested \$900 million in share buybacks, lowering CSO 32%.

Our 2017 performance was influenced by delays in large investments in supply chain software by retail customers coupled with accelerated market adoption of our cloud-based subscription services, and its correlative negative effect on up-front revenue recognition when compared to traditional perpetual software licenses. As a result, we did not achieve our consolidated revenue objective for our annual cash bonus program and the performance-based component of our long-term equity (restricted stock unit) program, resulting in a reduced payout of 49% of the target payout to the named executive officers for our annual cash bonus program and a 0% payout to the named executive officers for our 2017 performance-based long-term equity program grants.

Our total shareholder return (“TSR”) for 2017 was negative seven percent (-7%). Based on the Company’s stock price at December 31, 2017, our CEO’s compensation was down 43%, and our NEO’s compensation collectively down 37% versus their 2017 compensation targets. Despite our TSR, the Board of Directors believes that the Company made substantial progress toward positioning the Company for long-term success, expanding its addressable market through meaningfully differentiated investment in innovation, positioning Manhattan Associates for potential long-term sustainable growth.

2017 EXECUTIVE COMPENSATION (page 24)

CEO Target Versus Realizable Compensation

The "Target" bars represent Mr. Capel's base salary, target annual cash bonus, and grant-date target value of long-term incentive awards for 2015, 2016, and 2017. The "Realizable" bars represent, as a percentage of target, the total of each year's base salary paid, annual cash bonus earned and long-term incentive award value as of December 31, 2017.

(1) TSR represents total shareholder return in 1 year (2017); 2 years (2016 and 2017); and 3 years (2015, 2016, and 2017), respectively.

(2) This column represents realizable CEO compensation versus target over the comparable TSR period. The realizable CEO compensation represents the accumulation of each period's base salary paid, annual cash bonus, and long-term incentive award value as of December 31, 2017.

Mr. Capel's accumulated compensation for the past three years had an intended grant-date value of approximately \$12.7 million. Based on the Company's stock price at December 31, 2017 and the Company's performance for the past three years, the realizable value of this compensation was approximately \$10.4 million, which was 18% below their intended target value. By design, our executive compensation program will not deliver the intended target value unless the Company meets or exceeds its applicable financial performance targets.

Named Executive Officer Compensation

The following table sets forth the total compensation paid or earned by the Company's named executive officers in 2017 as determined under SEC rules. For more details, please see Compensation Discussion and Analysis starting on page 24 and the 2017 Summary Compensation Table and its accompanying notes on page 35.

Components of Target Compensation for 2017

Our executives' target compensation for 2017 consisted of the components described below.

With approximately 50% performance-based pay, we believe our current executive compensation program directly links executive compensation to our financial performance and align the interests of our executive officers with those of our shareholders. We believe our executive compensation programs provide our executive officers with a balanced compensation package that includes a reasonable base salary along with annual and long-term incentive compensation opportunities based on our performance against pre-established financial performance objectives. This strong alignment between our financial results, shareholder returns, and executive compensation is the cornerstone of our executive compensation philosophy and program design. Majority Vote Resignation Policy for Director Elections

The Company's Bylaws provide that Directors are elected by a plurality of the votes cast. Although nominees who receive the most votes for the available positions will be duly elected, the Board has adopted a Majority Voting Director Resignation Policy (the "Resignation Policy") applicable to nominees who fail to receive the affirmative vote of a majority of the votes cast in an uncontested election for Directors. The Resignation Policy requires that a nominee not receiving a majority affirmative vote in an uncontested election promptly tender to the Board or its Chair their resignation from the Board and committees on which that Director serves. The resignation may be conditioned upon Board acceptance. If it is not so conditioned, the resignation must specify that it is effective immediately on delivery.

A "majority affirmative vote" means that the votes cast "for" a nominee's election exceed those "against," with abstentions and broker non-votes not being considered "votes cast." You have been provided with options to vote "for" or "against" each Director nominee, and also to "abstain" from voting on a particular nominee. However, neither a vote "against" a Director nominee, nor an abstention, affects whether a Director nominee in an uncontested election is legally elected under the plurality vote standard (provided such nominee receives at least one "for" vote). But a vote "against" a Director is considered in determining whether a Director who is elected has received a "majority affirmative vote" for purposes of the Resignation Policy (as noted above, an abstention does not affect the Resignation Policy-related determination).

If a Director nominee elected to the Board fails to receive a majority affirmative vote and tenders a conditional resignation to the Board, the Nomination and Governance Committee of the Board will consider their resignation, including any information provided by that Director, and within 60 days of the shareholder meeting at which that Director failed to receive a majority affirmative vote, will recommend to the full Board what action to take on the Director's resignation. The Committee may recommend, among other things, acceptance or rejection of the resignation, delayed acceptance pending the recruitment and election of a new Director, or rejection of the resignation in order to address the underlying reasons for the Director's failure to receive the majority affirmative vote of the shareholders. The policy provides for the Board to act on the Committee's recommendation within 90 days following the shareholder meeting.

In considering a conditional resignation, the Committee and the Board may consider those factors they deem relevant, including but not limited to the underlying reasons for the failure of the Director to receive a majority affirmative vote, the tenure and qualifications of the Director, the Director's past and expected future contributions, other policies, and the overall composition of the Board, including whether accepting the resignation would cause the Company to fail to meet legal or stock market requirements.

Following the Board's decision, the Company will publicly announce the Board's decision regarding any conditional resignation. A resigning Director cannot participate in Committee or Board decisions regarding their resignations, except in certain cases where multiple Directors have failed to receive majority affirmative votes, which circumstances are described in the full policy posted in the Investor Relations section of our web site at www.manh.com. The preceding summary of the policy is qualified in its entirety by reference to the full policy.

Board Independence and Meetings

The Board currently consists of seven members, all of whom, with the exception of Mr. Capel, our President and Chief Executive Officer, have been determined by the Board to be “independent” as that term is defined under the corporate governance rules of The Nasdaq Stock Market. In compliance with Nasdaq corporate governance rules, the independent Directors of the Company conduct regularly scheduled meetings without the presence of non-independent Directors or management. The Board’s standing independent committees also regularly meet without management present. During the fiscal year ended December 31, 2017, the Board held five meetings. All the incumbent Directors attended at least 75% of the aggregate total number of Board meetings and meetings of Committees on which they served that occurred during the portion of fiscal year 2017 during which each served as a Director. Our Directors are invited to the Annual Meeting of Shareholders, and two Directors attended our 2017 Annual Meeting.

Board Committees

The Board maintains three permanent committees: Audit Committee, Compensation Committee, and Nomination and Governance Committee. The Board has adopted charters for the committees, which can be found in the Investor Relations section of our web site at www.manh.com.

The following table provides membership including independency and meeting information for each committee during 2017.

Audit Committee

During 2017, the Audit Committee consisted of Messrs. Huntz, Heyman, and Noonan. Mr. Huntz serves as Chairman of the Audit Committee. The Board has determined that each member of the Audit Committee meets the additional Nasdaq independence and financial literacy requirements for Audit Committee members, as well as the SEC’s Audit Committee independence standards. Further, the Board has determined that Messrs. Huntz, Heyman, and Noonan are “audit committee financial experts,” as defined by SEC rules. Among other responsibilities, the Audit Committee recommends to the Board the selection of our independent registered public accounting firm, reviews the scope and results of the audit, reviews with management our internal controls and periodic financial statements, and approves of the inclusion of our audited financial statements in our Annual Report on Form 10-K to be filed with the SEC. The Audit Committee also reviews and discusses with management and our auditors major financial risk exposures and those steps management has taken to monitor and control those exposures. During the fiscal year ended December 31, 2017, the Audit Committee met four times.

Compensation Committee

During 2017, the Compensation Committee consisted of Messrs. Noonan, Eger, and Huntz. Mr. Noonan serves as Chairman of the Compensation Committee. The Board has determined that each member of the Compensation

Committee meets the additional Nasdaq independence requirements for members of compensation committees. The Compensation Committee approves the compensation of our executive officers, including the Chief Executive Officer, reviews compensation plans for our non-employee Board members, officers, and other key executives, and makes recommendations concerning those matters to the Board. The Compensation Committee also administers our equity incentive programs and establishes the terms of our grants under these plans. During the fiscal year ended December 31, 2017, the Compensation Committee met six times.

Nomination and Governance Committee

During 2017, the Nomination and Governance Committee (the “Governance Committee”) consisted of Messrs. Raghavan, Huntz, and Moran. Mr. Raghavan serves as Chairman of the Governance Committee. The Governance Committee recruits outstanding individuals to serve on our Board and recommends to our Board the slate of Director nominees to stand for election at our annual meetings of our shareholders. The Governance Committee also recommends Directors for appointment to our Board Committees and oversees our

periodic formal Board and Committee assessment process, including oversight of post-assessment improvements. During the fiscal year ended December 31, 2017, the Governance Committee met four times.

In accordance with the provisions of our Bylaws, our shareholders may directly nominate prospective Director candidates by delivering to our Corporate Secretary certain information about the nominee not less than 60 days prior to the meeting as originally scheduled, or if less than 70 days' notice or prior public disclosure of the date of the scheduled meeting is given or made, delivery of notice to the Company not later than the tenth day following the earlier of the day on which notice of the date of the meeting is mailed to shareholders or public disclosure of the date of that meeting is made. The Governance Committee has not adopted a formal policy with regard to consideration of any Director candidate proposed by shareholders for inclusion in the Board's slate. The Governance Committee believes such a policy is not necessary or appropriate because of our shareholders' ability to directly nominate Director candidates for the Board.

In identifying qualified individuals to become members of the Board, the Governance Committee selects candidates whose attributes it believes would be most beneficial to the Company. The Governance Committee (i) considers factors such as the individual's experience, integrity, competence, skills, and dedication in the context of the needs of the Board, (ii) seeks to recruit from a diverse pool, considering diversity factors such as gender, race, ethnicity, age, and occupation, and (iii) takes reasonable steps to include meaningful representation in the candidate pool of women and minorities. The Governance Committee generally identifies Director nominees through the personal, business, and organizational contacts of existing Directors and management, but also may use a variety of other sources to identify Director nominees, including third-party search firms, counsel, advisors, and shareholder recommendations. The composition of our current Board reflects diversity in business and professional experience and skills.

In connection with the nomination of Ms. Hollembaek for election to the Board at our 2018 Annual Meeting, an executive search firm contacted the Company and recommended the Company consider whether Ms. Hollembaek might be a good candidate to serve on the Board. The Company did not pay any fee to JamesDruryPartners in connection with their recommendation of Ms. Hollembaek.

Board Leadership Structure

Our Bylaws allow, but do not require, our Board to appoint an officer or a non-executive to the position of Chairman of our Board. Our Board has chosen to separate the positions of Chairman and Chief Executive Officer. Currently, John J. Huntz, Jr., a non-employee independent Director, serves as Chairman and Eddie Capel serves as our President and Chief Executive Officer. We believe separating these positions allows our Chief Executive Officer to focus more on our day-to-day business and other traditional CEO roles, while allowing the Chairman to lead our Board in its fundamental role of providing advice to and independent oversight of management. Our Board recognizes the time, effort, and energy that the Chief Executive Officer is required to devote to his position in the current business environment, as well as the commitment required to serve as our Chairman, particularly as our Board's oversight responsibilities continue to grow. Although we do not have a policy mandating the separation of the roles of Chairman and Chief Executive Officer, our Board believes that having separate positions and having an independent outside Director serve as Chairman currently is the appropriate leadership structure for Manhattan Associates.

Code of Ethics

Our Board has adopted a Global Ethics and Compliance Code that is applicable to all members of our Board, our executive officers, and our employees. The Code appears in the Investor Relations section of our web site at www.manh.com. If, in the future, we amend, modify, or waive a provision in the Code, we may, rather than file a Form 8-K, satisfy the disclosure requirement under Item 5.05 of Form 8-K by posting that information on our web site.

Risk Management

While we believe risk management is the responsibility of every employee, senior management is ultimately accountable to our Board and shareholders for risk management. Senior management is responsible for the day-to-day management of our risks, while our Board, including through its Committees, oversees planning and responding to risks arising from changing business conditions or the initiation of new activities or products. Our Board also is responsible for overseeing compliance with laws and regulations, responding to recommendations from auditors and supervisory authorities, and overseeing management's conformance with internal policies and controls addressing the operations and risks of significant activities.

Our Board believes that full and open communication between management and our Board is essential for effective risk management and oversight. Our Board receives regular reports from members of senior management on areas of material risk to the Company,

including operational, financial, legal and regulatory, strategic, competitive, and reputational risks. Additionally, senior management is available to address any questions or concerns raised by our Board on risk management-related and any other matters.

While our Board is ultimately responsible for risk oversight at the Company, our three Board Committees assist our Board in fulfilling its oversight responsibilities in certain areas of risk. The Audit Committee assists our Board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls, and compliance with legal and regulatory requirements, and discusses policies with respect to risk assessment and risk management. The Governance Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks associated with Board organization, membership and structure, succession planning for our Directors, and corporate governance. The Compensation Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs, and succession planning for our executive officers.

In keeping with its responsibilities, the Compensation Committee has evaluated potential risks arising from the Company's compensation policies and practices for all employees, and concluded that any such risks are not reasonably likely to have a material adverse effect on the Company. Among other possible risks, the Compensation Committee considered risks related to the consolidated revenue and adjusted earnings per share components of our 2017 incentive compensation plans. In reaching its conclusion, the Compensation Committee reviewed and considered various factors, including the following:

- Our incentive compensation plans include short-term annual cash incentives for all participants and long-term equity incentives for upper management;

- Our long-term equity incentives include both performance-based and service-based awards;

- Our short-term annual cash incentives and our long-term performance-based equity incentives use revenue and adjusted earnings per share as performance objectives, with minimum to maximum range criteria (threshold, target, maximum) providing a pay-for-performance opportunity with zero payout potential below threshold and maximum payout opportunity above target capped at a specific level; and

- Our Compensation Committee reviews and approves performance criteria and related target levels and performance payout amounts for actual results before incentives are paid.

Director Compensation

During 2017, each non-employee member of the Board of Directors received cash and equity compensation in accordance with the Company's annual compensation program for non-employee directors. In accordance with that program, our non-employee Chairman received an annual cash retainer of \$150,000, payable in monthly installments on the first business day of each month. The other non-employee members of our Board each received an annual cash retainer of \$50,000 payable in quarterly installments on the first business day of each quarter. In addition to those retainers, the Chairman of each of the Audit Committee and the Compensation Committee received an annual cash retainer of \$20,000, and the Chairman of the Nomination and Governance Committee received an annual cash retainer of \$10,000. Each member of a Committee who was not the Committee Chairman received an additional cash retainer for service on that Committee, with those retainers being \$10,000, \$7,500, and \$5,000 for the Audit, Compensation, and Nomination and Governance Committees, respectively. On the date of the 2017 Annual Meeting of Shareholders, each non-employee Director was awarded 3,600 restricted stock units ("RSUs"). That number of RSUs was based on a grant value of \$168,840. The RSUs vest on the earlier of the first anniversary of the date of grant or the next Annual Meeting of Shareholders, provided that the Director remains in continuous service on the Board through that date. Upon vesting, each RSU will be settled with one share of Common Stock.

The following table sets forth, for the year ended December 31, 2017, the total compensation earned by our non-employee members of the Board of Directors.

Share Ownership Guidelines

The Compensation Committee and the Board believe that each non-employee director and executive officer should have a meaningful personal investment in the Company, which is intended to further align the interests of our directors and executive officers with the long-term interests of our shareholders. Accordingly, in February 2018, the Company adopted share ownership guidelines for both non-employee directors and executive officers of the Company. Under the share ownership guidelines, each non-employee director is expected to own shares of Common Stock with a market value equal to at least two times such director's annual base cash retainer. This requirement must be met within five years of becoming a director or the adoption of the policy, whichever is later

Further, for the Company's executive officers, the stock ownership guidelines are a multiple of annual base salary, as follows:

Executive Officer Title	Salary Multiple
Chief Executive Officer	4x
Chief Financial Officer	2x
Senior Vice President, Americas	2x
Chief Legal Officer	1x
Chief Accounting Officer	1x

This requirement must be met within five years of becoming subject to the guidelines or the adoption of the policy, whichever is later.

Related Party Transactions

The Company's Global Ethics and Compliance Code, which is available in the Investor Relations section of our web site at www.manh.com, and which includes our conflicts of interest policy, provides generally that the Company's Directors, officers, and employees must avoid any personal, financial, or family interest that could keep that person from acting in our best interest. In general, the Chief Legal Officer, who serves as the Company's Chief Compliance Officer, must approve of exceptions to the policy as written. In addition, the Company has an unwritten policy requiring approval by the Audit Committee or the independent members of the Board of exceptions for conflicts involving Directors or executive officers.

Since the beginning of fiscal year 2012, the Company has not been a participant in any related-party transaction requiring disclosure pursuant to Item 404 of the SEC's Regulation S-K, and no such transaction is currently proposed.

EXECUTIVE COMPENSATION

Proposal 2 – Resolution to Approve Named Executive Officer Compensation

Prior to voting on proposal 2, the Board recommends our shareholders review and consider our executive compensation philosophy, policy and practices, all of which are summarized below and discussed in more detail in the Compensation Discussion and Analysis section of this Proxy Statement beginning on page 24.

background

The Board believes our current executive compensation programs directly link executive compensation to our financial performance and align the interests of our executive officers with those of our shareholders. Our Board also believes our executive compensation programs provide our executive officers with a balanced compensation package that includes a reasonable base salary along with annual and long-term incentive compensation opportunities based on our performance against specified financial performance objectives.

While your vote is advisory and will not be binding on the Board, the Compensation Committee, or the Company, we strive to align our executive compensation programs with the interests of our long-term shareholders. As they do every year, the Board and the Compensation Committee will take into account the outcome of this year's Say-on-Pay vote when considering future compensation actions and decisions.

say-on-pay proposal

The Board believes that our named executive officers' compensation is essential in attracting and retaining the high caliber of executive talent necessary to drive our business forward and build sustainable value for our shareholders. Accordingly, we are asking our shareholders to vote FOR the following resolution:

“RESOLVED, that the shareholders approve, on an advisory basis, the compensation of the named executive officers as disclosed in this Proxy Statement for the 2018 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the SEC (which disclosure includes the Compensation Discussion and Analysis, the 2017 Summary Compensation Table and the other related tables and disclosures).”

Effect of say-on-pay vote

As indicated above, the vote on Proposal 2 is advisory and will not be binding on the Board, the Compensation Committee, or the Company. However, the Board values your opinions as expressed through your votes and other communications, it and our Compensation Committee will carefully review the 2018 Say-on-Pay voting results to better understand any issues or concerns you may have with our executive compensation. Shareholders who want to communicate with our Board on executive compensation or other matters should refer to “Communication with the Board of Directors” on page 45 of this Proxy Statement for additional information.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE APPROVAL OF THE EXECUTIVE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT, PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SECURITIES AND EXCHANGE COMMISSION.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis describes the compensation program for our Principal Executive Officer, our Principal Financial Officer, and the next three most highly-compensated Executive Officers of the Company during 2017 (the “named executive officers”). These individuals are listed in the following table.

Name	Title	Page Number for Biography
Eddie Capel	President and Chief Executive Officer ("CEO")	12
Dennis B. Story	Executive Vice President, Chief Financial Officer, and Treasurer (“CFO”)	40
Bruce S. Richards	Senior Vice President, Chief Legal Officer, and Secretary	40
Robert G. Howell	Senior Vice President, Americas Sales	41
Linda C. Pinne	Senior Vice President, Global Corporate Controller, and Chief Accounting Officer	41

This Compensation Discussion and Analysis describes the material elements of our 2017 executive compensation program. It also provides an overview of our executive compensation philosophy and objectives. Finally, it analyzes how and why our Compensation Committee arrived at the specific compensation decisions for our executive officers, including the 2017 named executive officers, including the key factors the Compensation Committee considered in determining their compensation.

EXECUTIVE SUMMARY

We believe 2017 was a year of substantial progress in positioning the Company for future long-term growth.

Among our accomplishments we:

Continued to invest in innovation and sought to expand our total addressable market

Mid-year 2017, we delivered an entirely new, cloud-native architecture platform and full suite of Manhattan Active™ solutions.

Manhattan Active Solutions should provide meaningfully differentiated innovation and opportunity for Manhattan in new markets including Omnichannel, Point of Sale, and Customer Relationship Management.

We invested \$58 million in R&D, up 5%, and plan to continue to accelerate investment in 2018.

Executed in a business transition and challenging retail macro environment

Total revenue was \$595 million, down 2%, reflecting a weak retail macro environment and our transition to cloud; EPS of \$1.87 was flat versus 2016.

Customer retention rates were well above 90%+ and 40% of Software sales were with net new customers.

With our mid-year Manhattan Active Omni Cloud launch, cloud revenue increased from 7% of total software revenue in 2016 to 12% in 2017.

Recurring revenue as a percentage of total revenue, excluding hardware, rose from 24% in 2016 to 28% in 2017.

2017 GAAP operating margin of 31% ranked 2nd best across our relative peer comparison group.

Maintained capital discipline and financial capacity

We closed 2017 with \$126 million in cash and cash equivalents and zero debt; we have never borrowed in the history of the Company.

Operating cash flow was a record \$164 million, up 18% versus 2016.

We invested \$125 million in share repurchases, lowering our common shares outstanding (“CSO”) 4% over the prior year; over the last decade we have invested \$900 million in share buybacks, lowering CSO 32%.

Our 2017 performance was influenced by delays in large investments in supply chain software by retail customers coupled with accelerated market adoption of our cloud-based subscription services, and its correlative negative effect on up-front revenue recognition when compared to traditional perpetual software licenses. As a result, we did not achieve our consolidated revenue objective for our annual cash bonus program and the performance-based component of our long-term equity (restricted stock unit) program, resulting in a reduced payout of 49% of the target payout to the named executive officers for our annual cash bonus program and a 0% payout to the named executive officers for our 2017 performance-based long-term equity program grants.

Our total shareholder return (“TSR”) for 2017 was negative seven percent (-7%). Based on the Company’s stock price at December 31, 2017, our CEO’s compensation was down 43%, and our NEO’s compensation collectively down 37% versus their 2017 compensation targets. Despite our TSR, the Board of Directors believes that the Company made substantial progress toward

positioning the Company for long-term success, expanding its addressable market through meaningfully differentiated investment in innovation, positioning Manhattan Associates for potential long-term sustainable growth.

CEO Target Versus Realizable Compensation

The “Target” bars represent Mr. Capel’s base salary, target annual cash bonus, and grant-date target value of long-term incentive compensation awards for 2015, 2016, and 2017. The “Realized” bars represent, as a percentage of target, the total of each year’s base salary paid, annual cash bonus earned and long-term incentive award value as of December 31, 2017.

(1)TSR represents total shareholder return in 1 year (2017); 2 years (2016 and 2017); and 3 years (2015, 2016, and 2017), respectively.

(2)This column represents realizable CEO compensation versus target over the comparable TSR period. The realizable CEO compensation represents the accumulation of each period’s base salary paid, annual cash bonus, and long-term incentive award value as of December 31, 2017.

Mr. Capel’s accumulated compensation for the past three years had an intended grant-date value of approximately \$12.7 million. Based on the Company’s stock price at December 31, 2017 and the Company’s performance for the past three years, the realizable value of this compensation was approximately \$10.4 million, which was 18% below their intended target value. By design, our executive compensation program will not deliver intended target value unless the Company meets or exceeds the financial performance targets.

Our Compensation Philosophy

We are committed to a philosophy of pay-for-performance for our executives. Our executive compensation program is designed to achieve three primary objectives:

1. Pay-for-Performance. Align actual compensation realized by our executive officers with achievement of our short-term and long-term business strategies, improving operational performance and stockholder return.
2. Market Competitiveness. Provide market competitive compensation opportunities to attract and retain executive officers and motivate them to perform at their highest level.
3. Shareholder Value Creation. Structure compensation through base salary, annual cash bonus opportunities, and a combination of service-based and performance-based equity awards, to promote increased shareholder value.

2017 Key Compensation Decisions

Our Compensation Committee’s key decisions for 2017 pertaining to our named executive officers were as follows:

Base Salaries

The base salary of our President and CEO, Mr. Capel, remained the same from his 2016 level.

The base salary of our Senior Vice President, Americas Sales, Mr. Howell increased by 7% from his 2016 level.

The base salaries of the remaining named executive officers increased by 3% from their 2016 levels.

Annual Cash Bonus

Based on our 2017 financial performance, the Company paid 49% of the annual cash bonus target to the named executive officers.

Long-term Incentive Compensation

Based on our 2017 financial performance, the named executive officers did not earn any of the granted performance-based RSUs.

2018 Key Compensation Actions

Amended the executive employment agreements for all named executive officers: eliminated the Company's insolvency or filing for bankruptcy following a change in control as a constructive termination event, consistent with good governance practices (page 32 for more information).

Adopted non-employee director and executive officer minimum share ownership guidelines (page 19 for more information).

Compensation Policies and Practices

Alignment between Company performance and executive compensation is the cornerstone of our executive compensation philosophy and program design. We also believe our overall governance of executive compensation is sound and reflects many best practices, including:

Separate CEO and Chairman of the Board

The Compensation Committee is composed solely of independent directors

Engagement of an independent compensation consultant

Capped incentive opportunities to mitigate concerns regarding excessive risk-taking for all employee participants

Equity plans that prohibit stock option re-pricing and cash buyouts without shareholder approval for all employee participants

"Double-trigger" change-in-control arrangements

No excise tax gross-ups

Limited executive perquisites

Prohibits all employees from hedging or pledging our securities

In approving compensation arrangements for 2018, the Compensation Committee considered the pay-for-performance results and governance practices highlighted above, as well as the voting result on the 2017 "say on pay" proposal that was in favor of the Company's executive compensation program.

Compensation of our Chief Executive Officer

Our CEO participates in the same executive compensation programs as our other executive officers, including the other named executive officers. In determining compensation for our CEO, the Compensation Committee considers the same information and factors used in determining compensation for the other named executive officers, except that our CEO does not make a recommendation to the Compensation Committee for his own compensation.

For 2017, the Compensation Committee set Mr. Capel's annual base salary at \$575,000, with a target annual cash bonus opportunity equal to 100% of his base salary. The Company granted Mr. Capel a regular equity award of 47,774 RSUs (50% of which were service-based and 50% of which were subject to performance-based objectives).

Mr. Capel's accumulated compensation for 2017 had an intended grant-date value of approximately \$3.6 million (annual salary, cash bonus and equity compensation). Based on the Company's stock price at December 31, 2017, and the Company's performance for the year, the earned value of his award was approximately \$2.0 million, which was down 43% from total target compensation value (see chart on page 25). Based on our 2017 revenue and adjusted earnings per share, as defined in our programs, Mr. Capel earned a cash bonus of \$281,750, but did not earn any of his 2017 performance-based RSU award.

Determining Executive Compensation

The Role of the Compensation Committee

The Compensation Committee is responsible for determining the compensation of our executive officers, including the named executive officers, and for administering our Stock Incentive Plan. The Compensation Committee currently comprises three non-employee Directors: Messrs. Noonan (Chairman), Eger, and Huntz. The Compensation Committee's overall objective is to establish a compensation policy that will (i) attract, retain, and reward executives who will and do contribute to achieving our business objectives, (ii) motivate our executive officers to obtain those objectives, and (iii) align the interests of our executive officers with those of our long-term shareholders.

The Role of Compensation Consultant

The Compensation Committee has the authority to retain compensation consultants and other advisors to assist it in performing its duties. In 2017, the Compensation Committee engaged Compensia, Inc., as its compensation consultant. Compensia reports to and is directed by the Compensation Committee. In general, the Compensation Committee directs Compensia to provide periodic updates on market trends and developments, provide relevant and credible market data for assessing pay competitiveness, evaluate the alignment of the design of our executive compensation program with our business strategy, performance outcomes, and competitive pay practices, and participate in Compensation Committee meetings where substantive executive compensation decisions are being made.

In 2017, the Compensation Committee considered the six specific independence factors adopted by the SEC and the Nasdaq Stock Market and determined that Compensia is independent and that its work did not raise any conflicts of interest.

The Role of Senior Management

Our CEO generally makes recommendations to the Compensation Committee regarding compensation for the named executive officers other than himself. Our CFO and Senior Vice President, Human Resources provide support to our CEO with respect to data, analysis, and advice in formulating specific compensation recommendations. The Chief Legal Officer generally attends Compensation Committee meetings, prepares meeting minutes and resolutions, and is available for legal counsel as required.

Competitive Market Data

The Compensation Committee considers competitive market data when making pay determinations for our executive officers, including the named executive officers. This is only one of many factors the Committee considers when making pay determinations, and the Committee does not benchmark or target a precise percentile or pay level relative to this information. Instead, the Compensation Committee uses this information as a general guide to determine if our executive compensation levels in the aggregate and by element are within a reasonable range compared with similar companies.

The precise nature of our competitive market analysis varies each year based on the needs of the Company and the Compensation Committee in making pay determinations. Generally, the Committee evaluates competitive market practices using data drawn from both a group of peer companies and compensation survey data. For purposes of determining 2017 compensation, the Compensation Committee used a peer group comprising the following companies:

		Market Cap (30-Day Average) as of September 2017
Company Name	Company Ticker	(\$ billion)
Manhattan Associates, Inc.	MANH	2.9
ACI Worldwide, Inc.	ACIW	2.6

The Compensation Committee annually reviews pay and performance data from the compensation peer group as well as pay data from various compensation surveys. Both the peer group and survey data included companies that were comparable to the Company with respect to revenue level, market capitalization, industry segment, and competitive employment market. The specific peer companies,

survey sources, and forms of analysis change from year to year based on the best available data and the key priorities of the Compensation Committee. The Committee considered this information along with other relevant information, such as the Company's performance and that of each executive officer. Our CEO also presented recommendations to the Compensation Committee for our executive officers (other than himself). No other executive officer has direct input to the Compensation Committee regarding the compensation of the named executive officers.

Shareholder Advisory Vote on Named Executive Officer Compensation

Our Board values your opinions as expressed through votes and other communications with us, it and our Compensation Committee carefully review our annual Say-on-Pay voting results to better understand any issues or concerns you may have with our executive compensation.

In 2017, holders of approximately 72% of our shares of Common Stock voting on our 2017 Say-on-Pay proposal approved of our executive compensation program for our named executive officers, which was lower than our historical average of 98% for 2014 through 2016. The lower approval vote was influenced by a recommendation to vote "against" our 2017 advisory Say-on-Pay proposal because our executive employment agreements with our executive officers included as a constructive termination event the Company's insolvency or filing for bankruptcy following a change in control. In 2018, consistent with good governance practices, the executive employment agreements were amended to eliminate that constructive termination event.

Principal Elements of Executive Compensation

We compensate our executive officers with a combination of base salary and short-term and long-term incentives designed to focus their efforts on maximizing both our short-term and long-term financial performance. The executive compensation program includes the following: (i) base salary, (ii) annual cash bonus, (iii) long-term incentive compensation in the form of equity awards, and (iv) other benefits. Each executive officer's compensation package is designed to provide an appropriately weighted mix of these elements, which the Compensation Committee believes provides a level of compensation roughly equivalent to that paid by companies of similar size and complexity and that balances short-term and long-term performance and reward objectives.

Base Salary

Minimum salaries for the named executive officers are established in their employment agreements. The base salaries of the named executive officers are reviewed annually by the Compensation Committee for adjustment. When establishing base salaries of our executive officers for 2017, the Compensation Committee considered competitive market data (drawn from compensation survey data and the compensation peer group), as well as a variety of other factors, including global macro-economic conditions, market developments, our past financial performance and future expected performance, the performance of the executives, changes in the executives' responsibilities, the CEO's recommendations (other than for his own base salary) and cost-of-living and other local geographic considerations, where applicable. The actual base salaries paid to the named executive officers in 2017 are disclosed in the Summary Compensation Table.

Annual Cash Bonus Program

The following table sets forth each named executive officer's target annual cash bonus, payout amount, and payout percentage actually earned in 2017.

2017 Annual Cash Bonus
Program Target vs. Payout

Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

Name	Title	Target	Payout	Payout %
Eddie Capel	President, Chief Executive Officer, and Director	\$575,000	\$281,750	49%
Dennis B. Story	EVP, Chief Financial Officer, and Treasurer	286,000	140,140	49%
Bruce S. Richards	SVP, Chief Legal Officer, and Secretary	179,000	87,710	49%
Robert G. Howell	SVP, Americas Sales	300,000	147,000	49%
Linda C. Pinne	SVP, Global Corporate Controller, and Chief Accounting Officer	82,164	40,261	49%

The purpose of the Company's annual cash bonus program is to align short-term incentive bonuses with the achievement of annual corporate performance. For all the named executive officers, as well as all other employee participants in the program during 2017, the Compensation Committee used consolidated revenue and adjusted earnings per share ("adjusted EPS") as the corporate performance measures to determine the bonus payouts. The Compensation Committee believes the combination of consolidated revenue and

adjusted EPS creates the proper balance for motivating and rewarding profitable growth in the near-term that will translate into strong returns for shareholders over the long-term. The Compensation Committee excluded individual performance from the bonus measures for all program participants to focus and reward the team for collectively achieving our overall financial objectives.

For 2017, and in accordance with its recent years' practice, the Compensation Committee weighted the two performance measures (consolidated revenue and adjusted EPS) equally, and for each, established performance ranges with each range having a minimum performance threshold, a target threshold, and a performance maximum. Achievement above the minimum threshold for a performance measure is expressed as a percentage of the target level, and the percentages for the two performance measures are averaged together to determine the annual bonus payout by multiplying that average percentage by the target bonus payout. At- or below-minimum threshold performance for a measure is expressed as 0%, at-target performance is expressed as 100%, and performance at the maximum is expressed as 150%. Achievement between the minimum performance threshold and target, or between target and the performance maximum, is expressed as a percentage determined by linear interpolation. The Company may make interim quarterly bonus payments if interim minimum performance thresholds are exceeded during the course of the year, even if full-year minimum thresholds are not ultimately met. If the annual target levels are exceeded, the executive officers will receive more than their target bonus opportunity in the final quarter of the year, as interim quarterly incentive payouts are capped at 100% of target.

As an example, if the percentages of target achieved for the respective performance measurements (consolidated revenue and adjusted EPS) are 80% and 110%, respectively, and the annual target bonus payout for an executive is \$300,000, then the annual bonus payout to that executive would be $[(0.80 + 1.10) / 2] \times \$300,000 = \$285,000$.

Regarding the establishment of the specific consolidated revenue and adjusted EPS performance measures for 2017, the Compensation Committee reviewed and considered senior management's proposed 2017 budget, the critical assumptions underlying the budget, and the final budget. In preparing the budget, senior management considered a variety of factors, including but not limited to: global economic trends, supply chain management information-technology investment and growth trends as published by leading industry analysts, the competitive position of our software products, the level of investment in product development to maintain sustainable competitive advantage, and historical financial performance. Senior management considers these factors in the context of the key objective of extending the Company's position as a leading global supply chain commerce solutions provider by increasing our revenues faster than our competitors.

In setting the consolidated revenue and adjusted EPS performance measures for 2017, the Compensation Committee considered the degree of difficulty and probability of achieving the performance levels. The Committee set these levels so that the relative difficulty of achieving them were consistent with prior years.

For purposes of the 2017 bonus program, for all plan participants:

As defined in the program, "consolidated revenue" was calculated excluding hardware and other revenue to minimize risk of low margin revenue lines skewing incentive plan payout percentages;

As defined in the program, "adjusted EPS" excludes the following items from GAAP EPS: amortization of intangible assets, and equity-based compensation expenses, restructuring charges, asset impairment charges and related recoveries, sales tax recoveries, and unusual tax adjustments. For 2017, the exclusions necessary were amortization of intangible assets, equity-based compensation expenses, tax benefit of stock awards vested, restructuring charges, and the U.S. Tax Cuts and Jobs Act impact;

Consistent with prior years, the earnings per share benefit generated from Common Stock repurchases was eliminated from adjusted EPS for determining bonus payouts; and

Consistent with prior years, the achievement of revenue and adjusted EPS objectives was determined on a constant currency basis (i.e., actual financial results are translated to U.S. dollars at budgeted U.S. dollar exchange rates). Regarding our use of adjusted EPS as one of the performance measures, we use adjusted EPS to develop our budget, manage expenditures, and evaluate our overall business performance, and we believe adjusted EPS is useful for us, and for our investors, when assessing our performance versus other software companies. We included in our February 6, 2018 earnings press release, attached to our Current Report on Form 8-K of the same date, a full reconciliation from 2017 GAAP EPS to 2017 adjusted EPS (non-GAAP EPS).

The following table provides the 2017 annual cash bonus payout levels as a percentage of the performance targets for consolidated revenue and adjusted EPS.

Annual Cash Bonus Program Design for 2017

	Amount	Participant Bonus Payout % of Target	Actual Payout % Earned
Consolidated Revenue (\$ in millions)			
Threshold goal	\$552.3	0%	
Target goal	577.7	100%	
Maximum goal	629.6	150%	
2017 Bonus Revenue – Earned	\$526.6		0%
Adjusted EPS			
Threshold goal	\$1.87	0%	
Target goal	1.93	100%	
Maximum goal	2.13	150%	
2017 Bonus EPS – Earned	\$1.86		0%
Total Combined Actual Payout % Earned			0%

Payouts for consolidated revenue and adjusted EPS amounts achieved between threshold goal and target goal and between target goal and maximum goal are calculated based on linear interpolation.

We achieved consolidated revenue and bonus EPS for 2017 of \$526.6 million and \$1.86 per share, respectively, which were below the minimum annual threshold for bonus payouts at year end. Delays in large investments in supply chain software by retail customers coupled with accelerated market adoption of our cloud-based subscription services, and its correlative negative effect on up-front revenue recognition when compared to traditional perpetual software licenses, factored heavily in these results. The effect of these factors, however, increased as 2017 progressed, with their impact being most deeply felt towards the end of the year. Consequently, performance against the established objectives was above minimum payout thresholds for the year-to-date period ending September 30, 2017, resulting in interim incentive bonus payouts of 49% of the annual target during the year.

The Compensation Committee retains the right to exercise discretion to either increase or decrease a participant's annual cash bonus under the bonus program. As in recent years, the Compensation Committee did not exercise its discretion with regard to the cash bonuses to our executive officers in 2017, which were paid in accordance with the express terms of the plan. With respect to the cash bonuses paid under the plan, the Compensation Committee considered that the positive market reaction to the Company's cloud-based solutions, while having a temporary negative effect on revenues, was a positive achievement.

Long-term Incentive Compensation

The following table sets forth each named executive officer's target annual long-term incentive opportunity, earned amounts at December 31, 2017, and change in total value percentages in 2017.

2017 Long-Term Incentive Compensation Target vs. Payout

-
- (1) These columns represent the aggregate grant date fair value for service-based and performance-based RSU awards. We have determined these award fair values based on the closing market price of the Company's Common Stock on the date of grant of \$50.88.
- (2) These columns represent amounts earned valued on the closing market price on December 31, 2017 of \$49.54. We did not achieve our performance objectives for the performance-based component of our long-term equity program, resulting in a zero payout for our 2017 performance-based long-term equity program grants.

We use equity awards to provide incentives to improve our financial performance and to assist in the recruitment, retention, and motivation of professional, managerial, and other personnel. These long-term incentives are designed to align the interests of our executive officers and other employee plan participants with those of our shareholders to enhance our overall value, the market price of the Common Stock, and as a result, our shareholders' return. In addition, the vesting of stock incentives over time is designed to create an incentive for our people to remain with us. We grant RSUs to our executive officers and other employee plan participants on an ongoing basis to provide continuing incentives to them to meet future performance goals and to remain with the Company.

Equity-based compensation is an important component of our executive compensation program. In setting the form and level of the equity awards for the named executive officers, the Compensation Committee considers the CEO's recommendations, the executive officer's performance, and a variety of other factors including:

Market-competitive levels of total compensation, particularly for our peer group

Market-competitive levels and forms of equity-based compensation

Alignment with company performance and shareholder value

The retention strength provided by outstanding and unvested equity awards held by the executives

Global macro-economic conditions

Our recent performance and trends

The executive's recent performance and potential future contribution

The resulting annual grant rate from aggregate awards

The availability of shares under our shareholder approved equity plans

Our cost and its alignment with participant value

There is no precise formula or weighting applied to these factors as changing business conditions, competitive market practices, and regulations necessitate differing priorities to maximize effectiveness while minimizing cost and dilution.

During 2017, an aggregate of 93,161 RSUs were granted to the named executive officers. In approving the individual award levels for the annual grants to the named executive officers, the Compensation Committee also reviewed aggregate grant levels for all recipients to ensure the annual grant rate was within competitive norms and sustainable over time.

The annual awards granted in 2017 are 50% service-based (46,579 shares) and 50% performance-based (46,582 shares) and generally vest in four equal annual increments starting on or about the first anniversary of the grant date for both service-based and performance-based grants, with the performance portion tied to the same annual revenue and adjusted earnings per share performance goals and ranges for fiscal year 2017 as established for the annual cash incentive plan discussed above.

The performance-based RSUs are intended primarily to provide our executive officers with incentives to improve our performance, as they benefit from these awards only if we meet the pre-established financial goals specified in the

awards in the year granted. The 2017 performance-based RSU awards were to be earned, in whole or in part, based on our attainment of the same annual consolidated revenue and adjusted EPS performance goals as established for the 2017 annual cash bonus program. For 2017, and in accordance with its recent years' practice, the Compensation Committee weighted the two performance measures (consolidated revenue and adjusted EPS) equally, and for each, established performance ranges with each range having a minimum performance threshold, a target threshold, and a performance maximum. Achievement above the minimum threshold for a performance measure is expressed as a percentage of the target level, and the percentages for the two performance measures are averaged together to determine the number of performance-based RSUs an executive earns by multiplying that average percentage by the number of performance-based RSUs initially granted to the executive. At- or below-minimum threshold performance for a measure is expressed as 0%, at-target performance is expressed as 100%, and performance at the maximum is expressed as 150%. Achievement between the minimum performance threshold and target, or between target and the performance maximum, is expressed as a percentage determined by linear interpolation. Under the 2017 program, for an executive to earn any of their performance-based RSUs, we were required to exceed one or both minimum performance thresholds.

As an example, if the percentages of target achieved for the respective performance measurements (consolidated revenue and adjusted EPS) are 75% and 105%, respectively, and the number of performance-based RSUs granted during to the executive during 2017 was 8,000, then the number of those performance-based RSUs earned by that executive would be $[(0.75 + 1.05) / 2] \times 8,000$ RSUs = 7,200 RSUs, with the remaining 800 RSUs being canceled.

As our full year performance in 2017 was below the minimum threshold, the named executive officers did not earn any of the granted performance-based RSUs awarded. The minimum performance threshold, performance target, and performance maximum for the

2017 performance measures, as well as our actual performance, are the same as set forth in the table “Annual Cash Bonus Program Design for 2017.”

Perquisites and Other Personal Benefits.

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not provide perquisites or other personal benefits to our executive officers, including the named executive officers, except in situations where we believe it is appropriate to assist an individual in the performance of their duties, to make our executive officers more efficient and effective, and for recruitment and retention purposes.

If an executive officer qualifies to attend our annual sales-oriented Presidents’ Club event and incurs an income tax liability associated with their attendance and the attendance of their spouse, we provide a tax “gross-up” payment to offset that liability. During 2017, we provided a tax gross-up payment to our CEO and Mr. Howell.

Health and Welfare Benefits.

We offer standard Company health and welfare benefits to the named executive officers as a safety net against the financial catastrophes that can result from illness, disability, or death. The benefits offered to the named executive officers are substantially the same as those offered to all our regular employees, except that certain of the named executive officers have been provided an arrangement under which the Company pays the premiums on term life insurance on their lives during their continued employment with the Company. During 2017, we paid term life insurance premiums, including tax “gross-ups” with respect to those premiums, for Messrs. Capel, Story, Richards, and Howell.

Our tax-qualified deferred-compensation Section 401(k) Savings Plan covers all our eligible full-time employees. Under the plan, participants may elect to contribute, through salary deductions, up to 60% of their annual compensation, subject to a maximum of \$18,000, or \$24,000 for employees who are at least 50 years old. We provide 50% matching contributions up to the first 6% of salary contributed under the plan. The plan is designed to qualify under Section 401 of the Internal Revenue Code so that our employees’ and our contributions, and income earned on those contributions, are not taxable to employees until withdrawn from the plan, and so that the Company’s contributions are deductible when made.

Other considerations

Employment Agreements

The employment agreements with our named executive officers, Messrs. Capel, Story, Richards, and Howell, and Ms. Pinne, were amended in 2018, to eliminate, as a constructive termination event, the Company’s insolvency or filing for bankruptcy following a change in control, consistent with good governance practices.

Each agreement continues to provide that the named executive officer will be (i) paid an annual base salary, (ii) eligible for an annual performance-based bonus, (iii) eligible for equity awards that reflect their Company position, duties, and responsibilities, (iv) eligible to participate in all other benefit plans, programs, and arrangements generally available to executives of the Company, (v) provided an indemnification agreement, under which the Company will indemnify the executive to the full extent permitted by law with respect to any claim arising out of the executive’s service as an officer, director, or employee of the Company, and (vi) covered by a director and officers liability insurance policy. As set forth in the agreements, the minimum annual base salaries of Messrs. Capel, Story, Richards, and Howell, and Ms. Pinne, are \$475,000, \$360,000, \$283,000, \$265,000, and \$240,000, respectively. Each named executive officer’s annual base salary is subject to increases at the discretion of the Board or Compensation Committee.

Each agreement further provides that the named executive officer or the Company may terminate that officer's employment at any time. If the Company terminates the named executive officer's employment for reasons other than death, disability, or "cause" (as defined in the agreement) or if there is a "constructive termination" of the executive officer's employment (as defined in the agreement), the officer will be entitled to certain severance payments and benefits. Those payments and benefits are described below in the section entitled Potential Payments upon Termination, and that section also contains an estimate of the potential payments and benefits payable under these arrangements as of the end of 2017.

In general, severance payments to a named executive officer are limited such that they will not receive any "parachute payment" as described in Sections 280G and 4999 of the Internal Revenue Code. The named executive officer is required to provide the Company with a general release of all claims to receive any severance payments or benefits.

The agreements contain provisions requiring the named executive officer to protect the proprietary and confidential information of the Company. In addition, for a period of 12 months after termination of employment for any reason (or, if later, the last date any severance payments are due), the named executive officer agrees not to solicit the Company's customers or solicit or hire away the Company's employees and is prohibited from performing duties of the type performed for the Company for a competing business owned by any of a designated group of companies. The named executive officer also agrees to assign to the Company all patents, inventions, copyrights, and other intellectual property developed by them in the course of their employment.

Policy with Respect to Qualifying Compensation for Deductibility

For taxable years beginning before January 1, 2018, Section 162(m) of the Internal Revenue Code imposed a limit on federal income tax deductibility for annual compensation in excess of one million dollars paid by a public corporation to its Chief Executive Officer and its other three most highly compensated executive officers (other than the Chief Financial Officer). Compensation in excess of one million dollars could be deducted, however, if it qualified as "performance-based compensation" within the meaning of Section 162(m) or qualified for one of the other exemptions from the deductibility limit. We designed the Company's compensation program to satisfy the exemption under Section 162(m).

Congress repealed the exemption for performance-based compensation in new tax legislation enacted December 22, 2017, effective for tax years beginning after December 31, 2017, and expanded the number of employees who will be considered "covered employees" subject to the 162(m) limit to include the Chief Financial Officer (who was previously excluded) and certain former named executive officers. As a result of these changes, compensation exceeding of \$1 million paid to executive officers covered by Section 162(m)'s deduction limit will not be deductible in 2018 or future years unless it qualifies for transition relief applicable to certain arrangements in place as of November 2, 2017. The Compensation Committee has taken steps it deemed appropriate intending to preserve the deductibility of certain awards granted prior to enactment of the legislation. Due to uncertainties of the scope of the transition relief, however, there are no assurances that any compensation we pay to our covered employees will be or remain exempt from Section 162(m)'s deduction limit.

The Compensation Committee considers tax deductibility when making its decisions regarding executive compensation, but reserves the right to award nondeductible compensation when appropriate to accomplish other compensation objectives.

Limitation of Liability and Indemnification of Officers and Directors

The Company's Articles of Incorporation provide that the liability of the Directors to the shareholders for monetary damages will be limited to the fullest extent permissible under Georgia law. This limitation of liability does not affect the availability of injunctive relief or other equitable remedies.

The Company's Bylaws provide that the Company will indemnify each of its officers, Directors, employees, and agents to the extent they are or were a party, or are threatened to be made a party, to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative because they are or were a Director, officer, employee, or agent of the Company, against reasonable expenses (including attorneys' fees), judgments, fines, and amounts paid in settlement in connection with such action, suit, or proceeding; provided, however, that no indemnification will be made for:

any appropriation, in violation of their duties, of any business opportunity of the Company;
acts or omissions that involve intentional misconduct or a knowing violation of law;

any liability under Section 14-2-832 of the Georgia Business Corporation Code, which relates to unlawful payments of dividends and unlawful stock repurchases and redemptions; or
any transaction from which they derived an improper personal benefit.

The Company has entered into indemnification agreements with its Officers and Directors providing indemnification similar to that provided in the Bylaws.

Compensation Committee Report on Executive Compensation

Based on its review and discussions with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's 2018 Proxy statement (and in the Company's Annual Report on Form 10-K through incorporation by reference to the Proxy Statement).

- (1) These columns represent the target and maximum annual cash bonus opportunities under the Company's annual cash bonus program for 2017. The actual cash bonuses paid to the named executive officers for 2017 are set forth in the Summary Compensation Table under the "Non-Equity Incentive Plan Compensation" column.
- (2) These columns represent the performance-based RSUs granted to the named executive officers during 2017 pursuant to the Company's 2007 Stock Incentive Plan, shown both at the target and maximum performance levels. For our executive officers to earn any portion of their award, the Company must attain a minimum percentage of the pre-established target levels for consolidated revenue and adjusted EPS. The executive officers would earn 100% of the target award if the Company achieves 100% of the Company's two performance goals specified in the awards for the fiscal year of the award. The executive officers would earn up to a maximum of 150% of the target award if the Company exceeds the performance goals specified in the awards up to a maximum specified performance level. The executive officers may earn a portion of the target award, but less than 100%, if the Company falls short of one or both performance goals but still achieves at least a minimum threshold performance level. For each of the Company's two performance goals, we use linear interpolation to determine the portion of the award earned by the named executive officers if the Company's performance exceeds the minimum threshold but is less than the 100% of the goals, or exceeds the 100% target but does not reach the maximum performance level. As our financial performance in 2017 was below the minimum threshold, the named executive officers did not earn any of the granted performance-based RSUs awarded.
- (3) This column represents service-based RSU awards granted to the named executive officers during 2017 pursuant to the Company's 2007 Stock Incentive Plan. The service-based RSUs vest in four equal annual installments commencing in the year following the date of grant.
- (4) This column represents the aggregate grant date fair value for performance-based and service-based RSU awards in accordance with ASC Topic 718. We determined these fair values based on the closing market price of the Company's Common Stock on the date of grant.
