FORM 10-Q
(Mark one)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from: _____ to _____

Commission File No. 1-13219

OCWEN FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Florida 65-0039856
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

1661 Worthington Road, Suite 100 33409

West Palm Beach, Florida (Zip Code)

(561) 682-8000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large Accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes No
Number of shares of common stock outstanding as of July 25, 2016: 123,986,954 shares

FORWARD-LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact included in this report, including, without limitation, statements regarding our financial position, business strategy and other plans and objectives for our future operations, are forward-looking statements. These statements include declarations regarding our management's beliefs and current expectations. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could", "intend," "consider," "expect," "plan," "anticipate," "believe," "estimate," "predict" or "continue" or the negative of such terms or other comparable terminology. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Our business has been undergoing substantial change, which has magnified such uncertainties. Readers should bear these factors in mind when considering such statements and should not place undue reliance on such statements. Forward-looking statements involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those suggested by such statements. In the past, actual results have differed from those suggested by forward-looking statements and this may happen again. Important factors that could cause actual results to differ include, but are not limited to, the risks discussed in "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015 and the following:

- adverse effects on our business as a result of regulatory investigations or settlements;
- reactions to the announcement of such investigations or settlements by key counterparties;
- increased regulatory scrutiny and media attention;
- uncertainty related to claims, litigation and investigations brought by government agencies and private parties regarding our servicing, foreclosure, modification, origination and other practices, including uncertainty related to past, present or future investigations and settlements with state regulators, the Consumer Financial Protection Bureau (CFPB), State Attorneys General, the Securities and Exchange Commission (SEC), Department of Justice or the Department of Housing and Urban Development (HUD) and actions brought under the False Claims Act by private parties on behalf of the United States of America regarding incentive and other payments made by governmental entities;
- any adverse developments in existing legal proceedings or the initiation of new legal proceedings;
- our ability to effectively manage our regulatory and contractual compliance obligations;
- the adequacy of our financial resources, including our sources of liquidity and ability to sell, fund and recover advances, repay borrowings and comply with our debt agreements, including the financial and other covenants contained in them;
- our servicer and credit ratings as well as other actions from various rating agencies, including the impact of recent or future downgrades of our servicer and credit ratings;
- volatility in our stock price;
- the characteristics of our servicing portfolio, including prepayment speeds along with delinquency and advance rates;
- our ability to contain and reduce our operating costs, including our ability to successfully execute on our cost improvement initiative;
- our ability to successfully modify delinquent loans, manage foreclosures and sell foreclosed properties;
- uncertainty related to legislation, regulations, regulatory agency actions, regulatory examinations, government programs and policies, industry initiatives and evolving best servicing practices;
- our dependence on New Residential Investment Corp. (NRZ) for a substantial portion of our advance funding for non-Agency mortgage servicing rights;
- uncertainties related to our long-term relationship with NRZ;
- the loss of the services of our senior managers;
- uncertainty related to general economic and market conditions, delinquency rates, home prices and disposition timelines on foreclosed properties;
- uncertainty related to the actions of loan owners and guarantors, including mortgage-backed securities investors, the Government National Mortgage Association (Ginnie Mae), trustees and government sponsored entities (GSEs), regarding loan put-backs, penalties and legal actions;

our ability to comply with our servicing agreements, including our ability to comply with our seller/servicer agreements with GSEs and maintain our status as an approved seller/servicer;
uncertainty related to the GSEs substantially curtailing or ceasing to purchase our conforming loan originations or the Federal Housing Authority of the Department of Housing and Urban Development or Department of Veterans Affairs ceasing to provide insurance;
uncertainty with respect to the Home Affordable Modification Program (HAMP) and the Home Affordable Refinance Program (HARP), which have been significant drivers of our servicing and origination revenue and which are scheduled to expire on December 31, 2016, unless extended;

2

- uncertainty related to the processes for judicial and non-judicial foreclosure proceedings, including potential additional costs or delays or moratoria in the future or claims pertaining to past practices;
- our reserves, valuations, provisions and anticipated realization on assets;
- uncertainty related to the ability of third-party obligors and financing sources to fund servicing advances on a timely basis on loans serviced by us;
- uncertainty related to the ability of our technology vendors to adequately maintain and support our systems, including our servicing systems, loan originations and financial reporting systems;
- our ability to effectively manage our exposure to interest rate changes and foreign exchange fluctuations;
- uncertainty related to our ability to adapt and grow our business, including our new business initiatives;
- our ability to maintain our technology systems and our ability to adapt such systems for future operating environments;
- failure of our internal security measures or breach of our privacy protections;
- and
- uncertainty related to the political or economic stability of foreign countries in which we have operations.

Further information on the risks specific to our business is detailed within this report and our other reports and filings with the SEC including our Annual Report on Form 10-K for the year ended December 31, 2015 and our Quarterly and Current Reports on Form 10-Q and Form 8-K, respectively, since such date. Forward-looking statements speak only as of the date they were made and we disclaim any obligation to update or revise forward-looking statements whether as a result of new information, future events or otherwise.

OCWEN FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2016

(Dollars in thousands, except per share data and unless otherwise indicated)

Note 1 – Organization, Business Environment and Basis of Presentation

Organization

Ocwen Financial Corporation (NYSE: OCN) (Ocwen, we, us and our) is a financial services holding company which, through its subsidiaries, originates and services loans. We are headquartered in West Palm Beach, Florida with offices located throughout the United States (U.S.) and in the United States Virgin Islands (USVI) and operations in India and the Philippines. Ocwen is a Florida corporation organized in February 1988.

Ocwen owns all of the common stock of its primary operating subsidiary, Ocwen Mortgage Servicing, Inc. (OMS), and directly or indirectly owns all of the outstanding stock of its other primary operating subsidiaries: Ocwen Loan Servicing, LLC (OLS), Ocwen Financial Solutions Private Limited (OFSPL), Homeward Residential, Inc. (Homeward), and Liberty Home Equity Solutions, Inc. (Liberty).

We perform primary and master servicer activities on behalf of investors and other servicers, including the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac) (collectively, the GSEs), the Government National Mortgage Association (Ginnie Mae) and private-label securitizations (non-Agency). As primary servicer, we may be required to make certain payments of property taxes and insurance premiums, default and property maintenance payments, as well as advances of principal and interest payments before collecting them from borrowers. As master servicer, we collect mortgage payments from primary servicers and distribute the funds to investors in the mortgage-backed securities. To the extent the primary servicer does not advance the scheduled principal and interest, as master servicer we are responsible for advancing the shortfall subject to certain limitations.

We primarily originate, purchase, sell and securitize conventional (conforming to the underwriting standards of Fannie Mae or Freddie Mac; collectively referred to as Agency loans) and government-insured (Federal Housing Authority (FHA) or Department of Veterans Affairs (VA)) forward and reverse mortgages. The GSEs or Ginnie Mae guarantee these mortgage securitizations.

Business, Liquidity, Financing Activities and Management's Plans

We are facing certain challenges and uncertainties that could have significant adverse effects on our business, liquidity and financing activities.

We have faced, and expect to continue to face, increased regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. We have entered into a number of regulatory settlements, which subject us to ongoing monitoring or reporting and which have significantly impacted our ability to grow our servicing portfolio. See Note 17 – Regulatory Requirements and Note 19 – Contingencies for further information regarding regulatory requirements, regulatory settlements and regulatory-related contingencies.

To the extent that an examination, monitorship, audit or other regulatory engagement results in an alleged failure by us to comply with applicable law, regulation or licensing requirement, or if allegations are made that we have failed to comply with the commitments we have made in connection with our regulatory settlements, or if other regulatory actions are taken in the future against us of a similar or different nature, this could lead to (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) inability to raise capital and (vii) inability to execute on our business strategy. Any of these occurrences could increase our operating expenses and reduce our revenues, hamper our ability to grow or otherwise materially and adversely affect our business, reputation, financial condition and results of operations.

Given the intense regulatory scrutiny and the subsequent investments Ocwen has made in its risk and compliance infrastructure, we believe the underlying economics of our Servicing business have likely been changed for the foreseeable future. We believe it is unlikely Ocwen will achieve meaningful profitability in its Servicing business in

the near term unless there is a significant, structural change in the business model. While we believe such structural change is probably unlikely in the current regulatory environment, we are nonetheless intensely focused on improving our operations to enhance borrower experiences and improve efficiencies, both of which we believe will drive stronger financial performance through lower overall costs.

We are also investing in our forward and reverse lending businesses and will continue to evaluate new adjacent market opportunities that are consistent with our strategic goals, such as providing secured floor plan lending to used car dealerships through our Automotive Capital Services (ACS) venture and providing financing to investors to purchase single family homes and apartments for lease through our Liberty Rental Finance venture. Our new ventures involve risks and uncertainties, including potential difficulties integrating new lines of business into our current infrastructure, the inability to achieve the expected financial results in a reasonable time frame, implementing and maintaining consistent standards, controls, policies and information systems, and diversion of management's attention from other business matters. Further, our strategic initiatives could be impacted by factors beyond our control, such as general economic conditions and increased competition. The diversion of management's attention and any delays or difficulties encountered in implementing our new strategic initiatives could negatively impact our business and results of operations. Further, the economic benefits that we anticipate from these strategic initiatives may not develop. There can be no assurance that we will be successful in returning to profitability. Our success will depend on market conditions and other factors outside of our control as well as successful operational execution. If we continue to experience losses, our share price, business, reputation, financial condition and results of operations could be materially and adversely affected.

New Residential Investment Corp. (NRZ) is an important business partner to which we have sold rights to receive servicing fees, excluding ancillary income (other than net income on custodial and escrow accounts), with respect to certain non-Agency mortgage servicing rights (MSRs), which we refer to as Rights to MSRs. As of June 30, 2016, these Rights to MSRs relate to approximately \$128.1 billion in unpaid principal balance (UPB) of our non-Agency MSRs. A level of future uncertainty exists regarding our relationship with NRZ, including with respect to the impact of our Standard & Poor's Ratings Services (S&P) servicer rating under our agreements with NRZ beginning April 7, 2017. Under the Master Servicing Rights Purchase Agreement and Sale Supplements with NRZ, if a termination event related to our servicer rating exists with respect to any servicing agreement, NRZ will have the right to direct the transfer of servicing with respect to any affected servicing agreement to a licensed replacement servicer that obtains all required third-party consents. As of June 30, 2016, a termination event exists because our servicer rating from S&P is below Average. If our servicer rating from S&P is not upgraded to Average or better prior to April 7, 2017, NRZ will have the right to direct the transfer of any affected servicing agreements to a successor licensed servicer that obtains all required third-party consents. Following any such transfer, we would no longer be entitled to receive future servicing fee revenue with respect to any transferred servicing agreement. See Note 4 — Sales of Advances and MSRs for further information regarding our relationship with NRZ.

If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations and other legal remedies. Our lenders can waive their contractual rights in the event of a default. Effective March 24, 2016 we entered into an amendment to our Senior Secured Term Loan (SSTL), which, among other things, removed in their entirety (including the consolidated total debt to consolidated tangible net worth ratio) or amended for the remaining term of the SSTL certain financial covenants. This amendment also required a prepayment of \$6.3 million on May 31, 2016, with additional prepayments of the same amount due on July 29, 2016 and September 30, 2016. As a result of this amendment, we project we will maintain compliance with our financial covenants during 2016. In order to avoid an event of default arising from a covenant breach, we could repay or refinance debt, among other actions. See Note 11 – Borrowings for further information regarding our debt agreements.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions of the Securities and Exchange Commission (SEC) to Form 10-Q and SEC Regulation S-X, Article 10, Rule 10-01 for interim financial statements. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In our opinion, the accompanying unaudited consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation. The results of operations and other data for the three and six months ended June 30, 2016 are not necessarily indicative of the results that may be expected for any

other interim period or for the year ending December 31, 2016. The unaudited consolidated financial statements presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Reclassifications

As a result of our retrospective adoption on January 1, 2016 of FASB Accounting Standards Update (ASU) 2015-03, Interest—Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs, and ASU 2015-15, Interest—Imputation of Interest: Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements—Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015 EITF Meeting, unamortized debt issuance costs that are not related to revolving line-of-credit arrangements have been reclassified from other assets to other secured

borrowings and senior unsecured notes on the consolidated balance sheets, resulting in a reduction to Ocwen's assets and liabilities of \$20.3 million and \$24.5 million at June 30, 2016 and December 31, 2015, respectively.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenues and expenses during the reporting period and the related disclosures in the accompanying notes. Such estimates and assumptions include, but are not limited to, those that relate to fair value measurements, the provision for potential losses that may arise from litigation proceedings, and representation and warranty and other indemnification obligations. In developing estimates and assumptions, management uses all available information; however, actual results could materially differ from those estimates and assumptions.

Recently Issued Accounting Standards

Presentation of Financial Statements—Going Concern: Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15)

In August 2014, the FASB issued ASU 2014-15 to define management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. This ASU provides guidance to an organization's management, with principles and definitions that are intended to reduce diversity in the timing and content of disclosures that are commonly provided by organizations today in the financial statement footnotes.

In connection with preparing financial statements for each reporting period, an organization's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the organization's ability to continue as a going concern within one year after the date that the financial statements are issued (or are available to be issued, when applicable), based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued (or are available to be issued, when applicable).

ASU 2014-15 will be effective for the annual period ending on December 31, 2016 and for interim periods beginning in 2017. While the adoption of this standard may result in additional disclosures, it will not have a material impact on our consolidated financial condition or results of operations.

Leases (ASU 2016-02)

In February 2016, the FASB issued ASU 2016-02 to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key qualitative and quantitative information about leasing arrangements. A lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months, regardless of whether the lease is classified as a finance or operating lease. Additional disclosures will help investors and financial statement users better understand the amount, timing and uncertainty of cash flows arising from leases. ASU 2016-02 will be effective for us on January 1, 2019, with early application permitted. We are currently evaluating the effect of adopting this standard.

Derivatives and Hedging: Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships (ASU 2016-05)

In March 2016, the FASB issued ASU 2016-05 to clarify that a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under FASB Accounting Standards Codification (ASC) Topic 815, Derivatives and Hedging, does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. ASU 2016-05 will be effective for us on January 1, 2017, with early adoption permitted, including adoption in an interim period. We do not anticipate that our adoption of this standard will have a material impact on our consolidated financial statements.

Derivatives and Hedging: Contingent Put and Call Options in Debt Instruments (ASU 2016-06)

In March 2016, the FASB issued ASU 2016-06 to clarify that in assessing whether embedded contingent put or call options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt hosts, an entity is required to apply only the four-step decision sequence in FASB ASC 815-15-25-42 (as amended by this ASU). An entity does not have to separately assess whether the event that triggers its ability to exercise the contingent option is itself indexed only to interest rates or credit risk. ASU 2016-06 will be effective for us on January

1, 2017, with early adoption permitted, including adoption in an interim period. We are currently evaluating the effect of adopting this standard.

11

Investments - Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting (ASU 2016-07)

In March 2016, the FASB issued ASU 2016-07 to simplify the transition to the equity method of accounting as part of its simplification initiative to reduce cost and complexity in accounting standards while maintaining or improving the usefulness of the information provided to the users of financial statements. This standard requires that an equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor's previously held interest and adopt the equity method of accounting as of the date the investment qualifies for equity method accounting, rather than adjusting the investment retroactively. This standard also requires that an entity that has an available-for-sale equity security that qualifies for the equity method of accounting recognize through earnings the unrealized holding gain or loss in accumulated other comprehensive income at the date the investment qualifies for use of the equity method. ASU 2016-07 will be effective for us on January 1, 2017, with early application permitted. We are currently evaluating the effect of adopting this standard.

Revenue from Contracts with Customers: Principal versus Agent Considerations (ASU 2016-08)

In March 2016, the FASB issued ASU 2016-08 to clarify the implementation guidance included in FASB ASC Topic 606, Revenue from Contracts with Customers, related to principal versus agent considerations and add illustrative examples to assist in the application of the guidance. When another party is involved in providing goods or services to a customer, an entity is required to determine whether the nature of its promise is that of a principal -- providing the specified good or service itself, or that of an agent -- arranging for that good or service to be provided by the other party. An entity is a principal if it controls the specified good or service before that good or service is transferred to a customer. ASU 2016-08 will be effective for us on January 1, 2018, with early application permitted. We are currently evaluating the effect of adopting this standard.

Compensation - Stock Compensation: Improvements to Employee Shared-Based Payment Accounting (ASU 2016-09)

In March 2016, the FASB issued ASU 2016-09 to improve the accounting for employee share-based payments. This standard simplifies several aspects of the accounting for share-based payment award transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows, as part of FASB's simplification initiative to reduce cost and complexity in accounting standards while maintaining or improving the usefulness of the information provided to the users of financial statements. ASU 2016-09 will be effective for us on January 1, 2017, with early adoption permitted. We are currently evaluating the effect of adopting this standard.

Revenue from Contracts with Customers: Narrow-Scope Improvements and Practical Expedients (ASU 2016-12)

In May 2016, the FASB issued ASU 2016-12 to amend guidance in FASB ASC Topic 606, Revenue from Contracts with Customers, related to collectability, noncash consideration, presentation of sales tax, completed contracts and transition. The amendments are intended to address implementation issues that were raised by stakeholders and to provide additional practical expedients. These amendments are intended to reduce the risk of diversity in practice and the cost and complexity of applying certain aspects of the revenue standard. ASU 2016-12 will be effective for us on January 1, 2018, with early application permitted. We are currently evaluating the effect of adopting this standard.

Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments (ASU 2016-13)

In June 2016, the FASB issued ASU 2016-13 to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. This standard aligns the accounting with the economics of lending by requiring banks and other lending institutions to immediately record the full amount of credit losses that are expected in their loan portfolios, providing investors with better information about those losses on a more timely basis. The new guidance requires an organization to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This standard requires enhanced disclosures to help investors and other financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. Additionally, the new guidance amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 will be effective for us on January 1, 2020, with early application permitted. We are currently evaluating the effect of adopting this standard.

Note 2 – Securitizations and Variable Interest Entities

We securitize, sell and service forward and reverse residential mortgage loans and regularly transfer financial assets in connection with asset-backed financing arrangements. We have aggregated these securitizations and asset-backed financing arrangements into two groups: (1) securitizations of residential mortgage loans and (2) financings of advances on loans serviced for others.

12

We have determined that the special purpose entities (SPEs) created in connection with our match funded advance financing facilities are variable interest entities (VIEs) for which we are the primary beneficiary.

Securitized Residential Mortgage Loans

Currently, we securitize forward and reverse residential mortgage loans involving the GSEs and Ginnie Mae and loans insured by the FHA or VA. We retain the right to service these loans and receive servicing fees based upon the securitized loan balances and certain ancillary fees, all of which are reported in Servicing and subservicing fees in the Unaudited Consolidated Statements of Operations.

Transfers of Forward Loans

We sell or securitize forward loans that we originate or that we purchase from third parties, generally in the form of mortgage-backed securities guaranteed by the GSEs or Ginnie Mae. Securitization usually occurs within 30 days of loan closing or purchase. We retain the servicing rights associated with the transferred loans and receive a servicing fee for services provided. We act only as a fiduciary and do not have a variable interest in the securitization trusts. As a result, we account for these transactions as sales upon transfer.

We report the gain or loss on the transfer of the loans held for sale in Gain on loans held for sale, net in the Unaudited Consolidated Statements of Operations along with the changes in fair value of the loans and the gain or loss on any related derivatives.

The following table presents a summary of cash flows received from and paid to securitization trusts related to transfers accounted for as sales that were outstanding during the periods ended June 30:

	Three Months		Six Months	
	2016	2015	2016	2015
Proceeds received from securitizations	\$1,357,206	\$1,415,952	\$2,366,470	\$2,486,724
Servicing fees collected	3,549	8,229	6,673	19,093
Purchases of previously transferred assets, net of claims reimbursed	(766) 396	(779) 896
	\$1,359,989	\$1,424,577	\$2,372,364	\$2,506,713

In connection with these transfers, we retained MSRs of \$9.5 million and \$16.7 million during the three and six months ended June 30, 2016, respectively, and \$9.8 million and \$18.3 million during the three and six months ended June 30, 2015, respectively.

Certain obligations arise from the agreements associated with our transfers of loans. Under these agreements, we may be obligated to repurchase the loans, or otherwise indemnify or reimburse the investor or insurer for losses incurred due to material breach of contractual representations and warranties.

The following table presents the carrying amounts of our assets that relate to our continuing involvement with forward loans that we have transferred with servicing rights retained as well as our maximum exposure to loss including the UPB of the transferred loans at the dates indicated:

	June 30, 2016	December 31, 2015
Carrying value of assets:		
Mortgage servicing rights, at amortized cost	\$72,548	\$ 54,729
Mortgage servicing rights, at fair value	163	236
Advances and match funded advances	29,877	26,968
UPB of loans transferred	9,220,490	7,471,025
Maximum exposure to loss	\$9,323,078	\$ 7,552,958

At June 30, 2016 and December 31, 2015, 7.3% and 8.2%, respectively, of the transferred residential loans that we service were 60 days or more past due.

Transfers of Reverse Mortgages

We are an approved issuer of Ginnie Mae Home Equity Conversion Mortgage-Backed Securities (HMBS) that are guaranteed by Ginnie Mae. We originate Home Equity Conversion Mortgages (HECM, or reverse mortgages) that are insured by the FHA. We then pool the loans into HMBS that we sell into the secondary market with servicing rights retained. We have

determined that loan transfers in the HMBS program do not meet the definition of a participating interest because of the servicing requirements in the product that require the issuer/servicer to absorb some level of interest rate risk, cash flow timing risk and incidental credit risk. As a result, the transfers of the HECM loans do not qualify for sale accounting, and therefore, we account for these transfers as financings. Under this accounting treatment, the HECM loans are classified as Loans held for investment - Reverse mortgages, at fair value, on our Unaudited Consolidated Balance Sheets. We record the proceeds from the transfer of assets as secured borrowings (HMBS-related borrowings) in Financing liabilities and recognize no gain or loss on the transfer. Holders of participating interests in the HMBS have no recourse against the assets of Ocwen, except with respect to standard representations and warranties and our contractual obligation to service the HECM loans and the HMBS.

We measure the HECM loans and HMBS-related borrowings at fair value on a recurring basis. The changes in fair value of the HECM loans and HMBS-related borrowings are included in Other revenues in our Unaudited Consolidated Statements of Operations. Included in net fair value gains on the HECM loans and related HMBS borrowings are the interest income that we expect to be collected on the HECM loans and the interest expense that we expect to be paid on the HMBS-related borrowings.

At June 30, 2016, HMBS-related borrowings of \$2.9 billion were outstanding. The amount of HECM loans pledged as collateral to the pools was \$3.0 billion at June 30, 2016. At June 30, 2016, Loans held for investment - Reverse mortgages, at fair value of \$3.1 billion included \$86.2 million of originated loans which had not yet been pledged as collateral.

Financings of Advances on Loans Serviced for Others

Match funded advances on loans serviced for others result from our transfers of residential loan servicing advances to SPEs in exchange for cash. We consolidate these SPEs because we have determined that Ocwen is the primary beneficiary of the SPE. These SPEs issue debt supported by collections on the transferred advances, and we refer to this debt as Match funded liabilities.

We make the transfers to these SPEs under the terms of our advance financing facility agreements. We classify the transferred advances on our Unaudited Consolidated Balance Sheets as Match funded advances and the related liabilities as Match funded liabilities. The SPEs use collections of the pledged advances to repay principal and interest and to pay the expenses of the SPE. Holders of the debt issued by these entities have recourse only to the assets of the SPE for satisfaction of the debt. The assets and liabilities of the advance financing SPEs are comprised solely of Match funded advances, Debt service accounts, Match funded liabilities and amounts due to affiliates. Amounts due to affiliates are eliminated in consolidation in our Unaudited Consolidated Balance Sheets.

Note 3 – Fair Value

Fair value is estimated based on a hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels whereby the highest priority is given to Level 1 inputs and the lowest to Level 3 inputs.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

We classify assets in their entirety based on the lowest level of input that is significant to the fair value measurement. The carrying amounts and the estimated fair values of our financial instruments and certain of our nonfinancial assets measured at fair value on a recurring or non-recurring basis or disclosed, but not carried, at fair value are as follows at the dates indicated:

	June 30, 2016	December 31, 2015
Level

Mortgage servicing rights, at amortized cost (c)(e)	3	346,474	367,951	377,379	461,555
Total Mortgage servicing rights		\$1,047,142	\$1,068,619	\$1,138,569	\$1,222,745

(a) Measured at fair value on a recurring basis.

(b) Measured at fair value on a non-recurring basis.

(c) Disclosed, but not carried, at fair value.

(d) The carrying values are net of unamortized debt issuance costs and discount. See Note 11 – Borrowings for additional information.

(e) The net carrying value at June 30, 2016 and December 31, 2015 is net of the valuation allowance on the impaired government-insured stratum of our amortization method MSR's, which is measured at fair value on a non-recurring basis. Before applying the valuation allowance of \$56.4 million, the carrying value of this stratum at June 30, 2016 was \$154.2 million. At December 31, 2015, the carrying value of this stratum was \$146.5 million before applying the valuation allowance of \$17.3 million.

Edgar Filing: OCWEN FINANCIAL CORP - Form 10-Q

The following tables present a reconciliation of the changes in fair value of Level 3 assets and liabilities that we measure at fair value on a recurring basis:

	Loans Held for Investment - Reverse Mortgages	HMBS-Related Borrowings	Mortgage-Backed Securities	Financing Liability - MSRs Pledged	Derivatives	MSRs	Total
Three months ended June 30, 2016							
Beginning balance	\$2,771,242	\$(2,648,100)	\$ 8,386	\$(523,503)	\$ 570	\$732,174	\$340,769

(1) In the event of a transfer to another party of servicing related to Rights to MSRs, we are required to reimburse NRZ at predetermined contractual rates for the loss of servicing revenues. Settlements for Financing liability - MSRs pledged for the six months ended June 30, 2015 includes \$2.2 million of such reimbursements. There have been no such payments in 2016.

Total losses attributable to derivative financial instruments still held at June 30, 2016 and June 30, 2015 were \$1.9 million and \$0.5 million for the six months ended June 30, 2016 and 2015, respectively. Total losses attributable to (2) MSRMs still held at June 30, 2016 and June 30, 2015 were \$58.5 million and \$40.9 million for the six months ended June 30, 2016 and 2015, respectively.

The methodologies that we use and key assumptions that we make to estimate the fair value of financial instruments and other assets and liabilities measured at fair value on a recurring or non-recurring basis and those disclosed, but not carried, at fair value are described below.

Loans Held for Sale

We originate and purchase residential mortgage loans that we intend to sell to the GSEs. We also own residential mortgage loans that are not eligible to be sold to the GSEs due to delinquency or other factors. Residential forward and reverse mortgage loans that we intend to sell to the GSEs are carried at fair value as a result of a fair value election. Such loans are subject to changes in fair value due to fluctuations in interest rates from the closing date through the date of the sale of the loan into the secondary market. These loans are classified within Level 2 of the valuation hierarchy because the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. We have the ability to access this market, and it is the market into which conventional and government-insured mortgage loans are typically sold.

We repurchase certain loans from Ginnie Mae guaranteed securitizations in connection with loan modifications and loan resolution activity as part of our contractual obligations as the servicer of the loans. These loans are classified as loans held for sale at the lower of cost or fair value, in the case of modified loans, as we expect to redeliver (sell) the loans to new Ginnie Mae guaranteed securitizations. The fair value of these loans is estimated using published forward Ginnie Mae prices. Loans repurchased in connection with loan resolution activities are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables. Because these loans are insured or guaranteed by the FHA or VA, the fair value of these loans represents the net recovery value taking into consideration the insured or guaranteed claim.

For all other loans held for sale, which we report at the lower of cost or fair value, market illiquidity has reduced the availability of observable pricing data. When we enter into an agreement to sell a loan or pool of loans to an investor at a set price, we value the loan or loans at the commitment price. We base the fair value of uncommitted loans on the expected future cash flows discounted at a rate commensurate with the risk of the estimated cash flows.

Loans Held for Investment – Reverse Mortgages

We measure these loans at fair value. For transferred reverse mortgage loans that do not qualify as sales for accounting purposes, we base the fair value on the expected future cash flows discounted over the expected life of the loans at a rate commensurate with the risk of the estimated cash flows. Significant assumptions include expected prepayment and delinquency rates and cumulative loss curves. The discount rate assumption for these assets is primarily based on an assessment of current market yields on newly originated reverse mortgage loans, expected duration of the asset and current market interest rates.

The more significant assumptions used in the June 30, 2016 valuation include:

- Life in years ranging from 5.82 to 9.25 (weighted average of 6.48);
- Conditional repayment rate ranging from 4.94% to 53.75% (weighted average of 19.74%); and
- Discount rate of 2.49%.

Significant increases or decreases in any of these assumptions in isolation could result in a significantly lower or higher fair value, respectively. The effects of changes in the assumptions used to value the loans held for investment are largely offset by the effects of changes in the assumptions used to value the HMBS-related borrowings that are associated with these loans.

Mortgage Servicing Rights

The significant components of the estimated future cash inflows for MSRMs include servicing fees, late fees, float earnings and other ancillary fees. Significant cash outflows include the cost of servicing, the cost of financing servicing advances and compensating interest payments.

Third-party valuation experts generally utilize: (a) transactions involving instruments with similar collateral and risk profiles, adjusted as necessary based on specific characteristics of the asset or liability being valued; and/or (b)

industry-standard modeling, such as a discounted cash flow model, in arriving at their estimate of fair value. The prices provided by the valuation experts reflect their observations and assumptions related to market activity, including risk premiums and liquidity adjustments. The models and related assumptions used by the valuation experts are owned and managed by them and, in many cases, the significant inputs used in the valuation techniques are not reasonably available to us. However, we have an internal understanding of the processes and assumptions used to develop the prices based on our ongoing due diligence, which includes regular discussions with the valuation experts. We believe that the procedures executed by the valuation experts, supported by our internal verification and analytical procedures, provide reasonable assurance that the prices used in our Unaudited

Consolidated Financial Statements comply with the accounting guidance for fair value measurements and disclosures and reflect the assumptions that a market participant would use.

We evaluate the reasonableness of our third-party experts' assumptions using historical experience adjusted for prevailing market conditions. Assumptions used in the valuation of MSR's include:

Mortgage prepayment speeds	Interest rate used for computing the cost of financing servicing advances
Cost of servicing	Interest rate used for computing float earnings
Discount rate	Compensating interest expense
Delinquency rates	Collection rate of other ancillary fees

Amortized Cost MSR's

We estimate the fair value of MSR's carried at amortized cost using a process that involves either actual sale prices obtained or the use of independent third-party valuation experts, supported by commercially available discounted cash flow models and analysis of current market data. To provide greater price transparency to investors, we disclose actual Ocwen sale prices for orderly transactions where available in lieu of third-party valuations.

The more significant assumptions used in the June 30, 2016 valuation include:

Weighted average prepayment speed	13.17 %
Weighted average delinquency rate	11.57 %
Advance financing cost	5-year swap
Interest rate for computing float earnings	5-year swap
Weighted average discount rate	9.06 %
Weighted average cost to service (in dollars)	\$ 107

We perform an impairment analysis based on the difference between the carrying amount and fair value after grouping the underlying loans into the applicable strata. Our strata are defined as conventional and government-insured.

Fair Value MSR's

MSR's carried at fair value are classified within Level 3 of the valuation hierarchy. The fair value is equal to the mid-point of the range of prices provided by third-party valuation experts, without adjustment, except in the event we have a potential or completed Ocwen sale, including transactions where we have executed letters of intent, in which case the fair value of the MSR's is carried at the estimated sale price. Fair value reflects actual Ocwen sale prices for orderly transactions where available in lieu of independent third-party valuations. Our valuation process includes discussions of bid pricing with the third-party valuation experts and presumably are contemplated along with other market-based transactions in their model validation.

A change in the valuation inputs utilized by the valuation experts might result in a significantly higher or lower fair value measurement. Changes in market interest rates tend to impact the fair value for Agency MSR's via prepayment speeds by altering the borrower refinance incentive and the Non-Agency MSR's via a market rate indexed cost of advance funding. Other key assumptions used in the valuation of these MSR's include delinquency rates and discount rates.

The primary assumptions used in the June 30, 2016 valuation include:

	Agency	Non Agency
Weighted average prepayment speed	17.89%	16.93 %
Weighted average delinquency rate	0.51 %	27.94 %
Advance financing cost	5-year swap	1ML plus 3.5%
Interest rate for computing float earnings	5-year swap	1ML
Weighted average discount rate	9.00 %	14.98 %
Weighted average cost to service (in dollars)	\$ 77	\$ 287

Advances

We value advances at their net realizable value, which generally approximates fair value, because advances have no stated maturity, are generally realized within a relatively short period of time and do not bear interest.

Receivables

The carrying value of receivables generally approximates fair value because of the relatively short period of time between their origination and realization.

Mortgage-Backed Securities (MBS)

Our subordinate and residual securities are not actively traded, and therefore, we estimate the fair value of these securities based on the present value of expected future cash flows from the underlying mortgage pools. We use our best estimate of the key assumptions we believe are used by market participants. We calibrate our internally developed discounted cash flow models for trading activity when appropriate to do so in light of market liquidity levels. Key inputs include expected prepayment rates, delinquency and cumulative loss curves and discount rates commensurate with the risks. Where possible, we use observable inputs in the valuation of our securities. However, the subordinate and residual securities in which we have invested trade infrequently and therefore have few or no observable inputs and little price transparency. Additionally, during periods of market dislocation, the observability of inputs is further reduced. Changes in the fair value of our investment in subordinate and residual securities are recognized in Other, net in the Unaudited Consolidated Statements of Operations.

Discount rates for the subordinate and residual securities are determined based upon an assessment of prevailing market conditions and prices for similar assets. We project the delinquency, loss and prepayment assumptions based on a comparison to actual historical performance curves adjusted for prevailing market conditions.

Match Funded Liabilities

For match funded liabilities that bear interest at a rate that is adjusted regularly based on a market index, the carrying value approximates fair value. For match funded liabilities that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. We estimate principal repayments of match funded liabilities during the amortization period based on our historical advance collection rates and taking into consideration any plans to refinance the notes.

Financing Liabilities

HMBS-Related Borrowings

We have elected to measure these borrowings at fair value. We recognize the proceeds from the transfer of reverse mortgages as a secured borrowing that we account for at fair value. These borrowings are not actively traded, and therefore, quoted market prices are not available. We determine fair value by discounting the future principal and interest repayments over the estimated life of the borrowing at a market rate commensurate with the risk of the estimated cash flows. Significant assumptions include prepayments, discount rate and borrower mortality rates for reverse mortgages. The discount rate assumption for these liabilities is based on an assessment of current market yields for newly issued HMBS, expected duration and current market interest rates.

The more significant assumptions used in the June 30, 2016 valuation include:

• Life in years ranging from 4.71 to 9.25 (weighted average of 5.36);

• Conditional repayment rate ranging from 4.94% to 53.75% (weighted average of 19.74%); and

• Discount rate of 1.89%.

Significant increases or decreases in any of these assumptions in isolation would result in a significantly higher or lower fair value.

MSRs Pledged

We periodically sell Rights to MSRs and the related servicing advances. Because we have retained legal title to the MSRs, the sales of Rights to MSRs are accounted for as financings. We initially establish the value of the Financing Liability - MSRs Pledged based on the price at which the Rights to MSRs are sold. Thereafter, the carrying value of the Financing Liability - MSRs pledged is adjusted to fair value at each reporting date. We determine fair value by applying the price of the underlying MSRs to the remaining principal balance related to the underlying MSRs. Since we have elected fair value for our portfolio of non-Agency MSRs, future fair value changes in the Financing Liability - MSRs Pledged will be largely offset by changes in the fair value of the related MSRs.

The more significant assumptions used in determination of the price of the underlying MSR's at June 30, 2016 include:

Weighted average prepayment speed	17.45 %
Weighted average delinquency rate	29.73 %
	1ML
Advance financing cost	plus
	3.5%
Interest rate for computing float earnings	1ML
Weighted average discount rate	15.04 %
Weighted average cost to service (in dollars)	\$ 321

Significant increases or decreases in these assumptions in isolation would result in a significantly higher or lower fair value.

Secured Notes

We issued Ocwen Asset Servicing Income Series (OASIS), Series 2014-1 Notes secured by Ocwen-owned MSR's relating to Freddie Mac mortgages. We accounted for this transaction as a financing. We determine the fair value based on bid prices provided by third parties involved in the issuance and placement of the notes.

Other Secured Borrowings

The carrying value of secured borrowings that bear interest at a rate that is adjusted regularly based on a market index approximates fair value. For other secured borrowings that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. For the SSTL, we based the fair value on quoted prices in a market with limited trading activity.

Senior Unsecured Notes

We base the fair value on quoted prices in a market with limited trading activity.

Derivative Financial Instruments

Interest rate lock commitments (IRLCs) represent an agreement to purchase loans from a third-party originator or an agreement to extend credit to a mortgage applicant (locked pipeline), whereby the interest rate is set prior to funding. IRLCs are classified within Level 2 of the valuation hierarchy as the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. Fair value amounts of IRLCs are adjusted for expected "fallout" (locked pipeline loans not expected to close) using models that consider cumulative historical fallout rates and other factors.

We enter into forward MBS trades to provide an economic hedge against changes in the fair value of residential forward and reverse mortgage loans held for sale that we carry at fair value. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. Forward contracts are actively traded in the market and we obtain unadjusted market quotes for these derivatives, thus they are classified within Level 1 of the valuation hierarchy.

In addition, we may use interest rate caps to minimize future interest rate exposure on variable rate debt issued on servicing advance financing facilities from increases in one-month LIBOR interest rates. The fair value for interest rate caps is based on counterparty market prices and adjusted for counterparty credit risk.

Note 4 — Sales of Advances and MSR's

In order to efficiently finance our assets, streamline our operations and generate liquidity, we sell MSR's, Rights to MSR's and servicing advances to market participants. We may retain the right to subservice loans when we sell MSR's. In connection with sales of Rights to MSR's, we retain legal ownership of the MSR's and continue to service the related mortgage loans until such time as all necessary consents to a transfer of the MSR's are received.

The following table provides a summary of the MSR and advances sold during the six months ended June 30:

	2016		2015	
	MSRs	Advances and Match Funded Advances	MSRs	Advances and Match Funded Advances
Sales price of assets sold and adjustments:				
Accounted for as a sale (1)	\$(229)	\$ 24,053	\$ 608,158	\$ 149,298
Amount due from purchaser at June 30 (2)	—	(1,062)	(135,414)	(20,477)
Amounts paid to purchaser for estimated representation and warranty obligations, compensatory fees and related indemnification obligations	—	—	(83,806)	—
Amounts received from purchaser for items outstanding at the end of the previous year	15,351	43,660	—	—
Total net cash received	\$ 15,122	\$ 66,651	\$ 388,938	\$ 128,821

(1) During the six months ended June 30, 2016 and 2015, we sold MSRs relating to loans with a UPB of \$214.4 million (Agency and non-Agency) and \$64.3 billion (Agency), respectively.

(2) The total amount due at June 30, 2016 on sales of MSRs and advances, which consists primarily of amounts due on sales completed in 2015, is \$36.7 million.

In 2012 and 2013, we sold Rights to MSRs and the related servicing advances to Home Loan Servicing Solutions, Ltd. (HLSS). On April 6, 2015, HLSS closed on the sale of substantially all of its assets to NRZ. References to NRZ in these unaudited consolidated financial statements include HLSS for periods prior to April 6, 2015 because, following HLSS' sale of substantially all of its assets on April 6, 2015, NRZ, through its subsidiaries, is the owner of the Rights to MSRs and has assumed all rights and obligations under the associated agreements. We refer to the sale of Rights to MSRs and the related servicing advances as the NRZ/HLSS Transactions.

Pursuant to our agreements with NRZ, NRZ has assumed the obligation to fund new servicing advances with respect to the Rights to MSRs. We continue to service the loans for which the Rights to MSRs have been sold to NRZ.

Accordingly, in the event NRZ were unable to fulfill its advance funding obligations, as the servicer under our servicing agreements with the residential mortgage backed securitization trusts, we would be contractually obligated to fund such advances under those servicing agreements. At June 30, 2016, NRZ had outstanding advances of approximately \$4.6 billion in connection with the Rights to MSRs.

The servicing fees payable under the servicing agreements underlying the Rights to MSRs are apportioned between NRZ and us as provided in our agreements with NRZ. NRZ retains a fee based on the UPB of the loans serviced, and OLS receives certain fees, including a performance fee based on servicing fees actually paid less an amount calculated based on the amount of servicing advances and cost of financing those advances. The apportionment of these fees with respect to each tranche of Rights to MSRs sold to NRZ is subject to negotiations required to be commenced by NRZ no later than six months prior to the servicing fee reset date. The servicing fee reset date is the earlier of April 30, 2020 or eight years after the closing date of the sale of each tranche of Rights to MSRs to NRZ, unless OLS' S&P or Fitch servicer ratings are below "Average" or "SQ4" or lower, respectively, on the sixth anniversary of the closing date of the particular tranche, in which case such six year anniversary shall be the fee reset date. If the parties are not able to agree on servicing fees prior to the fee reset date, NRZ is required to continue paying under the existing fee structure and the agreements between the parties will continue in effect with respect to each underlying servicing agreement unless and until NRZ directs the transfer of servicing under such servicing agreement to a third-party servicer with respect to which all required third-party consents and licenses have been obtained.

Beginning April 7, 2017, we are obligated to transfer legal ownership of the MSRs to NRZ if and when NRZ obtains all required third-party consents and licenses. If and when such transfer of legal ownership occurs, OLS will subservice the loans pursuant to a subservicing agreement, as amended, with NRZ and the subservicing agreement will have a subservicing fee reset date comparable to the servicing fee reset date described above. NRZ has agreed not to direct our replacement as servicer before April 6, 2017 except under certain limited circumstances.

Beginning April 7, 2017, under the Master Servicing Rights Purchase Agreement and Sale Supplements with NRZ, if a termination event related to a servicer rating downgrade exists with respect to any servicing agreement, NRZ will have the right to direct the transfer of servicing with respect to any affected servicing agreement to a replacement servicer that obtains all required third-party consents and licenses. As of June 30, 2016, a termination event relating to a servicer rating downgrade exists because our servicer rating from S&P is below “Average.” If our servicer rating from S&P is not upgraded to “Average” or better prior to April 7, 2017, NRZ will have the right to direct the transfer of any affected servicing agreements to a

successor servicer that obtains all required third-party consents and licenses. Following any such transfer of an affected servicing agreement, we would no longer be entitled to receive future servicing fee revenue with respect to the transferred servicing agreement.

To the extent servicing agreements underlying Rights to MSRs are terminated as a result of a termination event, NRZ is entitled to payment of an amount equal to an amortized percentage of NRZ's purchase price for the related Rights to MSRs. We paid NRZ \$2.2 million during the six months ended June 30, 2015 in connection with the termination of four servicing agreements underlying the Rights to MSRs.

Our agreements with NRZ provide that, if S&P downgrades our servicer rating to below "Average" (which it has), we will compensate NRZ for certain increased costs associated with its servicing advance financing facilities, including increased costs of funding, to the extent such costs are the direct result of such downgrade. This compensation requirement continued for a period of 12 months (through June 2016), not to exceed \$3.0 million for any calendar month or \$36.0 million in the aggregate. In such circumstances, NRZ was required to use commercially reasonable efforts to assist us in curing any potential cost increases by obtaining amendments to the relevant financing agreements. We incurred \$10.5 million and \$0.3 million during the six months ended June 30, 2016 and 2015, respectively, in connection with this agreement.

The NRZ/HLSS Transactions are accounted for as financings. If and when transfer of legal ownership of the underlying MSRs occurs upon receipt of third-party consents, we would derecognize the related MSRs. Upon derecognition, any resulting gain or loss is deferred and amortized over the expected life of the related subservicing agreement. Until derecognition, we continue to recognize the full amount of servicing revenue and amortization of the MSRs.

The sales of advances in connection with MSR sales, including the NRZ/HLSS Transactions, meet the requirements for sale accounting, and the advances are derecognized from our consolidated financial statements at the servicing transfer date, or, in the case of advances sold in connection with the sale of Rights to MSRs, at the time of the sale. In 2014, Ocwen sold advances related to certain FHA-insured mortgage loans to subsidiaries of NRZ. These advance sales did not qualify for sales treatment and were accounted for as financings (Financing liability - Advances pledged).

Note 5 – Loans Held for Sale

Loans Held for Sale - Fair Value

Loans held for sale, at fair value, represent residential mortgage loans originated or purchased and held until sold to secondary market investors, such as the GSEs or other third parties. The following table summarizes the activity in the balance during the six months ended June 30:

	2016	2015
Beginning balance	\$309,054	\$401,120
Originations and purchases	1,924,514	2,002,503
Proceeds from sales	(1,910,019)	(2,137,272)
Principal collections	(8,877)	(5,185)
Gain on sale of loans	16,009	26,772
Other (1)	9,006	(11,357)
Ending balance	\$339,687	\$276,581

(1) Other includes the increase (decrease) in fair value of \$4.3 million and \$(11.7) million for the six months ended June 30, 2016 and 2015, respectively.

At June 30, 2016, loans held for sale, at fair value with a UPB of \$310.6 million were pledged to secure warehouse lines of credit in our Lending segment.

Loans Held for Sale - Lower of Cost or Fair Value

Loans held for sale, at lower of cost or fair value, include residential loans that we do not intend to hold to maturity. The following table summarizes the activity in the net balance during the six months ended June 30:

	2016	2015
Beginning balance	\$104,992	\$87,492
Purchases	958,610	311,985
Proceeds from sales	(856,426)	(346,681)
Principal collections	(14,109)	(27,957)
Transfers to accounts receivable	(137,605)	(20,962)
Transfers to real estate owned	(5,958)	(1,583)
Gain on sale of loans	12,962	33,068
Decrease (increase) in valuation allowance	(1,275)	38,399
Other	912	2,056
Ending balance (1)	\$62,103	\$75,817

At June 30, 2016 and June 30, 2015, the balances include \$45.5 million and \$65.6 million, respectively, of loans (1) that we were required to repurchase from Ginnie Mae guaranteed securitizations as part of our servicing obligations. Repurchased loans are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables.

The change in the valuation allowance during the six months ended June 30 is as follows:

	2016	2015
Beginning balance	\$14,658	\$49,676
Provision	2,163	386
Transfer from liability for indemnification obligations	1,705	974
Sales of loans	(2,249)	(37,777)
Other	(344)	1,383
Ending balance	\$15,933	\$14,642

At June 30, 2016, Loans held for sale, at lower of cost or fair value with a UPB of \$30.7 million were pledged to secure a warehouse line of credit in our Servicing segment.

In March 2015, we recognized a gain of \$12.9 million on sales of loans with a total UPB of \$42.7 million to an unrelated third party. In May 2015, we recognized a gain of \$7.2 million on sales of a second group of loans with a total UPB of \$33.0 million to an unrelated third party. We had repurchased these loans under the representation and warranty provisions of our contractual obligations to the GSEs as primary servicer of the loans.

Gain on Loans Held for Sale, Net

The following table summarizes the activity in Gain on loans held for sale, net, during the periods ended June 30:

	Three Months		Six Months	
	2016	2015	2016	2015
Gain on sales of loans	\$19,086	\$47,816	\$37,025	\$100,126
Change in fair value of IRLCs	(794)	(4,461)	6,672	(1,011)
Change in fair value of loans held for sale	18,191	(5,630)	21,713	(10,548)
Gain (loss) on economic hedge instruments	(8,425)	7,648	(21,626)	1,539
Other	(201)	(241)	(355)	(470)
	\$27,857	\$45,132	\$43,429	\$89,636

Gains on loans held for sale, net include \$9.0 million and \$15.5 million for the three and six months ended June 30, 2016, respectively, representing the value assigned to MSR retained on transfers of forward loans. For the three and six months ended June 30, 2015, gains attributable to retained MSR were \$9.8 million and \$18.3 million, respectively.

Also included in Gains on loans held for sale, net are gains of \$8.0 million and \$13.0 million recorded during the three and six months ended June 30, 2016, respectively, on sales of repurchased Ginnie Mae loans, which are carried at the lower of cost

or fair value. For the three and six months ended June 30, 2015, gains on sales of repurchased Ginnie Mae loans were \$8.7 million and \$13.0 million, respectively.

Fair value gains recognized in connection with transfers of reverse mortgages into Ginnie Mae guaranteed securitizations are also included in Gains on loans held for sale, net and amounted to \$21.7 million and \$29.7 million for the three and six months ended June 30, 2016, respectively. Fair value gains for the three and six months ended June 30, 2015 were \$35.4 million and \$61.0 million, respectively.

Note 6 – Advances

Advances, net, which represent payments made on behalf of borrowers or on foreclosed properties, consisted of the following at the dates indicated:

	June 30, 2016	December 31, 2015
Principal and interest	\$59,868	\$ 81,681
Taxes and insurance	198,829	278,487
Foreclosures, bankruptcy and other	109,972	126,031
	368,669	486,199
Allowance for losses	(39,441)	(41,901)
	\$329,228	\$ 444,298

Advances at June 30, 2016 include \$62.6 million of previously sold advances that did not qualify for sales accounting. The following table summarizes the activity in net advances for the six months ended June 30:

	2016	2015
Beginning balance	\$444,298	\$893,914
Sales of advances	(24,053)	(132,859)
Collections of advances, charge-offs and other, net	(93,477)	(198,602)
Decrease in allowance for losses	2,460	10,489
Ending balance	\$329,228	\$572,942

The change in the allowance for losses during the six months ended June 30 is as follows:

	2016	2015
Beginning balance	\$41,901	\$70,034
Provision	7,446	20,502
Charge-offs, net of recoveries, and other	(9,906)	(30,991)
Ending balance	\$39,441	\$59,545

Note 7 – Match Funded Advances

Match funded advances on residential loans we service for others are comprised of the following at the dates indicated:

	June 30, 2016	December 31, 2015
Principal and interest	\$816,107	\$ 948,376
Taxes and insurance	579,692	608,404
Foreclosures, bankruptcy, real estate and other	218,648	149,988
	\$1,614,447	\$ 1,706,768

The following table summarizes the activity in match funded advances for the six months ended June 30:

	2016	2015
Beginning balance	\$1,706,768	\$2,409,442
Sales of advances	—	(16,439)
Collections of pledged advances, net	(92,321)	(211,510)
Ending balance	\$1,614,447	\$2,181,493

Note 8 – Mortgage Servicing

Mortgage Servicing Rights – Amortization Method

The following table summarizes changes in the net carrying value of servicing assets that we account for using the amortization method for the six months ended June 30:

	2016	2015
Beginning balance	\$377,379	\$1,820,091
Fair value election - transfer of MSR's carried at fair value (1)	—	(787,142)
Additions recognized in connection with asset acquisitions	12,432	6,252
Additions recognized on the sale of mortgage loans	16,668	18,305
Sales	178	(459,201)
	406,657	598,305
Amortization	(21,153)	(70,080)
Increase in impairment valuation allowance (2)	(39,030)	(1,608)
Ending balance	\$346,474	\$526,617

Estimated fair value at end of period \$367,951 \$648,840

Effective January 1, 2015, we elected fair value accounting for a newly-created class of non-Agency MSR's, which were previously accounted for using the amortization method, based on a different strategy for managing the risks of the underlying portfolio compared to our other MSR classes. This irrevocable election applies to all subsequently acquired or originated servicing assets and liabilities that have characteristics consistent with this class. We recorded a cumulative-effect adjustment of \$52.0 million (before deferred income taxes of \$9.2 million) to retained earnings as of January 1, 2015 to reflect the excess of the fair value of these MSR's over their carrying amount. At December 31, 2014, the UPB of the loans related to the non-Agency MSR's for which the fair value election was made was \$195.3 billion.

Impairment of MSR's is recognized in Servicing and origination expense in the Unaudited Consolidated Statements of Operations. See Note 3 – Fair Value for additional information regarding impairment and the valuation allowance.

Mortgage Servicing Rights – Fair Value Measurement Method

The following table summarizes changes in the fair value of servicing assets that we account for at fair value on a recurring basis for the six months ended June 30:

	2016			2015		
	Agency	Non-Agency	Total	Agency	Non-Agency	Total
Beginning balance	\$15,071	\$746,119	\$761,190	\$93,901	\$—	\$93,901
Fair value election - transfer of MSR's carried at amortized cost	—	—	—	—	787,142	787,142
Cumulative effect of fair value election	—	—	—	—	52,015	52,015
Sales	—	(143)	(143)	(68,144)	(845)	(68,989)
Servicing transfers and adjustments	—	(1,275)	(1,275)	—	(1,139)	(1,139)
Changes in fair value (1):						
Changes in valuation inputs or other assumptions	(5,033)	—	(5,033)	(580)	—	(580)
Realization of expected future cash flows and other changes	(855)	(53,216)	(54,071)	(6,256)	(41,644)	(47,900)
Ending balance	\$9,183	\$691,485	\$700,668	\$18,921	\$795,529	\$814,450

(1) Changes in fair value are recognized in Servicing and origination expense in the Unaudited Consolidated Statements of Operations.

Because the mortgages underlying these MSR's permit the borrowers to prepay the loans, the value of the MSR's generally tends to diminish in periods of declining interest rates, an improving housing market or expanded product availability (as prepayments increase) and increase in periods of rising interest rates, a deteriorating housing market or reduced product availability (as prepayments decrease). The following table summarizes the estimated change in the value of the MSR's that we carry at fair value as of June 30, 2016 given hypothetical shifts in lifetime prepayments and yield assumptions:

	Adverse change in fair value	
	10%	20%
Weighted average prepayment speeds	\$(68,131)	\$(138,502)
Discount rate (option-adjusted spread)	\$(18,605)	\$(33,629)

The sensitivity analysis measures the potential impact on fair values based on hypothetical changes, which in the case of our portfolio at June 30, 2016 are increased prepayment speeds and a decrease in the yield assumption.

Portfolio of Assets Serviced

The following table presents the composition of our primary servicing and subservicing portfolios by type of property serviced as measured by UPB. The servicing portfolio represents loans for which we own the servicing rights while subservicing represents all other loans. The UPB of assets serviced for others are not included on our Unaudited Consolidated Balance Sheets.

	Residential	Commercial	Total
UPB at June 30, 2016			
Servicing	\$216,555,948	\$ —	\$216,555,948
Subservicing	12,720,053	144,639	12,864,692
	\$229,276,001	\$ 144,639	\$229,420,640
UPB at December 31, 2015			
Servicing	\$230,132,729	\$ —	\$230,132,729
Subservicing	20,833,383	105,268	20,938,651
	\$250,966,112	\$ 105,268	\$251,071,380
UPB at June 30, 2015			
Servicing	\$267,996,046	\$ —	\$267,996,046
Subservicing	53,674,533	181,329	53,855,862
	\$321,670,579	\$ 181,329	\$321,851,908

UPB serviced at June 30, 2016, December 31, 2015 and June 30, 2015 includes \$128.1 billion, \$137.1 billion and \$151.2 billion, respectively, for which the Rights to MSR's have been sold to NRZ.

Residential assets serviced includes foreclosed real estate. Residential assets serviced also includes small-balance commercial assets with a UPB of \$1.6 billion, \$1.8 billion and \$2.0 billion at June 30, 2016, December 31, 2015 and June 30, 2015, respectively. Commercial assets consist of large-balance foreclosed real estate.

A significant portion of the servicing agreements for our non-Agency servicing portfolio contain provisions where we could be terminated as servicer without compensation upon the failure of the serviced loans to meet certain portfolio delinquency or cumulative loss thresholds. As a result of the economic downturn beginning in 2007-2008, the portfolio delinquency and/or cumulative loss threshold provisions have been breached by many private-label securitizations in our non-Agency servicing portfolio. To date, terminations as servicer as a result of a breach of any of these provisions have been minimal.

Certain of our servicing agreements require that we maintain specified servicer ratings from rating agencies such as Moody's Investors Service, Inc. (Moody's) and S&P. Out of approximately 3,905 non-Agency servicing agreements, approximately 734 with approximately \$37.1 billion of UPB as of June 30, 2016 have minimum servicer ratings criteria. As a result of downgrades in our servicer ratings, termination rights have been triggered in 649 of these non-Agency servicing agreements. This represents approximately \$31.5 billion in UPB as of June 30, 2016, or approximately 18% of our total non-Agency servicing portfolio.

As described below, with respect to approximately \$18.8 billion in UPB as of June 30, 2016, or approximately 59.7% of the UPB of the non-Agency servicing agreements with triggered termination rights relating to servicer rating downgrades, Ocwen has received notices or solicitation results from trustees or master servicers indicating no current intended action or direction to terminate Ocwen as servicer. Specifically, under 272 of the 649 triggered agreements, trustees and master servicers have sent notices to investors indicating that they did not currently intend to take action relating to the termination rights. In addition, in connection with 69 of the triggered agreements, the trustee or master servicer sent solicitation notices to investors asking whether or not the investor wanted to direct the trustee or master servicer to terminate Ocwen as servicer. The trustee or master servicer has announced results for 49 of the solicitations: 45 resulted in no direction to terminate and four resulted in the termination of Ocwen as servicer in early 2015 due to rating downgrades.

As noted above, in early 2015, we received notices terminating us as the servicer under four of our non-Agency servicing agreements due to rating downgrades. Pursuant to our servicing agreements, generally we are entitled to payment of accrued and unpaid servicing fees through termination as well as all advances and certain other previously unreimbursed amounts, although we lose the future servicing fee revenue. While the financial impact of the termination of servicing under these four servicing agreements was immaterial to our overall financial condition, as it

represented only 0.17% of our overall servicing portfolio as of the time of transfer of servicing, we could be subject to further terminations either as a result of recent servicer ratings downgrades or future adverse actions by ratings agencies, which could have an adverse effect on our business, financing activities, financial condition and results of operations.

28

Downgrades in servicer ratings could adversely affect our ability to finance servicing advances and maintain our status as an approved servicer by Fannie Mae and Freddie Mac. The servicer rating requirements of Fannie Mae do not necessarily require or imply immediate action, as Fannie Mae has discretion with respect to whether we are in compliance with their requirements and what actions it deems appropriate under the circumstances in the event that we fall below their desired servicer ratings.

Servicing Revenue

The following table presents the components of servicing and subservicing fees for the periods ended June 30:

	Three Months		Six Months	
	2016	2015	2016	2015
Loan servicing and subservicing fees:				
Servicing	\$235,542	\$297,773	\$474,180	\$629,973
Subservicing	5,256	15,309	12,495	33,650
	240,798	313,082	486,675	663,623
Home Affordable Modification Program (HAMP) fees	33,493	41,204	56,111	76,380
Late charges	17,474	20,273	36,076	44,395
Loan collection fees	6,985	8,930	14,114	18,494
Other	8,512	13,494	11,782	40,632
	\$307,262	\$396,983	\$604,758	\$843,524

Float balances (balances in custodial accounts, which represent collections of principal and interest that we receive from borrowers), are held in escrow by an unaffiliated bank and are excluded from our Unaudited Consolidated Balance Sheets. Float balances amounted to \$2.7 billion and \$3.4 billion at June 30, 2016 and June 30, 2015, respectively.

Note 9 – Receivables

Receivables, net consisted of the following at the dates indicated:

	June 30, 2016	December 31, 2015
Servicing:		
Government-insured loan claims (1)	\$101,614	\$71,405
Due from custodial accounts	43,781	13,800
Amount due on sales of mortgage servicing rights and advances	36,680	94,629
Reimbursable expenses	33,935	29,856
Other servicing receivables	53,635	32,879
	269,645	242,569
Income taxes receivable	60,679	53,519
Other receivables	25,924	29,818
	356,248	325,906
Allowance for losses (1)	(48,876)	(38,925)
	\$307,372	\$286,981

At June 30, 2016 and December 31, 2015, the allowance for losses related entirely to receivables of our Servicing business. Allowance for losses related to defaulted FHA or VA insured loans repurchased from Ginnie Mae (1) guaranteed securitizations (government-insured loan claims) at June 30, 2016 and December 31, 2015 were \$37.2 million and \$20.6 million, respectively.

Note 10 – Other Assets

Other assets consisted of the following at the dates indicated:

	June 30, 2016	December 31, 2015
Contingent loan repurchase asset (1)	\$253,793	\$ 346,984
Debt service accounts (2)	59,155	87,328
Prepaid expenses (3)	56,414	69,805
Derivatives, at fair value	14,776	6,367
Prepaid income taxes	10,071	11,749
Prepaid lender fees and debt issuance costs, net	10,265	19,496
Mortgage backed securities, at fair value	9,063	7,985
Real estate	7,359	20,489
Other	27,841	16,292
	\$448,737	\$ 586,495

(1) In connection with the Ginnie Mae early buy-out (EBO) program, our agreements provide either that: (a) we have the right, but not the obligation, to repurchase previously transferred mortgage loans under certain conditions, including the mortgage loans becoming eligible for pooling under a program sponsored by Ginnie Mae; or (b) we have the obligation to repurchase previously transferred mortgage loans that have been subject to a successful trial modification before any permanent modification is made. Once these conditions are met, we have effectively regained control over the mortgage loan(s), and under GAAP, must re-recognize the loans on our consolidated balance sheets and establish a corresponding repurchase liability. With respect to those loans that we have the right, but not the obligation, to repurchase under the applicable agreement, this requirement applies regardless of whether we have any intention to repurchase the loan. We re-recognize mortgage loans in Other assets and a corresponding liability in Other liabilities.

(2) Under our advance funding financing facilities, we are contractually required to remit collections on pledged advances to the trustee within two days of receipt. The collected funds are not applied to reduce the related match funded debt until the payment dates specified in the indenture. The balances also include amounts that have been set aside from the proceeds of our match funded advance facilities to provide for possible shortfalls in the funds available to pay certain expenses and interest, as well as amounts set aside as required by our warehouse facilities as security for our obligations under the related agreements. The funds are held in interest earning accounts and those amounts related to match funded facilities are held in the name of the SPE created in connection with the facility.

(3) In connection with the sale of Agency MSR's in 2015, we placed \$52.9 million in escrow for the payment of representation, warranty and indemnification claims associated with the underlying loans. Prepaid expenses at June 30, 2016 and December 31, 2015 includes the remaining balance of \$37.1 million and \$41.3 million, respectively.

Note 11 – Borrowings

Match Funded Liabilities

Match funded liabilities are comprised of the following at the dates indicated:

Borrowing Type	Interest Rate	Maturity (1)	Amortization Date (1)	Available Borrowing Capacity (2)	June 30, 2016	December 31, 2015
Advance Receivables Backed Notes - Series 2014-VF3, Class A (4)	1-Month LIBOR (1ML)(3) + 235 bps	Sep. 2046	Sep. 2016	\$ 70,692	\$90,993	\$ 132,651

Weighted average interest rate

3.20 % 3.15 %

The amortization date of our facilities is the date on which the revolving period ends under each advance facility note and repayment of the outstanding balance must begin if the note is not renewed or extended. The maturity date is the date on which all outstanding balances must be repaid. In all of our advance facilities, there are multiple notes outstanding. For each note, after the amortization date, all collections that represent the repayment of advances pledged to the facility must be applied to reduce the balance of the note outstanding, and any new advances are ineligible to be financed.

(2)

Borrowing capacity is available to us provided that we have additional eligible collateral to pledge. Collateral may only be pledged to one facility. At June 30, 2016, none of the available borrowing capacity could be used based on the amount of eligible collateral that had been pledged.

(3) 1ML was 0.47% and 0.43% at June 30, 2016 and December 31, 2015, respectively.

(4) There is a ceiling of 75 bps for 1ML in determining the interest rate for these variable rate notes.

Under the terms of the agreement, we must continue to borrow the full amount of the Series 2015-T1, T2 and T3 Notes until the amortization date. If there is insufficient collateral to support the level of borrowing, the excess cash proceeds are not distributed to Ocwen but are held by the trustee, and interest expense continues to be based on the full amount of the term notes.

(5) On March 31, 2016, the maximum borrowing under the OSART III facility was increased to \$90.0 million. There is a ceiling of 75 bps for 1ML in determining the interest rate for these variable rate notes.

On March 31, 2016, the combined borrowing capacity of the Series 2015-VF1 Notes was increased to \$160.0 (7) million. On June 10, 2016, the term of this facility was extended for an additional year. There is a ceiling of 125 bps for 1ML in determining the interest rate for these notes.

Pursuant to our agreements with NRZ, NRZ has assumed the obligation to fund new servicing advances with respect to the Rights to MSR. We are dependent upon NRZ for financing of the servicing advance obligations for Rights to MSR where we are the servicer. NRZ currently uses advance financing facilities in order to fund a substantial portion of the servicing advances that they are contractually obligated to make pursuant to our agreements with them. As of June 30, 2016, we were the servicer on Rights to MSR sold to NRZ pertaining to approximately \$128.1 billion in UPB and the associated outstanding servicing advances as of such date were approximately \$4.6 billion. Should NRZ's advance financing facilities fail to perform as envisaged or should NRZ otherwise be unable to meet its advance financing obligations, our liquidity, financial condition and business could be materially and adversely affected. As the servicer, we are contractually required under our servicing agreements to make the relevant servicing advances even if NRZ does not perform its contractual obligations to fund those advances.

In addition, although we are not an obligor or guarantor under NRZ's advance financing facilities, we are a party to certain of the facility documents as the servicer of the underlying loans on which advances are being financed. As the servicer, we make certain representations, warranties and covenants, including representations and warranties in connection with our sale of advances to NRZ.

Financing Liabilities

Financing liabilities are comprised of the following at the dates indicated:

Borrowings	Collateral	Interest Rate	Maturity	June 30, 2016	December 31, 2015
Servicing:					
Financing liability – MSR pledged	MSRs	(1)	(1)	\$495,126	\$ 541,704
Secured Notes, Ocwen Asset Servicing Income Series, Series 2014-1 (2)	MSRs	(2)	Feb. 2028	89,256	96,546
Financing liability – Advances pledged (3)	Advances on loans	(3)	(3)	47,707	59,643
				632,089	697,893
Lending:					
HMBS-related borrowings (4)	Loans held for investment	1ML + 252 bps	(4)	2,935,928	2,391,362
				\$3,568,017	\$ 3,089,255

This financing liability arose in connection with the NRZ/HLSS Transactions and has no contractual maturity or (1) repayment schedule. The balance of the liability is adjusted each reporting period to its fair value based on the present value of the estimated future cash flows underlying the related MSR.

OASIS noteholders are entitled to receive a monthly payment amount equal to the sum of: (a) the designated servicing fee amount (21 basis points of the UPB of the reference pool of Freddie Mac mortgages); (b) any termination payment amounts; (c) any excess refinance amounts; and (d) the note redemption amounts, each as (2) defined in the indenture supplement for the notes. We accounted for this transaction as a financing. Monthly amortization of the liability is estimated using the proportion of monthly projected service fees on the underlying MSR as a percentage of lifetime projected fees, adjusted for the term of the security.

(3) Certain sales of advances in 2014 did not qualify for sales accounting treatment and were accounted for as a financing. This financing liability has no contractual maturity.

(4) Represents amounts due to the holders of beneficial interests in Ginnie Mae guaranteed HMBS. The beneficial interests have no maturity dates, and the borrowings mature as the related loans are repaid.

Other Secured Borrowings

Other secured borrowings are comprised of the following at the dates indicated:

Borrowings	Collateral	Interest Rate	Maturity	Available Borrowing Capacity (1)	June 30, 2016	December 31, 2015
Servicing:						
SSTL (2)	(2)	1-Month Euro-dollar rate + 425 bps with a Eurodollar floor of 125 bps (2)	Feb. 2018	\$ —	\$ 369,103	\$ 398,454
Repurchase agreement (3)(8)	Loans held for sale (LHFS)	1ML + 200 - 345 bps	Sep. 2016	20,937	29,063	42,973
				20,937	398,166	441,427
Lending:						
Master repurchase agreement (4)(8)	LHFS	1ML + 200 bps	Aug. 2016	3,414	196,586	156,226
Participation agreement (5)	LHFS	N/A	Apr. 2017 (5)	—	45,130	49,897
Participation agreement (5)	LHFS	N/A	Apr. 2017 (5)	—	55,724	73,049
Mortgage warehouse agreement (6)(8)	LHFS (reverse mortgages)	1ML + 275 bps; floor of 350 bps	July 2016	—	—	63,175
Master repurchase agreement (7)	LHFS (reverse mortgages)	1ML + 275 bps; 1ML floor of 25 bps	Jan. 2017	40,694	59,306	—
				44,108	356,746	342,347
				65,045	754,912	783,774
Unamortized debt issuance costs - SSTL				—	(16,432)	(20,012)
Discount - SSTL				—	(968)	(1,351)
				\$ 65,045	\$ 737,512	\$ 762,411
Weighted average interest rate					4.21	% 4.38

(1) For our mortgage loan warehouse facilities, available borrowing capacity does not consider the amount of the facility that the lender has extended on an uncommitted basis.

The borrowings are secured by a first priority security interest in substantially all of the assets of Ocwen.

Borrowings bear interest, at the election of Ocwen, at a rate per annum equal to either (a) the base rate (the greatest of (i) the prime rate in effect on such day, (ii) the federal funds rate in effect on such day plus 0.50% and (iii) the one-month Eurodollar rate (1-Month LIBOR)), plus a margin of 3.25% and subject to a base rate floor of 2.25% or (b) the one month Eurodollar rate, plus a margin of 4.25% and subject to a one month Eurodollar floor of 1.25%.

To date we have elected option (b) to determine the interest rate.

We entered into Amendment No. 5 to Senior Secured Term Loan Facility Agreement (the Amendment) effective as of March 24, 2016. The Amendment, among other things:

• permanently removes the consolidated total debt to consolidated tangible net worth ratio, corporate leverage ratio and interest coverage ratio financial covenants;

• maintains the loan-to-value ratio covenant at its current 40% level throughout the remaining term of the SSTL;

•

limits the repurchase of Ocwen's common stock or options to an amount not to exceed the sum of (i) \$20 million plus (ii) an amount equal to (x) \$20 million times (y) the aggregate amount of prepayments on the SSTL made after March 28, 2016 divided by \$50 million;

limits the repurchase of Ocwen's 6.625% Senior Notes (the Senior Unsecured Notes) due 2019 to an amount not to exceed the sum of (i) \$30 million plus (ii) an amount equal to (x) \$30 million times (y) the aggregate amount of prepayments on the SSTL made after March 28, 2016 divided by \$50 million;

requires that we make a prepayment on the SSTL in an amount equal to \$6.3 million (for a total of \$19.0 million) on each of May 31, 2016, July 29, 2016 and September 30, 2016; and

provides for a fee payable to the consenting lenders equal to 1.0% of the aggregate amount of such consenting lenders' SSTL loans outstanding.

The maximum borrowing under this facility is limited to the lesser of \$100.0 million or \$550.0 million less the (3) lender's current lending to Ocwen under advance funding facilities. Fifty percent of the maximum borrowing is available on a committed basis and fifty percent is available at the discretion of the lender.

(4) Under this repurchase agreement, the lender provides financing on a committed basis for \$200.0 million.

Under these participation agreements, the lender provides financing for a combined total of \$250.0 million at the discretion of the lender. The participation agreements allow the lender to acquire a 100% beneficial interest in the underlying mortgage loans. The transaction does not qualify for sale accounting treatment and is accounted for as a (5) secured borrowing. The lender earns the stated interest rate of the underlying mortgage loans while the loans are financed under the participation agreement. On April 26, 2016, the term of these agreements was extended to April 30, 2017.

(6) Borrowing capacity of \$100.0 million under this facility is available at the discretion of the lender. On July 21, 2016, the term of this agreement was extended to August 25, 2016.

(7) We entered into this agreement on January 5, 2016. The lender provides financing on a committed basis for \$100.0 million.

(8) We are in discussions with our lenders for the renewal of facilities maturing during the remainder of 2016, and expect to renew those agreements in normal course.

Senior Unsecured Notes

On May 12, 2014, Ocwen completed the issuance and sale of its \$350.0 million 6.625% Senior Unsecured Notes. The Senior Unsecured Notes are general senior unsecured obligations of Ocwen and will mature on May 15, 2019. The Senior Unsecured Notes are not guaranteed by any of Ocwen's subsidiaries.

The balances of Senior Unsecured Notes as reported on our Unaudited Consolidated Balance Sheets are net of unamortized debt issuance costs of \$3.8 million and \$4.5 million at June 30, 2016 and December 31, 2015, respectively.

Covenants

Under the terms of our debt agreements, we are subject to various qualitative and quantitative covenants. Collectively, these covenants include:

Financial covenants;

• Covenants to operate in material compliance with applicable laws;

• Restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends, repurchasing or redeeming capital stock, transferring assets or making loans, investments or acquisitions;

• Monitoring and reporting of various specified transactions or events, including specific reporting on defined events affecting collateral underlying certain debt agreements; and

• Requirements to provide audited financial statements within specified timeframes, including a requirement under our SSTL that Ocwen's financial statements and the related audit report be unqualified as to going concern.

Financial covenants in our debt agreements require that we maintain, among other things:

• a specified loan to collateral value ratio, as defined under our SSTL; and

• specified levels of tangible net worth and liquidity at the consolidated and OLS levels.

As of June 30, 2016, the most restrictive consolidated tangible net worth requirements were for a minimum of \$1.1 billion at OLS under our match funded debt agreements and two repurchase agreements (Servicing) and \$575.0 million at Ocwen under a master repurchase agreement (Lending).

As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include, among other things, noncompliance with our covenants, nonpayment of principal or interest, material misrepresentations, the occurrence of a material adverse change, insolvency, bankruptcy, certain material judgments and changes of control. Covenants and default provisions of this type are commonly found in debt agreements such as ours. Certain of these covenants and default provisions are open to subjective interpretation and, if

our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations and other legal remedies. Our lenders can waive their contractual rights in the event of a default.

We believe that we are in compliance with all of the qualitative and quantitative covenants in our debt agreements as of the date of these financial statements.

Note 12 – Other Liabilities

Other liabilities were comprised of the following at the dates indicated:

	June 30, 2016	December 31, 2015
Contingent loan repurchase liability (1)	\$253,793	\$ 346,984
Accrued legal fees and settlements	116,297	74,922
Other accrued expenses	97,600	113,934
Liability for indemnification obligations	37,182	36,615
Liability for uncertain tax positions	23,901	44,751
Checks held for escheat	15,065	14,301
Derivatives, at fair value	7,365	—
Payable to loan servicing and subservicing investors	7,209	15,941
Accrued interest payable	4,178	3,667
Other (2)	189,421	93,329
	\$752,011	\$ 744,444

(1) In connection with the Ginnie Mae EBO program, we have re-recognized certain loans on our consolidated balance sheets and established a corresponding repurchase liability regardless of our intention to repurchase the loan.

(2) Includes \$88.1 million and \$18.5 million at June 30, 2016 and December 31, 2015, respectively, for advance collections and servicing fees to be remitted to NRZ.

Note 13 – Derivative Financial Instruments and Hedging Activities

Because many of our current derivative agreements are not exchange-traded, we are exposed to credit loss in the event of nonperformance by the counterparty to the agreements. We manage counterparty credit risk by entering into financial instrument transactions through national exchanges, primary dealers or approved counterparties and the use of mutual margining agreements whenever possible to limit potential exposure. We regularly evaluate the financial position and creditworthiness of our counterparties. The notional amount of our contracts does not represent our exposure to credit loss.

The following table summarizes the changes in the notional balances of our holdings of derivatives during the six months ended June 30, 2016:

	IRLCs	Forward MBS Trades	Interest Rate Caps
Beginning notional balance	\$278,317	\$632,720	\$2,110,000
Additions	3,436,643	2,777,175	195,000
Amortization	—	—	(600,000)
Maturities	(2,382,902)	(1,130,707)	—
Terminations	(691,729)	(1,396,824)	(275,000)
Ending notional balance	\$640,329	\$882,364	\$1,430,000

Fair value of derivative assets (liabilities) at:

June 30, 2016	\$14,576	\$(7,365)	\$200
December 31, 2015	\$6,080	\$295	\$2,042

Maturity	July 2016 - Oct. 2016	Sept. 2016	Nov. 2016 - May 2018
----------	-----------------------------	------------	-------------------------

As loans are originated and sold or as loan commitments expire, our forward MBS trade positions mature and are replaced by new positions based upon new loan originations and commitments and expected time to sell.

Interest Rate Risk Management

Match Funded Liabilities

As required by certain of our advance financing arrangements, we have purchased interest rate caps to minimize future interest rate exposure from increases in the interest on our variable rate debt as a result of increases in the index, such as 1-month LIBOR, that is used in determining the interest rate on the debt. We currently do not hedge our fixed rate debt.

Loans Held for Sale, at Fair Value

The mortgage loans held for sale that we carry at fair value are subject to interest rate and price risk from the loan funding date until the date the loan is sold into the secondary market. Generally, the fair value of a loan will decline in value when interest rates increase and will rise in value when interest rates decrease. To mitigate this risk, we enter into forward MBS trades to provide an economic hedge against those changes in fair value on mortgage loans held for sale. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market.

Interest Rate Lock Commitments

A loan commitment binds us (subject to the loan approval process) to fund the loan at the specified rate, regardless of whether interest rates have changed between the commitment date and the loan funding date. As such, outstanding IRLCs are subject to interest rate risk and related price risk during the period from the date of the commitment through the loan funding date or expiration date. The borrower is not obligated to obtain the loan, thus we are subject to fallout risk related to IRLCs, which is realized if approved borrowers choose not to close on the loans within the terms of the IRLCs. Our interest rate exposure on these derivative loan commitments is hedged with freestanding derivatives such as forward contracts. We enter into forward contracts with respect to both fixed and variable rate loan commitments.

The following summarizes our open derivative positions at June 30, 2016 and the gains (losses) on all derivatives used in each of the identified hedging programs for the period then ended. None of the derivatives was designated as a hedge for accounting purposes at June 30, 2016:

Purpose	Expiration Date	Notional Amount	Fair Value (1)	Gains / (Losses)	Consolidated Statements of Operations Caption
Interest rate risk of borrowings					
Interest rate caps	Nov. 2016 - May 2018	\$1,430,000	\$200	\$(1,986)	Other, net
Interest rate risk of mortgage loans held for sale and of IRLCs					
Forward MBS trades	Sept. 2016	882,364	(7,365)	(21,626)	Gain on loans held for sale, net
IRLCs	July 2016 - Oct. 2016	640,329	14,576	6,672	Gain on loans held for sale, net
Total derivatives			\$7,411	\$(16,940)	

(1) Derivatives are reported at fair value in Other assets or in Other liabilities on our Unaudited Consolidated Balance Sheets.

Included in Accumulated other comprehensive loss (AOCL) at June 30, 2016 and 2015, respectively, were \$1.6 million and \$2.4 million of deferred unrealized losses, before taxes of \$0.1 million and \$0.1 million, respectively, on interest rate swaps that we designated as cash flow hedges. Changes in AOCL during the six months ended June 30 were as follows:

	2016	2015
Beginning balance	\$1,763	\$8,413
Losses on terminated hedging relationships amortized to earnings	(175)	(6,393)
Decrease in deferred taxes on accumulated losses on cash flow hedges	—	360
Decrease in accumulated losses on cash flow hedges, net of taxes	(175)	(6,033)
Other, net of taxes	1	—
Ending balance	\$1,589	\$2,380

As of June 30, 2016, amortization of accumulated losses on cash flow hedges from AOCL to Other income (expense), net is projected to be \$0.3 million during the next twelve months. To the extent we sell the MSR to which the accumulated losses on cash flow hedges applied, a proportionate amount of the remaining unamortized accumulated losses associated with the MSR sold is recognized in earnings at that time.

Other income (expense), net, includes the following related to derivative financial instruments for the periods ended June 30:

	Three Months		Six Months	
	2016	2015	2016	2015
Losses on economic hedges	\$(514)	\$(164)	\$(1,905)	\$(875)
Write-off of losses in AOCL for a discontinued hedge relationship	(70)	(5,950)	(175)	(6,393)
	\$(584)	\$(6,114)	\$(2,080)	\$(7,268)

Note 14 – Interest Expense

The following table presents the components of interest expense for the periods ended June 30:

	Three months		Six Months	
	2016	2015	2016	2015
Financing liabilities (1) (2)	\$52,803	\$74,066	\$120,578	\$147,891
Match funded liabilities	18,133	15,674	36,307	29,955
Other secured borrowings	12,715	25,710	25,428	48,625
6.625% Senior unsecured notes	6,129	6,651	12,270	12,780
Other	1,253	2,796	2,539	5,042
	\$91,033	\$124,897	\$197,122	\$244,293

(1) Includes interest expense related to financing liabilities recorded in connection with the NRZ/HLSS Transactions as indicated in the table below.

	Three months		Six Months	
	2016	2015	2016	2015
Servicing fees collected on behalf of NRZ/HLSS	\$160,518	\$175,108	\$322,647	\$355,405
Less: Subservicing fee retained by Ocwen	85,532	89,991	169,902	181,205
Net servicing fees remitted to NRZ/HLSS	74,986	85,117	152,745	174,200
Less: Reduction in financing liability	27,628	13,276	45,829	30,999
Interest expense on NRZ/HLSS financing liability	\$47,358	\$71,841	\$106,916	\$143,201

The reduction in the financing liability does not include reimbursements to NRZ/HLSS for the loss of servicing revenues when we were terminated as servicer and where the related Rights to MSRs had been sold to HLSS.

Includes \$4.3 million and \$10.5 million of fees incurred during the three and six months ended June 30, 2016, (2) respectively, in connection with our agreement to compensate NRZ/HLSS for certain increased costs associated with its servicing advance financing facilities that are the direct result of a downgrade of our S&P servicer rating. Interest expense that we expect to be paid on the HMBS-related borrowings is included with net fair value gains in Other revenues.

Note 15 – Basic and Diluted Earnings per Share

Basic earnings per share excludes common stock equivalents and is calculated by dividing net income attributable to Ocwen common stockholders by the weighted average number of common shares outstanding during the year. We calculate diluted earnings per share by dividing net income attributable to Ocwen by the weighted average number of common shares outstanding, including the potential dilutive common shares related to outstanding stock options and restricted stock awards. The following is a reconciliation of the calculation of basic earnings per share to diluted earnings per share for the periods ended June 30:

	Three Months		Six Months	
	2016	2015	2016	2015
Basic earnings per share:				
Net income (loss) attributable to Ocwen common stockholders	\$(87,378)	\$ 9,738	\$(198,709)	\$ 44,093
Weighted average shares of common stock	123,893,751	125,311,133	123,993,545	125,291,788
Basic earnings (loss) per share	\$(0.71)	\$ 0.08	\$(1.60)	\$ 0.35
Diluted earnings (loss) per share (1):				
Net income (loss) attributable to Ocwen common stockholders	\$(87,378)	\$ 9,738	\$(198,709)	\$ 44,093
Weighted average shares of common stock	123,893,751	125,311,133	123,993,545	125,291,788
Effect of dilutive elements (1):				
Stock option awards	—	1,830,496	—	1,777,888
Common stock awards	—	10,850	—	6,502
Dilutive weighted average shares of common stock	123,893,751	127,152,479	123,993,545	127,076,178
Diluted earnings (loss) per share	\$(0.71)	\$ 0.08	\$(1.60)	\$ 0.35
Stock options and common stock awards excluded from the computation of diluted earnings per share:				
Anti-dilutive (2)	7,979,821	1,846,374	7,482,868	1,928,638
Market-based (3)	2,045,725	924,438	2,045,725	924,438

For the three and six months ended June 30, 2016, we have excluded the effect of stock options and common stock (1) awards from the computation of diluted earnings per share because of the anti-dilutive effect of our reported net loss.

(2) These stock options were anti-dilutive because their exercise price was greater than the average market price of Ocwen's stock.

(3) Shares that are issuable upon the achievement of certain market-based performance criteria related to Ocwen's stock price.

Note 16 – Business Segment Reporting

Our business segments reflect the internal reporting that we use to evaluate operating performance of services and to assess the allocation of our resources. A brief description of our current business segments is as follows:

Servicing. This segment is primarily comprised of our core residential servicing business. We provide residential and commercial mortgage loan servicing, special servicing and asset management services. We earn fees for providing

these services to owners of the mortgage loans and foreclosed real estate. In most cases, we provide these services either because we purchased the MSR from the owner of the mortgage, retained the MSR on the sale of residential mortgage loans or because

39

we entered into a subservicing or special servicing agreement with the entity that owns the MSR. Our residential servicing portfolio includes conventional, government-insured and non-Agency loans. Non-Agency loans include subprime loans, which represent residential loans that generally did not qualify under GSE guidelines or have subsequently become delinquent.

Lending. The Lending segment is focused on originating and purchasing conventional and government-insured residential forward and reverse mortgage loans mainly through our correspondent lending arrangements, broker relationships and directly with mortgage customers. The loans are typically sold shortly after origination into a liquid market on a servicing retained basis.

Corporate Items and Other. Corporate Items and Other includes revenues and expenses that are not directly related to other reportable segments, business activities that are individually insignificant, interest income on short-term investments of cash, interest expense on corporate debt and certain corporate expenses. New business activities that are currently insignificant include providing short-term inventory-secured floor plan loans to independent used car dealerships through our ACS venture and providing mortgage loans to investors to refinance existing rental properties or purchase foreclosed single-family homes and apartments for lease through our Liberty Rental Finance venture. In addition, Ocwen recently formed a wholly-owned captive reinsurance entity, CR Limited (CRL) and signed a quota share re-insurance agreement with a third-party insurer related to coverage on foreclosed real estate properties owned or serviced by Ocwen.

We allocate interest income and expense to each business segment for funds raised or for funding of investments made, including interest earned on cash balances and short-term investments and interest incurred on corporate debt. We also allocate expenses generated by corporate support services to each business segment.

Financial information for our segments is as follows:

Servicing	Lending	Corporate Items and Other	Corporate Eliminations	Business Segments Consolidated
-----------	---------	---------------------------------	---------------------------	--------------------------------------
